Chatham, Ont., Aug. 4.—(Special)—Judgment in the famous equalization appeal was rendered to-day by the county judge. It dealt at length, and particularly with the municipalities concerned. In the case of eight (five being rural) the assessment is reduced; the remaining nine are increased. The judge gave an important ruling, which will be of interest in other counties. He said:—"So far as the assessment of personal property is concerned, I find that all the township assessors have apparently supposed that the personal property of farmers was exempt from taxation. Briefly stated, it is only farmers' stock that is exempt, and every farmer should be assessed for the machinery on his farm, his vehicles, etc., less the amount for which he owes for the same. He should also be assessed for the produce he has on hand at the time of his assessment. The evidence is to the amount of personal property which has thus escaped assessment in the various rural municipalities, and was very vague and inconclusive, but sufficient evidence was given to show that the amount was large, possibly exceeding one million dollars. It will, I believe, be conceded that the average personal property of each ratepayer in the various townships liable to assessment is at least equal to that of each ratepayer in the towns and villages."

Speaks from Experience

Mr. J. W. Tomlinson, Amherstburg, Ont. speaks from experience when he says:—"I am well satisfied with Doan's Kidney Pills They are undoubtedly the best medicine on the market for any one afflicted with urinary or kidney troubles, such as pain in the back, tired feeling, cramps, numbness, etc. They cured me and removed all my pains and aches."

Mrs. T S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitalizer 'Saved my Life. I consider it the best remedy for a debilitated system I ever used." For dyspepsia, liver or kidney trouble it excels Price 75c. Sold by John Nugent 269 George Street.

A WHISKEY RING

Chicago Times-Herald says a Big Combine Has Been Formed to Control the Price of Spirits.

Chicago, Aug. 5.—According to a story printed in The Times-Herald this morning the efforts of leading distillers and distributors to form a combination to control the production and price of spirits have at last been successful. The final details of the plan of agreement, it is said, have just been decided upon, though frequent meetings have been held, mainly in Chicago, New York and Cincinnati, during the last six months.

The combination is on the percentage allotment plan, with special rules, regulations and forfeitures imposed on distributors. Each distiller producing more than his percentage allotment pays monthly into the pool a certain sum on the surplus. Each distiller producing less than his allotment draws out a similar sum for each gallon short. The executive and arbitration committees include in their membership every important interest in the country and will control the new association.

Her Says There's Nothing in It.

Omaha, Neb., Aug. 5.—When the despatch referring to the alleged successful reorganization of the whiskey trust was shown to P. E. Iler, he emphatically stated that no such combination had been effected and none could be on the basis indicated.

Undoubtedly the Best.

GENTLEMEN,—I wish to say that Dr. Fowlers Extract of Wild Strawberry has proved a wonderful remedy in my family. We would not be without it for twice its price. I say it is the best (not merely one of the best—but the best) medicine ever brought before the public for summer complaint or diarrhœa, either in children or adults.

THE WORKINGMAN...

Made this country. True, the ground was here when he came, but he's made it what it is. From the time that Queen Isabella hocked her jewels in order to "raise the wind," so that Chris. could have a "special sale" across the water in search of Peterborough and the surrounding country, until the present day—not a step has been taken forward—not an improvement has been made in this country—without the aid of the working man. Who is the greatest electrician in the world? Thomas Edison. Who makes the best sewing machines—the best locomotives—the best passengers cars? Who builds the biggest and best buildings, digs the deepest ditches and lays the longest railroads? The workingman. The Peterborough workingman is up to snuff. It did'nt take him long to find out that he could do more days' work in a dollars worth of working man's clothes that he bought here than he'd ever be able to do in any dollar's worth he'd bought before. Where one working man struggled in and bought a pair of Overalls or a pair of Blue Jeans, or a jumper of us in former years, a hundred patronize our workingmen's department to-day. We're proud of it. Are you a working man? Want to buy clothes to wear while you work that will wear while you work? Try us.

We are showing the nicest Novelties for "little men"—the finest ever brought to Peterborough. We also sell knee pants, 3 piece Suits, from $2.75 up. Long Pant Suits, from $3.00 to $5.00 up Single Knee Pants 25c, 35c, 50c, 60c and 75c. Save money by dealing with us.

MUNYON'S
BLOOD AND SKIN CURES

Munyon's Blood Cure will positively cure the worst form of scrofula, erysipelas, salt-rheum, eczema, pimples, syphilitic affections, mercurial taints, blotches, liver spots, tetter and all impurities of the blood.

Munyon's Face and Skin Ointment removes blackheads, pimples, blotches and all skin eruptions. It soothes and heals cuts, sores, scalds and burns and relieves the pain at once. Sore lips, chapped hands, scurvy, eczema, salt rheum and tetter are promptly cured.

A separate cure for each disease. At all druggists, mostly 25c a vial.

Personal letters to Prof. Munyon, 11 and 13 Albert street, Toronto, answered, with free medical advice for any disease.

"JO" MILLER'S STORY.

To Feet o the Sierras Says the Difficulties of the Passes are Not So Horrible as Pictured.

New York, Aug. 5.—A special to The Journal from Fort Wrangel, Alaska, by Joaquin Miller, under date of July 28, says: "I learned to-day that two bands of cattle were driven into the Klondike last summer, and that three bands have already been driven in this year. I find that a band of 1000 sheep passed up those waters in a steamer a few days back, but I do not know certainly that they are now being driven into the Klondike, but they could not well be meant for any other place. And now as to the road, that fearful and perilous, steep and stupendous mountain of ice, that I had to be climbed with ice staff in one hand and rope in the other. Truly, I find that not a single passenger has yet perished on the line in all these past four years that the trail has been used.

"Further than that, I find that whole families, women and children, old men and old women, have gone in by the river recently, and nobody has been the worse for it.

"The newest news about the dread *mountain pass* which, according to all received accounts, was to be undertaken only at the peril of life and limb. Well, men all along here at the Indian villages and postoffices, where we find men to talk to, tell me that the true news was not one-quarter as bad as published; that last winter two mails were brought this way by English mail carriers, and three by American mail carriers, making the monthly mail trips over the sky-scraping glaciers and impassable pass as regularly then in the mid-winter as they make it now in the mid-summer.

"More than this, Mr. White went almost a month ago to cut a trail below and around the so-called death trap, and now it is comfortable. It is three or four miles longer, but it is of easy grade, and a good, safe pack trail four feet wide.

"The first five miles is already wagon road, so, you see, as I prophesied on leaving Seattle, that there was a whole lot of big stories told for the benefit of the far off, poor man who was trying to get to the mines."

TROUBLE IN A BIKE FACTORY.

Manager Arrested at Grand Rapids Charged With Embezzlement.

Grand Rapids, Aug. 5.—Charles a Thayer, vice-president, treasurer, manager and half owner of the Hamilton-Kenwood Bicycle Works, was arrested this morning on a capias for alleged embezzlement of $4000 from the company just before a mortgage was given on the property to J. Frederick Baars a month ago.

The property was to have been sold under the mortgage this morning, but Thayer began suit by injunction to prevent the sale and to have the concern placed in the hands of a receiver. He claims mismanagement and a scheme to wreck the concern on the part of President Charles R. Sligh and Secretary J. D. Case, and a bitter legal fight is in prospect.

The company was organized a year ago, Thayer coming to this city from Chicago, and had a capital of $200,000. Its liabilities now are $101,000, and its assets, according to inventory, about $170,000.

IT WAS A BLOODY BATTLE.

Brazilian Troops Lost 2000 and the Fanatics Half as Many.

New York, Aug. 5.—A despatch to The Herald from Rio Janeiro via Buenos Ayres says: The latest official advices from Canudos state that 2000 Government soldiers were killed in the recent battle there. This leaves the rebel loss in the same fight about 1000. The number of wounded cannot be estimated as yet, as the reinforcements which have gone forward continue to find the injured hidden in the forests and in huts, suffering for food and water.

Sir Thomas Sanderson Does Not Believe the Report of the Bimetallic Envoys.

New York, Aug. 5.—A despatch to The World from London says: Sir Thomas Sanderson, who, as the Permanent Under Secretary, ranks next to Lord Salisury in the Foreign Office, said to The World correspondent: "I do not believe that the British Government has submitted any proposition to the American bimetallic envoys. I have heard of no meeting between President McKinley's commissioners and Lord Salisbury at the Foreign Office next week. The report that one will be held I deem untrue. At that time most of the Cabinet members will be away. Lord Salisbury might come to London from Hatfield, but no notice has been served and most of the Ministers could not be present."

Mr. Balfour's secretary says no such meeting has been arranged. In connection with the grave doubts expressed about any meeting being held before September, it may be noted that Mr. Balfour and the rest of the British Government are firmly of the opinion that it would harm rather than help any practical effort to settle the monetary question. If any offer were to be made by Great Britain before the negotiations, privately conducted, had proved that England, France, Germany and the United States were prepared to agree upon steps to effectively remonetize silver and maintain par of exchange. It is believed that Mr. Balfour has refused to hold any official conference with anybody until party nearly a final agreement has been reached.

London takes Senator Wolcott and his bimetallic colleagues more seriously than Paris did. The French newspapers, including Le Temps, made game of them, but The London Journal regards them with respect.

DOAN'S KIDNEY PILLS

Price 50 cents per Box, or 6 for $2.50. At Druggists, or Mailed on Receipt of Price by T. MILBURN & CO., Toronto.

BASEBALL RECORD.

Toronto, Aug. 6.

Again Toronto gained on Syracuse, although both teams won, but the Islanders took two at Wilkes Barre's expense. Buffalo and Springfield both won, and the four clubs are all pretty well bunched, with the chances of Toronto coming out on top inside of a week at least.

	Won.	Lost.	P.C.
Syracuse	54	34	.613
Toronto	50	34	.595
Buffalo	51	37	.579
Springfield	45	34	.569
Providence	43	40	.518
Scranton	34	43	.441
Montreal	30	51	.370
Wilkes-Barre	23	57	.287

JUMPING UP BY TWOS.

Odwell was an easy mark in the first game, and although the visitors took kindly to Dineen's delivery, the Toronto batsmen made it a cinch from the start. Two singles, a double and two errors scored 3 for the Islanders to start off with. Two more singles, two doubles, a triple and Freeman's home run, with a wild throw, a passed ball and a stolen base, accounted for the 4 in the fourth.

Toronto	3	0	0	4	0	4	7	2	1	21
Wilkes Barre	0	1	1	3	1	0	1	0	0	7

SECOND GAME.

Toronto	0	0	1	1	1	6	0	2	4	15
Wilkes-Barre	0	6	0	4	0	1	0	1	0	12

THE NATIONAL LEAGUE.

At St. Louis The Browns won the opening game from the Pittsburgs. Lucid was given poor support, else the score would not have been so close. Score:

	R.	H.	E.
Pittsburg 1 0 0 1 2 0 0 1 3	7	12	4
St. Louis ..... 2 2 0 1 1 0 0 2 *	8	11	4

Batteries Lucid and Douglass; Hughey and Merritt.

At Brooklyn Brooklyn Washington game postponed; wet grounds.

At Boston—The tremendous hitting of the Baltimores won the game and the visitors used more runs off Nichols than any other club has done this year. Baltimore outplayed the Bostons at every point. Score:

	R.	H.	E.
Baltimore 4 0 1 0 3 0 0 0 1	9	15	2
Boston 1 0 1 0 1 1 0 0 0	4	14	3

Batteries—Corbett and Clarke; Nichols and Bergen.

At Philadelphia—Philadelphia defeated New York in a 12 innings game. It was a warm contest from start to finish. The winning run was made on Lajoie's drive to left field, which Holmes dropped, allowing the man on third to score. One of the features of the game was Cooley's batting. Score:

	R.	H.	E.
Philadelphia 0 0 1 0 1 0 2 0 0 0 1	5	10	2
New York 0 0 2 1 0 0 0 1 0 0 0	4	11	4

Batteries—Taylor and McFarland, Meekin and Wilson.

At Cincinnati—The Indians made their last appearance of the season and were beaten by the Reds in a close and exciting game. Pickering, who was released by the Louisvilles, played right field for the visitors. Attendance—3000. Score:

	R.	H.	E.
Cincinnati ..... 0 0 3 1 0 0 0 1 *—	5	9	3
Cleveland ..... 1 0 3 0 0 0 0 0 0—	4	9	5

Batteries—Ehret, Dammann and Peitz; Powell and Criger.

SYRACUSE WON IN THE TENTH.

At Syracuse—The Clamdiggers batted Malarkey out of the box in the first three innings. Lampe was substituted and held the visitors well. The Stars had made only three runs up to the ninth, when singles by Eagan and Lezotte, bases on balls given to Garry and Bannon, Earl's two-bagger and Schelbeck's home run tied the score. The Stars won in the tenth on Lampe's single and Garry's double. Score:

	R.	H.	E.
Syracuse ..... 0 2 0 0 0 0 0 1 5 1—	9	12	5
Providence ..... 2 1 2 0 0 1 0 2 0 0—	8	13	5

Batteries—Malarkey, Lampe and Shaw; Hudson and Dixon.

At Buffalo—It looked like a victory for Scranton when errors in the fourth gave them two runs, which, with two earned in the same inning, gave them the lead. Buffalo, aided by the rooters, pulled out a victory in the ninth. Score:

	R.	H.	E.
Buffalo ..... 0 1 0 1 0 1 1 0 2—	6	11	4
Scranton ..... 0 0 0 4 0 0 1 0 0—	5	12	3

Batteries—Souders and Urquhart; Wellner and Gunson.

At Montreal—Springfield bunched the hits in the sixth inning and won out the hardest fought game in the history of baseball in this city. Neither club could do much with the opposing pitchers, though both were batted hard, but not safe. Attendance—1000. Score:

	R.	H.	E.
Montreal ..... 2 0 0 0 0 0 0 0 0—	2	7	4
Springfield ..... 0 0 0 2 0 2 0 0 *—	4	5	0

Batteries—Becker and McNamara; Korwin and Duncan. Earned runs—Springfield 1. Two-base hits—Richter, Brouthers. Passed ball—McNamara. Stolen bases—Shannon, Richter. Wild pitch—Becker. Base on balls—By Becker 5, by Korwin 3. Struck out—By Becker 8, by Korwin 5. Sacrifice hits—Dooley, Time—1.45. Umpire—Tip O'Neill.

HAMS BEAT GUELPH

Hamilton, Aug. 5.—The Hamiltons had little difficulty in defeating the Guelph crafts here to-day. Brahm, the Ham's new pitcher, did good work on the slab, and Baker, the Ham's old catcher, was at short. Billy made two hits. Busse of the Leafs made a home run. The score:

	R.	H.	E.
Hamilton ..... 0 0 0 0 3 1 1 3 *—	8	13	2
Guelph ..... 1 0 0 0 0 4 0 0 0—	5	9	8

Batteries—Brahm and Coawell; Doty and Roberts. Umpire—Phelps.

A CHANGE IN TONE.

The Stand Taken by the Doctors in the Kent Case Beginning to Weaken.

OTTAWA, July 26th.—It is safe to say that the statement made under oath by Mr. G. H. Kent of this city with regard to his wonderful recovery from Bright's disease through the agency of Dodd's Kidney Pills has definitely decided the objection as to whether he owes his recovery to this valuable medicine, and has been accepted as a final settlement of the debate. While, however, there is now no question raised to the statement, there is still a strong feeling in the city and neighborhood with regard to the cure, and those who at first combatted the idea as incredible are now loud in their expressions of astonishment that what has been considered an incurable disease should succumb so quickly to a remedy, and in their praise of the remedy itself.

A Summer Specific.

Dr. Fowler's Extract of Wild Strawberry cures cholera, cholera morbus, diarrhœa, dysentery, cramps, colic, summer complaint, canker of the mouth and all bowel complaints of children or adults. It is a soothing, effectual and never failing medicine, which gives immediate relief and speedily effects a cure.

HEART PAINS.

The Heart and Nerves are Often Affected and Cause Prostration of the Entire System.

A Kingston Lady Testifies to Her Experience in the Use of Milburn's Heart and Nerve Pills.

The Following Letter Should Carry Weight.

MESSRS. T. MILBURN & Co., Toronto, Ont.

DEAR SIRS,—I have suffered for some years with a smothering sensation caused by heart disease. The severity of the pains in my heart caused me much suffering. I was also very nervous, and my whole system was run down and debilitated.

Hearing of Milburn's Heart and Nerve Pills being a specific for these troubles, I thought I would try them, and therefore got a box at McLeod's Drug Store.

They afforded me great relief, having toned up my system and removed the distressing symptoms from which I suffered. I can heartily recommend these wonderful pills to all sufferers from heart trouble.

One Laxa Liver Pill every night for a month cures constipation. 199

1871

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

1897

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

Boils

It is often difficult to convince people their blood is impure, until dreadful carbuncles, abscesses, boils, scrofula or salt rheum, are painful proof of the fact. It is wisdom now, or whenever there is any indication of

Impure

blood, to take Hood's Sarsaparilla, and prevent such eruptions and suffering.

"I had a dreadful carbuncle abscess, red, fiery, fierce and sore. The doctor attended me over seven weeks. When the abscess broke, the pains were terrible, and I thought I should not live through it. I heard and read so much about Hood's Sarsaparilla, that I decided to take it, and my husband, who was suffering with boils, took it also. It soon purified our

Blood

built me up and restored my health so that, although the doctor said I would not be able to work hard, I have since done the work for 20 people. Hood's Sarsaparilla cured my husband of the boils, and we regard it a wonderful medicine." MRS. ANNA PETERSON, Latimer, Kansas.

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1.

Hood's Pills cure liver ills, easy to take, easy to operate. 25 cents.

Light variable winds, fine and warm to day and to-morrow.

We are showing a fine line of violins, guitars and at autoharps at very close prices. PETERBOROUGH MUSIC CO.

Cheap Afternoon Trips to Jubilee Point

The steamer City of Peterborough will leave the C.P.R. wharf for Jubilee Point every Tuesday, Thursday and Saturday afternoons at 1.30 o'clock sharp, (weather permitting) calling at Peck's wharf, Ashburnham. Return fares 40c, tea included.

Back at the Old Stand.

W. H. Meldrum is again at the old place, Stevenson's elevator, corner Simcoe street. Highest price paid for all kinds of grain. Flour and feed, all kinds, sold at farmers' prices. It will pay you to come and see me. Seed buckwheat, 55c. per bushel.
W. H. MELDRUM.

A Sad Accident.

While making some tea the other day in a fancy China teapot, the handle came off and spilled the contents. "I would not care so much for the teapot," she said, "but I haven't any more of Elliott's famous tea in the house. Be sure I send to Peterborough to-morrow for some. It's the best I can get for 25c. You should try it."

Novelties in Chairs.

Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round Every new thing quick as it appears. d

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2.75, and at the latter city the great summer sports are in full swing.

To Jubilee on Civic Holiday.

Jubilee has always drawn good excursions on our Civic Holiday, and Court St. Peter's Branch of Foresters will have "the pull" this year. The City of Peterborough has been chartered for the day, and a 50c. ticket covers the whole bill. A programme of sports and an exciting canoe race is included. Make up a party—the whole party can go at the price. See posters.

British Columbia Ore.

In Mr. H. S. Macdonald's window are displayed specimens of gold and silver bearing quarts from two mines owned by the Boundary Falls Mining Company, largely composed of Peterborough gentlemen. One sample from the Boundary Falls mine has a certificated assay of $119 90 to the ton and that for the "Spotted Horse" mine an assay of $113.11. What with gold of this kind in British Columbia, gold in Rainy River district, and lashins of it in cold storage buildings in the Klondyke, our Lady of the Snows is not to be sneered at.

Sample Nuggets.

The Kloudyke gold hunters have exhibited sample nuggets from the inexhaustible gold fields up in that polar country. H. LeBrun & Co. are exhibiting some rare nuggets in bargains during their August sale, of which the following are bonafide samples: Genuine Tweed suits, made to order, for $12, easy worth $15. Genuine Worsted suits, made up to your measure, for $16, easy worth $19. Good business trousers, skillfully cut and fitted to your order, for $2.75, $3.25, $3.75. All our stock of tweeds, worsteds and other first-class cloths reduced to clearing sale prices. Just received a lot of new and well made boys and young men's suits, bought at 40 per cent. reduction, and will be sold equally below their value. H. LEBRUN & CO.

A STONY LAKE MUSICALE.

The Charms of Music and Motion Added to other Lacustrine Delights.

Mr. and Mrs. W. A. Sanderson gave a musicale and dance on Tuesday evening last at their summer residence at Stony lake. It was a charming impromptu affair, and the music throughout, both vocal and instrumental, was very high class, and was listened to by an appreciative and well pleased audience.

Mrs. Sanderson's cottage is well adapted for functions of this sort. The spacious reception room left open to the cooling lake breezes, is a splendid place to hold a musicale, while the broad verandahs left nothing to be desired for a dance, a condition of which the young people were not slow to take advantage.

Mrs. Sanderson in her happy and graceful manner very soon made her many guests, each and every one, feel completely at home, a feeling which is always essential to the success of any reunion.

Among the performers were Mrs. Sanderson, Mr. Anderson, Mr. Frank Roxburgh, Mr. O. Watson, Mr. Seaver, Mrs. C. McClelland and Miss Beatrice Roxborough. Two of the numbers were particularly noticeable on account of their sweetness—*solo*, "O, *Promise Me*," by the hostess, and a string duet by Mr. Frank Roxborough (guitar) and Mr. Ogilvie Watson (banjo).

Dancing was indulged in for a short time afterwards, and the majority of the guests left just before midnight, with the strains of sweet music still lingering in their ears.

Among the guests were Mrs. and Miss Bessie Brock and Mr. Seaver, secretary of H.C.Y.C., Toronto; Mr. and Mrs., Mr. Frank, Miss Beatrice, Mr. Jack and Mr. Gerald Roxborough, of Norwood, Mrs. and Miss Houston, Miss Warnum, Mr. Watson and Mr. Sadler, of Toronto; Mr. Tupper, of Boston; Mr. Anderson, of Cobourg; Miss McKee, of Listowel; Mrs. McAllister, Mr. and Miss Ferguson, the Misses Cameron and Mr. Wilson Cameron, Mr. Moore, Mrs. J. Cameron, Mrs. C. McClelland, Mr. James, Mr. Will and Miss Connal, of Peterborough; Miss Cameron, of Brampton, and Miss Fell, of Toronto.

DEATH OF JOHN CRUESS, EX-M. P. P.

A Reference to the Life of an Ex-Representative of Victoria.

Yesterday the EXAMINER noted the the serious illness of Mr. John Cruess, ex-M. P. The Lindsay Post in recording his death says:—It is our painful duty to announce the death of Mr. John Cruess, of Linden Valley, one of Mariposa's most prominent and respected residents, and one who has been intimately connected with the township and county's history for many years. John Cruess was born in the State of Ohio; at the age of ten years he removed with his parents to Canada, and settled in the township of Mariposa. About forty years ago he married Miss Eliza Betts, of Pickering, who survives him. He leaves three sons and one daughter to mourn his loss. Richard and George, the two eldest, are married and located on adjacent farms, the youngest remaining on the homestead. Mrs. Adam Shier of the township of Brock is a daughter. The deceased was a public spirited man, and filled many offices of trust. He was a member of the Local Legislature for a full term, and was at different times a member of the township and county councils, and took an interest in everything calculated to advance the welfare of his township and locality. In religion he was a consistent member of the Order of Friends, and in politics was a Conservative. His death will cause universal regret throughout the county.

MR. W. H. LAW'S RESIGNATION

The Circular Issued by the Directors.

In reference to the resignation of Mr. W. H. Law, managing director and engineer of the Central Bridge and Engineering Company, the EXAMINER has been furnished with the following circular statement issued by the directors and forwarded to the clientale of the Company:

Office of the Central Bridge and Engineering Co., (Limited.)
Peterborough, Aug. 5th, 1897.

We beg to inform you that Mr. W. H. Law has resigned his position as Manager and Engineer of this Company, and that as a consequence he is no longer in its employ or authorized to transact business in its behalf.

As it is of very great importance that we should get all outstanding contracts completed and accounts settled before undertaking new work; we trust our customers will do what they to facilitate this end.

It is requested that all communications relating to the business of the Company be addressed to the Company.

GOOD TEMPLARS NEWS.

Officers Installed Last Evening at City Lodge.

There was a good attendance of members and friends at the regular meeting of City Lodge, No. 404 last evening.

After routine the officers for the August term were installed by Bro. P. G. Might, L. D., as follows:

Sister C Cairns	P C T
Bro J Stubbs	C T
Sister E Davis	V T
Bro P McFadden	Sec
Bro W H Frith	F S
Sister M Roberts	T
Bro J M Rossel	M
Sister Davidson	G
Bro Warne	S

After the installation the following programme was rendered:

Trio .....Messrs J Miller, V Freeburn and A Pegler
Recitation—encored.....Miss M Ferriman
Reading.....Mr Might
Recitation—encored.....Miss Ferriman

Miss Ritchie played the accompaniments during the evening. The meeting closed with the singing of God Save the Queen.

The Raw Cutting Winds

Bring to the surface every latent pain. Rheumatism neuralgia, lumbago, and complaints of a similar character hold revel at this season of the year amongst human nerves and human muscles. The best the most powerful and most certain pain cure is Nerviline! Nothing equals Nerviline for penetrating power. Nerviline is beyond comparison the grandest discovery for the relief of pain offer to the public.

The Great Attraction This Week.

Gough Bros'. hurricane sale of summer clothing, hats, boots, gloves and furnishings for men, youths and boys will doubtless prove a great attraction this week. A shrinkage of $10,500 on the prices covered by their whole stocks in both stores since last week should be inducement enough to bring crowds to their counters. The prices represent their great reductions in summer stocks, including that portion of the clothing left over from their great sale of the E. A. Small & Co.'s mammoth purchase in Montreal. Everything that cannot be carried over is to be got rid of. The goods cannot be marked any lower, and in order to have the benefit of a fairly good selection they advise all to call early to get the pick of the choicest. The changed prices will probably clear out all the summer goods in about a couple of weeks. dtf

OUR POPULAR PARKS.

A Pen Picture of Their Diversified Delights—Meet Haunts for all Sorts and Conditions of Men, Women and Children.

In old times Peterborough was all park with the exception perhaps of the very centre of the town. An ancient graveyard did as public play ground and the Victoria Gardens for festive occasions and also for cricket, as it was on that green that "Bill Wrighton's Lambs" (now many of them sheep) first budded into an immortality of fame. But as time wore on and booms "struck" the town and people began to acquire the habit of blowing about the town and, incidentally, about themselves, the desirability of more pretentious accommodation manifested itself and lo! today we are in possession of the enjoyment of as fine a system of parks as any city four times the size in Canada, perhaps in the world, but let us leave that hackneyed phase to our cousins across the line, at any rate Canada is big enough for us. The Victoria Park, now so happily named to honour our Gracious Queen, is the gem of the collection. There people learn the art of keeping their places neat and trim and it is delightful to sit up there near the fountain and enjoy the air tempered by the falling water (when it is falling). The band, too, has made that spot a happy one to many a family who cannot pay high figures for concert music and are very glad to enjoy the good music of the band.

JACKSON'S PARK.

Now let us roam away to the picturesque other Park, where the delicious abandon of perfect freedom is felt to the full and picnics are the order of the season. It is delightful to see bands of happy children and happy mothers thoroughly enjoying themselves on land and water—for the water privileges of Jackson Park are the very best to be found. It is possible for the poorest juvenile to dabble his or her feet in the fresh cool water of the creek without running any risk of drowning. Children one foot high may do the same, as the creek is not so high itself. The miniature lake is restful for the eye, and sitting on the opposite bank across the line, your mind's eye can wander just as far away into the land of reverie and love as if you were looking at the slow-rolling billows of Ontario or even of the sea.

EAST NICHOLLS PARK.

Having done with the places of rest and enjoyment for the mind and eye, let us as it were, presto! that is, without having to walk, unless, of course, we have wheels, let us find ourselves just at the top of the western slope of the East Nicholls Park. If you are a new comer you will exclaim, "What a lot of boys!" and then you will follow this up, as the whole scene rushes into view, with another equally pertinent remark—"What a splendid place for the youth of the town to become athletic in!" And it is a splendid place for that very thing, and if it were not for the limits of grammar, etc., we might say a very splendid place. The boys are tearing madly about with their lacrosse sticks, playing the national game with all the old-time energy if not finish. Their bare feet and legs travel fearlessly too, for Mr. Furber keeps the lawn clear of nails and glass. Then in one corner

THE STAID BUT PERFECT GAME

for soberer years, cricket confined within the (3) walls of a net claims the attention of not a few. Oh! for our old time cricket team. That was a team for a country Canadian town. It was a proud thing for us to hear how Stratton, Attewell, Ray and Logan, etc., acquitted themselves and that Toronto was really afraid of our team. Football, too, is played by a large number, even through the summer for it is never hot up there. The air is always fresh and delicious. Then the golfists honour the grounds with their presence occasionally to the delight of the small boys who earn five or ten cents very easily by running after balls the golfists are too lazy to follow. On this lawn the men of Peterborough are growing—growing from boys into men and none the worse physically or mentally for this opportunity of expanding their muscles and their lungs. The track is also good and is patronized largely. Scorchers should be kept strictly to rules, which however, they do not observe. Women and young girls flock to the smooth track but they are constantly in dread of the terrible scorcher clad in a pocket handkerchief and on the uncertain wings of the wind. The Inverlea Park, the home of our future centre of research and learning, the Victoria museum, is a pretty spot and serves a useful purpose.

RETREAT OF CLERGY

Of the Diocese of Peterborough Begins Monday, Aug. 23rd.

The annual retreat of the clergy of the diocese of Peterborough will begin at St. Peter's Cathedral on Monday evening, August 23rd, at nine o'clock. Rev. Father Schneider, C.S.S.R., of Brooklyn, N.Y., will preach the retreat. It is expected that all or nearly all of the priests of the diocese will be present at the retreat.

The Best of Them All.

For cheapness, speed, comfort, enjoyment, and seeing something worth seeing, the Foresters excursion on the Civic Holiday easily leads the procession. By the splendid coaches of the C. P. R. the excursionist is whirled on his way to Toronto. Here the splendid steamers, Chicora, Chippewa and Corona are taken for Queenstown, a fine sail across the lake and up the beautiful Niagara to the historic battle ground. Here the electric cars on the Canadian side are taken, and the excursionist skirts the Canadian bank of the river, which, with its magnificent scenery is always in sight, the open cars halting at all points of interest, such as the stupendous whirlpool, the bridges, Victoria Niagara Falls Park, etc. Those who wish can linger at the Falls, where the beauty of the surroundings will take all the time at their disposal. Those wishing to go to Buffalo can take the splendid steamer Columbian to that city. This is only a hint at the attractions of the route. Now for cheapness! Return tickets for the trip are: To Toronto, $1.75; to Niagara Falls, $2.25; to Buffalo, $2.75. Tickets good for three days. Leave Wednesday evening, Aug. 18th, if you like; stay until Saturday midnight. How's that!

Overstocked with Ripe Bananas.

Everybody should take advantage of this chance to buy ripe bananas at Oke & Co's. Our present large stock consists of extra fine ripe fruit, which will be sold at about half usual price. They must be cleared at once as we have too many in stock to hold long. OKE & Co.

Ball & Co.
FASHIONABLE TAILORS,

AWFULLY SUDDEN DEATH.

Mr. W. Markham of Lindsay Expires Instantly After Running to Catch a Steamer at Yonge Street.

Toronto, Aug. 6.

Among the excursionists on board the Garden City, which brought a large party from Lindsay via Port Hope yesterday, was Mr. M. Markham, a well known merchant of Lindsay, who came to Toronto to make some purchases. He did his business in the city and then hurried down to Yonge-street wharf to catch the boat to return. When he got aboard the steamer he was much exhausted, and sat down upon one of the deck seats. Some of his acquaintances went to speak to him a few minutes afterwards and were horrified to find that he was dead.

Patrol Sergeant Geddes was notified, and he sent for Dr. Cuthbertson, who, after a careful examination, concluded that death was due to heart failure. He considered it wise, however, to notify Coroner Atkins, who, after an investigation, decided that no inquest was necessary, and he gave Dr. Cuthbertson authority to issue a burial certificate.

The body was removed to the morgue in No. 3 patrol wagon and the police notified Mr. Francis Markham, a brother of deceased, who lives at 371 Parliament street. Mr. Markham took charge of the remains until the arrival of deceased's son from Lindsay by the night train. The body will be taken to Lindsay to-day.

Deceased was 65 years of age, and was in the boot and shoe business at Lindsay, where he is a member of one of the best known families.

A DISTINCT DENIAL.

No Testimonial Given in Respect of a Patent Medicine.

To the Editor of the Examiner:

SIR,—I never gave any person permission to use my name in so public a manner in connection with "Doan's Pills," and further, I did not write or enclose such a testimonial.

You will please give this your immediate attention and save trouble.

Respectfully,
MRS. STEPHENS.

Peterborough, Aug. 6.

THE BAND IN THE PARK.

To-Night's Programme for the Delectation of the Citizens.

The following excellent programmee will be presented in Victoria Park to-night by the Fire Brigade Band:

Selection—Popular Melodies	*Williams*
Lancers—King of the Revels	*Hewitt*
Two-step—Uncle Ned	*Hyde*
Schottische—Uncle Ned	*Hyde*
Valse—Donan Weller	*Ivanovici*
Song and Dance—Darling Flo (By request.)	*Hall*

God Save the Queen.

ANOTHER DANGEROUS HOLE.

To the Editor of The Examiner:

DEAR SIR,—While reading in last night's EXAMINER about "the hole which two corporations are liable to find themselves in if they do not mend a hole on the boundary line," it brought to mind a hole nearer than that, where some person will surely drop and perhaps break a limb or possibly their neck; and I think the town will be liable for all damages or ought to be. It is an outside cellar way or trap door—a trap in every sense of the word. Sometimes the planks are over the hole; sometimes the ends of planks will project out of place six or eight inches, and at times the said planks are on a balance—don't know whether to go down cellar themselves, or wait and take some person along with them; and again the planks are off altogether. There are hinges, but the screws are gone—I suppose they would rust if they were left out in the rain. Said hole is about twenty-five feet from the corner, west side of George street, south side on Dublin street. If, by giving this letter space in your paper it should catch the eye of the street inspector, and the hole get properly covered, you will have the thanks of all who pass that way.

Yours, etc.,
ONE OF THEM.

FRIDAY, AUGUST 6, 1897.

Fruit Arrivals.

Peaches in baskets, pears for pickling, black currants in basket or by the quart. A few raspberries still coming in. E. F. MASON & Co.

A Guarantee

The large B stamp on every loaf of Bate's bread is a guarantee of its superiority in flavour of any other, made by our own process of yeast, which is strictly healthful. WALTER BATES, Prop.

Regimental Rifle Match.

Regimental rifle practice at the butts (Curtis') at 1.30 to-morrow. Ammunition may be obtained from captains of companies. Sergt.-Major Peters and Musketry Instructor, Col. Sergt. Bartlett will be in charge of the ranges.

Men's Tweed and Worsted Pants, in all wool, good top and hip pocket, regular price $2.00 to $3.00, Grafton & Co's Summer Clearing Sale Price $1.50.

Almost Drowned in a Barrel.

Meta Consual, the three-year old daughter of John Consual, Belleville, fell into a rain barrel on Tuesday and narrowly escaped being drowned. Her little brother, aged five years, heard the splash and ran to the barrel where he saw the little girl's dress floating on top the water. His screams brought the mother to the rescue, and the child was pulled out. If was none too soon.

How many people are ashamed to go into company on account of their foul-smelling breath, caused from catarrh or cold in head? If they would study their own interests they would soon have a sweet breath like their neighbors. Their is one sure cure for Catarrh and that is Dr. Chase's Catarrh Cure. Give one blow through the blower and you get relief immediately. Price, incuding blower 25cents.

Mammoth Cake of Soap.

There is on exhibition in Waller & Co's window, Charlotte street, a mammoth cake of Ivory Bar Soap, manufactured by the Brantford Soap Works Co., Limited, which required the united strenth of two men to place it in its present position. Any person buying five ordinary bars of this soap for 25c, has the privilege of guessing the weight of the mammoth bar, and the one who guesses the exact weight, or the nearest thereto, will receive a prize of a handsome set of stone china, consisting of 107 pieces. Try a guess.

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

THE COST OF SEWER SERVICE.

Alleged Excess of Cost of Putting Them In.

To the Editor of The Examiner:

DEAR SIR,—This week the work of connecting with my establishment and the Hunter street sewer was done. I requested the connection to be made and was assured by the town authorities that the cost would be $20 only, the town making no profit on the work. However, I was required to put up a cheque for $20 before the work was started. Now, I wish to know if the town is in the plumbing business and is after plumbers' profits for the purpose of making me indirectly help to pay the taxes of other citizens. I was charged $20 for putting in a sewer service which cost only $14 15, leaving the town a clean profit of of $5 85. Whilst the work was going on I quietly took notes, because I thought $20 too much. I took the time of the me, not the prices of the materials correctly and here are the items of the actual cost:

Labour, 3 men, 6 days and 3 hours, at $1.25 per day	$ 7 90
16 lengths of pipe, at 25 cts. per length (the engineer's figures)	4 00
Cement	75
Carting	75
Engineer's commission on $15.00 at 5 per cent	75
Total	$14 15

I have since been told that the engineer gets his commission in the form of a lump sum of $2 00 for each sewer. Allowing this would increase the actual cost to $15 40, which would still leave the town a profit of $4 60.

Now, the claim is made that the town gets no profit for making these connections, but that they are put in at net cost, which my case proves is not so.

This is a very important matter to the ratepayers. We are just entering upon our sewerage system and it is desirable that as many as possible be induced to use the sewers. But at the pace the town authorities have struck they have undertaken to spend thousands of dollars upon sewers and then shut out the public by charging exorbitant prices for services, which no other party is allowed to put in. What make the matter worse, is the fact that my sewer connection is, so the men employed say, the most difficult that they have yet put in, so that the cost mentioned in every case would, as a rule, be a great deal less than mine was and the town would have a much bigger "rake off" than what they exacted from me.

I am willing to pay my just taxes but I object to the town authorities setting up shop and doing work as a monopoly at fancy profits. If I were allowed to do the work I could get it done much more cheaply, and could besides give employment to men who owe me, and, though they are anxious to meet their obligations, cannot do so for lack of employment. I simply give these facts and will allow my fellow ratepayers to draw their own conclusions.

Yours truly,
D. BELLEGHEM.

P.S.—For the benefit of those that will put in services hereafter I might point out that the further you get from the main sewer the shallower the excavations will have to be and of course the cost will be less, so that if the town continues to charge the lump sum of $20 per service the town will be getting, in the case of services where the digging is easy and the sewer near the surface, probably as much as $10 profit on a service.

BURNT RIVER BRIDGE.

Mr. J. B. McWilliams to Decide the Question of Site.

Mr. J. B. McWilliams returned from Kinmount to-day whither he had gone at the request of the Ontario Government to fix the place for the erection of a new bridge across the Burnt river in the township of Somerville. It appears that the township is somewhat divided in opinion as to the most suitable place for its erection, and conflicting representations having been made to the Government, Mr. McWilliams was appointed a special commissioner to investigate and report. His report will be made at once when no doubt a final decision will be arrived at.

Cheap Excursion to Hastings and Return.

The Steamer City of Peterborough will leave the C.P.R. wharf for Hastings on Friday, Aug. 6th, weather permitting, at 7.30 a.m., calling at Peck's wharf, Ashburnham; Jubilee, Harwood and Idyl Wild. Return tickets to Hastings, 60c; Idyl Wild, 50c; Harwood, 50c; Jubilee, 40c.

Buyers Delighted.

You're missing the most interesting prices in first-class summer clothing if you don't attend H. LeBrun & Co's. August clearing sale. At the end of the season we throw profits to the winds, and although it may mean a loss we cannot afford to carry stock over from one season to another. Besides, preparation for receiving early fall stock is now being made and a complete clearance of all summer goods must be effected. Our choicest lines of light summer coats, vests and trousers, tweed suits, negligee shirts, underwear and neckwear at great bargains. Men's Tweed suits at $3 and $3.50. Balbriggan's double thread underwear, all sizes, 75c for the suit, worth $1.25 and $1.50. Natural wool underwear same price. Little prices all over the store to hurry on the clearance. You can bank on the goods being all right. H. LEBRUN & Co.

THIS IS CANADA'S YEAR.

Canada's Contribution to the Triumph of the Chitral Campaign.

Canada is "in the swim" this year up to the chin. Our own Sir Wilfrid, Canada's curled darling, is talked of in every capital of Europe, and is the lion of the hour with with friendly powers or the bete noir of hostile ones. Then, with all our other triumphs we have the honour of furnishing the cause of the biggest attack of "yellow" fever of the century with our ice clad and rock-ribbed gold fields and mines.

The Canadian Engineers, born and educated in Canada, have contributed to the recent victories of the British over the tribesmen in the Chitral: Fort Chakdara, in the Chitral district, the garrison of which has been relieved by the British army under General Blood, is the work of two graduates of the Royal Military College. That the garrison was saved, having held out so well, is attributed to the excellence of the construction of the fort by Capt. Geo. Duff, Royal Engineers, son of Lieut.-Col Duff, of Kingston, and nephew of Sir Oliver Mowat. When a few years ago it was determined to fortify this district, out of the forty officers of the engineer forces in India two Canadians were selected for the work, both graduates of the Royal Military College. Capt. Nanton, formerly of Toronto, was placed in charge of the operations at Malakand, and Capt. Duff in charge of those at Chakdara. These officers had to lay out and superintend the erection of the fortifications, and thoroughly well they seem to have done their duty. It is only reasonable to expect that their good work will be acknowledged by future favours by the army authorities.

THE STONY LAKE REGATTA.

The Matter of Prizes—Will Citizens Interested in Stony Lake Contribute?

In the EXAMINER yesterday, upon information received from an enthusiastic Stony Laker, it was announced that Mr. B. Shortly had been appointed chairman of the committee to solicit prizes for the Stony Lake regatta on Aug. 19th and 20th. It appears however that at a meeting of the Cottagers' Association Mr. B. Shortly and Mr H. LeBrun were appointed to receive contributions to the prize list of the regatta, and it is expected that those who have an interest in the matter will take this opportunity of adding to the success of the regatta, and incidentally to the popularity of Stony Lake, and consequently advance their own interests as cottage holders.

Last year an excellent regatta was run off, but the successful contestants received no prizes—were awarded no laurel wreath. This, while a small matter, is very important, and he or she that wins should have some little trifle to symbolize their victory. Ladies interested in Stony Lake and its attractions could contribute canoe flags and other elegant trifles. Ladies of old lent their colours to their favoured knights who upheld them in the lists of the tourney, and little gifts contributed by the ladies might bring out many knights of the blade and paddle to do their devoir on the regatta course. Others might contribute paddles, etc., and others might contribute other articles, not necessarily of great intrinsic value but very valuable as trophies of events won in the regatta.

Stony Lake is growing more popular every year, and every year increasing number of strangers are coming to enjoy the pleasures it affords. The proposed regatta can be made a medium of further and greatly popularizing this delightful resort.

It remains, therefore, for the cottagers and those more or less directly interested in the lakes, to send in contributions for prizes suitable for the regatta on the 19th and 20th.

Prizes or expression of an intention to contribute prizes may be handed in or sent to Messrs. LeBrun and Shortly. Let there be a generous response such as will make the regatta boom.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

THE WHEEL.

Bicycles are cheaper
Than ever this year,
But the bicycle girl
Remains just as dear.

LACROSSE.

Lacrosse practice to-night.

Cornwall expects to win from the Caps in Cornwall on Saturday. The latter team is only in fair shape.

ORILLIA ALL THE WAY.

Orillia, Aug. 5th.—The largest score in the C.L.A this season was made here by the home team whitewashing Uxbridge in the first game of the semi final series by a score of 10 to 0. Mr. Herb Lennox, of Aurora, acted as referee, and his decisions were most fair in every respect. Mr. S. A. Kennedy, of Barrie, and Mr. L. Cameron, of Beaverton, were the umpires. This was Orillia's Civic Holiday and although there were several large excursions out of town about 600 enthusiastic citizens cheered their winning team on to victory. The match throughout was fast and clean and the fine combination of Curran, Dunn, Blain and Tudhope on the field made it easy for Frost and Watson to score when they pleased. The home defence had little or nothing to do. Went, at point was out for the first time this season and showed splendid form. Hanley stopped the few shots that came his way, and then the splendid passing between Connors, McKay and Hammond, on defence, made the combination complete from goal to goal. The Uxbridge team play nice lacrosse, but they seemed to know nothing of the art of passing the ball.

BASEBALL.

There was a good turn out of players last night.

An effort is being made to arrange a game with Cobourg at Jubilee Point in the near future.

LAWN TENNIS.

The lawn tennis match between Millbrook and Peterborough was not finished, Owing to the late arrival of the Millbrook's it was too dark to finish the match. The net was dropped on a tie—three events to each side.

A Banker's Experience.

"I tried a bottle of Dr. Chase's Syrup of Linseed and Turpentine for a troublesome affection of the throat," writes Manager Thomas Dewson, of the Standard Bank, now of 14 Melbourne Avenue, Toronto. "It proved effective. I regard the remedy as simple, cheap and exceedingly good. It has hitherto been my habit to consult a physician in troubles of this nature. Hereafter, however, I intend to be my own family doctor."

For Table and Dairy, Purest and Best

PERSONAL.

Rev. Walter Roger is in town.

Mrs. Leach, of Montreal, is the guest of her aunt, Mrs. (Dr.) Butler.

Miss Laura Crose, of Toronto, is visiting Miss Lizzie Scott, Ashburnham.

Miss C. Graham is visiting friends in the vicinity of Keene.

Mrs. A. Lamb, of Peterborough, the Mirror says, is visiting her Omemee friends.

Misses Lila and Amy Parsons, says the Omemee Mirror, are home from Peterborough.

Mrs. T. LeHane, of Rochester, N.Y., is visiting her sister, Mrs. O'Shea, Commercial House.

Misses Estella and Fannie McFadden returned home to day from Lindsay after a two week's visit.

Mrs. B. Ritchie left yesterday for Port Carling, where she will be the guest of Mrs. A. A. McIntyre.

Mr. Jas. Long, confectioner, left to-day on a holiday with friends in Moscow, near Kingston, Ont.

Last night Mayor Fleming of Toronto was appointed assessment commissioner of the city at a salary of $4,000 a year.

Miss H. Costello, of Lindsay, is visiting relatives in town. Miss Costello has been teacher of stenography in Perth Business College.

Mrs. John Bennett, sr., of Otonabee, is quite unwell, but her many friends hope soon to see a noticeable improvement in health.

Mrs. Newall, of Michigan, is visiting her brother, Mr. John Bennett, and renewing old acquaintances in and around Peterborough.

Sir Wilfrid Laurier, after a very pleasant stay, left Paris for Switzerland Thursday, accompanied by Lady Laurier. The Premier and Lady Laurier are both in good health.

Miss Emma Oliver, who has been visiting her Peterborough and Millbrook friends the past couple of weeks, says the Omemee Mirror, returned to her home at Port Hope on Monday.

Mr. Wilfred Crossley, of Ormond & Walsh's, has returned home after spending a very pleasant holiday at Wabaushene, the guest of Mr. Wm. Hayden, formerly station agent here.

Mr. D. B. Gardner, a former well known resident of town, now of Aylmer P. Q., is in town for the purpose of joining his children in a holiday at Stony Lake, where they are the guests of Mr. Roger.

Misses Effie and Annie Morrison, of Owen Sound, are in town visiting with Mr. Angus McPherson, sr., 73 Patterson street. This morning they and their cousins, Messrs. Angus jr. and Frank, went out to Young's Point for the day.

Mrs. (Judge) Dean, of Lindsay, is credited with landing a fifteen pound lunge at Sturgeon Point and a little later Mr. G. K. Dean is accused by the Lindsay Post with landing a sixteen pounder with a rod and line. Comment is uncalled for. Fish literature is of the elastic variety.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—430 George Street.

B.B.B.
FOR THE BLOOD

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action.

B.B.B. FOR THE BLOOD — B.B.B. FOR THE BLOOD — B.B.B. FOR THE BLOOD

JESSIE CAME TO TORONTO.

Miss Thompson, on Losing Her Father in Montreal, Went on Board the Steamer Spartan and is Safe.

Kingston, Ont., Aug. 4.—Miss Jessie Thompson is safe. When lost to her father in the crowd on St. Catharine-street, Montreal, she went to the steamer Spartan, on which her father is engaged, and on which she had gone to Montreal, and started homeward with the boat. She reached here yesterday and proceeded to Toronto to complete her holiday outing. She is unconscious of the furore her absence created, and her mother only knew of the disappearance last night by reading the papers.

Hogan, who was found in Warden Metcalfe's house, was before Judge Price today. He pleaded guilty, and was sentenced to five years in the penitentiary.

A man may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tube" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the whites of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them more on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

Address with 31 cents in one-cent stamps to cover cost of mailing only, World's Dispensary Medical Association, Buffalo, N.Y., and get a free copy of the "Medical Adviser."

TORONTO MARKETS

Flour—The market is firm, owing to the strength of wheat. Straight rollers quoted at $3.50 to $3.65 west.

Bran—Prices are unchanged at $8 west for bran and $9 for shorts. Bran is quoted here at $10.

Wheat—The demand is fair for wheat and the offerings restricted. Sales of red winter at 75c and of white at 76c west. No. 1 Manitoba hard is quoted at 81c to 82c Fort William and at 99c Owen Sound. No. 2 Manitoba hard quoted at 84c Owen Sound. No. 1 hard sold at 90c Toronto.

Buckwheat—The demand is limited, and prices nominal.

Barley—The market is quiet, with no business reported.

Oats—The market continues firm, with a fair demand. White sold at 23c west and mixed at 22c west.

Peas—The market is quiet and prices rule firm. Sales at 45c west.

Oatmeal—The market is quiet and prices higher at $3.10 to $3.20 for cars on track.

Corn—The demand is fair and prices firm, there being sales outside at 27c to 27½c west.

Rye—The stock is about exhausted and prices normal at about 35c to 36c outside.

Paris—Wheat 26f for Sept. Flour 55f for Sept. French country markets firm.

Liverpool—Close: Wheat steady at 6s 6¾d for Sept. and 6s 6d for Dec. Maize quiet at 2s 11½d for Aug., 3s 1½d for Sept. and 3s 2¼d for Oct. Flour 21s 9d.

We know the great cures of Hood's Sarsaparilla are genuine because the people themselves write about them.

Piles! Piles! Itching Piles.

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumour. All druggists or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman Sons & Co. Montreal wholesale agents.

THE STRIKING MINERS.

Leaders Losing Courage According to One Report—Schmocks Mines Again Closed Down.

Wheeling, W. Va., Aug. 4.—Except in the Fairmont region the leaders are losing courage. The strike in the Kanawha Valley is a failure thus far, while in the New River region there has been but little to lend encouragement. On the Norfolk and Western there is nothing to indicate that a strike was ever ordered, aside from a few disheartened agitators, who are met coldly by the miners.

Miners' day, to-morrow, is looked forward to with the hope that it may effect a change. The disorder at Corinth last night leads to the fear that serious trouble may follow an attempt to arrest the foreigners who are mixed up in it. There is a feud between the Italian and Hungarian miners, and since they have taken opposite sides of the strike they are decidedly dangerous.

One More Closed Down.

Pittsburg, Pa., Aug. 4.—The miners at Schmock's mines on the Headstone Branch of the Pennsylvania Railroad came out to-day and the mines are once more closed down. When the news was received in this city the price of coal jumped to $1.00 a ton, and brokers said prices were likely to advance to $1.50 before next week. President W. P. Dearmitt of the New York and Cleveland Gas Coal Company says that his men are not on strike and are not in sympathy with the movement.

"They have been intimidated," said he, "and I have no doubt that all would return to work if the forces of strikers encamped at the different mines were withdrawn.

BASEBALL RECORD.

	Won.	Lost.	P.C.
Syracuse	53	34	.609
Toronto	48	34	.585
Buffalo	50	37	.574
Springfield	44	34	.564
Providence	43	39	.524
Scranton	34	42	.447
Montreal	30	50	.375
Wilkes Barre	25	55	.238

ANOTHER FOR SPRINGFIELD.

Montreal, Que., Aug. 4.—Montreal could not find Malins. Belcourt was an easy mark for Springfield. A feature of the game was Lynch's fielding. Attendance 900.

Montreal ..... 0 0 0 0 0 1 0 2 0—3
Springfield ..... 3 1 0 0 4 2 0 1 x—11

GREYS KNOCK THEM DOWN.

Syracuse, Aug. 4.—The Providence Greys outbatted and outfielded the home team here to-day, winning the game handily. Schelbeck's errors were costly. The feature of the game was a one-handed catch by Garry in the fourth innings of a long fly from Dixon's bat, then doubling Lyons at second base. Jud Smith, in the sixth innings, knocked the ball into a clump of long grass in right field, scoring before it was found. Score:

	R.	H.	E.
Syracuse	2	3	1
Providence	3	0	3

Batteries—Mahaffey, Kissinger and Ryan; Braun, Egan and Dixon.

SCRANTON'S DOWNWARD COURSE.

Buffalo, Aug. 4.—A good, snappy game was put up by both teams to-day. Gray was invincible, and that's the whole story of Scranton's defeat. They played an errorless game, but the Bisons again exhibited a fondness for their pitcher. Clymer was put out of the game in the second innings because he kicked too vigorously on a decision. His substitute, Barry, played a brilliant game. Score:

	R.	H.	E.
Buffalo	3	9	2
Scranton	1	8	0

Batteries—Gray and Urquhart; Gilson and Boyd.

THE STARS OF THE NATIONAL.

At Louisville—Two games were to have been played, but in the second innings of the first, with the score 3 to 2 in the home team's favor, Burkett called Umpire Wolf a vile name and was ordered out of the game. Captain Tebeau refused to put a man in to bat for Burkett, and after waiting five minutes Wolf gave the game to Louisville, 9 to 0. The Indians played as if they did not care whether school kept or not in the second game, and the Colonels won easily. In the ninth innings Burkett again insulted Umpire Wolf, and was ordered out of the game. He refused to leave first base, and the umpire called two policemen and Burkett was forcibly ejected from the grounds. Right Fielder McGeverty has been traded to New York for Dad Clark and money consideration, and Pitcher Miller has been given ten days' notice of release. Attendance 1100. Score:

	R.	H.	E.
Louisville	7	12	2
Cleveland	4	9	1

Batteries—Frazer and Wilson; Brown and Criger.

At Cincinnati—The Reds and Pittsburgs played two games. Killen pitched the first game for the visitors, and the Reds found him very easy and won the game easily. The second game was called in the sixth innings on account of darkness, with the score a tie. In the second innings Hurst had given the Reds the worst of a decision, and an irate rooter rolled a beer glass into the diamond. Umpire Hurst picked up the glass and threw it into rooters' row, and hit John Cartwright over the eye, inflicting a serious wound. A patrol wagon was called and Hurst was arrested, charged with assault and battery. Attendance 3500. Score:

First game—

	R.	H.	E.
Cincinnati	14	15	4
Pittsburg	5	6	0

Batteries—Rhines and Peltz; Killen and Sugden.

Second game—

	R.	H.	E.
Cincinnati	4	6	3
Pittsburg	3	6	3

Batteries—Dwyer, Ehret and Schriver; Gardner and Merritt.

At Chicago—The Browns closed their season by taking a hard-fought but loosely-played game from the Colts. Callahan lost his own game in the ninth by presenting two bases and making a wild pitch. Score:

	R.	H.	E.
Chicago	5	16	4
St. Louis	4	13	4

Batteries—Callahan, Thornton and Kittridge; Coleman, Donohue and Douglass.

At Brooklyn—The Washingtons reached the grounds only a few minutes before the time for play, but they put up a game that would be a credit to any club. It was not until the eleventh innings that the home team was able to claim the victory. Manager Selee of the Bostons, who saw the game, says he is after a pitcher. Manager Barnie of the Brooklyns left for New England, where he expects to secure some new blood. Score:

	R.	H.	E.
Brooklyn	2	12	1
Washington	1	6	3

Batteries—Dunn and Grim; Mercer and Farrell.

A CONSTABLE TALKS.

Like Ordinary Mortals Subject to Kidney Disease but Easily Cured by Dodd's Kidney Pills.

STAYNER, (Special), Aug. 2.—Mr. James K. Nesbitt, a county constable of this place, having suffered for a long time with kidney disease, he became aware that the doctors called it diabetes and incurable. As he had the good fortune to know that many cases of this disease had been cured by Dodd's Kidney Pills this news did not startle him. He says he went straight to Sander's drug store, and commenced to get well on the first box purchased. Now he is going the usual rounds praising Dodd's Kidney Pills to every one who asks the particulars of his recovery.

AN ULTIMATUM TO PERU.

Uncle Sam Says the McCord Claim Must be Paid Without More Ado.

New York, Aug. 4.—A special to The Herald from Washington says: An ultimatum has been presented to the Peruvian Government by the administration, requiring the immediate payment of the McCord claim of $50,000. While no threat of coercion is made in case of refusal, the note makes the positive statement that any further delay on the part of Peru to close the incident will be considered as injurious to the cordial relations existing between the two Governments. The Peruvian Minister has cabled the note to Lima, and is now awaiting instructions from his Government.

It is expected that the Peruvian Government will try to obtain further consideration of the case, but such an attempt will not meet with success. The State Department has informed Peru that her liability is unquestioned except by herself, and that this Government will not consent to a further discussion of the matter.

STILL IN HIS PRIME.

North Hastings' Oldest Inhabitant Hale and Hearty.

Josias Moore, of Bancroft, Ont., one of the oldest and best-known residents of Hastings County, can boast of wonderful health and vigor for his age.

"Although I am over 84 years of age," he says, "I feel as young as ever I did."

Mr. Moore, however had a narrow escape from death about a year ago. "I was so bad with indigestion," he writes, "that the doctors gave me up. I tried various alleged remedies but found them no good. One day our popular druggist, F. C. Humphries, sent me a sample of Dr. Chase's Kidney-Liver Pills to try. The result was marvellous. After taking two I was able to get up. Then I sent for a box. I could soon eat anything. In a short time I was able to walk two miles to Bancroft and back, with ease."

Dr. Chase's Kidney-Liver Pills will, without fail, cure all kidney, liver, stomach and blood troubles. For sale by all dealers. Price 25 cents. One pill a dose; one cent a dose. Edmanson, Bates & Co., manufacturers, Toronto.

Chase's Syrup of Linseed and Turpentine is the latest discovery for coughs asthma and consumption. It is pleasant, quick and certain. 25 cents.

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and colds.

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognized this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why, should anyone suffer distress and sickness while this remedy is practically at their hands?

LONG BROS.

414 and 208 George Street.

In all the wide range of human sorrow there is no *more* pitiful tragedy than that of the death of a mother at childbirth. It cuts off a life just at the moment when it has achieved its grandest duty and at the very outset of its greatest happiness. It leaves a helpless, motherless babe to the care of strangers who have no blood interest in its welfare. Kind as a Sister of Charity or a nurse may be, they cannot replace the loving ministrations of a mother. This ever recurring tragedy could be avoided if women would but learn the vital importance of caring for the health and vigor of the delicate organs that bear the burdens of maternity. The woman who neglects weakness and disease of these organs is unfitted for motherhood and it only holds out to her the certainty of agonizing pain and possible death.

A sure, safe, and speedy cure for all weakness and disease of the organs distinctly feminine is found in Dr. Pierce's Favorite Prescription. It prepares for motherhood by making these organs strong, healthy and elastic. If taken during the period preceding motherhood it banishes the usual discomforts. It insures a healthy baby and makes its advent easy, almost painless. It provides ample nourishment for the newcomer, and shortens the mother's period of illness and debility. It is the best of all known medicines for women and over 90,000 of them have said so over their signatures. If you want to know more of it write to its discoverer, Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y.

A good, practical home medical work is the best friend and adviser a young wife can have. Dr. Pierce's Common Sense Medical Adviser is such a book. It contains 1008 pages and 300 illustrations. Several chapters are devoted to the reproductive physiology of women and facts that every wife and mother should know. Over a million women possess copies of it. A new edition is ready and will be given away absolutely FREE. For paper-covered copy send 21 one-cent stamps, to cover the cost of mailing and customs *only*, to the World's Dispensary Medical Association, Buffalo, N. Y. Send 50 stamps for cloth-bound copy.

OCTAVIUS AND SABRINA.

They had been having an uphill pull over one of life's roadways. The top was in sight, and over the summit they thought they saw a glimmer of prosperity's sun. This was hopeful, though it did not relax their struggle, nor did it bring them rest.

Octavius accepted things more cheerfully than Sabrina, and rejoiced with magnificent philosophy over the small things of earth. To Sabrina a self-denial was a trial, and not an opportunity for "triumph over temper." A back ache was a real tangible pain and not "a slight cold with twinges."

Their very variety of temperament equalized troubles and pleasures, which made them appear an average couple to the big outside world.

The spring was getting middle-aged. Octavius came home to noon dinner bringing the news that they were to have a long afternoon drive. For a moment Sabrina was delighted; then she demurred: "The expense will be too great."

Octavius laughed his great open laugh. Expense was not attached to this trip. "I met a man," he explained, "who has loaned me his horse and trap."

Oh, there never was such luck; and the tuneless man essayed to hum the wedding march from Lohengrin.

"Who is to drive?" persevered Sabrina.

"To drive? Why I am."

"You know nothing of horses," sneered Sabrina. "I will remain at home."

"Madam," said Octavius, "I'd have you know that I understand horses perfectly. I drove hundreds of them—before I met you—"

"Then—you tried to drive a mule and could not," laughed Sabrina. "Well, we will go, but I doubt whether we shall return with whole necks."

May weather in Canada does not often offer such pure, clear air as did this particular day, and Sabrina grew happy with its softening influence. She donned her prettiest attire and tripped gleefully after Octavius.

The horse and trap were waiting at the door. A number of urchins stood about smiling, and making remarks. Sabrina's enthusiasm died out when she looked at the conveyance—an indescribable vehicle on four wheels—with no top and one narrow seat, very slight springs and low dashboard. She mentally pronounced it shabby and rickety. It seemed so small behind the big positive looking bay horse that her heart grew heavy, and she stepped in with reluctance.

Octavius picked up the reins and down the little street they dashed at a break-neck pace; Sabrina jolting up and down and frantically clutching her hat, while her wrap worked its way wrong side before her in a way that threatened to choke her.

Octavius had a method of driving that was original. He pulled the reins tightly; leading Sabrina to expect that the horse would rear up and paw the air in remonstrance. Occasionally he would pull one rein in such a way as gave the horse a stiff-necked appearance that was ludicrous. His theory for the corners was to get round them as speedily as possible. Four times, while within the confines of Montreal, he rushed the horse around a corner, running the wheels partially on the curb, nearly overturning the trap, and giving Sabrina a pictured horror of two mangled forms being carried to the hospital.

Lachine, their destination, is a little town that lies nine miles above Montreal. Out on the upper road the way was smoother and easier. No trolley cars disturbed the quiet air. They were soon among the green fields and poor farmhouses of the French-Canadians.

Many of these wretched abodes were deserted. Some bore at a gate post a sign: "Ferme a louer" (farm to let). The loneliness of these dwellings, the paucity of conveniences and utensils, and the dearth of neighbors, made one shudder to consider what a winter would be in such a home, with such bare surroundings.

Trees were just putting forth their tender young leaves, wild flowers to show their fair, delicate faces. Birds were singing, and nature's smile was sweet. Sabrina began to enjoy the drive and to be charitable about Octavius' driving when they reached Lachine.

The town was a disappointment. Its shabby houses, mean, narrow streets, poor little shops, had no attractive characteristic. Beyond the signs, which were distinctly French; the swarthy, dark-eyed people; an occasional Indian, looking hampered and sullen under the restraint of store clothes; there was nothing to distinguish it from any poor little town.

The horse began to show spirit here, and in a resolve to pass everything on wheels, thumped and rattled the vehicle over cobbles and ruts in a most trying way; keeping up the keen run until he reached the open country road. This thoroughfare was bordered on either side with trees. Beyond to the left, the great placid blue St. Lawrence, and to the right pretty little white cottages.

Sabrina begged Octavius to stop the horse and rest awhile. This the beast acceded to with a lamb-like grace, that was perhaps due to the nine miles he had covered.

Sabrina straightened her hat, rearranged her wraps, shook out and adjusted the lap-robe, and prepared to face the return trip cheerfully. Yet she made the fatal error of once cautioning Octavius.

"We have had a fine drive," she artfully began, "and if you will be careful not to turn too short or drive too rapidly we shall be quite safe."

"Safe!" snorted Octavius, "safe! As if you were not safe with me." With this he snapped the horse smartly on the back with the reins, and thus pulled on them with unnecessary vigor. The beast reared slightly, then plunged. Up went Sabrina's feet. She clutched the seat and recovered herself by a spasmodic effort that nearly dislocated her neck. The horse wheeled round. Bang! Under the trap went the left-hand wheel, pitching the carriage and occupants to an angle of 45 degrees and threatening worse things.

A young passer rushed forward and seized and held the horse so that Octavius and Sabrina sprang out safely. They expected to see the creature bolt. Instead, he stood quite still and looked pleased. He had avenged the insults perpetrated upon him by the driver.

They tugged at the refractory wheel. It was wedged tightly and could not be dislodged. Octavius' calm deserted him; he began to lament. Then the adaptable female mind rose in Sabrina. She went in search of assistance.

Down the road she hurried, and, meeting a traveling baker, asked if he would help them. He eyed her a second critically, as if revolving the matter, then doffed his cap and answered: "Ow will, the noo," betraying the Scot with each letter.

Two old gentlemen, who sat in easy chairs on their respective verandahs, came down to their gates and inquired the cause of the excitement. They were all sympathy, and soon came to offer unsolicited help. One laboriously carrying a huge wrench, the other laden with a large hammer. They wanted to know how the accident happened. Whether the lady was alarmed, where they were going to, and where they were from. Between their curiosity and exceeding deafness explanations were difficult and tedious. Still they appeared satisfied with the responses, and stopped to examine the trouble, bumping their dear old inquisitive heads in doing so. One hammered and the other unscrewed, but the wheel stayed where it was. They unharnessed the horse, who looked down on their labors and the wreck in smiling satisfaction, picking a few new leaves from an adjacent bush with a picturesque indifference that was admirable.

Sabrina gave Octavius a cloudy look, and Octavius "thought hard things of Dorn." The afternoon was waning. The old men began to look weary; their first helper stood by the horse and consulted his watch. The Scotch baker alone kept energetic.

Along the road came a melodious whistle. A French drinking song could be traced in the high shrill notes. Then followed a neat French workman in overalls and blouse, with his basket of tools in hand, his cap setting sideways above his piquant bronze face. His whistling ceased. He ran to the road and was under the trap in a twinkle. He could not speak English, but he could mend the break. Off came the wheel. A few smart strokes of the hammer—a few screws of the wrench, and all was in place once more.

The old gentlemen straightened their stiff backs, helped Sabrina into the vehicle, and accepted all the thanks. On went the young man, who had acted as groom, touching his hat and murmuring something about the "peculiar accident." The Scotchman had disappeared as by magic, and was never seen again. While the Frenchman vigorously said "Non, non, monsieur!" to Octavius' tip; but finally accepted it with his left hand, and a "Merci monsieur," disappearing with his tools and his whistle, like the useful Brownie he was.

A silent journey back along the river road, with a thankfulness at heart that their accident was not serious, and an awed admiration for the wonderful picture that lay before them the entire way.

Here, the great river, blue almost to violet in the early evening light. There, islands, shadowy, grim and mysterious, dotting its pure surface, the wonderful Lachine Rapids, churning and fretting their silver fras-work through the river's azure. Over and beyond the vast stream, grand, stately mountains, in majestic coloring of purple and gold. Giants of promise for the great world far from these valleys that flow with "milk and honey."—New England Grocer.

Practise Economy

In buying medicine as in other matters. It is economy to get Hood's Sarsaparilla because there is more medicinal value in Hood's Sarsaparilla than in any other. Every bottle of Hood's Sarsaparilla contains 100 doses and will average, taken according to directions, to last a month, while others last but a fortnight.

Hood's Pills are the only pills to take with Hood's Sarsaparilla. Easy and yet efficient.

THE OLD SCHOOLHOUSE.

At the corner where the roads meet
While winding through the town,
There stands a little schoolhouse
Moss covered, old and brown.
Around the well-worn door stone
The grass is growing green,
And buttercups and daisies
Against the building lean.

The pasture comes to meet it,
And o'er the rugged wall
Soft grows the wild blue iris
And elder bushes tall.
In spring the orioles nested
In elm trees growing by
And carolled to the children
From hammock that swung high.

At recess time the children,
With many a laugh and shout,
Made glad the quiet woodland
That skirted all about.
Again the place was silent
When "Teacher," from the door,
Called the children to her
When resting time was o'er.

In quaint, old-fashioned order
They stood with toes on line,
And slowly droned the "tables,"
"Three times three are nine."
Then came the mental puzzles,
The dreaded daily drill,
In Colburn's little "arithmetic"—
Those problems haunt us still!

The years have passed; those children
Are men and women gray
And the little corner schoolhouse
To modern times gives way,
But standing by the roadside
As in days long ago,
It seems like a fond mother
From whom the children go.

But still with patience waiting,
The years have passed away,
For return of sons and daughters
She sounds and looks to-day.
Her children are far scattered,
She waits for them in vain,
But they live their youth in memory,
Thus they come not back again.
—Laura A. Rice, in Good Housekeeping.

An Excellent Instrument.

The handle of a strong tooth-brush is said to be an excellent implement for removing wired tires from the rim. Felt grips, when soiled or greasy, may be readily cleaned with soap, water, and a nail brush. Cork handles can be made to look like new by the application of turpentine and benzine.

A Smasher

Mrs. Chumpy—What makes you think that the cook will break her marriage engagement with the policeman?

Mr. Grumpy—Because the bills show that she is breaking everything she can get hear.

QUICKCURE

Oh! how it does ache.

A change of Expression

But Quickcure did its work.

Children's teeth are often sacrificed by neglect—too often extracted before their successors appear—too often cause needless suffering. Every mother should have in the house

"Quickcure"

Dr. S. J. Andres, Montreal, says; "'Quickcure' overcomes the pain quickly; gives relief for a long time; is especially valuable for children's teeth which should not be extracted until their successors appear. It is perfectly safe to use at all ages, and does not injure the teeth as many other remedies used for toothache do." Ask your druggist for it.

THE STEAMER

"North Star"

—:o:—

DAILY TRIPS TO IDYL WYLD.

The "North Star" makes daily trips to Idyl Wyld and return, leaving C.P.R. Wharf at 9 a.m., calling at Gore's Landing 11.30, Harwood 12, arriving at Idyl Wyld at 12.30. Return fare, including dinner at Idyl Wyld, only 50 cents.

On Saturday the steamer leaves Peterborough at 2 p.m., and on arrival at Idyl Wyld supper is included. Returning the steamer will leave at 4.30, arriving at Peterborough at 7.30.

On WEDNESDAYS and FRIDAYS the steamer will take the excursionists to witness the SERPENTINE MOUNDS on Roache's Point, Rice Lake, free of charge. These remarkable evidences of the pre-historic occupation of the country by a people far ante dating the Indian, will form one of the most interesting attractions of the "North Star" Idyl Wyld trips.

B. M. EDEN, Master.

W. BUNTON, G.T.R. Ticket Agent, Peterborough. Telephone 259.

THE NEW

STEAMER SUNBEAM

Will run until further notice from Lakefield to Stony Lake every Monday, Thursday and Saturday, on the arrival of the 7 p.m. train from Peterborough.

On Wednesdays the Sunbeam will run a trip from Lakefield to Chemong, leaving Lakefield on the arrival of the 9 a.m. train. Returning will leave Chemong at 8.30 on Thursday morning, arriving in Lakefield to connect with the 4.15 p.m. train.

In connection with these round trips, Busses will leave Chemong on arrival of boat, on Wednesday evening; and on Thursday morning will leave Post Office corner, Peterborough, at 7.30 for Chemong, connecting with boat for Lakefield. For particulars, apply at R. H. Leary's Livery Office, 385 Water Street.

On all other days the Sunbeam will be open for charter for excursions, &c., at reasonable rates.

This fast, new steamer has been specially built to accommodate tourists and excursionists on the beautiful chain of waters of Chemong, Buckhorn, Lovesick, Stony, Clear and Katchewanooka Lakes, and will be found to combine in the highest degree safety, comfort and speed.

Tickets can be procured from W. BUNTON, City Agent, G. T. R.

For further particulars apply to

WHITE & GRYLLS, Lakefield, Ont.
Or WARREN TRICKEY, Agent Peterborough

THE NEW STEAMER

MAJESTIC

Will meet the G. T. R. afternoon train at Lakefield from Monday, Aug. 2nd to Saturday, 7th, and each alternate week during the season. Other weeks will connect with the morning train.

Special Saturday night trips.

VICTORIA CHEESE BOARD.

Over 1,900 Boxes Boarded—The Lot Sold at 8 1-16c.

(Lindsay Post.)

The regular fortnightly meeting of the Victoria cheese board was held Thursday morning in the council chamber, Lindsay, at 11 o'clock. Over 1,900 boxes were boarded by 22 factories. The buyers present were Messrs. Whitton, Fitzgerald and Flavelle.

The following factories boarded the number of boxes set opposite:

Star	110
Lorneville	57
Cameron	
Dunsford	92
Derryville	60
Cambray	112
Janetville	93
Omemee	112
Fenelon Falls	66
North Verulam	80
Minden	90
Leakdale	96
Valentia	136
Pine Grove	53
Reaboro	140
Bobcaygeon	75
Maple Leaf	123
Palestine	89
Ingoldsby	34
Red Rock	134
Mariposa	86
North Ops	70

Mr. Whitton opened with a bid of 8c, which was raised to 8 1-16 by Mr. Fitzgerald, who named Bobcaygeon, Cambray, Maple Leaf, North Ops and Star; all refused. Mr. Whitton then offered 8 1 8c, and Fenelon Falls, Reaboro, Maple Leaf, Ingoldsby, Derryville, Dunsford, Cambray, Lorneville, Star and several other factories accepted. Mr. Fitzgerald then offered 8 1 8c for further selections, and divided the board with Mr. Whitton. Mr. Flavelle secured Leakside at 8 1-16c.

Before the meeting opened Mr. Whitton called attention to the lamented death of Mr. John S. Cruese, vice-president of the board, and a committee was appointed to draft a suitable memorial.

Pleasant, Sure and Quick.

GENTLEMEN,—I am pleased to recommend your Laxa Liver Pills for constipation, dyspepsia and sick headache. I have used them for those troubles, and find them a pleasant, sure and quick cure, free from the annoying griping of other pills I have heretofore used.

Signed, H. JAMES,
St. Nicholas Hotel, Hamilton, Ont.

SIX LIVES LOST.

Three Firemen Buried in Ruins and Three People Blown Into the River and Drowned.

Chicago, Aug. 5.—Six and probably seven lives were lost in an explosion which took place this evening during a fire in the Northwestern grain elevator at Cook and West Water-street. Three of the dead are firemen, the body of another fireman is thought to be buried in the ruins of the elevator, and three people were blown into the Chicago River. From the force with which the explosion swept the spot on which they were standing, it is certain they must have been instantly killed. Either the bursting of a boiler or the explosion of milldust caused the awful havoc. The origin of the blaze is believed to have been in the vicinity of the boiler house. Accumulated dust, as dry and inflammable as gunpowder, that had been piling up for years, aided the blaze. It spread with great rapidity, and then came a terrific explosion, completing the work of scattering the fire throughout the entire structure. The explosion stunned for a moment the police and firemen, but they quickly rallied to help those who had been hurt. Dozens of men lay injured in the withering heat, some not seriously harmed and others in the throes of death. It was dangerous work to get them out, but it was gallantly and quickly done, and all of the slightly injured were removed. The dead were for the time left where they fell. No man could reach their bodies and live. The fire was most difficult to control as the elevator was surrounded by a number of small buildings, which were continually catching fire. The total loss is estimated at $300,000, which is fully covered by insurance.

DROWNED AT LORNE PARK

Seven-Year-Old Jimmy Blackall Lost in an Undercurrent Whilst Swimming With Two Companions.

Toronto, Aug. 6.

Greyhound excursionists last night brought the sad intelligence of a drowning fatality at Lorne Park, by which James Blackall, the park caretaker, mourns the loss of his 7-year-old son. The little fellow, who bore the same Christian name as his father, was bathing about 3 o'clock in the afternoon with a couple of companions, Gordon Rice and W. Booth. He jumped off a spring board into 5 feet of water, and as he was not a good swimmer a strong undercurrent sucked him down. His playmates tried to rescue him, but had themselves to be pulled out of the water. A number of young men dived after the body and a searching party also worked in valu until a late hour last night.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Ashburnham has several cases of measles.

—Campbellford spends $4,558 for schools this year.

—Port Hope's rate of taxation is twenty two mills.

—There are three cases of diphtheria of a mild type placarded in the town.

—A west end residence, in North Monaghan, is placarded for diphtheria—a mild case.

—The First Presbyterian church of Port Hope runs an excursion to Stony Lake on August 17th.

—Lindsay Oddfellows celebrated decoration day yesterday. It is said that 2,000 persons witnessed the ceremony.

—The home mission committee of the Presbyterian church are on the lookout for a suitable Presbyterian minister to go to the Yukon field.

—We don't see many of the other cheese boards reaching the figures for cheese got at the board here on Wednesday for Peterborough's prime cheese.

—New York State Masons will pay a fraternal visit to Port Hope next Wednesday, August 11th. The visitors will be dined, wined and driven about the town.

—Sir Wilfrid Laurier, interviewed in Paris regarding the Klondike, says for the next fifteen years the locality would be, in his opinion, the great gold mining centre of the world.

—An encouraging sign of the times is the frequency of correspondence in the rural and semi-urban newspapers of letters from the public dealing with the many phases of the good roads problem.

—Major Perry, of the Northwest Mounted Police, is going to Ireland to visit the Irish constabulary in order to pick up any hints which may be useful in connection with his own force.

—Pascal Barb, a farmer of Wright, near Ottawa, has died at the age of 103 years. He lived near Gracefield, where he reared a family of fourteen children. He had a great many grandchildren. Did he smoke? Give us the whole truth.

—Mr. Edg. Hartley puts in his odd time these days manufacturing decoy ducks for sportsmen. He has added wood duck to his varieties this year. Elaborate painting is necessary to imitate the plumage of this beautiful fowl.

—A very beautiful memorial window has been placed in St. Thomas' church, Millbrook, by the family of the late W. W. Needler. The artistic excellency and harmonious blending of the colourings are at once chaste and beautiful.

—The official bicycle pacer for Gough Bros.' bicycle quartette, while practicing on Robinson street, Ashburnham, to-day, lost control of his wheel and the result proved disastrous to the bike, although the rider escaped serious injuries.

—Many of the principal life and accident insurance companies have issued positive instructions to their general agents in Canada and the United States against assuming and risks upon the lives of persons contemplating a visit to the Klondyke.

—After putting on a $2 duty on Canadian saw logs fancy the cheek of our Yankee cousins asking permission to dock one of their steel-clad tubs, dubbed by courtesy a battle ship, in a Canadian dry dock. The U. S. "battleship" Indiana is now in dock at Halifax having her hoops tightened.

DEATH AT THE CAMP MEETING.

Dr. Smith of Straffordville Taken Off Suddenly While Attending the Baptist Gathering at Port Burwell.

Port Burwell, Ont., Aug. 5.—The attendance at the Baptist camp meeting was very largely increased to-day. It was Tilsonburg's Civic Holiday and seems to have been a general holiday for all the surrounding country. Port Burwell has been the rallying point and hundreds of the visitors found their way to the Baptist camp. The speakers at the morning meeting were Evangelist Pennistan of Michigan and Rev. J. G. Brown, returned missionary from India. At the afternoon session, out of compliment to the temperance lodge visiting Port Burwell, a slight change was made in the program, so as to admit of the discussion of the temperance question. The speakers were Rev. C. B. Brown of Salford, Mr. Charles Tibbits, formerly of Aylmer and now secretary of the Y. M. C. A. in Cincinnati, Ohio, and Rev. Dr. Ross, Methodist minister from Brantford. These gentlemen delivered rousing addresses on the plebiscite and on other phases of the prohibition question. Following the temperance hour, Mr. Gilmore resumed his exposition of St. John's Gospel, and gave a masterly synopsis of the prologue, or first eighteen verses. In the evening the speakers were Rev. W. H. Cline of Paris and Rev. Thomas Shields of Victoria.

Dr. Smith of Straffordville, who was spending the day with his son, one of the proprietors of Jubilee Park, suddenly died from heart failure.

THE GORGE SMASH.

All the Persons Who Were Hurt are in Good Condition Except Miss Lizzie Dunn of Toronto.

Niagara Falls, N. Y., Aug. 5.—All the persons injured in the wreck on the Gorge Road Tuesday are in good condition to-day, with the exception of Miss Lizzie Dunn of Toronto. She is the only one left at the Tower Hotel, and it will be the latter part of the week before she can be taken to Toronto. Besides her other injuries, Dr. W. H. Hodge, who is attending her, says that three of her ribs on the right side are broken. Dr. Hodge says she will recover. This morning Mrs. E. Robinson, whose left leg was badly hurt, was sent to Toronto. She was lame and sore, but was able to get on the cars with the assistance of William Pegg and Harry Evans.

Miss Mabel Spencer of Toronto, who was bruised on the chest, has been removed to the home of friends in this city. Her condition is not serious. Mrs. Alexander St. Clair of Toronto, who was cut on the head and otherwise hurt, has gone home.

The Wabash Railway Trains running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service; they are complete and solid vestibuled from end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to car builder's art. They include free reclining, palace, sleeping, and dining cars of the latest and best patterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c

CLEARING SALE

—OF—

LADIES' WHITE WEAR

—AT—

ROBERT FAIR'S.

Just now active preparations are under way to make room for New Fall Goods that are coming from every source. Our tables of popular priced Summer Dress Goods, &c., have proven a great attraction, and we now add to the already attractive array of Summer Bargains our whole stock of Ladies' Whitewear. It was only last January that we opened this important department to the Golden Lion, so that the stock is all as good as new.

The Ladies have found out with good reason that we have saved them money in White Wear of every sort, and one of the hardestt hings for them to understand is how such prices are possible. There's the cost of material and the cost of making, and here's the thing for less than the two foot up:—

NIGHT GOWNS—

Commencing at 50c.

85c Nightgowns for	.60
$1.00 Nightgowns for	.70
$1 25 Nightgowns for	.85

TEN MEN ARE GOING

To the Klondike for the Canadian Yukon Company.

CHOSEN FROM MANY APPLICANTS

Will Leave Montreal on Monday in Charge of a Well-Known Civil and Mining Engineer—Insurance Men Afraid of Klondike Risks—A Thrilling Experience.

Montreal, Aug. 6.—The choice of men for the expedition which the Canadian Yukon Company, Limited, is sending into the Klondike gold regions, has now been completed. The following men have been chosen to represent th company's interests in the far north:

Mr. A. Genest, C.E. and D.L.S., engineer in charge; Sylvester J. Dempsey, major Arthur D'Orsonnens, John Dooner, James MacDougan, Michael Dooner, Emile Larin, James McMullin, Duncan Macdonald, Prospere Bethier. The above were chosen from a large number of applications and will form a very creditable contingent from the metropolis. Mr. Genest is a well-known civil engineer and land surveyor, and for some years past he has had charge of the Lachine Canal improvements. He has already been engaged in explorations and surveys of the northern portion of the Province of Quebec. The expedition will leave on Monday.

A TRIP TO THE KLONDIKE.

Warren Shea, Brother of Ensign Shea of the Salvation Army in Toronto, Kept a Valuable Diary.

Toronto, Aug. 7.

Mr. Warren Shea, brother of Ensign Shea of the Salvation Army in Toronto, kept a valuable diary of his trip from Dyea to Dawson City last April-June and a copy has reached Toronto:

I left Puget Sound on April 4. The voyage up was marked by several interesting accidents, among which was the marriage of a runaway couple, who went ashore at Fort Wrangel, April 9, where the wedding took place. On the 15th all hands turned to and unloaded freight as best we could on the beach three miles from Dyea; hired a row boat for $5 to get our freight to Dyea; Dyea has two stores and three dwellings.

April 16.—Commenced work in dead earnest packing on our backs to Dyea River eight miles to the foot of the canyon. Easter Sunday and not an egg in sight.

April 22.—Everything at Sheep Camp, 15 miles from Dyea. Plenty of snow, but two and a half miles to the summit. A large glacier half a mile distant, but the weather is moderately warm. Lots of people camped here; a city of tents. Dogs everywhere. I saw one team of 14 in a string, all Alaska dogs. They look like wolves, but nice and smart, and it is surprising how they pull. It is laughable to hear the driver yell, "Mush, Mush" at them, and if they don't get in and dig you generally hear something stronger. A pack pony that would sell in Kent for $10 sells here for $200 to $500, and dogs $25 to $100.

On April 25 we got everything on the summit at Chilkoot Pass, except the boat and a little grub. Weather too rough to make the Pass.

May 1.—Started across the summit and made Lake Lindeman at 8 p.m., nine miles, in a blinding snowstorm. Ed Whittemore and party were lost two days there in a storm, with no wood, had to eat raw grub.

May 3.—We crossed the Lake Lindeman on the ice, eight miles, hoisted sails on our sleds and went along very comfortably with our entire outfit.

May 5.—Made permanent camp for boat building, twenty miles down on Lake Bennett, on what is known as West Arm. We joined hands with four other fellows and were six days whipsawing lumber for three boats. Timber is small, average ten inches, mostly spruce.

May 14.—Went on a two days' hunt up an unnamed river; plenty signs of moose, but got none.

On May 24 we celebrated by launching our boat. We had no champagne, but we slapped her with a side of bacon and christened her the Victoria. She was built by Taylor's plans and he was named Captain, with "Bill" as first mate, "Joe" and I were deck hands.

May 27.—Made Caribou Crossing, at foot of Lake Bennett.

May 28.—Got up at 1 a.m. and made about forty miles. Weather very rough, and several times we would have been swamped had we not had a good boat. We were obliged to camp for three days on account of ice, about the middle of Mud Lake. Plenty of game. About 200 boats tied up. Met Whittemore and party again and other friends.

May 31.—Got across Mud Lake and down Thirty River, twenty-six miles to Grand Canyon. Thirty Mile River is rather sluggish with low, smooth mountains around. Plenty of grass land.

June 1.—The Grand Canyon is about three-quarters of a mile long and about forty feet wide, with about 75-foot walls on either side. The water runs through like a millrace; saw two scows and three small boats swamp, losing all their goods, but nobody drowned. We got through and only shipped about two buckets of water. After leaving the canyon we had two miles of swift water; river full of big boulders and it was with the utmost care we got through safely. Then comes the White Horse Rapids, the worst of all. Only one, a scow, ran them, and swamped, but she was loaded with "beans" and didn't lose much. White Horse Rapids supports a pretty good sized graveyard, and every year adds many to the list.

June 3.—Made the head of Lake Le Barge.

June 4.—Got across Lake Le Barge, thirty miles, and down Thirty-Mile River, which is a bad river, very swift, and it makes a fellow squirm to go sailing along and see small bands here and there, marking the grave of some poor fellow and wondering if you are next. We pitched camp at the mouth of Hootalinqua River. There we met the outgoing mail carrier and sent letters home. The river here takes the name of Lewis, and it is an elegant stream, no boulders; indeed, a beautiful country. Traded three cans of sugar for fifteen pounds of fish with Indians, and paid $1 for a quarter of a mountain sheep.

At 4.45 p.m., June 6, we made Five Finger Rapids, so named by being five fingers or pillars of rock. We kept the right hand channel, getting through safely and at 5.30 six miles below, made Pink Rapids. A good many swamped. Plenty of ducks and geese. At the mouth of Pelly River we strike the Yukon proper, which is an immense river with many small islands, about a six mile current.

June 9.—Arrived at Klondike River or Dawson City, and, all feeling mighty good on getting here o.k. The town is on both sides of the Klondike. We pitched camp on the south side, on what is known as Louse Town. Everything is all excitement; lots of buildings going up; was offered plenty of work at $10 per day.

On the 13th we visited the mines, which are from 6 to 20 miles distant, and I hardly like to tell you what I saw for fear you might think the climatic changes had a bad effect on my coconnut. But here goes: Most of the mines are just fairly prospected. A claim consists of 500 feet up or down the gulch and from rim rock to rim rock. Everything numbers from Discovery claim. Bonanza Creek has 100 below and 70 above Discovery, and claims will average about 500 feet square, with from two to six feet of pay dirt, and ranging from 25 cents to $200 to the pan. Bonanza is a branch of the Klondike.

Then comes Eldorado, a branch of Bonanza, with about 100 claims, and surely the richest in the world. It is a common thing to get from $300 to $800 to the pan on bed rock, and on the dump one can see the gold thick in the gravel. Berry brothers have one of the richest. I got acquainted with them, and they showed me their gold dust in sacks, cans and bottles. One of them went out two days ago to San Francisco with $130,000 that four men took out in five months. This is a difficult country to mine in. The ground never thaws deeper than one foot, and the Lord only knows how far it is frozen down. They thaw the ground by building fires on it. It is a good thing this country is rich in gold. I do not see how people stay as long as they have. It tells on them. One can tell an old-timer as far as he can see him. Lots of cases of scurvy. One poor fellow was found dead in bed. He had $12,000 under his pillow and was going on the first boat out to his sister's in San Francisco. There is lots of grub here now if you have the price, but I anticipate it will be a little bit shy in the winter.

The postoffice is in a saloon, with no postmaster. Anyone wanting mail can help himself. It took me one hour to find two letters for myself, and I can safely say I was never more delighted in my life. I would hardly advise anybody to come to this country. I certainly shall make only one trip and that will be out of here. It might be well for a single man with a rugged constitution to come in, but I tell you its far from a pleasure trip. The weather is warm and nice now, but it must be "lightning" in the winter time. There were probably about 1000 people on the trail. I spent several days prospecting, could get from two to ten colors most anywhere. It seems as though gold grew here. It takes about 30 days to sink a prospect hole to bedrock, say about 25 feet deep, but frequently there are plenty of colors on the surface when there is nothing on the bedrock.

There are 20 Canadian police here, but they let the miners settle all disputes and criminals. Anybody caught stealing will either be hung or given five hours to leave it, and if he has no grub he is given 5 pounds and a boat. Then, if he does not go, out comes the hemp. There are a few women, some of them married and some not, one dance house, several saloons, three stores, one small sawmill; lumber is $150 per thousand; hay, $50; flour, $60 a sack, and everything in proportion. News is almighty scarce. No papers. Any old paper is worth $1.

CAPTAIN STANDISH SAYS "DON'T"

He Has Just Come From Alaska and Says If You Start Now You'll Have to Winter at Juneau.

Portland, Me., Aug. 6.—Captain Miles Standish of Montreal, who has been spending the summer in Alaska, has reached the confines of civilization on his return to this city. He knows all about the Klondike gold craze and his advice to intending prospectors is "Don't." In a letter received here to-day, he says that the situation on the Klondike is not very dissimilar to other gold fields. The yellow metal is there, but it doesn't lie around the ground in chunks waiting to be scooped up. It can only be secured by patient and uncommonly laborious placer mining, interspersed with many weary miles of tramping around from pocket to pocket. He further says that the journey to the "diggings" from Juneau is an enterprise calculated to pall the stoutest heart.

Beyond all this, it is beginning now to be winter in that region, and anyone who starts must stop over at Juneau or somewhere else until next May. There is not food enough in all Alaska to keep the people for a month. He drops a hint that the larger part of the Klondike region is in Canada without "stretching an elastic boundary line one single inch," and says the Dominion police will have something to say about Yankees coming over there and taking away all the gold.

MINERS FROZEN TO DEATH.

The Doleful Story Told by the Written Statement Found in a Dead Man's Clothes.

Seattle, Wash., Aug. 6.—News has just reached here of the death last April of Charles A. Blackstone, George Butcher and J. W. Malinque, miners who went to Alaska in 1896, and were frozen to death in trying to make their way back to Seattle. They were last seen alive March 27. Friends from this city who went to Alaska to investigate found Blackstone's body, but no trace of the other two could be found. The following statement was found on Blackstone's body:

"Saturday, April 4, 1897: This is to certify that Butcher froze to death on Tuesday night, J. W. Malinque died on Wednesday afternoon, being frozen badly. C. A. Blackstone had his nose, ears and four fingers on his right hand and two on his left frozen an inch back. The storm drove us on before it. It overtook us within an hour of the summit and drove us before it. It drove everything we had over the cliff, except blankets and moose hides, which we crawled under. Supposed to have been 40 degrees below zero. On Friday I started for Saltwater. I don't know how I got there without outfit. On Saturday afternoon I gathered up everything. Have enough grub for ten days, providing bad weather does not set in. Sport was blown over the cliff. I think I can hear him howl once in a while."

The bodies of Malinque and Butcher were never found.

RUMPUS AT A CIRCUS.

The Crowd and the Showmen Get Into a Fight—An Elephant Soon Cleared the Ring.

Quebec, Aug. 6.—Much excitement prevailed to-night from the fact that the Washburn circus refused to go on with its evening performance. After the doors had been opened the crowd refused to leave the circus tent, and a free fight ensued between some of the employes and a number of the audience. A large elephant was let loose in the main tent and a panic almost followed. The crowd was cleared. While trying to arrest one of the circus hands the police were set upon by the circus employes, who used crowbars, tent pegs and mallets, and drove them away, breaking the arm of one of the police and splitting the head of another. The authorities have seized the circus until further action.

HIS DAUGHTER HAD SUNK.

The Sad Drowning Case Which Has Made Sorrow in John Gill's Home.

Barrie, Aug. 6.—A sad fatality happened at Midhurst on Tuesday, when the 6-year-old daughter of John Gill was drowned. Mr. Gill went out to work by the river, and his four children followed. The eldest girl tried to stand on a log, which rolled and threw her into the water. The father, attracted by the cries of his children, ran to them and found his daughter had sunk. As she did not come up, he dived three times, and found that she had caught under a log, from which position he had some difficulty in taking the body.

MRS. NACK'S APPEAL.

The Woman Asks Happy Women Who Have True Husbands for sympathy.

New York, Aug. 6.—The World this morning publishes the following interview with Mrs. Nack, the alleged accomplice of Martin Thorn in the murder of Guldensuppe: "I ask those women who are happy, and who have good, true husbands and pleasant families and happy homes, not to judge me too harshly, for, in my opinion, no woman who is happy in her married life can ever realize what terrible temptations follow unkindness and neglect on the part of a husband, and what these temptations sometimes lead a wife to do."

Says Guldensuppe Is Alive.

New York, Aug. 6.—Coroner Hoeber to-day notified the District Attorney and counsel for Martin Thorn of the receipt by him of a letter in German, signed "Mrs. Emma," and insisting that Guldensuppe is alive and could be found in the upper part of Harlem. The writer claims that Guldensuppe is keeping quiet to revenge himself on Thorn for alienating Mrs. Nack's affections. In contravention of the statement in the letter, Acting Inspector O'Brien said to-day that he knew from Thorn's own lips that Guldensuppe is dead.

ANOTHER HOME FOR THE FLAG.

Another bush to hang the "bloomin' old rag" upon. Close upon British appropriation of the Palmyra Islands in the Pacific ocean come the news of the proclamation of British sovereignity over the island called Bellona, in the Solomon group. The islanders objected, but the flag still floats over Bellona. Speaking in reference to the objection raised, the Witness aptly says:—

"Objection to such proceedings by persons claiming to have landed on the island at some past date or to have bought it from some government that never landed on it at all, are tiresome, and the sooner that sort of thing is finally disposed of the better. The mere registration of an island at Washington as being claimed by some American for the United States without any proclamation or formal taking possession is another proceeding that should be ignored, because entirely unfair. A lot of islands arn said to have been so registered which have long been painted red on the may. On the other hand, we should be inclined to give the largest construction to any claims urged by the United States to foreign possessions. The more such petty scattered respoisibilities she has the more polite she will be when entering the councils of the nations."

BUSINESS GOVERNMENT.

Liberal Governments have a prompt way of dealing with difficult problems whose solution has been impossible to their predecessorrs. Sir Wilfrid Laurier in less than six months put on a high shelf, out of the reach of petty politicians, the school question, that the Conservative Government had been struggling with or juggling with, for as many years. And now the new Liberal local Government of Quebec has, according to the Montreal Witness, made a similar record in the short time it has been in power. The Witness says:

The Marchand Government has solved in short order what has hitherto been treated by all governments and municipal authorities as an insoluble problem, namely, how to deal with the 'line stores' of Huntingdon County. There has been no greater sarcasm on modern civilization than the long-continued defiance of all law by outlaws who built sheds across boundary lines and made them castles against all the law and police of both nations. As there is still room enough in the world for all the houses on it, and a little to spare, one would think that a simple law making it illegal to have a house on the boundary line would have solved the whole question. If it were necessary, the national, or provincial or municipal government could expropriate a few feet along the whole line. Under any circumstances, it is evident that a little management would have disposed of these outlaws had their been the will to do so. The able chief of the Provincial police, Mr. Legault, has accomplished the task of getting these trespassers against the custom laws and liquor laws of both countries in jail by getting evidence from this side, and proceeding against the offenders in the State of New York, where the laws impose penalties that mean business. Canadian penalties for illicit sale and for gambling are for the most part of a sort which many offenders can afford gladly to pay as often as can be rendered necessary by police interference. When a man is sure to get a year in jail if caught he will be at least anxious not to be caught. We congratulate the Quebec Government on its vigor in this and other matters of infringed public order. There have been too many concessions to lawbreakers in the days that are past.

Cook's Cotton Root Compound

Is the only safe, reliable monthly medicine on which ladies can depend in the *hour and time of need.*

Is prepared in two degrees of strength.

No. 1 for ordinary cases is by far the best dollar medicine known—sold by druggists, one Dollar per box.

No. 2 for special cases—10 degrees stronger—sold by druggists. One box, Three Dollars; two boxes, Five Dollars.

No. 1, or No. 2, mailed on receipt of price and two 3-cent stamps.

The Cook Company,
Windsor, Ontario.

Sold in Peterborough and everywhere in Canada by all responsible druggists.

LORD WOLSELEY'S proposal that British soldiers should not carry their colours into battle, because of the danger incurred by the colour-bearers, has naturally provoked strong dissent. And very properly so, too. Very few will agree with the gallant Commander-in-chief. We don't believe he would favour the abolition of the practice as carrying the colours because of the danger. He wouldn't mind carrying the colours himself, and no British or Canadian soldier would shrink from such a duty. We can't afford to shelve the old flag that way. Its crimson wave has steadied a wavering battalion in the face of panic. That it has braved a thousand years the battle and the breeze is because British soldiers and sailors, with blood to spare, have carried it to victory on many and many a foughten field. The flag is omnipresent now, and we can't afford to have it lose one inch of vantage ground. We can't get away from it, and we won't let it get away from us. Apt to this is the steel-clad verse of Rudyard Kipling, in which he sings:

"You may mount on the wings of the morning,
And flop 'round the world till your dead;
But you can't get away from the tunes that they play
To the bloomin' old rag overhead."

So say we all.

THE American Monthly, while expressing itself as friendly to the annexation of Canada to the United States, says:—"If there exists any widespread desire in this country to annex Canada, we have never been able to discover it. On the contrary, a reluctance to extend the domain of the American Union has been very evident indeed. Even if Canada very much desired union with the United States, it is by no means certain that this country could be induced to consent. Obviously it is not a question for to-day, but for the next century. Meanwhile the Canadians do well to show happiness, contentment and loyalty in the very fortunate and comfortable position in which they find themselves." Very true; but it would have been better if the Monthly had postponed the ripeness of time for annexation of Canada to the United States for two or three centuries. The date is hardly worth talking about. It is within the range of possibility that there won't be any United States to annex in a century. A form of Government that invites pre-eminence of of the worst elements of statesmanship, as well as of the electorate, cannot be said to be very solidly founded nor destined to permanent existence. If the United States stay united there must come a change over the spirit of its dream or, rather, nightmare.

Keep the Little Ones Safe and Healthy.

Lactated Food a Preventive of Summer Complaints.

Infant mortality is always high in August. This is largely due to the character of the nourishment that infants receive. The little ones who are deprived of mother's milk are mostly fed on cow's milk, too often diluted and sour.

The mothers who are anxious for the safety of their babies in hot weather we would confidently recommend Lactated Food, now so generally prescribed by physicians and so universally used by mothers all over Canada.

Lactated Food prevents cholera infantum, dysentery, diarrhœa and fevers; it promotes perfect digestion and healthy growth, and during the teething period it is the ideal food. Give Lactated Food a trial, dear mothers, if you would keep baby well and strong.

A NEW HISTORY OF CANADA FOR SCHOOLS.

The new "History of Canada" for the use of schools has been selected by the committee composed of representatives of the educationists of all the provinces, and will shortly be published simultaneously in all the provinces. It is satisfactory to know that a book which ought to be a vital influence in the moulding of children's minds in regard to their own country has been chosen by competent authorities, and will be used throughout the whole Dominion. Thus the children of all the provinces will get the same views of their country as a whole and the children of all the provinces will get ideas of each of the provinces which are considered satisfactory by an authority of the province, and may therefore be regarded as right and true. Such a history ought to do much for the building up and consolidation of Canada. It is to be hoped that the new history is a live and entertaining work. The summaries of Canadian history in use in Ontario schools thirty years ago were simply collections of dryly stated events, statistics and dates, compared with which many official blue books are exciting. A mistake will have been made if the new school history selected is not one which can be used in the middle and lower class rooms. From the fact that in Ontario the book is only to be used in the fifth form of the general schools and in the collegiate institutes, there seems reason to fear that too 'old and mature' a work has been chosen, and one which will need to be immediately supplemented by a child's story book of history on the same broad-spirited lines as has governed the present choice."

A CONSTABLE TALKS.

Like Ordinary Mortals Subject to Kidney Disease but Easily Cured by Dodd's Kidney Pills.

STAYNER, (Special), Aug. 2.—Mr. James K. Nesbitt, a county constable of this place, having suffered for a long time with kidney disease, he became aware that the doctors called it diabetes and incurable. As he had the good fortune to know that many cases of this disease had been cured by Dodd's Kidney Pills this news did not startle him. He says he went straight to Sander's drug store, and commenced to get well on the first box purchased. Now he is going the usual rounds praising Dodd's Kidney Pills to every one who asks the particulars of his recovery.

To remove worms of all kinds from children or adults, Dr. Low's Worm Syrup is a safe and sure remedy.

CASTORIA.

Fac-simile signature of Chas. H. Fletcher is on every wrapper.

A City Man's Wail.

There Are Thousands Like Him in Canada.

"To be candid and truthful, I am miserable, used up, nervous, and can't sleep these days; I feel as if life was not worth living. I have tried country air, and have artfully followed my doctor's advice, yet here I am, fast wearing away."

This confession, made by a resident of one of our largest Canadian cities, truly represents the condition of thousands of men and women, old and young, at this time of the year.

It is almost certain that such weakly and broken down men and women have not yet heard the joyful news that Paine's Celery Compound is the great life renewer and builder, the medicine that makes the weak strong, that gives vim and true activity to the languid and despondent, that makes the blood pure and red, that gives digestive vigour and sweet refreshing sleep.

Are you, dear reader, among the afflicted ones? Are you pining in misery and suffering and full of dread and fears? If so, let us point you to the only medicine that can meet your case without a fear of failure. It is Paine's Celery Compound, nature's medicine for the tired and worn out body and unstrung nerves. The virtues of this medicine strike right at the seat of the trouble, quickly bringing health and happiness. It has a marvellous record of cures, a fast and enduring fame won by rescues and life saving. Will you test its efficacy? You must if you desire health and robustness as well as extended years.

ATTACKS THE GOVERNMENT.

London Morning Post Denounces Salisbury for Yielding to the States.

London, Aug. 5.—The Morning Post renews its attack upon the Government for yielding to the United States in the seal controversy. It says: "Lord Salisbury is probably afraid of the United States, but the British nation does not share that fear, and any minister convicted of it would be out of office within a week.

"The American war party will make the most of the triumph, and will soon find fresh cause for quarrel. We may become involved in war before we think."

In another editorial, The Morning Post complains of Mr. Chamberlain, Secretary of State for the Colonies, for denouncing the commercial treaties with Germany and Belgium, and thus making enemies for England in Europe.

Physical strength and energy contribute to strength of character, and both may be had by taking Hood's Sarsaparilla.

Norway Pine Syrup cures coughs, colds, and all throat and lung troubles. Price 25 and 50c.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c. 50c. and $1.00.

Undoubtedly the Best.

GENTLEMEN,—I wish to say that Dr. Fowlers Extract of Wild Strawberry has proved a wonderful remedy in my family. We would not be without it for twice its price. I say it is the best (not merely one of the best—but the best) medicine ever brought before the public for summer complaint or diarrhœa, either in children or adults.

THE WORKINGMAN...

Made this country. True, the ground was here when he came, but he's made it what it is. From the time that Queen Isabella hocked her jewels in order to "raise the wind," so that Chris. could have a "special sale" across the water in search of Peterborough and the surrounding country, until the present day—not a step has been taken forward—not an improvement has been made in this country—without the aid of the working man. Who is the greatest electrician in the world? Thomas Edison. Who makes the best sewing machines—the best locomotives—the best passengers cars? Who builds the biggest and best buildings, digs the deepest ditches and lays the longest railroads? The workingman. The Peterborough workingman is up to snuff. It did'nt take him long to find out that he could do more days' work in a dollars worth of working man's clothes that he bought here than he'd ever be able to do in any dollar's worth he'd bought before. Where one working man struggled in and bought a pair of Overalls or a pair of Blue Jeans, or a jumper of us in former years, a hundred patronize our workingmen's department to-day. We're proud of it. Are you a working man? Want to buy clothes to wear while you work that will wear while you work? Try us.

We are showing the nicest Novelties for "little men"—the finest ever brought to Peterborough. We also sell knee pants, 3 piece Suits, from $2.75 up. Long Pant Suits, from $3.00 to $5.00 up Single Knee Pants 25c, 35c, 50c, 60c and 75c. Save money by dealing with us.

We solicit the most obstinate cases and challenge the world for a case we cannot cure. This disease has baffled the skill of the most eminent physicians. $500,000 capital behind our unconditional guaranty. Absolute proofs sent on application. Address COOK REMEDY CO., 351 Masonic Temple, CHICAGO, ILL.

ALMOST A MIRACLE.

OTTAWA, Sept. 9th, 1896.

To the Phrenoline Medicine Co., Ltd., Ottawa:

GENTLEMEN,—I hardly know how best to express my appreciation of your valuable rheumatic remedy, Phrenoline. My son Gordon, who is 9 years old, has been a sufferer from inflammatory rheumatism for the past two years; was so bad at times that he had to be carried about on a mattrass; was attended by two city doctors apparently without the slightest benefit; spent 10 days at Caledonia Springs, came home with no marked improvement; took three bottles of a Homeopathic remedy now being extensively advertised, which did not relieve him in the least. I was beginning to give up all hope of his recovery, when by chance I mentioned the case to a friend who strongly advised me to give Phrenoline a trial.

I did so, with the result that when my boy had taken only half a bottle he was able to get on his bicycle and ride like any other boy around the block.

I certainly feel that I cannot say too much in praise of your remedy, and shall do all I can to make known its value to others.

Yours very sincerely,
(Signed) REUBEN CLARK,

FOR ELEVEN WEEKS

The British Law Makers Will Rest From Work.

PARLIAMENT CLOSED YESTERDAY.

Her Majesty's Speech Says Relations With Other Nations are Cordial Abrogation of the German Treaties, Visit of the Colonial Premiers and Other Matters.

London, Aug. 6.—The House of Commons met to-day at 10 o'clock in the morning and passed the third reading of the appropriation bill, which was then forwarded to the House of Lords, where it passed all stages. Both Houses then suspended business until 2.30 p.m., when the Queen's Speech, proroguing Parliament, was read. It was as follows:

"My Lords and Gentlemen,—At the close of the session, during which there has been disturbance and conflict in Europe, I am glad to be able to inform you that the cordiality of my relations with foreign powers remains unchanged. The united influence of the six powers, signatories of the Treaty of Paris, was earnestly exerted early in the year to dissuade the King of Greece from a war upon which he unhappily deemed to enter. Though they failed in this endeavor, they were able to bring about an early suspension of hostilities between the two belligerents and open negotiations for peace. These proceedings are protracted and a formal treaty has not yet been signed; but there is good grounds for believing that all the most important matters in controversy have been adjusted and that in return for an adequate indemnity the territory conquered by Turkey, with a slight modification of the frontier, will be restored to Greece.

"I have given notice to the King of the Belgians and the German Emperor to terminate the treaties of 1862 and 1865, whereby I am prevented from making with my colonies such fiscal arrangements within my Empire as seem to me expedient.

"In consequence of the infraction by the Chinese Government of certain stipulations of the convention of 1849 a fresh convention has been concluded establishing the frontier of Burmah and China more advantageously to my Empire and opening the west river of China to European commerce.

"I have concluded a treaty of commerce and friendship with King Menelik.

"The presence of representatives of the colonies and India at the ceremonies of the celebration of the sixtieth year of my reign has contributed to the strength of the bond of union in all parts of my Empire, and additional proof of the attachment of the colonies to the Mother Country has been furnished in the fiscal legislation of Canada and the contribution that Cape Colony, following the example of Australasia, has offered for our naval defence.

"The famine, which to my profound grief has prevailed in large portions of my Indian domains since the first of last year, has taxed severely the resources of that country. I gladly acknowledge the energy and self-sacrifice of my officers of all ranks, both Europeans and natives, and of the many private persons, who, with untiring zeal and anxious desire to avoid offence to native feeling, have labored to save life and relieve suffering. An appeal to the sympathy of my subjects in all parts of my Empire was responded to in the most generous manner, and I rejoice to learn that, owing to the satisfactory rainfall, there is every prospect that the area of distress will be greatly diminished.

"The plague, which caused a large number of deaths, has almost disappeared. The improvement is mainly due to the energetic and judicious steps of the local government. Every precaution will be adopted in view of the possibility of its recurrence; but at present there is a steady decrease, both of its prevalence and fatal effects.

"Gentlemen of the House of Commons:

"I am grateful for the liberal provision to which you have assented for increasing the maritime forces of my Empire.

"My lords and gentlemen:

"It has given me great pleasure to sanction the arrangements you have made for enlarging the important harbors of Dover and Gibraltar and for strengthening the military defences of my Empire. I anticipate that the facilities you have given for the practice of military manoeuvres will conduce to the greater efficiency of my army.

"The assistance your legislation has given to the support of necessitous schools will secure adequate provision for education in localities where it is most required and will, I trust, close for some time a difficult and anxious controversy.

"The measure you have passed for the compensation of workmen injured by accidents in the course of their employment will confer great benefits upon a large section of the population.

"I recognize with satisfaction the steps to facilitate the transfer of land, to protect the consumers of water in the metropolis and to relieve the distress in the congested districts of Scotland.

"I rejoice that you have been able to provide a more efficient and more economic system for the judicial institutions of Ireland.

"I pray that the fruit of your labors may be matured by the protection and blessing of the Almighty God."

Parliament was prorogued until Oct. 23. The proceedings terminated at 3.15 p.m.

Great Mortality in India.

Bombay, Aug. 6.—Considerable alarm has been caused by the official statistics of the public health just published, which shows that there were 1071 deaths here during the past week, of which number 220 were deaths from cholera, and 18 were deaths from the plague. This is double the normal rate.

A Pigeon From Andree.

Paris, Aug. 6.—The Gaulois says: A pigeon, bearing instructions regarding Prof. Andree's balloon expedition across the North Pole, has been captured at Gradisca, near Goritz, 22 miles from Trieste, in Austria-Hungary.

Bringing Their Wives Along.

Liverpool, Aug. 6.—The White Star Line steamer Teutonic, which sailed from here on Wednesday, had among her passengers the Bishops of Albany, Texas and Massachusetts, who were in attendance at the Lambeth Conference. The Allan Line steamer Parisian, which sailed from this port for Montreal yesterday, had among her passengers Lord Lister, the famous surgeon, and President of the Royal Society; Mr. Scott Keltie, the secretary of the Royal Geographical Society, and the Bishops of Quebec and Qu'Appelle. The latter were accompanied by their wives.

THE SLAUGHTER WAS AWFUL.

British Officer at Malakand Reports That 2700 Tribesmen Were Killed.

Simla, Aug. 6.—The British political officer at Malakand reports that practically all the tribes joined in the late attacks on the British forces in the Chitral district. He says 2700 of the enemy were killed and many of the tribesmen were wounded. The latter are greatly disheartened and much further resistance is not likely.

Indian Traitor Balled.

Bombay, Aug. 6.—The case of Gangadhar Tilak, the native member of the Legislative Council, who was arrested on the charge of inciting the natives to disaffection, came up to-day in the High Court before Judge Tyabjee on an application for admission to bail.

After hearing counsel the judge decided to admit the accused to bail in the sum of a lakh of rupees. As Gangadhar Talik was leaving the court he received an ovation from an immense crowd of natives, who had assembled outside. The decision of the court has caused a sensation.

LABOR LEADER ELECTED.

Mr Frederick Maddison Chosen M. P. for the Brightside Division of Sheffield.

London, Aug. 6.—The Parliamentary election to fill the vacancy in the Brightside Division of Sheffield, caused by the death of Hon. A. J. Mundella (Liberal), who had represented the division since 1887, took place to-day, and resulted in a victory for the Liberal and Radical candidate, Mr. Frederick Maddison, who polled 4289 votes, against 4106 polled by the Conservative candidate, Mr. James Ezadan Hope. Mr. Maddison is a well-known labor leader, was President of the Trades Congress in Hull in 1886 and was for several years a member of Hull Town Council and President of the Hull Trade Council. He now has charge of The Railway Review, the official organ of the Amalgamated Society of Railway Servants.

The defeated candidate is a nephew of the Duke of Norfolk, Postmaster-General.

Tennyson Memorial Beacon.

London, Aug. 6.—The Rev. George G. Bradley, Dean of Westminster, unveiled to-day, on Freshwater Downs, Isle of Wight, the Tennyson memorial beacon. The beacon, which will take the place of one that has long stood there, is in the form of an Iona cross and is visible for miles. Its site is in the immediate vicinity of the poet's favorite walk. Although the family preferred not to issue many invitations to the ceremony, there was a large gathering.

A CHANGE IN TONE.

The Stand Taken by the Doctors in the Kent Case Beginning to Weaken.

OTTAWA, July 26th.—It is safe to say that the statement made under oath by Mr. G. H. Kent of this city with regard to his wonderful recovery from Bright's disease through the agency of Dodd's Kidney Pills has definitely decided the objection as to whether he owes his recovery to this valuable medicine, and has been been accepted as a final settlement of the debate. While, however, there is now no question raised to the statement, there is still a strong feeling in the city and neighborhood with regard to the cure, and those who at first combatted the idea as incredible are now loud in their expressions of astonishment that what has been considered an incurable disease should succumb so quickly to a remedy, and in their praise of the remedy itself.

Speaks from Experience

Mr. J. W. Tomlinson, Amherstburg, Ont. speaks from experience when he says:—"I am well satisfied with Doan's Kidney Pills They are undoubtedly the best medicine on the market for any one afflicted with urinary or kidney troubles, such as pain in the back, tired feeling, cramps, numbness, etc. They cured me and removed all my pains and aches."

"How to Cure all Skin Diseases."

Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman Sons & Co., Montreal wholesale agents.

Captain Sweeney, U. S. A., San Diego Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 359 George Street.

"DON" ON HIS MISSION.

Mr. E. E. Sheppard Has Been Cordially Received in Mexico and Has Left for Central America.

City of Mexico, Aug. 5.—The Canadian Envoy, Edmund E. Sheppard, of Toronto, Ont., who has left for the United States, being on his way to Central America via New York, has been cordially received. The Canadian Government desires to secure trade here and in Central America, and doubtless Mr. Sheppard's mission will lead to some results, although hardly such as will inspire apprehension in the United States. Canadian lumber will find a market here and various lines of manufactured goods, if properly introduced, and it is believed the Canadian Government is prepared to encourage direct trade with this country. Trade with England is diminishing in several lines, owing in part to the competition of American manufactures, and the growth of cotton manufacturing industries here. The American steel and machinery are successfully competing with the European here.

There are thousands of sickly school-girls all over this broad land that are dragging their way through school-life who might enjoy that abundant life which belongs to youth by simple attention to hygienic laws and a proper course of treatment with Scott's Emulsion. This would make the blood rich, the heart-beat strong; check that tendency to exhaustion and quicken the appetite by strengthening the digestion. Our book tells more about it. Sent free.

SCOTT & BOWNE, Belleville, Ont.

HOUSES

* 1871 *

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

* 1897 *

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

Catalogue mailed free.

W. H. MELDRUM.

Mark Street Method ist Church.

The official board met this afternoon and decided upon what the Rev. Mr. Moore's salary should be for the coming conference year. The religious quarterly meeting will be held to-morrow morning. Lovefeat and fellowship meeting commences at 10 o'clock, preaching at 11 by the pastor, after which the Lord's Supper will be administered.

The Raw Cutting Winds

Bring to the surface every latent pain. Rheumatism neuralgia, lumbago, and complaints of a similar character hold revel at this season of the year amongst human nerves and human muscles. The best the most powerful and most certain pain cure is Nerviline Nothing equals Nerviline for penetrating power. Nerviline is beyond comparison the grandest discovery for the relief of pain offered to the public.

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2.75, and at the latter city the great summer sports are in full swing.

Married With a Nuptial Mass.

The following from the New York Herald will interest several Peterborough people: "At the church of the Sacred Heart, New York, Mr. James Buck, of Lindsay, Canada, was married to Miss Anna Hughes, of New York, by Rev. Thomas W. Wallace, on the 20th inst. Mr. D. J. O'Connor acted as groomsman, and Miss Nellie Hughes, sister of the bride, as bridesmaid. After the nuptual mass a wedding breakfast was given at the house of Dr. M. Hughes, 210 west Forty-seventh street. The newly married couple left in the afternoon for a few weeks' sojourn in the Katskills."

The "North Star's" Idyl Wild Trips.

The popular fresh-air trips to Idyl Wild via "North Star" continue to be well patronized. Every day this week the number of our citizens who have taken advantage of this cheap trip has increased, and the general report is of the most satisfactory character. Mr. Martin and his crew are favourably spoken of by the excursionists, and the meals at Idyl Wild are well served. The interest in the serpent mounds on Rosch's Point in connection with these trips has attracted many visitors. This afternoon's trip on the "North Star" was largely patronized.

A Bobcaygeon Bridal.

The ever-interesting ceremony was performed on Monday at the residence of Mr. Wm. Kennedy, Rev. Mr. Innis impressively pronounced the words that join for life the futures of Miss Jeanette and Mr. Bogart. The event was strictly of a private character, assisted by Mr. R. Kennedy and Miss Martha Kennedy the contract was solemnly engaged in at high noon. After a jolly time spent over the wedding breakfast, the happy couple drove to the boat amidst the hearty congratulations of many of the bride's friends. Turning the corner at the swing bridge, the young lady received a shower of rice that delayed the carriage. A large circle of friends will wish Mrs. Bogart all possible happiness.

INSPECTOR STRICKLAND.

He Paid Peterborough a Visit To-day.

Mr. D'Arcy Strickland, Inspector of the Northwest Mounted Police, who is at present visiting his father and family, was in town to-day. He, of course, has nothing new to say of what everybody is thinking, the Klondyke gold fields. Having run the gauntlet of scores of newspaper reporters, each of whom has tried to pump him dry, he can have little more to tell. But he is constantly in receipt of letters asking all *sorts of* possible and impossible information respecting the gold fields and the way to reach them. He will return to the north and will, it is likely, enjoy the change for his life has been made a burden. He was still in active service—literally under fire—a fire of questions, asked and asked over hundreds of times with "dammed iteration." Still the Inspector is good natured and cheerfully answers all questions as long as his information and his lungs hold out.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—A vagrant was sent up this morning for a month.

—Battalion rifle practice is taking place at the Curtis ranges to-day.

—Rev. Alex. Grant of Winnipeg was drowned in the Nepigon river.

—The Canadian Canoe Company is building canoes for the route to the Klondyke.

—Put up the tax on whisky at once. They report seeing sea serpents down Kingston way.

—A Cornwall young woman died from inhaling Paris green, which she was putting on potatoes.

—The street staff of workmen, which has averaged about thirty, has been reduced to four.

Mr. Jas. McNabb, formerly Grand Trunk roadmaster here, has gone out to the Crow's Nest Pass Railway.

—Flour has advanced in Kingston at the rate of 45 cents in three days. The corner in the wheat market explains it.

—If a man gets "strapped" at the Klondyke he can't jump on the bumpers of a freight train and make for the next town.

—Harry Lindley, the handsome young comedian, is still treading the boards clad in sock and buskin, and, especially, cap and bells. He will be in Peterborough this fall.

—The band in Victoria Park last night played delightful music to thousands—perhaps the largest attendance on band night.

—The regular meeting of the W. C. T. U. will be held on Monday, Aug. 9th, at 3.30 p.m., at Mrs. Paton's, Brock street. All are welcome.

—A representative of D. M. Ferry & Co., the seedmen, is seedy himself now. While under the influence of—sunshine, he had his pockets picked in Lindsay.

—Two new cases of smallpox near Montreal. Danger! Now let the authorities roll up their sleeves and call upon the unvaccinated to roll up their's.

—A gang of G. T. R. workmen went down the Grand Junction line yesterday to replace the wooden bridge bridge across the Indian river, west of Keene station, with an iron one.

—Mr. W. E. Greenwood, of the Greenwood Organ Company, is engaged in generally overhauling the George street Methodist church organ. It will be ready for use next Sunday week.

—On Wednesday afternoon a little Lindsay girl, aged 6 years, was terribly, if not fatally, burned by her clothing being ignited from a fire around which she was playing with other children.

—A gentleman from Stony Lake this morning reported the capture of a big fish by a young lady. The fate of Ananias being quoted in connection with details, the gentlemen declined to enter into particulars.

—Mr. F. W. Miller, relief officer, reports that there is an active demand still for charity—old persons and sickness. Last month the estimates were overdrawn $5, but this is met by a surplus of $100 from previous months.

—Sir Wilfrid affords Germany a taste of his "sunny ways" by assuring her that she can get right into the front row of our favour—by simply paying the regulation price. John Bull is the only European likely to get a free ticket.

—Exports of cheese from Montreal to Europe since May 1st were 717,040 boxes, while the receipts of cheese during the past week were 116,335, making a total of 854,367 boxes to date. For the corresponding period last year there were 552,530 boxes shipped.

—Mr. F. W. Miller, agent for the Children's Aid Society received information from Hastings of the sad ill-treatment of a child. Hastings being out of his jurisdiction Mr. Miller sent the complaint on to Toronto.

—In conversation with the president of the Street Railway Company, the EXAMINER is informed that he knows nothing of any negotiations for the purchase of the road except the street and newspaper gossip that has been current the past few days.

—The chief, to be certain of the identity of Murray alias Condin, sent up on the 29th ult. for pocket-picking on July 1st, forwarded a photograph to Springfield, Ohio. The chief of police of that place writes that the man is Condin, a son of the police judge and well and respectably connected.

—As against figures quoted at the daylight session of the council a few days ago in regard to the small increase of the school population—the number being placed at 33 in three years—a member of the school board points out that three ago the registered public school attendance was 1,100 odd and now it is 1,400 odd, an increase ten times greater than that urged in the council.

—The two lads that burglarized Edwards & Co.'s hardware store, Lindsay, a fortnight ago, were sentenced yesterday by Magistrate McIntyre, to five years in the penitentiary, and the juvenile desperados were afterwards taken before County Magistrate Deacon, who added two years to their term for stealing a watch. The two terms run concurrently.

—A handsome young newspaper man—as yet officially unattached as to his affections and with a large reserve of unexpended gallantry—has a class of young lady pupils in wheeling. At four o'clock to-day he took his class out to McCracken's Landing for a spin—a sort of test of the efficiency of his instruction. The procession, as it got under way, reminded one of a bevy of ducks—of girls—in tow of a gallant gander. Farmers' horses are not working on Sunday and the party may reach town again.

Steamer City of Peterborough.

Until further notice the steamer City of Peterborough will leave the C.P.R. wharf every morning (Saturday excepted) at 8.30, calling at Peck's wharf, Ashburnham, for Jubilee Point, Gore's Landing and Harwood. Fare 40c, dinner at Jubilee, included. On Saturday, at 2 p.m., for Jubilee; fare 40c., tea included. d30tf

KILLED BY A HORSE'S KICK.

A Two-Year-Old Child Instantly Killed.

(Special to the Examiner.)

Norwood, Aug. 6.—A shockingly fatal accident occurred on the farm of Adam Gardner, 11th con. of Asphodel last night, when his little two-year old son, Fred Russell, was almost instantly killed by a kick from a horse, which he approached too closely while it was being unhitched in the yard. Dr. Moffat was immediately sent for, but on arriving found the case hopeless, as death soon followed. The funeral will be conducted to morrow (Saturday) at 2 o'clock p.m.

The parents have the sympathy of the entire community in their terribly sad and shocking bereavement.

ANOTHER REVOLVER ACCIDENT

Serious Results of Boys Trifling With This Weapon

Special to the Examiner:

Norwood, Aug. 6.—Yesterday while Robert Baker, a lad fourteen years old, son of Geo. Baker, 9th line of Dummer, was experimenting with a new idea in revolver construction, the machine accidentaly exploded, splitting his left hand completely in two and shattering the bones in a shocking manner. Dr. Ford attended the wound, but fears amputation necessary to his recovery.

FELL IN FRONT OF A MOWER.

The Young Son of Mr. Jas. Greenan, of South Ops, Painfully Injured.

Joseph, the 14-year-old son of Mr. James Greenan, of South Ops, narrowly escaped fatal injury Thursday. His elder brother, Peter, was operating the mower, and left the machine to procure a drink of water. While absent Joseph undertook to run the machine; he climbed to the seat, and while reaching forward to the lever, he overbalanced and fell in front of the mower, which passed over him. When Peter returned he found his brother lying unconscious and bleeding from a number of wounds. Dr. Poole was as once sent for, and on arrival found that the young lad had sustained serious but not necessarily fatal injuries; there were several deep cuts on the head and other parts of the body, and the marks of a very severe bruise on the chest, but no bones were broken. The patient is to-day resting well and will make a speedy recover if fever does not set in.—Post.

TAXING POWER COMPANIES.

The Auburn Light and Power Company Protest.

A meeting of the Auburn Light and Power Company was held this morning to consider and formulate a protest against the proposal of the town to impose a tax of $400 per year on the Company's poles. Mr. Campbell, the electrical engineer of the Company, who is superintending the erection of a system of supplying power to small users of electricity, was present. The details of the whole situation were discussed and left in abeyance pending the action of the council. The Company will be represented at the meeting of the Committee of the whole Council on Monday night. The fairness of the proposal to tax the Auburn Power Company in view of the peculiar relation of the town to the Peterborough Light and Company and the Bell Telephone Company, is highly questionable. It seems to be a matter of life and death to the Company, which sees no chances of profitable operation under such a tax.

TO ROCHESTER AND RETURN.

The Oddfellows' Delightful Outing on Civic Holiday.

The most delightful of the Civic Holiday series of outings is the Oddfellows' excursion by train and steamer to Rochester, the Flower City, on August 19th. A quick run from the Grand Trunk station, and a delicious sail across Lake Ontario by the palatial steamer North King, and a day—or two if you like—in Rochester, one of the handsomest cities of the United States. And all for the small sum of $1.85 for the round trip ticket. Children $1.00. Tickets good from Thursday to leave and return on Friday or Saturday. For details of this delightful trip see large posters. Train leaves G.T.R. station, Peterborough, at the convenient hour of 11.50. Make your arrangements for taking in the most delightful excursion of the season. 2d

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Men's Tweed and Worsted Pants, in all wool, good top and hip pocket, regular price $2.00 to $3.00, Grafton & Co's Summer Clearing Sale Price $1.50.

Overstocked with Ripe Bananas.

Everybody should take advantage of this chance to buy ripe bananas at Oke & Co's. Our present large stock consists of extra fine ripe fruit, which will be sold at about half usual price. They must be cleared at once as we have too many in stock to hold long. OKE & Co.

Another Cheap Excursion to Hastings and Return, on Friday Aug 13th.

The Steamer City of Peterborough will leave the C.P.R. wharf for Hastings on Friday, Aug. 13th, weather permitting, at 7.30 a.m., calling at Peck's wharf, Ashburnham; Jubilee, Harwood and Idyl Wild. Return tickets to Hastings, 60c; Idyl Wild, 50c; Harwood, 50c; Jubilee, 40c.

Excursion to Hastings.

Yesterday the steamer City of Peterborough ran her first excursion of the season to Hastings. Between fifty and sixty took advantage of the very low fare and enjoyed a delightful sail. At Jubilee Point about twenty more boarded the steamer and arrived at Hastings shortly after one o'clock. After a short stay in Hastings the steamer started on the return trip, stopping at Jubilee Point for tea, and reached home at 9.30.

FASHIONABLE TAILORS.
Over New Block Water St

PERSONAL.

Mr. Richard Clegg came to town last night to spend Sunday.

Miss Mabel Warne has returned from Stony Lake after a pleasant visit at Mr. R. McWhinnie's cottage.

North Perth Conservatives nominated Mr. Thos. Magwood, M.P.P., as their candidate for the Legislature.

Mrs. Geo. Koehler and son, of Rochester, N. Y., are visiting in Ashburnham, the guests of Mrs. John Butcher.

The Brockville Times says: Miss Lizzie Crossley has left on a visit to friends in Belleville and Peterborough.

Mr. Chas. Forlong, of the Quebec Bank, Toronto, has returned to the city after a pleasant fortnight's holidays in town.

Rev. A. T. Dykeman, who is sojourning at Juniper Island, Stony Lake, was in town for the day. He returned this evening.

Miss Minnie Delaire and her sister, Louise, of Park street, left this morning for Midland City on a month's visit to her uncle.

Mrs. Gibson and son Willie, of Peterborough, have been in Tweed, says the News, visiting her sisters and father, James Falconer.

Mrs. D. P. Kane and daughter, of St. Louis, left for home yesterday morning after a visit with Mr. and Mrs. Geo. Ball, Smith street.

Archbishop Walsh, who is spending a month in Ireland and is at present in his native County of Kilnenny, will sail for home August 15th.

Mr. Louis Croly left yesterday on the noon train for New York, where he has received appointment as a bookkeeper. It is understood that he will remain permanently in New York.

Mr. Alexander Cromie, superintendent of agencies for the Dominion Life Assurance Company, visited town and appointed Mr. A. R. J. Hall as agent for Peterborough.

Messrs. Jas. Edgecumbe and J. A. McGill returned last evening from their trip to Rochester, via. steamer North King, where they went as a deputation to make hotel and other arrangements for the Oddfellows' excursion on the civic holiday.

A SUBTLE THIEF.

Kidney Troubles Steal on one Insidiously—A Slight Cold—Then Congestion—Then Inflammation—Then the Deadly Melady Bright's Disease—South American Kidney Cure is a Kidney Specific—It Relieves in Six Hours and Cures—Never Fails.

Mr. James McBrine, of Jamestown, Ont., says:—"I believe South American Kidney Cure saved my life. I was so severely afflicted that my friends had to attend me daily to take the urine from me."

Mr. A. Williamson, Customs Officer, Kincardine, Ont., writes:—"I can highly recommend this specific as the greatest of boons to suffering humanity for all affections of the bladder and kidneys."—Sold by H. S. Macdonald.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

To-day—1 p. m. ..... 80° above zero

	Highest.	Lowest.
Yesterday	80°	57°

A Banker's Experience.

"I tried a bottle of Dr. Chase's Syrup of Linseed and Turpentine for a troublesome affection of the throat," writes Manager Thomas Dewson, of the Standard Bank, now of 14 Melbourne Avenue, Toronto. "It proved effective. I regard the remedy as simple, cheap and exceedingly good. It has hitherto been my habit to consult a physician in troubles of this nature. Hereafter, however, I intend to be my own family doctor."

Cheap Afternoon Trips to Jubilee Point

The steamer City of Peterborough will leave the C.P.R. wharf for Jubilee Point every Tuesday, Thursday and Saturday afternoons at 1.30 o'clock sharp, (weather permitting) calling at Peck's wharf, Ashburnham. Return fares 40c, tea included.

Men's White and Fancy Duck Vests, single breasted, double cotton back pearl button, regular price $1.00 to $1.50, Grafton & Co's Summer Clearing Sale Price 50c. See them.

The golden egg is something to cackle over—cut-cut-cudahy.

To Jubilee on Civic Holiday.

Jubilee has always drawn good excursions on our Civic Holiday, and Court St. Peter's Branch of Foresters will have "the pull" this year. The City of Peterborough has been chartered for the day, and a 50c. ticket covers the whole bill. A programme of sports and an exciting canoe race is included. Make up a party—the whole party can go at the price. See posters.

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

Young Women's Christian Association.

It has been found necessary to call a meeting of the Board for Monday next at 3.30 in the afternoon. All the members who can possibly attend are requested to do so, as arrangements have to be made for classes to be held this autumn and winter. Correspondence is being held with a lady who is considered one of the best teachers in cookery. She has taken her diploma in the Toronto School of Cookery. All ladies, both young and old, should endeavour to take advantage of the classes she may hold, both in plain and highclass cooking. The Board of the Y. M.C.A. have kindly consented to permit the members of this Association the privilege of attending special classes in their gymnasium. The arrangements bring within the reach of all young women advantages which it is hoped will be duly appreciated. Further particulars will be given later or may be had from the secretary at any time.

DEANERY OF NORTHUMBERLAND

Highly Successful and Pleasant Meeting at Stony Lake.

The clergy of the Deanery of Northumberland held a most enjoyable meeting at "Headlands," the Stony Lake residence of Mr. F. J. Tate, on Aug. 2nd, 3rd and 4th. The following were the clergy present at the meeting: Ven. Archdeacon Allen, Revs. Rural Dean Allen, Rural Dean Webb, Canon Sprague, J. C. Davidson, C. H. Marsh, E. V. Stevenson, W. L. Baynes Reed, C. H. McGinn, A. L. Weaver, G. H. Scott, John Gibson, Herbert Symonds, Christopher Lord. This is the third annual meeting they held as his guests, and the invitation has been renewed and accepted for next year. The number of the clergy in attendance was augmented by the holding of a meeting of the Council of the Archdeaconry of Peterborough at the same place.

Business commenced on Tuesday morning with a celebration of the Holy Communion at 8 o'clock. After breakfast the Rev. G. H. Webb, the new Dean of Northumberland, took the chair. The first subject was a discussion of the question in the Ordinal which enjoins upon the candidate for priest's orders the duty of promoting peace and quietness amongst his flock. This was treated in a terse and capable fashion by Rev. E. V. Stevenson. Following this came a paper on Dr. Salmond's recent great work on "The Christian Doctrine of Immortality" by Rev. H. Symonds. Dr. Salmond describes the *form of this doctrine, which he finds to be* universal amongst the human race, as it was held amongst the Hindoo, Egyptians, Persians, Babylonians, Greeks and other people of antiquity. He then expounds the doctrine of the Old Testament, devotes much space to the teaching of Christ, passes in review that of the Apostles, and finally reviews more less modern ideas as restorationism, conditional immortality and the like. His conclusions on all these heads are conservative.

After lunch, Rev. W. L. Baynes Reed described the history of Church work in his mission, and some difficulties connected therewith were discussed.

It was decided to hold the next meeting at Colborne, and an interesting programme was drawn up.

On Wednesday most of the members at Mr. Tate's invitation, stayed over for a day's fishing. Clergymen are, as is only natural, (especially amongst those of the apostolic succession) good fishermen, and between seventy and eighty bass were caught. In the evening a social meeting was held, to which many of the neighboring islanders were invited, and a very enjoyable evening was spent. A hearty vote of thanks was tendered to Mr. Tate with cheers.

The Council of the Archdeaconry, with Ven. Archdeacon Allen presiding, arranged the programme for the next meeting, which will be held in Lindsay in November. The division of the Diocese of Toronto will form the chief subject of discussion. Other topics will be—"The Layman's Work in the Church" and "Christian Unity." The following clergy and laity will be asked to contribute papers or addresses: Rev. Dr. Pearson, Toronto; Rev. F. H. DuVernet, Toronto; F. E. Hodgins, Esq., Toronto; Rev. Canons Sprague and Farncomb, Rev. C. H. Marsh, Rev. W. E. Cooper, Rev. H. Symonds, and Messrs. John Burnham, A. L. Colville, R. M. Dennistoun and W. Grace.

Y. M. C. A. NOTES.

Gospel meeting to-night at 8 o'clock led by Mr. J. H. Edmison. Service closes sharp at 9 o'clock. Come!

The subject of the men's meeting to-morrow afternoon at 4.15 will be "Three Classes of People." All men are invited.

The membership competition is still "hot." Tickets are being taken out daily on the instalment plan.

How many people are ashamed to go into company on account of their foul-smelling breath, caused from catarrh or cold in head? If they would study their own interests they would soon have a sweet breath like their neighbors. Their is one sure cure for Catarrh and that is Dr. Chase's Catarrh Cure. Give one blow through the blower and you get relief immediately. Price, incuding blower 25cents.

Novelties in Chairs.

Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round. Every new thing quick as it appears. d

Buyers Delighted.

You're missing the most interesting prices in first-class summer clothing if you don't attend H. LeBrun & Co's. August clearing sale. At the end of the season we throw profits to the winds, and although it may mean a loss we cannot afford to carry stock over from one season to another. Besides, preparation for receiving early fall stock is now being made and a complete clearance of all summer goods must be effected. Our choicest lines of light summer coats, vests and trousers, tweed suits, negligee shirts, underwear and neckwear at great bargains. Men's Tweed suits at $3 and $3.50. Balbriggan's double thread underwear, all sizes, 75c for the suit, worth $1.25 and $1.50. Natural wool underwear same price. Little prices all over the store to hurry on the clearance. You can bank on the goods being all right. H. LEBRUN & Co.

THIN THINGS!

Our Negligee Coats are thin, our prices are thinner. Weather like this you want thin White Clothing. Better to have your Clothing thin than yourself thin.

Come and see our Stylish Striped Flannel Coats, Thin Silk Coats, Thin Boating and Tennis Coats, Thin Cream and White Coats, Pants and Vests, commencing at **$1.25, $1.35, $1.50, $2.00.**

Don't go on your Holidays without a Thin Summer Coat or Suit. It takes only a thin purse to buy them.

A. MERCER & CO.

PETERBOROUGH TOWN FORTY-FOUR YEARS AGO.

AS SEEN IN THE PAGES OF THE PETERBOROUGH "DESPATCH."

A Glance at its Pages—Who were in Business then—The Ways of Councillors were also Dark in those "Good Old Days"—At Loggerheads with the Firemen—Other Reminiscences

Lord Tennyson (rest his bones) sings us how he "sipt into the future," and the EXAMINER, though hopeless of emulating his greatness, takes the liberty of dipping into the past.

Through the kindness of Mr. James Miller of Keene, the EXAMINER came into possession of a copy of the Peterborough Dispatch" of the date of Tuesday, March 29th, 1853, exceedingly well preserved, owing to it containing an important family record, to wit the forbidding on the part of a husband of anybody harbouring his "wife Ann," who had left his bed and board without just cause, etc., just as wives do in these degenerate days.

Forty-four years is not old for a newspaper, but in that time many important changes have taken place in Peterborough and a glance at the "Dispatch," will not only illustrate the progress that the town has made but will bring back many recollections to the elder citizens of the town, of a time when the population was a little over 2,000.

In 1853 Peterborough was in the third year of its existence as a town, and the paper then published is to be considered a fair reflex of its business and social conditions. The first page contains a "Business Directory," a column of cards, by which it is seen that Templeton Brown was a watchmaker and jeweler on Simcoe street, two doors west of Mr. R. Thompson's; Mr. W. H Wrighton was agent for the British American Insurance Company. Vizard & Weller had a law office on George street, "Mr. Dennistoun, a barrister-at-law," was "Master Extraordinary in Chancery." George D'Ollier was an attorney-at-law and Mr. Martin Dunsford had a law office in the "stone building next to Mr. Baxter." John Reid was a surveyor and engineer. Mr. A. McCrea, physician, had an office in the Victoria Hotel, (John Gall's) Keene. A. W. Kempt

DEALT IN DRUGS

at the "Medical Hall," now Mr. John McKee's, and apparently W. Bell and John McNabb "went snocks" in the joint occupancy of an office on Hunter street as "medical dispenser" and "surgeon and coroner" respectively. Chas. Hudson was inspector of tavern licenses, and W. Cluxton was agent of the Commercial Bank. T. J. Fisher had the stable yard of the Albert House "thoroughly planked."

The other six columns of the first page contained miscellaneous reading including articles of wide range of variety, such as "The Depths of the Ocean," "Cows Holding up Their Milk," a fish story, the Bishop of Ripon on Baptismal Regeneration, etc. The last column of the page is devoted to parliamentary reports, which turn over and occupy four columns of the second page. The burning questions of the "Seignorial Tenure," and the "Representation Bill" are the chief features. The division shows that the representation bill is carried by a majority of 45 in a House of 77 members. Mr. John Langton, the representative for Peterborough, voted for the bill, and the editor of the Despatch patted him on the back in an editorial leader of four lines.

On this page the Despatch has about six inches of foreign news three weeks old. A report of a town council meeting of half a column shows that there was a financial muddle in the affairs of the town—the "financial embarrassment" of the town, referred to in the report of the Finance Committee, represented by an "unpaid promissory note for £150 and by unpaid cheques issued by a previous council for 'road' improvements to the extent of £450, and other matters which, "in the opinion of the committee, had not been undertaken in a legal manner," and on motion of Mr. Ferguson and Mr. Rowe the matter was referred to "some competent barrister in Toronto" to untangle—or complicate. The report concludes by a reference to the fact that

LABOURERS SUFFERED

because the cheques of the corporation for wages were not paid on presentation.

We growl about our civic representatives now, but there were troubles in the "good old days." In addition to running the town into insolvency, the council had a row with No. 1 Fire Company, of which Edwin Poole was captain and Wm. Johnston secretary. The Despatch must have had a "scoop" on its contemporaries, for it published on March 29th a report of a meeting of firemen held on Feb. 23rd at which Wm. Lannin and John S. Patterson moved a resolution denunciatory of the council, George Johnson and James Doris a vote of thanks to Messrs. Burnham, Ferguson, Lundy, Stevenson and Hopkins for "manfully advocating the claims of our company in the town council." E. C. Hill and Robert Graham moved that a "copy of the above resolutions and the proceedings of this meeting" be handed to the "Despatch"—and if it took as long for the firemen of "No. 1" to get to a fire as it did for the report to reach the "Despatch"—about four weeks—it's no wonder the town council "fired" them.

The advertisements on the third page indicate that J. M. Petch had a room in Fisher's hotel, where he "took" "Daggertypes." John Gilmour conducted the Walkerfield nursery and gardens." Mr. A. B. Kent gave a lecture on electricity, with violin and "melodian" accompaniment, and le 3d admitted the spectator to the marvellous view of an "electric battery capable of taking electricity enough to kill large animals." People got into debt in those days, and W. S. Conger, Sheriff, announced several "Sheriff's Sale of Lands." John Fowler, contractor,

WANTED 2,000 LABOURERS

forthwith to work on the Cobourg and Peterborough Railway. Bolton W. O'Grady, principal, with Ivan O'Beirne, as assistant, announced the terms of the "County Grammar School" as 10 shillings per quarter for "English in all its branches" while classics, mathematics, French and drawing—evidently without branches—were of the plebian figure of 5 shillings. Thomas Benson, secretary, gave notice of application to amend the act incorporating the Peterborough and Port Hope Railway Company so as to permit of building a "branch from the west bend of the Otonabee to the village of Keene."

W. H. Wrighton, town clerk, publishes a bylaw to be submitted to public vote to raise the sum of £1,000 to pay liabilities for street improvements, to purchase school lands and improve the market house. The assessed value of the real and personal property that year was £9,521. 13s 5d. The number of bylaw referred to is given as 57. Since that time hundreds of bylaws have been passed in Peterborough, the last one being 789 and a host of these, such as the curfew bylaw and others, are as dead letters, as the decrees stamped on the baked bricks of Babylon.

The fourth page of the Despatch is largely given over to advertisements—principally patent medicine nostrums, showing that men were as unscrupulous in their pursuit of gain and the people as anxious to be swindled as in these days. The virtues are detailed of "Sweets' celebrated medicines," "Dr. Houghtin's Pepsin," "Whitehead's Essence of Mustard," "Judson's Cherry Pectoral," etc. A half a column of clutch

AFTER POOR HUMANITY'S

everlastingly disordered kidneys proclaims the matchless powers of a pharmaceutical stone crusher, "Vaughans' Vegetable Lithontriptic mixture."

Mr. Wm. Cluxton also appears in this Despatch as agent for three insurance companies and several Port Hope advertisement appear in this number.

No more effective demonstration of the progress of the town and also of the country could be had than the perusal of the pages of such a paper and no more eloquent reminder of the brevity of human life; for of all, the actors on the busy stage of the life of the town in 1853, whose names appear as citizens and professional or business men, only two are living in town to-day—His Honour, Judge Weller and Mr. Wm. Cluxton.

The "Despatch" was established in 1847, and it came into the hands of Mr. Agustus Sawers, who in 1850, changed the name of the Dispatch to the "EXAMINER," which is therefore the oldest newspaper in town.

(ASSESSMENT SYSTEM).

Sturdy as an Oak.

An Oak lives long after the man that planted it dies. Just so insurance; it lives after you die, and those that follow you get the benefit of its protection. When you plant an oak be sure you plant a good one. When you plant insurance be sure you plant good insurance in a good place. The Canadian Order of Foresters gives good insurance at a low price. There are 10 reasons why you should place your insurance with them. Here they are:

THE C. O. F. IS

1. Purely CANADIAN.
2. National in its character.
3. 25,000 strong.
4. Fixed Premium. No death Assessments.
5. Gives $500, $1,000, $1,500 or $2,000 insurance.
6. Over $1,500,000.00 paid to members and their dependents since organization, in 1879.
7. Careful medical selection. Death rate for the 17th year of its history only 4.94 per 1,000.
8. Has a larger Surplus on hand for each $1,000 risk than any other Society of the kind in Canada.
9. SECURITY OF INVESTMENTS. Not a dollar of our Surplus invested outside of Canada.
10. Premiums and Interest accruing therefrom used ONLY FOR PAYMENT OF DEATH CLAIMS.

ERNST GARTUNG, Supt. of Organization, BRANTFORD, ONT.

OH! THE MISERY.

Mrs. Galbraith of Shelburne, Ont., was a Great Sufferer from Indigestion, the Bane of So Many Lives—South American Nervine Released its Hold—It Relieves in one Day.

"I was for a long time a great sufferer from indigestion. I experienced all the misery any annoyance so common to this ailment. I tried many remedies and spent a great deal on doctors' bills, without receiving any permanent benefit. I was strongly recommended to try South American Nervine. I procured and used it. After only using two bottles I am pleased to testify that I am fully restored to health, and I have never had the slightest indication of a return of the trouble. I recommend it most heartily." Sold by H. S. Macdonald.

The Great Attraction This Week.

Gough Bros', hurricane sale of summer clothing, hats, boots, gloves and furnishings for men, youths and boys will doubtless prove a great attraction this week. A shrinkage of $10,500 on the prices covered by their whole stocks in both stores since last week should be inducement enough to bring crowds to their counters. The prices represent their great reductions in summer stocks, including that portion of the clothing left over from their great sale of the E. A. Small & Co.'s mammoth purchase in Montreal. Everything that cannot be carried over is to be got rid of. The goods cannot be marked any lower, and in order to have the benefit of a fairly good selection they advise all to call early to get the pick of the choicest. The changed prices will probably clear out all the summer goods in about a couple of weeks. dtf

WALLER & CO.

One Price Cash Grocery. Telephone 242. 168 Charlotte St

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c

Remember the address—

JAMES SUTHERLAND,
323 George Street.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the *factory* made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—430 George Street.

ONE OF THE GREAT

INVENTIONS OF THE AGE.

BERNARD TRAINOR'S Monster

WOOD AND COAL FIRE KINDLER.

Guaranteed to keep a full and constant blaze over 18 inches high for ten minutes. No kindling wood required. It will kindle two fires each time, even though the wood be damp or green. Boils two quarts of water without fuel. I have flattering testimonials and carry them with me as vouchers from different residents and Business men of Almonte Pembroke, Arnprior, Ottawa, Renfrew, Smith's Falls, etc., who are using the kindler from one to three years, to certify that it is still in use and as good as ever. These men recommend them to the public. With care every kindler is everlasting. I also manufacture a larger one which throws 4 times the heat of the smaller one, and that will of itself boil all small water required, which is a great convenience in the hot summer weather, and will without fail light any coal stove from under the grate, and is a magnificent fishing torch for spearing, etc. The kindler is used with a coal oil liquid and is safe in every form. One gallon of oil is sufficient to light one stove for one year. This is cheap kindling wood. Price, 50c and $1.00.

Mr. Trainor, the inventor, is at Clancy's Peterborough House, Hunter street, and will make a thorough canvass of the town.

SOLD AT ALL DRUG STORES.

THE L.A.W. MEETING.

Fifteen Thousand Spectators Saw the Flyers

LOUGHEAD AHEAD IN HIS CLASS.

The Gathering Was at Willow Grove Park, Near Philadelphia, and It Was the Most Successful in the History of the Organization. The Baseball Record.

Philadelphia, Aug. 6.—The opening races of the eighteenth annual meet of the L.A.W. were held to-day at Willow Grove Park, 14 miles from this city, before 15,000 spectators. It was the most successful in the history of the organization, in attendance, enthusiasm and good racing. Several State records were smashed, and Arthur Gardiner, the Chicago crack, came within two-fifths of a second of breaking Hamilton's world's record for one mile, paced. He succeeded in lowering the fast mile by Johnny Johnson at Chicago last year by four-fifths of a second.

Starbuck also took a trial at the record, paced by a quad and triplet. For the first half he made very fast time, but lost behind the triplet. His time was 1.44 3-5.

Both these events followed the scheduled races for the day. In the latter, the honors among the professionals were won by F. J. Lougheed of Sarnia, Ont., who crossed the tape a winner in three trials, two finals and second man in third final. In one of these finals, the one mile professional, broke the State competition record of 2.04 4-5 by covering the distance in 2.03 3-5. He captured the one-quarter mile championship in 32 sec.

The first event was the two mile handicap, professional. This was in six heats, and in all there were abot 80 entries, first three to qulify.

First heat F. J. Lougheud, Sarnia, Ont., (scratch), won; W. S. Becker, Minneapolis (60 yards), 2; F. J. Titus, New York (50 yards), 3. Time 4.46 1-5. W. C. Sanger was the scratch man in the second heat, of the two mile race, with Arthur Lee on the 50-yard line and H. E. Stevenson, Dayton, 25 yards. The pace was slow, and the men rode in a bunch throughout. A. E. Wehig (110 yards) won, W. C. Sanger 2, C. R. Newton (60 yards) 3. Time 5.03 4-5. Tom Cooper had the tape in the third heat, and the nearest men were J. A. Newhouse (25 yards) and Dock Brown (50 yards). For the first few laps the pace was fast, but they soon bunched and loafed until the finish, when the winner crossed two lengths ahead. Tom Cooper (scratch) won; Fred Sims, Washington (100 yards), 2; J. A. Newhouse (25 yards), 3. Time 5.03 2-5. Arthur Gardiner, of Chicago was scratch man in the fourth heat, with Starbuck the nearest at 40 yards. Arthur beat two yards at the crack of the pistol. All hands went out for blood, and a rapid pace was kept up until the finish. Gardiner won, L. A. Callahan (50 yards) 2, Barney Oldfield (110 yards) 3. Time 4.41 2-5. Eddie Bald (scratch man) was excised in the fifth heat. Sam Brock and Jay Eaton were on the 25-yard mark, with Frank Butler on 50 yards. Butler took the lead on the last lap, but Eaton spurted from the tailend and crossed the line an easy winner, F. C. Hoyt (70 yards) 2, Will Coburn (75 yards) 3. Time 4.50 3-5. Johnny Johnson was unable to start in the sixth heat, and F. A. McFarland was the other scratch man, with C. A. Church on the 40-yard line. F. F. Hummer at 55 yards and Frank M. Dampman at 225 yards. Charles A. Church won, C. S. Wells (90 yards) 2, O. L. Stevens (70 yards) 3. Time 4.42.

NAPANEE'S CIRCUIT RACES.

Napanee, Ont., Aug. 6.—The circuit bicycle races were held here to-day on the Napanee driving park half-mile track.

First race, 1 mile, novice—F. W. Smith, Napanee, 1; T. M. Nash, Belleville, 2; R. S. Ham, Napanee, 3.

Second race, 1 mile open, amateur—R. Thompson, Toronto, 1; R. S. Axton, Brantford 2; D. Wilson, Toronto, 3. Axton finished first, but was set back.

Third race, half mile open—F. Smith, Kingston, 1; F. E. Boulter, 2; R. Thompson, Toronto, 3. A general spill was made in this race, only one man finishing.

2.35 class, 1 mile—D. Wilson, Toronto, 1; F. E. Boulter, Picton, 2.

1 mile, club handicap—F. W. Smith, Napanee, 1; J. P. Anderson 2; R. S. Ham, 3; F. C. Anderson, 4; T. Laferty, 5.

Two-mile open handicap—R. E. Axton 1, D. Wilson 2, R. Thompson 3, J. P. Anderson 4, R. S. Ham 5.

Half-mile, heats, professional, 2 in 3—T. B. McCarthy 1, C. Greatrix 2.

Two-mile, open, professional—Angus McLeod 1, H. Davidson 2.

AT DUNDURN PARK.

Hamilton, Aug. 6.—(Special.)—The results in the bicycle races in Dundurn Park to-night were:

Mile—Barnes (scratch) 1, West (100 yds.) 2, Murray (scratch) 3.

Half-mile, open, two heats in three—Barnes won two straight heats, Murray 2, Sherritt 3, Coles 4.

Two miles, open—Barnes 1, Murray 2, Sherritt and Coles started, but their wheels got mixed up.

THE C.W.A. BULLETIN.

Ottawa, Aug. 6.—Official announcement of the C.W.A. Racing Board: On the 28th July, after an investigation by the board, the suspensions against H. A. Consitt, Harold Cooke and G. Cameron of Montreal were removed. Owing to the board not being satisfied with the case of A. Martineau, his suspension remains in force.

J. S. Bailey of Woodstock, N.B., has been transferred to the professional class under article 2, clause 5.

The case of Frank Moore of Toronto was considered at a meeting of the board held in Toronto July 27, at which Mr. Moore was present. Having transgressed the amateur rule (clause 5), Moore is hereby transferred to the professional class.

The suspensions against F. J. Graves and R. Cameron, St. Catharines, and J. Doyle and B. St. John, have been removed.

The 25-mile Dominion championship will be run off at the Woodbine, Toronto, at the R.C.T. road race.

The following sanctions have been issued: Aug. 14, Hanlan's Point, Toronto, Pol. Athletic Association; Aug. 5, Windsor; Sept. 2, Toronto Exhibition Association; Aug. 11, Ottawa A.A. Bicycle Club; Aug. 12, Smith's Falls; Aug. 13, Perth.

BASEBALL RECORD.

Toronto, Aug. 7. Yesterday's game at the Island was very close for the Toronto team, though the Montreals put up a good fielding game. Williams pitched excellently, and was well supported. The home team batted Gannon heavily. Freeman making two home runs.

	R.	H.	E.
Toronto 4 0 2 0 2 0 2 0 1	11	15	1
Montreal 0 1 0 0 0 1 0 0 0	2	7	7

Batteries—Williams and Casey, Gannon and Berger.

At Buffalo they are happy. The first game of the series of five with Syracuse, now the only rivals in the same State, was won by Buffalo in as clean and sharp a game as the locals have ever put up. The Stars, however, played ball all the way through, and made things very interesting toward the close. Farmer Brown pitched in his old time form, and Wills also did good work until the eighth, when he tired. Score:

	R.	H.	E.
Buffalo ..... 0 0 1 1 6 0 0 3 x	5	8	0
Syracuse 0 0 0 0 0 0 0 0 2	3	9	4

Batteries—Brown and Urquhart, Wills and Ryan.

At Scranton—Scranton 7, Providence 1.

THE NATIONAL LEAGUE.

At Brooklyn—	R.	H.	E.
Brooklyn ..... 4 4 0 1 3 0 3 0 x	15	16	2
Washington 0 0 0 0 1 4 0 0 0	5	9	7

Batteries—Fisher and Bunnell. Gorman, McJames and McGuire.

At Boston—	R.	H.	E.
Boston 0 0 0 0 0 2 1 3 3	6	12	2
Baltimore 0 2 2 1 0 0 0 0 0	5	10	2

Batteries—Klobedanz and Bergens, Nops, Pond and Clarke.

CLEVELAND BEAT ST. THOMAS.

St. Thomas, Aug. 6. The Power Athletic Club of Cleveland turned the tables on the home team here to-day. Both pitchers pitched good ball, but were hit hard at times. The score:

	R.	H.	E.
St. Thomas 3 0 2 0 0 0 0 0 2	7	10	7
Cleveland ..... 0 0 1 3 3 2 0 0 *	9	10	6

Batteries—Wood and Lyons; Kellackey and Kellackey. Umpire Taylor. Time of game—1.45. Attendance—1500.

LONDON WON 1 TO 0.

London, Aug. 6.—The best and fastest game ever played on the Tecumseh's Park was witnessed by a thousand people this afternoon between the Hamiltons and Londons. It was a pitchers' battle, and McGinnis of the Hamiltons kept the Londons down to two flukey hits. London scored the only run in the fourth on Cockman's and Keenan's singles and a sacrifice. Crowe, late of Guelph, was in the box for London, and, although the Hamiltons got five hits, sharp fielding prevented them from scoring, no less than six double plays being made by London. Score:

	R.	H.	E.
Hamilton 0 0 0 0 0 0 0 0 0	0	5	3
London ..... 0 0 0 1 0 0 0 0 x	1	2	6

Batteries—McGinnis and Conwell, Crowe and Reid. Umpire Phelps. Time 1.15.

CHAMPIONS AT PLAY.

Berlin, Aug. 6.—A game of ball between the Maple Leafs of Guelph and Berlin, champions Waterloo County League, was played here this afternoon. Score:

	R.	H.	E.
Berlin 0 0 0 1 0 0 2 0 1	4	9	3
Guelph ..... 1 0 0 0 0 3 0 1 x	5	7	5

Batteries—Martin and Graham, O'Brien and Dark.

The Crop of Apples.

Buffalo, Aug. 6.—The National Apple Shippers' Association gives the Canadian percentage for 1897 as 40, based upon 100 as a full crop. In the eastern section of the United States there has been a considerable falling off, and in some Western States a decided increase. On the whole this year's crop falls considerably below that of last year, but is about equal to the average.

REV. ALEX. GRANT DROWNED.

The Pastor of the First Baptist Church in Winnipeg the Victim of a Canoeing Accident.

Winnipeg, Aug. 4.—(Special.)—Rev. Alexander Grant, pastor of the First Baptist Church of Winnipeg, was drowned this afternoon while canoeing in the Nepigon River. The body has not yet been recovered. Rev. Mr. Grant was well known in Toronto and throughout Ontario. He leaves a large family.

SKIN DISEASES!

One Remedy Which has Never Failed—Tried and Tested Ointment.

Because other alleged remedies for piles, scrofula, eczematic eruptions, scald head, chafing, black heads, salt rheum and skin diseases generally have proved useless, don't condemn Dr. Chase's Ointment. It has never been known to fail. For instance, Nelson Simmons, Meyersburg, Ont., writes:

"I used Dr. Chase's Ointment for Itching Piles, and can recommend it highly. Since using it I have had perfect freedom from the disease."

Peter Vanallen, L'Amable, Que., had the eczema for three years. He tried three doctors, but received no benefit. One box of Dr. Chase's Ointment and three boxes of Dr. Chase's Pills cured him completely. Large scales covered his legs and body, but the Ointment soon removed them. He will swear to these facts.

Chase's Ointment may be had from any dealer or from the manufacturers Edmanson, Bates & Co., 45 Lombard street, Toronto. Price 60 cents.

Mother's greatest remedy for coughs, colds, bronchial and lung affections is Dr. Chase's Syrup of Linseed and Turpentine. The medicinal taste is wholly disguised making it pleasant to take. Large bottle 25 cents.

CASTORIA

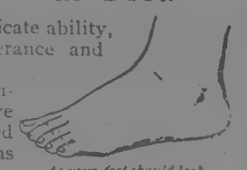
"THE SLATER SHOE"

Intellectual Feet.

Large feet indicate ability, intellect, perseverance and integrity.

Scores of distinguished men have been as much noted for their big feet as for their large noses.



As your foot should look.

George Eliot, Madame de Staël and other supremely intelligent women had also very large feet.

It is not the *size* but the *shape* of the foot which makes it beautiful or ugly, and the *shoe worn decides its shape*, as well as its comfort.

There is more care used—more time spent—in *shaping* "Slater Shoes," and in taking the stretch out of the leather so it will *retain* that shape, than in the entire making of ordinary shoes.

The Goodyear Welt process admits of this fine modelling, and the stamp on the sole ensures to the wearer these hidden qualities.

A tag on each pair of "Slater Shoes" tells of the leather in it.

$3.00, $4.00 and $5.00 per pair.

AGENCY

To be had from M. L HENRY & Co. and ALEX. ELLIOTT, Peterborough; also W. COLLINS, Ashburnham.

High-Grade Cemetery Work

AT A MODERATE PRICE.

The element of permanence which attaches to the erection of any memorial to the dead renders it highly desirable that no mistake be made in the selection either of design or of materials.

A mistake is a serious matter. Let us help you to make a right decision. Our specialty is the erection of monuments which are unique without being grotesque, and artistic without being over-decorated.

We manufacture from all first-quality granites, and as WE SELL DIRECT TO CUSTOMERS, we save the latter all agents' profits. Then, too, there is a decided advantage for the buyer in dealing with one responsible firm for both the manufacture and the setting of a monument.

All our work is guaranteed, NO CHARGE being made if not strictly according to contract. Write us for designs and estimates.

LONG BROS.

(454 and 393 George Street.)

At this moment thousands of men are standing at the cross-roads of life. Death in the guise of a foolish ambition coaxes them to take one road, while health and happiness in the form of wife and babies coax them to take the other. For the sake of a few added dollars will they continue to over-work and neglect the commonest precautions for the preservation of health, or will they listen to love and reason and draw back before it is too late? A man may do almost any amount of good, hard work if he will take care of his health and when he feels out of sorts will take the right remedy.

The great blood-maker, flesh-builder and nerve tonic is Dr. Pierce's Golden Medical Discovery. It is the hard-workers' medicine. It corrects all disorders of the digestion, invigorates the liver, purifies the blood and tones and steadies the nerves. It makes the appetite hearty and brings refreshing sleep. Thousands of hard-workers owe their lives to it and have said so over their signatures. Druggists all sell it and all substitutes are frauds.

"I was taken with erysipelas in my hands and went to the doctor," writes Mrs. Lena Baumgartner, of Joy Charlevoix Co., Mich. "He said he could not cure me. He gave me medicine to ease me but the disease spread all over my body. I took two bottles of the 'Golden Medical Discovery' and two of the 'Favorite Prescription' and am entirely cured. I have a boy three weeks old. I was helpless two or three months before confinement, but after taking the 'Favorite Prescription' I was able to do my washing three days before I was confined."

There is scarcely a known form of ill-health that constipation will not cause or aggravate. Dr. Pierce's Pleasant Pellets are an unfailing cure for constipation. One little "Pellet" is a gentle laxative.

THE PARENTS OF HER MAJESTY.

THE DUKE AND DUCHESS OF KENT AND VICTORIA.

The Personal Characteristics of Their Illustrious Daughter Portrayed With Kindly Touch—The Marriage of the Queen Recalled.

The Duke of Kent was the fourth son of George III., and Victoria is his only child. She was christened after one of the godfathers, Alexander, Emperor of Russia, and after her mother, the Princess Victoria of Saxe-Coburg, widow of Prince Charles of Leiningen. The Queen

THE DUKE OF KENT, QUEEN VICTORIA'S FATHER.

was born at Kensington palace, May 24, 1819. In 1836 she met Prince Albert of Saxe-Coburg, second son of the reigning Duke and her cousin. William IV., then on the English throne, objected to the marriage of the cousins, a union, however, that Leopold, King of the Belgians, uncle of the young Princess, wanted to bring about. Midnight of June 20, 1837, King William died, and the first thing was to tell Victoria that she was Queen. The Archbishop of Canterbury posted from Windsor to Kensington palace, and demanded to see "the Queen." She was at once awakened by her mother, and "in a few minutes came into the room in a loose white nightgown and shawl, her nightcap thrown off and her hair falling upon her shoulders; tears in her eyes, but perfectly collected and dignified." Her demeanor at the Privy Council, which was held a few hours later, extorted the admiration of all who were present. "Never," writes Greville, "was anything like the first impression she produced, or the chorus of praise which is raised about her manner and behavior, and certainly not without justice. It was very extraordinary and something far beyond what was looked for." Other contemporary writers bear testimony to the dignity and ease with which she performed the duties now imposed upon her, and to the enthusiasm with which the accession of the young Queen was greeted by all classes. William IV., "the Sailor King," had been popular; but there was a novelty and a romance about a Queen of eighteen, and the acclamations which greeted her when she appeared at the window of the presence chamber of St. James' palace on the occasion of her proclamation were spontaneous and hearty; and when, a year later, she was crowned in Westminster Abbey the popularity of the young Queen was greater than ever. It was told how, soon after her accession, she had pardoned a sailor who had been condemned to death for repeated desertion, and how she had insisted upon paying all that remained of her father's debts.

The next event in her life was her betrothal to her cousin, Albert, which took place at Windsor castle in October, 1839. "Small courtesies wait upon great kings," and it was necessary for the Queen to make the offer of marriage. "At half-past 12," she wrote, "I sent for Albert. He came to the closet where I was alone, and after a few minutes I said to him that I thought he would be aware why I wished him to come, and that it would make me happy if he would consent to what I wished—namely, to marry me." "This," said the Queen to Lady Bloomfield, "was the most awkward moment of my life."

THE DUCHESS OF KENT, QUEEN VICTORIA'S MOTHER.

Hardly less awkward was it for her to have to announce her engagement to the Privy Council and to Parliament; but, in the opinion of every one, she went through the ordeal with perfect dignity and modesty. The wedding took place on Feb. 10, 1840, and a happier marriage it is impossible to conceive. The union was based on affection, and the Queen's wedded life was unclouded. In Prince Albert she had a devoted husband and a valuable adviser, to whose wisdom and good sense much of the success and happiness of her reign may be attributed. But the match was not popular in England, and the Prince Consort's true worth was never appreciated till after his death. His foreign manners, his desire to improve the people, his very love of letters and art, were irritating to the British mind, but it is clear that his influence was a thoroughly wholesome one, and that England owes no small debt of gratitude to the man whom she once distrusted, and even disliked.—From the Diamond Jubilee number of St. James' Budget.

A HEALED HERALD.

Thinks Rheumatism is Born of the Lower Regions, but Proclaims South American Rheumatic Cure a Heaven-Sent Healer.

Henry Humphreys, East London, sends his unsolicited testimony: "I was seized with painful rheumatism in my left foot. I could not rest with it day or night, the pain was so intense. I tried many remedies, but they had no more effect on me than water on a duck's back. I was persuaded to try South American Rheumatic Cure. I followed the directions closely and in a very short time this wonderful remedy effected a complete cure, and there has not been the slightest hint of a return of the disease. It is a sure remedy and I delight to herald the goodness all over the land." Sold by H. S. Macdonald.

Paper Rails.

The successful introduction of railroad rails made of paper material in Germany and Russia has encouraged American manufacturers to experiment. The foreign mode of making the rail consists in the employment of molds and powerful pressing machines, the former for shaping the rail and the latter for consolidating purposes. Paper car wheels have been in use for many years, and have given satisfaction. It is not assuming too much to anticipate satisfactory results with paper rails. The iron or steel rails now in use are by no means free from defects. The metal is always more or less affected by the condition of the atmosphere, and accidents are frequently traced to the warping, contraction or expansion of rails.

The Conditions Only Had Changed.

Watts—Getting a little rest out your way since that piano girl took to the wheel, aren't you?

Potts—Naw. Her bicycle suit is louder than the piano was.—Indianapolis Journal.

Can Work all the Time.

"My daughter was suffering with catarrh of the stomach, and tried many different prescriptions without benefit. Finally she began taking Hood's Sarsaparilla and it helped her at once. She has taken fifteen bottles and is now able to work all the time. We prize Hood's Sarsaparilla very highly." ANNA MERRILL, Eaton, Que.

Hood's Pills act harmoniously with Hood's Sarsaparilla. Cure all liver ills. 25 cents.

Baby was Cured.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of diarrhœa after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. BOTT,
Barlow, Ont.

Piles! Piles! Itching Piles.

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumour. All druggists or by mail, for 50 cents. The fac-simile signature of Chas. H. Fletcher is on every wrapper.

LAXA-LIVER PILLS

CURE

BILIOUSNESS
CONSTIPATION
SICK HEADACHE
AND ALL LIVER TROUBLES

AS a laxative, one pill acts perfectly, and if a stronger action is desired a cathartic effect is produced by two pills. In obstinate cases, where a purgative is necessary, three pills will be found sufficient. These pills leave no unpleasant after effect.

One pill taken each night during thirty days will cure constipation.

PRICE 25C. ON A FOR $1.00

Miss Ellen Terry as a Cartoonist.

Gaiety Moore (writes a correspondent) was not the only "lightning performer" on Epsom Downs yesterday. Between the races Stanley, the boy sketcher, plied his craft on the green in front of the grand stand. Stanley is 13 years old, and, besides sketching a portrait on the spot, he can portray from memory some 250 familiar faces. His easel is a man's back. Yesterday while he was at work a certain peer came and spoke to him; two ladies followed. They asked him to draw some notable faces, and he drew royalties, actors and statesmen. One of the ladies said: "Can you draw Ellen Terry? Would you know her if you saw her?" "Rather!" "Well then, is it one of us two?" "Yes—not you—the other lady is Miss Ellen Terry." They asked the boy how he learned to draw, and then Miss Terry said: "And I can draw as well as you. Would you like to see me?" Thereupon she took the boy's charcoal and slab and with the greatest ease drew a striking portrait of Mr. Pinero, giving a forcible expression to that right eye of his. Then the same fair hand drew a living picture of Sir Henry Irving and initialled each portrait. Stanley carried them off in triumph. In his little home by the sea the pictures are to form his first household goods. A tempting offer was made for the pictures, but the boy stuck to his treasures.—Westminster Gazette, June 3.

SKIN HUMOR ON BABY

Head and Entire Body Covered. Itching Intense, Would Scratch Till Blood Came.

Had to Put Mittens on His Hands To Keep Him from Tearing His Skin.

One Application of CUTICURA Soothes Him to Sleep. Complete Cure.

When my little boy was about three months old his head broke out with a rash, which was very itchy and ran considerable watery fluid. We tried everything we could, but he got worse all the time till it spread to his arms, legs, and then to his entire body, and he got so bad that he came near dying. The rash would itch so that he would scratch till the blood ran, and a thin, yellowish stuff would form all over his pillow in the morning. I had to put mittens on his hands to keep him from tearing his skin around his wrists. He got so weak and run down that he took fainting fits, so that we would think him dying. He was almost a skeleton, and his little hands were thin like claws.

He was bad about eight months when we tried CUTICURA REMEDIES. I had not laid him down in his cradle in the day time for a long time. He had got so that he just slept in our arms all the time. I washed him with CUTICURA SOAP, and put on *one application* of CUTICURA, and he was so soothed that I put him in his cradle. You don't know how glad I felt he felt better. It took one box of CUTICURA, pretty near one cake of CUTICURA SOAP, and about half a bottle of CUTICURA RESOLVENT to cure him. I think our little boy would have died only for CUTICURA REMEDIES, and I shall always remain a firm friend of them. Mrs. M. C. MAITLAND, Jasper, Ont.

Cuticura Remedies have effected the most wonderful cures of torturing, disfiguring, humiliating skin and scalp humors of infants and children, as well as of adults of every age. No statement is made regarding them that is not justified by the strongest evidence. They are the most speedy, economical, and infallible skin cures, blood purifiers, and humor remedies of modern times.

Sold throughout the world. POTTER D. & C. CORP., Props., Boston, U.S.A. "How to Cure Baby Humors," free.

FACE HUMORS Prevented and Cured by CUTICURA SOAP.

LACROSSE.

Thus does the Whitby Chronicle refer to the Barrie-Orillia lacrosse match: "Orillia and Barrie have had their annual bloodspilling, under the heading of lacrosse. Two weeks ago the Beaverton lacrosse club visited Barrie and the players had all their heads cracked, after which the umpire was mobbed. Orillia brought 500 rooters along to tackle the Barrie roughs, and the latter were thumped and pounded to a standstill. The Barrie small boy was equal to the occasion, however. Just after the Orillia excursion boat left the wharf a shower of eggs of the vintage of 1896 overtook it."

Madoc won from Marmora by 3 to 2 on the Madoc grounds yesterday, which gives them the championship of their district.

The removal of Mr. T. J. Moore, of Barrie, from Canada leaves a vacancy in the Canadian Lacrosse Association Council, which will be filled by a mail vote.

Now that Madoc has won the championship of their district the semi-finals will no doubt be on right off, and the Peterborough players will do well to keep in shape for these games.

Cornwall and the Capitals play at Cornwall to-day, and the Torontos meet the Shamrocks on the latter's grounds.

BASEBALL.

Practice to-night on P.A.A.A. grounds.

Toronto won yesterday from Montreal by 11—3. Treeman made two home runs in this game. The only other game in the Eastern league was at Buffalo, where the town team won from Syracuse by 5—3. Toronto is now but 6 points behind Syracuse.

CRICKET.

A highly amusing method of settling a ticklish appeal was recently devised by an old Lancashire umpire. One of the batsmen got his leg in front of a straight ball, and the bowler instantly called "How's that?" The umpire sucked his pipe in a bewildered fashion, opened his mouth, shut it again, and didn't speak. "Come, what's the verdict?" asked the impatient bowler. "To tell the truth ah don't know myself," answered the old man hesitatingly. "Give it one way or the other, anyhow." The umpire still wavered, but at last a bright idea struck him and he said:—"Hold hard a bit while ah go into the refreshment tent and have a glass of beer. My owd head is a bit addled, and I want a drink." Then, to the amusement of the players, he strolled to the tent, supped his beer, and came back with the light of intelligence on his furrowed face. "Well, now is it?" asked the bowler. "Ye can go on," was the prompt reply; "ah'm not goin' to give a man out after a glass of good beer."

STONY LAKE TRAVEL.

A Sharp Falling Off—Are Reduced Fares the Cause?

There has been the last three days a sharp falling off in the exodus to Stony Lake. During this time there has been less travel northward than in the past three weeks. This morning very few went up to Lakefield and fewer to Stony Lake.

It is an interesting question whether or not this has been caused by a reduction of fare and a shortening of the route. On Thursday the straight fare to Lakefield was reduced to 30c. and the return tickets to 50c., as against 35c. and 60c. previously. It is expected however that there will be a big turn out to the lakes to-morrow at 6.30.

ALIENS WILL BE SHIPPED BACK.

Mr. M'Creary Determined upon Seeing the Labour Law Enforced in the West.

Winnipeg, Aug. 5.—Mr. McCreary, alien labour law commissioner for the west, yesterday morning interviewed Mr. Whyte, manager of the Canadian Pacific Railway, on the subject of enforcing the alien labour law. In effect, he has notified Mr. Whyte that United States labourers engaged to work on the Crow's Nest Pass Railway will be returned to the United States, and that outfits with men in charge will not be permitted to enter Canada. Mr. McCreary has instructions to make the law operative in every particular, and to give the officials enforcing it a proper understanding of its provisions. He may have to go west to Lethbridge or McLeod, the latter part of the week, to interview the Northwest mounted police authorities.

A Fashionable and Money-saving Work.

Home dyeing is now one of the true home arts, a work that is artistic, an occupation that has become pleasant and fashionable. People in easy circumstances who give their attention to the work of home dyeing also find it a most profitable recreation.

This increased interest in dyeing work, and the great success that attends it, comes from the use of the celebrated Diamond Dyes that are so easy to use, so true to colour, so pure and brilliant, so fast and unfading.

A costly wool or silk dress that has become spotted or faded can in a very short space of time be made equal to new. No garments or materials need be thrown away or sold to the second hand dealer because of lost or dingy colours. An outlay of from ten to twenty cents for Diamond Dyes will recreate every piece and save many dollars.

If you have not yet begun the easy work of home dyeing, let us assure you that you miss a pleasure and lose money as well. Look up your faded and discoloured garments at once, and use the Diamond Dyes; you will be surprised with your success.

Wrong Heart Action.

Wrong action of the heart causes nervousness, nervous dyspepsia, shortness of breath and other distressing symptoms. Mr. Samuel Yelland, of London, Ont., was cured of these troubles by taking Milburn's Heart and Nerve Pills. Mr. Yelland says: "They are a remarkable medicine, and I have not been troubled in the least since taking them."

Karl's Clover Root.

The great Blood purifier, gives freshness and clearness to the Complexion and cures constipation, 25 cts., 50 cts., $1.00. Sold by Jno. Nugent, 399 George street.

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and colds.

MR. TARTE TALKS.

"What is the Good of Lying?"

The above is the heading under which the Hon. Mr. Tarte publishes in the Patrie an article bearing his own signature in reply to a statement recently made by the Simcoe Reformer, denouncing the Drummond Railway deal as savouring of corruption, were it only for the gift or loan of thirty thousand dollars by Mr. Greenshields to Mr. Tarte's sons. The Minister of Public Works opens by stating that falsehood is defamation and defamation is the aim used by dishonest men, disappointed,

AMBITIOUS INDIVIDUALS AND ROGUES.

He then asks where did the Simcoe Reformer find the proof that Mr. Greenshields gave or lent any money to his sons, and says that is a shame for a newspaper to use such language when it cannot but know that it is false and defamatory. Further on he declares that without being obliged to do so, he said the whole truth in Parliament concerning the purchase of the Patrie, and although the money which served to buy the paper passed through Mr. Greenshields' hands in his capacity as lawyer, he did not contribute a single dollar of his own money to the purchase or payment of the Patrie. Should it, however, have been otherwise, no one knowing Mr. Greenshields' position in the party would have been astonished, for it is well known that during the

DARKEST DAYS OF THE LIBERAL PARTY

he was a shareholder in the Herald to the amount of nearly twenty thousand dollars. If it were shown that Mr. Greenshields had given the writer's sons thirty thousand dollars to his own knowledge, then the Simcoe 'Reformer's' attitude would be right, but as there is not a word of truth in the statement, the Minister of Public Works feels that he has the right to stigmatize as energetically as he possibly can the infamous tactics of a newspaper which still dares to call itself Liberal when it echoes the hatred of Toryism against him. Mr. Tarte then declares that his adversaries, to whom he has done as much political harm as he could since 1891, are justified in trying to destroy him if they can, but he warns them that they are losing their time in fighting what they call the Drummond deal, and confusion awaits them if they proceed with an investigation before the House or even the Senate. The article closes as follows:—'The extension of the Intercolonial to Montreal by the Grand Trunk and Drummond railways is one of the best political acts accomplished by Sir Wilfrid Laurier and his colleagues, and the future will demonstrate the wisdom of such a policy and the perfect honesty of the negotiations that led thereto.'

A man may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the whites of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

A GREAT BIG BROAD-GUAGE BUILDING SALE

Serious Disturbance to Business.

One week from Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

MONDAY MORNING we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—BECAUSE WE HAVE TO.

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

In the general overhauling, there will be brought to light, accumulations of Odd Suits, Odd Lengths, small quantities and Remnants, throughout the various departments which will be let go at prices to dispose of quickly.

Come and hear the Prices Snap and don't forget that we stand ready to return your money without question if you are dissatisfied with your Bargains.

GOUGH BROS. THE WONDERFUL CHEAP MEN, 375 and 379 George Street.

CLEARING SALE

—OF—

LADIES' WHITE WEAR

—AT—

ROBERT FAIR'S.

Just now active preparations are under way to make room for New Fall Goods that are coming from every source. Our tables of popular priced Summer Dress Goods, &c., have proven a great attraction, and we now add to the already attractive array of Summer Bargains our whole stock of Ladies' Whitewear. It was only last January that we opened this important department to the Golden Lion, so that the stock is all as good as new.

The Ladies have found out with good reason that we have saved them money in White Wear of every sort, and one of the hardest things for them to understand is how such prices are possible. There's the cost of material and the cost of making, and here's the thing for less than the two foot up:—

NIGHT GOWNS—

PREMIER MURDERED.

Senor Canovas del Castillo Shot by an Anarchist.

DIED CRYING "LONG LIVE SPAIN!"

Three Shots Were Fired by the Assassin and All Took Effect—The Murderer Arrested—A Fresh Outbreak of Indian Tribesmen Reported.

News by Cable.

Madrid, Aug. 8.—Senor Canovas del Castillo, the Prime Minister of Spain, was assassinated to-day at Santa Agueda by an anarchist. The murderer fired three shots, two of which struck the Premier in the head and the other in the chest. The wounded man lingered unconscious for two hours, and died at 3 o'clock this afternoon. His wife was but a short distance away when he fell.

At the moment of the assassination he was waiting in the gallery of the bathing establishment for his wife, who was to join him for lunch. Suddenly the assassin, who had the appearance of an ordinary visitor, approached and fired at him point blank, one bullet passing through the body and coming out behind under the left shoulder, and the other two lodging in the head. He fell instantly and never recovered consciousness.

Several medical men and his wife were unremitting in their attentions to the sufferer; but his wounds, unhappily, were mortal, and he died in two hours. Extreme unction was administered amid a scene of mingled sorrow and indignation.

The assassin narrowly escaped lynching at the hands of the waiters and attendants, who rushed forward. Detectives and civic guards immediately secured him. He was very pale, trembled violently and feared, evidently, that he would be killed on the spot. He will first be arraigned before the local magistrate at Vgura.

8 p.m.—The Queen-Regent and all the members of the Cabinet will return here to-morrow. Her Majesty has entrusted the Presidency of the Council to Gen. Azcurraga, the Minister of War, and the Cortes will be summoned to re-assemble on Tuesday.

The greatest excitement and indignation prevails among all classes. All the members of the diplomatic corps have expressed their sympathy with the Government. Many Senators, Deputies and Generals, while expressing their grief and indignation, have offered to render the Government all the assistance in their power.

The murderer declares that he killed Senor Canovas "in accomplishment of a just vengeance," and that the deed is the outcome of a vast anarchist conspiracy.

He is believed to have arrived at Santa Agueda the same day as the Premier, and he was frequently seen lurking in the passages of the bathing establishment in a suspicious manner.

The body of Senor Canovas will be brought here to-morrow. Marshal Martines Campos has gone to San Sebastian to attend the Queen Regent. Senor Sagasta, the Liberal leader, has sent the following telegram to the Government:

"I have heard with deep pain of the crime that has thrown us all into mourning, and I place myself at the orders of the Government and of the Queen."

Most of the Liberal leaders have sent similar messages, placing themselves at the disposal of the Government.

SKETCH OF HIS CAREER.

Senor Canovas Del Castillo was, according to The Dictionnaire Universel des Contemporains, born at Malaga Feb. 8, 1828. He took the course in philosophy and law in the University of Madrid, and began his career as a journalist. In 1854 he made his debut, under the patronage of Senors Rios, Rosas and Pacheco, as chief editor of The Patria, in which he defended Conservative ideas. About this time he both ... a volume of lyric poems and a ... of historical papers. He was ... to select ... to follow a literary or a political career, but soon found himself ... by the course of events. ... was named Deputy for Malaga, ... that time to his death had never ... to occupy a seat in the Cortes. ... he was Charge d'Affaires at ... prepared the historical memorandum ... relations of Spain with the Holy See, and ... served as a basis for the concordat. After ... the Crown as Governor of Cuba in ... Director-General of the Administration ... from 1858 to 1861, and lastly, in that same year, as Under Secretary of State ... the Interior, the Queen called him to ... Ministry. In 1865 he held the portfolios ... Finance and the Colonies in the O'Donnell Cabinet, and it devolved upon him to draw up the law for the abolition of the slave trade. Shortly before the revolution of 1868 he became especially conspicuous as one of the last to defend with energy in the Cortes the principle of blending liberal and conciliatory ideas with the constitutional monarchy, when all the parties that had supported this political doctrine had deserted the Parliament. He was banished a short time before the revolution occurred, and he took no part in it.

In the face of the triumphant revolution, after his return from exile, and in the full constituent Assembly of 1869, supported by Senors Elduayen, Bugallal and two others, he hoisted the standard of legitimate and constitutional monarchy. This is his greatest title to fame. His fidelity and ability finally secured for him the supreme direction of the Alfonsist party, and on the proclamation of Alfonso XII. as King on Dec. 1, 1874, Senor Canovas Del Castillo became President of the Council and Chief of the new Cabinet, called the Cabinet of Conciliation. He retired in September, 1895, because of the demands of the extreme Conservative party, but he was called back to the Presidency of Council on Dec. 2 of the same year, and charged particularly with the direction of the first legislative elections of the new regime. He was himself elected to the Cortes from the city of Madrid in January, 1876. It devolved upon him then to repress the second attempt of the Carlists to bring on a civil war, and to deal with the first insurrection in Cuba.

Senor Canovas skillfully resisted, delayed and finally defeated the free trade and emancipation projects of Marshal Martinez Campos. On the re-assembling of the Cortes in December, 1879, Campos gave up the attempt to conduct the Government, and Senor Canovas formed a new Cabinet on Dec 20, with a second Cuban insurrection to be dealt with. He charged Gen. Blanco with this task, but the reactionary tendency of his home policy became more and more marked, until the financial projects in which he wished to embark drew upon him the bitter attacks not only of Castelar and the Republicans, but also those of Campos and of Sagasta, and he was compelled to resign. In 1881 he returned again to power, but his Conservative Cabinet was speedily overthrown and a coalition government, with Sagasta and Campos at its head, took the reins of affairs.

At the general elections of the same year he was returned to the Cortes from Madrid and became the chief and spokesman of the Intermediate party, known as the party of Conservative Liberals. On Jan. 18, 1884, he was called upon to form a Conservative Ministry. In order to secure a majority, devoted like himself to ideas of order and of liberty, in harmony with the monarchical principle, he dissolved the Cortes, and the new elections resulted favorably. But on Nov. 26, 1885, on the question of occupation of the Caroline Islands by Germany he was again compelled to resign, being succeeded by Senor Sagasta. The same day he was elected President of the Chamber by 222 votes, against 112 cast for Senor Romero Robledo, and he signalized his entrance upon his new functions by a funeral eulogy of King Alfonso XII., who had died the previous day. In 1890 a reversal brought him back into power and on July 5 he took a Presidency of a Conservative Cabinet, replacing the Liberal Ministry of Sagasta. Two years later the pendulum swung to the opposite extreme, and the Liberals, under Senor Sagasta, won the general elections and retained power until 1895, when disagreements in the Sagasta Cabinet led the Queen-Regent to summon Canovas again to the Premiership.

A FRESH OUTBREAK

The Mullah Has Stirred Up the Mohammedans in India and There Has Been Another Attack.

London, Aug. 8.—A despatch to The Times from Simla says that another outbreak is officially reported on the Afghan frontier. The Mullah who preached against England during the Chitral campaign has again stirred up strife in the Bonammenum country by representing that the success of the Turks in Europe provides a favorable opportunity for defying English rule. He has gathered some thousands of followers. As it was too late for him to assist in the attack on Camp Malakand, he attacked Fort Shabkadr, 18 miles from Peshawur.

The attack was made yesterday (Saturday). The police and garrison beat off the natives, who then burned a Hindoo village and killed some of the inhabitants. A strong force of cavalry and artillery has been sent from Peshawur to punish the rebels, and it is reported they have fled and re-crossed the frontier.

NEW DIAMOND FIELDS.

A Rush From Kimberley and Barkley's Stake Out Claims.

London, Aug. 8.—The news comes from South Africa of the discovery of important new diamond fields in Griqualand West, in the same district as the Kimberley mines. Although the first discovery was made at the end of last year, it was not till May last that the Governor of Cape Colony proclaimed it a payable diamond field in accordance with the Cape laws.

Over 3000 persons from Kimberley and Barkley rushed to the field and staked out a large number of claims. These have been tested and the results as reported in recent letters and cablegrams seem to put it beyond doubt that the find is a most valuable one and fully equal to the famous Wesselton mine at Kimberley.

BURGLARS AT PORT ERIE.

The Villagers Rang the Fire Alarm and Turned Out to Hunt the Thieves.

Buffalo, Aug. 8.—A general alarm aroused the 800 residents of Fort Erie, Ont., about 1 o'clock this morning. Two burglaries had been consummated, and two attempts had failed, when the alarm was given. In Dr. Wells' cottage the thieves secured booty to the value of $350. A smaller loot was made at another house, and then the alarmed villagers, to the number of 100, armed with lanterns and various descriptions of weapons, began a search for the burglars, which was not given up as hopeless until daylight, when the people abandoned the search, and left the case in the hands of the police.

The Pitch of Bells.

The secret of success in casting bells of large size for chimes or given tones is in getting the thickness of the ring just inside the mouth of the bell exactly right. In preparing the mold for a bell a cross-section of this ring, or extra thickness, is made, and the pitch of the bell depends almost altogether on the diameter and relative thickness of the ring thus laid on.

A. H. MACRAE CAUGHT

After Eluding the Detectives for Seven Years.

CHASED ALL OVER SOUTH AMERICA

His Pursuers Lost Him in Mexico, But He Was Spotted by a Detective in Boston, Where He Registered as Robert J. Gourley Taken at Mt. Kisco, N. Y.

New York, Aug. 8. After a pursuit lasting for seven years, in which the fugitive led his pursuers a chase from Canada, through the United States to Brazil, and half a dozen South American republics, Alexander Matthews MacRae, a Canadian defaulter, was arrested in Mount Kisco, N.Y., on Friday night, and yesterday morning he was arraigned before United States Commissioner Shields, and held for examination on the application for his extradition, which has been in readiness for six weeks.

Although the complainant in the formal papers against MacRae is John W. Murray, Chief Inspector of Police of the Province of Ontario, the real complainant is the Guarantee Company of North America.

It is the Guarantee Company which pursued MacRae over two continents, and which finally caused his arrest, when he was living with his family in fancied security, having shaken the pursuers off the scent for more than three years.

Its object in pursuing him was to punish him for the loss of $50000 which the company had to pay when he absconded.

MacRae was treasurer of the Security Loan & Savings Company of St. Catharines, Canada, in 1890, and he held the position for several years. He was looked upon as one of the most trustworthy men financially in that city. In that year he suddenly disappeared, leaving his wife and two children, one seven and the other two years old. Another baby came a few months after his departure, but the deserted wife, who still clings to him and tries to protect him, had no word from her husband for nearly four years.

After he was gone it was found that $12,000 was missing from the funds of the Loan & Savings Company. It was also found that he had forged a cheque on the Imperial Bank of Canada, drawn by the Security Loan & Savings Company, and payable to John Reilly of Merritton, Ont., in discharge of a real estate transaction. The cheque was dated Oct. 6, 1890, and its amount was $3,310.16.

On the same day, it is charged, he issued another fraudulent cheque, also payable to John Reilly, for $1,764.02. On both these cheques he is charged with having forged Reilly's endorsement.

The Guarantee Company of North America, through its Montreal office, was on MacRae's bond for $5,000, as treasurer of the Loan & Savings Company, and was forced to make that sum good. It immediately set to work, in conjunction with the Canadian police authorities, to trace the fugitive. The detectives found that he had gone to Montreal from St. Catharines, and that there he had bought a ticket for New York.

When they followed MacRae to New York, however, it was found that he had sailed for Brazil a few days before. From Brazil they traced him to the Argentine Republic, and from there to Mexico. In Mexico they lost sight of him, but later learned that he had written to his wife to meet him in New York. This was early in 1894, and from that time until a few weeks ago all trace of him was lost.

A Boston detective, who had once done some work for the Guarantee Company and who had been furnished with a description of the missing man, noticed a guest at the Parker House last May who, he thought, was MacRae. The name on the register was Robert J. Gourley of New York. He was said to be a traveling advertising agent for The Trotter and Pacer, a sporting paper published in this city.

The Boston detective wrote at once to the Guarantee Company. A Montreal man who knew him waited in Boston until the middle of June, when Gourley returned to Boston, and then was positively identified. From that time until Friday night the representative of the Guarantee Company never lost sight of the man. They traced him to Mount Kisco, N. Y., where they found him in a farm house a mile from the village living with his wife and three children as Robert J. Gourley. The neighbors told them that the family had been there for three years. Persons who had known Mrs. MacRae in Canada declared she and Mrs. Gourley were the same.

The necessary extradition papers were procured from Canada and given to Deputy United States Marshal Walter Stafford, with a warrant for MacRae's arrest. A watch was set on the house in Mount Kisco, but the detectives had to wait two weeks before MacRae went there. Then he was summoned home on Friday night by a telegram from his wife to see their 9-year-old son, who was ill with scarlet fever.

When he came he was arrested. At first he denied that he was MacRae, but he consented to go with the marshals, and was locked up in Ludlow-street Jail. He was arraigned before United States Commissioner Shields yesterday morning, and then admitted his identity, but said that he could arrange any difficulties he might have had with the Canadian officials. He was held for examination to-morrow.

His wife, who sat beside him, said that he had done no wrong as far as she knew. She also said that their son had suffered a relapse brought on by the shock of his father's arrest, and was in a dying condition when she left home yesterday morning.

At the office of The Trotter and Pacer yesterday it was said that Gourley became connected with it in 1894, and continued with it for two years. For the last year he has been connected with an importing house known as Peck & Co. of Boston.

MacRae has been known in Mount Kisco, the Postmaster says, as Henry J. Gourley. His home is a modest one, surrounded by ample grounds.

EDITORIAL NOTES.

A Holland society is advocating and promoting emigration, and in so doing their report speaks very highly of Canada as a field for settlement, and several letters are given from farmers who came to Canada through the efforts of the society. There seems to be no reason why our Immigration Department should not make some special efforts to secure Dutch settlers. They are thrifty, industrious, law-abiding, and in every way the kind of people who make valuable citizens. Many of the best early citizens in Ontario were of Dutch descent, and they would make a capital substratum for the Northwest.

The Monetary Times says that the fire losses of Canada and the United States for the half year ended with June last show a marked diminution, being $57,640,450, as compared with $63,959,500 for the same period of 1895. The losses of the first half of 1894 were still greater, being $66,597,600. The fire loss for June was very small, viz., $5,084,450, which was $708,000 less than in 1895, and $2,100,000 less than in 1894. Without going into details as to the why and wherefore, it may be said that a decrease in the fire losses over a large area is a sure sign of good times.

The St. Thomas Times asks:—"Why does not the Liberal Government of Ontario follow the excellent example set by the Dominion Government at Ottawa years ago in having an auditor of public accounts appointed by and solely responsible to the Legislature?" It is not very long ago, remarks an exchange, that the party which the Times supports were accusing the Dominion Auditor General of being a partisan, and his action was frequently over-ruled by the Treasury Board. He could not prevent expenditures in that case. He could only make known his objections in writing, which never amounted to much so far as practised results were concerned.

THE CHEESE INDUSTRY.

The Importance of the Industry Dealt With.

The importance of the cheese industry to Canada may be more readily understood when it is stated that already the export of cheese this season amount to over $4,000,000, a nice snug little sum, most of which has been distributed among our factorymen and farmers, says an exchange In June last, when it became evident that the production of cheese in Canada would be immense, as it was predicted that a big break in prices was imminent, and believing that prices in England could never stand up as they have done under the heavy shipments that were pouring into that country from Canada and the United States, English houses as well as Canadian contracted to make future delivery at lower rates than the market has yet touched, with the result that they have been compelled to buy in the cheese at higher prices than they expected when they made the those sales. This, of course, may have helped to sustain prices, but the paramount cause of the late steady market in place of the expected decline has been the phenomenally large consumptive demand from John Bull's hale and hearty millions. The shipments from Montreal during the season up to the close of last week were 717,536 boxes as compared with 558,374 boxes for the corresponding period last year, showing the large increase of 159,352 boxes. The shipments for the same time from New York were 275,654 boxes against 186,678 boxes last year. The combined exports from Montreal and New York are 993,190 boxes against 744,952 boxes for the corresponding period in 1896, being an increase of 248,238 boxes; and yet the market in Great Britain holds steady. We still adhere to the opinion previously expressed in these columns to the effect that the present condition of the market is due to the big shortage in the English make last year, and we notice that our London special correspondent touches upon the point in his letter this week. Consequently the consumption this season has been compelled to run upon the new make almost exclusively, as the present season commenced with the market comparatively bare of the English make of 1896, while in former years old cheese was an important factor in the supply right into June and July. It is true the English make has been large, but it has evidently not been sufficient to compensate for the heavy shortage of last year, the effects of which have been felt from beginning of present season until now, and may be even more far-reaching. In London, according to last mail advices a few old Canadian cheese sold as high as 51s 6d to 53s, and for old English Cheddars 18s to 19s more money could be had, namely, 70s to 72s. It is years since old cheese sold at such a big premium over new at this season of the year. Although the Liverpool market is quoted steady at 39s 6d by public cable, sales have been made within the past few days of finest Canadian at 40s 6d to 49s. As a rule, factory men in Canada have sold up close to the hoops, and are in a more or less independent position; but they should be careful not to be too exacting, as such a course has frequently curtailed the demand and thrown it on to the other kinds of provisions. Up to the present the cheese of Canada has been good and has proved profitable to our farmers, whatever it may have been to dealers and shippers. Besides it has caused a big increase in the circulation of currency throughout the country, which has benefitted country storekeepers and in turn the wholesale merchants in the large centres of trade.—Montreal Gazette.

WOOD'S PHOSPHODINE.
The Great English Remedy.

Before and After.

Six Packages Guaranteed to promptly and permanently cure all forms of Nervous Weakness, Emissions, Spermatorrhœa, Impotency and all effects of Abuse or Excesses, Mental Worry, excessive use of Tobacco, Opium or Stimulants, which soon lead to Infirmity, Insanity, Consumption and an early grave. Has been prescribed over 25 years in thousands of cases is the only Reliable and Honest Medicine Known. Ask druggist for Wood's Phosphodine; If he offers you worthless medicine in place of this, inclose price in letter, and we will send by return mail. Price, one package, $1; six, $5. One will please, six will cure. Pamphlet free to any address.

The Wood Company,
Windsor, Ont., Canada.

Sold in Peterborough and everywhere in Canada by all responsible druggists.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

Campbellford (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

NORWOOD.

From our own Correspondent.

23 4-10 mills!

Farmers are hustling things.

Exterior of Baptist church is being painted.

Marmora and Norwood played lacrosse here Friday. Result—3 to 1 in favour of Norwood.

H. G. Buck is putting a new verandah in front of his semi-detached house on Belmont street.

Plasterers are at work on the Roxburgh block.

W. H. Tucker has an orange tree at his store with a full grown ripe orange on it measuring six inches in circumference. We suggest his naming it "The Lady of the Snows."

Norwood crossed sticks at Madoc with the Madoc team Tuesday. Norwood was defeated by four goals.

Willie met with an accident recently while riding home on his bike.

Rev. J. A. McCamus and J. G. Keefer are appointed to attend the financial district meeting of the Methodist church at Norham this year.

Miss Smart, of Toronto, is visiting her sister, Mrs. Jas. Meikle.

The following new books are added to the Public Library: Young Carthagenian, Henty; For the Temple, Henty; Looking Backward and Equality, Bellamy; Mrs. Kith Hamilton, Annie Swan.

Water flooded the cellars of the business houses on the north side of Peterborough street last week, doing considerable damage to goods.

Police Magistrate Edmison was in town last Wednesday disposing of a case of arson, Hendren vs. McMaster. The case was dismissed.

The weeds along the highway have been cut (!) How about some of the vacant lots?

Arthur Brethen has resigned his position as teacher at No. 6, Dummer, and will turn his attention to dairying.

T. Wigmore, principle of Hastings public school is in town.

Miss M. Tucker is spending a few weeks visiting her mother, in Hastings.

George Duffield and family are at the Lakes.

Rev. John Gibson is out of town this week attending the meeting of the Northumberland Deanery at Headlands, Stony Lake.

F. Harold B. Lyon, of Toronto, who has figured conspicuously in the bicycle world, was in town last week.

Rev. F. D. Roxburgh, M.A., has received a call to Fort Erie Presbyterian congregation, at a salary of $900 per year, duties to commence second week in September.

Board of Education met on Friday night of last week. Considerable business was transacted, the particulars of which will appear next week.

Mr. P. Cuffe, Arcadi; J. M. Robinson, Tweed; Miss Dingwall, Pembroke, and Miss Morrison are guests at Miss Williams' cottage, Stony Lake.

Miss Emma Calder, of Toronto, is visiting at Jas. Calder's.

R. J. Stuart paid Montreal a flying business trip this week.

Miss Pearce arrived home from Toronto last Thursday, where she has been visiting friends.

Rev. F. D. Roxburgh will conduct all the services in the Presbyterian church next Sunday.

Mr. M. Conway, of Toronto, spent Sunday the guest of his sister, Mrs. H. Fry, Belmont street.

Miss Clancy and Miss Dunn, of Peterborough, were guests at the Clancy House this week.

Mrs. E. Lewis, daughter of Thos. Elliott, and Miss McReynolds, of Acton, Ill., are in town this week.

Miss Walker, of Indian River, is visiting her cousin, Miss Cameron.

Rev. J. F. Somerville and Rev. Mr. Hamilton, of Havelock, exchanged pulpits last Sunday.

A very pretty wedding took place last Wednesday, at six o'clock p.m., at the residence of Mrs. Jas. Paget, Spring street, the contracting parties being W. A. Carnahan, merchant tailor, and Miss Susannah Paget. The bride was attended by Miss Maehlan, of Acton, and the groom was supported by Mr. Wm. Fry, of Norwood. The Rev. J. A. McCamus performed the ceremony in the presence of about twenty invited guests.

COUNCIL MEETING.

Council met on Monday night last. On motion of Messrs. Harper and Walker the following accounts were ordered to be paid:

Chhas Stephenson, 3 1-2 days work repairing wa heat	$ 3 50
Jas Johnston 3 1-2 days work	3 50
Thos Morrison " "	3 50
Thos Morrison, cutting weeds on street	3 00
Roland Scriver, half year's salary as constable	12 50
Jas Kellet, one day repairing culvert	1 05
G Peters, drawing plank	3 65
Arthur Townshead, work on streets	1 10
J G Keefer, one order book	5 50
I Puffer, work repairing washout on Belmont street	7 00
D A Fraser, nails	6 60
Ackerman & Hork, lumber	211 70
" " nails	27 67
J Jotcham, drawing cedar	2 50
Wm Liddy, building sidewalk	4 44
	$297 16

A communication was plaaed before the council asking for charity for Miss Buchanan, to whom, after discussion, $5 was granted.

A communication from C. J. McCallum re Mrs. Burk's estate, was laid over until next meeting of council.

Bylaw No. 205 to raise $2,330.71 for the county rate and village purposes, was read the usual number of times and passed by the council.

Bylaw No. 206, to raise $2,530.90 for school purposes, was also read and passed.

Moved by Messrs. Ebbs and Harper that the Norwood band receive their usual grant of $50; also the Mechanic's Institute their usual grant of $25.

Moved by Messrs. Harper and Nicoll that the constable be authorized to impound any cattle found running at large in park.—Carried.

A motion concerning pool table regulations was passed.

On motion of Messrs. Walker and Ebbs the reeve and treasurer were authorized to borrow $350 for three months to meet current expenses and the corporation seal was attached to the motion to give it the effect of a bylaw.

The rate levied this year is 23 4-10 mills. High School, $556 58; Public School, $1,287; debenture bylaw Public School, $452 40; debenture bylaw, High School, $284 92; county rate, $441 71; village rate, $1,890.

ONE HONEST MAN.

Dear Editor,—Please inform your readers that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigour, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy.

Address with stamp:
WM. T. MULFORD, Agents' Supplies,
P. O. Box 59, St. Henri, Que.

Undoubtedly the Best.

Gentlemen,—I wish to say that Dr. Fowlers Extract of Wild Strawberry has proved a wonderful remedy in my family. We would not be without it for twice its price. I say it is the best (not merely one of the best—but the best) medicine ever brought before the public for summer complaint or diarrhœa, either in children or adults.

John Underhill,
License Commissioner, Strathcalr, Man.

Mrs. T S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitalizer 'Saved my Life. I consider it the best remedy for a debilitated system I ever used." For dyspepsia, liver or kidney trouble it excels Price 75c. Sold by John Nugent 389 George Street.

Norway Pine Syrup cures coughs, colds, and all throat and lung troubles. Price 25 and 50c.

THE WORKINGMAN...

Made this country. True, the ground was here when he came, but he's made it what it is. From the time that Queen Isabella hocked her jewels in order to "raise the wind," so that Chris. could have a "special sale" across the water in search of Peterborough and the surrounding country, until the present day—not a step has been taken forward—not an improvement has been made in this country—without the aid of the working man. Who is the greatest electrician in the world? Thomas Edison. Who makes the best sewing machines—the best locomotives—the best passengers cars? Who builds the biggest and best buildings, digs the deepest ditches and lays the longest railroads? The workingman. The Peterborough workingman is up to snuff. It did'nt take him long to find out that he could do more days' work in a dollars worth of working man's clothes that he bought here than he'd ever be able to do in any dollar's worth he'd bought before. Where one working man struggled in and bought a pair of Overalls or a pair of Blue Jeans, or a jumper of us in former years, a hundred patronize our workingmen's department to-day. We're proud of it. Are you a working man? Want to buy clothes to wear while you work that will wear while you work? Try us.

We are showing the nicest Novelties for "little men"—the finest ever brought to Peterborough. We also sell knee pants, 3 piece Suits, from $2.75 up. Long Pant Suits, from $3.00 to $5.00 up. Single Knee Pants 25c, 35c, 50c, 60c and 75c. Save money by dealing with us.

Address COOK REMEDY CO., 307 Masonic Temple, CHICAGO, ILL.

MUNYON'S TRIUMPHS

Electrifying Results of His New System of Medicine.

DISEASES BEING CURED

In the Most Marvellous Manner by Munyon's Homœopathic Remedies

EVERY DRUGGIST HAS THEM

Miss Mary Ross, 25 Chestnut street, Toronto, Canada, says: "I have used Munyon's Dyspepsia Cure with splendid results. I was so bad with this disease that food would lie for hours on my stomach causing me great pain and agony. I also had severe pains in my back and was frequently troubled with sour stomach. I had to be extremely careful what I ate and after using one vial of Munyon's Dyspepsia Cure I am now able to eat anything without distress afterwards. After suffering for years with this disease it is a pleasure to be again able to eat anything I desire. Thanks to Munyon."

Munyon's Rheumatism Cure never fails to relieve in 1 to 3 hours, and cures in a few days. Price 25c.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach troubles. Price 25c.

Munyon's Cold Cure prevents pneumonia and breaks up a cold in a few hours. Price 25c.

Munyon's Cough Cure stops coughs, night sweats allays soreness and speedily heals the lungs. Price 25c.

Munyon's Kidney Cure speedily cures pains in the back, loins or groins and all forms of kidney disease. Price 25c.

Munyon's Nerve Cure stops nervousness and builds up the system. Price 25c.

Munyon's Catarrh Remedies never fail. The Catarrh Cure price 25c—eradicates the disease from the system, and the Catarrh Tablets—price 25c—cleanse and heal the parts.

Munyon's Asthma Cure and Herba relieve asthma in three minutes and cure in five days. Price 50c each.

Munyon's Headache Cure stops headache in three minutes. Price 25c.

Munyon's Pile Ointment positively cures all forms of piles. Price 25c.

Munyon's Blood Cure eradicates all impurities of the blood. Price 25c.

Munyon's Vitalizer restores lost powers to weak men. Price $1.

A separate cure for each disease. At all druggists, 25c a bottle.

Personal letters to Professor Munyon, 11 and 13 Albert street, Toronto, answered with free medical advice for any disease.

GREAT IS LOUGHEAD.

He Downed the Flyers at Willow Grove Park.

CLOSING DAY OF THE L.A.W. MEET

Bald, Kiser and Mertens Were Second to the Sarnia Man—Twenty Thousand Spectators Present — Toronto Baseball Team at the Head of the Eastern League.

Philadelphia, Aug. 7.—Bald could not shake clear of the Loudoo to-day, and for the second time he leaves a National meet without a first to his credit.

Fred Loughead, the star at the opening, gave way to another man in to-day's championship events, much as Tom Butler did last year to Cooper on the second day at Louisville.

On the first day, F. J. Loughead, the Sarnia crack, started in three events, a total of six heats, winning five of the heats, including two finals, and finishing a close second to McFarland in the final of the two-mile handicap.

Earl Kiser was the man who shot to the front. In the half-mile event Bald's chain broke after he had traveled about an eighth, and Kiser's strongest rival was out of it. Earl won easily from the rest of the bunch.

Bald had won his heat in this race, and would have made things interesting in the final but for the accident. In the big mile open, the race in which the Bison had set his heart on winning first place and the $250 prize, that went with it, Bald won both his heat and the semi-final. He had a good spot in the final, and it was a beautiful fight between Kiser and the White Flyer down the stretch, with Cooper a nose back. Kiser sprinted the better and won the plum. Bald got $125 for second. As if this were not enough for the Eck string, it remained for Mertens, Kiser's team mate, to get ahead of Bald with the aid of the bunk in the stretch of the five-mile championship, and again the Buffalo man had victory snatched from his grasp. It was as bitter a disappointment for the crowd as for Bald, for the people had cheered lustily at the winning of heats by the favorite and waited the chance to give him an ovation.

Tom Eck's excitement as Mertens cleaned the boards of the open events reminded spectators of a novice with his first horse-race bet. The white-haired trainer's hands trembled as Mertens drew up on Bald, and when the orange and blue passed the purple and white he hat went up in the air. "Now, what do you think of my string of third-raters?" he roared at those in the stand.

"Third-raters, eh? Whoop!" The Eck war dance that followed was one of the features of the meet.

And the people, they were a show in themselves. Those who are accustomed to seeing a crowd of 1000 and 1500 will find it difficult to imagine a throng of 20,000 people looking at bicycle races. There were fully that many at the Willow Grove Park this afternoon, conservative estimates even placing the attendance at 18,000. They were banked high on three sides of the track. It was the greatest assemblage ever gathered for the sport of the kind on this side of the ocean. They came early and late, and, as is generally the case in such circumstances, the Traction Company and the Philadelphia & Reading trains proved incapable of coping successfully with the emergency. Cars were jammed and trains ran on crazy schedules.

There were runs for the road riders in the morning, as usual, and there are banquets galore. All the local club houses, and there are many, are keeping open house, and the streets of Quaker Town ring with unfamiliar noises. The second day's summaries:

Half-mile National championship—First heat, eight starters—Cooper 1, Loughead 2. Time 1.07 3-5. Taylor, Akar, Goodman shut out.

Second heat, six starters—Gardiner 1, Kimble 2. Time 1.02 2-5. Newton, Eaton and Will Coburn shut out.

Third heat, seven starters—Stevens 1, Kiser 2. Time 1.08 4-5. Hoyt and Newhouse shut out.

Fourth heat, eight starters—Bald 1, Mertens 2. Time 1.08. Butler, Randall and Callahan shut out.

Final—Earl Kiser 1, O S Kimble 2, A C Mertens 3. Time 1.03. Gardiner, Stevens, Loughead, Cooper, Bald also ran.

One mile handicap, amateur—First semi-final heat, 12 starters—W A Ladue 40 yards, 1; W A Lents, 30 yards, 2; H Murray, 70 yards, 3; H G Gardiner, 50 yards, 4; J F Chalfant, 100 yards, 5. Time 2.07 3-5.

Second semi-final heat, 13 starters—C W Krick, 20 yards, 1; F R Hattersley, scratch, 2; R A Miller, scratch, 3; K L Wilson, 50 yards, 4; R M French, 100 yards, 5. Time 2.07 1-5. Goehler finished seventh, shut out.

Final heat, handicap, amateur—Ray Murray, 70 yards, 1; J F Chalfant, 100 yards, 2; R M French, 100 yards, 3; R A Miller, scratch, 4. Time 2.05.

One mile handicap, professional—First heat, 12 starters R F McCurdy, 120 yards, 1, R Wier, 135 yards, 2. Time 2.07. Steenson and Cahahan shut out.

Second heat, 10 starters W H Seaton, 60 yards, 1; F F Goodman, 35 yards, 2; A E Weling, 70 yards, 3. Time 2.00 3-5. Mertens shut out.

Third heat, 10 starters—J C Henderson, 125 yards, 1; Kiser, scratch, 2. Time 2.11 4-5. Newhouse and Randall shut out.

Fourth heat, 11 starters Loughead, scr., 1; Church, 15 yards, 2. Time 2.07. Repine, Taylor shut out.

Fifth heat, 11 starters—Hoyt, 40 yards, 1, Stevens, 40 yards, 2. Time 2 06 1-5. Becker and Oldfield shut out.

Sixth heat, 9 starters Mosher, 60 yards, 1; McFarland, scratch, 2. Time 2.06.

Seventh heat, 9 starters Coleman, 50 yards, 1; E D Fitchner, 75 yards, 2. Time 2 17. Butler, Eaton shut out.

Final heat—O L Stevens, 40 yards, 1; Watson Coleman, 40 yards, 2; F W Hoyt, 40 yards, 3; R F McCurdy, 120 yards, 4; E D Fitchner, 75 yards, 5; H F Mosher, 60 yards, 6. Time 2.07.

Two mile championship, amateur First semi-final heat George Reith 1, I A Powell 2, G H Collett 3. Time 4.31 2-5. J S Johnson and E D Stevens shut out.

Second semi-final heat E Peabody 1, E Llewellyn 2, E M Blake 3. Time 4.28 3-5. Dougherty and Ertz shut out.

Final heat—I A Powell 1, Earl Peabody 2, Ed Llewellyn 3, C M Ertz 4. Time 4.29 1-5.

One mile, amateur—First semi-final—W E Tenzler 1, G H Collett 2, W A Ladue 3. Time 2.12 2-5.

Second heat, semi-final G Reith 1, E C Hausman 2, C M Ertz 3. Time 2.15 2-5. Stevens fifth, shut out.

Final, one mile, amateur—E C Hausman 1, G H Collett 2, C M Ertz 3, W A Ladue 4. Time 2.09 4-5.

One mile, professional, $500 purse—First heat, 6 starters—Tom Cooper 1, Steenson 2, Becker 3. Time 2.09 3-5.

Second heat, 6 starters—Mayor Taylor 1, Al Newhouse 2, Sanger 3. Time 2.19.

Third heat, 4 starters—Fred Loughead 1, C R Newton 2. Time 2.14 1-5. Church and Oldfield shut out.

Fourth heat, 6 starters—Jay Eaton 1, O S Kimble 2. Time 2.14 2-5. McFarland shut out.

Fifth heat, 7 starters—Earl Kiser 1, W Coleman 2, Tom David 3. Time 2.09 4-5.

Sixth heat, 6 starters—E C Bald 1, Nat Butler 2, O L Stevens 3. Time 2.08 4-5.

Seventh heat, 6 starters—Gardiner 1, Mertens 2, Callahan 3. Time 2.12 3-5.

First semi-final heat Bald 1, Gardiner 2, Cooper 3. Time 2.10 2-5.

Second semi-final heat—Kiser 1, Eaton 2, Taylor 3. Time 2.19.

Final—Earl Kiser 1, E C Bald 2, Tom Cooper 3, Major Taylor 4, Arthur Gardiner 5, Jay Eaton 6. Time 2.03 1-5.

Five mile national championship, professional First heat, 9 starters Steenson 1, Newton 2, Church 3. Time 12.14. F Butler, Goodman, Titus shut out.

Second heat, 11 starters McFarland 1, Weinig 2, Mertens 3. Time 11.54 2-5. Stahlback, Stevens, W E Becker shut out.

Third heat, 10 starters Bald 1, Newhouse 2, Callahan 3. Time 11.52 3-5. Hoyt shut out.

Final heat A C Mertens 1, E C Bald 2, F A McFarland 3, Al Newhouse 4, H R Steenson 5, C A Clegeg 6. Time 10.45. Callahan and Weinig spill in last lap.

BASEBALL RECORD.

Toronto, Aug. 9.

Manager Irwin's team now leads the league, for winning the double-header from *Montreal Saturday* put them on top, as Syracuse was beaten by Buffalo, and when the word came over the wire and was put up on the score board at the Island the 3000 spectators yelled with excitement and cheered long and loud for Toronto. The first game started at 2 o'clock and was never in doubt. Toronto went to bat first and hit Becker out for seven runs, and they pounded him nearly every innings. Norton did the twirling for the Torontos for the first seven innings, and when Montreal started to find him Warhorse Staley was sent out to take his place. Staley held Montreal down in good shape. The fielding on the part of the visitors was ragged. They fumbled and muffed the ball on nearly every occasion, and their throwing was wild at times. Score by innings:

	R.	H.	E.
Toronto	7	0	2
Montreal	0	0	4

Batteries—Norton, Staley and Snyder; Becker and McNamara.

SECOND GAME.

	R.	H.	E.
Toronto	2	7	0
Montreal	2	8	2

Batteries—Dineen and Casey; Belcourt and Berger.

At Wilkes-Barre—

	R.	H.	E.
Wilkes-Barre	1	4	2
Springfield	0	0	4

Batteries—Coughlin and Goulding; Woods and Nichol. Umpire, Mason.

At Buffalo (first game)—

	R.	H.	E.
Buffalo	0	2	0
Syracuse	0	0	0

Batteries—Gray and Urquhart; Klusmeyer and Shaw. Umpire, Doescher.

At Buffalo (second game)—

	R.	H.	E.
Buffalo	0	0	1
Syracuse	2	0	3

Batteries—Mahaffey and Ryan; Sanders and Urquhart. Umpire, Doescher.

At Scranton—

	R.	H.	E.
Scranton	0	0	0
Providence	0	0	0

Batteries—Morse and Gunson; Eagan and Dixon. Umpire, Keefe.

LAMPE WAS EAST.

Buffalo, N.Y., Aug. 8.—Buffalo won the fourth straight game from Syracuse to-day before an enormous crowd. The ice is found Lampe easy at stages. Six runs were made in the eighth innings by hard hitting, aided by errors. Greminger made a home run in the fifth with two men on bases. Score:

	R.	H.	E.
Buffalo	0	0	2
Syracuse	0	0	1

Batteries—Brown and Urquhart; Lampe and Shaw.

Chicago	2	0	0

Batteries—Brown and Cuppy, Friend and Kittridge. Umpire—O'Day.

At St. Louis (First game)—

	R.	H.	E.
St. Louis	0	0	1
Pittsburg	0	2	0

Batteries—Hart and Douglas, Killen and Sugden. Umpire—Hurst.

At St. Louis (Second game)—

	R.	H.	E.
Pittsburg	1	0	2
St. Louis	0	0	1

Batteries—Killen and Sugden, Coleman and Douglas. Umpire—Hurst.

BASEBALL ON SUNDAY.

At Cincinnati the Colonels easily defeated the Reds. The latter were unable to hit Fraser. Dwyer was sent to the slab for the Reds, but was relieved by Ehret in the second inning, after the visitors had scored two runs. Attendance 7000. Score:

	R.	H.	E.
Cincinnati	0	0	0
Louisville	2	1	2

Batteries—Ehret, Dwyer and Peitz; Fraser and Wilson.

At Providence the champion Baltimores and the Pawtucket New England League team played an exhibition game at Crescent Park and Manager Hanlon's men won by a score of 9 to 5. Score:

	R.	H.	E.
Baltimore	6	0	0
Pawtucket	0	1	0

Batteries—Hoffer and Bowerman; Todd and Yeadow.

At Chicago the Colts played perfectly and made it three straights from the Indians in a close and exciting game. Score:

	R.	H.	E.
Chicago	4	2	0
Cleveland	0	1	0

Batteries—Donahue and Briggs; Powell and Criger.

GUELPH SHUT OUT.

Guelph, Aug. 7. The Leafs were whitewashed here this afternoon in the game with Hamilton. McDermott pitched a good game, but got disgusted with the rank support and was hit rather freely towards the latter part of the game. Cochrane held the Leafs down to 6 hits. He had perfect support. The principal feature of the game was McElroy's fielding. Score:

	R.	H.	E.
Hamilton	0	2	0
Guelph	0	0	0

Batteries—Cochrane and Baker; McDermott and Roberts. Umpire—Phelps.

The Struggle Over Man!

The Efforts of an Ottawa Man Rewarded at Last.

A MARIA ST. INCIDENT.

Our Representative Called on Mr. Geo. Vallillee, the Well-Known Retired House Builder, and the following Conversation Which Ensued Will Interest a Great Many Readers.

"Mr. Vallillee, it has come to our notice that you have been a sufferer with kidney disease for a long time. Will you tell us something about it for publication?"

"I will be glad to do so."

"When did you first notice symptoms of kidney complaint?"

"Something over three years ago."

"What were the prominent smyptoms?"

"Pains in my back so that I could hardly stoop, no end of headaches, dizziness, puffing under my eyes, swelling of the hands and feet, sleeplessness and urinary difficulties."

"I presume you suffered greatly?"

"Yes, I suffered intensely."

"Did you try any other remedies?"

"Yes, I tried a number of different medicines, but none of them helped me. Seeing Doan's Kidney Pills advertised, however, I got a box.

"Did they have a good effect?"

"Yes, they are a perfect cure. From the first few doses I got relief, and the improvement continued, until, after using them for six weeks the pains are gone. My appetite has returned, I sleep well, the dizziness, puffing, swelling and headaches have entirely disappeared, and I am better in every way than I have been for years."

"What do you think cured you?"

"Nothing else but Doan's Kidney Pills caused this remarkable cure, and I heartily recommend them to all those who suffer as I did." 182

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and colds.

Selling GOOD Harness BUILDS UP BUSINESS.

DEVLIN'S

way is to do first class work, keep the right quality in leather, and the prices reasonable.

Since starting up in business again, in my new shop on Hunter Street, opposite the Post Office, I have been encouraged by the many orders received from old and new customers.

MY OWN MAKE. I want everyone to understand that I manufacture all my own Harness in my own shop, which is guaranteed, or money back if you want it.

Devlin's Horse Collars STILL LEAD.
Single and Double Harness MY OWN . . . MAKE

Bridles, Whips, Curry Combs, Harness Oil, and all kinds of Saddlery Hardware and Stable Furnishings always in stock. Also, a full line of Trunks, Valises and Satchels.

REPAIRING DONE neatly and substantially. All work done first-class and the old reliable DEVLIN will stand back of everything he says and does. By doing business on the CASH principle I can afford to give my customer lower prices and better value than credit stores—and don't you forget it.

Sloan's Indian Tonic

TRADE MARK.

Gives the aged energy. Cures Dyspepsia, Indigestion, Nausea, Faintness, Loss of Appetite, Flatulence, Costiveness and all other Stomach and Bowel disorders.

A WELL-KNOWN WOODSTOCK MAN CURED.

Woodstock, Ont., May 2nd, 1896. This is to certify that I, James Ross, toll-gate-keeper, of the Town of Woodstock, Ont., have been a suffer from Indigestion and a very weak stomach for a number of years, and have tried a great many medicines of different kinds, but could only obtain temporary relief for a short time, but after using one bottle of SLOAN'S INDIAN TONIC I could perceive a great difference. My Indigestion was better and my stomach was much stronger than before, and I found I had gained several pounds in flesh, where I was very weak and thin in flesh before. I think I used nine or ten bottles in all, and I am now a healthy man, but still I do not want to be without the medicine in the house, and I procure one or two bottles every year, and I can truthfully recommend SLOAN'S INDIAN TONIC to others suffering from the same complaints.

JAMES ROSS, toll-gate-keeper.

Price $1,6 for $5. All Druggists or from Laboratory.

Send for Printed proof of Cures; Free by Mail.

SUCCESSORS TO BURTCH BROS. & CO.

* 1871 *

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

* 1897 *

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

To-morrow is the C. P. R. Employees Picnic at Havelock. Train leaves C.P.R. Station at 10.50 a.m. Half a dollar covers the whole bill for anybody that wishes to go—that is to Havelock and return, into the picnic grounds, and gives all the privileges of the occasion.

C.O.F. Excursion Civic Holiday.

St. Peter's Branch, No. 225, C.O.F., will run an excursion to Jubilee Point on Civic Holiday per City of Peterborough and palace barge. Splendid orchestra and dancing on the down and up voyage and on the grounds. At the grounds besides, sports and games on land and water. Steamer leaves Peterborough at 7.30 a.m. Keep your engagements open for this day. Tickets (round trip) 50c, children 25c. 3d

Private Sale of Household Furniture.

All the household effects at 265 Stewart street will be sold by private sale. Everything is in good condition and must be sold this week as the parties are leaving town. Those wishing to call and inspect the furniture may do so at any time during the week. 5d33

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2 75, and at the latter city the great summer sports are in full swing.

A Bike "Busted."

This morning a party of wheelmen were practicing on East Nichols' Park track. They were finishing in great speed a five mile circuit. On the home stretch Mr. Bruce Rickey's wheel on the turn took such a great inward slope that the one wheel went ripping into a hydrant. The rider went headlong without, fortunately, any serious results, but the wheel like "Jack came tumbling after" and over the rider's head, the worst possible wreck imaginable—it looked like a junk shop struck by lightning. The repairer is now trying to identify it as a wheel.

Horticultural Exhibition.

August; with its chilly nights, morning mists and sweltering days, reminds us of the near approach of the Horticultural Society's Exhibition which takes place in the market building on August 26th, afternoon and evening. The prize lists are out some time and every intending exhibitor, great or small, should get a copy to prepare his exhibits. Copies of the prize list may be had on application to the secretary, Mr. F. Brownscombe, at the town treasurer's office. It is to be hoped that all lovers of flower culture will take a new interest in the exhibition this year and make it an unusual success. Will exhibitors take up the work of deciding upon and preparing the exhibits at once? The days move very rapidly and almost before we can realize it the exhibition will be upon us.

Mark Street Methodist Church.

The services in connection with this church yesterday were of unusual interest, it being the first quarterly religious service for the conference year under the pastorate of Rev. J. E. Moore. In the morning from 10 to 11 o'clock a love-feast and fellowship meeting took place, in which a large number took part. At the close divine service was held conducted by the pastor. The reverend gentlemen preached a masterly sermon from John, 6th chapter and 54th verse:—"Whoso eateth My flesh and drinketh My blood hath eternal life, and I will raise him up at the last day." During the offertory a selection was rendered in excellent style by four members of the choir. At the close of the preaching service the sacrament of the Lord's Supper was administered. In the evening a very large congregation assembled filling the church. Rev. Mr. Moore preached from Genesis 19th chapter, 17th verse:—"Escape for life, look not behind thee; neither stay thou in all the plain; escape to the mountain, lest thou be consumed." Subject, "Lot's escape from Sodom." The Rev. Mr. Moore, during his discourse, treated fully of the different sins of life from which the people of the world have to escape, if they would be free from sin. During the offertory Miss McKenney and Mr. H. S. Armstrong rendered a very pleasing duett, entitled "Waiting for you and me," in excellent voice. Mark street church, under its new pastor, is going to make itself be felt for good. "Come over and help us and we will do thee good."

ANOTHER MOWER ACCIDENT.

An Arm Amputated With the Section.

A terrible accident, says the Fenelon Falls Gazette, happened last Saturday forenoon to Thomas Martin, the eldest son of Mr. William Martin, of lot 18, concession 2, Verulam. His cousin, Irvine Junkin, was on the mower, and, as the horses that were drawing it would not move fast enough to suit him, and he had no whip, he stopped them and got off to cut a switch. While he was away from the machine the horses started, and young Martin, who was raking the hay, stepped forward to seize the lines; but in his haste he tripped on something and fell with his left hand in front of the knife-bar, and in an instant the keen blades had cut it off about an inch and a half above the wrist. A messenger was immediately despatched to the Falls for surgical help, and both doctors hurried to the farm, accompanied by Mr Edward Fitzgerald, who administered chloroform to the patient while Dr. Graham amputated enough of the end of the bone to allow the flesh and skin to be drawn over it. The unfortunate youth, who is not quite eighteen, is under the care of Dr. Wilson, the family physician, and is, we are glad to hear, progressing favorably, as far as can be told this soon after so serious an accident.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Port Hope's rate of taxation this year is 22 mills.

—The date of the Otonabee Agricultural Society is Oct. 6th and 7th.

—London, Ontario, has the lowest death rate of any city in Ontario—11.2 per thousand.

—The ironwork is being placed in position on the high level bridge over the canal on the Norwood road.

—Rev. Mr Smith, supply of the Charlotte street church, occupied the pulpit in the George street church yesteruay morning.

—The practice of the male chorus choir will be held in the Y. M. C. A. rooms at 9.15 this evening. All the members of the choir are requested to be present sharp on time.

—It is quite natural that Ottawa aldermen should have a heated discussion over the purchase of a fire steamer. But they should confine their personal wishes for a warmer climate to this world.

—Miss Florence Hall, of the Charlotte street Methodist church, sung "The Sweet Story" yesterday morning. Miss Hall also took the solo in the anthem "Lo, my Saviour is Divine." Both her solos were very ably executed.

—Simcoe county will build a house of industry at a cost of $50,000. One by one the counties are falling into line and erecting these much needed homes for the deserving poor, and Peterborough county still merely looks on.

—Deer are giving the farmers of the Upper Gatineau River district considerable trouble. The deer get into the grain fields. Although against the law the farmers say they will have to shoot the deer in order to save their grain.

—To meet its obligations and yield a clean sheet, Belleville's rate of taxation on $3,890,938 of an assessment will require to be 25½ mills on the dollar. By taking off only a part of the deficit of $13,000, it is proposed to keep the rate down to 22 1-5 mills.

—Harvesting begins in earnest in Manitoba to-day — Monday. Five thousand farm labourers are wanted. All the spare labour of Manitoba is working on the Crows' Nest Pass Railway. Here is a chance for the idle to go the best of all gold fields, the fields of golden grain.

—The handsome flag floating over Gough's new block, Lindsay, says the Post, fulfills a double purpose—besides serving as a sort of landmark for purchasers, it supersedes the proverbial straw and shows from which quarter the wind is blowing at all hours of the day.

—The Salvation Army will conduct a special open air demonstration on the commons, opposite R. C. Braund's store, corner of Park and Albert streets, Thursday evening, August 12th, at 8 p.m. The brass band will be in attendance. Music and singing will abound.

—Saturday morning, Mr. A. E. Greenwood, who is repairing the George street organ, found a full grown sparrow in one of the pipes of the organ. He says he has found sparrows, bats, and in one case a pigeon, in the pipes. It was while Mr. Greenwood was repairing an organ in London, Ont., that he found a full grown pigeon in one of the pipes.

—Some Toronto people are still fighting with shadows. There is to be a special meeting of the city council to prevent the exhibition of the fight pictures. There are plenty of real material evils to fight in Toronto without wasting energy on pictures that give one no more idea of the real fight than a Jubilee post stamp does of the Jubilee procession.

TO ROCHESTER AND RETURN.

The Oddfellows' Delightful Outing on Civic Holiday.

The most delightful of the Civic Holiday series of outings is the Oddfellows' excursion by train and steamer to Rochester, the Flower City, on August 19th. A quick run from the Grand Trunk station, and a delicious sail across Lake Ontario by the palatial steamer North King, and a day—or two if you like—in Rochester, one of the handsomest cities of the United States. And all for the small sum of $1.85 for the round trip ticket. Children $1.00. Tickets good from Thursday to leave and return on Friday or Saturday. For details of this delightful trip see large posters. Train leaves G.T.R. station, Peterborough, at the convenient hour of 11.50. Make your arrangements for taking in the most delightful excursion of the season. 2d

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Men's Tweed and Worsted Pants, in all wool, good top and hip pocket, regular price $2.00 to $3.00, Grafton & Co's Summer Clearing Sale Price $1.50.

A Guarantee

The large B stamp on every loaf of Bate's bread is a guarantee of its superiority in flavour of any other, made by our own process of yeast, which is strictly healthful. WALTER BATES, Prop.

Another Cheap Excursion to Hastings and Return, on Friday Aug 13th.

The Steamer City of Peterborough will leave the C.P.R. wharf for Hastings on Friday, Aug. 13th, weather permitting, at 7.30 a.m., calling at Peck's wharf, Ashburnham; Jubilee, Harwood and Idyl Wild. Return tickets to Hastings, 60c; Idyl Wild, 50c; Harwood, 50c; Jubilee, 40c.

GRAND TRUNK EMPLOYEES' GRIEVANCES.

If They are Not Remedied a General Strike is Considered Possible.

Following is a list of the grievances respecting which the Grand Trunk employees are in negotiation with the management, and if they are not remedied, it is said, that likely the employees over the entire system will go on strike, though the management think there is no danger:

One of the great grievances is the present system of indiscriminately discharging old employees capable of doing their work, and when officials are asked the reason or an explanation, they obtain no answer or satisfaction whatever.

2. Another is that they have much longer runs than formerly, thereby preventing them from getting home to their families.

3. That they are compelled since the new regime to make much faster runs with locomotives that are incapable of doing the work.

4. That only half the amount of oil is given the drivers on these fast runs than formerly, and if a journal gets hot they are soundly berated by the mechanical superintendent for their negligence, and if not in on schedule time are either suspended or discharged, they claiming that it is entirely the fault of the company.

5 That when a man is ill and notifies the proper officials of the company to that effect, upon his return, instead of retaining his old position, he is given a much inferior run.

6. That trainmasters have been appointed at various places on the road, like Belleville, Hamilton and Stratford, who seem to have more control and give more orders than the train despatchers themselves.

7. That the baggagemen on the trains are enforced to do both the baggage and express messenger's work, and that it is impossible to do both satisfactorily to themselves and the company.

8. That it is not a case of an increase of wages that they are fighting for, but a legitimate distribution of work that can be honestly carried out by all the members.

THE OTHER VIEW.

This is one of the reports that are current:

The probability of a strike doubtless arises from the fact of the visit of representatives of the Order of Railway Conductors and the Order of Railway Trainmen in Montreal in connection with it. The officials of the Order declare that there is absolutely no truth in this report, saying that the visit is simply to settle a few trifling grievances. Such a visit, it is said, is practically an annual affair, and has absolutely no significance.

THE Y.M.C.A. AGAIN.

To the Editor of The Examiner:

SIR,—Would the Secretary of the Y.M.C.A. be pleased to take the trouble to give the public some statistics of the value of so large and onerous an institution? I do not think it will be amiss to do so.

Yours, etc.,
ONE OF THEM.

HOGAN'S ALLEY CAMP.

A party of young men wheeled down to Rice Lake on Saturday and went into camp at Hogan's Alley.

The party consisted of Messrs. Lionel King, Bert Dolan, R. Conroy, Herb Stinson, Rollie Denne, A. Thompson, C. Graham.

Sunday visitors—Messrs. Geo. Riley, Wm. Borland, and Roger Davidson came down on their wheels and all had an enjoyable time.

Messrs. Thompson and Graham returned home this morning; the rest will likely come home to night.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

To-day—1 p. m.....78° above zero

	Highest.	Lowest.
Yesterday	82°	57°

THE "EXAMINER" AT SUMMER RESORTS.

The DAILY EXAMINER is sent to summer resorts addressed to individuals at thirty-five cents per month. Persons leaving town for their holidays can have the EXAMINER addressed to them for as short a period as one week by applying at the office, 419 George street.

Until further notice the steamer City of Peterborough will leave the C.P.R. wharf every morning (Saturday excepted) at 8.30, calling at Peck's wharf, Ashburnham, for Jubilee Point, Gore's Landing and Harwood. Fare 40c., dinner at Jubilee, included. On Saturday, at 2 p.m., for Jubilee; fare 40c., tea included. d30tf

Sample Nuggets.

The Klondyke gold hunters have exhibited sample nuggets from the inexhaustible gold fields dp in that polar country. H. LeBrun & Co. are exhibiting some rare nuggets in bargains during their August sale, of which the following are bonafide samples: Genuine Tweed suits, made to order, for $12, easy worth $15. Genuine Worsted suits, made up to your measure, for $16, easy worth $19. Good business trousers, skillfully cut and fitted to your order, for $2.75, $3.25, $3.75. All our stock of tweeds, worsteds and other first-class cloths reduced to clearing sale prices. Just received a lot of new and well made boys and young men's suits, bought at 40 per cent. reduction, and will be sold equally below their value. H. LEBRUN & Co.

Ball & Co

FASHIONABLE TAILORS,
Cox's New Block Water St

PERSONAL.

Ven. Archdeacon Casey went up to the Lakes to-day.

Mr. Herb Clegg wheeled down from Stony Lake this morning.

The Misses M. and A. McCabe are visiting friends in Lindsay.

Miss Nellie Dillon, of Ashburnham, is visiting friends in Havelock.

Miss Minnie Armstrong, Peterborough, is spending her holidays at points east.

Mr. L. G. Cluxton, of Montreal, is spending his holidays at Fairy Lake villa, Stony lake.

Dr. Meachan has been re-nominated for the Legislature by the Conservatives of Lennox.

Mrs. F. A. Lount and family leave to-day to join Mr. Lount, and take up residence at Cobourg.

Miss Agnes Ashfield of Rochester, N.Y., is visiting her grandmother, Mrs. G. Shiells, Aylmer street.

Mr. Andy Scott is home from a month's visit in Galt and vicinity. He made the round trip on his wheel.

Dr. Rose and wheel left to-day for Belleville en route for a holiday trip to his old home in Prince Edward County.

Mr. J. P. Dickson, of Windsor, who has been visiting in the vicinity of Peterborough, returned home on Saturday.

Sir Henri Joly de Lotbiniere intends leaving next week to spend a holiday at the seashore and have a much needed rest.

Miss Gale, Bowmanville, has been spending a few days in town among friends on her way home from Peterborough.—Port Hope Guide.

Misses Effie and Annie Morrison, of Owen Sound, who have enjoyed a pleasant visit with their uncle, Mr. Angus Morrison, Sr., returned home to-day.

Mrs. W. H. Robertson, of Peterborough, and her daughter, says the Fenelon Falls Gazette, have been at the Falls visiting relatives since Thursday of last week, and will remain until the middle of the month.

Mr. John Brown of the Peterborough Hardware Company, is spending his vacation at Nassau, where he expects extensive catches of fish, as he is a true disciple of Izaak Walton in every sense of the word.

Mr. T. C. Elliott, of the Peterborough Knitting Works, a former resident of Port Hope, is in town, says the Guide, visiting friends, accompanied by his wife. He is a delegate from Peterborough Lodge 111, I.O.O.F., to a meeting of the Grand Lodge to be held in Belleville on the 11th, 12th and 13th. Mr. and Mrs. Elliott will make their journey to Belleville on their bicycles.

M. D. Campbell and J. Finnie, of Oshawa, started for the Klondyke gold fields. They go under the auspices of a syndicate comprising Messrs. Hinds, Lambert, Punshon and Dr. Kaiser, who share the expense of the trip, and who we hope may ere long have reason to rejoice over the results of it. They will go by the Mackenzie route, unless advised differently by the Hudson Bay officials at Winnipeg. The trip is by no means a pleasant one at this time of the year, but Messrs. Campbell and Finnie are determined to get through if possible. They will take with them a year's supply of provisions, besides a full miner's kit.

Cheap Afternoon Trips to Jubilee Point

The steamer City of Peterborough will leave the C.P.R. wharf for Jubilee Point every Tuesday, Thursday and Saturday afternoons at 1.30 o'clock sharp, (weather permitting) calling at Peck's wharf, Ashburnham. Return fares 40c, tea included.

CHEMONG PARK HOTEL.

List of Arrivals at This Popular Resort.

The following is a list of the arrivals at the Chemong Park Hotel for the week ending Friday, Aug. 6th:

Misses Mary McArthur, May Bragdon, Helen E Dutcher, Edith James and Messrs Ralph Rose and Herbert Greensmith, Rochester; Richard Gough, wife and child, Peterborough; Mr and Mrs A L Meyer, Rochester; Miss McMahon, Toronto; G H Giroux, A Laidlaw, W E Schuster, Peterborough; J A Kerr, Sterling; W H Hoopwood, J S Hopwood, Toronto; E E Johnston, Montreal; Wm Snowden, Peterborough; Geo S Smith, Mrs W H Hopwood, Toronto; Mrs M H Sisson, Lindsay; John D McIlmoyle, Geo Hutchison, N S Hutchinson, Toronto; J Green, V C McGill, Peter Corkery, C G Graham, F Cunningham, Peterborough; J S Lang, Peterborough; Jos Taylor, J C Moguin, Montreal; W F McGee, W O Harstone, J H Ritchie, K Whittington, W J Duncan, B F Nichols, Bruce L Robinson, R R Duthrie, R J McGowan, W Carruthers, H H McNamara, D McCall jr, G P Sharkey, G W Greene, Wanderers club, Toronto; Fred Logan, J M Smith, George Riley, Angus J McPherson, D S Conway, J S Lynch, J R Stratton, M P P, and wife, Miss Mary Stratton, Peterborough; A E Ormond, Miss Goodine, Winnipeg; E Rutherford, Ed Clegg, J E Fowler, Chas LeGros, J W T Fairweather, R H Fairweather, Alex Gibson, H D Hall, Peterborough; Z McIlroy, Miss Young, Lakefield; D Davidson, Frank McPherson, W F Taylor, Peterborough; Miss Susie M McQueen, Owen Sound; Miss Stella Pratt, Cobourg; Miss Laura and Miss Vina Belleghem, Peterborough; Miss M G Labatt, Miss Kate Jordan, D McCall, J Smillie, Toronto; G T Leapf, Buffalo; Mrs A B Herbert, Rochester, N Y, J Winslow, Toronto; Miss Bell Armstrong, Harold Lovekin, Mr and Mrs Dunsford, Peterborough; W H Stanley, Rochester, N Y, J W Wilson, Brooklin, Ont.

Nothing Hunts Out Corns

Like tight boots. A sure, certain and painless remedy is found in Putnam's Corn Extractor, which removes the worst corns in twenty-four hours.

A Sad Accident.

While making some tea the other day in a fancy China teapot, the handle came off and spilled the contents. "I would not care so much for the teapot," she said, "but I haven't any more of Elliott's famous tea in the house. Be sure I send to Peterborough to-morrow for some. It's the best I can get for 35c. You should try it."

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

A WEDDING IN THE NORTH.

Nuptials of Mr. Ernest Middleton and Miss P. J. Argue.

The Sunderland Tribune contains the following report of a wedding, which will be read with interest by many Peterborough people:

On Wednesday evening, the 30th ult., the home of one of the most respected citizens of North Brock, (Simcoe county), was the scene of a very pretty social event. The occasion was the marriage of Mr. Ernest Middleton, teacher S. S. No. 10, Brock and Miss Phœbe J. Argue, second daughter of Mr. and Mrs. Richard Argue, 11th concession Brock. The ceremony was performed by Rev. L. W. Hill, B. A., of Toronto, uncle of the bride, assisted by Rev. J. S. I. Wilson, B. A., B. D., of Wilfrid, in the presence of a very large number of guests. The ceremony was performed on the lawn and was not only pretty but very impressive. The groom was ably assisted through the ceremony by his brother, Mr. S. Middleton of Peterborough, and Mr Newton St. John of Victoria College, Toronto. Miss Hattie Argue, sister of the bride, and Miss Middleton, sister of the groom, gracefully assisted the bride, and the important functions of the maids of honour were neatly performed by Miss Ethel Beatty and Miss Mabel Hart. The bride was dressed in cream satin trimmed with cream silk lace with wreath of orange blossoms and full veil, and carried a beautiful bouquet of cream roses. The bridesmaids were dressed in cream silk and carried bouquets of cream and pink roses. The maids of honour were neatly dressed in pink and blue respectively. The wedding march was played in fine taste by Miss Gertie Argue. After the ceremony the large company was invited to partake of the wedding dinner, which in every particular fully sustained the reputation enjoyed by the Argue household both for generosity and culinary skill. After dinner the usual toasts on such occasions were proposed and duly responded to. The bride was the recipient of a very large number of valuable presents, the bridegroom's present being a beautiful and valuable gold watch. On the morning after the marriage the happy couple started on an extended wedding tour which will embrace the principal points of interest in the province. On their return they purpose taking up their residence at Cannington, and as both are well known and highly respected they will be followed to their new home by the best wishes of a large circle of acquaintances for a long and happy life.

The guests were: Rev. L. W. Hill and wife, of Toronto; Mr. Wesley Graham and wife, of Bradford; Mrs. Jas. Coburn and wife; Mr. Rueben Long, of Bradford; Rev. J. S. I. Wilson and wife; Dr. Gillespie and wife; Mr. R. C. Brandon and wife; Mr. S. and Miss Middleton, Peterborough; Mr. N. St. John, Victoria University; the Misses Thurston; Mr. and Miss Walker; Mr. and Miss Lloyd; Mr. T. and Miss L. Lloyd; Mr. and Miss Francis; Miss B. Shier; Miss M. Ashby; the Misses Melon; Mr. and Mrs. C. Beatty; Mr. and Mrs. J. Beatty; R. Beatty; G. Johnston; Mr. and Miss Sackville; Miss B. Sproule; Mrs. B. Sproule and Miss Sproule; Miss Anderson; Mr. C. Junkin; Mrs. and Miss Taylor; Mr. E. Purvis; Mr. W. Dure; Mrs. T. Taylor; T. Beatty; Mr. and Misses Wakelin; Mr. and Mrs. W. Beatty; Mr. and Miss McIntyre; Mr. T. Taylor; Mr. and Miss Parliament; Mr. and Miss Harrison; Miss G. McMaster; Mrs. and Miss J. Argue; Mr. and Miss Wright; Mr. H. Gibbs; Mr. and Mrs. R. Argue; Mr. and Mrs. Jas. Argue; Miss M. Myers; Miss A. Beatty and Miss L. Beatty; Mr. and Mrs. J. Argue.

Dr. Chase Cures Backache.

Kidney trouble generally begins with a single pain in the back, and in time develops into Bright's Disease. People troubled with stricture, impediments, stoppage of water, or a frequent desire to urinate at night, will find Dr. Chase's Kidney-Liver Pills a blessing. Read the wonderful cures in another column. One pill is a dose, and if taken every other night will positively cure kidney trouble.

Men's Tweed and Serge Pants, in several different patterns and colours regular price $1.00 to $1.50. Grafton & Co's Summer Clearing Sale Price 68c

Novelties in Chairs.

Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round. Every new thing quick as it appears. d

Buyers Delighted.

You're missing the most interesting prices in first-class summer clothing if you don't attend H. LeBrun & Co's. August clearing sale. At the end of the season we throw profits to the winds, and although it may mean a loss we cannot afford to carry stock over from one season to another. Besides, preparation for receiving early fall stock is now being made and a complete clearance of all summer goods must be effected. Our choicest lines of light summer coats, vests and trousers, tweed suits, negligee shirts, underwear and neckwear at great bargains. Men's Tweed suits at $3 and $3.50. Balbriggan's double thread underwear, all sizes, 75c for the suit, worth $1 25 and $1.50. Natural wool underwear same price. Little prices all over the store to hurry on the clearance. You can bank on the goods being all right. H. LeBrun & Co.

THE WISDOM OF TAXING BUSINESS ENTERPRISES.

We need manufacturing enterprises to develop the possibilities of Peterborough as a manfacturing centre, and a great deal depends upon the liberality of spirit with which the town deals with such undertakings. Last year the town wrestled with the question of exacting a rental of $400 per year from the Auburn Power Co., for the use of the streets for placing their poles. There was considerable controversey on the subject, and there is room for a good deal of doubt as to the wisdom, not to say fairness, of imposing the proposed tax upon the Auburn Company. Their position, from a public standpoint, is entirely dissimilar to the other two companies which are required to pay for the privilege of using our streets. The situation is this. The Bell Telephone Company pays $300 per year for the exclusive—mark the "exclusive"—franchise of the streets for a term of years, and it is evident that the practical monopoly thus conferred is sure to be well worth the price paid for the privilege. The Peterborough Light and Power Company in negotiating for the last contract for a supply of street lamps, offered such light at $60 per lamp. But if a tax were imposed it was to be offset by an increase of $5 each per lamp or $65 per year. Therefore the Peterborough Light & Power Company uses the streets for their poles, etc., without practically paying a cent; for the increased price per lamp—$5 for 60—is an exact equivalent for the tax imposed, while the monopoly granted the telephone company is a very complete equivalent for the $300 they have to pay. This condition would not be so objectionable were it not for the practical discrimination against the Auburn Light & Power Company. For there is no analogy between the relations of the first two mentioned companies to the town and those of the Auburn Company. To emphasize this, a short sketch of what led to the formation of the latter company may be submitted. The disastrous fire that swept the Auburn flour and oat mills, as well as the Hilliard saw mills, out of existence, left the water power upon the hands of the Auburn Wollen Mills Company. To utilize the power thus going to waste, after considering a number of other schemes, the Auburn Power Company was formed with a view of developing power for transmission for manufacturing purposes. Thus not only were our existing establishments to be supplied, but an inducement was offered for the establishment of other industries, perhaps individually of a minor nature, but, in the aggregate, of very great importance. A member of the Auburn company informs the EXAMINER that one has little idea of the hundreds of persons who get employment in small factories in Toronto, operated by cheap electric power, and in fact brought into existence by this comparatively cheap and easily transmitted power, although as a matter of fact it is double the price of the power offered by the Auburn Company, which has demonstrated its ability to supply motive power electrically to the largest of our industrial establishments.

The Canadian General Electric Company has had their works operated exclusively for the past two months by power supplied by the Auburn Company, and so satisfactory has been the service that the Electric Works have shut down their steam power altogether, and we understand that a great saving in expense is effected, reducing the cost of their products, thus enabling them to better compete with opposition and to give employment to a larger number of men, thus enhancing the value of such an establishment to the town. An electric power supplied at exceptionally low rates can be used to even greater advantage by small establishments. The advantage of such a supply of power in advancing the industrial interests of the town is too palpable to need mention.

It now, it seems, rests with the town to decide whether or not our industrial enterprises shall have the benefit of access to this cheap and effective power, which is transmitted to their doors.

We, all, the council included, recognize the importance of encouraging manufacturers to cast in their lot with us. The town has paid, is paying and will continue no doubt to pay liberally to procure the establishment of manufactures, and all interested in building up the town are on the alert to capture every possible industry that is seeking a home.

To this end it is evident that the conditions should be made as favourable as possible to manufacturers, and in this connection it behooves our town councillors to deal wisely with the question of power transmission as associated with the Auburn Company. Let them think of the consistency of paying out $40,000 as Peterborough has done in the past few years to bring two industries to town, and then turning around and taxing one of the best drawing cards. We are willing to grant exemptions and indirectly bonus outsiders, but we must, it seems, tax and handicap our own citizens in their laudable attempt to provide cheap power that will be a most potent magnet to attract other industries. If our councillors wish to encourage the establishment of manufactories here they will have to deal in the most liberal spirit with those who provide such power, for motive power is the one big item of expense, apart from labour, that manufacturers have to provide—the less they have to pay for power the more they can pay for labour. It is certainly fair to ask, if the Auburn Power Company are willing to invest their money for the purpose of bringing power to the door of every citizen who wants it, is it wisdom for the town council, because it is citizens of Peterborough, who are thus showing their business enterprise, to single them out for the imposition of a tax that will strangle and cripple, if not extinguish, such an enterprise? There can be only one answer, and it is for our town councillors to well consider whether it is wise to impose such a tax that bears but a small proportion to our total revenue, but which to a business enterprise just getting on its feet may mean all the difference between profit and loss—between existence and extinction. We want manufactures: we want cheap power for them and we can't have cheap power if we tax the source of such power. Other corporations that are not essential to manufactures, though they may be conveniences, are practically untaxed for the use of the streets. Why discriminate and tax a company whose sole excuse for existence is the supply of power for the use of manufactures, which are the one great want of the town in relation to our continued prosperity? The imposition of the tax in question may be justified so far as the town treasury is concerned, but it is highly suggestive of killing the goose that lays the golden eggs.

ONTARIO LADIES' COLLEGE.

Something About a Leading Canadian Educational Institution.

Only those who have a personal knowledge of Canadian and American colleges can fully appreciate the present magnificent equipment of the Ontario Ladies' College at Whitby, or the great strides that this institution has been making during the past few years in providing for the higher education of young women. In sound literary work it is the recognized leader, as it is the only college in Canada sending up students for the first and second year's examinations with honours of Toronto University. The same efficiency characterizes the departments of music, fine art, elocution, commercial branches, and domestic economy. One unique feature in the musical department is a large pipe organ in the new concert hall, for the use of organ students.

The main building, modelled after one of the old palatial homes of English aristocracy, supported on the north by Ryerson Hall, and on the south by Frances Hall, presents a scene of beauty perhaps not equalled in Canada, and with few equals on the continent. Every home comfort is provided in steam heating, electric lighting and modern sanitary plumbing. No wonder that the students of the Ontario Ladies' College are happy and successful, and that leading educators turn their thought to this college as the one best fitted to indicate the high water mark of Canadian attainment. The Rev. Dr. Hare has been principal of the college since its inauguration in 1874, and will be pleased to give further information relating to its work.—Toronto Mail.

YOUNG'S POINT.

From Our Own Correspondent.

Mr. A. North is visiting at Mr. M Blewett's.

The camping season is in height now and the steamboats are doing a rushing business at present. It is a great advantage for those parties who can enjoy a vacation on Stony Lake or Clear Lake, as it is one of the best summer resorts in America.

The farmers are all busy harvesting around this neighbourhood, and are much pleased at the fine weather during the past week.

The following guests are registered at Mr. Jas. Kearney's Hotel:—Dr. and Mrs. Stelson, of Pennsylvania; Mrs. Jas. Young, Miss Lillie Young, Mr. Chas. Young, Master Geo. Young and Miss A. Byrne, of Chicago; Messrs. B. McKelvey, W. Kane, and A. Peterburg, of Rochester.

Lake Scugog's Water Spout.

Says the Whitby Chronicle:—"During the heavy rain on Tuesday evening of last week the residents of Scugog lake were treated to a wonderful sight in the shape of a water spout. The water in the lake was carried up into the clouds and it looked as if the muddy Scugog was going to be emptied completely. As it was people near the spot state that the water covering an area of about an acre was taken up. It could be seen for several miles and was accompanied by a great noise."

Baby was Cured.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of dirrrhœa after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. BOTT,
Barlow, Ont.

Moderate south and west winds; fine and very warm.

You Want

DON'T TACKLE FISHING

. . WITHOUT . .

RIGHT FISHING TACKLE.

We have a "catchy" line of Sportsmen and Fishermen's Goods. Needn't waste your time digging for worms—use our Spoons and Baits, the fish do the rest. Catch your own fish and you'll eat them, even if you never touch fish on your own table.

Fishing Rods, Trawling Lines, Fishing Lines and Reels, Floats, Sinkers, &c., &c.

Rifle and Shot Guns, Double and Single Breech Loaders. Shot, Shells, Powder, Cartridge, and all requirements for Sportsmen.

MICKS & COX, General Hardware and Tinware Merchants, 137 Hunter St.

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c. Remember the address—

JAMES SUTHERLAND,
323 George Street.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—450 George Street.

HOUSES FOR SALE.

We offer to-day a Frame House, 5 rooms, with large lot, fruit, &c., for $550.00—on terms of small cash payment, and then $5 00 per month. Working men paying rent should see this at once.

Large two story brick, central, superior finish, on easy terms, at about half value—$1250.

Several other Houses for quick sale. Low Prices.

LOTS.—A lot on George street, fine situation, 40 feet at $8.00 per foot, fully 50 per cent. less than value.

A lot on Homewood Avenue, for this week at $225.

Big money in buying Real Estate from us just now.

Call for anything you want in Real Estate.

T. HURLEY & CO.

HOURS—8 to 12 a.m. 1 to 6 and 7 to 8 p.m. Near Post Office.

DR. RYERSON,

EYE EAR AND THROAT
60 College Street, Toronto
May be consulted at Oriental Hotel Peterborough, Saturday, Aug. 28th.
HOURS—11.30 to 4

BOVRIL

Is Your Heart Strong?

Or have you palpitation, throbbing or irregular beating, dizziness, short breath, smothering or choking sensation, pain in the heart or heart. If so, your heart is affected and will in turn affect your nerves, causing nervousness, sleeplessness, morbid anxious feeling, debility.

Milburn's Heart and Nerve Pills

Cure all these complaints by regulating the heart's action and building up the nervous and muscular system to perfect health and strength. Price 60c. per box or 6 boxes for $2.50. At all druggists.

COREA'S FUTURE KING.

He Has Arrived in the United States to Receive a Modern Education.

Prince Eui Wha, who will probably succeed to the throne of Corea on the death of his father, the reigning king, has come to America to finish his education, and is accompanied on this, his first trip across the Pacific, by two Coreans of noble birth, Pak Yong Kin and Sin Sang Koo. The first named, who was charge d'affairs of the Corean legation at Washington for three years, has been commissioned by the King of Corea to escort the Prince to America and see him comfortably established in some eastern institution of learning, where he can take a three years' course in English branches. His mission will end upon the arrival of the imperial party in New York, and he will then return to Corea. The other member of the party is a young Corean nobleman, who has also come to America to acquire an English education, and he will be the companion of the Prince during the next three years.

Prince Eui Wha expected to come to America in March last, but, as will be remembered, he was detained in Japan by a band of Corean exiles. The story of the affair as told by Rev. J. C. Gale, an American missionary, who had been commissioned by the King to escort the young Prince across the water, showed that Eui Wha was kept a prisoner in Japan by the Corean exiles for some months, with the knowledge and consent of the Japanese authorities. The exiles, who were forced to leave the country on penalty of death after the Queen was killed and the King sought refuge in the Russian consulate, were headed by

COREA'S FUTURE KING.

Park Yung Hyo, son-in-law of the late King, and, as the story went, they were planning a raid into Corea with the idea of dethroning the King and placing Prince Eui Wha on the throne in his stead. In this manner they expected to regain all their lost rights in their native country.

In compliance with an order from the King, the young Prince engaged passage on the steamer Peru, which arrived in San Francisco March 17, but on the morning the steamer departed from Yokohama he was prevented from leaving his house. It was stated that the exiles were supported in the course they took by the Japanese Government, which hoped to regain its prestige in Corea should their scheme for dethroning the King meet with success.

Just how Prince Eui Wha managed to avoid his countrymen in Japan and depart on the steamer which recently landed him is not explained.

Prince Eui Wha is not the heir apparent to the Corean throne. He is the second son of the King, but is expected to succeed since it is generally understood that the Crown Prince is an imbecile.—San Francisco Chronicle.

Road Dust as an Insecticide.

For several years, I have used with good effect road dust against the striped cucumber beetles. I sweep the dust up in the track of the wheels and keep it on hand. Put about four quarts in a loose bag and shake the dust on the plants when they are dry, enough to cover the ground under them. This is also a sure remedy for the little black fleas. I seldom have to dust more than twice.—F. C. Tompkins, in American Agriculturist.

A man may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the whites of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

Address with 31 cents in one-cent stamps to cover cost of mailing only, World's Dispensary Medical Association, Buffalo, N.Y., and get a free copy of the "Medical Adviser."

CASTORIA.

The fac-simile signature Chas. H. Fletcher is on every wrapper.

FELL OVER THE BANK.

A Little Boy Fatally Mangled at the Falls - He Fell 100 Feet.

Niagara Falls, N. Y., Aug. 6.—James Demont, a little Italian boy, 11 year old, fell over the bank of the gorge here this morning and landed on the tracks of the gorge road, 100 feet below, receiving fatal injuries. The little fellow had been wandering about the top of the bank near the foot of Chilton-avenue, gathering wood, and was alone. How he came to fall is not certain. He was picked up by a passing car and brought to this city. The strangest thing about the matter is that there seem to be no broken bones and the injuries are mostly internal, one being the rupture of his abdomen.

TORONTO MARKETS

Flour—The market is quiet, but the feeling generally firm. Straight rollers quoted at $3.85 to $3.95 west.

Bran—Prices are unchanged at $8 west for bran and $9 for shorts. Bran is quoted here at $10.

Wheat—The demand continues fair for wheat, while the offerings are small. Sales of new white were made to-day at 75c west, and old is quoted at 75c. Red winter is quoted at 74c west. No. 1 Manitoba hard is very scarce. The nominal quotation at Fort William is 82c, and at Goderich holders are asking 87c to 88c. No. 2 hard is nominal at 84c to 85c Goderich.

Buckwheat—The demand is limited, and prices nominal.

Barley—The market is quiet, with no business reported.

Oats—The market is firmer. There were sales to-day of white at 22c west, and mixed are quoted at 21c west.

Peas—The market is quiet and prices rule steady. Sales at 45½c to 44c west.

Oatmeal—The market is quiet and prices steady at $3.10 to $3.20 for cars on track.

Corn—The demand is fair and prices steady, there being sales outside at 27c west.

Rye—The market is quiet. New is quoted at 35c west.

TORONTO LIVE STOCK MARKET.

There were 72 car loads of live stock on the market yesterday, made up as follows: Cattle 1139, sheep and lambs 822, calves 92 and 700 hogs. The market was slow all round, excepting for stockers and hogs, for which there was a good demand.

Prices for export cattle ranged from $4.12½ up to $4.65.

Mr. Jesse Dunn bought from Mr. McNicholl two car loads, averaging 1400 lbs, at $4.62½ per cwt.

William Levack bought one load of choice heifers and steers, weighing 1125 lbs each, from A. Daines for $4.12½, less $10 on the lot. C. S. Rawlings sold 20 exporters to R. Ironsides, weighing 1255 lbs. each, at $4.40 per cwt.

R. Stone sold one load of steers, weighing 1250 lbs. each, at $4.40 per cwt.

Butchers' cattle were also dull compared with Tuesday's market, and the general run was from $2 to $3 per head less than Thursday's quotations.

John Henderson sold one load of choice butchers' cattle, weighing 1060 lbs. each, at $3.60 per cwt.

R. Cook sold 8 heifers, weighing 900 lbs. each, at $3.50 per cwt., and 7 cows, averaging 1,000 lbs. each, at $3 per cwt.

William Levack bought 7 loads which cost him from $2.85 to $3.87½ per cwt., and 2 loads for which he paid $3.35 per cwt., weighing from 950 to 1150 lbs. each.

S. Halligan bought 3 loads, weighing from 1000 to 1100 lbs. each, at $3 to $3.50 per cwt.

Bulls were scarce, and good heavy ones would be worth $4 per cwt., and light $3.50.

Light feeders and stockers in good demand. Charles Rose, Essex County, sold 10, averaging 700 lbs. each, for $3.15 per cwt. to C. Zeagman.

William Croslock sold 20 stockers, weighing 975 lbs., to C. Woods for $2.75 to $3 per cwt.

Cows sold from $20 up to $40, and there were about 25 on the market, and a very poor lot, too, generally speaking. Good cows will fetch a good price, and we saw some dairymen who were wanting good cows turn away, as they did not see anything to suit them.

Calves from $3 to $6 each.

Sheep sold from $3 to $3.25 per cwt., for export ewes. Bucks $2.25 to $2.50 per cwt.

Lambs sold for $2.75 to $3.25 each, and a few extra quality heavy weights brought $3.50.

George Robinson, Orangeville, sold some export ewes at $3.12½ per cwt., and 30 lambs at $2.90 each.

The hog market remains firm at $6 per cwt. for the best.

The shipments per C.P.R. were: J. & J. W. Dunn, 5 cars of cattle and 2 double decks and one single of sheep; L. Delorme, 6 cars cattle; R. Ironsides, 5 cars; Brown & Snell, 1 car; Mr. Maybee, 1 car; W. Harris, 2 cars of hogs, and per G.T.R.: Brown & Snell, 6 cars of cattle and 1 double deck of sheep; James Eakins, 6 cars of cattle; Williams & Hall, 5 cars cattle; William Levack, 2 cars cattle; J. Lunness, 1 car cattle; A. Carey, 1 car cattle; S. H. Reynolds, 1 car cattle, and A. L. Buck, 2 cars stockers for the west.

CHEESE MARKETS.

Perth, Ont., Aug. 6.—On the market to-day there were 1350 boxes of white cheese. Prices advanced this week to 8½c. Bissell and Wester were the buyers. Some were shipped to a Montreal house.

Shelburne, Ont., Aug. 6.—The Cheese Board met here to-day; 11 factories boarded 1510 boxes. Brill bought 705 boxes at 8 3-16c, Cope bought another selection of 455 at 8½c; Reid bought one factory of 100 at 8c. Balance unsold; market brisk. Board meets again in two weeks.

Iroquois, Aug. 6.—At the Cheese Board to-day about 1000 boxes were offered; colored sold at 8½c; white at 8 5-16c.

South Finch, Ont., Aug. 6.—At the regular meeting of the South Finch Board 1081 boxes were boarded; 880 white, balance colored; both sold for 8⅝c to 8 7-16c. Very few sold. Factorymen holding off for 8½c.

BRITISH MARKETS.

Liverpool, Aug. 6. No. 1 Northern wheat, 7s 0d to 7s 1d; No. 1 Cal., 7s 2½d to 7s 4d; red wheat, 6s 11d to 6s 11½d; peas, 4s 6d; corn, 2s 11d; pork, 40s 3d for fine western; lard, 23s 0d; bacon, heavy, L.c., 27s 6d; do., light, 27s 0d; do., short cut, 27s 0d; tallow, 18s 6d; cheese, 39s 6d.

London—Wheat off coast nothing doing; on passage, less active and 6d lower. English country markets firm. Maize on passage rather easier.

Liverpool—Spot wheat firm; futures easy at 6s 5½d for Sept. and 6s 4¾d for Oct., Nov. and Dec. Maize quiet at 2s 10½d for Aug., 2s 11½d for Sept. and 3s 0½d for Oct. Flour 21s 9d.

Paris—Wheat 26f 10c for Sept. Flour 54f 60c for Sept. French country markets quiet.

London—Close—Wheat on passage easier. Maize quiet and steady.

Paris—Close—Wheat easy at 25f 90c for Sept. Flour weak at 54f 10c for Sept.

Liverpool—Close—Wheat firm at 6s 6¾d for Sept., 6s 5½d for Oct and 6s 3½d for Nov. and Dec. Maize quiet at 2s 11d for Aug., 2s 11¾d for Sept., 3s 1d for Oct. and 3s 2¾d for Dec.

Pallid faces indicate pale, thin blood. Rosy cheeks show the pure, rich blood resulting from taking Hood's Sarsaparilla.

Pleasant, Sure and Quick.

GENTLEMEN,—I am pleased to recommend your Laxa Liver Pills for constipation, dyspepsia and sick headache. I have used them for those troubles, and find them a pleasant, sure and quick cure, free from the annoying griping of other pills I have here-to fore used.

Signed, H. JAMES,
St. Nicholas Hotel, Hamilton, Ont.

HARVEST HANDS SCARCE

All the Men Have Gone to Work on the Crow's Nest and Other Railways - Heavy Crops in the Northwest.

Winnipeg, Aug. 6.—(Special.)—The harvest in Manitoba and the Northwest will be two weeks earlier than for many years. The C. P. R. estimate that at least 2500 men will be needed from the eastern provinces for the harvest fields of this country, and the railroads will shortly inaugurate cheap excursions for harvest hands from Montreal and Toronto. All the men in the west have gone to work on the Crow's Nest Pass and other railways, and farmhands were never so scarce. The men can depend on good wages. Crop reports issued by the railroads to-day show an increased acreage, a heavy yield and a satisfactory state of affairs at all points. Manitoba and Northwest farmers never had brighter prospects.

W. S. Stoit of the Dominion Express Company returned here to-day from the Pacific coast, where he went to arrange for handling trade to the Yukon gold districts. He left for Toronto this afternoon.

Officers have been despatched all along the boundary line east and west to enforce the alien labor law.

Winnipeg cricketers easily defeated Chicago and St. Paul yesterday, and to-day beat an All-Minnesota eleven.

The sales of the C. P. R. land department this season were enormously in advance of the previous season. Payments are prompt and everything shows a prosperous state of affairs. The C. P. R. will shortly put on the market a number of additional townsites at points where new sidetracks are to be constructed.

Muddled.

"This coffee, Mrs. Small," remarked the star boarder, "reminds me of what Shakespeare says of the quality of mercy."

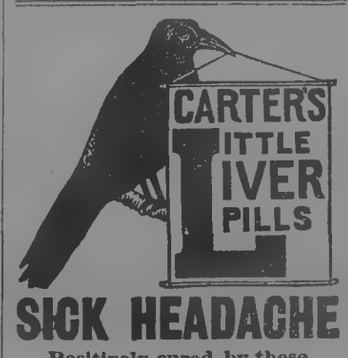
"What does he say?" asked Mrs. Small, who does not know the great English dramatist.

"The quality of mercy is not strained."—Detroit Free Press.

Well Qualified.

"What makes you think Smoothy is an inexperienced fisherman?"

"Because he is one of the most natural and artistic liars I have ever had the pleasure of meeting."



SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

There's

Really no necessity of Collars, Cuffs and Shirts dying of anything but ripe old age if done up at the

Peterborough Steam Laundry

CHARLOTTE STREET.

A. PARKER, Proprietor.

WELL BEGUN IS HALF DONE

Start wash day with good soap, pure soap; that's half the battle won.

SURPRISE SOAP is made especially for washing clothes, makes them clean and fresh and sweet, with little rubbing.

It's best for this and every use.

Don't forget the name SURPRISE.

"Why didn't you keep to your own side of the road

You Blooming Idiot."

Well, perhaps it was my fault, but never mind, I have a pot of "Quickcure" in my kit and it will cure our bruises before we get home. You never saw anything like the way it will heal a cut or a bruise of any kind, and for sprains and strains it is—well, it is just "out of sight."

HENRY IEVERS, L.D.S., Quebec, writes: "One of my children sprained her ankle, which became much swollen and discoloured. Some 'Quickcure' was spread on linen, and applied; the pain ceased at once, the swelling was gone the next day, and on the fourth day she walked to school as usual. I have also proved it to be a wonderful remedy for cuts and bruises.

TEN YEARS TROUBLED

With Liver Complaint and Dyspepsia—Suffered Greatly and Found No Relief in the Scores of Medicines Prescribed.

South American Nervine Was Recommended, and Before Half a Bottle Was Taken Relief Came.

Have Since Improved Rapidly, and Am Now Completely Cured—So says Mr. David Reid, of Chesley, Ont.

What ills come to humanity from a disordered liver! Henry Ward Beecher has said that it was impossible for a man to hold correct spiritual views if his liver was out of order. The liver is so important a part of the mechanism of man that when it ceases to work with ease the whole man is unable to do his work aright. Can we not appeal to thousands, nay, tens of thousands, for a verification of this fact? Certainly it is, thus. Mr. David Reid, of Chesley, Ont., felt that the enjoyment of life had been taken from him, through the unhealthy condition of his liver. For ten years he says he was troubled with liver complaint and dyspepsia. Employing his own language: "At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and being worse than usual, I decided as a final resort to try South American Nervine, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodeve, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I can conscientiously recommend South American Nervine to any suffering from dyspepsia or liver complaint." This is Mr. Reid's story as he tells it in his own words. Were it thought necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nervine. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, sick headaches, that sap all the effort out of man or woman, Nervine measures to the necessities of the case. It is a great medicine and thousands to-day in Canada are happier and healthier men and women, because of its discovery. There is no great secret about it, and yet there is an important secret. It operates on the nerve centers of the system from which emanate all life and healthfulness, or if disordered, sickness, even death. Nervine strikes promptly at the nerve centers, hence, as with Mr. Reid, where ten years' use of other medicines had done no good, less than a bottle of Nervine brought about encouraging results, and a few bottles cured.

LONG BROS.

[Old and 308 George Street.]

With the coming of night women are careful to bar the doors of their homes against the intrusion of robbers and assassins. There are more dangerous enemies than either the burglar or murderer against which few women take proper precautions. A woman may own the most magnificent jewels and the costliest plate, but after all is said and done, her health is her most precious possession.

It is this that she fails to guard against the dangers of weakness and disease of the distinctly womanly organism. Nearly every complaint from which women suffer has its inception in troubles of this nature, and is continually aggravated by them.

An unfailing remedy for all weakness and disease of the organs distinctly feminine, and the multitude of ills that follow in this train is found in Dr. Pierce's Favorite Prescription. It acts directly on these organs and makes them strong and healthy. It prepares for happy, healthy wifehood and capable, almost painless motherhood. Over 90,000 women have testified to its wonderful merits. No honest druggist will offer something else as "just as good."

"While I was living at Eagle Rock, Botetourt Co., Va.," write Mrs. G. A. Connor, of Alleghany Spring, Montgomery Co., Va., "a lady friend came to me and said: 'My daughter, aged 15 years, has repeated hemorrhages at the nose, and she has never the necessary indispositions of womanhood.' I advised her to get Dr. Pierce's Favorite Prescription. The lady purchased one bottle and it cured her daughter. She was well and happy when I left there."

Dr. Pierce's Common Sense Medical Adviser is a physician that is always in the house, ready to give advice and assistance any moment, day or night. It contains 1,008 pages, 300 illustrations and several chapters devoted to the reproductive physiology of women. Over a million women own and value it. A new edition is just out and for a limited time copies will be given away absolutely FREE. For a copy in heavy manilla paper cover, send 21 one-cent stamps, to cover cost of customs and mailing *only*, to the World's Dispensary Medical Association, Buffalo, N. Y. If you prefer a fine cloth binding, send 50 stamps.

IS A MILITARY CAMP.

SUCH IS THE ASPECT OF THE CAPITAL OF ABYSSINIA.

Prince Henri of Orleans, the Distinguished Explorer, Sends a Graphic Pen Picture of the Place of Emperor Menelik's Residence.

The Emperor has given us for our lodging at Addis Ababa several houses made of wood and hardened earth, covered with a thatched roof and surrounded by a newly built circular enclosure of earth and branches, says Henri Ph. d'Orleans in The New York Herald. We are quite at home. Every day "dergo," bread, hydromel and sheep are brought to us. We have quite a little flock grazing round our dwelling. A few of our mules are turned out in the enclosure. There is also a hen there. One fine layer that was given to us by a chief was taken during the night by a jackal. We thus find ourselves at the head of a growing farm. Our men lodge in two of the houses, and our flock forms a little family which we unfortunately have to thin down sometimes.

It would all be very nice and we could not be better off if it were not for the fleas. That is the trouble. They simply abound, and it is necessary to fight a regular battle against them.

We are remaining here, waiting for our baggage, which is coming across the desert. However impatient we may be to get on route again, we take very well to the life at Addis Ababa. There is plenty to see and to hear.

We go to the market, which is held on the Saturday. It is held on the ridge of the hill. In the middle are fixed on posts two cabins to which access is obtained by a ladder. They are two things like *Punch* and July shows,

A NATIVE CARAVAN IN ABYSSINIA.

in which the judges are seated draped in their brown burnous. Acolytes are on the ladders. In front of the guignols an old Abyssinian with a hooked nose and white hair, with a stick in his hand, does the double duty of usher and apparitor. He does not hesitate to make use of his stick to vigorously drive back the crowds when they come too near to the tribunal. The complainants, upright before the ladders, tell their stories. They read in a loud voice, taking a step or two forward each time when they have to speak, and accompany their words with a sudden drop of the right arm, with the forefinger extended, as though they wished to throw their claim at the tribunal.

The dealers crouch in rows, with their show of goods on the ground. Mules, asses and horses tied up here and there launch a kick now and then at importunate passers near them. The large sold are salt in bars, tobacco, cabbages, condiments, blue beads, cartridges, Indian calicoes and white English canvas. The native products are small in quantity and production seems very slightly developed. There are leather (nearly of European tanning) and brass candlesticks for churches.

The difference is still better marked when we consider the landscape. Far away, in the south and east, the grassy mountains appear to us like the sandy wastes of the Sahara. In the south is a large isolated dome, an extinct volcano the Zoukali. Then there is a series of small, low hills, which adjoin the mossy back of Mount Horrar.

The setting sun sheds its rays on the mountain like a large fan, and when it has disappeared from sight the clouds cast large shadows which gradually cover the mountain until it is tinged with cobalt. A small white cloud dominates its caps it as though with a cotton nightcap. Reverse clouds an indigestion of fire weather reflect around the summit, scattered here and there in the azure like islets upon the sea. The volcano and the small hills imperceptible change from pink to purple and to pale lilac, an indescribable light tint, which mingles with that of heaven.

Before me is Addis Ababa, the hill of Gholo. The palace, fully lighted up, appears between striking white monuments as though between two sentinels. On my left is the long range, like an ass' back, upon which are placed the houses of the town—small, round, thatched hovels, some of them surmounted by a cross. Very often several of these houses are surrounded by a circular wall, above which are pickets made of dried bamboo.

There is plenty of space between the houses: waste pieces of ground, the scanty grass of which is cropped by horses; juniper trees, with their funereal silhouettes and, what constitutes a happy note in the midst of so many dark grays, browns and sombre greens, Addis Ababa, an infinity of small white tents.

The town has thus rather the aspect of a large military camp than of a capital. And in Abyssinia, in fact, is not the idea of town synonymous with that of camp, the same word, katarma, being used for both?

My mule enters the town at walking pace loaded with birds, gazelles' haunches, skins of beasts, hanging from the sides of my saddle. Some Abyssinians bow upon seeing me, and ask me questions about hunting, in which they seem to take much interest.

I pass a number of women in gray, carrying on their heads baskets of "dergo" (food provided by the King), which is covered with the traditional red cloth, and is being sent to the chief of the Dimmo.

On the hill a horn is sounded, an imitation of the fanfare of warfare made upon an instrument captured from the Italians.

In the country there rise columns of smoke, which spring from the hill sides as though from the sides of a volcano. This is caused by setting fire to the grass.

Everything seems quiet in Addis Ababa, everyone goes home as night falls upon the town. Upon returning, after hunting gazelles in the sun, I ask myself, looking at the large trees which surround the huts and detach themselves against the sky whitened by the moon, whose I am, and whether the country of the present shadow is really the same as sunny Africa.

A CONSTABLE TALKS.

Like Ordinary Mortals Subject to Kidney Disease but Easily Cured by Dodd's Kidney Pills.

STAYNER, (Special), Aug. 2.—Mr. James K. Nesbitt, a county constable of this place, having suffered for a long time with kidney disease, he became aware that the doctors called it diabetes and incurable. As he had the good fortune to know that many cases of this disease had been cured by Dodd's Kidney Pills this news did not startle him. He says he went straight to Sander's drug store, and commenced to get well on the first box purchased. Now he is going the usual rounds praising Dodd's Kidney Pills to every one who asks the particulars of his recovery.

Fringe as a Dress Trimming.

Fringe has again appeared as a dress trimming. On toilets of great cost and beauty it is employed in all widths and made of bits of carved ivory. Japanese fringe, they call that, while another sort manufactured from the delicately tinted linings of certain shells, goes under the name of wampum and is beautiful beyond description, the tiny, cylinder-shaped sections being strung on gold and silver threads. The more commonplace materials used in fringemaking, such as jet, pearls, colored beads, etc., are so strung to a silk edging that every long or short thread of beads goes to aid in forming figures, as, for example, hanging shields, crescents, hearts, arrow heads; and, moreover, the tinted pearl trimming is so contrived that these fringe figures display lovely patterns and shading in well-arranged color.

Eternal Vigilance

Is the price of perfect health. Watch carefully the first symptoms of impure blood. Cure boils, pimples, humors and scrofula by taking Hood's Sarsaparilla. Drive away the pains and aches of rheumatism, malaria and stomach troubles, steady your nerves and overcome that tired feeling by taking the same great medicine.

Hood's Pills are the best family cathartic and liver tonic. Gentle, reliable, sure.

Cancer can be Cured.

For six years I suffered from cancer, and got no relief until I used Burdock Blood Bitters. I used seven bottles faithfully, when the cancer gradually dried up and finally disappeared. I am now entirely well and rejoice that by using B. B. B. I have escaped death either from the surgeon's knife or from the cancer itself.

Signed, MRS. ELIZA J. TUFFORD,
Paris, Ont

Piles! Piles! Itching Piles.

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumour. All druggists or by mail, for 50 cents. Interdependency of Inventions.

The advent of important and valuable inventions is often dependent not upon the brilliant inspiration of some individual inventor, but upon the general and gradual advance of the state of the art to which they belong, making their occurrence not only possible but almost inevitable. The bicycle is an excellent example of this kind of growth in mechanical construction, since, while it is one of the most important things, both mechanically and commercially which has ever been produced, it owes its development to the parallel improvements in metal and rubber, working without which it could never have existed at all, in the modern sense, or to any extent.

The clumsy wooden velocipede would always have remained a useless toy had not the introduction of drawn steel tubing made the construction of a light, and yet strong frame possible, while the original leather tire of Dunlop could never have led to the practical application of the pneumatic principle without the substitution of the rubber construction, which only the advances in rubber manufacture made possible. This is but one instance of what is apparent in many other lines of work, and there is little doubt that, if the patent records of the past 50 years were thoroughly studied by competent specialists, many inventions, which, at the time of their conception were failures simply because of the impossibility of executing the ideas, would now be found both practicable and valuable.—Cassier's Magazine.

THE "BIG" FOUR.

A Quartette of Remedies that are Effecting Wonderful Cures.

Dr. Chase's four great remedies are: Dr. Chase's Kidney-Liver Pills, Dr. Chase's Ointment, Dr. Chase's Catarrh Cure, and Dr. Chase's Syrup of Linseed and Turpentine, his latest and greatest discovery for all throat and lung affections.

"I was sick for three years," says James Simpson, of Newcomb Mills. "I tried various alleged patent cures and several boxes of a certain pill which has been greatly cracked up. I got no relief. Then I tried Dr. Chase's Kidney-Liver Pills. Since I have been able to work every day and feel like a new man. Your pills alone cured me at a cost of 25c."

"I have been subject to severe colds every fall and spring," says Miss Hattie Delaney, of 174 Crawford street, Toronto. "I used many cough medicines, but none cured me until at a cost of 25 cents I tried Dr. Chase's Syrup of Linseed and Turpentine."

"My husband was troubled with the worst kind of piles," writes Mrs. Jane Potts, of Meyersburg. "He was often unable to work. Since using your Chase's Ointment he is completely cured. It is truly worth its weight in gold instead of the price you charge, only 60 cents."

"I bought a box of your Catarrh Cure for 25 cents at Mr. Boyle's drug store here," says Henry R. Nicholls of 176 Rectory street, London, Ont. "I am thankful to say it cured me."

Chase's remedies at all dealers. Edmanson, Bates & Co., manfrs., Toronto.

To remove worms of all kinds from children or adults, Dr. Low's Worm Syrup is a safe and sure remedy.

The Only Drop That Good— **COAL**

THE STEAMER

"North Star"

DAILY TRIPS TO IDYL WYLD.

The "North Star" makes daily trips to Idyl Wyld and return, leaving C.P.R. Wharf at 9 a.m., calling at Gore's Landing 11.00 Harwood 12, arriving at Idyl Wyld at 12.30. Return fare, including dinner at Idyl Wyld, only 50 cents.

On Saturday the steamer leaves Peterborough at 2 p.m., and on arrival at Idyl Wyld supper is included. Returning the steamer will leave at 4.30, arriving at Peterborough at 7.30.

On WEDNESDAYS and FRIDAYS the steamer will take the excursionists to witness the SERPENTINE MOUNDS on Roache's Point, Rice Lake, free of charge. These remarkable evidences of the pre-historic occupation of the country by a people far ante dating the Indian, will form one of the most interesting attractions of the "North Star" Idyl Wyld trips.

B. M. EDEN, Master.

W. BUNTON, G.T.R. Ticket Agent, Peterborough. Telephone 259.

THE NEW

STEAMER SUNBEAM

Will run until further notice from Lakefield to Stony Lake every Monday, Thursday and Saturday, on the arrival of the 7, p.m. train from Peterborough.

On Wednesdays the Sunbeam will run a trip from Lakefield to Chemong, leaving Lakefield on the arrival of the 9 a.m train. Returning will leave Chemong at 8.30 on Thursday morning, arriving in Lakefield to connect with the 4.14 p.m train.

In connection with these round trips Busses will leave Chemong on arrival of boat, on Wednesday evening; and on Thursday morning will leave Post Office corner, Peterborough, at 7.30 for Chemong, connecting with boat for Lakefield. For particulars, apply at R. H. Leary's Livery Office, 385 Water Street.

On all other days the Sunbeam will be open for charter for excursions, &c., at reasonable rates.

This fast, new steamer has been specially built to accommodate tourists and excursionists on the beautiful chain of waters of Chemong, Buckhorn, Lovelick, Stony, Clear and Katchewanooka Lakes, and will be found to combine in the highest degree safety, comfort and speed.

Tickets can be procured from W. BUNTON, City Agent, G. T. R.

For further particulars apply to

WHITE & GRYLLS, Lakefield, Ont.
Or WARREN TRICKEY, Agent Peterborough

THE NEW STEAMER

MAJESTIC

Full particulars and Leaflet from any Canadian Pacific Ry. Agent.

TEETOTALLER TWICE A VICTOR.

He Has Won the Queen's Prize For Rifle Shooting Twice.

(Scottish American.)

It is odd that only one man should have won the Queen's prize twice (says a writer). The hero of that feat was August Cameron, of the 6th Inverness, a splendid shot, who beat the record each time he won the Queen's. I believe that his sight failed through an attack of opthalmia, otherwise he might have won triple crown. A slight, short, spare Highlandman, and a miller by trade, was Angus Cameron. He was also a teetotaller, and I shall not easily forget the disgust of the gallant and hospitable Victorias, who claim the prescriptive right of handling their splendid regimental loving cup, brimming with champagne, to the winner of the Queen's, when that modest little Highland miller refused the proffered goblet and asked for a bottle of ginger beer! What a contrast to another countryman of his, one of the best known rifle shots in the country, who invariably used to fortify himself with a stiff 'drahm' of 'mountain dew' before shooting at each range. Another remarkable feature about Angus Cameron's shooting was that on the first occasion he shot from the right shoulder, and on the second, owing to the failing sight of the right eye, he shot from his left shoulder.

Piles Cured by Dr. Chase.

I.M. Iral, 186 Drolet Street, Montreal. 15 years suffered. Cured of Blind Itching Piles.

William Butler, Possawan, Ont. Suffered many months. Cured of Protruding Piles by one box.

Pabano Bastard, Gower Point, Ont. Suffered for 30 years. Cured of Itching Piles by three boxes.

Nelson Simmons, Myersburg, Ont., cured of Itching Piles.

Dr. Chase's Ointment will positively cure all forms of Piles. Write any of the above if in doubt.

They include free reclining, palace, sleeping, and dining cars of the latest and best paterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

Sick headache and constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

One of the hottest lacrosse matches ever witnessed in Stratford was played last Friday between the Twin-City club and the Stratford seniors. It was a regular scheduled match of the Huron district, and it was played with a determination to win on both sides. The Stratfords had the best of it from the start, but the good work of Jack and McDougall, the visitors' defence, prevented more goals from being made. For the home team Gibson, Bushfield and Filey put up a star game. The visitors proved themselves good in combination work, but they were rather wild in shooting. Cassels and Tasson did good shooting for the home team, while Dinsley excelled in long distance throwing. Smith and Johnston did some splendid passing for Berlin, but luck seemed to be against them. President Craig of Fergus refereed the game and gave fair satisfaction.

The match lasted an hour and a half, and resulted 7–3 in favour of Stratford. The teams lined up as follows:

Stratford, Goal, Marshall; point, Gibson; cover point, Dinsley; defence, Miller Eason, Bushfield; centre, Lloyd; home, Farquson, Downs, Cassels, outside home, Filey; inside home, Filey; field captain, McFadden.

Berlin-Waterloo, Goal, Bradley; point, McDougall; cover point, Morrow; defence, Jack, Smith, Seagram; centre, Brierley; home, McDonald, Johnston, Forrester; outside home, Lynch; inside home, Burns; field captain, Hughlin.

The way in which the Twin-City team was placed on the field, according to the above report, was enough to lose them the game.

THE BICYCLE GIRL.

Where are those maids we used to love,
In old precycle days,
Those artless, ankle-hiding girls,
With shy, retiring ways!

Those girls who talked of flowers and stars,
Music and poetry
The latter somewhat thin, 'tis true,
Sometimes quite watery?

No more o' such like gentle things
Do maidens sweetly prate;
The few who do are voted by
Their sisters out of date.

Now, when I murmur tender things
Into my loved one's ear.
She chips in with an odd remark
Concerning high grade gear.

And when, with palpitating heart,
To wed her I aspire,
She asks me what I think of her
Brand new pneumatic tire.

Instead of soulful wanderings
In love's old-fashioned mode,
She takes me, on a tandem,
Twenty miles of dusty road.

Her talk is all of sprocket wheels
And rims, this maid who cykes,
Her very dreams, methinks, are full
Of different makes of bikes.

And she can mend a punctured tire,
But punctured socks may wait
With holes as big as half a crown,
Which she cannot locate.

Nothing she knows of making cakes,
And homemade jam she'd spoil,
But she can tell you the best makes
Of lubricating oil.

She'll pedal miles on hottest days
Along the worst known road,
But she won't do a single turn
Within her own abode.

She won't cut wood, nor hoe, nor dig,
Nor tubs on washday fill
That's boys' work—but she'll ride her bike
Right up the stiffest hill.

In short, considering everything,
This modern girl of muscle
Is no more use at home than was
She of small waist and bustle.

A LONDON BICYCLE SENSATION.

A bicycle has just been completed in London which promises to revolutionize the wheels of the world. The difference between this and the older machines is that it utilizes the entire power furnished by the engine of propulsion, the leg of the rider. For years bicycle manufacturers have sought some method by which the waste of power could be prevented, and Gerald Barker has found it.

The change is, of course, in the gearing, but it is not a chainless wheel—that sort which, it is said, will next year be the king of all wheels. If the opinions of experts are worth anything, the new wheel is the one that will take precedence over all. There are three reasons why this new invention claims attention. The first is that it is far speedier; the second is that the propelling power is almost doubled without increase of exertion, and the third is that on a racing wheel the compound crank will be such a gain as it is hard to imagine.

It is asserted that by the use of the compound crank a cyclist is enabled to use at least 40 per cent. higher gearing without increasing the stroke of the pedals or the pressure on them. The machines built especially for ladies may have their cranks shortened and the distance between the pedals considerably reduced instead of using a higher gearing. A 28 inch driving wheel is geared to a hundred inches by the ordinary pattern chain running over a 25-toothed sprocket wheel and a 7-toothed hub ring. The sun and planet wheels merely control the relative positions of the main and secondary cranks. The mechanism consists of a sun wheel rigidly and concentrically attached to each side of the crank bracket, and a pair of hollow cranks.

One half of each crank encloses a sun wheel and the outer half encloses a planet wheel of the same size as the sun wheel, and engaged directly therewith. Each pedal is screwed into a planet wheel at a point midway between its centre and the pitch line of its teeth. Each crank has half the spindle attached to it. This spindle is hollow, and as each half is cut to the same skew and they are brought together in a bearing sleeve by means of a hollow tie bolt, provided with a conical lock nut, the two halves form a well supported scarf spindle. Keys and cotters are dispensed with, and an unusually wide crank bracket bearing is provided, the ball races being more than four and one-half inches apart. The chain line is brought within the bearings, while the overhang of cranks and pedals is considerably reduced.

The planet wheel bearings consist each of a single ball race of about four and one-half inches in diameter, and the pedal pin makes its circuit within this ball space. All the bearings are cup adjusting, and are provided with simple and efficient looking devices. On roadster machines dust caps are fitted to the inner faces of the cranks, so that the sun and planet wheels are entirely cased in.

The foot motion is but slightly different from the circular motion now in vogue, and is by no means unpleasant. These compound cranks add somewhat to the weight of a bicycle, but the inventor claims that the power gained more than compensates for the added weight. This ingenious mechanism is about to be fitted to a number of racing machines, and the results of the trial will be awaited with interest.

A very well known bicycle dealer said: "One thing is certain, the people who make wheels and cannot use this attachment might as well shut up shop."

CRICKET.

The Lindsay cricketers added to their list of victories on Thursday by defeating the Orillia players in a hard fought game, with three wickets to spare. Half a dozen of the home team's best players—Messrs. Little, Sisson, Baker, Porter, Kennedy and Walters—were absent, and a win was hardly hoped for, but the magnificent bowling of Mr. Paton, and the clever batting of Mr. A. M. Knowlson and others saved day, despite the good work done by the visitors.

A Summer Specific.

Dr. Fowler's Extract of Wild Strawberry cures cholera, cholera morbus, diarrhœa, dysentery, cramps, colic, summer complaint, canker of the mouth and all bowel complaints of children or adults. It is a soothing, effectual and never failing medicine, which gives immediate relief and speedily effects a cure.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Wrong Heart Action.

Wrong action of the heart causes nervousness, nervous dyspepsia, shortness of breath and other distressing symptoms. Mr. Samuel Yelland, of London, Ont., was cured of these troubles by taking Milburn's Heart and Nerve Pills. Mr. Yelland says: "They are a remarkable medicine, and I have not been troubled in the least since taking them."

Karl's Clover Root.

The great Blood purifier, gives freshness and clearness to the Complexion and cures constipation, 25 cts., 50 cts., $1.00. Sold by Jno. Nugent, 389 George street.

MAILS FOR THE KLONDIKE.

Canadian Authorities Have Created a Post-office at Dawson City—Mounted Police as Mail Carriers.

Portland, Ore., Aug. 7.—L. W. Vaille, Assistant Superintendent of the Railway Mail Service, has returned from a trip to Victoria, B.C., where he arranged with the Canadian mail authorities regarding the carrying of the mails into the Klondike region. He says that the Canadian authorities have created a postoffice at Dawson City. This makes three offices established by them in this portion of the Northwest Territory. The other two offices are at Forty Mile Creek and Fort Cudaby. The mail will be carried by the Mounted Police from Dyea and Skaguay. The service will be established in about four weeks.

Seattle, Wash., Aug. 7. In response to a query from this city the following telegram was received from the Treasury Department: "Miners can land their effects and go to British Columbia territory from Dyea under customs supervision without payment of duty, and without giving bonds."

G. B. Benton has reached this city with over $1000 worth of gold nuggets, the result of ten days' work on a Williams' Creek placer claim in the Swauk district, Kittitas County. He has been working the claim since January, and has taken out $5000.

One old man who owns a claim there has been working it quietly for six years, during which time he has made about $50,000.

TO POLICE THE YUKON

Will Cost a Quarter of a Million Dollars and Governor's Warrants Will Have to Raise the Money.

Ottawa, Aug. 7.—It is estimated that to carry out the plans as now adopted by the Government for the policing of the Yukon will entail an expenditure of a quarter of a million of dollars, a large portion of which will have to be raised by Governor's warrants. The claim of royalty, it is calculated, will nearly cover this cost. The strength of the force has been reduced from 750 to 650 men.

Mr. Rochon, who at one time represented Ottawa County in the Quebec Legislature, is to be appointed county judge of Pontiac.

Lord Aberdeen will meet the members of the Royal Society in Toronto on the 17th.

The Best Advertisements.

Many thousands of unsolicited letters have reached the manufacturers of Scott's Emulsion from those cured through its use of Consumption and Scrofulous diseases none can speak so confidently of its merits as those who have tested it.

Speaks from Experience

Mr. J. W. Tomlinson, Amherstburg, Ont. speaks from experience when he says:—"I am well satisfied with Doan's Kidney Pills They are undoubtedly the best medicine on the market for any one afflicted with urinary or kidney troubles, such as pain in the back, tired feeling, cramps, numbness, etc. They cured me and removed all my pains and aches."

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

A GREAT BIG BROAD-GUAGE BUILDING SALE

Serious Disturbance to Business.

On next Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

THIS WEEK we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—BECAUSE WE HAVE TO.

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

In the general overhauling, there will be brought to light, accumulations of Odd Suits, Odd Lengths, small quantities and Remnants, throughout the various departments which will be let go at prices to dispose of quickly.

Come and hear the Prices Snap and don't forget that we stand ready to return your money without question if you are dissatisfied with your Bargains.

GOUGH BROS. THE WONDERFUL CHEAP MEN, 375 and 379 George Street.

The Daily Examiner.

VOL. XXIV, NO. 34. PETERBOROUGH, TUESDAY, AUGUST 10, 1897. PRICE TWO CENTS.

CLEARING SALE

—OF—

LADIES' WHITE WEAR

—AT—

ROBERT FAIR'S.

Just now active preparations are under way to make room for New Fall Goods that are coming from every source. Our tables of popular priced Summer Dress Goods, &c., have proven a great attraction, and we now add to the already attractive array of Summer Bargains our whole stock of Ladies' White-wear. It was only last January that we opened this important department to the Golden Lion, so that the stock is all as good as new.

The Ladies have found out with good reason that we have saved them money in White Wear of every sort, and one of the hardest things for them to understand is how such prices are possible. There's the cost of material and the cost of making, and here's the thing for less than the two foot up:—

NIGHT GOWNS—

Commencing at 50c.

A GOOD TIME

TO COMMENCE A COURSE IN EITHER

BOOKKEEPING or SHORTHAND

AT THE....

PETERBOROUGH BUSINESS COLLEGE

—IS NOW.

Those who have passed the Public School Leaving Examinations would find it very much to their advantage to take a course in our school. They must know more about Bookkeeping and be able to write Shorthand and use the Typewriter, before being of much use in an office For further particulars address—

PRINGLE & McCREA, Peterborough, Ont.

LEWIS AND TUPPER

Were Indignant at the Customs Officers.

THEY HAD A FEW LITTLE TRAPS

Which They Sought to Bring In and Thought They Were Doing No Wrong —Mails for the Yukon—The Law in Regard to the Importation of Bicycles.

Ottawa, Aug. 9.—At a meeting of the City Council this afternoon the resignations of the aldermen who had resigned their seats at the board were accepted. Alderman Donaldson withdrew his resignation.

"The new United States custom duty will hardly result in advancing amicable relations between Canadians who return by way of New York and the American people."

This is the opinion of Mr. J. Travers Lewis, who returned to-day from England. Mr. Lewis and Mr. Stewart Tupper, Q. C., came over on the Cunard Liner Etruria on Saturday, and at the wharf were called upon to open their baggage and asked to pay duty under a 60 per cent. tariff upon a small number of articles they were bringing over. Mr. Tupper, he says, asked to have the goods bonded through to Canada, but the officials would not permit it. Mr. Lewis paid the duty they asked, although he considered it very exorbitant.

Speaking of the matter, Mr. Lewis said: "It seemed as if they did it because we were Canadians. We said we were going right through to Canada and had nothing but articles of trifling value in our baggage, as the fact proved. The officers examined our baggage most minutely."

Mr. Allan Scott died in the Protestant Hospital to-day from consumption. He had been in the institution for some weeks, and lately his life has been despaired of. He was well and favorably known about the city, and was a nephew of Hon. R. W. Scott.

Mails for the Yukon country are not yet definitely arranged for. The best address is "Fort Cudahy, via Victoria, B. C.," letters bearing which will be sent forward by the Mounted Police as occasion offers.

Mr. William Russell, C. E., is now engaged in locating the line of the Pembroke Southern Railway, which will connect Pembroke with the O. A. & P. S. R. The distance to be built is twenty miles.

The Customs Department has changed the law in regard to bicycles to provide that in all cases where bicycles, not new, in use by tourists, are brought into Canada, the importer shall report same at the nearest Custom House, and may be entitled to delivery thereof upon depositing with the collector of customs an amount equal to the duty on the retail price of each such bicycle. In case such bicycle is not exported, or the evidence of such exportation is not furnished to the Collector of Customs at the port of entry within fifteen days thereafter, an entry shall be made for such bicycle and the amount of the deposit thereon shall be retained and placed to the credit of the Receiver-General on account of customs duties.

Arthur Smiley of Shawville has committed suicide by taking strychnine. Smiley purchased the poison at the drug store, alleging that it was to be used for killing rats.

Reports from Temiscamingue Lake district allege that a find of coal has been made. Pembroke parties will investigate. An Indian describes the place as a big black rock that will burn.

Reports from the various experimental farms go to show that Canada should have a good harvest this year. Grain crops in the Ottawa district are reported to have suffered somewhat from rust through recent heavy rains, but the spot crop will be heavy.

From the Brandon station comes the report that the unfavorable condition of the crops early in July has greatly improved, and wheat is expected to be an average crop in the provinces. Oats will be below the average.

ARMENIANS INVADED TURKEY.

They Killed Women and Children and Indulged in Cruel Tortures.

Constantinople, Aug. 9.—An official despatch received here says that on Friday last several thousand Armenian agitators from Persia invaded Turkey. They killed 200 of the Magriki tribe, including women and children. The wife of the chief was put to death with the most cruel tortures, and several other victims had their noses and ears cut off. The authorities have taken measures to capture the marauders and to provide for the outcome in the Vilayet of Van.

CAPTURE OF ABU HAMID.

Two British Officers Were Killed During the Fighting on the Nile.

Cairo, Aug. 9.—The column of troops commanded by Colonel Hunter of the Anglo-Egyptian expedition up the Nile, which left Merawi on July 20, attacked Abu Hamid at 5.30 a.m., Aug. 7, after eighteen hours' march. Some severe house-to-house fighting followed, and the place was captured by the expeditionary force. Two British officers were killed during the fighting. Abu Hamid is the first objective point of the Anglo-Egyptian expedition now operating against Khartoum. The railroad, which has been extended along the Nile route from Wady Halfa, will now be connected with Abu Hamid, from whence there is open water in the Nile to Berber and Khartoum, near which place the Khalifa is concentrating his forces.

PRINCESS CHIMAY'S PHOTOS.

People of Paris Vexed Because the Prince Has Had them suppressed.

London, Aug. 9.—The people in Paris have been puzzled and vexed by the somewhat arbitrary action of the Prefect of Police in suppressing, at the request of Prince Chimay, the photographs which have been filling the shop fronts with the counterfeit presentment, in absolutely correct ball dress, of the lady who not long ago, as the Prince's wife, startled a romantic world. A closer study of the picture revealed the fact that Mme. Rigo, nee Clara Ward, had in her princely days caused the Chimay crown and initial C to be tattooed on her shoulder.

This stood out so boldly in the photograph as a Chimay hallmark that the French Republic and police, in sympathy with the sentimental claims of outraged nobility, took strong measures to stop the sale. This is rather hard on a popular lady, who loses the fair income of thirty centimes royalty on everyone of many thousand photographs, which were being eagerly caught up by scandal-loving visitors to Paris.

STRIKERS ARE IN A PINCH.

Appeals for Food Are Numerous at the Headquarters in Pittsburg A Wail From Every Section.

Pittsburg, Aug. 9.—Appeals for food and provisions were numerous at the headquarters of the miners' officials in this city to-day. It appeared as though there was a wail from every section of the district, and miners in person were present to ask that the suffering ones be looked after. Secretary Warner was kept busy answering the appeals. He said to-night that he had sent more than $1000 worth of groceries and provisions into various parts of the district. The appeals are now coming in from the families, the heads of which are at the various mining camps using their influence to keep other men from working.

A series of meetings are to be held all over the district. It is expected to keep up the interest in every section and strengthen every point where there is the least indication of weakness. The vigils on the mines of the New York & Cleveland Gas Coal Company are to be kept up, and the vigor increased from day to day.

Thomas B. De Armitt, superintendent of the New York & Cleveland Gas Coal Company, worked hard to-day to get miners at Oakhill to return to work. By a house to house canvas he succeeded in getting a few more diggers than have been at work. Thirty-seven miners went in. The men were told by Mr. De Armitt that they would lose all they had earned if they would not work, and would be given five days to vacate the company's houses.

The strikers say only 75 men out of 293 were at work in the Plum Creek mine to-day. The company avers that almost a full force was working. The strikers are hopeful that the remaining diggers will quit work after getting their pay. The Plum Creek men were not paid to-day, and it is expected that the company will require the men to sign a new agreement before they are given their envelopes.

President Dolan will go to the Canonsburg region and defy the injunctions by speaking at a meeting scheduled for the 11th inst. It is said that only 13 gondolas were loaded at Plum Creek to-day. There is to be a big demonstration in the morning at Plum Creek, when the strikers believe they will be able to close down the mine.

THE FIGHTING IN INDIA.

British Forces Were Momentarily Defeated, But Bengal Cavalry Turned the Tide.

London, Aug. 9.—An official despatch from Simla reports that the British force of cavalry, infantry and artillery, which was sent from Peshawr yesterday to punish the rebels in the Mohmand country, who, under the Mullah, attacked Fort Shabkadr, eighteen miles from Peshawr, on Saturday, has overtaken them and defeated them after a hard fought engagement.

The British, under Col. Woon, were momentarily repulsed, but a brilliant charge by the Bengal cavalry turned the tide of battle.

The losses of the British were twelve killed and forty-eight wounded, the latter including three officers.

Violated the Alien Law.

Peoria, Ill., Aug. 9.—W. V. Powell, Grand Chief of the Order of Railway Telegraphers, was arraigned before a United States commissioner to-day on the charge of violating the alien labor laws, in importing Canadians under contract to work in the general offices of the order. The case was continued till Sept. 27.

THAT ASSASSINATION

The Spanish Premier Was Killed In Revenge

FOR THE BARCELONA ANARCHISTS.

Police Found a Double-Barrelled Pistol in the Assassin's Room Golli Was Implicated in the Corpus Christi Crime —The Kaiser at St. Petersburg—Cable News.

Madrid, Aug. 9.—Golli has confessed that he killed Senor Canovas to avenge the Barcelona Anarchists and the insurgent leader Don Jose Rizal, who was executed at Manila, Philippine Islands, on Dec. 30 last as the instigator of the Philippine rebellion. Dr. Rizal denied that he was a rebel leader, but he admitted that he had drawn up the statutes of the Philippine League.

In Golli's room the police found to-day a large double-barreled pistol. It appears that when he left the house yesterday he carried a parcel which is believed to have contained a bomb. The theory is that he hid this somewhere in the fields.

A despatch from Barcelona says that Golli arrived there in December of 1895, coming from Marseilles. He was employed in the printing office of The Review Ciencia Social, managed by the Anarchist engineer, Tarrida Marmel, formerly imprisoned in Mont Juich Fortress at Barcelona.

Golli was implicated in the terrible crime of the celebration of Corpus Christi, although he left Barcelona a few days before it occurred. He was denounced to the police for complicity but he had already disappeared.

It Was Premeditated.

Madrid, Aug. 9.—The assassination of the Prime Minister of Spain, Senor Canovas del Castillo, who was shot and killed by an Italian anarchist, whose name is believed to be Michele Angino Golli, at the baths of Santa Agueda, yesterday afternoon, was undoubtedly premeditated. Golli deliberately watched for an opportunity to kill the Spanish statesman, and he only fired when there was no chance to miss. In fact, the assassin, who was arrested almost immediately after the Premier fell dying at the feet of his wife, has declared as much to the examining magistrate. The Prime Minister lingered for some time in agony, and passed away with a cry of "Long live Spain." Further details of the assassination show that Senor Canovas del Castillo and his wife were present yesterday morning at the celebration of mass in the chapel attached to the baths. After mass the Premier was reading and conversing with some reporters when the assassin approached and fired three shots at him with a revolver, hitting him in the forehead, chest and left ear. The wounded man fell to the ground, crying: "Assassin! Long live Spain!"

The Premier was carried to his room and expired at 1.30 p.m., after extreme unction had been administered to him by a priest of the Dominican Order.

The murderer, who was immediately seized by people who were in the vicinity of the scene of the crime, was severely handled, and might have been killed had it not been for the protection afforded him by a number of civil guards who ran to the scene. The prisoner, who declared he had killed the Premier "in the accomplishment of a just vengeance," at first gave the name of Rinaldi, and claimed that the deed was the outcome of an extensive anarchist conspiracy. Later, however, the assassin confessed that his real name was Michele Angino Golli, that he was 26 years of age, a native of Boggia, near Naples, and that he left Italy and came to Spain in 1896. After reaching Spain Golli, according to his confession, resided at Barcelona and participated in the doings of the various anarchist associations of that place and vicinity. After sojourning at Barcelona for some time Golli visited France and Belgium and returned to Spain in July last. After his return the anarchist seems to have completed the plans for the assassination of the Prime Minister. He left Madrid for Santa Agueda at the same time as Senor Canovas del Castillo and awaited an opportunity to assassinate the statesman.

Golli is of medium height, wears a full beard and spectacles, and his demeanor is that of a law-abiding citizen. He says he is satisfied with having done "his duty," and asserts he had no personal grudge against the Premier, and was merely obeying orders received from his superiors in the secret society to which he belonged. He frankly confesses anarchist doctrines, says he was sentenced in 1895 to 18 months' imprisonment in the jail at Lucera, Italy, and claims that he escaped from there to Marseilles, from which port he made his way to Barcelona.

Senora Canovas del Castillo, wife of the Premier, rushed to his side upon hearing the shots, and bitterly reproached the murderer for his crime. Golli, in reply to the agonizing words of the distracted wife, said: "I respect you because you are an honorable lady; but I have done my duty and I am now easy in my mind, for I have avenged my friends and brothers of Montjuich."

Montjuich is a fortress of Barcelona, outside of which the anarchists who have been sentenced to death for recent outrages have been executed by being shot in the back. The anarchists recently executed outside Montjuich were the last batch of the fiends who were guilty of throwing a bomb on July 7, 1896, into a religious procession about to enter the church of Santa Maria de la Mar. Twelve persons were instantly killed and about 50 others injured.

For this crime twenty-six anarchists were sentenced to death, and the majority of them were executed.

The Spanish newspapers express great indignation at Golli's crime. Even the periodicals with Republican leanings praise the services of the deceased statesman. The Imparcial says: "Yesterday will prove a black date for Spain. The crime will centuple the indignation of society against its would-be destroyers."

Many of the newspapers this morning appear with black borders around their type.

Daily Examiner.

TUESDAY, AUGUST 10, 1897.

WORK OF THE SESSION—FAST ATLANTIC SESSION.

One of the interesting episodes of the session was the submission to Parliament of the agreement between the Petersens and the Government for a fast Atlantic service. The terms of the agreement were in brief, the Globe explains, that in consideration of a payment of $500,000 annually for ten years by the Canadian Government the firm of Petersen, Tait & Co. were to put on a weekly service of vessels on the Canadian route, the steamers to have a sailing capacity of 500 miles for 24 hours. To the Canadian subvention the Imperial Government added $250,000, making a total subvention for the service of, in round numbers, $750,000. The grant of this subsidy for a fast Atlantic service is being quoted in the Conservative press as one of the extravagances of the Liberal Government. There is unquestionably latitude for differences of opinion as to whether this project will be as successful and as productive in a national sense as we hope it will be, but there is no chance for the Conservative newspapers to rate it as an extravagance and at the same time maintain a reputation for consistency and sincerity. For years their Parliamentary leaders hung up in sight of all men an offer first of $500,000, and then of $750,000 per annum for ten years for such a service, and in the expiring hours of the Tupper regime Sir Charles was nervously anxious to get the consent of the home authorities to the conclusion of an agreement with the Allans for a twenty-knot service in consideration of a Canadian bonus of $750,000. We should be very glad to hear of any Conservative newspaper which opposed the offer of this bonus of three-quarters of a million dollars. If there were any such their still, small voices were lost in the great chorus of approval which went up from all their contemporaries.

The Liberal press, while not absolutely hostile to the idea, was inclined to challenge the amount and to ask what particular benefits Canadians would obtain from the circumstance that by a generous application of of public money a day would be cut from the record for crossing the Atlantic. But even among Liberals there was a considerable section that had been impressed with Sir William Van Horne's declaration that if Canada desired to prosper she must cease to do business on a back street. Whether we could afford to pay $750,000 a year to get on the front street was a query to which there were certainly two replies.

When the Liberal party assumed control of affairs the project was not dropped, but entered on a new stage. To meet the argument that the line would be merely a rich man's route between America and Europe, arrangements were made for cold storage accommodation on the steamers, and to meet the objection as to the cost, the subsidy was reduced to $500,000 These were two such satisfactory changes in the conditions that it would have been thought they would be received with universal applause. But the very newspapers which were eager to pay $750,000 for a fast passenger line, maintain now a most critical attitude towards proposals for getting a better service (including facilities advancing the farmers' interests) for a third less money.

It would be a waste of time, however, to dwell on this feature of the matter. It is the privilege of Oppositions to criticise, whether in reason or out of reason, and it would be cruel to begrudge them the only satisfaction they have. What is more to the purpose is to inquire whether the fast Atlantic service is worth $500,000 a year to Canada. We are paying now, and have paid for many years, $125,000 a year for a service that has not been progressive. It would not be fair, therefore to consider the whole $500,000 which it is now proposed to grant as a new feature in the expenditure. What we are really adding is $375,000. If by means of this subvention we can establish a live steamship line between Great Britain and our Atlantic ports it will scarcely be considered that the cost has been assumed in vain. The question of cheap and efficient transport is, among all the questions that we have to consider, that which is of most immediate, general and lasting importance. Every part of it touches closely the fundamental industries of the country. The deepening of the canals is one portion of it, but that work would be but half accomplished if after the exports reached tidewater there were inefficient means of transporting them across the water. No class of the community is more concerned in this matter than the farmers. It is highly important to them that Montreal, Quebec, Halifax or St. John should be a port to which large numbers of vessels resort. The greater the tonnage resorting to a port the greater is the likelihood of low freight rates. The establishment of a fast weekly steamship line competing for freights both ways would unquestionably help to realize that legimitate aspiration. The measure of its realization would be the measure of its advantage to Canada. Perhaps the most reliable evidence of the possibility of achieving this end is the fact that a responsible firm has thought fit to undertake to establish the fast steamship line. There are rumours that the firm will fail in the negotiations at the very threshold of the thing, but there has been sufficient rivalry and ill feeling occasioned to put us on our guard against such rumours. If the project broke down there would at least be no loss to the public treasury on that account. No cash passes until something is accomplished, so that Opposition forbodings are somewhat misplaced and premature. They can well afford to wait before they join in the chorus of "I told you so."

For our part, we have much more faith in the probabilities of success since the arrival of the free trade era. The preferential tariff for British goods is a greater guarantee for the success of the project than the subventions are. The Conservative policy of encouraging exchange with one hand and crippling it with the other made any such experiment as to the fast line exceedingly problematic. Under an Administration that believes in encouraging trade the whole aspect of affairs is changed. It fits in not only with the Liberal trade policy, but also with the deepening of the canals and the plans for transporting perishable products in prime condition to the English markets. It costs money, of course. So does the cold storage transportation service and the deepening of the canals. The questions to be answered, however, are, are they justifiable expenditures? Are they expenditures that promise to bring us a greater population and render more profitable the tolls of the population we have? We think that these questions can be fairly answered in the affirmative. We believe, moreover, that the cost of these productive enterprises may to a considerable extent be met by cutting off excrescences in the public service. To this task Ministers are now addressing themselves. Conservative journals which are crying out for immediate results in this direction, should remember how long and how patiently they endured these excrescences in the day when the party they support had the power to remove them.

A CONSTABLE TALKS.

Like Ordinary Mortals Subject to Kidney Disease but Easily Cured by Dodd's Kidney Pills.

STAYNER, (Special), Aug. 2.—Mr. James K. Nesbitt, a county constable of this place, having suffered for a long time with kidney disease, he became aware that the doctors called it diabetes and incurable. As he had the good fortune to know that many cases of this disease had been cured by Dodd's Kidney Pills this news did not startle him. He says he went straight to Sander's drug store, and commenced to get well on the first box purchased. Now he is going the usual rounds praising Dodd's Kidney Pills to every one who asks the particulars of his recovery.

Undoubtedly the Best.

GENTLEMEN, — I wish to say that Dr. Fowlers Extract of Wild Strawberry has proved a wonderful remedy in my family. We would not be without it for twice its price. I say it is the best (not merely one of the best—but the best) medicine ever brought before the public for summer complaint or diarrhœa, either in children or adults.

WILFRID THE GREAT.

W'en Queen Victoria call her peup's
Fer mak' some jubilee,
She sen' for men from all the worl'
An' from her colonie.

But mos' of all she sen' this word,
To dis Canadian shore,
"If Wilfrid Laurier will not come,
I'll not be glad some more!"

Den Wilfrid—not hard-hearted he—
Lift, w'at you call, de hat,
An' say, "Ma Reine, you must not fret,
For little t'ing like dat.

"To Londres on de day in June,
You ment on I will come,
And show you w'at is like de French-
Canadian gentilhomme."

So Wilfrid sailed across the sea,
An' Queen Victoria met,
An' w'en she saw him, ah! she was
Just tickle half to deat'.

An' w'en he kneel as etiquette,
Demand for be correck,
She tak' a sword into her han'
An' hit *him* on the neek.

An' as she did she smile on him,
An' dese de words she say;
"Rise up my true Canadian knight,
Sir Wilfrid Laurier!

An' on dose grand Imperial plans,
W'ich I have now in view,
For guidance, counsel an' advice
I'll always look to you!"

Den Wilfrid kis de royal hand,
An' back off on do door,
An' bow as only Frenchmen can,
An' smile an' bow some more.

Nex' day it was a glorious sight,
At half-pas' twelve o'clock,
To see Sir Wilfrid rise in state,
An' in chapeau de coque!

Lords Solsby, Roberts, Labouchere,
An' Chamberlain an' dose,
Were w'at you call "not in it" den—
Sir Wilfrid was de boss.

Oui, certainement, excep' de Queen
Herself, dat glorious day,
De greatest man in Angleterre,
Was Wilfrid Laurier!

—Jean Baptiste Trudeau, in Ottawa Free Press.
Montreal, July, 1897.

DYSPEPSIA
CURED BY DR. CHASE.

. . FOR EIGHTEEN YEARS W.W.HODGES SUFFERED —DR. CHASE'S KIDNEY-LIVER PILLS EFFECTED AN ALMOST MIRACULOUS CURE. . . . . .

Messrs. EDMANSON, BATES & Co.,
Toronto.

DEAR SIRS,—I take the liberty of writing to you regarding my experience with DR. CHASE'S KIDNEY-LIVER PILLS, and the wonderful cure of dyspepsia of 18 years' standing effected by them with three boxes. I am as well as I ever was, and am a man of 64 years of age. I have recommended DR. CHASE'S KIDNEY-LIVER PILLS to a great number of people and they all say they are worth their weight in gold. If you desire any further statement or certificate of my case, I will be pleased to furnish one.

Yours truly,
W. W. HODGES,
Holland Landing, Ont.

Norway Pine Syrup cures coughs, colds, and all throat and lung troubles. Price 25 and 50c.

THE WORKINGMAN...

Made this country. True, the ground was here when he came, but he's made it what it is. From the time that Queen Isabella hocked her jewels in order to "raise the wind," so that Chris. could have a "special sale" across the water in search of Peterborough and the surrounding country, until the present day—not a step has been taken forward—not an improvement has been made in this country—without the aid of the working man. Who is the greatest electrician in the world? Thomas Edison. Who makes the best sewing machines—the best locomotives—the best passengers cars? Who builds the biggest and best buildings, digs the deepest ditches and lays the longest railroads? The workingman. The Peterborough workingman is up to snuff. It did'nt take him long to find out that he could do more days' work in a dollars worth of working man's clothes that he bought here than he'd ever be able to do in any dollar's worth he'd bought before. Where one working man struggled in and bought a pair of Overalls or a pair of Blue Jeans, or a jumper of us in former years, a hundred patronize our workingmen's department to-day. We're proud of it. Are you a working man? Want to buy clothes to wear while you work that will wear while you work? Try us.

We are showing the nicest Novelties for "little men"—the finest ever brought to Peterborough. We also sell knee pants, 3 piece Suits, from $2.75 up. Long Pant Suits, from $3.00 to $5.00 up. Single Knee Pants 25c, 35c, 50c, 60c and 75c, Save money by dealing with us.

THAT ASSASSINATION.

(Continued From First Page.)

A post-mortem examination of the remains of the Premier was made this morning, prior to embalming them for transportation to this city. The funeral will be most imposing. The indignation expressed at the crime is shared by all parties in politics, and it is generally believed that the members of the colonial secret societies were concerned in the outrage.

It is reported that Senor A. Pidal, President of the Chamber of Deputies, will be appointed President of the Council of Ministers, in succession to the late Premier, at the expiration of the official nine days' mourning. The Ministers, for the present, will meet in council daily.

Golli, it developed at the examination before a magistrate to-day, succeeded in firing two shots at the people who arrested him before he was overpowered.

The assassin calls himself a "Revolutionary Anarchist." Senor Silvela, the leader of the Dissident Conservatives, has followed the example of Senor Sagasta, the Liberal leader, Marshal Martinez de Campos and others, and has tendered his condolence to the Government, while placing his services at the disposal of the Ministry.

The Cabinet sat until 2 o'clock this morning and decided to publish in the official Gazette to-day, which will appear with a black border, the appointment of Lieut.-Gen. Don Marcelo de Azcarraga, the Minister for War, as Premier ad interim.

Senor Sagasta has postponed his projected visit to this city.

In anticipation of possible disturbances at Barcelona, the police force of that city has been reinforced.

Later in the day it was announced that the highest military honors will be accorded the deceased at his funeral. The court, however, will not return here from San Sebastian, the summer residence, to attend the funeral ceremonies. The Queen Regent, however, will be represented at the funeral by the Duke of Sotomayor, the Chief Major Domo.

The remains will be brought here on Tuesday. An individual who was heard to express sympathy with the assassin of the Premier and with his crime has been arrested.

Golli is a Printer.

Barcelona, Aug. 9.—Golli, the assassin of Senor Canovas del Castillo, was known here under the name of Achilolli. He formerly worked as a compositor, and was also known under the alias of Jore Sonte. He was classed as a Militant Anarchist, and was an intimate friend of Ascheri, the perpetrator of the outrage in the Calle de Cambras. Golli fled from Barcelona after the outrage occurred to.

THE TRAGEDY WAS PROMISED.

Spanish Anarchists in London Say They Had Nothing to Do With It.

London, Aug. 9 — A week ago the French newspaper, Courrier de Lyon, published an interview with an Italian Anarchist, who said he was going to London to see the Spanish Anarchists, and that within a few days the world would be astonished by an event resembling the death of Carnot.

The Spanish Anarchist refugees from Barcelona now in London, on being questioned this evening on the subject of the assassination of Canovas, declared that the murder had nothing to do with them. Rinaldi, or Reinaldi, they asserted, is quite unknown. One of them said: "Our methods are constitutional."

They admitted, however, that they could not be expected greatly to deplore the death of the man responsible for the tortures that had been inflicted on them; but they reiterated their assertion that the act was the work of a solitary individual without accomplices.

The Fortune-Teller Misses It.

Malaga, Aug. 9. — Old inhabitants of this city relate that when Canavos del Castillo was a young assistant master at a school here a gypsy woman told his fortune. She predicted he would become great and would meet with a violent death.

Spanish Securities Fell.

London, Aug. 9. — On the Stock Exchange here to-day Spanish securities fell one-half point on the news of the assassination of Senor Canovas.

Horror in Rome.

Rome, Aug. 9. — The assassination of Senor Canovas has caused a feeling of horror here. Many flags are half masted, and the Premier, the Marquis di Rudini, and the Cabinet Ministers have paid personal visits to-day to the Spanish Embassy. King Humbert has telegraphed his condolence to the Queen Regent, and it is expected that the Crown Prince Vittorie Emanuele, Prince of Naples, who is now cruising on his yacht, will proceed to Madrid.

The Pope is greatly upset by the news of the assassination, and upon receipt of it immediately sent to the Spanish Embassy for details of the crime. His Holiness also telegraphed on the subject to Madrid.

Dreadful to Contemplate.

Madrid, Aug. 9.—The newspapers of this city, in commenting upon the crime, say that though Anarchists have no country, it is dreadful to contemplate that the last two murders of eminent men, that of President Carnot of France and the assassination of Premier Canovas, were the work of Italians.

THE LONDON PRESS

Advocate the Suppression of Anarchism by Force—That is the Only Remedy.

London, Aug. 9.—The afternoon newspapers, in their comments upon the assassination of the Spanish Prime Minister, expressed themselves on the same lines as the morning papers, remarking upon the incomprehensible idiocy of the murder of the man who was mainly responsible for giving universal suffrage to Spain. They also advocate the suppression of Anarchism by force, pointing out that the history of Nihilism in Russia proves that force, consistently and steadily applied, is the remedy for clearing out the pestilent gang.

The St. James' Gazette regards the death of Senor Canovas del Castillo as being a heavy disaster for Spain, adding: "Canovas was not great, but he was a statesman. During the Cuban crisis he governed with energy, and if he had been a very great man he might have told his countrymen that they must alter their ways of dealing with the colonies.

"But the Spaniards would hardly listen to such a lesson, even from the tongue of an angel. Maybe, if he had the choice, Canovas would have preferred the martyrdom which has overtaken him, rather than to have lived to see the collapse which is once more threatening Spain. In the meantime, the murder will destroy the already unstable administration. The crime must have one consequence—to make the Kaiser and his brother sovereigns less disposed to gentle methods with Socialism."

THE FRENCH NEWSPAPERS

Do Not Anticipate Any Political Complication as a Result of the Murder.

Paris, Aug. 9. — The French newspapers say they do not anticipate any political complication in Spain as an outcome of the assassination, and do not think the Conservative Government will be displaced. That the agitation against Senor Canovas del Castillo was widespread is further evidenced by the fact that the police of this city recently tore down from the lavatories of Paris placards inscribed: "Down with Canovas! The martyrs will be avenged! Long live anarchy!" and other expressions in Spanish, grossly insulting the Queen Regent and Premier Canovas.

The Matin to-day publishes interviews between its reporters and a number of Spanish Anarchists, in which the latter are quoted as declaring they had no previous knowledge of the crime which has just startled the whole world. The persons interviewed also claimed that the assassination of the Spanish Premier was provoked by his persecution of Anarchists. One of the latter said: "It had to come. We have been expecting it daily. We knew a high personage was going to be attacked, but it might have been any other than Canovas."

The police are watching the Anarchist resorts, and three arrests were made to-day. Other arrests are expected to follow.

The Minister for Foreign Affairs, M. Hanotaux, has telegraphed the condolences of the French Government to the Queen Regent and to the Government of Spain. All the French newspapers deplore the crime, and the Socialist organs, while reprobating the assassination, refer to the severity exercised by Canovas towards the Anarchists, intimating that such action upon his part pointed him out for an attack.

SENOR SAGASTA TALKS.

The Liberal Leader Says the Country's Politics Must Not Depend Upon An Assassin

Madrid, Aug. 9.—In the course of an interview to-day, Senor Sagasta, the Liberal leader, said:

"The country's politics must not depend upon an assassin. The Conservatives ought to remain in power under the guidance of men like Marshal Campos, Senor Pidal and Senor Elduayen. Nevertheless, if the Queen-Regent appeals to the Liberals they are ready to respond."

The funeral of Senor Canovas will take place probably on Thursday. Meanwhile the remains will lie here in state.

The Spanish newspapers, without regard to differences of political opinion, express their horror and indignation at the crime, and their satisfaction that the assassin is not a Spaniard.

It is probable that the law for the repression of Anarchism, which has hitherto been enforced only in Barcelona and Madrid, will be extended to the whole country. There is a great deal of speculation as to the effect of the loss of Canovas upon the Conservative party. Gen. Azcarraga has acquired great popularity and prestige through his skill in organizing the country's resources for the Cuban and Philippine campaigns, and he may be able to keep the party together. But many good judges take a gloomy view of the situation and lament the absence of civil statesmen of the calibre of Canovas.

HIS NAME IS SANTO

So a Despatch from Paris Says—Golli Was Profusely Polite.

London, Aug. 9.—A despatch from Rome says that Golli's name is not known to the Italian police. No conviction is recorded at Naples or Lucera against a person of that name. Other despatches from Rome, corroborated by a despatch from Paris, say that the real name of Golli is Guiseppe Santo. If this is so it is a remarkable coincidence, for the name of the assassin of President Carnot was Caesario Santo.

A special despatch from San Sebastian says that Golli saluted Senor Canovas each morning with great politeness. His effusiveness aroused the suspicions of the Premier, who mentioned the matter to the proprietor of the baths, only to be reassured by him.

Golli confesses that he followed Senor Canovas to churca and to other places, waiting for an opportunity when he could surely accomplish his purpose. He regrets, he says, that he has been unable to kill General Palovicja, who was Governor-General of the Philippines when Dr. Rizal was executed last December. He regards him as the murderer of Rizal.

Let Sagasta Look Out.

London, Aug. 9.—A special from Madrid says the Spanish Government was aware that a meeting of Anarchists was held early in July, and that it was decided to murder Senor Canovas del Castillo before Aug. 15, and to assassinate Senor Sagasta before Aug. 30.

Cubans Are Glad.

New York, Aug. 9.—Advices received here to-day from the heads of the different Cuban Juntas in the United States all voice the sentiment that Senor Canovas was more responsible for the outrages in Cuba than was General Weyler. The Cubans do not believe in murder, but the killing of Canovas seemed to be an act of retribution. At the same time the Cuban party had nothing whatever to do with the death of Canovas, and had no knowledge that such an act was even contemplated by anarchists or anyone else.

Baby was Cured,
[illegible]—I can highly recommend Pr. W[illegible] of Wild Strawberry. It [illegible] my baby of diarrhoea after all other [illegible] failed, so I give it great praise. It is excellent for all bowel complaints.
MRS. CHAS. BOYT,
Barlow, Ont.

Kaiser's Sorrow.

Washington, Aug. 9.—President McKinley to-day cabled United States Minister Taylor at Madrid to express to the Spanish Government his deep sorrow and sympathy for the loss borne by Spain in the death of Senor Canovas del Castillo, the Prime Minister of Spain, and to convey condolence to the family of the deceased.

Cleveland's Gloomy Apprehensions.

Buzzard's Bay, Mass., Aug. 9.—Ex-President Cleveland, in deploring the shocking death of Senor Canovas, said: "The world's civilization may well contemplate the terrible event with gloomy apprehension."

Consternation in London.

London, Aug. 9.—The assassination of Senor Canovas has caused great excitement and activity among the police of all branches in this city. All the men absent on leave have been recalled, and constant communications are going on between the British police headquarters here, Scotland Yard and the headquarters of the Spanish police at Madrid.

Ferdinand at Constantinople.

Constantinople, Aug. 9.—Prince Ferdinand of Bulgaria, accompanied by the Bulgarian Premier, M. Stolloff, arrived here this morning and proceeded to the Yildiz Palace, where the Prince will be the guest of the Sultan until Wednesday next.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

Pleasant, Sure and Quick.

GENTLEMEN,—I am pleased to recommend your LAXA LIVER PILLS for constipation, dyspepsia and sick headache. I have used them for those troubles, and find them a pleasant, sure and quick cure, free from the annoying griping of other pills I have heretofore used.
Signed, H. JAMES,

A WELL-KNOWN WOODSTOCK MAN CURED.
Woodstock, Ont., May 2nd, 1896
This is to certify that I, James Ross, toll-gate-keeper, of the Town of Woodstock, Ont., have been a suffer from Indigestion and a very weak stomach for a number of years, and have tried a great many medicines of different kinds, but could only obtain temporary relief for a short time, but after using one bottle of SLOAN'S INDIAN TONIC I could perceive a great difference. My Indigestion was better and my stomach was much stronger than before, and I found I had gained several pounds in flesh, where I was very weak and thin in flesh before. I think I used nine or ten bottles in all, and I am now a healthy man, but still I do not want to be without the medicine in the house, and I procure one or two bottles every year, and I can truthfully recommend SLOAN'S INDIAN TONIC to others suffering from the same complaints.
JAMES ROSS, toll-gate-keeper.

High-Grade Cemetery Work
AT A MODERATE PRICE.

The element of permanence which attaches to the erection of any memorial to the dead renders it highly desirable that no mistake be made in the selection either of design or of materials.
A mistake is a serious matter. Let us help you to make a right decision. Our specialty is the erection of monuments which are unique without being grotesque, and artistic without being over-decorated.
We manufacture from all first-quality granites, and as WE SELL DIRECT TO CUSTOMERS, we save the latter all agents' profits. Then, too, there is a decided advantage for the buyer in dealing with one responsible firm for both the manufacture and the setting of a monument.
All our work is guaranteed, NO CHARGE being made if not strictly according to contract. Write us for designs and estimates.

THAT ASSASSINATION.

(Continued From First Page.)

A post-mortem examination of the remains of the Premier was made this morning, prior to proclaiming them for transportation to his city. The funeral will be most imposing. The indignation expressed at the crime is shared by all parties in politics, and it is generally believed that the members of the colonial secret societies were concerned in the outrage.

It is reported that Senor A. Pidal, President of the Chamber of Deputies, will be appointed President of the Council of Ministers, in succession to the late Premier, at the expiration of the official nine days' mourning. The Ministers, for the present, will meet in council daily.

Golli, it developed at the examination before a magistrate to-day, succeeded in firing two shots at the people who arrested him before he was overpowered.

The assassin calls himself a "Revolutionary Anarchist." Senor Silvela, the leader of the Dissident Conservatives, has followed the example of Senor Sagasta, the Liberal leader, Marshal Martinez de Campos and others, and has tendered his confidence to the Government, while placing his services at the disposal of the Ministry.

The Cabinet sat until 2 o'clock this morning and decided to publish in the official Gazette to-day, which will appear with a black border, the appointment of Lieut.-Gen. Don Marcelo de Azcarraga, the Minister for War, as Premier ad interim.

Senor Sagasta has postponed his projected visit to this city.

In anticipation of possible disturbances at Barcelona, the police force of that city has been reinforced.

Later in the day it was announced that the highest military honors will be accorded the deceased at his funeral. The court, however, will not return here from San Sebastian, the summer residence, to attend the funeral ceremonies. The Queen Regent, however, will be represented at the funeral by the Duke of Sotomayor, the Chief Major Domo.

The remains will be brought here on Tuesday. An individual who was heard to express sympathy with the assassin of the Premier and with his crime has been arrested.

Golli is a Printer.

Barcelona, Aug. 9.—Golli, the assassin of Senor Canovas del Castillo, was known here under the name of Achilolli. He formerly worked as a compositor, and was also known under the alias of Jose Sonte. He was classed as a Militant Anarchist, and was an intimate friend of Ascheri, the perpetrator of the outrage in the Calle de Cambros. Golli fled from Barcelona after the outrage occurred.

THE TRIGEDY WAS PROMISED.

Spanish Anarchist in London Say They Had Nothing to Do With It.

London, Aug. 9 — A week ago the French newspaper, Courrier de Lyon, published an interview with an Italian Anarchist, who said he was going to London to see the Spanish Anarchists, and that within a few days the world would be astonished by an event resembling the death of Carnot.

The Spanish Anarchist refugees from Barcelona now in London, on being questioned this evening on the subject of the assassination of Canovas, declared that the murder had nothing to do with them. Rinaldi, or Reinadi, they asserted, is quite unknown. One of them said. "Our methods are constitutional."

They admitted, however, that they could not be expected greatly to deplore the death of the man responsible for the tortures that had been inflicted on them; but they reiterated their assertion that the act was the work of a solitary individual without accomplices.

The Fortune-Teller Comes In.

Malaga, Aug. 9. — Old inhabitants of this city relate that when Canavos del Castillo was a young assistant master at a school here a gypsy woman told his fortune. She predicted he would become great and would meet with a violent death.

Spanish Securities Fell.

London, Aug. 9. — On the Stock Exchange here to-day Spanish securities fell one-half point on the news of the assassination of Senor Canovas.

Horror in Rome.

Rome, Aug. 9. — The assassination of Senor Canovas has caused a feeling of horror here. Many flags are half masted, and the Premier, the Marquis di Rudini, and the Cabinet Ministers have paid personal visits to-day to the Spanish Embassy. King Humbert has telegraphed his condolence to the Queen Regent, and it is expected that the Crown Prince Vittorie Emanuele, Prince of Naples, who is now cruising on his yacht, will proceed to Madrid.

The Pope is greatly upset by the news of the assassination, and on receipt of it immediately sent to the Spanish Embassy for details of the crime. His Holiness also telegraphed on the subject to Madrid.

Dreadful to Contemplate.

Madrid, Aug. 9.—The newspapers of this city, in commenting upon the crime, say that though Anarchists have no country, it is dreadful to contemplate that the last two murders of eminent men, that of President Carnot of France and the assassination of Premier Canovas, were the work of Italians.

THE LONDON PRESS

Advocate the Suppression of Anarchism by Force—That is the Only Remedy.

London, Aug. 9.—The afternoon newspapers, in their comments upon the assassination of the Spanish Prime Minister, expressed themselves on the same lines as the morning papers, remarking upon the incomprehensible idiocy of the murder of the man who was mainly responsible for giving universal suffrage to Spain. They also advocate the suppression of Anarchism by force, pointing out that the history of Nihilism in Russia proves that force, consistently and steadily applied, is the remedy for clearing out the pestilent gang.

The St. James' Gazette regards the death of Senor Canovas del Castillo as being a heavy disaster for Spain, adding: "Canovas was not great, but he was a statesman. During the Cuban crisis he governed with energy, and if he had been a very great man he might have told his countrymen that they must alter their ways of dealing with the colonies.

"But the Spaniards would hardly listen to such a lesson, even from the tongue of an angel. Maybe, if he had the choice, Canovas would have preferred the martyrdom which has overtaken him, rather than to have lived to see the collapse which is once more threatening Spain. In the meantime, the murder will destroy the already unstable administration. The crime must have one consequence—to make the Kaiser and his brother sovereigns less disposed to gentle methods with Socialism."

THE FRENCH NEWSPAPERS

Do Not Anticipate Any Political Complication as a Result of the Murder.

Paris, Aug. 9. — The French newspapers say they do not anticipate any political complication in Spain as an outcome of the assassination, and do not think the Conservative Government will be displaced. That the agitation against Senor Canovas del Castillo was widespread is further evidenced by the fact that the police of this city recently tore down from the lavatories of Paris placards inscribed: "Down with Canovas! The martyrs will be avenged! Long live anarchy!" and other expressions in Spanish, grossly insulting the Queen Regent and Premier Canovas.

The Matin to-day publishes interviews between its reporters and a number of Spanish Anarchists, in which the latter are quoted as declaring they had no previous knowledge of the crime which has just startled the whole world. We have been expecting it daily. We knew a high personage was going to be attacked, but it might have been any other than Canovas."

The police are watching the Anarchist resorts, and three arrests were made to-day. Other arrests are expected to follow.

The Minister for Foreign Affairs, M. Hanotaux, has telegraphed the condolences of the French Government to the Queen Regent and to the Government of Spain. All the French newspapers deplore the crime, and the Socialist organs, while reprobating the assassination, refer to the severity exercised by Canovas towards the Anarchists, intimating that such action upon his part pointed him out for an attack.

SENOR SAGASTA TALKS.

The Liberal Leader Says the Country's Politics Must Not Depend Upon An Assassin

Madrid, Aug. 9.—In the course of an interview to-day, Senor Sagasta, the Liberal leader, said:

"The country's politics must not depend upon an assassin. The Conservatives ought to remain in power under the guidance of men like Marshal Campos, Senor Pidal and Senor Elduayen. Nevertheless, if the Queen-Regent appeals to the Liberals they are ready to respond."

The funeral of Senor Canovas will take place probably on Thursday. Meanwhile the remains will lie here in state.

The Spanish newspapers, without regard to differences of political opinion, express their horror and indignation at the crime, and their satisfaction that the assassin is not a Spaniard.

It is probable that the law for the repression of Anarchism, which has hitherto been enforced only in Barcelona and Madrid, will be extended to the whole country. There is a great deal of speculation as to the effect of the loss of Canovas upon the Conservative party. Gen. Azcarraga has acquired great popularity and prestige through his skill in organizing the country's resources for the Cuban and Philippine campaigns, and he may be able to keep the party together. But many good judges take a gloomy view of the situation and lament the absence of civil statesmen of the calibre of Canovas.

HIS NAME IS SANTO

So a Despatch from Paris Says Golli Was Profusely Polite.

London, Aug. 9.—A despatch from Rome says that Golli's name is not known to the Italian police. No conviction is recorded at Naples or Lucera against a person of that name. Other despatches from Rome, corroborated by a despatch from Paris, say that the real name of Golli is Guiseppe Santo. If this is so it is a remarkable coincidence, for the name of the assassin of President Carnot was Caesario Santo.

A special despatch from San Sebastian says that Golli saluted Senor Canovas each morning with great politeness. His effusiveness aroused the suspicions of the Premier, who mentioned the matter to the proprietor of the baths, only to be reassured by him.

Golli confesses that he followed Senor Canovas to church and to other places, waiting for an opportunity when he could surely accomplish his purpose. He regrets, he says, that he has been unable to kill General Palovicja, who was Governor-General of the Philippines when Dr. Rizal was executed last December. He regards him as the murderer of Rizal.

Let Sagasta Look Out.

London, Aug. 9.—A special from Madrid says the Spanish Government was aware that a meeting of Anarchists was held early in July, and that it was decided to murder Senor Canovas del Castillo before Aug. 15, and to assassinate Senor Sagasta before Aug. 30.

Cubans Are Glad.

New York, Aug. 9.—Advices received here to-day from the heads of the different Cuban Juntas in the United States all voice the sentiment that Senor Canovas was more responsible for the outrages in Cuba than was General Weyler. The Cubans do not believe in murder, but the killing of Canovas seemed to be an act of retribution. At the same time the Cuban party had nothing whatever to do with the death of Canovas, and had no knowledge that such an act was even contemplated by anarchists or anyone else.

Baby was Cured.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of diarrhoea after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. BOTT,
Barlow, Ont.

Minister's Sorrow.

Washington, Aug. 9.—President McKinley to-day cabled United States Minister Taylor at Madrid to express to the Spanish Government his deep sorrow and sympathy for the loss borne by Spain in the death of Senor Canovas del Castillo, the Prime Minister of Spain, and to convey condolence to the family of the deceased.

Cleveland's Gloomy Apprehensions.

Buzzard's Bay, Mass., Aug. 9.—Ex-President Cleveland, in deploring the shocking death of Senor Canovas, said: "The world's civilization may well contemplate the terrible event with gloomy apprehension."

Consternation in London

London, Aug. 9. The assassination of Senor Canovas has caused great excitement and activity among the police of all branches in this city. All the men absent on leave have been recalled, and constant communications are going on between the British police headquarters here, Scotland Yard and the headquarters of the Spanish police at Madrid.

Ferdinand at Constantinople.

Constantinople, Aug. 9.—Prince Ferdinand of Bulgaria, accompanied by the Bulgarian Premier, M. Stoiloff, arrived here this morning and proceeded to the Yildiz Palace, where the Prince will be the guest of the Sultan until Wednesday next.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

Pleasant, Sure and Quick.

GENTLEMEN,—I am pleased to recommend your Laxa Liver Pills for constipation, dyspepsia and sick headache. I have used them for those troubles, and find them a pleasant, sure and quick cure, free from the annoying griping of other pills I have heretofore used.

Signed, H. JAMES,
St. Nicholas Hotel, Hamilton, Ont.

Sloan's Indian Tonic

TRADE MARK.
Gives the aged energy. Cures Dyspepsia, Indigestion, Nausea, Faintness, Loss of Appetite, Flatulence, Costiveness and all other Stomach and Bowel disorders.
A WELL-KNOWN WOODSTOCK MAN CURED.
Woodstock, Ont., May 2nd, 1899
This is to certify that I, James Ross, toll-gate-keeper, of the Town of Woodstock, Ont., have been a suffer from Indigestion and a very weak stomach for a number of years, and have tried a great many medicines of different kinds, but could only obtain temporary relief for a short time, but after using one bottle of SLOAN'S INDIAN TONIC I could perceive a great difference. My Indigestion was better and my stomach was much stronger than before, and I found I had gained several pounds in flesh, where I was very weak and thin in flesh before. I think I used nine or ten bottles in all, and I am now a healthy man, but still I do not want to be without the medicine in the house, and I procure one or two bottles every year, and I can truthfully recommend SLOAN'S INDIAN TONIC to others suffering from the same complaints.
JAMES ROSS, toll-gate-keeper.
Price $1,6 for $5. All Druggists or from Laboratory.

High-Grade Cemetery Work
AT A MODERATE PRICE.

The element of permanence which attaches to the erection of any memorial to the dead renders it highly desirable that no mistake be made in the selection either of design or of materials.
A mistake is a serious matter. Let us help you to make a right decision. Our specialty is the erection of monuments which are unique without being grotesque, and artistic without being over-decorated.
We manufacture from all first-quality granites, and as WE SELL DIRECT TO CUSTOMERS, we save the latter all agents' profits. Then, too, there is a decided advantage for the buyer in dealing with one responsible firm for both the manufacture and the setting of a monument.
All our work is guaranteed, NO CHARGE being made if not strictly according to contract.
Write us for designs and estimates.

The School Board Estimates.

A joint conference of the Committee of the Whole Council and the School Board was held last night. Messrs. Jas. Stevenson, Peter Hamilton and Dr. Caldwell, representing the School Board, were present. After a good deal of pertinent and a great deal of irrelevant talk, the conference separated on the understanding that the Board would consider the possibility of reducing their demand for the schools.

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2.75, and at the latter city the great summer sports are in full swing.

A Horse Killed.

Mr. Jas. Dawson, of Ashburnham, was down the river road driving yesterday afternoon with a couple of friends. They tied up the horse they were driving and went into the fields to pick berries. The horse became frightened and ran away. In turning a corner south of the Dr. Kincaid farm at a narrow and dangerous point the poor animal fell into the ditch, which is eight or ten feet deep, and lay there helpless. Dr. Johnston, from town, was sent for and found that the horse's back was broken, and it was necessary to destroy him to put an end to his suffering.

The Wabash Railway Trains

running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service; they are complete and solid vestibuled from end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to car builder's art. They include free reclining, palace, sleeping, and dining cars of the latest and best patterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

ODDFELLOW NOTES.

Grand Lodge Items—Delegates from Peterborough.

For the present Belleville is the centre of Oddfellowship, being the meeting place of the annual society parliament.

The Belleville Oddfellows have made elaborate preparations for receiving and entertaing the guests, including a sail on the steamer Columbian, a splendid member of the Richelieu Line.

To-day the Rebekah delegates are arriving, and went into session to day.

On Wednesday morning delegates and visiting brethren with local lodges, will meet on the market square at 8 30 and, headed by the I.O.O.F. silver band, will escort the grand officers to the Carman opera house, where an address of welcome will be given by the mayor on behalf of the citizens of Belleville, also on behalf of the Belleville lodges, to which the public will be admitted. An excursion to Glenora at 1.30 o'clock, per steamer Columbian, will occupy the afternoon.

The delegates from Peterborough are all on the way. Mr. T. C. Elliott, representing Peterborough Lodge, went down on his wheel a day or two ago, and Messrs. J. M. White and Fred Foote, representing the same lodge, went down on the Grand Junction at 12.35. Mr. James Tully started down on his wheel last night, and Mr. Alex. Rutherford, the other representative of Otonabee Lodge, went at noon. Mr. R. F. Morrow, goes down to the Grand Lodge, of which he is a Grand Officer.

ELECTED A UNIVERSITY PROFESSOR.

Rev. T. B. Angell, D.D., Receives an Important Appointment.

The numerous friends in Peterborough of Rev. T. B. Angell, D.D., son-in-law of Mr. Clunton, and for some time curate of St. John's, will be pleased to hear of his rapid advancement since he went to Pennsylvania. Although only 33 years of age he is a Doctor of Divinity and has, as will be seen by the following paragraph taken from the Harrisburgh (Pa.) Independent, been appointed to a most important university chair. Under the heading "Elected a Professor," the Independent says :—

"Rev. T. B. Angell, D.D., rector of St. Stephen's Protestant Episcopal church, this city, has been elected professor of Philosophy in Lehigh University. Doctor Angell has not yet decided whether he will accept the proffered position. The parishioners of St. Stephen's are very loth to part with their beloved rector, and are very much inclined to prevail upon him, if possible, to remain with them. The professorship of Philosophy in Lehigh University is one of the senior professorships in that excellent institution, and the honour conferred upon Dr. Angell by his selection for so important an office in the faculty is one to be highly appreciated and esteemed."

Recently Rev. Dr. Angell received as striking a practical compliment to his ability as a preacher as the above appointment is to his general scholarly attainments. He was selected to preach the baccalaureate sermon at the above university, a request that is never made of anybody but a bishop or eminent clergyman. The sermon was spoken of in the highest terms. THE EXAMINER congratulates Rev. Mr. Angell and his relatives in Peterborough very cordially on this recognition of his abilities.

A CONCERT AT STONY LAKE.

A Fine Evening's Enjoyment Promised to Lake Dwellers.

A concert will take place in the pavillion at Stony Lake on Thursday evening of this week. The programme will be carried out by the cottagers and their guests, the proceeds to be applied toward the purchasing of a piano for the Sunday services and other amusements. Mr. A. L. Davis is down from the lake to-day to arrange for a piano and other things connected with the entertainment. After the concert an "At Home" will take place. The locality will no doubt look very pretty from the water, as the trees will be decorated with coloured lanterns.

PERSONAL.

Mr. Jas. Duff, of Indian River, was in town yesterday morning.

Miss H. Richardson, of Toronto, is visiting her parents for two weeks.

Mrs. Goodfellow, of Brooklyn, N.Y., is the guest of Mrs. Aaron Cox, Scott street.

Miss Minnie Griffin, Charlotte street, is visiting friends in Toronto and points west.

Miss Jennie Melrose and Mrs Maude Brown, are spending a few days visiting friends in Warsaw.

Mr. Gilbert Parker, the celebrated Canadian novelist, has presented $50 to the Belleville Public Library.

Mr. J. A. Fife, Science Master of the Collegiate Institute, who has been in Kingston for a few weeks, wheeled into town from Port Hope yesterday.

Sister Juliana, of the Convent of the Congregation de Notre Dame, who life has been despaired of for the past few days, is considerably improved this morning.

Miss Katie Flaherty, of New York city, accompanied by Miss Lizzie Halliday, of Rochester, arrived last evening for a month's visit at the former's home, 180 Antrim street.

Messrs. Stanley Paterson, V. S. Smith and R. C. Smith, of Port Hope, passed through town yesterday for Balsam Lake, where they will enjoy themselves in all the freedom that pertains to the summer camp.

On Monday, Aug. 2nd, at St. Mary's church, Annapolis, Md., Mr. Peter Costello, of Toronto, well known in Peterborough, received the habit of the Order of the Redemptorists, thus beginning the first year of probation.

Miss Rudkins left last night for Montreal, accompanied by one of her milliners, to inspect an advantageous offer of some special lines of goods for the fall. She also has an invitation to visit some of the wholesale millinery houses where the early fall styles of Paris hats and other millinery have already appeared.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The rural schools open on Monday, Aug. 16th.

—There will be a meeting of the Victoria Museum Board to-morrow afternoon at 4 o'clock at the town council chamber.

—The Campbellford Herald is complaining of the number of ducks that are being slaughtered at Trent Bridge during the past week. This should be a warning to violators of the law to stop their unlawful practices.

—Police Constable Fitzgerald, of Ashburnham, swooped down on two knights of the road yesterday afternoon, and brought them before County Police Magistrate Edmison, who sent them up to Castle Nesbitt for twenty days.

THE OXFORD HOTEL STRUCK BY LIGHTNING.

MRS. WM. BOWMAN AND R. N. SCOTT SEVERELY SHOCKED.

Mr. Scott a Long Time Unconscious—The Building Also Struck—Other Effects of the Lighning—A Great Down-Pour of Rain.

This afternoon's electrical storm was one of the severest of the season. The electric discharges were tremendous and awe inspiring. The flood gates of the heavens seemed opened and the rain came down in torrents. But the lightning did not content itself with mere electrical display. Several places were struck, and one or two persons seriously injured.

Mrs. Bowman, of the Oxford hotel, and Mrs. R. N. Scott, the proprietor of the Chemong 'Bus Line, who was taking luncheon at the Oxford, were standing at the bar a few minutes before one o'clock, Mr. Scott waiting for a north-bound car, which was seen in the distance.

Mrs. Bowman was standing at the south window watching the storm and Mr. Scott stood a few paces behind her. Mrs. Bowman was resting her left arm which was bare above the elbow, upon the middle bar of the window sash, and a little pool of water that had been driven in doubtless set up the best of conditions for conducting the electric fluid. Suddenly a bright, gleaming flash of lightning came followed by

A TREMENDOUS CRASH.

Mrs. Bowman was struck and hurled back, taking several turns as she reeled back and was thrown against a partition about fifteen feet distant. The shock of striking the partition seemed to recover her from the effects of the lightning shock. In a few seconds after she was struck she noticed Mr. Scott lying face downward on the floor, he having fallen where he was struck down. Mrs. Bowman went to him and called upon him, but could get no reply. She shook him and placed her hand over the region of the heart, but being so dreadfully shaken up herself could not tell whether he was dead or alive. His body was as rigid as that of a dead man, and he was utterly unconscious. Greatly alarmed, for in addition with her own exciting experience she was alone, herself, Mr. Scott and the servant girl being all present in the house at the time. The girl was at once dispatched for assistance and

DR. GRAY WAS ON HAND

promptly and looked after Mr. Scott's condition. Meanwhile after about ten minutes unconsciousness he had come to his senses, and under Dr. Gray's attention was soon made certain that he was still alive. It does not appear that there are any marks upon him but he complains of a severe pain in the left temple. He was in bed at the Oxford at the time of writing, and will, it is thought, suffer no permanent serious effects. Mrs. Bowman, who was less severely shocked, still bears a visible token of the lightning's work. Where her left elbow rested upon the moist window sash is a livid blister. The electricity passed down her left side and came out at her shoe, without, however, producing any other mark than the blister mentiond. She says she experiences a strange feeling in the bones of her arm and the left side—a sort of frying sensation. Both herself and Mr. Scott had a tremendously close call, and what seems surprising is the fact that Mrs. Bowman, who apparently received the direct stroke of the lightning, was only in a state of whirling unconsciousness for a few seconds, while Mr. Scott, who stood some distance away, was so severely shocked that for about ten minutes he was, to all appearances, a dead man.

The same thunderbolt that visited Mrs. Bowman and Mr. Scott also

STRUCK THE HOTEL BUILDING.

At the apex of the roof, a little south of the middle, a patch of shingles about a yard square in area is torn up and many shingles scattered in all directions. This blow was evidently a richochet, for the lightning seemed to only eat out a gigantic mouthful of shingles and pass on without going through the rest of building.

The whole air seemed charged with electricity. A street car for which Mr. Scott had been waiting was approaching the track from the south when the big flash everybody is talking about came. The switch at the power house was thrown off, the car came to a dead stop, and the lights in the bar of the Oxford House were also put out. The lights in other street cars on other tracks were also put out and several residents tell of the shocks experienced.

MINOR FREAKS OF THE LIGHTNING.

The lightning also did considerable damage and created no end of panic amongst the citizens.

The residence of Wm. Eyres, Antrim street, was struck by lightning at about the same time as the Oxford House and other places. The electric bolt struck the chimney on the west side of the house, passed down into a bedroom and thence down into the dining room, and split up and splintered the floor, ripping up the carpet and passed out the front door, which was open at the time very fortunately without seriously injuring any of the inmates beyond the momentary stunning of the inmates of the dining room, who were taking dinner at the time. The carpet was set on fire, but easily put out.

The lighting rod on Mr. Meldrum's stables was struck, and for a wonder carried off the lightning without any serious results.

The wires that supply light to the Oriental hotel were struck, and a sharp report like a pistol shot startled the inmates of the office simultaneously with the extinction of the lights which, owing to the darkness that accompanied the storm, were lighted.

The lightning also struck the electric wires at Mr. T. E. Bradburn's residence, putting out the lights, and passed down in the corner and out alongside a stove pipe

This was one of the severest electrical storms experienced in years. Persons claimed that they could hear the electricity spluttering and hissing about sheds where they took refuge and see balls of livid fire rolling along the ground.

A TOUR OF ONTARIO.

An English Party Taking in Ontario—Well Pleased With the Country.

Mr. M. H. Tape, builder and contractor, of "The Elms," Woodland Place, Penarth by Cardiff, Wales, accompanied by two daughters, and his nephew, Mr. B. T. Tape, are in town to-day. They are making a tour of Ontario, with headquarters at Port Hope, where Mr. Tape's brother, Mr. Jas. Tape, also contractor and builder, resides. Mr. Tape, who is, in portly physical proportions and bluff geniality, a typical John Bull, is greatly pleased with what he has seen, and though, as he expresses it, a "Salisbury man," he bore testimony to the very great popularity Sir Wilfrid Laurier achieved in the old country, and to the increased interest in Canada developed in England by his visit. Mr. Tape and party took the round trip of the lakes yesterday and is delighted with what he saw. He says he never saw finer water scenery, though his home is near some famous watering places in Wales. It seems this Jubilee year we are just becoming acquainted with our British cousins and the more we see of them, especially as represented by such solid types as Mr. Tape and his party, the more we admire and respect them. We may hereafter expect to see more British tourists visiting Canada than ever before.

Nothing Hunts Out Corns

Like tight boots. A sure, certain and painless remedy is found in Putnam's Corn Extractor, which removes the worst corns in twenty-four hours.

LAST MONTH OF SUMMER.

Have you had a finger in our pie? There were many plums in our Summer Clearing Sale when we started it a few weeks ago, and there are still good pickings left. Now during the last month of summer, wise shoppers wont need to be reminded of the old proverb about the Early Worm. Fearless Price-Cutting has attracted buyers eager to share in the Bargains.

All our big or our little lots must move out, because FALL GOODS will soon be rushing in. After seven months of busy trade in a large store like this, large quantities of Broken Stock are left, which must be disposed of, no matter what the Sacrifice :—

Fancy Souveniers With Views of Peterborough :--

—Jewel Cases with views of Peterborough.

RICHARD HALL & SON

130-134 SIMCOE STREET.

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c

TUESDAY, AUGUST 10, 1897.

STONY LAKE.

The Sunday Services—The Coming Coming Concert—The American Visitors.

The Sunday service held at the pavilion Sunday morning was again a delightful service. Rev. Dr. Lindsay, of Pittsburg, Penn., delivered a sermon, which was charming as it was interesting and instructive. The pavilion was crowded, about 100 people finding seats on the adjoining ground. People are lamenting that the structure was not more liberally devised, for it is evidently quite too small.

The camp fire service at Big Otter Island at night was also largely attended. Anyone noticing the large attendance at these services will certainly conclude that Canadians are a church-going people.

The fishing—particularly for bass—has been this season exceptionally good, and everyone is happy at his success. The lake was never more beautiful, as the frequent rains have kept bright the leafy verdure and kept down destructive fires.

Last Sunday forty bicycles were counted at McCracken's Landing Hotel. The owners were not all at the Sunday service. Perhaps tired.

This year there are more Americans at the lake than usual—mostly people who come for the quiet rest and pleasant outing and good fishing. If the fishing continued as good as it is this year it would be all right but one would naturally expect a depletion of the finny tribe—if this does occur there must be a hatchery established, for the food supply is too important to be overlooked. The Ontario Government and the County Council will be looked to for improving and maintaining this great source of wealth and pleasure.

Stony Lake concert and at home on Thursday night next, the most brilliant social function ever held at the lake will come off at the pavilion. There happens to be an unusual amount of musical ability there at present, and all have heartily entered into the proposed concert. Miss Vair, of Peterborough, Miss Hendren, of Lakefield, Mrs. Begg, of Toronto, Mr. Richardson, of Whitby, Mr. A. L. Davis, and a number of others are on the programme. Mr. LeBrun has kindly loaned his fine piano, and a most accomplished pianist, who is a guest at his house, has kindly consented to assist. All canoes and boats come illuminated. Instead of charging a fixed sum the managers trust to the liberality of the audience for such a liberal collection as will enable them to purchase an organ for the Sunday service. A large number of townspeople are going out to the concert as the young people hold an "at home" immediately after the concert.

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

THE THUNDERSTORM.

A Big Downpour—Sewer Gullies Again Blocked—Cellars Flooded.

Everybody knows how the rain came down about one o'clock. Of course we had the usual flood on George street, on account of the sewer gullies going on strike. The cellars of Messrs. H. S. Macdonald and J. D. Tully were flooded badly by the water backed up. It is doubtful whether the sewer gullies have been cleaned out this summer. We pay $20,000 for sewers on George street and allow merchants and others to sweep and throw litter on the street and in a few minutes we have the sewers blocked up with this paper, the streets overflow and merchants have their cellars flooded and suffer great loss and inconvenience. The dampness remains for months, moulding and injuring articles stored in the cellars. Why don't the corporation authorities get up once in a while in the morning right side up? At the corner of Hunter and Stewart streets the culvert entrance was blocked up with rubbish allowed to be thrown on the streets, largely composed of weeds cut down and left where they lay by corporation labourers. The water not being able to pass the culvert, guttered its way diagonally across the street flooding the walks and flowing over an adjacent lawn. We spend money galore to get improvements and then by neglect make it useless.

BELLEVILLE POSTOFFICE STAFF.

The Government's Decision That it will be Curtailed has Been Announced.

Changes in the staff of Belleville postoffice have been, says the Sun, expected by the public ever since the general election. The announcement that they will now be made is therefore not at all surprising. A dispatch from Ottawa says: "An investigation has taken place into the Belleville postoffice, which in 1882 was made a city office, with a staff organized under the civil service act. Prior to that time the postmaster had an allowance of $3,770, of which $3,470 was ordinary salary based upon an estimated revenue of $15,581. The returns for the year ending June 30, 1897, show the revenue of the Belleville office to have been $17 519. The expense of maintaining the office under the old system would at present date be $3,900. Instead of this there is under the staff or civil service system an expense for salaries of $8.710, and $308 paid for contingent expenses, making a total of $9,079 as the expense for the year just ended. Deducting the rent of boxes, this amount is reduced to $8,147, against an amount which would now be payable under the old system of $3,900, or an excess of cost of $4,247. The postmaster general intends to restore the old system and to abolish the present extravagant and expensive one, retiring several of the officials for the purpose of effecting this saving of over $4,000 a year. Deducting the superannuation allowances of those who are to be retired, the saving will yet be over $3,000 a year, and in the course of time the allowances will terminate under the act and the full saving of between four and five thousand dollars be effected."

Dr. Chase Cures Backache.

Kidney trouble generally begins with a single pain in the back, and in time develops into Bright's Disease. People troubled with stricture, impediments, stoppage of water, or a frequent desire to urinate at night, will find Dr. Chase's Kidney-Liver Pills a blessing. Read the wonderful cures in another column. One pill is a dose, and if taken every other night will positively cure kidney trouble.

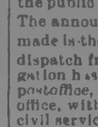
Fruit Arrivals.

Peaches in baskets, pears for pickling, black currants in basket or by the quart. A few raspberries still coming in. E. F. MASON & Co.

A Sad Accident.

While making some tea the other day in a fancy China teapot, the handle came off and spilled the contents. "I would not care so much for the teapot," she said, "but I haven't any more of Elliott's famous tea in the house. Be sure I send to Peterborough to-morrow for some. It's the best I can get for 25c. You should try it."

Novelties in Chairs.



Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round. Every new thing quick as it appears. d

Buyers Delighted.

You're missing the most interesting prices in first-class summer clothing if you don't attend H. LeBrun & Co's. August clearing sale. At the end of the season we throw profits to the winds, and although it may mean a loss we cannot afford to carry stock over from one season to another. Besides, preparation for receiving early fall stock is now being made and a complete clearance of all summer goods must be effected. Our choicest lines of light summer coats, vests and trousers, tweed suits, negligee shirts, underwear and neckwear at great bargains. Men's Tweed suits at $3 and $3.50. Balbriggan's double thread underwear, all sizes, 75c for the suit, worth $1.25 and $1.50. Natural wool underwear same price. Little prices all over the store to hurry on the clearance. You can bank on the goods being all right. H. LEBRUN & Co.

A TALK TO PETERBOROUGH GIRLS.

How to Get Beauty—A Clear Skin One of the Chief Ways—How to Get It.

Canadian women are beginning to see the value of exercise in the open air. Pure air makes pure blood. Pure blood means a healthy skin. A healthy glowing skin makes a woman good looking, even if her nose is as crooked as a ram's horn and her eyes look in opposite directions. Wash the skin in all its interior with pure blood and on its exterior with pure water and with clean teeth and an upright carriage, a girl is fit for a perfect picture of womanhood. Stooping is entirely due to keeping the eyes on the ground. Look on a level at some moving point straight ahead so as to keep the eyes up and you will be straight, your body well poised and able to endure exertion without fatigue. It is this habit of the eyes that makes a man or woman straight or stooped. Never mind the shoulders. Everything else will follow in due course. Then avoid sweets and pies as you would the plague. No stomach or rather liver can stand them. The bicycle has been a God-send in getting women out into the air. Remember, then, dear girls that beauty first consists in a fair, clean skin. That wanting, all else is useless. What lover wants to kiss a piece of animated leather? Beauty is said to be only skin deep, therefore the question of beauty should involve the means to keep the complexion clear and beaming with the flush of health—with the clean pure blood shining through. The girl who cykes for health should remember her mother. Leave your wheel often at the back door, and step inside and take the broom or the carpet sweeper or duster out of your mother's hand, and let her go out on the back lawn and practice on the wheel. Even if she doesn't learn to ride she will appreciate a loving act on the part of a daughter; which shows that she is not the most repulsive object the Lord permits to live—a selfish, undutiful and unthankful daughter. You can never repay a thousanth part of what your mother has done for you. You will think of and realize this when you become a mother yourself—when you have to lay up the wheel and take down the baby crib. Unless you do your duty to your mother you can't have a clear conscience, and a clear conscience is necessary to a clear complexion. Remember; the lesson is so plain that she who cykes may read.

BETA.

Aug. 10th.

THE CAVALRY AND THE JUBILEE

To the Editor of The Examiner:

SIR,—I have been amused lately as I read in your paper a few nonsensical articles which Mr. McWilliams is pleased to call letters. I refer to his writings about the action of "C" Troop on Jubilee day. In his last article he calls Capt. Johnston to account for quoting the regulations and orders for the army, saying the procession was not a military one, therefore these have no bearing on the case. I ask who was it that first treated this as a military affair and answer, J. B. McWilliams, when he pointed to the Queen's Jubilee procession in England. It seems to me Mr. McWilliams does not know what he is saying, but, like the school boy, he is writing just the same. In one of his articles he spoke of his military career under Col. Poole. No doubt it was brilliant, and nothing but his extreme modesty (which kept him from taking the part of honour in rear of the procession and made him take the front) prevented him from telling us of it.

He asks what action the troop has taken regarding the officer who asked for free dinners. It was a terrible offence, and I have no doubt he has been court-martialed and very likely shot. Now, sir, I am very much surprised yet highly pleased to find that we have in Mr McWilliams a military authority higher than the regulations and orders for the army, and also of the regulations and orders for the militia of Canada, and it strikes me rather forcibly that the British Empire and the Dominion of Canada in particular are suffering a great loss in having a man of his military ability in private life, and the loyal old town of Peterborough has been too slow in recognizing this ability and should wake up. I would suggest that a deputation of school boys wait upon him and see if he could not accept a commission in the "Boy's Brigade" until a vacancy occurs in some of the independent companies in the Algoma district, when he would have a chance to turn his great ability to use.

There is no way a man makes himself more ridiculous than by talking or writing on a subject which he knows nothing about; and nothing but a deep sense of duty prompts me to apprise Mr. McWilliams of this fact. Having discharged that duty I will offer no further advice to him or to any other man, who, knowing as little as he does, comes to his defence.

Thanking you, Mr. Editor, for space in your valuable paper, I remain,

Yours truly,

AN OFFICER OF 12 YEARS' EXPERIENCE.
Peterborough, Aug. 7th, 1897.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

The Junior Granites went up last night to the Nicholls Park to give the Victorias a game, and were successful in defeating them by one goal to nil. The teams lined up as follows:—

Granites.		*Victorias.*
Miller	goal	Armour
Whiteroft	point	Hays
Miller	cover point	Clancy
McFadden	1st defence	Seymore
Henry	2nd defence	Trickey
Graham	3rd defence	Kemp
Brabazon	centre	Brown
Smith	3rd home	Long
Pringle	2nd home	Simpson
Dolan	1st home	Long
Smith	outside home	Flaherty
	inside home	Ellis

Mr. D. Costello acted as referee and was very satisfactory.

The Times says that "The Port Hope lacrosse club is in correspondence with Berlin with a view to getting on a match with them, when they come east play in Peterborough." It would hardly be thought that the sensitive Port Hope lacrossists would play with a team so lost to self respect as to play with the Peterboroughs.

CRICKET.

The local cricket club expects to go to Campbellford for a game on Friday. It is to be hoped that there will not be the usual difficulty experienced in getting together a team for an out-of-town match.

Men's Tweed and Serge Pants, in several different patterns and colours regular price $1.00 to $1.50, Grafton & Co's Summer Clearing Sale Price 68c

Another Cheap Excursion to Hastings and Return, on Friday Aug 13th.

The Steamer City of Peterborough will leave the C.P.R. wharf for Hastings on Friday, Aug. 13th, weather permitting, at 7.30 a.m., calling at Peck's wharf, Ashburnham; Jubilee, Harwood and Idyl Wild. Return tickets to Hastings, 60c; Idyl Wild, 50c; Harwood, 50c; Jubilee, 40c.

Windsor Salt
Purest and Best for Table and Dairy
No adulteration. Never cakes.

THE A. C. A. CAMP.

The Most Successful Meet of the Series—The Arrivals—The Peterborough Representatives.

GANANOQUE, Aug. 7th, 1897.

Special to the Examiner.

This is the second day of the eighteenth annual meeting of the American Canoe Association and already one hundred and fifty canvas houses have been erected and during the writing of this letter more are being put up and so far the meet promises to be the most successful one since the organization of the Association, a circumstance which reflects great credit on our fair Dominion, as it is the Canadian division of the Association which is mainly responsible for its success.

When I arrived on Wednesday evening in camp I was greeted at the dock by Commodore J. N. McKendrick, of Galt, and soon after by Mr. Cecil Hodgman, of New York, who is an ardent canoeist and always first at the camps. The same evening Mrs. and Miss Sands, of New York, and Messrs. Carpenter, of Sing Sing, N.Y., arrived and on Friday the Rochester, Brooklyn and Goveneur clubs made their appearance and Grindstone Island, with its white clusters of tents, had the aspect of a huge military encampment. Late this afternoon three Peterborough gentlemen arrived and were received by the writer. They were Messrs. McNee, Montgomery and Allen, who has cruised down from the Bay of Quinte in Mr. McNee's yacht, the "Hustler." It was with universal regret that the members heard that Miss E. Pauline Johnston and Paul Bolter were not going to be in camp, the former owing to illness and the latter through pressing business engagements.

This is all the news there is at present, nothing of exciting interest having taken place, as members are all busy fitting up. You can look for a number of letters later on.—W.J.E.

P.S.—I forgot to mention that we have all got ravenous appetites, and we look forward to every meal with pleasure, as the mess arrangements are perfect under the supervision of Mr. D. McIlvenney, of Albany. The Rochester war canoe has arrived.

HAVELOCK HYMENEALS.

Havelock Standard.

A very pleasant event took place at the residence of Mr. Wm. Tiffin, of Colwell, on Wednesday, 28th of July, when his second eldest daughter, Agnes, was united in the holy bonds of matrimony, to Mr. Robt. Watson, of Havelock. The contracting parties were united by the Rev. C. Sheldon, pastor of the Barrie Baptist church. The bride was given away by her father. She was charmingly attired in cream silk, trimmed with ribbons and point lace, and carried a bouquet of white roses. Miss Emma Tiffin, sister of the bride, assisted her. She was handsomely dressed in cream serge, trimmed with white ribbon and lace and carried a bouquet of pink roses. The groom was supported by Mr. Jas. Watson. After the wedding ceremony a magnificent wedding breakfast was served. The table was nicely decorated with white roses and ferns. Mr. and Mrs. Watson will reside on Victoria street. The happy couple have the best wishes of their many friends. The following are a few of the guests present: Mr. and Mrs. John Watson, Havelock; Mr. and Mrs. McGinnis, Mr. A. Shibbald, Miss Ada Shibbald, and Miss Mary Bell, of Barrie; Mr. and Mrs. Thos. Dobson, Colwell; Mr. and Mrs. Geo. Tiffin, and Mrs. Cross, Sunnydale; Miss May Cross and Mr. Alf. Cross, Utopia; and Mrs. Ash, Toronto.

THE "EXAMINER" AT SUMMER RESORTS.

You Want

A Hammock,
A Novel,
A Magazine,
Any Sporting Goods,

You will get them for least money, at

Sailsbury's
372 GEORGE STREET.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—450 George Street.

DR. FOWLER'S EXT. OF WILD STRAWBERRY

BABY WAS CURED.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of diarrhœa after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. BOTT, Harlow, Ont.

THE HEAD MASTER

GENTLEMEN,—I have found great satisfaction in the use of Dr. Fowler's Extract of Wild Strawberry, and consider it invaluable in all cases of diarrhœa and summer complaint. It is a pleasure to me to recommend it to the public.

R. B. MASTERTON, Principal,
High School, River Charlo, N.B.

GOLD PRODUCTION OF THE WORLD.

Director Preston Has Evidently Counted Canadian as U. S. Product.

Washington, Aug. 7.—Mr. Preston, the director of the mint, estimates the gold production of the world for 1896 to have been $205,000,000, of which sum the United States contributed over $53,000,000. That of Canada is given as $2,500,000. The director estimates next year's Canadian product at $10,000,000.

Cornwall Lost Capitals.

Cornwall, Aug. 5. The Capitals and Cornwalls had been steadily fit to game in the championship series.

The Capital went to work with a rush and won the first game in a minute and a half, and the Ottawa men also captured the second game in the short time of six minutes. The third game was also taken by the Capitals in seven minutes.

In the fourth game the Cornwalls made a stubborn resistance, but Tommy Crown's aggregation showed great form, and won in twelve minutes and forty-five seconds. James broke one of Turner's fingers, and the game had to be stopped for a few minutes.

The fifth game was won by the Cornwalls in thirteen minutes, and the sixth as well in two and a half minutes. The score tells the story:

First—Capitals, 1½ mins.
Second—Capitals, 6 mins.
Third—Capitals, 7 mins.
Fourth—Capitals, 12 mins.
Fifth—Cornwall, 23 mins.
Sixth—Cornwall, 2½ mins.
Seventh—Cornwall, 3 mins.
Eighth—Cornwall, no time.
Ninth—Cornwall, no time.

The final bulletin says 5 to 4 in favor of Cornwall.

Shamrocks Defeat Toronto.

Montreal, Aug. 7.—The Shamrocks defeated the Torontos this afternoon by 4 games to 3, after one of the prettiest games of lacrosse ever witnessed in a Montreal field.

First—Torontos, Nolan, 11½ mins.
Second—Shamrocks, Danaher, 13 mins.
Third—Shamrocks, Tucker, 7½ mins.
Fourth—Torontos, Nolan, 1½ mins.
Fifth—Torontos, Nolan, 1 min.
Sixth—Shamrocks, Wells, 8½ mins.
Seventh—Shamrocks, Dade, 18½ mins.

A Bold Robbery at Ottawa

Ottawa, Aug. 8.—Louis Mercier, a Hintonburg resident, was beaten to insensibility in the Chaudiere lumber piles last night and robbed of a sum of money.

A man may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the whites of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

Paris, Ont.

To remove worms of all kinds from children or adults, Dr. Low's Worm Syrup is a safe and sure remedy.

MRS. STERNAMAN IN CANADA.

The Alleged Murderess Brought Over From Buffalo and Landed in Jail at Cayuga.

Buffalo, Aug. 7.—Mrs. Olive A. Sternaman, who is charged with having murdered her husband, smiled and nodded farewell to the officials at the Erie County Jail yesterday, and then departed for her new prison home at Cayuga, Canada, where her trial will take place in a few weeks. Had it not been for the fact that she was gowned in deepest black, a stranger might have supposed that this queer woman was just about to start on her bridal tour. During the ten or fifteen minutes that she was waiting in the office of the jail, while the preparations for her departure were being made, her face was continually wreathed in smiles, and she chatted with hysteric pleasantness to Matron Holladay, who could not keep the tears from her eyes or the tremor from her voice.

It was a strange scene, that farewell at the jail yesterday. There was an odd mingling of the elements of a tragedy and the hope of youth; the outward show of charity and human interest and the relentless prosecution of an unbending law in it all. Mrs. Sternaman's cheeks were stained with a bright flush, born either of health or excitement, it was impossible to tell which. Her eyes sparkled and her white teeth showed as she smiled and laughed and told the matron how happy she was and how anxious to make the journey to the scene of her alleged crime. In fact, so completely was she transformed that her thin, sharp face and features really became attractive and she looked the happy, innocent woman, and not the scheming, cold-blooded assassin that the law claims her to be.

The matron's lips quivered, and her voice almost failed her as she clung to this strange woman's hand and seemed to strive to impart to the prisoner some of her hope and confidence and assure her of an abiding faith in her innocence. J. W. Murray, chief inspector of the Criminal Investigation Department of the Province of Ontario, stood a few feet away, watching them.

"And we can convict her," said Chief Murray. "I have been working on this case for over a year, and I've caught her in a net of evidence from which she cannot escape."

It was a few minutes after 4 o'clock yesterday afternoon when Chief Murray and Deputy Marshal Cavanaugh arrived at the jail with a carriage. They had hardly entered the office, when Mrs. Sternaman came down the iron stairs prepared for her journey. Her long confinement, since Oct. 30, 1896, evidently had not had a detrimental effect upon her health. Her cheeks were red and her eyes clear and bright and she seemed to be in a particularly cheerful and sanguine mood. She was dressed in deep mourning from head to foot, with the exception that her veil was small, just sufficient to cover her face and black bonnet. She carried a small satchel, a large bundle, several boxes, a large bunch of sweet peas and three or four books, among which was a small Bible.

"I tried not to have much baggage," she said, as she placed her bundles on the table, "but it seemed as if everything was worth taking."

Chief Murray removed his hat, and he and the prisoner shook hands cordially, while both smiled a welcome. Then, while Deputy Chief Gilbert was carefully reading the extradition papers which Chief Murray had brought with him, Mrs. Sternaman chatted pleasantly and without reserve to the kind-hearted matron.

"You have been very kind to me, Mrs. Holladay," she said, "and I will never forget you, no matter what happens. I'll miss you very much, I know, but you can't imagine how delighted I am to leave this place and face my accusers. You need not worry about me, I am innocent, and I believe that I will not be made to suffer much longer."

Then Mrs. Sternaman, as if to forget her awful position and make her departure as pleasant and bright as possible, quickly changed the subject, talked about her ride on the cars and her appearance and dress, and expressed the hope that her flowers would not wilt before she reached her destination.

By this time the release of the prisoner had been signed and all was ready. Mrs. Sternaman shook hands with all the jail officials present, smilingly said good-bye and disappeared. All the way to the railroad station she chatted and laughed with her escort as if it was merely a drive to the opera or the beginning of a pleasure trip. It was impossible to associate this laughing, happy, unreserved woman with the commission of a horrible crime.

The Canadian Hawkshaw watched his prisoner as if he half feared she possessed some occult power and would sail away before his very eyes, and a wonderful expression of relief settled on his face as they boarded the 5 o'clock train for the north over the Michigan Central road. There was no one at the station to see Mrs. Sternaman off, and hardly a soul outside of a few railroad officials knew that the smiling woman in black was an alleged murderess.

Mrs. Sternaman is charged with poisoning her husband with arsenic. He died at Cayuga, Haldimand county, in the Province of Ontario, over a year ago. An autopsy was held and arsenic was found in the stomach. An investigation revealed the fact that Mrs. Sternaman's first husband had died about a year before after an illness exactly similar to that preceding the death of her second husband at Cayuga. Mrs. Sternaman and her husband had been at Cayuga just eight days before the latter died, after which she started immediately for the States. The Canadian officials charged her with murder and she was arrested in Buffalo. Ever since that time the Canadian Government has been making every possible effort to secure her extradition, so that she might be brought to trial. But until a few weeks ago these efforts were in vain. Then the Federal Government decided to turn her over to the Canadian courts.

Arrival at Cayuga.

Cayuga, Ont., Aug. 7.—Mrs. Sternaman, the alleged poisoner of her husband, who has been fighting extradition proceedings in the United States for nearly a year through her attorneys at Buffalo, has at last given up the fight and was brought here this afternoon by Chief Provincial Detective Murray. Detective Murray brought her as far as Canfield Junction, where he turned Mrs. Sternaman over to Chief Constable Farrell of Cayuga township. Mrs. Sternaman was dressed in black and wore a veil. She walked from the station to the county jail, which is about 200 yards from the station. She appears to have great courage. Her trial will not take place until November.

YOUNG FARMER KILLED.

A Bridge Broke and Wm. Jones Was Crushed Under a Boiler.

Wiarton, Ont., Aug. 8.—William Jones, a young farmer of Keppel, was killed instantly last night. He was moving a steam boiler, and crossing over a small bridge one of the stringers supporting the planking gave way, throwing the wagon and boiler into the bed of the creek. The boiler fell on him. Death was almost instantaneous. He was 26 years old and just about to be married.

TORONTO MARKETS

Flour—The market is quiet, but the feeling generally firm. Straight rollers quoted at $3.35 to $3.65 west.

Bran—Prices are unchanged at $8 west for bran and $9 for shorts. Bran is quoted here at $10.

Wheat—The demand continues fair for wheat, while the offerings are small. Sales of new white were made today at 72c west, and old is quoted at 73c. Red winter is quoted at 71c west. No. 1 Manitoba hard easier, with sales at 81c Fort William. No. 2 quoted at 78c to 79c Fort William.

Buckwheat—The demand is limited, and prices nominal.

Barley—The market is quiet, with no business reported.

Oats—The market is steady. There were sales today of white at 23c west, and mixed are quoted at 22½ west.

Peas—The market is quiet and prices rule firm. Sales at 44c to 44½c west.

Oatmeal—The market is quiet and prices steady at $3.10 to $3.20 for cars on track.

Corn—The demand is safe and prices steady, there being sales outside at 27c west.

Rye—The market is quiet. New is quoted at 35c west.

BRITISH MARKETS.

Liverpool, Aug. 7.—No. 1 Northern wheat, 7s 0d to 7s 1d; No. 1 Cal., 7s 2d to 7s 3d; red wheat, 6s 10½d to 6s 11d; peas, 4s 6d; corn, 2s 11d; pork, 46s 3d for fine western; lard, 23s 0d; bacon, heavy, l.c., 28s 0d; do., light, 27s 0d; do., short cut, 27s 0d; tallow, 18s 0d; cheese, 38s 6d.

London—Close—Wheat off coast firm; on passage nominally unchanged. Maize on passage rather easier.

Liverpool—Wheat futures lower at 6s 6½d for Sept. and 6s 5d for Oct. and Dec. Maize also weaker at 2s 10¾d for Aug., 2s 11½d for Sept., 3s 0½d for Oct. and 3s 2d for Dec. Flour 6d higher at 22s 3d.

Mad a Son in Montreal.

Grand Rapids, Mich., Aug. 8.—It is learned that Mrs. H. A. Dally, who was shot by her husband at Jenison on Friday, had a son in Montreal. She lived a secluded life at Jenison, had few friends and no confidants. When Dally married her she was known as Mrs. Hattie Newton, a Chicago widow.

TEN YEARS TROUBLED

With Liver Complaint and Dyspepsia—Suffered Greatly and Found No Relief in the Scores of Medicines Prescribed.

South American Nervine Was Recommended, and Before Half a Bottle Was Taken Relief Came.

Have Since Improved Rapidly, and Am Now Completely Cured—So Says Mr. David Reid, of Chesley, Ont.

What ills come to humanity from a disordered liver! Henry Ward Beecher has said that it was impossible for a man to hold correct spiritual views if his liver was out of order. The liver is so important a part of the mechanism of man that when it ceases to work with ease the whole man is unable to do his work aright. Can we not appeal to thousands, nay, tens of thousands, for a verification of this fact? Certainly it is, that Mr. David Reid, of Chesley, Ont., felt that the enjoyment of life had been taken from him, through the unhealthy condition of his liver. For ten years he says he was troubled with liver complaint and dyspepsia. Employing his own language: "At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and being worse than usual, I decided as a final resort to try South American Nervine, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodeve, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I can conscientiously recommend South American Nervine to any suffering from dyspepsia or liver complaint." This is Mr. Reid's story as he tells it in his own words. Were it thought necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nervine. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, sick headaches, that sap all the effort out of man or woman, Nervine measures to the necessities of the case. It is a great medicine and thousands to-day in Canada are happier and healthier men and women, because of its discovery. There is no great secret about it, and yet there is an important secret. It operates on the nerve centers of the system from which emanate all life and healthfulness, or if disordered, sickness, even death. Nervine strikes promptly at the nerve centers, hence, as with Mr. Reid, where ten years' use of other medicines had done no good, less than a bottle of Nervine brought about encouraging results, and a few bottles cured.

A. STEVENSON, Secretary.

The Greeks were physically perfect and beautiful because they were healthy. The man who suffers from ill-health cannot be physically robust and manly. The woman who is sickly cannot be beautiful and womanly. Most all forms of ill-health have their inception in disorders of the digestion. When the digestion is bad the blood becomes impure, and is imperfectly supplied with the food-elements that build up new and healthy tissues, and tear down, and carry away those that are inert and half-dead. The nerves are not rebuilt from day to day with new, vigorous, active fibers. Every organ, tissue, muscle and nerve in the body is half famished for healthy nutriment. Almost any disease in the category of human ills may be traced as a result of this condition. Most frequently it is the most deadly of disorders—consumption. Sometimes it is some other wasting disease. Again, it may be scrofula or some skin disease.

There is a sure preventive and remedy for these conditions and maladies. It is Dr. Pierce's Golden Medical Discovery. It corrects all disorders of the digestion. It restores the lost or failing appetite and invigorates the liver. It fills the arteries with the pure, rich, red blood of health. It builds new, firm flesh, healthy, active nerve fibers, and strong elastic muscles. It cures 98 per cent. of all cases of consumption, and wasting diseases. It cures nervous prostration. Druggists sell it.

The man who is too lazy or neglectful to take an occasional dose of medicine to ward off the evil effects of constipation deserves to die. And he will surely get his deserts, for constipation is the first cause of much sickness. Dr. Pierce's Pleasant Pellets cure constipation. They never gripe. One little "Pellet" is a gentle laxative, and two a mild cathartic. All good druggists sell them. No other pills are as good.

A PITCHING MACHINE.

PROF. HINTON'S AUTOMATIC BASE-BALL DELIVERER.

The Ingenious Device of a Princeton Professor Which Delivers the Sphere at Any Time and in Any Curve—How Curves Are Made.

Although the mechanical pitcher invented by Professor C. H. Hinton of Princeton University is not likely to immediately bring about a reduction in the salaries of famous twirlers of the sphere, nor dispense with their services altogether, there are those who believe that the mechanical pitcher has many points of advantage. A test was recently made at Princeton in three games played on the college ball field, and the machine is said to have given satisfaction, although there was some delay caused by the necessity of loading the cannon. The ball was discharged by the aid of electricity, and there was no difficulty in regulating the speed of the ball nor in causing it to curve or drop as if thrown by a human being.

Professor Hinton has written a description of his machine and its mode of operation for The Scientific American. In it he says:

"The problem of producing by inanimate mechanism the equivalent of a ball pitched by the human hand divides itself into three parts.

"First, the projection of a ball so that its direction is accurate.

"Secondly, the imparting to a ball so delivered a spin or rotation about an axis which does not coincide with the direction of flight, but lies at right angles to it.

"Thirdly, the providing an equivalent or substitute for the motion of the pitcher's arm preparatory to the delivery of the ball.

"The most natural plan to pursue in seeking to reproduce a pitched ball by inanimate mechanical means is to construct a catapult. An instrument of this kind capable of projecting a fairly

GUN FOR DELIVERING A CURVED BALL.

accurate straight ball is not difficult to make, but when it comes to combining a rotator with the projecting apparatus the problem assumes a different aspect. And even if a solution were arrived at the construction would, for the special purpose for which it is designed, be impracticable, on account of its cumbrous nature.

"The moving parts and guides, must, in their weight and friction, far exceed the inertia of the ball, and a source of energy vastly disproportioned to the effect produced would be a relic.

"Such, at least, were the considerations which led me to abandon the construction of a catapult pitcher and to adopt the expansive force of gunpowder acting behind the ball in a tube as the source of projectile force.

"With the simple and satisfactory means, however, of producing rotation described below, a catapult form of pitcher does not seem to be at all impossible.

"Adopting powder and a tube, it is by no means the case that a true and accurate ball can be produced without further thought.

"If the powder is ignited in a small chamber below the ball the most varied effects follow. The ball sometimes fails to travel its course, sometimes flies with prodigious velocity. When a short barrel is used the results are better, but the most absolute accuracy in loading and uniformity in wadding are requisite. The whole condition, however, changes as soon as a long tube of small caliber is traversed by the exploding powder before it emerges into the large barrel in which the ball is held.

"With such an arrangement the difficulty of sending one ball after another with a uniform velocity disappears. In the experimental model and in the light gun, illustrated herewith, a tube of 38-100-inch internal diameter and of a length of about 4 feet is used. The results would probably be still better and more uniform with a tube of 30 caliber, the length being the same.

"It is certain that a tube of 44 caliber, even though a little longer, is comparatively extremely unreliable. The tube may be straight or coiled. If coiled a slightly heavier charge is needed. The reasons of the effectiveness of the long tube appear to be two: In a long tube the complete combustion of the powder is secured and the maximum amount of gas in each case produced. With such a tube also the delivery of the expanding gases on the ball is affected without shock. A baseball is elastic. If an elastic body is hit a violent blow when confined in a tube its lateral expansion causes it to jam, and when released from its momentary arrestation the gases heaped up behind it urge it on with great velocity.

"A straight ball of fairly uniform velocity being thus obtained, the rotation round an axis perpendicular to the line of flight is obtained by prolonging the inner surface of the tube in two separate lines widely distant from each other, so that when the ball leaves the barrel it is touched in two spots and retarded by the prolongation of the tube. This is effected by means of 'fingers,' thin plates of metal, which, fastened to a ring movable round the muzzle of the gun, project over the thickness of the barrel, so that their edges are in a line with the interior of the tube.

"These fingers are curved and covered with rubber. The ball, on leaving the barrel, owing to their curvature presses itself against them more and more. Owing to the nature of the substance with which they are covered the ball slips very little. It tends to roll and roll, not on a full circumference, but on two small circles near the poles. It thus obtains a velocity of spin greater than that which it would have if it traversed its course rolling against a surface instead of flying through the air. This spin gives it the curved path.

"The cap which carries the fingers can be turned round on the muzzle of the gun so that any required curve can be obtained.

"The ball curves in that direction towards which the front is moving. Hence, if, looking along the gun, the fingers are put on the right hand side, the curve will be an incurve, that is, toward the observer's right hand.

"With fingers seven inches long, slightly curved, and covered with one-eighth inch rubber, the gun will send balls varying from right to left of a mark by only a few inches, and making a curve of nine or ten inches deviation from a straight line.

"With fingers more strongly curved the deviation of the ball is greater, but the accuracy is impaired. Probably with longer fingers of slight curvature a greater deviation could be obtained without loss of accuracy.

"In order to obviate dangerous velocities, and thus make the gun perfectly safe, the breech, which closes the barrel immediately behind the tube for the delivery of the expanding gases, is made movable. It fits easily in the barrel and the necessary obstruction to the powder gas is secured by means of packing. The breech is pressed forward by a spring coiled in the part of the barrel behind it. The spring is so regulated as to press on the movable breech with the same force that the powder does when driving the ball at such a rate as to traverse sixty feet in six-tenths of a second, that being the speed at which a ball of fair velocity is pitched. If, for any cause, the pressure in the barrel becomes greater than that necessary to produce this velocity, the breech is pressed back and an aperture in the side of the gun is thereby made accessible to the gases, and thus the pressure on the ball is relieved.

"Without the movable breech a ball which fits tightly in the barrel is a possible source of danger, on account of the high velocity with which it is propelled. With it a tightly fitting ball is driven out more slowly than one which fits properly.

"Variation of speed without a change of cartridge can be obtained by shifting the position of the breech. If it is drawn back so as to leave a space behind the ball a windage is provided, which moderates the speed.

"There are difficulties, however, of a psychologic nature in the way of the successful use of the gun as hitherto described. The ball comes too suddenly: there is nothing to compensate for the motion of the pitcher's arms. As a substitute signals of various kinds have been tried, but an effective plan and the one at present adopted is to dispense with the necessity of signals altogether. By means of a very simple electrical arrangement the batter fires the gun himself. When throwing his foot forward to take the position for striking he presses on a plate, breaks an electric current and so releases a spring, which pulls the trigger. He thus, after a few trials, is able to know the exact instant at which the ball will appear at the mouth of the gun, catches it with the eye at the moment of its emergence and finds no difficulty in following its course. The problem of delivery is thus altogether eliminated and a practice ball is sent which can be judged entirely by its course in the air. For general use a trigger must be devised which gives a short but definite interval between the pull on the catch and the explosion of the cartridge. With such a trigger the batter can accustom himself to the delivery of the gun when fired by another than himself as easily as to the delivery of a pitcher.

"The fingers form the essential features of the gun, and they, it may be observed, can be used with any form of projector. A catapult is in the process of construction in which a rigid arm moved by springs is suddenly arrested. The arm carries the ball in a holder from which project two curved rods. At the moment of arrestation the rods are momentarily stationary, the ball then, rolling them along as exactly as in the case of the gun, acquires a spinning motion."

On account of portability, ease of manipulation and handiness, the gun appears to be the preferable form, and it remains to be seen whether it will supply the need which exists in baseball—the need of a generous supply of curved balls for practice.

The Human Life Line.

Starting from the base of the big toe there is a distinct line, says an exchange. This is the life line. In one foot it will curve along until it terminates under the instep far toward the lower base of the little toe. This means long life. If broken in the hollow of the foot it denotes a sickness at middle age, and if it terminates in the hollow of the foot it means a short life. This line is the most interesting one on the foot. The experiments that have been conducted lately have proved this to be an almost unfailing reading of longevity.

Tired, Nervous, Sleepless

Men and women — how gratefully they write about Hood's Sarsaparilla. Once helpless and discouraged, having lost all faith in medicines, now in good health and "able to do my work," because Hood's Sarsaparilla has power to enrich and purify the blood and make weak strong — this is the experience of a host of people.

Hood's Pills are the best family cathartic and liver medicine. Gentle, reliable, sure.

Wrong Heart Action.

Wrong action of the heart causes nervousness, nervous dyspepsia, shortness of breath and other distressing symptoms. Mr. Samuel Yelland, of London, Ont., was cured of these troubles by taking Milburn's Heart and Nerve Pills. Mr. Yelland says: "They are a remarkable medicine, and I have not been troubled in the least since taking them."

Captain Sweeney, U. S. A., San Diego Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 389 George Street.

Sick headache and constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

LAXA-LIVER PILLS

CURE

BILIOUSNESS
CONSTIPATION
SICK HEADACHE
AND ALL LIVER TROUBLES

AS a laxative, one pill acts perfectly, and if a stronger action is desired a cathartic effect is produced by two pills. In obstinate cases, where a purgative is necessary, three pills will be found sufficient. These pills leave no unpleasant after effect.

One pill taken each night during thirty days will cure constipation.

PRICE 25C. OR 5 FOR $1.00

The Only Drop That Good— **COAL**

Will take this summer is when it is dumped at your door. Prices are as low as they will be until the winter schedule; and the superior quality of our stock should induce provident buyers to lay in a good supply right now. Quality and weight always guaranteed.

Scott & Hogg

Dealers in Reliable Coal of all sizes.

Office and Yard—At the Elevator, west of railway track, Ashburnham. 'Phone 204.

THE NEW

PATENT SLEEPER HYGIENIC INSOLE

IS MADE

Of two layers of 15 oz. edge duck (upon which the foot rests) under which is embedded a layer of pure cork

FOR THE PURPOSE OF

Keeping the foot warm, dry and comfortable.

IT HAS NO

Nails, tacks or heavy waxed threads to hurt the foot,

BUT IS A

Goodyear welted high-class self-selling comfortable hygienic boot for Ladies and Gentlemen.

IT IS GUARANTEED

To wear well, to be squeakless and to be flexible, easy, comfortable, dry and warm.

IT IS MADE

Only by the J. D. King Co., Ltd., Toronto, in their high-class boots and shoes for Ladies or Gentlemen, in all shapes, widths and weights,

AND SOLD

by all principal Shoe dealers

MRS. G. VINETTE'S HAIR PREPARATION

Cures Baldness, Gray Hair, Irritation of Scalp, Eczema, Removes Dandruff, Restores Gray Hair to Natural Color, Stops Falling Out, &c. Guarantee in all cases. References if required.

RESIDENCE—513 Reid St., north of Wm. Hamilton Mfg Co's Works, Peterborough.

PREPARE IN TWO MINUTES

PURE GOLD JELLY

Prepared in finely powdered form from the finest quality calf's foot jelly—crystalized and ground with highest grade of pure fruit flavors—Lemon—Orange—Raspberry—Grape Fruit—Pineapple—Strawberry—Vanilla.

THE STEAMER

"North Star"

—:o:—

DAILY TRIPS TO IDYL WYLD.

The "North Star" makes daily trips to Idyl Wyld and return, leaving C.P.R. Wharf at 9 a.m., calling at Gore's Landing 11.30. Harwood 12, arriving at Idyl Wyld at 12.30. Return fare, including dinner at Idyl Wyld, only 50 cents.

On Saturday the steamer leaves Peterborough at 2 p.m., and on arrival at Idyl Wyld supper is included. Returning the steamer will leave at 4.30, arriving at Peterborough at 7.30.

On WEDNESDAYS and FRIDAYS the steamer will take the excursionists to witness the SERPENTINE MOUNDS on Roache's Point, Rice Lake, free of charge. These remarkable evidences of the pre-historic occupation of the country by a people far anterior to the Indian, will form one of the most interesting attractions of the "North Star" Idyl Wyld trips.

B. M. EDEN, Master.

W. BUNTON, G.T.R. Ticket Agent, Peterborough. Telephone 250.

THE NEW

STEAMER SUNBEAM

Will run until further notice from Lakefield to Stony Lake every Monday, Thursday and Saturday, on the arrival of the 7 p.m. train from Peterborough.

On Wednesdays the Sunbeam will run a trip from Lakefield to Chemong, leaving Lakefield on the arrival of the 9 a.m. train. Returning will leave Chemong at 3.30 on Thursday morning, arriving in Lakefield to connect with the 4.15 p.m. train.

In connection with these round trips, Busses will leave Chemong on arrival of boat, on Wednesday evening, and on Thursday morning will leave Post Office corner, Peterborough, at 7.30 for Chemong, connecting with boat for Lakefield. For particulars, apply at R. H. Leary's Livery Office, 385 Water Street.

On all other days the Sunbeam will be open for charter for excursions, &c., at reasonable rates.

This fast, new steamer has been specially built to accommodate tourists and excursionists on the beautiful chain of waters of Chemong, Buckhorn, Lovesick, Stony, Clear and Katchewanooka Lakes, and will be found to combine in the highest degree safety, comfort and speed.

Tickets can be procured from W. BUNTON, City Agent, G. T. R.

For further particulars apply to

WHITE & GRYLLS, Lakefield, Ont.
Or WARREN TRICKEY, Agent Peterborough

THE NEW STEAMER

MAJESTIC

Will meet the G. T. R. afternoon train at Lakefield from Monday, Aug. 2nd to Saturday, 7th, and each alternate week during the season. Other weeks will connect with the morning train.

Special Saturday night trips.

P. P. YOUNG, Proprietor. WM. SCOLLARD, Master.

THE STEAMER

"Golden City"

Will meet G. T. R. morning train at Lakefield from Monday, Aug. 2nd, to Saturday 7th, and each alternate week during the season. Other weeks will connect with the afternoon train.

CAPT. REYNOLDS, Master.

Str. ECLIPSE

(CAPTAIN C. W. CALCUTT)

Capacity for 100 Passengers.

Until further notice, will run every Saturday morning from Harwood to Peterborough, and return.

This Palace Steamer will make two trips, leaving Harwood at 6.30 a.m.; Jubilee at 6.45 a.m.; calling at all points on the river, arriving in Peterborough at 9 o'clock, in good time for market. Returning will leave Peterborough at 3 p.m. Returning again to Peterborough, leaving Harwood at 6 p.m. arriving at Peterborough at 8.30.

Connecting with all trains at Peterborough.

ROUND TRIP TICKETS 50 cents.

On all other days this comfortable and fast Steamer may chartered for Excursion Parties from any point between Hastings and Peterborough. The Palace Scow attached for dancing when required. Apply to

W. F. EDMISON, Harwood. H. CALCUTT, Peterborough.

GORE'S LANDING AND PETERBOROUGH.

THE STEAMER "BEAVER"

Will ply between Harwood, Gore's Landing and Peterborough, every Saturday, leaving Harwood at 6.30 a.m., Gore's Landing at 7 a.m., arriving at Peterborough at 10 a.m., connecting with trains from the north at noon, and east and west trains, and leaving Peterborough on the return trip at 3.45 p.m., sharp.

On other days in the week the Beaver may be chartered for Excursion Parties at reasonable rates. THOS. HARRIS, Proprietor Gore's Landing P. O.

Idyl Wyld

SUMMER RESORT

Rice Lake, Ontario.

A. B. SPELLMAN, (of the Clarendon House, Hastings) Lessee.

Boats and mail daily. Good fishing all along the Island shore and Lake. Boating, Bathing, out-door games and other recreations.

Tables and seats for Pic-nic Parties and excursionists all over the grounds in shaded groves.

Special rates for families and for season.

Rooms may be secured in advance by letter or telegram. Address Idyl Wyld, Harwood, P. O.

Keep up hope. There are thousands of cases where recovery from Consumption has been complete. Plenty of fresh air and a well-nourished body will check the progress of the disease. Nutritious foods are well in their way, but the best food of all is Cod-liver Oil. When partly digested, as in Scott's Emulsion, it does not disturb the stomach and the body secures the whole benefit of the amount taken. If you want to read more about it let us send you a book.

SCOTT & BOWNE, Belleville, Ont.

ONE OF THE GREAT

INVENTIONS OF THE AGE.

BERNARD TRAINOR'S Monster

WOOD AND COAL FIRE KINDLER.

Guaranteed to keep a full and constant blaze over 18 inches high for ten minutes. No kindling wood required. It will kindle two fires each time, even though the wood be damp or green. Boils two quarts of water without fuel. I have flattering testimonials and carry them with me as vouchers from different residents and Business men of Almonte Pembroke, Arnprior, Ottawa, Renfrew, Smith's Falls, etc., who are using the kindler from one to three years, to certify that it is still in use and as good as ever. These men recommend them to the public. With care every kindler is everlasting. I also manufacture a larger one which throws 4 times the heat of the smaller one, and that will of itself boil all small water required, which is a great convenience in the hot summer weather, and will without fail light any coal stove from under the grate, and is a magnificent fishing torch for spearing etc The kindler is used with a coal oil liquid and is safe in every form. One gallon of oil is sufficient to light one stove for one year This is cheap kindling wood. Price, 50c and $1.00.

Mr. Trainor, the inventor, is at Clancy's Peterborough House, Hunter street, and will make a thorough canvass of the town.

Town and County Rights for Sale. Good Live Agents Wanted.

THE CROP PROSPECTS.

The Mail and Empire.

Our crop report, amplified and revised in accordance with returns sent in within a day or two, follows up the prospect a week farther. In these later advices our correspondents adhere closely to the views they contributed to the report of last Saturday. Nothing has happened to cause them to alter materially their opinion of the outlook. The crop expectancy is represented to be as high as it appeared to be a week ago. In calculating it then the effects of the rain were taken into account. Upon a more deliberate judgment it now appears that these effects were not underestimated, though the statements of our observers showed them to be less serious than the public had been led to believe. After a week of fine weather it is now easier to get at the true condition of the crops as the result of the rain. It is evidently no worse than our first report showed it to be. In fact the idea to be gathered from the general run of this week's batch of advices, is that it is rather better. In some counties the loss from sprouted wheat will be considerable, but apparently in none will it be a very great proportion of the whole crop. From some districts, notably in Southwestern Ontario, as in Kent, Middlesex and Oxford, the injury done by the rain is reported to be insignificant. The two former counties seemed to have escaped the storm altogether. In two other great wheat counties the rain was almost harmless; that is, in Haldimand and Welland. Huron and Bruce were nearly as lucky. In all the counties named the yield has been exceptionally good, and as most of the crop will be saved, the farmers there have cause to be generally well satisfied. Where wheat has been injured by the rain its value of course will be depreciated. The quantity of low-grade wheat, much of it unfit for grinding, will be perhaps undesirably large, but it is not expected to make a great percentage of the crop. There will be a lot of good wheat if the harvest comes out as well as the returns anticipate. The latter accounts do not indicate that the quantity of hay caught by the rain and seriously damaged was large. Of both hay and wheat the province has evidently an unusually fine crop. Possibly the acreage of hay is less than it was last year. It is noteworthy that the acreage under grain crops, especially under wheat, has been largely increased this year. The increase must to some extent have been at the expense of hay, which having proved a failure for three years in succession, the farmers would be tempted to put some portion of their meadows to other uses. There was undoubtedly a good deal of pasture land ploughed up. Of course, rotation requires that some of the fields must be devoted to meadow, no matter how poor the hay crop may be, and, though the yield may be scant, farmers must continue to grow hay for their stock. If the area under hay has been diminished it is all the more important that the yield should be large, as it has been.

THE SPORTING WORLD

Fred Loughead is At the Top of the List

A WONDER WHEN HE'S ALL RIGHT.

Table showing What the Riders Did at Willow Grove Park - What Was Done at Brantford Yesterday - Toronto Ball Team Again Won from Montreal - Other Sports.

Three champions were crowned last week at Philadelphia in the annual events of the L.A.W., and no single rider had a pronounced advantage over all the others. Loughead did well, but his showing on the second day made apparent how unreliable a quantity is the Canadian, says A. G. Batcheller in The N.Y. Journal. He is a wonder when he is right, but gets out of kilter in a twinkling, and will never shine as a circuit follower. Kiser took the half in good style, but the breaking of the snath on Barden's wheel robbed the race of a rider who is particularly strong at the distance. But the Dayton boy rode so well in the mile open that it is fair to presume that he would have performed as successfully in the championship if accident had not relieved him of his most dangerous opponent. The following table will give an idea of what the various riders did during the two days:

Name.	1	2	3	4	5	6
Fred Loughead, Sarnia	3	1	0	0	0	0
Earl Kiser, Dayton, O	2	0	1	0	0	0
A. C. Mertens, Minneapolis	2	0	1	0	0	0
F. A. McFarland, San Jose, Cal	1	0	1	1	0	0
D. Stevens, Ottumwa, Ia.	1	0	0	1	1	0
E. C. Bald, Buffalo	0	3	0	1	0	0
Tom Cooper, Detroit	0	1	1	0	0	1
Owen Kimble, Louisville	0	1	0	0	0	0
W. Coleman, Boston	0	1	0	0	0	0
N. Butler, Boston	0	1	0	0	0	0
J. A. Newhouse, Buffalo	0	0	1	1	0	0
W. M. Randall, Rochester	0	0	1	0	0	0
F. C. Hoyt, Bridgeport, Connecticut	0	0	1	0	0	0
Fred Simms, Washington	0	0	1	0	0	0
C. K. Newton, Stafford Springs, Conn.	0	0	0	1	0	0
R.A. McCurdy, Philadelphia	0	0	0	1	0	0
Major Taylor, Boston	0	0	0	1	1	0
A. Gardiner, Chicago	0	0	0	0	2	0
C. A. Church, Philadelphia	0	0	0	0	1	0
W. H. Fichtner, Louisville	0	0	0	0	1	0
E. Oldfield, Toledo, O.	0	0	0	0	1	0
L. A. Callahan, Buffalo	0	0	0	0	0	2
W. C. Sanger, Milwaukee	0	0	0	0	0	1
Jay Eaton, Elizabeth, N.J.	0	0	0	0	0	1

AXTON AND BROWN.

Brantford, Aug. 9.—To-day was observed as Brantford's Civic Holiday; weather very warm, clear, sunshine. Business is suspended. About 1 o'clock a fancy dress procession formed on the Market square, and, headed by a band, proceeded to the Mohawk Park, where a large crowd of people had assembled to witness the races. The Niagara District championship races to-day were attended by about 2500 people. Owing to a heavy rainstorm, only two events were run off. Frank Brown of Toronto winning the novice and Ralph Axton of Brantford the half-mile district championship.

In a warming up ride a spill occurred, in which McEachren and French of Toronto and N. Webster, Brantford, came together, Webster having his collar-bone broken. The balance of the races have been postponed until a later date, which will be decided on in a few days. Following are the results:

1 mile, novice: Frank Brown, Toronto, 1; T. Murray, Hamilton, 2; H. Pease, Brantford, 3. Time 2.22. Also started: Muir, Bellhouse, Tibbetts, Killeleagh, Campbell, McCall, Saunders, McKeand, Butterfield, Cockburn, Russell.

Half-mile, district championship: R. E. Axton, Brantford, 1; John Davidson, Brantford, 2; F. W. Barnes, Hamilton, 3. Time 1.07. Also started: Mott, Sherritt, Graves, Bellhouse, Cunningham, Tibbitts, McCall, Cromble, Sume and Hancock.

BASEBALL RECORD.

Toronto, Aug. 10.

TORONTO 17, MONTREAL 1.

The Torontos were out for an exercise gallop yesterday afternoon, and, although running easy all the way they beat the Frenchmen by several blocks.

Toronto	2 1 0 0 3 3 6 0 2—17
Montreal	0 0 0 0 0 0 0 1 0—1

SPRINGFIELD WON TWO.

Wilkes Barre, Pa., Aug. 9.—Springfield won both games from Wilkes-Barre to-day

First game:	R.	H.	E.
Wilkes-Barre	0 0 0 0 0 0 0 0 0—	0	4	4
Springfield	0 2 0 1 2 0 1 0 x—12	18	0

Batteries—Johnson and Gondig; Korwan and Duncan.

Second game:	R.	H.	E.
Wilkes-Barre	1 0 0 1 0 1 1 0 0—	4	6	1
Springfield	1 0 0 3 0 0 1 0 x—	5	11	2

Batteries—Keenan and Diggins; Dolan and Nichols.

At Buffalo—The home team tried hard to make it five straights from Syracuse, but Gray was in poor form and was pounded hard. O'Brien, late of Scranton, made his first appearance in left field for Syracuse and put up a good game. Score:

	R.	H.	E.
Buffalo	0 2 0 0 2 0 0 0 3—	7	11	3
Syracuse	4 0 0 2 0 1 0 2 2—	11	17	2

Batteries—Bray and Urquhart; Willis and Ryan.

At Scranton—The Miners made it three straights and again shut out the Greys, who made but one run in the three games. Scranton's hits were coupled with the Greys' fielding and battery errors. Score:

	R.	H.	E.
Scranton	1 0 0 1 1 0 0 1 x—	4	9	1
Providence	0 0 0 0 0 0 0 0 0—	0	4	3

Batteries—Johnson and Boyd; Rudderham and Dixon.

IN THE NATIONAL.

At Louisville Griffith was a puzzle to the Colonels after the third innings, not a hit being made off his delivery after this innings. The Colts bunched their hits in the seventh and eighth innings and managed to win by a nose. Score:

	R.	H.	E.
Chicago	0 0 0 0 0 0 2 1 0—	3	9	1
Louisville	1 0 1 0 0 0 0 0 0—	2	5	2

Batteries—Griffith and Kittridge; Cunningham and Wilson.

At Washington the game was the best played for some time, the Senators playing without errors. Swaim pitched well, but Orth was easy. Score:

	R.	H.	E.
Washington	0 2 0 0 0 2 1 0 x—	5	14	0
Philadelphia	0 0 1 0 0 0 1 0 0—	2	7	1

Batteries—Swaim and McGuire; Orth and Clements.

At Brooklyn Jack Doyle caused the downfall of the Baltimores at Eastern Park. After the score stood 6 to 0 in favor of his team, he fumed and swore at Corbett until the youngster lost his temper in the third innings, threw away the ball and walked to the dressing rooms, Nops being substituted. After this the Champions played like demoralized men. Score:

	R.	H.	E.
Brooklyn	0 0 1 0 2 0 2 2 0 x—	16	21	3
Baltimore	4 2 0 0 0 1 2 0 0—	9	10	6

Batteries—Kennedy, Dunn and A. Smith; Corbett, Nops and Clark.

At Boston New York won because Boston could not hit Meekin, while Wm Hutchen, Doyle and Gleason batted Nichols freely. New York is the first club to get a score of double figures off Nichols this year, and only for Nichols' home run in the fourth innings the Bostons' score would have been much smaller. Wilson made some brilliant running catches of fouls. The score:

	R.	H.	E.
New York	0 0 3 1 3 0 0 0 3—	10	13	4
Boston	1 0 0 3 0 0 0 0 0—	4	10	2

Batteries—Meekin and Wilson; Nichols and Bergen.

At Cincinnati the Reds and Pittsburgs played a double-header and broke even. In the first game Hoffmeister had a finger broken and retired in favor of Davis, who was relieved at first by Rothfuss. The second game was called at the end of the sixth innings on account of darkness. Attendance 7000. Score:

First game:	R.	H.	E.
Cincinnati	0 2 1 0 0 0 0 0 0 2—	5	8	5
Pittsburg	1 0 0 0 1 0 0 7 0 4—	7	16	2

Batteries—Breitenstein and Peitz; Gardner and Sugden.

Second game:	R.	H.	E.
Cincinnati	3 0 0 0 1 4—	8	5	1
Pittsburg	0 0 0 1 0 0—	1	4	3

Batteries—Rhines and Schriver; Hawley and Merritt.

ONE HONEST MAN.

DEAR EDITOR,—Please inform your readers that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest home cure, by which was permanently restored to health and manly vigour, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy.

Address with stamp:
WM. T. MULFORD, Agents' Supplies,
P. O. Box 59, St. Henri, Que.

A Summer Specific.

It is a soothing, effectual and never failing medicine, which gives immediate relief and speedily effects a cure.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher. is on every wrapper.

YOUNG'S POINT.

From Our Own Correspondent.

Miss Josie Geary, of Ennismore, is the guest of Miss Nellie Young.

Miss Kate Kearns, of Chicago, is visiting friends here.

Miss Fannie Hoolihan, of Peterborough, is the guest of Miss Lillie McFarlane.

Mr. A. H. Lawson, of Toronto, is spending a few days at the Point.

Miss Frank Sullivan, of Ashburnham, is spending a few days in the Point.

Mrs. G. Pope, of Peterborough, is visiting friends here.

Miss M. Butcher, of Peterborough, is visiting friends here.

Mr. Wellington Manning, of Selwyn, happened with a serious accident one day last week. He had been hauling grain with a team of colts and in some manner was thrown off the waggon, the pole of which projected into his side. Dr. Fraser, of Lakefield, attended his injuries and pronounced it a very serious case.

Miss M. Montgomery, of Peterborough, is visiting friends here.

The following guests were registered at Mr. Jas. Kearney's hotel last week: John A. Barhite, of Rochester; Mrs. Jas. T. Young, Miss Lillie Young, Mr. Chas. Young, Master George Young, Miss Alice Byrne, of Chicago.

Messrs. Thos. Walters and A. Ross, of Lindsay, are making some repairs at the locks here.

Piles Cured by Dr. Chase.

I.M. Iral, 186 Drolet Street, Montreal, 15 years suffered. Cured of Blind Itching Piles.

William Butler, Possawan, Ont. Suffered many months. Cured of Protruding Piles by one box.

Pabano Bastard, Gower Point, Ont. Suffered for 30 years. Cured of Itching Piles by three boxes.

Nelson Simmons, Myersburg, Ont., cured of Itching Piles.

Dr. Chase's Ointment will positively cure all forms of Piles. Write any of the above if in doubt.

ALMA COLLEGE

A GREAT BIG BROAD-GUAGE **BUILDING SALE**

Serious Disturbance to Business.

On next Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

THIS WEEK we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—BECAUSE WE HAVE TO.

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

In the general overhauling, there will be brought to light, accumulations of Odd Suits, Odd Lengths, small quantities and Remnants, throughout the various departments which will be let go at prices to dispose of quickly.

Come and hear the Prices Snap and don't forget that we stand ready to return your money without question if you are dissatisfied with your Bargains.

GOUGH BROS.

THE WONDERFUL CHEAP MEN,

CLEARING SALE

—OF—

LADIES' WHITE WEAR

—AT—

ROBERT FAIR'S.

Just now active preparations are under way to make room for New Fall Goods that are coming from every source. Our tables of popular priced Summer Dress Goods, &c., have proven a great attraction, and we now add to the already attractive array of Summer Bargains our whole stock of Ladies' Whitewear. It was only last January that we opened this important department to the Golden Lion, so that the stock is all as good as new.

The Ladies have found out with good reason that we have saved them money in White Wear of every sort, and one of the hardest things for them to understand is how such prices are possible. There's the cost of material and the cost of making, and here's the thing for less than the two foot up:—

NIGHT GOWNS—

Commencing at 50c.

85c Nightgowns for	.60
$1.00 Nightgowns for	.70
$1.25 Nightgowns for	.85

PRINGLE & McCREA, Peterborough, Ont.

GOLLI'S DARK CRIME

Denounced by the Newspapers of All Countries.

THE DEED PLANNED IN LONDON

According to the Opinion of La Patrie of Paris—German Papers Want Combined Action Among the Nations Against Anarchism—Golli's Record Is a Bad One.

London, Aug. 10.—Foreign comment upon the assassination is less occupied with the political than with the Anarchist aspects of the case. The press of all countries gives vent to the strongest denunciations of the crime, and advocates stern measures against Anarchists. Some of the Socialist newspapers indulge in a rather heartless vein. For instance, La Petite Republique says: "He who strikes shall himself be struck. The history of the Canovas Ministry is written in blood. He revived antique barbarisms, and deserved his fate."

This, however, is exceptionally cynical. All the respectable journals express sympathy. The Temps and The Journal des Debats think that the murder will have but little effect on politics, as from considerations of respect for the deceased, if for no other reasons, the Queen Regent is not likely to call the Liberals to power.

La Patrie declares that all the plans of such murders have been arranged in London, and suggests, that the powers should combine to watch the country that protects these criminals. Without going so far as this, many German and other papers advocate combined European action to suppress anarchism. The Berliner Tageblatt asserts that Golli was chosen by ballot for the deed by the London Central Anarchist Society.

Preparations for the Funeral.

Madrid, Aug. 10.—The Queen Regent has decreed that the military honors observed in the case of the funeral of a marshal shall be accorded the remains of the late Premier of Spain, Senor Canovas del Castillo. The body of the Spanish statesman will arrive here on Wednesday morning, accompanied by his widow, the Minister for the Colonies, Senor Cos-Gayon and the Chief Major Domo, the Duke of Sotomayer, representing the Queen Regent. The pall-bearers will be an academician, an admiral, the President of the Senate, a Knight of the Golden Fleece and Marshal Martinez de Campos. The interment will take place in the Pantheon.

Funeral services will take place simultaneously in all the churches throughout the country, and the official mourning will last three days.

The Queen Regent is greatly affected by the tragedy, and is still confined to her room.

The body of the late Premier lies on his bed in the apartments which he occupied at Santa Agueda. It is covered with a shroud, two tapers are burning at the foot of the bed, an altar has been erected in the room, and masses for the repose of the soul of the dead are being constantly celebrated.

Senor Castellar, the Republican leader, in an interview is quoted as saying he will not join any Cabinet unless it is Republican, adding that Senor Sagasta, the Liberal leader, ought to be a member of the new Cabinet, with the pledged support of the Conservatives.

The Queen Regent has written a letter to Senora Canovas del Castillo, widow of the Premier, in which her Majesty says:

"I am so affected and grieved by the horrible misfortune that I cannot find words to express the pain I feel. I would like to send you my consolation, but I can only weep with you for the dear being you have lost and who loved you so much. I, too, have lost a great deal. I have lost a loyal counsellor who helped me, and of whom I stood so much in need. The eminent services which he rendered to my husband, Alfonso, gave him a claim to all of my respect, and all his fresh sacrifices for the throne further united him to me and to the fatherland. The country and history will do him justice.

"My children join with me in this mourning of the crown and nation. All my prayers are for him. Heaven grant you the necessary resignation."

Sympathy Expressed in Havana.

Havana, Aug. 10. The official announcement of the assassination of Senor Canovas was published to-day in The Official Gazette and the other local newspapers. As a mark of respect for the deceased statesman, the stores are closed and the Stock Exchange and Produce Exchange have suspended business. The leading thoroughfares are being hung with black drapery and other signs of respect are being displayed for the dead Premier of Spain.

The crime of Golli is being earnestly discussed on all sides and expressions of sorrow are everywhere to be heard. The dying exclamation of Canovas, "Assassin! Long live Spain!" is the subject of considerable comment in the newspapers. They all print editorials expressing the great sorrow felt by the Spaniards at the death of the Prime Minister, refer to the great loss sustained by the Spanish nation and dwell upon the public and private virtues of the deceased, while regretting his disappearance in these critical times. The future is referred to almost with apprehension, although the people are asked to trust in the patriotism of the Spanish statesmen and in the loyalty of the Spaniards in both hemispheres in order to prevent further trouble for Spain.

Cuba Will Have to Go.

Berlin, Aug. 10.—Great sympathy is felt here with Spain, but the outlook is considered very ominous. All sorts of sinister prophecies are afloat. It is believed here that the monarchy will doubtless survive, but Cuba will have to go. No one puts much confidence in the surviving Spanish statesmen, while the country's finances are at a very low ebb.

GOLLI'S HISTORY.

The Assassin's Name is Michael Angiolinos and His Record is Not a Good One.

Madrid, Aug. 10.—A despatch from Lucera, Italy, says that the Italian police have identified Golli, the assassin of Senor Canovas, as Michael Angiolinos. He is 33 years of age and was born at Foggia, capital of the province of that name, in the Apulian Plain. His military record was very bad. He proved an indifferent and disobedient soldier and was sent for three years' service in the disciplinary battalion. Subsequently he became a compositor. In April, 1896, he was sentenced to 18 months' imprisonment for disseminating anarchist propaganda, but, after serving a part of the term, he escaped to Spain. He comes of an honest family. His father, who is a tailor, is grief-stricken by the crime of the son. The Provincial and Communal Councils of Foggia have sent telegrams of condolence to the Spanish Government, denouncing the assassin.

A MURDERER'S BREAK.

Aided by His Brother He made a Desperate Attempt to Escape from the State Prison.

ston, Mass., Aug. 10.—While attempting to escape from the State prison at Charlestown at noon to-day Herbert Willis, the young Taunton desperado, who was recently sentenced to life imprisonment for the murder of Fred N. Strange, was fatally injured, and his brother Edward, who assisted him in his break for liberty, was seriously wounded by the guards. Two of the latter were wounded by the Willis brothers, who tried to shoot their way out with revolvers, which Edward Willis, the murderer's brother, had brought with him on a visit to the prisoner.

Edward Willis arrived at the prison this afternoon to pay a monthly visit to his brother. He was admitted by the usual officials and Willis, the murderer, was escorted to the guard room to meet his relative.

At the time Officer Edward Whitham and Turnkey Darling were in the rotunda, with Yard Officer Abbott. Officer Townsend and others near by. Five other visitors were in the rotunda at the time, a man, two women and two children.

The brothers Willis had been conversing in a low tone, sitting apart from the others in the guard room, for about half an hour, when Officer Whitham saw the visitor pass a revolver to his brother, and together they sprang towards the turnkey, their intention evidently being to secure his keys. Whitham rushed to Darling's assistance and as he did so the Willis brothers opened fire. One of the bullets struck Darling in the thigh. Seeing the desperate nature of the affair, Whitham returned the shots, but missed, and Officer Abbott, who came through the door into the guard room at the same instant, saw the trouble and grappled with Edward Willis.

Both brothers, who had been beating Darling, began to pound Abbott. Officer Townsend, from the office door then fired a shot, which penetrated the neck of Willis, and a second later Officer Benjamin, who was on duty in one of the wings, fired a shot through the bars, wounding Willis in the head.

Meanwhile Herbert Willis had been jumping around in lively fashion, firing repeated shots, to which the officials responded, using great care not to hit the other visitors. A shot from the revolver of Officer Whitham took effect in the head, while one from Darling's found lodgment in the back of the head.

The murderer was then secured and removed from the scene. Edward Willis was also taken away and the officers, nearly all of whom bore some marks of the affair, were given prompt medical attention.

This afternoon it was learned from the prison authorities that the murderer was in a precarious condition as a result of his wounds, and that there was little hope that he could survive. His brother, though seriously wounded, it is thought has a chance of getting well.

Railroad President Dead.

Boston, Mass., Aug. 10.—Henry F. Marcy, President of the Fitchburg Railroad, was found dead in the bathroom of his home here to-day. Death was due to apoplexy. He had been in failing health for some time.

FARMERS LOST MUCH

Many Barns Destroyed by the Lightning.

THEY WERE FILLED WITH CROPS.

The Storm Was Particularly Destructive in Bruce County—Insurance Was Carried in Several Cases, but Not Enough to Cover the Loss—A Lengthy Record.

Hamilton, Aug. 10.—(Special.)—A severe thunderstorm passed over this district this morning. Lightning struck the barn of A. J. Binkley, west of this city, and the place was destroyed by fire. It contained the season's crop of wheat, hay and oats, and there was no insurance on it. The electric fluid went into Kerr's drygoods store on the telephone wire, and the bookkeeper got a severe shock.

Arch. Bryce's Barn Burned.

Paisley, Aug. 10.—During the terrible thunderstorm which passed over this section of the country last night the barn owned by Mr. Arch Bryce, near Dunblane, was struck by lightning and burned to the ground. The loss is heavy, as this year's hay, wheat, oats and part of the pea crops were stored in it. Loss $2000, insurance $1100.

Barn and Crops Gone.

Allenford, Aug. 10.—A very severe thunderstorm passed over this section this morning. The barn of County Commissioner William Beatty of Amabel was burned. The barn contained the product of ten acres of fall wheat, besides a large quantity of hay. Small insurance; loss about $500.

Alex. McGowan's Barn, Too.

Clarksburg, Aug. 10.—The barn of Mr. Alex. McGowan, with all the season's hay and fall wheat and all his implements, was destroyed by fire early this morning, caused by lightning. Insured in the Sydenham Mutual for $2500.

Mr. Gibbons Lost His Barn Also.

Port Elgin, Ont., Aug. 10. From 10 o'clock last night till 5 this morning a very severe thunder and lightning storm raged over this place and the surrounding country. Considerable damage to property was done by the lightning. The barn of Mr. Gibbons of Arran was burned. Several other buildings were also damaged, but in a less degree. Other large fires were seen during the night in Greenock and Elderslie. Losses not known.

Grain Fields Flooded.

Ripley, Ont., Aug. 10.—A terrific thunderstorm passed over here last night, lasting from 12 m. to 2 a.m.

Many of the fields of grain have two inches of water on them this morning.

George Needham's barn, 9th con., was struck by lightning and burned, together with a log barn and contents.

Barn and Stock Destroyed.

Amherby, Ont., Aug. 10.—About 2 o'clock this morning a terrific thunderstorm passed over this section of country. A large barn behind the general store of W. G. Murdoch, belonging to James Wilkie, was struck by lightning and totally destroyed by fire, with a horse and several cows.

Damage Near Walkerton.

Walkerton, Ont., Aug. 10.—This part of the country was visited by a severe storm of lightning and rain early this morning, which did considerable damage.

The barn of John Wilker, Carrick township, was struck by lightning and destroyed, together with its contents.

Alex. Thompson of Greenock also lost his barn and contents; insurance not known.

The barn of Thomas Coutts of Brant was struck and badly damaged.

Several farmers lost stock, killed in the fields.

Small Damage at Lindsay.

Lindsay, Aug. 10.—Our town was visited by something of the nature of a cloudburst, accompanied with an electrical storm of unusual severity, at noon to-day. Lightning struck the chimney of a house occupied by Mrs. Atkinson on Kent-street. Mrs. Atkinson was sitting near the stove, and received a terrible shock, but is likely to recover. Several other places were struck, but without much damage. Many cellars are flooded in the lower parts of the town.

Mr. Burt, M. L. A., a Sufferer.

St. George, Ont., Aug. 10.—A severe thunderstorm passed over this section about 11 o'clock to-day, during which a large barn, belonging to D. Burt, M.L.A., was struck by lightning and together with most of its contents was totally consumed. It contained the wheat crop of about thirty acres, fifty tons of ensilage and some live stock, harness, rigs, etc. The fire spread so rapidly it was impossible to save anything, and only by the exertions of those who quickly gathered from the village was the house saved. The loss will probably amount to $1800, and is covered by insurance in the Brant Mutual.

SMUGGLING INTO CANADA.

Freighters Pick Up Canned Goods and Tobacco After Passing the B.C. Customs Officers.

Rossland, B. C., Aug. 10.—The customs officials have discovered a smuggling scheme on a large scale. The trail up from the Okanagan country passes into Canada at Krugers, on Osoyoor Lake, where the custom house is located, and then makes a detour into the United States and re-enters the Dominion at a point several miles east of the custom house. The town of Orao is the headquarters of the smugglers.

Freighters from the States bringing in produce come up the trail to Krugers, pay duty on stuff they have in their wagons, and then follow the road down across the line to Orao.

B B B
FOR THE BLOOD

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action.

PRACTICAL IMPERIALISM.

London, England, Daily Mail.

The British Empire has been built up on business lines, and on business lines *it is* going to be held together. Sentiment counts for something, but the strongest tie between England and her colonies is the tie of mutual interest. On national holidays we will all sing "Rule Britannia," and hoist the Union Jack, and drink the health of the Queen, but during the plain prosaic weeks of working days that come between we will draw closer together in an effective union of hearts and pockets by doing business with our colonies. We would no more speak disrespectfully of the Imperial ideal than of the Equator, but the backbone of that ideal is a real community of business interests.

Canada has grasped the situation. Her recent legislation has opened the way to cultivating Imperial patriotism by the development of trade within the Empire. She is following up her legislative opening by a practical and prosaic effort to

CATER FOR THE ENGLISH MARKET,

whilst opening her own markets on preferential terms to English exports. In order to buy more from us she must sell more to us, and in order to meet the expected increase of imports from England, she is working hard to increase her exports to England. There should be no difficulty about this. We imported last year food products to the value of six hundred million dollars, of which only 7 per cent came from Canada. Our fellow-subjects of the Dominion calculate that they can supply at least a third of this total, and they mean to do it.

Meat, fruit, eggs and cheese are the staple products which Canada can put on the English market. Her immense and fertile teritory will enable her to meet our demands in full. The Canadian Government has already begun the great task of making the Dominion food purveyor to the British consumer, and it only needs

SUSTAINED AND LOYAL EFFORT

on both sides of the Atlantic to make the scheme a success. On the other side they are subsidising ship owners to provide facilities of transport, encouraging the producer by granting a bonus for the creation of cold storage accommodation, and safe-guarding our interests by stringent laws against adulteration of butter and cheese. The manufacture and sale of oleomargarine in Canada is absolutely prohibited, and severe penalties are imposed on the fabrication of "imitation" cheese—a nefarious blend of cotton-seed oil and bad butter. Experiments in the transport of chilled meat have been made, and have proved completely successful. Furthermore, Canada is now represented in England by a commissioner deputed to study the needs of the English market, and it is intended to appoint two permanent officials in this country to supervise the development of trade in Canadian food products.

Our Canadian friends may fairly look to us

TO MEET THEM IN A HELPFUL SPIRIT.

They want to unite the British Empire, so far as their share is concerned, by selling us their foodstuffs and by buying our manufactures. We are, of course, quite ready to sell. Let us be equally ready to buy. If Canada can give us as good butter and eggs as we now import from France, let Canadian produce rule on the British breakfast table. There must be reciprocity if the plan is to succeed. And that way lies the welfare of England and the Empire. We want a backbone of commercial interest to stiffen the sentiment of Imperial union. Men will die for an idea; but they seldom live a working life for it unless it is based on a good business foundation. Canada is anxious to work with us for the good of the Empire—and Canada in particular. We can surely work with her for the same estimable objects, having a shrewd eye to the domestic interests of England as well. Imperial patriotism plus commercial advantage provides a capital working programme.

THE WOOD-PULP INDUSTRY.

(Montreal Witness.)

The wood-pulp industry is by no means a new one in Canada. The census of 1891 shows that the capital invested in mills amounted to $92,000 and the value of the output for that year was $63,300. Without being fostered or favoured in any way the industry has developed very rapidly, the census for 1891 showing that the capital invested in it had increased to $2,900,907 and the value of the annual product to $1,057,810. It was not until ten years after the establishment of the first mills that the export from Canada of either pulp-wood or pulp was recorded. In 1890 pulp-wood to the value of $80,006 was exported, and in the same year exports of wood-p . of the value of $168,000 were recorded. Since then the annual value of the exports of both the wood and the manufacture has increased by leaps and bounds until in 1895 we exported pulp-wood of the value of $468,000 and wood pulp of the value of $590,874. And still the trade increases. For the year 1896, which is the latest for which we have the returns, the exports of pulp-wood were valued at $627,895 and of wood pulp at $875,777 The United States has, of course, been our best, our almost only, customer for pulp-wood, as the cost of transportation to Europe must ever render it more profitable to export the manufactured pulp than the comparatively bulky article, pulp wood in its unmanufactured state. To the United States this wood can, of course, be shipped profitably, especially from the well-wooded districts of the Province of Quebec, which are near the New England mills and from the Lake Superior regions, whither it can be transported by water to Michigan, Illinois and other states. Of the whole exports of pulpwood from Canada the United States has been by far our best customer for the manufactured pulp. In 1896 we exported pulp to the valu of $557,085 to the United States, to the value of $113,577 to Great Britain, and $5,135 to France. It is probable, however, that relative exports to Great Britain was very much greater during 1897, and it is certain, in view of the fact that Canadian pulp mills have recently been bought up by English companies for the supply of their own paper mills in England, that Great Britain will hereafter be our best customer for pulp, unless indeed a change of policy is forced upon the United States by circumstances over which she has no control. In order to discourage or restrict the importation of Canadian pulp, the United States placed a heavy protective duty upon the manufactured article. The McKinley tariff duty was one-eighth and three-tenths of a cent per pound upon mechanically and chemically manufactured pulps respectively; under the Wilson tariff these were reduced to ten per cent. ad valorem. The Dingley tariff just enacted raises the duties to one-twelfth of a cent and one-sixth of a cent per pound respectively.

Piles Cured by Dr. Chase.

I.M. Iral, 186 Drolet Street, Montreal. 15 years suffered. Cured of Blind Itching Piles.

William Butler. Possawan, Ont. Suffered many months. Cured of Protruding Piles by one box.

Pabano Bastard, Gower Point, Ont. Suffered for 30 years. Cured of Itching Piles by three boxes.

Nelson Simmons, Myersburg, Ont., cured of Itching Piles.

Dr. Chase's Ointment will positively cure all forms of Piles. Write any of the above if in doubt.

A HAPPY GIRL.

Miss Minnie Kelly Tells of her Illness and Subsequent Cure—A Statement that Should be Read by Every Girl in Canada.

Miss Amina Kelly, a well-known and much esteemed young lady, living at Maplewood, N. B., writes: "I consider it my duty to let you know what your wonderful medicine has done for me. In April, 1896, I began to lose flesh and colour, my appetite failed, and on going up stairs I would be so tired that I would have to rest. I continued in this condition for three months when I was taken suddenly ill and not able to go about. Our family doctor was called in, and he pronounced my illness chlorosis (poverty of the blood). At first his treatment appeared to do me good, but only for a time, and I then began to grow worse. I continued taking his medicine for three months, when I was so discouraged at not regaining my health that I declined taking it longer. I then tried a liquid medicine advertised to cure cases like mine, but did not obtain the slightest benefit. I had become terribly emaciated and very weak. There was a constant terrible roaring noise in my head; my feet and ankles were swollen and I was as pale as a corpse. One day while in this condition my father brought home a box of Dr. Williams' Pink Pills and asked me to try them. In less than a week I could sit up, and in a couple of weeks I could walk quite a distance without being tired. My appetite returned, the roaring in my head ceased, I began to gain flesh and colour, and before I had used a half dozen boxes I was as healthy as I had ever been in my life. My friends did not expect me to recover and are now rejoicing at the wonderful change Dr. Williams' Pink Pills have wrought in me. If my statement will be the means of helping some other discouraged sufferer you are at perfect liberty to publish it."

The above statement was sworn before me at Maplewood, York Co., N.B., this 14th day of May, 1897.

TIMOTHY W. SMITH, J.P.

To insure getting the genuine ask always for Dr. Williams' Pink Pills for Pale People, and refuse all substitutes and nostrums alleged to be just as good.

Pleasant, Sure and Quick.

GENTLEMEN,—I am pleased to recommend your Laxa Liver Pills for constipation, dyspepsia and sick headache. I have used them for those troubles, and find them a pleasant, sure and quick cure, free from the annoying griping of other pills I have heretofore used.

Signed, H. JAMES,

THE WORKINGMAN...

Made this country. True, the ground was here when he came, but he's made it what it is. From the time that Queen Isabella hocked her jewels in order to "raise the wind," so that Chris. could have a "special sale" across the water in search of Peterborough and the surrounding country, until the present day—not a step has been taken forward—not an improvement has been made in this country—without the aid of the working man. Who is the greatest electrician in the world? Thomas Edison. Who makes the best sewing machines—the best locomotives—the best passengers cars? Who builds the biggest and best buildings, digs the deepest ditches and lays the longest railroads? The workingman. The Peterborough workingman is up to snuff. It did'nt take him long to find out that he could do more days' work in a dollars worth of working man's clothes that he bought here than he'd ever be able to do in any dollar's worth he'd bought before. Where one working man struggled in and bought a pair of Overalls or a pair of Blue Jeans, or a jumper of us in former years, a hundred patronize our workingmen's department to-day. We're proud of it. Are you a working man? Want to buy clothes to wear while you work that will wear while you work? Try us.

We are showing the nicest Novelties for "little men"—the finest ever brought to Peterborough. We also sell knee pants, 3 piece Suits, from $2.75 up. Long Pant Suits, from $3.00 to $5.00 up. Single Knee Pants 25c, 35c, 50c, 60c and 75c. Save money by dealing with us.

ADVERTISE IN "THE EXAMINER."

High-Grade Cemetery Work

AT A MODERATE PRICE.

The element of permanence which attaches to the erection of any memorial to the dead renders it highly desirable that no mistake be made in the selection either of design or of materials.

A mistake is a serious matter. Let us help you to make a right decision. Our specialty is the erection of monuments which are unique without being grotesque, and artistic without being over-decorated.

We manufacture from all first-quality granites, and as WE SELL DIRECT TO CUSTOMERS, we save the latter all agents' profits. Then, too, there is a decided advantage for the buyer in dealing with one responsible firm for both the manufacture and the setting of a monument.

All our work is guaranteed, NO CHARGE being made if not strictly according to contract. Write us for designs and estimates.

Moore's Monumental Works

Established 1846. Cor. Charlotte and George Sts., Peterborough, near market.

LATEST CABLE NEWS.

British Troops Under Orders for the East.

WAR OFFICE GIVES NO DETAILS.

Two Torpedo Boats to Be Sent to the Pacific Station and Other Two to the North American Station—The Trouble With the Postal Telegraphers.

London, Aug. 10. In pursuance of the British Admiralty's policy of strengthening the torpedo boat and torpedo destroyer flotillas abroad, the Virago and Thrasher have been commissioned for the Pacific station, and the Quail and Sparrowhawk have been commissioned for the North American station. These small vessels will be conveyed to their stations by cruisers.

A large number of British troops have been ordered to get ready to embark for the East. Their destination is supposed to be Egypt. The War Office refuses to furnish any information on the subject.

TELEGRAPHERS' GRIEVANCES.

The Duke of Norfolk Declines the Concessions Asked for by the Clerks.

London, Aug. 10.—The Duke of Norfolk, the Postmaster-General, has issued his decisions in respect to the principal grievances of the telegraph clerks, which were laid before him recently by a committee of the clerks' association.

The Postmaster General declines to concede an increase of the maximum salary from £165 to £190. He will create forty additional superintendents in order to relieve the pressure of work, and will abolish the technical examination of candidates for the senior grade. A double increment will be conceded after five years' service to clerks who are under 21 years of age.

These decisions do not in any way meet the wishes of the telegraph staff. Mr. Hilton, chairman of the London Postal Telegraph Clerks' Association, declared that they are intensely disappointing, and will increase instead of diminish the discontent.

Countess Cowley's Divorce.

London, Aug. 10.—The divorce obtained in February last by Countess Cowley from her husband, Earl Cowley, upon the ground of desertion and adultery, has been made absolute.

By the terms of the final judgment in the case the Countess receives £2000 a year, and an additional annuity of £130 is to be paid by the Earl for the support of her son, Viscount Dangan, the only child of the Earl and Countess, who was born in 1890.

A BRUTAL RUSSIAN.

He Founded an Establishment to Make Children Cripples to Beg for Him.

St. Petersburg, Aug. 10.—The evidence at the trial of the men who were arrested for mutilating a young girl in order that her condition might excite pity and thereby induce the benevolent to give money to her, has revealed the fact that the principal prisoner, whose name is Pranjitschenko, was chief of a beggars' league which operated in South Russia with great success. He founded an establishment for the purpose of making children cripples, and received 75 per cent. of the money and other things given to them when they were sent out to beg. He possessed a large house at Kief, where he lived in luxury and was regarded as a benevolent capitalist.

The Canadian Bisley Building.

London, Aug. 10.—(Telegram Cable.)—Major Mason of Hamilton will sail on the steamer Numidian, which leaves Liverpool Aug. 12. He will meet Col. Mackinnon to-morrow, when arrangements will be entered into for the completion of the Bisley building. Tenders will be asked for the work. The material for the construction of the building is to be supplied by Canada.

Frenchmen Climbed Mount Blanc.

Chamounix, France, Aug. 10.—Four French officers have just made a record ascent of Mont Blanc, via the route followed by the famous Alpine guide Jacques Balmat, who is said to have been the first to reach the summit. The route the officers followed has not been used since 1820. They made four attempts before success crowned their efforts.

Milan is Very Ill.

Vienna, Aug. 10.—Ex King Milan of Servia is so seriously ill that some anxiety is experienced by his friends as to his eventual recovery.

Bishop of Wakefield Dead.

London, Aug. 10.—The Right Rev. William Walsham How, D.D., Protestant Bishop of Wakefield, is dead. He was born in 1823.

Sorry He Had Not Room.

London, Aug. 10.—A special despatch from Brussels says that Lieut. De Gerlache, the leader of the Belgian Antarctic expedition, which is to sail shortly, is much disappointed that, owing to the lack of room on board the ship, he has been obliged to decline the valuable offer of Frederick A. Cook, Lieut. Peary's companion, to join the expedition.

Baron Fava in Rome.

Rome, Aug. 10.—Baron Fava, the Italian Ambassador to the United States, arrived here to-day and went immediately to the Foreign Office, where he had an interview with the Marquis Visconti Venosta, Minister of Foreign Affairs.

Stranded in Sligo Bay.

London, Aug. 10.—The British steamer Justin, Capt. Tweedie, from Philadelphia, July 21, for Sligo, is stranded on Wheaton Rock, outside of Sligo Bay. She lies in a precarious position and is leaking. A tug and lighters are alongside assisting her and she may possibly be floated at next tide.

Peace Conference Hangs Fire.

Constantinople, Aug. 10.—The Peace Conference met again to-day at Tophanch Kiosk and Tewfik Pasha, the Turkish Minister for Foreign Affairs, submitted fresh proposals regarding the evacuation, the indemnity and other issues involved. This is likely to cause a tedious delay.

FUNERAL OF THE DEAD PREMIER.

The Body on a Car Drawn by Four Horses —A Military Escort.

Madrid, Aug. 10.—A despatch from Santa Agueda says that the funeral cortege accompanying the remains of Senor Canovas left the bathing establishment this morning, headed by the Duke of Sotomayor, Major Domo to the Royal Household, representing the Queen Regent, and by Senor Castellano, Minister for the Colonies, and Senor Elduayan. The coffin, covered with wreaths, among them one from the Queen Regent, was borne on a car drawn by four horses. A detachment of Chasseurs rendered military honors and acted as an escort.

RUSSIAN TOWN BURNED.

Two Hundred Houses Destroyed, Including Jewish Synagog.

Berlin, Aug. 10.—A special despatch has been received here which says that a great fire has destroyed the greater part of the Russian town of Matislavl, west of Moghiloff, in the Government of Moheeley, on the River Sozh, an affluent of the Dnieper. Two hundred houses have been burned, and the famous Jewish synagogue and six Jewish seminaries have been ruined.

Matislavl has long been a well-known educational centre, as well as the seat of important religious institutions. It has, in addition to the synagogue and seminaries, which have been destroyed, numerous churches, several monasteries, a college and a school for nobles.

Argentine Will Shut Out Anarchists.

London, Aug. 10.—According to a despatch from Buenos Ayres the Government of the Argentine Republic has decided to prevent the landing of any Spanish Anarchists on Argentine soil.

War Will Be Renewed.

London, Aug. 10.—A despatch from Montevideo says that the Government's organ asserts that the war will be renewed on the expiration of the armistice of 22 days, signed on July 20 between the insurgents and the Government troops. It is assumed that the negotiations for a compromise will fail.

TO BUILD A TREASURE HOUSE.

The Canadian Government Talks of Erecting a Building in Which Miners May Store Their Dust.

Montreal, Aug. 10.—It is understood that the Dominion Government have under consideration a project in connection with the administration of the Yukon district, which is novel in conception, but appears calculated to meet the conditions existing in the extreme northwest. It is the establishment of what might be termed a "treasure house," in which will be stored the gold of the miners, and for which they will receive drafts on Canadian or United States banks of the full market value of their gold dust. The importance of such a depository in the Klondike district may readily be estimated. Under existing conditions, the task of guarding their gold is an arduous addition to the labors of the miners. It is expected that this provision of what is practically banking facilities will go far towards reconciling the miners to the 10 per cent. royalty which they have to pay the Government. Practically they will be paying an income tax of 10 per cent. for the preservation of law and order, the storage of their gold, and for its safe delivery to market. If the gold is stored in a central place under this plan the officials will find the task of preserving order greatly simplified, the miners will not be under necessity of carrying arms, nor will the rougher sort likely spend as much gold in riotous living. It will be necessary for the Government to take great precautions to ensure the safety of the gold, but the presence of 50 or 100 Mounted Police and three or four Maxim guns will be a great deterrent to the envious and greedy.

IT STRIKES HOME!

Chase's Ointment Cures All Skin Irritations.

GRACIE AITON.

Of the many skin diseases, eczema is one of the worst and most common. The one effective remedy so far discovered for it is Dr. Chase's Ointment. It has never been known to fail. Mr. Andrew Aiton, of Hartland, N.B., says: "My little daughter, Grace Ella, aged three and a half, was a dreadful sufferer from eczema for three years. We tried a number of alleged cures and several doctors, but all without effect. Her's was indeed a bad case. Her little body was entirely covered with rash. One day our local druggist, Mr. Wm. B. Thistle, recommended me to try Dr. Chase's Ointment. I did so, and four boxes effected a complete cure and saved our child."

Dr Chase's Ointment is just as effective for piles, salt rheum and sores of all descriptions. For sale by all dealers and Edmanson, Bates & Co., manufacturers, Toronto; price 60 cents.

There is nothing to equal Chase's Linseed and Turpentine for severe colds and lung troubles. Large bottle 25 cents.

BELLEVILLE

Belleville People Speak Freely About the New Conqueror of Heart and Nerve Troubles.

Perhaps Some of Them are Neighbours of Yours—they Speak with Emphasis.

Mrs. E. McConnell, says: "For the last 8 or 10 years I have suffered greatly from heart trouble and nervousness. The pains across my chest and over the heart were very severe. My heart seemed to jump and throb until I could hardly stand it. I often felt as if it would jump out of my body.

I grew so weak that I could not work, and was tired at the slightest exertion. Nervousness also afflicted me so much that I was startled at the least noise or alarm.

Naturally this effected me mentally, and I grew very morbid and despondent. The medicines I took did me no good, and I was almost despairing of a cure when I got a box of Milburn's Heart and Nerve Pills at McKeown's Drug Store.

I experienced prompt relief from the first box, and now am like another woman. My whole system is toned up. All my distressing symptoms have been removed, and I cannot feel to thankful to Milburn's Heart and Nerve Pills for the great good they have done me."

A WELL-KNOWN WOODSTOCK MAN CURED.

Woodstock, Ont., May 2nd, 1896.

This is to certify that I, James Ross, toll-gate-keeper, of the Town of Woodstock, Ont., have been a suffer from Indigestion and a very weak stomach for a number of years, and have tried a great many medicines of different kinds, but could only obtain temporary relief for a short time, but after using one bottle of SLOAN'S INDIAN TONIC I could perceive a great difference. My Indigestion was better and my stomach was much stronger than before, and I found I had gained several pounds in flesh, where I was very weak and thin in flesh before. I think I used nine or ten bottles in all, and I am now a healthy man, but still I do not want to be without the medicine in the house, and I procure one or two bottles every year, and I can truthfully recommend SLOAN'S INDIAN TONIC to others suffering from the same complaints.

JAMES ROSS, toll-gate-keeper.

Price $1,6 for $5. All Druggists or from Laboratory.

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2.75, and at the latter city the great summer sports are in full swing.

Buyers Delighted.

You're missing the most interesting prices in first-class summer clothing if you don't attend H. LeBrun & Co's. August clearing sale. At the end of the season we throw profits to the winds, and although it may mean a loss we cannot afford to carry stock over from one season to another. Besides, preparation for receiving early fall stock is now being made and a complete clearance of all summer goods must be effected. Our choicest lines of light summer coats, vests and trousers, tweed suits, negligee shirts, underwear and neckwear at great bargains. Men's Tweed suits at $3 and $3.50. Balbriggan's double thread underwear, all sizes, 75c for the suit, worth $1.25 and $1.50. Natural wool underwear same price. Little prices all over the store to hurry on the clearance. You can bank on the goods being all right. H. LEBRUN & Co.

Is Your Pump in Working Order?

When a pump does not work steadily, smoothly, and without undue effort on the part of the operator. It is either poorly constructed or in urgent need of repair. We make a specialty of repairing and can usually tell you what the cost will be before the job is started, so you can decide whether it is more profitable to get the work done or invest in a new one. A unique feature of the kind we build is that the stroke can be adjusted so as to make the labour commensurate with the strength of the person using it. Pumps however, are not the only things we make; for instance, another of our lines is washing machines. Our latest, the "Challenge," is by all odds, the best on the market. They are cheap, too. A post card will bring you full particulars. — G. WALTER GRIFFIN, P. O. box 361; Telephone, 92.

DESTROYED BY LIGHTNING.

The Barns of Mr. Alexander McNaughton, of Smith, Burned to the Ground.

Yesterday's terrific thunder storm was responsible for considerable damage in the country, as well as in Peterborough.

Perhaps the most serious of the results of the lightning's work was the total destruction of the magnificent barns on the farm of Mr. Alexander McNaughton, in Smith township, about a mile north of Young's Point.

In the midst of the electrical display, at about o'clock in the afternoon, a thunder-bolt entered the barn and its presence was made known by a loud explosion which was heard with apprehension on many adjoining farms. The contents of the barn immediately took fire and although one of Mr. McNaughton's sons galloped a horse at full speed to the Point, by the time he returned with assistance the fine building was totally destroyed, and the sheds adjoining the house were in flames. It was only by great efforts that the farm house was saved from being consumed.

The lightning seemed to strike inside the barn, and by the rapidity with which the flames spread it is thought that the bolt burst in the hay mow.

At the time of the explosion a young son of Mr. McNaughton's was standing in a shed adjoining the barn and was rendered unconscious by the shock. He was not hurt in any way, however, and quite recovered from the effects of his prostration during the afternoon.

THE LIGHTNING'S WORK AT CHEMONG PARK.

The Cottage of Mr. M. L. Henry Struck by a Thunderbolt Yesterday Afternoon.

Mrs. Myles Henry and a number of her guests at Chemong were badly frightened yesterday when two thunderbolts struck the cottage simulaneoulys on both sides. The shock was something terrific and Mrs Henry was deafened for fully a quarter of an hour by the noise of the explosion.

The lightning is supposed to have struck the eavetrough and being unable to reach the ground, through the pipe being suspended in a barrel it entered the house and nearly tore the roof from the kitchen, ripping off the boards when it made its entry and exit.

The middle tyne of a fork which Mrs. Henry held in her hand was twisted entirely out of shape by the play of the lightning. The shock administered to her was consequently severe one but fortunately her mother was visiting her at the time and a number of ladies from town were also in the house.

The other thunderbolt which struck the cottage shattered the verandah posts, splitting one from top to bottom as cleanly as if done by a saw.

BARN BURNED IN OTONABEE.

The Work of Yesterday's Electrical Storm.

Yesterday during the severe thunder storm that raged over this vicinity the fine new barn of Mr. John Stewart, River Road, Otonabee, the old Richard Stewart homestead, was struck by lightning and speedily burned, together with its contents. The barn was a fine modern structure, 47x80, with stone basement, and was worth about $1,000 or $1,200. It contained a large quantity of wheat, hay, oats, peas, etc., this season's crop of a large farm so far as housed. There was $600 insurance in the Grange Mutual, Mr. Dawson Kennedy, agent, but as this was a blanket policy covering two other barns it does not nearly cover the loss, as the other buildings were saved, one which was in close proximity to the burning building, by the energetic exertions of kind neighbours. The contents of the burned barn were insured for $300, also in the Grange Mutual, and this will by no means, it is thought, cover the loss. Mr. Stewart has general sympathy in his severe loss.

THE LIGHTNING'S AFTERMATH.

Other Little Shocks That Flesh Was Heir to Yesterday.

Since yesterday's report there have been repeated many more causalities of the electrical storm. Many persons report having received smart shocks, and tell of the passage or apparent passage of balls and flashes of lightning passing through their houses with a hissing noise and sulphurous smell. Ladies especially complain of having been very perceptibly shocked at the sudden intrusion of the lightning.

Mr. John Cronin, gardener, Elm street, was fixing a defective rain conductor on his house and was visited with a shock that tingled over his whole body and very severely shocked his seventeen year old daughter who was assisting him.

It is reported that in the west end that the rain was accompanied by a brisk downfall of hail.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The race horse, Hal Pointer, which is well known in the district, was sold this morning on the market for $19.

—Yesterdays rain was the first experienced since a week ago last Thursday at Stony lake. The cottagers have been enjoying delightful weather.

—Dr. Clarke, Medical Health Officer, has received a supply of fresh vaccine matter from the Ontario vaccine farm for the use of medical men in town.

—The Executive of the County Sunday School Association will meet on Saturday, Aug. 14th, at 10 30 a.m., in the Y.M.C.A. Hall, Peterborough. Important financial questions to consider.

—This is Port Perry's Civic Holiday, and a large number of the citizens of that town took advantage of the cheap rates offered to excurt to Peterborough.

—Large numbers of the citizens are complaining of cellars being flooded by yesterday's rainsterm. The water also invaded the first floors of many buildings.

—The People's Coal Company have again been awarded the contract of supplying the Government institutions in town with coal—the Customs House and the Post Office.

—The City of Peterborough took the annual excursion of the Peter Hamilton Co.'s employees to Jubilee this morning. The boat and a large scow were crowded by the families and friends of the "boys."

—As announced in the EXAMINER a few days ago the arrival has taken place of ninety-two girls at the Barnardo Home, from England. All are fine healthy looking children. They made the trip over from England in charge of Miss Brown and Miss Collins.

Fruit Arrivals.

Peaches in baskets, pears for pickling, black currants in basket or by the quart. A few raspberries still coming in. E. F. MASON & Co.

DROWNING FATALITY IN THE LITTLE LAKE.

WILLIE CAMPBELL, OF ASHBURNHAM, IS THE VICTIM.

He Was in Bathing at About Half Past ten This Morning and Being Unable to Swim was Drowned by Venturing out Beyond His Depth.

The Little Lake claimed its second victim this year, when little ten-year-old Willie Campbell, only son of Mr. Wm. Campbell, Concession street, Ashburnham, was drowned just at the mouth of the canal.

The lad was in bathing at the point mentioned with Willie Henthorn, a companion, and whilst splashing around in the shallow water got in over his depth and sank to rise no more before aid could reach him.

Matt Edwards and Hugh McWha, also of Ashburnham, were out boating at the time near Burnham's Point, and hearing Henthorn's cries for aid, rowed hastily to the spot. They immediately divested themselves of their clothing and dived continuously until they recovered the body which was finally brought to the surface by them about twenty minutes after the little fellow had sunk. The body was taken to the residence of Mr. Noyes, on the shore, and Dr. Clarke arrived almost immediately afterwards. He worked at the lad for fully an hour, endeavouring to restore life by artificial respiration and the use of stimulants, but the body had been under water too long, and life being entirely extinct, resuscitation was impossible.

This is the third drowning accident which has occurred within the last twenty years at this identical spot.

The boys parents are almost distracted with grief, and the lamedtations of his mother were pitiful to hear during the afternoon.

THE JUBILEE PARADE.

To the Editor of The Examiner:

In your issue of yesterday there is a communication signed "An Officer of Twelve Years Standing." I consider any cowardly anonymous correspondent beneath my notice, but would just like to say, God help the volunteer force if such individuals hold commissions. One officer refuses to turn out in a demonstration in honour of Her Majesty unless promised a free feed. Another acts the part of an assassin and is afraid to sign his name to a letter. It is a disgrace to the country to permit such a coward to wear the British uniform. He should be sent to some country where assassins are more respected than in free Canda or where they are employed by despots to remove men whom they fear. I only know or hear of one coward to be compared to the "Officer of twelve years standing." There was an old man and his grown up son travelling through a villiage in this county, when the father was attacked in the hotel and received a severe thrashing. The friends could not understand why the father should be so badly injured and not a mark on the son. On the son being asked where he was while the father was being so roughly handled, he replied: "Under the sleigh." This was the most cowardly act I ever heard of, (accept apologies for calling this coward a man) but a man who holds a commission in her Majesty's service and will write an anonymous letter is very little, if any, better than the unworthy son who would crawl under the sleigh and hide while his old father was being thrashed. If the company this gallant officer belongs to should ever be called out for active service there is a hundred chances to one he will crawl under cover.

I don't know who the "officer of twelve years standing" is. I cannot imagine any officer here who would be silly enough to champion Capt. Johnston's course in this affair, unless it were himself. I therefore conclude that, having become thoroughly ashamed of his previous course in this matter, he now seeks to convey to the public the idea that he has the sympathy of the officers here in his contemptible course, although in so doing he does not hesitate to reflect inferentially on them.

Thanking you, Mr. Editor, for this space, I am,

Yours truly,
J. B. MCWILLIAMS.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

To-day—1 p. m. ..... 66° above zero

	Highest.	Lowest.
Yesterday	72°	60°

Rain, 1.68.

Yesterday afternoon's rainfall of 1 inch and 62-100 was greater than the total amount that fell during the whole of the month of August, 1896. August of last year was a dry month, and the total rainfall was only 1.06.

DOURO.

FASHIONABLE TAILORS,
Cor's New Block, Water St

A RUNAWAY TEAM.

It Dashes Down McDonel Street Hill, but no Damage is Done.

Considerable excitement was occasioned on McDonel street this morning when a hack team, which had been left standing in front of the residence of Mr. Wm. Davidson, suddenly started off down the hill at a furious rate of speed.

The horses ran along the side, between the row of trees and the fence, as far as the residence of Mr. W. H. Maldrum, when they turned out into the road.

On arriving at the corner of Water street the nigh horse wished to turn south whilst the other ran straight on. A telegraph pole was struck and the animals dissolved partnership. The only damage was a huge dent in the telegraph pole, where the tongue of the hack struck it. Fortunately no one was in the rig at the time.

One horse fell when the pole was struck, and was partially stunned, but otherwise received no injury.

TRAMPS SENTENCED.

Four of them Came Before two Justices of the Peace.

Justices of the Peace, R. S. Davidson and Henry Denne, were on the bench this morning in the absence of Police Magistrate Dumble.

Four tramps who were captured near the C. P. R. station, were brought before them. Jas. Morrissey and Fred Knight were given six months in gaol, and John Sh[illegible] three months. Michael Jones was allowed to go in order to warn the fraternity of the fate which befell his comrades.

The tramp nuisance in Peterborough is to be abated, and the J.Ps. by dealing strictly with the "Weary Willies" will gain the good will of the citizens at large.

Fresh Fruit Arriving Daily.

Plentiful supply of peaches, pears, tomatoes, Lawton berries, bananas, lemons, and all seasonable fruit in prime condition arriving daily at J. B. OKE'S, Wholesale and Retail Fruit and Commission Merchants, George street.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—450 George Street.

WINTER IN THE KLONDYKE.

If half the people who are expected to go to the Yukon gold fields actually reach there, the problem of the year for Canada, if not for the continent, will be the provisioning of that district through the winter. It is all very well to impress upon the adventurers the necessity of taking so many pounds of this and so many tins of that; but the careless and the reckless are seldom loath to embark upon an enterprise of this kind, and in an isolated winter camp, threatened with starvation, it is not always the imprudent who will suffer for their imprudence. If a lot of our people are going "gold-hunting" under an Arctic winter sky, we ought, if possible, to do two things—establish a permanent line of communication with the district by means of which the commissariat may be kept supplied, and make ample arrangements to enforce British law. Gold-mining in the Arctics is a new kind of venture, wholly different from the same sport pursued in the wildest temperate or tropical region where cold has not to be reckoned with and where the soil can produce food.

In another year civilization will probably have made the Klondyke its own; but we owe it both to humanity and to our national repute to take steps which, during this pioneer season, will render a winter tragedy an impossibility. An Arctic relief expedition to rescue gold-hunters may bear the flavour of Stocktonian humour but unless precautions are taken it may become a grim necessity.

Steamer City of Peterborough.

Until further notice the steamer City of Peterborough will leave the C.P.R. wharf every morning (Saturday excepted) at 8.30, calling at Peck's wharf, Ashburnham, for Jubilee Point, Gore's Landing and Harwood. Fare 40c., dinner at Jubilee, included. On Saturday, at 2 p.m., for Jubilee; fare 40c., tea included. d30tf

A Sad Accident.

While making some tea the other day in a fancy China teapot, the handle came off and spilled the contents. "I would not care so much for the teapot," she said, "but I haven't any more of Elliott's famous tea in the house. Be sure I send to Peterborough to-morrow for some. It's the best I can get for 25c. You should try it."

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

CANADIAN RIFLE SHOOTING AT BISLEY.

Excellent Record Made by the Canadian Marksmen.

Staff-Sergt. Bartlett, an enthusiastic rifle shot has kindly left with THE EXAMINER a copy of the London (Eng.) Daily Chronicle, containing a detailed report of the shooting at Bisley, and it furnishes evidence of the excellent shooting of the Canadians. In the final stage of the Queen's prize match there were five Canadians placed, and well up to the top of the list, too. Sergt. W. Ross took fourth place with an N.R.A. badge and a prize of $150, Corporal Kerr was 6th with badge and $75, Capt. White was 9th with badge and $75; and Sergt. Blair and Sergt. T. Wallace captured badges and $40 each. It requires good shooting to get into the final stage of the Queen's prize. The two or three thousand of shots at Bisley are weeded out to about 100 of the best shots. It's an honour to get a chance to even shoot in the final stage of the Queen's Prize. When we note that the Canadians shot their names well to the top of the list their excellent shooting is evident. Five Canadians also got prizes well up in the second stage of the St. George's match.

OTONABEE.

An Accident to Mr. Johnston Cooney, an Aged Resident.

On Saturday last Mr. Johnston Cooney, aged 77, of the Bethel neighbourhood, fell from the wheat mow to the ground floor, a distance of fifteen feet, falling under the horses feet. He was picked up for dead, but is slowly recovering, though he is suffering from distressing bruises. His many friends will be glad to hear of his escape from sudden death.

PERSONAL.

Mr. Richard Hall came down from the Lakes last evening.

Mr. H. P. Kennedy went back to Stony Lake again this morning.

The Jaffray Camp at Stony Lake has been broken up for the season.

Mr. and Mrs. W. H. Bradburn are in from the lakes for a day or two.

Mr. W. Salisbury, who has been spending a few holidays at Burleigh Falls, has returned to town.

Rev. A. T. Dykeman, wife and daughter, are guests of Mr. Geo. Cochrane, at his cottage at Eagle Mount.

Miss Mya Henderson, Park street, left to-day for a month's visit to her uncle, Mr. John Hyland, Oshawa.

Rev. Father O'Brien, of Peterborough, says the Lindsay Post, is the guest of V. Rev. Vicar General Laurent.

Mr. J. D. Riddell, steamship agent, Stratford, representing the Thomson and Donaldson lines, is in town to-day.

Miss Cahill and Miss Gillespie returned from spending their holidays at the Isle of Ely, Stony Lake, yesterday afternoon.

Mr. Ad. Ferguson, of Chicago, is home on a holiday, and is up with his father, Mr. W. G. Ferguson, at Boschink, Stony Lake.

Miss Abbie Robinson has returned after spending a few days at Camp Kimo, Stony Lake, with her uncle, Mr. Piper, Toronto.

Mr. Harry English, of Keene, was in town to-day on his way home from Lakefield and Stony Lake, where he has had a delightful outing.

Mr. Alf. Terrill returned home last night after spending an enjoyable week at Tecumseh Lodge, the summer cottage of Mr. J. B. McWilliams, Stony Lake.

Mrs. (Dr.) Hodge, of London, accompanied by her son, Ray, passed through this morning on their way to Tecumseh Lodge, Stony Lake, where they will be the guests of Mrs. J. B. McWilliams.

Mr. F. J. Jameson, manager of the EXAMINER office, Peterborough, wife and two children, who have been in Cobourg for the past week or ten days, returned home this afternoon.—Port Hope Guide.

Mr. H. P. Strickland, son of Mr. R. H. Strickland, Lakefield, has just returned from the west, where he graduated in the Michigan Mining School. He will accompany his brother, Inspector Strickland, on the latter's return to Klondyke.

Professor Montgomery returned to Toronto yesterday from Hasting and Peterborough counties, having succeeded in gathering a good collection of the minerals and ores of that region. During the trip he visited Madoc, Marmora, Belmont and other townships, and viewed many of the mining claims and quarries.

Dr. and Mrs. Spier, who have been spending a few weeks at the summer residence of the latter's father, Mr. Richard Hall, at Stony Lake, returned to Montreal this morning. Their friends will be pleased to learn that the baby is recovering nicely from the attack of blood poisoning which threatened its life when at the lake.

The members of Sans Souci Camp, who have been tenting for the last few weeks at Lovesick, passed through yesterday on their way home, the camp having broken up for the year. This season the party was composed of Dr. and Mrs. Forster, of the Rockwood Asylum, Kingston; Dr. and Mrs. Barker, of the Mimico Asylum; the Misses Graham, Mr. Beatty and Mr. Albert Forster, Toronto, and Mr. Varley, private secretary to Hon. John Dryden.

Men's White and Fancy Duck Vests, single breasted, double cotton back pearl button, regular price $1 00 to $1 50, Grafton & Co's Summer Clearing Sale Price 50c. See them.

GOLD MINE BOOM IN PETERBORO' COUNTY

The Precious ore Said to Exist at Stony Lake.

ACTIVE OPERATIONS TO BEGIN AT ONCE.

Mr. J. B. McWilliams Will Put a Gang of Men at Work Sinking Shafts in Burleigh Township Next Week—Mr. Richard Hall has Reason to Believe There is a Gold Mine Underneath His Summer Cottage.

The Klondyke and British Columbia are are apparently not to have a monopoly of the gold craze, as a boom in this line is evidently about to be inaugurated in the the northern portion of Peterborough County, where, hitherto, at certain spasodic inter-vals operations have been commenced only to be abandoned after a few weeks work.

Evidences at present, however, strongly indicate that operations on a big scale will be undertaken immediately and will not be abandoned until it is definitely ascertained whether or no there are deposits of auriferous ore in the particular portion of the county in which investigations are to be conducted.

Mr. J. B. McWilliams has come into possession of over 300 acres of land in the adjoining townships, Harvey and Burleigh, just at the head of Stony Lake, and purposes to put a gang of men at work next week to sink shafts at various points where he has reason to believe that

GOLD CAN BE FOUND

in quantities sufficient to pay for its mining.

There is a story connected with the purchase of these lands which lends a peculiar interest to the deal. It seems that about twenty years ago one of the clerks in the Crown Lands Department at Toronto, persistently dreamt of gold deposits which were to be found in North Peterborough. Although he had never been in the county he is said to have had it revealed to him in his vision that the ore was to be found in the west half of lots six and seven in the first concession of Burleigh township. So often did the dream recur to him that he finally purchased the land, but he never had an opportunity of ascertaining whether his dream had any special significance, as he died shortly afterwards.

About the same time as the land was purchased by him, a couple of men landed on the shore at the head of Stony Lake and commenced mining operations at the identical spot where the Crown Lands clerk dreamt that the gold was to be found. Whether they knew of the dream or were merely prospecting is not known, but after spending several hundred dollars in blasting operations they abandoned the place.

The heirs of the purchaser of the lots having no faith in dreams, allowed the property to be sold for taxes, and the lands thus passed into the possession of

MR. J. B. M'WILLIAMS.

Last week two mining experts, who claimed that they possessed an instrument which was infallible in the detection of gold ore, were taken up to the head of the lake. The instrument was set up and indicated that several large veins of ore existed in the lots in question, one of the veins running up to within a few feet of the spot where the former prospectors had ceased work.

Messrs. W. H. Meldrum and A. L. Davis witnessed the test and stated that at certain points the instruments indicated the presence of gold in such quantities that the placing of a gold watch in proximity to the indicating needle failed to divert it. The experts were of the opinion therefore that the ore was even more rich and possessed of a stronger attraction for the magnetic needle than the gold in the watch.

On Monday week next a gang of men will be set at work to open up the veins under the superintendence of Mr. Theodore McWilliams. A steam drill will form part of the plant.

The result of the first week's work will be awaited with interest, as in that time the shafts will be sunk deep enough to give an idea as to the advisability of continuing the operations. A large party from town visited the proposed mining site on Monday last.

MR. RICHARD HALL,

as the result of tests which have been made of the rock on his island in Stony Lake is of the opinion that he is camping over a gold mine of considerable richness.

A couple of weeks ago he picked up a pretty piece of quartz on the shore and, thinking that certain glittering specks in it closely resembled gold, he forwarded it to Toronto to be assayed. Word was received confirming his belief in the presence of gold in the quartz, but information was also given to the effect that the precious metal was not present in sufficient quantities to pay for its mining.

Yesterday on another portion of his island, Mr. Hall unearthed some more of the ore, and on delving deeper it appeared to increase in richness. He selected one of the heaviest looking pieces of those which seemed to contain the most ore and brought them to town last evening in his satchel. This morning he forwarded them to Toronto to be assayed, and states that this quartz is far richer in appearance than the samples which he sent to the assay office a few weeks ago, and he has every hope of receiving such information as will justify him in beginning mining operations on an active scale at once.

OMEMEE.

From our own Correspondent.

The harvest was very well saved, until these rains which have somewhat interfered.

The death of W. J. Balfour has caused a gloom over this village and country. His death was caused by the puncture of a rusty nail only a few days since, resulting in lock jaw and blood poisoning.

Mr. Spellman, proprietor of the Omemee House, is fast establishing the hotel, in whose management he is entrusted, as one of the most orderly, best-kept village hotels in the province, and the proprietor says Omemee is not so bad a place after all.

The Y. P. S. C. E. social booked for the 21st, promises to be the social event of the season. Many bicyclists will meet from Lindsay and Peterborough at this centre. Good programme, illuminations and the best of refreshments.

Our band attended the excursion to Toronto via Port Hope and were delighted.

If the Peterborough excursionists on Civic Holiday, would extend their tickets to here many would take advantage of the cheap rate.

STONY LAKE NOTES.

Disciples of Izaak Walton Are Having a Glorious Time.

A party of tourists from Franklin, Pa., are spending a few weeks at the Burleigh Falls Hotel. On Tuesday they went up to Deer Bay and caught one hundred and twenty-five black bass and eighteen lunge, all of which were brought into the hotel in the evening.

This is probably the biggest authentic catch of the season, but Mr. N. H. Leplante almost equals it, being credited with landing fifty bass, all weighing over three pounds, in Lovesick, last week.

It is years since the fish have been known to bite so freely and many cottagers report fine catches from their own wharf.

Mr. Chas. H. Winch landed the biggest bass of the season yesterday morning when he hooked one which tipped the scales at five and a quarter pounds. He packed it on ice to be forwarded to friends in Montreal.

A party of ten old Upper Canada College boys, who are occupying Kenmore, are making things lively up at Stony Lake, as there are generally more ladies than gentlemen at the functions, which take place in the evenings.

A big excursion was run from Bowmanville, Whitby and other points on the Grand Trunk to Burleigh on Monday by the Sons of England. Mayor Yelland boarded the boat at Gordon's Island and accompanied the excursionists to the head of the lake.

Grasshoppers are being used for bait but they are apparently difficult to capture, as a chase of two and a half hours' duration near Burleigh resulted in the capture of but three.

A large number from Peterborough are expected out to the regatta on the 19th and 20th.

Arrangements are being made for the annual football match between Young's Point and the cottagers.

On Monday morning Inspector Strickland, from the Klondyke, accompanied by his father, Mr. Roland Strickland, and a party of friends from Lakefield visited "Belle Chasse" the summer residence of Mr. Harry LeBrun, at the lake. Needless to say, the visitors were entertained with Mr. LeBrun's proverbial hospitality. They returned to Lakefield by the evening boat.

HARVEY.

From Our Own Correspondent.

On Wednesday last while Henry Parker was engaged in cutting slabs in Davis' mill, he had the misfortune to cut one of his fingers off and nearly lost his whole hand. He was driven up to Bobcaygeon and Dr. Baker dressed the wounds. His hand is doing well now. The mill is getting a reputation this summer, for quite a number of the men have met with accidents.

Mr. and Mrs. R. Kennedy, of Lindsay, have been visiting with J. P. Davis.

Miss Annie Cairnduff has been spending the past week in Bobcaygeon, visiting at J. T. Robinson's.

Will Brandon, of Reaboro, spent Sunday at the Creek.

Mr. John Crowe went down to Peterborough Saturday afternoon and returned on Sunday.

Miss Martha Krager is visiting friends in Fenelon Falls.

Ethel and Katie Ventress have returned home after visiting friends in Reaboro.

There are very good prospects of having a plentiful harvest this year.

Miss Lena Harris has gone to Bobcaygeon to reside.

THE "EXAMINER" AT SUMMER RESORTS.

The DAILY EXAMINER is sent to summer resorts addressed to individuals at thirty-five cents per month. Persons leaving town for their holidays can have the EXAMINER addressed to them for as short a period as one week by applying at the office, 419 George street.

Novelties in Chairs.

Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round Every new thing quick as it appears. d

Sample Nuggets.

The Klondyke gold hunters have exhibited sample nuggets from the inexhaustible gold fields up in that polar country. H. LeBrun & Co. are exhibiting some rare nuggets in bargains during their August sale, of which the following are bonafide samples: Genuine Tweed suits, made to order, for $12, easy worth $15. Genuine Worsted suits, made up to your measure, for $16, easy worth $19. Good business trousers, skillfully cut and fitted to your order, for $2.75, $3.25, $3.75. All our stock of tweeds, worsteds and other first-class cloths reduced to clearing sale prices. Just received a lot of new and well made boys and young men's suits, bought at 40 per cent. reduction, and will be sold equally below their value. H. LEBRUN & Co.

The Wabash Railway Trains

They include free reclining, palace, sleeping, and dining cars of the latest and best patterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

GOLD IN BELMONT.

Another Fine Property Opened—Belle Gentlemen Interested.

Some splendid mining property is now owned by the Belmont, Gold, Silver and Lead Mining Company, and the reports are very favourable indeed. The gentlemen who comprise the company are; N. Ostrom, Belleville; B. Osterhout, W. C. Chisholm, W. H. Phillips, W. H. Hubbel, Stockdale; B. B. Ostrom, Frankford. Their mineral property carries a very rich free-gold vein, which runs across the entire lot of 100 acres. The property is situated on the east side of Belmont lake, three miles from Deloro and one and a half from the Ledyard. About forty rods from the gold vein is a splendid vein of silver-bearing galena, which shows 72 per cent. lead, 5 per cent. of silver and traces of gold. The mine was visited on Saturday by Mr. Aunger, who located the Ledyard and the Richardson mines. He pronounced it one of the best mineral claims in the entire district. The company have a gang of men at work developing the property, and intend to push it on rapidly.

Nothing Hunts Out Corns

Like tight boots. A sure, certain and painless remedy is found in Putnam's Corn Extractor, which removes the worst corns in twenty-four hours.

EITHER PARTY—

The Lady OR Gentleman—Can buy the Marriage License now, according to a new amendment in the law. It is, therefore no longer necessary for both contracting parties to make affidavits. If you want the document drawn up in the latest improved style, consult **W. J. GREEN**, Issuer of Marriage Licenses and Wedding Suits, 145 Hunter St., Peterborough.

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 333 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c Remember the address—

A GRAND SPECTACLE.

The Military Review Under the Grand Duke Vladimir's Command Was Great.

St. Petersburg, Aug. 9. The military review at Camp Krasno Szelo, was a grand spectacle and came off in brilliant weather. The troops, under the command of the Grand Duke Vladimir, were drawn up in a square in the centre of which was the Imperial tent. The German Emperor wore the uniform of the St Petersburg Grenadier Guards and the Russian Emperor that of a Colonel of the Guards. The Dowager Czarina, the Czarina and the German Empress were seated in a four-horse carriage, and, after driving along the front of the hollow square, took a position directly in front of the tent from which point they watched a gorgeous and picturesque march past.

Emperor Nicholas led the guards in front of Emperor William, the Grand Duke Vladimir and the other Grand Dukes, riding behind the Czar, who subsequently led the Preobrajensky Regiment by the Kaiser. The latter cried in Russian: "I greet you, my brave fellows." The men saluted His Majesty in response. Then Emperor William led the Viborg Regiment past the Czar, followed by the Grand Dukes, each leading his respective regiment. The whole review came to a glittering finish with a march past of house guards and Cossack artillery.

Emperor William highly complimented Grand Duke Vladimir on the fine appearance of the troops and the precision of the movements, and he subsequently decorated General Van Nevsky with the order of the Black Eagle, and General Obrutcheff, chief of staff, with the Grand Cross of the Red Eagle, set in brilliants.

After luncheon Their Majesties drove to the Peterhof Palace and, after dining there, witnessed a beautiful open air ballet on Olga Island.

Trade is Improving.

London, Aug. 9. The Board of Trade shows an increase in the imports of £1,745,365 and an increase in exports of £142,313.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

Treatment of Brushes

It is often necessary, owing to fear of the brushes being improperly dried when away from home, that these should not be put into water. They then may be thoroughly cleansed with flour. Have the flour perfectly dry and plentifully rub it into the bristles. Let the brushes stand for an hour or longer, then shake the dust out on an old tray or newspaper, after which use a clean comb, running it briskly through the bristles as though combing them out. A second rubbing of the bristles with pulverized magnesia before the combing, if the bristles are very much discolored, may be used. This will be found a most effectual mode of cleansing bristles.

Cherry Stones as Bedwarmers.

Cherry stones are saved by careful housewives for the winter, for sewn into a bag of soft flannel they are the nicest bed warmer for a cold night that could possibly be imagined. Cherry stones will keep the heat longer than waterbags or bottles and are pleasanter on account of their being soft and pliable. When warmed on a stove with the necessary care, so they will not burn, they will keep the heat for a number of hours. Smaller bags made in the same way can be used to advantage for local applications of heat, handwarmers to be carried in muffs or for the warming of shoes.

How Bread Is Kept Fresh.

The practice of wrapping each loaf of bread in oiled papers when it is taken from the oven and sealing the knot of the string holding the paper, as is done in a few first-class shops on the other side, is desirable for protecting bread when the loaf has to be handled many times in the process of delivery. The bread is protected from dust and handling as well as the possibility of bacilli, and the paper prevents the moisture in the bread from escaping and keeps the bread fresh.

To Keep Salt Dry.

In summer salt is likely to be affected by the dampness. If a teaspoonful of pulverized arrowroot or cornstarch is mixed with each half dozen teaspoonfuls of salt it will not be affected by the temperature.

After a Severe Cold.

"Hood's Sarsaparilla has cured me of scrofula. I was weak and debilitated and Hood's Sarsaparilla built me up and made me strong and well. After a severe cold I had catarrhal fever. I again resorted to Hood's Sarsaparilla which accomplished a complete cure." SARAH E. DEVAY, Annapolis, Nova Scotia.

Hood's Pills are the favorite family athartic, easy to take, easy to operate.

Cancer can be Cured.

For six years I suffered from cancer, and got no relief until I used Burdock Blood Bitters. I used seven bottles faithfully, when the cancer gradually dried up and finally disappeared. I am now entirely well and rejoice that by using B. B. B. I have escaped death either from the surgeon's knife or from the cancer itself.

Signed, MRS. ELIZA J. TUFFORD, Paris, Ont.

CANNING VEGETABLES.

Peas, Beans and Tomatoes Cheaply and Deliciously Preserved.

The manner of preserving vegetables for winter use is now so simple that one prefers to prepare her own and have them in glass jars, these being better than the vegetables to be purchased in tin cans and less expensive, for the jars may be used a number of years with the addition of only new rubber bands.

An important item is to make sure that the jars and covers are perfectly fitting, thus being airtight. When filled they should be kept in a dark, cool place.

Green peas claim attention very soon, as the early pickings seem the sweetest and best for early canning. Wash the peas and reject all imperfect ones. Fill the jar with the peas, shaking them down closely and filling it to the brim. Pour over the peas cold water, letting every little space between the vegetable be filled. When no more bubbles come on the water and the jar overflows fit the covers on securely. Stand the filled jars in a boiler of water, placing them upon a wooden rack or something to prevent their coming directly into contact with the bottom of the boiler. Place the boiler over the fire, and let the water boil over the jars for three hours. If the water in the jars evaporates so the jars are not full, upon no account remove the covers to fill them up; the vegetable will be best left as it is. If the cover is loosened during the process of boiling, it must be screwed on as tightly as possible when taken from the water.

String beans may be treated in the same manner, except that less boiling is required for this vegetable. Cut the stem and tail from the beans and string them; then cut the beans into strips lengthwise and then in halves, or, if preferred, cut them into pieces about one inch long. Put the cut beans in the jars, filling them very full, and pressing the vegetable down closely before pouring in the cold water; then proceed as with the peas, boiling the jars containing the beans a shorter time; two hours will be sufficient.

Ripe tomatoes may be canned whole, and kept perfectly, without the usual cooking. Drop the fruit into hot water to loosen the skin. When the peel has been removed, take out the stem end so no green remains. Pack as many of the peeled tomatoes in the jar as can be put in, having them whole if possible, though any too large may be cut into halves. Press the tomatoes as closely together as possible without breaking them. Turn over the packed fruit boiling water, pouring it in slowly, so the liquid will run into all little crevices, and allow the jar to overflow before screwing on the fitted cover. As each jar is filled with the boiling water and covered, stand it in a tub, boiler or some large vessel that has been filled with boiling water, having the water deep enough to cover the jars. When all the jars are in the water cover the vessel holding them with a rug or black cloth and let it remain until the water is quite cold. As the jars are taken from the water tighten the covers if they have become loosened, but on no account lift them off. When the jars are opened to use the fruit the surplus water may be drained out and not used.

This manner of preserving tomatoes which has been well tested without the loss of a single jar, the fruit coming out fresher and nicer than when cooked as in the former mode of canning.

Suggestion to Housekeepers.

To make camphorated oil get ten cents worth of sweet oil and put five cents worth of camphor into it. Shake frequently, and in a week or two you will have an excellent camphorated oil, good for aches and pains.

A secret given away without price. If dinner is late get the table set. If the plates are on the table the most impatient man will possess his temper over twice the delay that he would endure if this outward and visible sign for the coming meal were not apparent.

When the new rag carpet comes home from the weaver's, measure the length of the breadths. Then run four rows of machine stitching across each breadth. Cut between the rows, two on each side, and it will not ravel. In making up an ingrain carpet the same plan is advisable.

If you have cooked cornmeal mush, instead of filling the kettle with water to soak after it is emptied, set it on the back of the stove where it will keep pretty warm, and let dry. In a few hours the mush will have dried and is ready to peel off, leaving the kettle so that an ordinary washing will clean it.

An exchange suggests, as a method of preventing rich cookie dough from sticking to the moulding board, to cover the board with thin unbleached muslin, pat on without a wrinkle, dust it well with flour, then roll out the dough. We know a much less troublesome method than this, and it is very simple. Don't make rich cookies. Then you'll have no trouble with them.

A man may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the whites of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation. The quickest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

Address with 31 cents in one-cent stamps to cover cost of mailing only, World's Dispensary Medical Association, Buffalo, N.Y., and get a free copy of the "Medical Adviser."

A Summer Specific.

Dr. Fowler's Extract of Wild Strawberry cures cholera, cholera morbus, diarrhœa, dysentery, cramps, colic, summer complaint, canker of the mouth and all bowel complaints of children or adults. It is a soothing, effectual and never failing medicine, which gives immediate relief and speedily effects a cure.

"How to Cure all Skin Diseases."

Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman Sons & Co., Montreal wholesale agents.

To remove worms of all kinds from children or adults, Dr. Low's Worm Syrup is a safe and sure remedy.

HAS SEEN ANDREE'S BALLOON.

Another Manitoba Farmer Has Seen the Air Ship Easy Road to the Yukon Winnipeg Notes.

Winnipeg, Aug. 9.—Another Manitoba farmer writes The Free Press here that he has seen Andree's balloon. Why Andree persists in floating around Manitoba barnyards is a conundrum.

Frank Oliver, M. P., of Edmonton, telegraphs that a hunter named Smith went from Hudson Hope, on Peace River, to the Pelly River, in twenty-nine days. This achievement proves that an easy road can be made to the Yukon overland.

Manitoba farmers are anxiously awaiting the arrival of harvest hands by excursions from Toronto and Montreal. The harvest is ready and there are scarcely any laborers. All available men have been sent to work at the Crow's Nest, and many more are required there also.

Winnipeg people are awaiting with much curiosity the anticipated announcement from Rome regarding Merry Del Val's investigation on the school question.

The C. P. R. is arranging for additional grain storage accommodation at Fort William. Manager Whyte has gone to superintend the work, and he will be joined there to-morrow by Vice-President Shaughnessy, who is coming west to inspect the Crow's Nest Pass work.

Barns Burned by Lightning.

Seaforth, Ont., Aug. 9.—On Sunday afternoon the barns of William Lockhart of McKillop Township, near Seaforth, were struck by lightning and totally destroyed, with all contents. Insured in the McKillop Mutual.

Despondency and Death.

New York, Aug. 9.—William G. Read, jr., of the stock and bond firm of Read, Parsons & Co., killed himself by shooting to-day at his office in the Edison Building. Despondency brought on by illness is the reason assigned.

French Police After Anarchists.

Marseilles, Aug. 5. While searching for houses here of a number of Anarchists, who were suspected of conspiring to cause an explosion, the police seized a large quantity of explosives and secured evidence which will lead to many arrests.

Has received more honest, unsolicited testimonials from reputable people, than any other remedy of the age.

*** 1871 ***

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

*** 1897 ***

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

A. STEVENSON, Secretary.

The woman who kills her babe by neglect of the health and vigor of her own womanly organism during the period preceding motherhood, is innocently and without realizing it, as much responsible for her child's death, as the mad woman who slays her babe after its birth. Thousands of babes are still-born every year because women innocently and ignorantly neglect, during the expectant period, to take proper care of the delicate and important organs that bear the burdens of maternity.

There is just one known medicine that prepares a woman for capable motherhood. It is Dr. Pierce's Favorite Prescription. It acts directly and only on the organs concerned in motherhood making them strong and healthy. It imparts to them vigor and elasticity. It allays inflammation, heals ulceration, soothes pain and gives rest to the tortured nerves. It does away with the discomforts of the expectant period, and makes the coming of baby easy and almost painless. It insures the health of baby. Over 90,000 have testified to its virtues. All good druggists sell it.

"In the fall of 1895," writes Mrs. N. A. Thomas, of 400 Pulaski St., Little Rock, Ark., "while on a visit to Texarkana, Ark., I was taken with a severe pain in my head and was hardly able to get home. I was prostrated for four weeks, not being able to sit up. During that time the doctors failed to give me any relief whatever. At length I was induced to try Dr. Pierce's Favorite Prescription. One bottle cured me entirely. I felt relieved after the first three doses, and have never felt the pain since. I send this testimonial that others may be benefited by it. Yours with a thousands thanks."

It is as much a woman's duty to look after the health of the family as to care for the cleanliness of the home. Dr. Pierce's Common Sense Medical Adviser enables her to do this. It contains 1,008 pages and 300 illustrations, and is written in language that any one may understand. Over a million women own copies. A new edition is just out and for a limited time copies will be given FREE to those who write for them. If you want a paper-covered copy, send thirty-one one-cent stamps, to cover the cost of customs and mailing *only*, to the World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y. For cloth binding, send 50 stamps.

AN AFRICAN SETBACK

THE DEFEAT OF THE DHANIS EXPEDITION

May Imperil Its Civilization—Grewsome Cannibalism—"The Fall of the Congo Arabs," a Striking Tale, by Captain Sidney L. Lynde.

During the month of June this year newspapers published the cable news of the total annihilation of the second and secret expedition led by Baron Dhanis from the Congo Free State to the headquarters of the Nile. Every member of the expedition (6000 in all) is said to have fallen. An additional horror is cast over the news by the surmise that most of them were roasted and eaten by the conquerors. For cannibal tribes abound in the region of the Congo Basin, where Baron Dhanis and his six thousand men were cut to pieces.

By a curious coincidence, fast on the heels of this grewsome news the Messrs. Whittaker publish an account of the Baron's first and successful expedition for the mastery of the Congo Basin. It

BARON DHANIS.

is entitled "The Fall of the Congo Arabs." The author is Captain Sidney Langford Lynde, who was second in command under Baron Dhanis. The expedition started out in 1892, under the auspices of the Belgian Government, and was for two years engaged in a deadly warfare with the Zanzibar Arabs and the native tribes under their domination.

The Zanzibar Arabs are the most noted slave hunters and slave dealers in the world. Their native allies are nearly all cannibals.

Despite all opposition the Arabs had succeeded in converting the Manyema and Malda country, which was the scene of their operations, into one of the most prosperous in Central Africa. Although the Manyema country was within the treaty frontiers of the Congo Free State it really forme dan imperium in imperio. More than this, the nominal vassal threatened the very existence of the white empire. When, therefore, the Arabs and their vassals rose in revolt against the whites the very triumph of civilization in the Congo Basin was at stake. Had the attempts of the Arabs succeeded it is probable that the Free State would have been replaced by a Mohammedan empire analogous to that of the Khalifa in the Soudan. Here the slave trade would have been established on a firm and durable footing, and as a tribute to their allies, cannibalism would have been allowed to flourish at the will of the natives. But circumstances combined against the Arabs. In their attempt to obliterate the white man's influence in Central Africa they precipitated their own downfall and brought about the destruction of a power which, though not so indicated on our maps, was virtually an independant rival of the Congo Free State.

The destruction which has overtaken the second expedition of Baron Dhanis is not at all likely to lead to the immediate restoration of the power of the Arab traders. That expedition, so far as it is possible to lift the veil of secrecy which conceals it, was directed against the Mahdists of the Soudan. Only incidentally did it bring the Belgians into conflict with the enemies whom they had well nigh crushed out of existence in 1892-94. Nevertheless, the catastrophe will be seen those enemies to new efforts against the white race. It may lead to a fresh combination against the Congo Free State. At all events, it is a distinct setback for civilization and Christianity; it is a distinct gain for Mohammedanism and for the slavery which Mohammedanism encourages and the cannibalism at which it connives.

That the inhabitants of the Manyema countries are cannibals was reluctantly conceded by Livingstone in 1869. He had been disposed to discredit the reports that had come to his ears from neighboring States. But actual contact with the people convinced him that these reports were true.

In summing up the question of cannibalism, Livingstone finally came to the conclusion that, among the Manyema at any rate, a depraved appetite could alone account for the custom, since the country was rich and full of foods (both animal and farinaceous), and starvation or want of animal matter could not be urged as a defence. "And yet," said Livingstone, "they are a fine looking race; I would back a company of Manyema men to be far superior in shape of head, and generally in physical form, too, against the whole Anthropological Society. Many of the women are very light-colored and very pretty."

This looks like a pretty hard hit at the mental and bodily charms of the Anthropological Society.

The reports of Captain Lynde, who, it should be remembered, is not merely a military man, but a medical and scientific authority, are even more appallingly interesting. As the result of the observations made four years ago, he says that nearly all the tribes of the Congo Basin either are or have been cannibals. Among some of them he found the practice to be on the increase. Nay, the very entry of the Europeans into the country, by increasing the facilities of intercourse between the various tribes, has aided in the spread of cannibalism to natives who had hitherto been guiltless. Formerly the people who wandered from their own neighborhood among the surrounding tribes were killed and eaten and told no tales. Now that safeguards have been thrown around travelers, they return to their own people to enlighten them by showing that human flesh is useful as an article of diet.

Captain Lynde noticed curious preferences among individuals as well as among tribes for various parts of the human body. "Some cut long steaks from the flesh of the thighs, legs or arms; others prefer the hands and feet; and though the great majority do not eat the head, I have come across more than one tribe which prefers the head to any part. Almost all use some part of the intestines on account of the fat they contain; for even the savages of Central Africa recognize, in common with our own cooks, that fat in some form is a necessary ingredient of different dishes." They also held that a special gusto was added to the flesh by breaking the arms and legs of the victim three days before the banquet. He was then placed in a stream, or pool of water, chin deep, with his head tied to a stick to prevent him from committing suicide, or perhaps from falling asleep and thus getting drowned. Of the third day he was taken out and killed, the meat then being very tender.

While the expedition was at Lucambo, where Captain Lynde joined Commandant Dhanis, the commissary of the district found that a regular human traffic was being carried on; the people on the upper river—the Basongo—themselves cannibals, being in the habit of selling slaves and children lower down the river to the Basongo Meno for food. He therefore ordered the sentries on the river to take or fire on any canoes descending the river with children on board, and after catching a few succeeded in stopping the traffic. Some of the people belonging to Panin Mutumba (the chief of the tribe in question up the river) accompanied the commandant in an attack on Gongo Lutete.

And all SUMMER COMPLAINTS of Children or Adults.
PRICE, 35c. Beware of Imitations

A CONSTABLE TALKS.

Like Ordinary Mortals Subject to Kidney Disease but Easily Cured by Dodd's Kidney Pills.

STAYNER, (Special), Aug. 2.—Mr. James K. Nesbitt, a county constable of this place, having suffered for a long time with kidney disease, he became aware that the doctors called it diabetes and incurable. As he had the good fortune to know that many cases of this disease had been cured by Dodd's Kidney Pills this news did not startle him. He says he went straight to Sander's drug store, and commenced to get well on the first box purchased. Now he is going the usual rounds praising Dodd's Kidney Pills to every one who asks the particulars of his recovery.

Undoubtedly the Best.

GENTLEMEN, — I wish to say that Dr. Fowlers Extract of Wild Strawberry has proved a wonderful remedy in my family. We would not be without it for twice its price. I say it is the best (not meraly one of the best—but the best) medicine ever brought before the public for summer complaint or diarrhœa, either in children or adults.

JOHN UNDERHILL,
License Commissioner, Strathclair, Man.

Piles! Piles! Itching Piles.

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. Paris—Wheat 26f 25c for Sept. Flour 55f 40c for Sept. French country markets firm.

Liverpool—Close—Wheat dull at 6s 6d for Sept. and 6s 4¾d for Oct. and Dec. Maize dull at 2s 10½d for Sept., 2s 11¾d for Oct. and 3s 1d for Dec. Flour 22s 3d.

London—Close—Wheat on passage buyers and sellers apart. Maize on passage rather easier.

The confidence of the people in Hood's Sarsaparilla is due to its unequalled record of wonderful cures.

Wrong Heart Action.

Wrong action of the heart causes nervuoseness, nervous dyspepsia, shortness of breath and other distressing symptoms. Mr. Samuel Yelland, of London, Ont., was cured of these troubles by taking Milburn's Heart and Nerve Pills. Mr. Yelland says: "They are a remarkable medicine, and I have not been troubled in the least since taking them."

Mrs. T. S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitalizer Saved my Life. I consider it the best remedy for a debilitated system I ever used." For dyspepsia, liver or kidney trouble it excels Price 75c. Sold by John Nugent 399 George Street.

DOANS KIDNEY PILLS

Price 50 cents per Box, or 6 for $2.50. At Druggists, or Mailed on Receipt of Price by T. MILBURN & CO., Toronto.

CURE THAT COUGH WITH SHILOH'S CURE

TAKE THE BEST

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognized this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

Wild With Eczema

Hands and Limbs Covered with Blisters, and Great Red Blotches.

Scratched Until Almost Wild. Burned Like Fire. Sleep Impossible.

Cuticura Brings Speedy Relief, and a Permanent Cure at a Cost of $2.

I was a sufferer for eight years from that most distressing of all diseases, Eczema, but can now say truthfully that I am entirely cured. I tried some of the best physicians in the country, but they did me little good. The palms of my hands were covered, and would become inflamed; little white blisters at first would appear, then they would peel off, leaving a red, smooth surface which would burn like fire and itch; well, there is no name for it. On the inside of the upper part of both my limbs, great red blotches, not unlike fires, would appear, and as soon as I became warm, the burning and itching would begin. Night after night I would lie awake all night and scratch and almost go wild. I heard of CUTICURA remedies, got a box of CUTICURA (ointment), a bottle of CUTICURA RESOLVENT (blood purifier), and gave them a thorough trial, and after a few applications I noticed the redness and inflammation disappear; *before I had used one box there was not a sign of Eczema left.* I can truthfully assert that $2.00 worth of CUTICURA REMEDIES cured me. Any one I meet who has Eczema, I do not hesitate a moment in recommending your remedies.

JOHN D. PORTE,
1115 Carson St., Pittsburg, Pa.

INSTANT RELIEF AND SPEEDY CURE TREATMENT FOR EVERY HUMOR.—Warm baths with CUTICURA SOAP, gentle applications of CUTICURA (ointment), the great skin cure, and mild doses of CUTICURA RESOLVENT, greatest of blood purifiers and humor cures.

FALLING HAIR Pimply Faces, Baby Blemishes, Cured by CUTICURA SOAP.

C. P. R. EMPLOYEES' ANNUAL HOLIDAY.

BIG EXCURSION AND PICNIC AT "HUSTLING HAVELOCK."

Nearly 6000 Visitors — Successful but Rainy - List of Sports and Prize Winners.

Six thousand was the estimated number of visitors who pic-nicked at Havelock this year with the C. P. R. employees. "Hustling" Havelock had its hands full, and to their credit be it said, its citizens discharged their onerous duties in catering for so large a crowd with unalloyed pleasure to their visitors and distinguished honour to themselves.

Havelock is the "hub" of the C. P. R. between Toronto and Montreal—at least. Here the round houses stable the iron steeds as they come flying in, midway between the east and the west, and supply the throbbing trains with fresh flyers. A large proportion of the citizens of Havelock are composed of conductors, engineers, firemen, brakemen, railway mechanics and labourers. So that it was quite natural that the employees' annual holiday being "scheduled" for Havelock this year would be an event to be looked forward to with an unusual degree of interest.

The weather looked threatening at noon and just about 1.30, when the sports were to start, the rain began to come down and cooled off the "hot boxes," but it lasted only a short time. The rest of the afternoon was bright and continued so until about five o'clock, when the severest electrical storm that ever struck the town began, and lasted for an hour and a half, scattering the crowds off the grounds and compelling some of the events to be cancelled.

The trains in charge of the respective conductors as they arrived were all heavily loaded. The engines were a sight to behold—the boilers were like a flower garden, all prettily decorated, and long streamers of bunting adorned the sides. Wreaths and festoons of evergreens, relieved with gay ribbons of brilliant colours, were artistically arranged and almost hid the front of the engines.

Havelock was dressed in gayest colours. Throughout the town flags and bunting floated on almost every building. The streets were tastefully decorated and, at conspicuous corners, were spanned by arches of evergreens bearing appropriate mottos such as:—"Enjoy Yourselves," "Freedom to all," "The C.P.R. Forever," "Let 'er go—the Town's Yours," "A Merry Day for All," "Welcome," "Good Luck to the C.P.R. wherever she Shows her Headlight," etc.

By two o'clock in the afternoon the grounds of the Havelock Driving Park Association was alive with visitors.

These grounds are in excellent condition and would be exceedingly creditable to a much larger place than bustling Havelock. One part of the park is beautifully wooded, with maples chiefly, and the remainder is a fine smooth field well adapted to cricket, baseball, lacrosse, etc. The soil is a rich clay loam, the grass is nice and green and the trees thrifty.

The outer sides of the park contains the oval track, in very good shape. Of course it is new, as the "ballast" hasn't yet got settled, but it is withal well adapted firmly to speeding purposes. Part of the track is nidely cindered.

The following is a list of the sports and prize winners:

Quoits—1st A Wadsworth, $3; 2nd Geo McKay, $2; 3rd Wm Jones, $1.

Putting heavy shot, 18 lbs, Employees—1st, D McEnenery, gold plated chain, $5; 2nd hall lamp, (Phillips Bros, Havelock $4; 3rd, P Gorman, silk umbrella, $1.50.

Running broad jump, Employees—1st, W Kells, (a b, $3; 2nd, D McEnenerney, $2; 3rd, P Gorman, $1.

Three-legged race, 75 yards, Employees—1st, Rooks and Haight, two pairs of boots and shoes, (Fennell & Son, Havelock) $5; 2nd, Simpson and Gorman, umbrellas, $3; 3rd, McEnenerney and Kells, flannel shirts, $2.

Two hundred yard dash—open—1st, F Thurston, cash $5; 2nd, W Heffernan, $2; 3rd, J Bluet, $1.

Boys' race—under 10 years, 75 yds, employees sons, 1st F Morrison, Waltham watch, (J A Fox Havelock) $6; 2nd F Childs, 4 yds brown tweed $4; 3rd J Andrews, two league baseballs $3; 4th Joe Sheridan, alarm clock $1.50.

Girls' race—under 12 years, 50 yds, employees' daughters, 1st Jessie Andrews, cruet $4; 2nd Maggie Drinkwater, letter cabinet $2; 3rd M Johnston, sterling silver bracelet $1.50; 4th S Chandler, gold brooch $1; 5th Maggie Ross, silk handerchief, (Gough Bros. Peterborough) 75c.

Married ladies' race—75 yds, employees' wives 1st Mrs Mollermott, set dishes (J Coon, Havelock) $3; 2nd Mrs Edwards, fruit dish (F C McMaster, Havelock) $4; 3rd Mrs A Nichols, pickle cruet $3; 4th Mrs Wick, pair ladies' boots, (A V Fuller, Havelock) $2.

Smoking race—employees, 1st J McInenerney, meerschaum pipe $5; 2nd W Kells, wooden pipe $4; 3rd E Hall, box of cigars $3.

Official starter—A. McAuley, Havelock. Mr. McAuley did his work in a satisfactory manner. He has officiated for a number of years for the C.P.R. games, and is always the right man in the right place. The series of events were conducted with admirable promptitude and good system, characteristic of "the greatest line on earth."

BICYCLE RACES.

(Under sanction of C W A.)

One mile—Employees—1st — Wilson, oak desk, $14; 2nd Chas Carey, Havelock, picnic basket $10.

One-half mile, open, time limit 1.30—1st — Wills, Toronto, Morris chair, $10; 2nd H M Taylor, Perth, oak arm chair, $8.

Two miles, open, time limit 5.40—1st Milo Walker, Peterborough, Marbellite eight-day clock, $12; 2nd Bruce Rickey, Peterborough, marbellite eight-day clock, $8. Time—6.20.

The boys' race and ladies' race had to be cancelled, the track being declared dangerous after the heavy rain.

Referee—D. W. Park.

Starter and time keeper—Geo. Spencer.

In the second last lap in the 2 mile open event, three of the riders were thrown at a sharp corner of the track.

BABY SHOW.

Nineteen babies were entered in this interesting event. The prizes were open only to children of employees, one year and under, and the exhibition of young C.P.R's was creditable to the whole management. The difficult position of judges fell to the lot of Rev. Father Conway, of Norwood, and Mr. P. Stephens, of Sharbot Lake. Rev. Father Conway in his official functions was an Aristides the Just, but that did not prevent mothers whose babies did not clear the distance flag—in fact, were side-tracked—from denouncing his judgment as flagrantly outrageous, especially in their individual case, for what mother is there that will admit that there is another baby on earth equal to or within gun-shot of her own particular cherub? But Father Conway's general popularity saved him. Just as the riot, occasioned by the maternal mob, of which the big thunderstorm was a very feeble imitation, began to assume threatening proportions, some kind friends interfered, and spirited the offending judge quietly out of harm's way. This left Mr. Stephens to bear the brunt, but as he had been very diplomatic in his share of the judging, he escaped with comparative impunity. The committee, to make sure of giving satisfaction at baby shows hereafter, should arrange to have first prizes for every mother's son of a baby exhibited, and then some will "kick" because their babies do not get diplomas in addition.

The names of the happy mothers who babes were awarded the prizes were as follows:

1st, Mrs Lang (twins) Havelock, tea and dinner set, decorated china, $9; 2nd, Mrs Webb, Havelock, cupid bronze lamp, $5; 3rd, Mrs Kimberley, Havelock, delf chamber set, $4; 4th, Mrs Jessie Cole, Havelock, lemonade set, $2.25; 5th, Mrs W J Boyd, Smith's Falls, cream and sugar set, $1.50.

The fourteen babies who were not successful were each presented with a suitable gift.

FOOTBALL MATCH.

A great deal of rivalry was manifested in the football match between the Norwood and Cornwall teams for a purse of $30. When the teams came together the excitement ran high and as the game progressed the combination work of the two teams was excellent. Every player was on his mettle and it was nearly an hour before the first goal was taken. It was won by Norwood on a penalty kick cleverly scored by Aendren. Before the second game was well under way, however, trouble between some of the opposing men was working up and finally culminated in a dispute between Hendren and one of the Cornwall boys. The crowd surged into the grounds and it was with difficulty that the men were separated. The referee repeatedly called the clubs to play, but Cornwall refused and what had really been a fine exhibition game ended unsatisfactorily.

The teams lined up as follows:

NORWOOD		CORNWALL
Wigmore	goal	Masterson
Jory	backs	Meldon
Breckenridge	backs	McDonald
Barlow	half backs	Ferry
Andrews	half backs	Brill
Ritchie	Centre	Roche
Stephenson	Centre	Primrose
Fraser	right wing	Ferry
Hendren	left wing	Hunt
Hendren	left wing	Charlebois
Graham		Rose

Referee—H. Minore, Norwood.

TUG OF WAR.

Another event which was watched with interest was the tug of war contest between employees of the different departments of the C.P.R. for the $60 silver cup. The rain which was pelting down had no effect in dampening the ardor of the contestants, and it was a long pull and a strong pull and a pull altogether. Result not announced.

Judges—Dr. Moffat, of Norwood, and Drs. Jeffs and Fowler, of Havelock.

VOTING COMPETITION.

The voting competition for the most popular conductor was full of lively interest. The votes were five cents each, and the whips of the respective candidates worked like Trojans. At five o'clock it was known, although not officially announced, that Mr. W. Nicholson, of Smith's Falls, won about four hundred votes to his credit. The prize was a very handsome silver plated conductor's lamp valued at $10.

THE MUSICAL PROGRAMME

was provided by the 48th Highlanders Band of Toronto, and the Citizen's Band of Smiths Falls. The selections during the afternoon by both bands were highly appreciated, and the appearance of the Highlanders attracted marked attention.

The C.P.R. employees won golden opinions from the citizens of Havelock by the way in which the whole programme was carried out. Hotels and restaurants reaped quite a harvest in the way of meals furnished to the visitors. The merchants, too, were liberally patronized, and Havelock will long remember the day the C.P.R. picnic came their way.

The thanks of the EXAMINER is tendered Mr. R. A. Bennett, the painstaking and obliging treasurer, for valuable press favours during the day.

The following gentlemen composed the Committee of Management, to whom the success of the day is largely due:

Geo. Spencer, chairman.
R. A. Bennett, treasurer.
G. W. Thornton, secretary.
Geo. Weeks, Asst. Secretary.
A. McAuley, official starter.

Committee—A. K. Kirpatrick, J. Drinkwater, T. Milne, E. J. Salisbury, G. A. Johnston, S. Hollyman, T. Baker, L. L. Ross, J. E. Rouleau, A. McAuley, A. Grant, W. B. Bamford, J. S. Hill, D. Montgomery, R. Preston, J. Mallory, A. Gordon, D. V. Hunt, J. E. Gordon, J. Evans, A. Clark, J. T. Pierson, W. S. Dodd, J. Duval, J. Carey, W. Bouskill, J. J. Scully.

The trains for the east and west, under the escort of trustworthy engineers and trainmen, moved homewards about 7.30, with their great crowds of excursionists, many of whom had sought shelter in the cars from the rainstorm for over an hour before their departure.

STONY LAKE.

(From Our Own Correspondent.)

The Cheese Instructor and Milk Inspector was at the Stony Lake factory on the 3rd inst. on his annual rounds, and reported everything satisfactory. The lowest test of milk was 3 3, and the highest 4.1—general average 3.6, which he considered very good.

Rev. Mr. Somerville and family, of Norwood, are stopping at one of Mr. I. N. Ackerman's cottages for a few weeks.

Mr. and Mrs. Wm. Nicholl, of Norwood, are the guests of Mr. and Mrs. Ackarman at Cliff Cottage this week.

Mr. Duffield, one of Norwood's jewelers, is erecting a cottage this week near Mr. Minaker's Lodge on Island No. 76.

Mrs. James Robb is visiting at her daughters, Mrs. A. McCullagh's, in Seymour, this week.

The farmers around here are making things hum this week in the way of saving hay that was cut during the recent rains, and cutting and saving grain. The harvest has come in very rapidly. The first thing you will hear will be a cry for more rain.

Mr. Samuel Bickell, of Peterborough, cheese box maker, paid the Stony Lake factory a visit on the 6th inst.

Dr. Chase Cures Backache.

Kidney trouble generally begins with a single pain in the back, and in time develops into Bright's Disease. People troubled with stricture, impediments, stoppage of water, or a frequent desire to urinate at night, will find Dr. Chase's Kidney-Liver Pills a blessing. Read the wonderful cures in another column. One pill is a dose, and if taken every other night will positively cure kidney trouble.

Baby was Cured.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of dirrrhœa after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. BOTT,
Barlow, Ont.

A GREAT BIG BROAD-GUAGE BUILDING SALE

Serious Disturbance to Business.

On next Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

THIS WEEK we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—BECAUSE WE HAVE TO.

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

CLEARING SALE

—OF—

LADIES' WHITE WEAR

—AT—

ROBERT FAIR'S.

Just now active preparations are under way to make room for New Fall Goods that are coming from every source. Our tables of popular priced Summer Dress Goods, &c., have proven a great attraction, and we now add to the already attractive array of Summer Bargains our whole stock of Ladies' Whitewear. It was only last January that we opened this important department to the Golden Lion, so that the stock is all as good as new.

The Ladies have found out with good reason that we have saved them money in White Wear of every sort, and one of the hardest things for them to understand is how such prices are possible. There's the cost of material and the cost of making, and here's the thing for less than the two foot up:—

NIGHT GOWNS—

Commencing at 50c.

85c Nightgowns for	.60
$1.00 Nightgowns for	.70
$1.25 Nightgowns for	.85

STORY AND A HALF, 13 x 16, WITH 3 rooms attached; well sheltered; good boat landing; situated directly opposite the store and west of Mr. Hull's cottage; nicely shaded with trees. Particulars on application to F. J. MOORE, Lakefield, or at the EXAMINER OFFICE. dtf

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 328 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c. Remember the address—

JAMES SUTHERLAND,
328 George Street.

We'd rather Miss Sc... than Miss Fits

How Are You Off For Trousers

Don't you find the pair you got with your new Spring Suit getting a little shabby looking?

Peterborough, Ont.

UNFORTUNATE SPAIN.

A Carlist Uprising is Not Said to be Imminent.

THE PRETENDER IS PATRIOTIC

So the Despatch Says, and Will Not Strike While the Country is Borrowing—Portugal Has a Rebellion on Hand—Open Revolt at Oporto—General Cable News.

Paris, Aug. 11.—The Matin publishes a statement which purports to come from a Carlist source, to the effect that 60,000 volunteers have been organized and are being rapidly armed in various provinces in Spain, ready to rise at the signal of Don Carlos. The pretender, however, according to this story, is restrained by patriotism, and will await the issue of the Cuban difficulty before making a bid for the throne."

REBELLION IN PORTUGAL.

Martial Law Proclaimed—Many Army Officers Arrested.

London, Aug. 11.—The Daily Mail publishes a despatch from Oporto, Portugal, which says that the town is in a state of open rebellion, and that the authorities have only maintained the upper hand by proclaiming martial law and arresting army officers who were ringleaders in the revolt. Considerable anxiety is felt at the British Residence, where there is a strong desire for an ironclad to insure safety.

TO SUPPRESS ANARCHISTS.

A Concerted Movement in Europe Suggested to that End.

London, Aug. 11.—More and more do signs appear of a concerted movement by the European powers toward a suppression of anarchy by force. The Kaiser and the Czar, within the last 48 hours, have reached an agreement upon this subject. The assassination of Premier Canovas made such a determination necessary in the eyes of these monarchs. The Italian press is demanding collective measures against the Anarchists.

Floods in Japan.

San Francisco, Aug. 11.—Japanese advices per steamship Peru are as follows: "Reports of floods continue to arrive from Fukui, Toyamagatta and neighboring prefectures. In the city of Fukui 4390 houses were inundated, and in one district men were drowned recently."

The Japanese tea merchants of Yokohama propose to hold an entertainment in celebration of the rejection of the tea duty by the United States Senate.

NOW FOR BLOOD AND HONOR.

Prince Henry of Orleans is Back From Abyssinia and a Duel is Probable.

Marseilles, Aug. 11.—Prince Henry of Orleans has arrived here on his return from Abyssinia. His seconds, M. Leontieff, a Russian officer, and M. Raoul Meurichon, a traveling companion, will meet in Paris the seconds of General Albertone, the Italian officer who has challenged the Prince to fight a duel, on account of the latter's strictures upon the conduct of the Italian soldiers in Abyssinia.

THE BODY OF CANOVAS EMBALMED

Marquis del Busto Officiated—The Premier Was Healthy and Had a Large Brain.

Madrid, Aug. 11. — The Marquis del Busto, the court physician, embalmed the body of Senor Canovas. The post mortem examination showed that the deceased was in an extremely healthy state and that the brain was unusually large. It showed also that any of the three wounds would alone have proved fatal.

At the special request of Senora Canovas, the body will lie in state at the private, instead of the official, residence of the deceased. The Government plan was for a lying in state at the official residence. The Queen Regent has ordered special mass to-day for the repose of his soul.

Next week General De Azcarraga, the new President of the Council, will go to San Sebastian to consult the Queen Regent.

President McKinley has cabled to the Spanish Government the condolence of the United States Government and the American people.

It is understood that General Martinez Campos is willing to go to Cuba should the Cabinet decide to recall Captain-General Weyler. There are also rumors that General Polavieja, former Governor of the Philippines, will be invited to succeed Weyler. But these are mere rumors, and thus far there is no indication of abrupt changes either in the administration of Cuba or in the constitution of the Cabinet. Senor Sagasta, Senor Morety Prendergast and Marshal Campos, with other statesmen and generals, favor the retention of the present Cabinet long enough to reorganize and to conciliate the Conservative groups.

The Government has decided to try the assassin by court martial. He still defiantly declares that other startling crimes will follow. The police and Government detectives are acting with redoubled vigilance, and the Government is in communication with foreign capitals on the question of the surveillance of Anarchists.

The special funeral train awaited the arrival of the cortege at Zumarraga. Almost at the very moment of the transfer of the coffin from the funeral car to the train a foreigner was arrested at the telegraph office. He is suspected of being an accomplice of the assassin.

Senora Canovas watched by the body of her husband for two nights, one night with Senor Castelar and the other with Senor Castellano. She absolutely refused to take either food or rest, but discussed all the details of the funeral, and only broke down on the road to Zumarraga, when a nervous fit was happily relieved by a flood of tears.

The Body at Madrid.

Madrid, Aug. 11.—The remains of the late Premier of Spain, Senor Canovas del Castillo, arrived here at 6.55 a.m. to-day from Santa Agueda. They were met at the railroad station by the Ministers, members of the diplomatic corps and the civil and military authorities of Madrid and its vicinity. Immense crowds of people were assembled at the depot.

The coffin was placed in the waiting room at the station, where prayers were said over the remains. The latter were then conveyed to the residence of the late Premier, escorted by a company of infantry, with band and colors. Inside the mansion a chapel had been arranged, with two altars, and masses were continually celebrated until noon, when the public were admitted to view the body.

Golli, the assassin, was taken to-day from Santa Agueda to Verzea, where he will be tried. On arriving at his destination, Golli said:

"My Calvary has commenced. A priest will try to convert me, and the usual comedy will be gone through. I remember what happened to the others," mentioning the names of all the Anarchists who have been executed in France and Spain.

Ca l to High eous Retribution.

London, Aug. 11.—The Executive Council of the Social Democratic Federation has passed a resolution that the death of Senor Canovas del Castillo, the Spanish Premier, was "at the hands of a self-sacrificing fanatic, and a righteous retribution for his cruel persecution and torture of Spaniards holding advanced opinions."

BRITISH TRADE WITH CANADA.

The Mother Country Bought More From Us Last Half Year Than Previous One.

London, Aug. 11.—(Telegram Special Cable.)—From statistics published to-day it is gleaned that British imports from Canada for the half-year ended 30th June last represented £4,750,000, as against £3,740,782 during the same period of the previous year. The exports for the six months were £2,564,087 and for the corresponding period in 1896 £2,349,509. Canada is the only British colony showing an increase in its exports to the mother land.

A despatch from Rome to-day announces that His Holiness the Pope gave audience to Sir Wilfrid Laurier, the Canadian Premier, at the Vatican this afternoon.

There is considerable conjecture here as to whether Sir Wilfrid will decline a decoration from the Pope.

McLeod Stewart's argument in favor of a water route entirely through Canada, per the Ottawa Valley, was most favorably received at to-day's conference at the Colonial Office. The route is the same that Sir John Michael and Admiral Hope traversed in 1865 at the request of the Imperial Government. Further meetings to discuss the project have been arranged.

The rumor has gained currency in certain circles here that a prominent titled Canadian widow is about to marry a well-known dean of the Established Church.

The possibility that doubt may have been expressed as to the genuineness of the rebel flag captured at Gallows Hill Toronto, and referred to by Sir Wilfrid Laurier in his speech at the National Liberal Club banquet, has elicited from Sir Robert G. Head the statement that he is prepared to vouch for the relic and to produce, if necessary, indubitable evidence in its behalf.

Marmol Must Leave France.

Paris, Aug. 11.—A warrant has been issued for the expulsion from France of Larrida Marmol, the Spanish Anarchist. In the course of a speech which he made on Sunday last at a special performance given at the Theatre de la Republique, for the benefit of the Spanish refugees in Paris, Marmol urged that Senor Canovas del Castillo, the Spanish Premier, should be assassinated. Marmol, who was formerly a prisoner in the Fortress of Montjuich at Barcelona, is believed to have gone to England. The French authorities have resolved to expel a number of other Anarchists from France.

A special despatch from Paris says that Planas, another leader of the Spanish Anarchists, has also been expelled from France, being conducted to Havre, from which port he will go to New York. Both Marmol and Planas called themselves Cuban patriots.

The Kaiser Dispensing Decorations.

London, Aug. 11.—A despatch to The Times from Berlin says that Emperor William has appointed Grand Duke Cyril, son of Grand Duke Vladimir, of Russia, a member of his naval suite, and Grand Duke Constantine Constantinovitch to be Colonel-in-Chief of the Guards of the Grenadier Regiment. He has conferred the Order of the Black Eagle upon Count Muravieff, the Russian Foreign Minister, and upon M. De Witte, Russian Minister of Finance.

Times Look Better in Buenos Ayres.

London, Aug. 11. According to a despatch to The Times from Buenos Ayres, the wool crop is officially reported as superior in quantity and quality to that of 1896; sowing wheat and flax are 50 per cent. better than a year ago, and the grain is described as in splendid condition. The weather is reported as favorable, but there is some fear of a visitation of locusts.

The English Harvest.

London, Aug. 11.—The Times, in an article dealing with the English harvests, says to-day: "The long drouth and the recent storms have considerably diminished the earlier prospects of the crops, but the net result of the reports and figures before us seem to indicate a harvest of fair average quality and quantity."

Faure's Visit to St. Petersburg.

London, Aug. 11.—The St. Petersburg correspondent of The Daily Telegraph says: "The diplomatic intrigue against the visit of M. Faure to Emperor Nicholas will result, I understand, in the dismissal of Baron de Mohrenheim, Russian Ambassador to France, and Count Lemues de Montebello, French Ambassador to Russia.

"General De Boisdeffre, chief of the French staff, who is to accompany M. Faure, will replace Montebello here, and will present his credentials to the Russian Government immediately on arriving, so as to be able to act as French Ambassador during Mr. Faure's visit."

Another Balloon Story.

London, Aug. 11.—According to a despatch to The Daily Mail from Copenhagen, Captain Mortensen of the barque Ansgar, bound from Dublin to Onega, at the mouth of the Onega River on the White Sea, reports that on July 15, when about two days' sail east of North Cape, the northernmost point of Europe, then being in Arctic waters, he saw a collapsed balloon, which he believed to be Herr Andree's.

The King of Benin Surrendered.

Lagos, West Coast of Africa, Aug. 11.—Dynmandi, King of Benin, who has been wandering in the bush since the destruction of Benin City by the British punitive expedition last February, has surrendered to the British authorities.

British Army Appointments.

London, Aug. 11.—The Daily Chronicle says it has been decided to appoint General Sir Evelyn Wood Adjutant-General, and Secretary George White Quartermaster-General.

BLAZE AT THE C. P.

Warden Gilmour's Apartments Considerably Damaged A Fireman Injured.

Toronto, Aug. 12.

The warden's apartments at the Central Prison, Strachan-avenue, were seriously damaged by fire early last night, and Foreman Abrahim Charlton of Dundas-street Hall was injured seriously while fighting the blaze.

The fire took place in a blind attic over the warden's building, which divides the right and left wings of the prison. Smoke coming through the roof was observed by some Massey-Harris workmen at 5.20, and Mrs. Gilmour who was in the burning building, also discovered the fire, and an alarm was given from the box at the prison.

The western section of the fire brigade responded quickly, but the fire was hard to get at. It was in an attic that has never been used for anything since it was on fire before, about ten years ago. The only entrance to the attic was through a small trap door, which could be reached with a step-ladder from the hall near the warden's sleeping apartments. The fire had got into the roof, and the water necessary to put it out flooded the whole of the apartments, and, although the damage by fire is only nominal, the water played havoc with the apartments underneath, and Dr. Gilmour estimates that it will take $5000 to put things as they were before.

When Dr. Gilmour was appointed warden a year ago, the place was thoroughly re-painted and renovated but the water has made an awful mess of it, the ground floors appearing like a miniature lake for an hour after the fire.

Fireman Charlton received his injuries at about 6 o'clock. He was in the attic, which was filled with smoke. There was no flooring on the place and no windows in it. The vast amount if water that had been poured in had weakened the plaster floor, and when Charlton trod on it he fell right through the rafters into the hall below. He was picked up unconscious and removed in the police ambulance to his home, 45 Bellevue-avenue. He has concussion of the brain and a nasty scalp wound. Dr. Harris, who is attending him, states that his condition is serious. No other firemen were injured.

Warden Gilmour is entirely at a loss to account for the origin of the fire. He showed The World man all through the building, and demonstrated how impossible it would be for a fire to start in the attic, unless it was caused by the electric wires which run through it. The attic contains a small lattice ventilator, and it is possible that a spark from one of the adjacent chimneys might have blown through, but that seems hardly likely. Dr. Gilmour was thankful that the fire did not occur during the night, in which event it would undoubtedly have gained a much greater headway before being discovered. The precious fire occurred during the afternoon.

The prisoners were somewhat excited when the fire was discovered, but they were told that it was not their position if the building, a fact that probably disappointed some of them.

FENIAN ROBERTS DEAD.

He Was President of the Organization When Canada Was Raided Under Gen. O'Neil in 1866.

New York, Aug. 11.—The announcement was made to-day of the death of William Randall Roberts, a former merchant prince of New York. Mr. Roberts was president of the Fenian Brotherhood at the time of the raid into Canada by General John O'Neill in June, 1866. For the part he took in that famous international episode, he was arrested by order of the President of the United States.

Wrenn Won at Chicago.

Chicago, Aug. 10.—Champion Bob Wrenn, by winning two games out of three, achieved a victory over Mahoney to-day in the feature match of the international tennis tournament at Lakefront. It was the only issue where America and England met. In the other matches Eaves defeated Collins, the western champion, in the easiest style imaginable, the score being 6—1, 6—0, and Nisbet defeated Eaves in two long drawn out deuce sets.

Scott's Emulsion is Cod-liver Oil prepared *as a food*. At the same time, it is a blood maker, a nerve tonic and an up-builder. But principally it is a food for tired and weak digestions; for those who are not getting the fat they should from their ordinary food; for children whom nothing seems to nourish; for all who are fat-starved and thin.

It is pleasant to take; at least, it is not unpleasant. Children like it and ask for more.

Some druggists have a "just as good" kind. Isn't the kind all others try to equal good enough for you to buy?

The Daily Examiner is delivered to it parts of the Town for 10c. a week 35c. a month. $2.00 fo six months.

Daily Examiner.

THURSDAY, AUGUST 12, 1897.

THE COLONIAL PREMIERS IN ENGLAND.

From the London (Eng,) Daily Chronicle.

The Colonial Premiers are leaving us, long before their welcome is exhausted, for their homes in Greater Britain, and we hope they will take back pleasant memories of their visit. To us in the old country their presence has been a source of the keenest possible pleasure. It has given us all a more direct and personal interest in the great self-governing nations where, under the old flag, Englishmen have found new homes and in some ways an ampler air. It has quickened the feeling of unity and brotherhood between the scattered branches of our race; and that is no small gain in days when sentiment is ordered on no account to show its head out of doors. For our part we hope such meetings will be renewed from time to time. A family gathering in the mother's house where men can meet to talk over their doings, remind one another of old times, and take heart for the future—nothing but good can come of it.

Our Colonial visitors have made it clear enough that on their side, at any rate, the bond of sentiment, the family tie, is no fiction. They are quite content with it, and not disposed to try any experiments which would substitute a formal relation for the natural one. We have heard very little of Imperial Federation, and a great deal about the blessings of self-government. The settler in New South Wales, or Victoria, or New Zealand, regards himself as the citizen not only of a colony, but of a self-governing nation. There is a soft place in his heart for the old country, but he has no idea of surrendering one iota of his freedom in anything that concerns his own affairs. That, as we understand it, is the view of most of our visitors, "Upon what system does your Government surround a small rock in the sea with fortifications, and cram it full of clerks, soldiers, lawyers and priests?" asked the Fantaisian Ambassador in Lord Beaconsfield's "Popanilla." "I believe we call it the Colonial System," was the answer. That system would soon have left us very little in the way of colonies on our hands if we had persevered with it.

Those who seek to draw the colonies closer together will not look to any recasting of the Constitution to accomplish it. We are dealing, it must be remembered, with nations in very different stages of development. Australia, with its half-dozen of great States, is practically independent of foreign complications. South Africa has other Powers to think of besides England, and so has Canada. The fact is we cannot have an Imperial formula that will meet every case, or draw up a franchise for imperial representation, while Canada alone amongst our self-governing colonies has reached the federal stage of development. Any such proposals would break down at once on the ground of insufficient representation. The Australian Colonies cannot agree amongst themselves upon a scheme of federation. How would Western Australia like to have the same representation at Westminster as Chatham, or Queensland as Rochester? As to the idea of giving the Agents-General seats in the House of Lords; it would be laughed out of court from one end of Australia to the other.

We have to thank the Premiers for bringing a fresh breath of actuality upon the scene, and for giving us to understand, in sufficiently succinct terms, certain vital conditions of the Imperial problem. While then we shall be safe in assuming that nobody here is likely to force the pace or to attempt to stereotype relations which are being moulded by a thousand different circumstances, we need not jump to the conclusion that a policy of drift is the other alternative. The first desideratum, as we understand it, is a good and complete understanding on the points where our mutual interests touch, and we hope we have got some way towards this. The old Downing street is abolished, and we have a sympathetic, an intelligent, and a responsive office in its place. That is a great thing. For the rest, we imagine that we shall hear no more of a zollverein. And as to the question of naval defences we shall wait with confidence the result of the consultations between the Premiers and the legislative bodies on their return home

Cook's Cotton Root Compound

Is the only safe, reliable monthly medicine on which ladies can depend in the *hour and time of need.*

LAKEFIELD.

From Our Own Correspondent.

Mr. Grieves, of London, England, is visiting his brother, Mr. T. G. Grieves.

Inspector D'Arcy Strickland, wife and child, of the Yukon District, are on a visit to his father, Mr. R. C. Strickland.

Mr. J. Killiom, of Philadelphia, was in the village this week the guest of Mr. George Rowe.

Mr. Walter D. E. Strickland, of Toronto, is home spending his holidays with his father, Mr. J. P. Strickland.

Mr. James Trennum and wife of Brooklyn were in the village this week.

Mr. Frank Sainsbury, of Port Hope, was in the village this week.

Miss N. Patterson, Miss F. Patterson and Miss R. Patterson, of Peterborough, and the Misses White, of Hamilton, were the guests of Miss Tanner for a few days.

Mrs. Geo. Tanner has returned home from Montreal, where she spent a few weeks with her daughter, Mrs. Edwards.

Miss Linton, of Orono, is spending a day or two with her sister, Mrs. Benson.

Mr. W. P. Gray, who has been through the back country lately, brought home with him a great variety of gold and silver bearing quartz. He is desirous of securing the co-operation of a capitalist in the development of his prospects.

Miss Fleming, of Port Hope, is visiting friends here.

Mr. Garnet Green, our photographer, has been doing some fine photographic work since he has moved over Harper's store.

At Viamede, Mount Julian, Stony lake, the following guests arrived this week:—Mr. J. C. Forgie, Miss Forgie, Miss Wheeler, Rev. Mr. Orr, H. Winoker, H. F. Reed and wife, all of Pittsburg, Pa., T. Gibson, Mrs. Gibson, Miss Jennie Gibson, S. J. Boomer and Mrs. Boomer, Toronto.

The Sons of England from Bowmanville had a large excursion to Stony lake on Monday. They came by special train to Lakefield thence by steamer Sunbeam to Stony Lake.

Mrs. Leyburn and Miss Pomphlion passed through Lakefield on their way home to Toronto after spending a pleasant week at Viamede, Mount Julian, Stony Lake.

Every day the Golden City is crowded with excursionists going to Stony lake. On Saturday night it had the largest crowd of the season. Our back lakes are becoming more popular each year, as we have now better train and boat service, increased accommodation for the reception of guests, new pavilion for Sunday services, etc.

To-day (Thursday) being the 12th of August, the grand celebration of the Relief of Derry will take place. The decorations are in the hands of Mr. Alfred Kingscotte of Peterborough. He will have the streets decorated from the bridge up to the station.

The following is the official programme:

MORNING.

In the morning at 8 o'clock the Orange and True Blue Lodges will meet at their hall, and march to the station, where on the arrival of the trains and steamers they will receive the visiting brethren and escort them to the market Square, where the procession will form at 10.30 o'clock.

The route of procession will be as follows: Along Bridge street to J. Moore's corner, back Bridge to Albert, Albert to Regent, Regent to Queen, up Queen to R. C Strickland's, down Queen to the bridge, up Water to Reid, Reid to Queen, down Queen to Market Square, where the procession will disband for dinner.

AFTERNOON.

At 2 p.m. every body will proceed to the Agricultural grounds, where the following sports will be run off:

Football match.
One mile bicycle race, open.
One mile bicycle race, open to novices only.
Novelty bicycle race, walking and riding.
Boys' bicycle race, under 16 years of age.
Men's race, 100 yards.
Boys' race, 100 yards.
Three-legged race.
Smoking race.
Thread the needle race.
Running long jump.
Hop, step and jump.
Tug-of-war between Orange and True Blue Lodges, 15 men on each side.

At 7 p.m. the visiting brethren will be escorted from the Market Square to their trains and boats. Train will leave for Port Hope and all intermediate points at 7.25 o'clock.

Dinner may be procured from all hotels, eating houses and town hall, at 25c.

Piles Cured by Dr. Chase.

I.M. Iral, 186 Drolet Street, Montreal, 15 years suffered. Cured of Blind Itching Piles.

William Butler, Possawan, Ont. Suffered many months. Cured of Protruding Piles by one box.

Pabano Bastard, Gower Point, Ont. Suffered for 30 years. Cured of Itching Piles by three boxes.

Nelson Simmons, Myersburg, Ont., cured of Itching Piles.

Dr. Chase's Ointment will positively cure all forms of Piles. Write any of the above if in doubt.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Wrong Heart Action.

Wrong action of the heart causes nervousness, nervous dyspepsia, shortness of breath and other distressing symptoms. Mr. Samuel Yelland, of London, Ont., was cured of these troubles by taking Milburn's Heart and Nerve Pills. Mr. Yelland says: "They are a remarkable medicine, and I have not been troubled in the least since taking them."

Karl's Clover Root.

The great Blood purifier, gives freshness and clearness to the Complexion and cures constipation, 25 cts., 50 cts., $1.00. Sold by Jno. Nugent, 389 George street.

Norway Pine Syrup cures coughs, colds, and all throat and lung troubles. Price 25 and 50c.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

APSLEY.

(From Our Own Correspondent.)

A meeting of the Burleigh, etc., township council was held on Saturday, the 7th ult., all members present, C. R. D. Boothe, reeve, in the chair. The minutes of former meeting were read and confirmed. Clerk read complants from Wm. Graham and Wm. Church in regard to a gate being placed on road at Julian's Landing. On motion the clerk was instructed to stop the hanging of gate to allow of an investigation into the matter. Dr. Caldwell presented a professional account, which was ordered to be settled. On motion the clerk was instructed to notify the county treasurer to issue deed for lot 1, con. 11, Burleigh, S. D., and have same registered. Application of J. R. Ainnies, for $8.90 on road, laid over. Application of Isaac Lean, for payment of $25 00 for repairing Lean's bridge.—Account ordered to be paid. By-laws numbered 22 and 23, establishing the rates, etc., went through their several readings. Council adjourned until call of reeve.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula or consumption. "That," he will tell you, "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

Speaks from Experience

Mr. J. W. Tomlinson, Amherstburg, Ont. speaks from experience when he says:—"I am well satisfied with Doan's Kidney Pills They are undoubtedly the best medicine on the market for any one afflicted with urinary or kidney troubles, such as pain in the back, tired feeling, cramps, numbness, etc. They cured me and removed all my pains and aches."

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c. 50c. and $1.00.

THE WORKINGMAN...

Made this country. True, the ground was here when he came, but he's made it what it is. From the time that Queen Isabella hocked her jewels in order to "raise the wind," so that Chris. could have a "special sale" across the water in search of Peterborough and the surrounding country, until the present day—not a step has been taken forward—not an improvement has been made in this country—without the aid of the working man. Who is the greatest electrician in the world? Thomas Edison. Who makes the best sewing machines—the best locomotives—the best passengers cars? Who builds the biggest and best buildings, digs the deepest ditches and lays the longest railroads? The workingman. The Peterborough workingman is up to snuff. It did'nt take him long to find out that he could do more days' work in a dollars worth of working man's clothes that he bought here than he'd ever be able to do in any dollar's worth he'd bought before. Where one working man struggled in and bought a pair of Overalls or a pair of Blue Jeans, or a jumper of us in former years, a hundred patronize our workingmen's department to-day. We're proud of it. Are you a working man? Want to buy clothes to wear while you work that will wear while you work? Try us.

We are showing the nicest Novelties for "little men"—the finest ever brought to Peterborough. We also sell knee pants, 3 piece Suits, from $2.75 up. Long Pant Suits, from $3.00 to $5.00 up. Single Knee Pants 25c, 35c, 50c, 60c and 75c. Save money by dealing with us.

High-Grade Cemetery Work

AT A MODERATE PRICE.

The element of permanence which attaches to the erection of any memorial to the dead renders it highly desirable that no mistake be made in the selection either of design or of materials.

A mistake is a serious matter. Let us help you to make a right decision. Our specialty is the erection of monuments which are unique without being grotesque, and artistic without being over-decorated.

We manufacture from all first-quality granites, and as WE SELL DIRECT TO CUSTOMERS, we save the latter all agents' profits. Then, too, there is a decided advantage for the buyer in dealing with one responsible firm for both the manufacture and the setting of a monument.

All our work is guaranteed, NO CHARGE being made if not strictly according to contract. Write us for designs and estimates.

BONDING PRIVILEGE

Appears Likely to be Denied to Canadians.

THE U. S. ATTORNEY-GENERAL

Has Decided That Goods, the Product or Manufacture of Foreign Countries, are Liable to a Discriminatory Duty if Imported by Way of This Country.

Montreal, Aug. 11.—(Special.)—It goes without saying that the alleged intention of the Americans to impose an extra 10 per cent. duty on all goods entering the United States through Canada would create a good deal of unrest in railway circles. It should be stated, however, that although they consider the situation grave, the railway men, especially the Canadian Pacific people, are credited with the belief that the objectionable clause will not be put in force by the American customs authorities. During the past few days Secretary of War Alger has been in the city, and although the Michigan statesman disclaims any such mission, it is still held that the matter has been discussed in the Secretary's presence by the interested parties in this city.

Mr. Bosworth of the Canadian Pacific stated to your correspondent to-day that the 10 per cent. duty would undoubtedly hurt their China and Japan business, but he ridiculed the statement in the press despatches from Washington stating that the C.P.R. carried eight million tons of freight through and into the United States. It was probably four million pounds, as the freight receipts of the road of 1896 only reached [illegible] tons.

The same view was expressed by Mr. George B. Reeve, General Traffic Manager of the Grand Trunk system. Both great Canadian roads would suffer from the clause, said Mr. Reeve, if it were put into effect, and Canada would have no retaliatory recourse. He was of opinion, however, that such an interpretation as was indicated in the Washington despatches, would not be placed upon the clause. The ambiguous wording was probably due to an oversight, and would be rectified.

The opinion of Mr. Reeve regarding the impossibility of retaliating in Canada is not generally shared in business circles here. Although the railways from the American seaports to Montreal would suffer, yet the opinion is freely expressed that the Canadian Government should immediately retaliate, if necessary, by imposing a like duty on all goods entering the Dominion through American territory, thus helping our own ports. In the meantime, it is quite understood that the two big railway companies have placed their case before the Washington Government, and as before stated, it is not thought the harsh measures will be resorted to.

The decision of Attorney-General McKenna as to the interpretation of the clause of the new United States tariff which deals with the imposition of an extra 10 per cent. duty on foreign goods entering the United States through a contiguous country is awaited with the greatest interest in Canada. "If the clause is put into force," said Mr. G. M. Bosworth, Freight Traffic Manager of the C.P.R., "its effect will be most serious. It will kill all our China and Japan business in exports intended for the United States, and will also kill entirely importation into the United States through Canadian ports, Montreal in summer and St. John in winter will suffer from the adverse legislation." The same view was expressed by Mr. George B. Reeve, General Traffic Manager of the Grand Trunk Railway system. Both the great Canadian roads would suffer from the clause, said Mr. Reeve, if it were put into effect, and Canada would have no retaliatory recourse. Mr. Reeve is convinced that the clause in question will not be put into force, but does not hide the seriousness of the condition which will confront the Canadian roads and Canadian steamship lines if it is. Both the Grand Trunk and the C.P.R. are taking steps through their representatives to have the matter arranged at Washington.

MUST PAY THE DUTY.

The Attorney-General of the United States Decides That Importations Through Canada are Liable.

Washington, D.C., Aug. 11.—The Attorney-General has decided that goods, the production of a foreign country not contiguous to the United States, which are regularly imported into Canada and afterwards exported to the United States, are subject to the discriminating duty of 10 per cent., provided for in section 22 of the new tariff act, and also that the method of conveyance, whether by water, rail or otherwise, is not material. The question whether goods transported through Canada to the United States under consular seal are subject to the duty has not yet been determined.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Wesee, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

FALL OF ABU HAMED

British Expedition Had a Hot Fight in Egypt

TWO POPULAR OFFICERS WERE SHOT

The Troops Fought With Great Steadiness and Dash They Were Welcomed by the Inhabitants. Who showed Great Joy at Being Delivered From Dervish Tyranny.

Cairo, Aug. 11. — Official despatches from Assouan, on the Nile, near the first cataract, give details of the capture of Abu Hamed on Aug. 7 by the Anglo-Egyptian troops under Col. Hunter, after an eighteen hours' march from Merawi.

Col. Hunter kept all his preparations for the attack a strict secret in order to prevent the spies of the Khalifa in the Soudan from getting wind of his plans. He declined to allow any newspaper correspondents to accompany the columns to the front.

After carrying the high ground overlooking the town, the Anglo-Egyptian troops advanced to the attack upon the village. A stubborn house-to-house fight ensued, and Col. Hunter was obliged to bring up the artillery before it was possible to carry the position.

The total loss was 21 killed and 61 wounded, of whom the Tenth Soudanese Battalion lost 14 killed, among them 2 British officers, and 34 wounded. Maj. H. M. Sidney fell mortally wounded while leading his men to the attack, and died in five minutes. Lieut. Fitzclarence was shot almost at the same moment through the heart. Three Egyptian officers received severe gunshot wounds.

Col. Hunter in his despatches highly praises the steadiness and dash of the troops throughout the engagement. The village is a network of crowded houses and twisting narrow alleys, so that most of the fighting was done at the point of the bayonet.

The Dervishes repeatedly charged through the narrow streets. Finally their cavalry, having lost over one-half their number, fled precipitately, followed by about 100 infantry. These were all that escaped. The Dervish commander, Mohammed Zein, was captured. Another well-known Emir stubbornly defended himself with his followers in a strongly fortified house, and was only killed at last when the house was destroyed by the artillery.

A large number of prisoners, arms, standards, camels and horses, with other property, was taken. The Nile at Merawi is in a most unpleasant state from the corpses floating down.

The inhabitants, as during the advance of the Dongola expedition, have shown every kind of rejoicing at their deliverance from Dervish oppression. The garrison at Abu Hamed has been much increased since the Khalifa's defeat of the Jaalin tribe and the capture of Metemmeh by his forces. On the other hand, Col. Hunter's troops were assisted in capturing the town by some friendly Arabs from Murad.

The loss of Major Sidney and Lieut. Fitzclarence is deeply deplored. They were very popular men in the army.

At the present the general situation is as follows:

The Khalifa continues to reinforce the army of occupation at Metemmeh, under Mahmoud. Both sides of the river have been fortified. Mahmoud recently sent reinforcements to Berbir, but recalled them on hearing of the advance by Co. Hunter upon Abu Hamed.

He now threatened to advance on Jakdul, a village held by friendly Arabs, but it is expected that the arrival of the gunboats at Abu Hamed shortly will prevent him from leaving Metemmeh with any considerable force.

POPULISTS HAD A WARM TIME.

Krumm Tried to Put Witt Down and Riddle Went After Krumm—A Clinch and the Police.

Columbus, O., Aug. 11.—The Populist State Convention opened with Mr. Witt of Cleveland demanding more than five minutes in which to speak upon charges to be effect that certain middle-of-the-road delegates were there in the interest of Senator Mark Hanna to keep the convention from endorsing the State Democratic ticket. The chair refused Mr. Witt more time. Delegates told him to sit down. Finally Martin Krumm of Columbus undertook to put him down. Mr. Witt resisted Mr. Krumm. George Riddle of Columbus seized a chair to assault Krumm. Delegates took the chair from Riddle. General confusion ensued. Mr. E. M. Kerr and Mr. Krumm clinched and were fighting when Policeman Dan McAnamy separated them. Chairs were broken in the fight. When quiet was partly restored Mr. Witt was still seen standing on a chair demanding more time to speak. Further trouble being apparent, Mr. McAnamy telegraphed to Police Headquarters and a squad of police reported to preserve order. All of the anti-fusion delegates were seated and a straight Populist ticket will be named.

Populists Nominate Coxey.

Columbus, Ohio, Aug. 11. — Jacob S. Coxey was nominated by acclamation for Governor by the Populist State Convention to-day.

ONE HONEST MAN.

DEAR EDITOR,—Please inform your readers that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest home cure, by which was permanently restored to health and manly vigour, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy.

Address with stamp:
WM. T. MULFORD, Agents' Supplies,
P. O. Box 59, ST. HENRI, QUE.

Baby was Cured.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of dirrrhea after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. BOTT,
Barlow, Ont.

WINNIPEG NOTES.

Funeral of Rev. Alex. Grant—Wheat Yield of 35,250,000 Bushels—Increase in Bank Clearings.

Winnipeg, Aug. 11.—(Special.)—The funeral of Rev. Alexander Grant, drowned in Nepigon River, takes place to-morrow afternoon. It will be of a public character.

Grain experts say that the wheat crop of Manitoba will average eighteen bushels to the acre, and that Manitoba's total yield of wheat will be 35,250,000 bushels.

The bank clearings for the week ending today were $1,229,320, balances $276,597. These clearances are $300,000 above the same week last year.

To-morrow is Winnipeg's Civic Holiday.

DR. CHASE'S CURES ITCHING PILES, ECZEMA, SALT RHEUM OINTMENT

D. S. Doan, of Clinton, says: "*DR. CHASE'S OINTMENT* will cure Salt Rheum when all else has failed; believe what I say and try it. Don't go on suffering for years as I did."

DR. CHASE'S I suffered with piles for years. Chase's Ointment completely cured me. Mrs. Jno. Corrie, Fergus. OINTMENT

Mrs. F. Pearson, Inglewood, Ont., says: "My baby, five months old, had eczema very badly on his face and head. I procured two boxes of the Ointment and when they had been used all signs of the disease had disappeared."

DR. CHASE'S Kilmanson, Bates & Co. PRICE 60c. 45 Lombard St., Toronto OINTMENT

Sloan's Indian Tonic

TRADE MARK.

Gives the aged energy. Cures Dyspepsia, Indigestion, Nausea, Faintness, Loss of Appetite, Flatulence, Costiveness and all other Stomach and Bowel disorders.

A WELL-KNOWN WOODSTOCK MAN CURED.

Woodstock, Ont., May 2nd, 1896.

This is to certify that I, James Ross, toll-gate-keeper, of the Town of Woodstock, Ont., have been a suffer from Indigestion and a very weak stomach for a number of years, and have tried a great many medicines of different kinds, but could only obtain temporary relief for a short time, but after using one bottle of SLOAN'S INDIAN TONIC I could perceive a great difference. My Indigestion was better and my stomach was much stronger than before, and I found I had gained several pounds in flesh, where I was very weak and thin in flesh before. I think I used nine or ten bottles in all, and I am now a healthy man, but still I do not want to be without the medicine in the house, and I procure one or two bottles every year, and I can truthfully recommend SLOAN'S INDIAN TONIC to others suffering from the same complaints.

JAMES ROSS, toll-gate-keeper.

Price $1,6 for $5. All Druggists or from Laboratory.

Selling GOOD Harness BUILDS UP BUSINESS.

DEVLIN'S

way is to do first class work, keep the right quality in leather, and the prices reasonable.

Since starting up in business again, in my new shop on Hunter Street, opposite the Post Office, I have been encouraged by the many orders received from old and new customers.

MY OWN MAKE. I want everyone to understand that I manufacture all my own Harness in my own shop, which is guaranteed, or money back if you want it.

Devlin's Horse Collars STILL LEAD.
Single and Double Harness MY OWN MAKE

Bridles, Whips, Curry Combs, Harness Oil, and all kinds of Saddlery Hardware and Stable Furnishings always in stock. Also a full line of Trunks, Valises and Satchels.

REPAIRING DONE neatly and substantially. All work done first-class and the old reliable DEVLIN will stand back of everything he says and does. By doing business on the CASH principle I can afford to give my customers lower prices and better value than credit stores—and don't you forget it.

Merit

Made and Merit Maintains the confidence of the people in Hood's Sarsaparilla. If a medicine cures you when sick; if it makes wonderful cures everywhere, then beyond all question that medicine possesses merit.

Made

That is just the truth about Hood's Sarsaparilla. We know it possesses merit because it cures, not once or twice or a hundred times, but in thousands and thousands of cases. We know it cures, absolutely, permanently, when all others fail to do any good whatever. We repeat

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

Hood's Pills cure nausea, indigestion, biliousness. 25 cents.

A Guarantee

The large B stamp on every loaf of Bate's bread is a guarantee of its superiority in flavour of any other, made by our own process of yeast, which is strictly healthful. WALTER BATES, Prop.

Echoes of the Storm.

A prominent George street barber and a lady friend from the Northwest were visiting some friends near Keene, and were on their way home when they were caught in the storm, and the electrical current deranged the running gear of the tandem. They had to walk home about eight miles. —COM.

Another Cheap Excursion to Hastings and Return, on Friday Aug 13th.

The Steamer City of Peterborough will leave the C.P.R. wharf for Hastings on Friday, Aug. 13th, weather permitting, at 7.30 a.m., calling at Peck's wharf, Ashburnham; Jubilee, Harwood and Idyl Wild. Return tickets to Hastings, 60c; Idyl Wild, 50c; Harwood, 50c; Jubilee, 40c.

SPECIAL FOR THE LADIES.

On Saturday Morning, we will offer another special job lot of Perrin Feres Sample Kid Gloves, at the very low price of 55c, worth $1.00 and $1.25. The line includes black and coloured, laced and buttoned. Come early. R. FAIR, Sign of the Golden Lion.

O.O.F. Excursion Civic Holiday.

St. Peter's Branch, No. 235, C.O.F., will run an excursion to Jubilee Point on Civic Holiday per City of Peterborough and palace barge. Splendid orchestra and dancing on the down and up voyage and on the grounds. At the grounds besides, sports and games on land and water. Steamer leaves Peterborough at 7.30 a.m. Keep your engagements open for this day. Tickets (round trip) 50c, children 25c. 3d

Private Sale of Household Furniture.

Gymnasium Apparatus.

The gymnasium apparatus for the Y. M. C. A. has at last arrived, after having been on the way from Providence, R. I., for over a month. The goods were ordered early and shipped promptly, but five pieces went astray and were only recovered after much searching. The pieces are being rapidly placed in position and the combination locks fitted to the lockers. The gymnasium will be opened within a week. The equiptment is very complete.

Buyers Delighted.

You're missing the most interesting prices in first-class summer clothing if you don't attend H. LeBrun & Co's. August clearing sale. At the end of the season we throw profits to the winds, and although it may mean a loss we cannot afford to carry stock over from one season to another. Besides, preparation for receiving early fall stock is now being made and a complete clearance of all summer goods must be affected. Our choicest lines of light summer coats, vests and trousers, tweed suits, negligee shirts, underwear and neckwear at great bargains. Men's Tweed suits at $3 and $3.50. Balbriggan's double thread underwear, all sizes, 75c for the suit, worth $1.25 and $1.50. Natural wool underwear same price. Little prices all over the store to hurry on the clear ance. You can bank on the goods being all right. H. LEBRUN & CO.

WEDDING BELLS.

Celebration of the Nuptials of Miss Hattie Green and Mr. Harry Mein.

A very pretty wedding took place last evening at seven o'clock at the residence of Mr. Wm. Green, Park street, when his daughter, Miss Hattie Green, was united in marriage to Mr. Harry Mein, of Parker's Dye Works.

The bride was prettily costumed in a brown cloth travelling suit and was assisted by her sister, Miss Eliza Green, the groom being supported by Mr. George Green, brother of the bride.

The ceremony was performed by Rev. J. C. Davidson, of St. John's church.

During the afternoon a presentation was made by the employees of the Dye Works of a china dinner and tea set, the following address being read by Miss O'Neil:

PETERBOROUGH, August 10th, 1897.

To Mr. Harry Mein:

We deem it necessary on this, which is one of the most bright occasions of your life, to express in a small degree the feeling of good will which exists between you and your co-workers.

No doubt you little know, as yet, the cares and anxieties connected with the duties that are soon to be taken up by you, and it is hoped by us than when you are embarked on the sea of matrimony that you will look back and reflect on this occasion as one connected with many pleasant memories, as we assure you the same does with us.

On behalf of your fellow employees allow me to beg your acceptance of this small present as a token of the esteem in which you are held by your shopmates, and though small as it is, we trust you will accept it with the same good will with which it is given.

Wishing you health, happiness and prosperity we remain, your well wishers,

EMPLOYEES OF DYE WORKS DEPT.

The presentation was made on behalf of the employees by Miss Moncrief and Miss Dormer. A presentation was also made from the laundry department.

AN ASHBURNHAM WEDDING

Marriage of Miss Hattie Courtney and Mr. F. Lillico Yesterday.

A pleasant event took place at the residence of Mr. Edward Courtney last evening on the occasion of the marriage of his fourth daughter, Hattie to Mr. Wm. F. Lillico, of town.

The bride was attired in cream organdie with yellow trimmings and was assisted by her sister, Miss Winifred, who was gowned in pink, while Mr. Torrance Lillico ably supported the groom.

The ceremony was performed in the presence of about thirty friends of the bride and groom, by Rev. H. Symonds.

After the marriage a recherche wedding supper was served.

The floral decorations of the house—gifts of friends—betokened the high esteem in which they were held, as also did the numerous and costly presents which were received. Mr. and Mrs. Lillico take up their residence at No. 59 Aylmer street.

PETER HAMILTON MFG. CO'S EXCURSION.

The Employees Enjoy a Pleasant Outing Down the River.

The annual excursion of the employees of the Peter Hamilton Mfg. Co. took place to Jubilee Point yesterday on the steamer City of Peterborough.

There were about three hundred souls on board, composed principally of the men and their families.

The boat reached Jubilee at about eleven o'clock, when after a preliminary ramble around the beautiful grounds, the excursionists broke up into family parties and partook of luncheon.

In the afternoon a list of sports was run off with the following results under the superintendence of Messrs. Robt, Logan and T. G. Gillespie:

Vaulting—1 C. Theobald, 2 A. R. Nicholls.

Unmarried men's race—1 L. Yerra, 2 Fred Leplante.

Married men's race—1 Harry Starr, 2 W H. White.

Foremen's race—1 W. Savigny, 2 James Maude.

Quoit match—1 Frost and Moncrief.

Canoe race—1 Frost and Moncrief, 2 White and Savigny.

Matched race—1 Joe Demontelle, 2 Geo. Milne.

This last race was the event of the day. Both contestants were barred out of the other races as it had been learned that they had been practising running for some weeks with the intention of sweeping the prize list. The race therefore between the pair was watched with interest and the close finish was very exciting.

A large number of races for the little ones were also run off and the day passed off most enjoyably, the steamer leaving for home at five o'clock and arriving in Peterborough shortly before nine.

ORANGE DEMONSTRATION.

Local Orangemen Proceed to Lakefield to Celebrate.

The anniversary of the opening of the gates of Derry was observed in Lakefield to-day, and a large number of local Orangemen went out to participate in the demonstration.

The morning train to the village was crowded with the followers of King William, and a good many drove out as well.

The procession took place at ten o'clock this morning, and a programme of sports, etc., was run off during the afternoon.

The local Orangemen did not form in procession at Peterborough, but proceeded directly from their homes to the station. As so many intended driving out during the day instead of going by train, it was decided to abandon the idea of marching in Peterborough.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The Neversweats will play the Oriental baseball team at the Riverside Park on Friday afternoon at 2 30 o'clock.

—A large hole has been worn through the Charlotte street bridge over the creek. It is being promptly repaired.

—The Minister of Militia has fixed the dates for the fall camps, the militia in some districts in Quebec and the Maritime Provinces preferring to drill in September rather than in June.

Robertson's Mixed Floor and House Paints still lead all other makes in giving perfect satisfaction. They are never sticky, nor do they peel off, but dry hard, bright and glossy. If they require thinning use only the oil sold by the agents. Poor oil, as well as poor paints, never dry satisfactorily and will not wear. Robertson's Paints that were used two years ago, look better to-day than other paints used this year. 2aw-w

Fruit Arrivals.

Peaches in baskets, pears for pickling, black currants in basket or by the quart. A few raspberries still coming in. E. F. MASON & CO.

A DANGEROUS PRACTICE.

Trying to Board a Moving Train in the Centre Instead of at the End.

A young lady had a narrow escape this morning from meeting with an accident when boarding the morning train for Lakefield at 8.25.

It seems that she was undecided about going to the Orange demonstration in the village, but just as the train was pulling out suddenly made up her mind to go and ran to catch the rail on the front platform of the rear coach.

Station Agent Sandy was just in time to prevent her trying the dangerous experiment although she had her hand on the railing. She was assisted to board the rear platform, where there would have been little or no danger even if she had fallen.

CRUISE OF THE PLIO.

It was Concluded Yesterday After a Two Weeks' Trip.

The annual cruise of the yacht Plio in the back lakes has been terminated and the jolly party which comprised her crew passed through Peterborough to-day on their way home.

This season the crew was composed of Capt. W. J. Stubbs, of Moorefield; H. P. Huggard, Toronto; A. T. Panabaker, Hespler; H. E. Beatty, Toronto; J. D. Conway, Hespler; Jas. Stubbs, Peterborough, and Geo. Williamson, secretary Y.M.C.A., Peterborough.

The boys are more than enthusiastic about their trip and the residents of Stony Lake will long entertain pleasant memories of the echoes which their songs awoke on the water in the evenings.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

Harry Varnes, formerly car tapper at the local depot, who is now located at Lindsay, is at present in town relieving Richard Wareham, who is on the sick list,

The Canadian Pacific officials are preparing for a great hauling of grain this fall. They are repairing all the rolling stock they have on hand in Toronto, as well as turning out new work at Perth every day. They also report that their new elevator at Owen Sound will be ready by October 1. The capacity will be 800,000 bushels a day, or a total capacity of one million five hundred thousand. The new flour sheds are now ready, and will have a capacity of 40,000 barrels.

PERSONAL.

Miss Nellie Lane is vising friends in Ops.

Mr. Dickson Hall is holidaying at the Lakes.

Mr. Geo. Peters, of the public library, is taking his holidays.

Mr. A. Lancashire is spending his holidays in Fraserville.

Mr. Jack Morrow, of town, is visiting friends in Lindsay.

Miss Brault, of town, is visiting her brother Archie in Norwood.

Miss Lizzie Fox is the guest of her cousin, Miss Cox, Stony Lake.

Mr. James Pope, builder and contractor, Port Hope, was in town yesterday.

Mr. F. R. Yokome left this morning to spend his holidays at his old home in Welland.

Miss Ida and Mabel Shannon are in town the guests of Miss Stella Stanger, George street.

Miss Edna Stanger has returned home after a pleasant visit with friends in Toronto.

Mrs. W. H. Bradburn returned to Stony lake to-day after spending a couple of days in town.

Miss E. Mann and Miss Lottie Perrin are spending their holidays in Toronto and Niagara Falls.

Miss Lillie Ryan, of Peterborough, is at present the guest of her friend, Miss Julia Murphy, South Ops.

Mrs. G. W. Pearce returned to her home in Chicago to-day, after spending several weeks with parents and friends.

Miss Clara Reynolds, of Los Angelos, Cal., formerly of Peterborough, is in town visiting Miss Milligan, Dublin street.

Mrs. Currie, accompanied by her son William, of Port Perry, spent yesterday in town as guests at the residence of Dr. Burnham.

Miss Bertie Lytle has returned home after a three weeks' visit with her cousin, Miss Winnie Shields, Lindsay street, Lindsay.

Messrs. Thos. Lee, George Butcher and Will Long returned last evening after spending a few days visiting friends in Bobcaygeon.

Mr. Daniel Sullivan, George street, accompanied by Mr. John O'Keefe, left this morning for Cache Bay, where they will enjoy a week's fishing.

Mr. G. Watson, of Dresden, has been in town for a few days visiting his sister, Mrs. A. L. Grover. Mr. Watson is on his way to the meeting of the I.O.O.F. Grand Lodge at Belleville.

The Port Hope Guide says.—Mrs. James Walsh, Stratford; Mrs. T. K. Rogers, Buffalo, and Miss Gough, Peterborough, are in town, visiting their nephews, R. F. and R. G. Day, of the Day-Gough Company.

Mr. and Mrs. J. J. Turner, Gilmour street, returned last evening from a month's cruise on Mr. Turner's fine lake schooner "Wave Crest." Whilst on the trip they touched at all the American ports on Lake Ontario.

The Lindsay Post says: Mr. R. McGill Hood, the well known traveller, who recently became a benedict, was in town for a few days this week, accompanied by Mrs Hood. Mr. Hood has removed from Montreal to Peterborough.

Mr. W. H. Miller, of Detroit, is in town the guest of his father-in-law, Mr. J. B. McWilliams. He went to Stony Lake yesterday. Mr. Miller intends leaving for the Klondyke in a day or two, sailing from Victoria on the 20th of August.

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2.75, and at the latter city the great summer sports are in full swing.

Ball & Co

FASHIONABLE TAILORS,

Cox's New Block, Water St

WILL SUMMON A CONFERENCE

To Consider the Rescue of Young Girls From the Streets.

The Children's Aid Society propose to call a local conference of charitable, benevolent and rescue societies for the purpose of seeing if some means cannot be devised by which organized and concerted action may lead to more effectual general results. The rescue of young girls from the streets and other avenues of destruction will be one of the chief points of consideration.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

The Orangeville Lacrosse club is very anxious to come to Peterborough for a game, and arrangements will probably be made to have them here sometime next month. They have not been defeated this year.

The game with the Tecumsehs on Civic Holiday has been cancelled here, as so many of the members of the local team are going out of town that it would be useless to bring the match off.

BASEBALL.

Local lovers of baseball are wondering how it is that only one game has been played here this year. The club started out well this year under the most favourable auspices and sold a large number of season tickets. Next year it will not be so easy to collect money by subscriptions unless the patrons are given better value for their money. There are dozens of available teams in the district.

SUMMER RESORT GUESTS.

STONY LAKE, Aug. 10th, 1897.

The following guests have registered at the Victoria House, McCracken's Landing: C J Snyder, J I Craig, Rufus Stevenson, Gus Hay, Sam Adams, Wm Buller, W H Collins, V E Austin, C W Bell, A K Bell, Fred G Turner, Mrs Glover, W Appleby, E McFadden, Chas Reid, W B Bamford, H Bamford, Rev. Father Casey, Peterborough; F Young, Young's Point; J A Calder, F Hendren, B McGregor, M McGregor, wife and daughter, H G Buck, J C Moffat, M.D., J R McKelvie, Miss M A Quinn, Jas M White, Geo Sherry, J A Calder, Norwood; A E McClain, Syracuse, N.Y.; Miss Mary White, N G Cox, Lakefield; J H Frise, Brighton; Henry Brock and wife, Toronto; Miss Olive Bolger, Kingston; Charles Luckes, Montreal; D M Lundy, Clear Lake; Mr and Mrs W F Trude and family, Lakefield; Mrs T G Choate, Mr and Mrs A F Choate, G W Reid, E O Bradburn, Warsaw; Richard Gough, wife and child, Dr Thos J Moher, wife and child, W G Morrow, Mrs J D Collins, Miss Collins, Miss A Collins, Peterborough; A E Thompson, Montreal; Mrs Alex Morris, Miss Morris, Miss M Morris, Markham; J A Couch, M.D., Warsaw; F M Pratt and wife, Toronto; J B Davis, Jas H S Chooley, Rochester.

Mrs. M. R. Wynn and her daughter, and the Misses Langlois left on Wednesday for home after a stay of four weeks. On Tuesday afternoon Miss Wynn made the catch of the season, bringing in one of the largest bass caught in the lake this year. The disciples of Isaac Walton find this one of the very best places for fishing in the province. On Saturday Mr. Geo. Sinclair, who has been a guest at the house for a week, succeeded in landing one of the finest lunge ever hooked in these waters. He had quite a lively experience while landing it. While trawling directly in front of the house it got on, and in his attempts to bring it to his boat, he nearly capsized. The monster, which weighed 32 3-4 pounds, drew the canoe around every way, but another party who were trolling a short distance away, came to his aid, and with the united power landed it on Mr. J. Gemmel's island, where it was quickly despatched. Mr. Sinclair, needless to say, feels justly elated over his catch. He returned home on Monday morning, taking the fish with him as a souvenir. He intends having the head mounted as an ornament.

A DESCRIPTIVE LETTER

Received From Mr. Herbert Dawson by His Parents.

Mr. and Mrs. Alexander Dawson have just received a most interesting letter from their son "Herb.," who has been living in Port Arthur for the last nine years. As Herb. has many friends in town the following account of a trip which he recently took on the Lakes will be read with interest :

FORT WILLIAM, August 7th, 1897.

MY DEAR PARENTS :—I must tell you the delightful trip I had yesterday. There was quite a nice party, but when I say "we" you will know it is of Clarence and myself I am speaking, as you do not know the other members of the party and for me to speak of them would only be to confuse you.

We left the C. P. R. dock at 5 20 a. m. and passed the Welcome Islands at about six. They were beautiful in all their summer clothing and immediately after passing them we got the benefit of the lake breeze, that breeze which blows fresh over 300 miles of the purest and coldest fresh water in the whole world. After this it was a pleasant little sail to the point of Thunder Cape, "The Sleeping Giant," and what a grand sight this is at an early hour! It sides verdure clad to a height of 900 feet and from this point the perpendicular rock rising 450 feet further makes it one of the finest and most imposing pieces of nature's handiwork in this region of sublime beauty. From here we take a slight sheer to the right and head straight for the Passage Island light, which we make at 9.45 o'clock. A few minutes' run and we are out on the broad bosom of Lake Superior sailing gaily through Uncle Sam's waters with nothing but "a waste of waters and a wilderness of waves" ahead and the pretty and romantic island light astern. Forty minutes' sail brings us to the north-east east corner of 'Isle Royal' and in a few minutes we swing round and run due south and skirt along the south side of the island. On the right hand lies the main island with its rugged and at times precipitous shore and on the left a bewildering number of beautiful and charming little isles. Here it is that at some prehistoric date nature has played with the forces at her command and has thrown into existence some of the most delightful and interesting bits of scenery it has been my pleasure to come across. We are charmed with one isle covered with eternal green, and are awed by the sublime majesty of another, standing as it does like a grim sentinel patiently awaiting the next great move on the part of mother nature which may still throw it into still greater prominence, or may cast it into the midst of the surrounding sea. Thus we proceeded for about 12 miles when we came to our destination,

GREEN STONE ISLAND,

and here on this beautiful spot, more beautiful than my pen can describe, took place 12 years ago one of the most appaling disasters (the wreck of the steamer Algoma, of the C. P. Ry.) that has ever occurred on the great inland sea, Superior. The Algoma went to pieces at this spot on the 7th of November, 1885, and 45 souls were lost. Oh what a terrible association for so pretty an island. We picked up small portions of the wreck even at this late date, such as broken glass and earthenware, worn perfectly smooth by the action of the water. But to turn again to the island itself and what we saw. We had the great pleasure in being greeted by our American cousins on landing, who had preceded us to the island to look for green stones. They made it very pleasant for us, insisting on getting the tea for the ladies and in otherwise making themselves generally useful. After a social half hour they bade us adieu, and as they steamed away we gave three hearty cheers our American cousins, and were answered by three lusty cheers for their British cousins. Before going they

TOOK US SEVERAL TIMES.

We trust this will cause no trouble among the married men when they again meet their wives. Next to look for green stones, and everybody was off for the far-famed shore. I may say that this is the the only known spot in the world where these stones are to be found. We all had excellent luck and each came back with more or less of the precious gems. C. and I took the canoe and went across the Sound to an old copper mine long since passed into decay, and nothing but its ancient brick chimney left standing to mark the place where industry once made the surrounding woods echo with the sweet music of civilization. Byron's beautiful words are suggested to us :—

"Eternal summer gilds them yet
And all except their sun is set."

At 4 30 we bid farewell to our fair Eden and in an hour came in sight of the Sleeping Sentinel—and what a sight. Old Sol was just going to sleep behind its majestic breast, filling the whole earth and sky with ethereal beauty and recalling lines from Byron's master hand,—

More lovely are his rays be run
Along Algoma's hills the setting sun.

It was a delightfully pleasant sail of four hours till we reached home, sweet home, at 10 p.m., all uniting in voting it a red letter day and wishing our gallant captain a pleasant and prosperous bon voyage.

HERB.

Nothing Hunts Out Corns

Like tight boots. A sure, certain and painless remedy is found in Putnam's Corn Extractor, which removes the worst corns in twenty-four hours.

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

They're The Proper Caper==

—Are our Coloured Shirts. They're sometimes called Summer Shirts, but that's a misnomer, for they're worn all the year round. They're laundried, just like white shirts, but they are far more stylish looking and don't soil half as easy.

• •

Some are Checks, some Stripes, some Polka Dots, some Fancy Patterns. Some have Detachable Cuffs, some have not. Some are made of Madras, some of Percales, some of French Cambric. Some have Open Fronts, some have not—but they're all the latest styles. A full assortment at a fair price.

HIGH CLASS CASH TAILORS, 355 GEORGE STREET.

THE GRAND LODGE OF ODDFELLOWS.

FORTY-THIRD SESSION OPENED IN BELLEVILLE.

The Grand Master's Address—Changes Desired in the System of Benefits —Radical Measures Proposed.

Belleville, Aug. 11th. (Special). The I.O.O.F. Grand Lodge representatives and the local brethren, headed by canton of Belleville and the I.O.O.F. silver band, paraded the principal streets to the opera house, where the grand lodge proceedings were held. Mayor J. A. Johnson, on behalf of the city, and Mr. W. B. Northrup, M.A., on behalf of the local lodges, presented addresses to the grand lodge, to which suitable replies were made by Grand Master White. After the addresses were concluded the lodge went into due session and heard the reports of the grand officers.

GRAND MASTER'S REPORT.

Grand Master Henry White delivered his annual report, complimenting the order upon the success of the year's work, and recounting the incidents attending his official visits. "Although the year just closed has not in any sense being a record year," Mr. White said, "it is with a sense of peculiar satisfaction that I am able to report a continued advance in our numbers and usefulness. Whilst the number of new lodges instituted has not been large, nor the numerical increase in our membership as marked as in some previous years, yet a perusal of the carefully prepared tables and extremely valuable statistics to be presented to you by our Grand Secretary will reveal a gratifying condition of affairs within our borders.

"Financially this great organization has made distinct and satisfactory progress, and its record for noble principles faithfully held, lofty duties unfailingly carried out, and monetary obligations honourably discharged, never stood higher before the world than to-day. We have, therefore, much cause for thankfulness that our order has passed comparatively unharmed through a period of pronounced financial depression, and has more than held its own in the face of severe competition."

After speaking of his visits to various subordinate lodges and of other business with which he had been obliged to deal during his term of office, Mr. White adverted to some important matter calling for immediate consideration. One of these was the need of some provision for aged members.'

AGED ODDFELLOWS.

"Legislation of the Sovereign Grand Lodge enabling Grand Jurisdictions in their discretion to create, maintain and dispense an aged Oddfellows' fund was instituted at the last session of that body. Some provision of this character, to be supplemented by proper safeguards, has been long and urgently needed, and in no jurisdiction more than in this. Where a member is over fifty years of age and has been affiliated with our institution for twenty-five years or over and his lodge has for any reason surrendered its charter, he is surely entitled to the benefit of his membership in some way or other, and not to be forced to lose, through possibly no fault of his own, the consideration he should be entitled to at the hands of his brethren generally. To meet this injustice the Sovereign Grand body has legislated as above indicated, and I beg to call your attention to the same and ask for your consideration, and if deemed desirable your action thereupon."

LODGE PHYSICIANS.

"By the action of the Sovereign Grand Lodge at its last session it has been declared contrary to the law of the order for subordinate lodges to pay out of their funds to a physician hired by the year, unless authorized by the constitution laid down by Grand Lodges for their subordinates. This decision, affecting as it does a very large number of lodges in our jurisdiction, is very far-reaching and serious in its possible effects on our membership. It is very difficult to say what might be the ultimate effect of abolishing these officers and it is for this Grand Lodge to take such action as they may be advised in the premises. I would strongly recommend, in view of our present position, that an amendment to the constitution of our subordinates be introduced, giving the necessary powers for the appointment of lodge physicians; and I so recommend despite the doubts that have been expressed as to our powers in this regard."

The Grand Master also recommended the appointment of an official solicitor to advise when required with the grand officers. Mr. White closed by tendering his thanks to those members with whom he had been brought into contact for their generous assistance to him in his work.

THE ORDER'S PROGRESS.

Grand Secretary J. B. King, in his annual report, called attention to the order's advance in membership and general prosperity.

"When we assembled here in 1877 our register had a membership of 12,172. During the previous year 1,075 sick brothers received $12,082 25, the total receipts of the year being $22,080.84 and total funds $246,734.70. To-day our roster has 22,825 members. During 1896 2,113 members were sick, receiving $49,939 66—total relief, $32,330 75; and total funds $225,773 94; a truly noble record of advance for such a short period, it should fill the heart of every Oddfellow in Ontario with pride and satisfaction, and confirm an increase, if it need be, his faith in the future of the order."

"It is not enough," the report continues, "that the grand lodge takes measures for the institution of new lodges, and for the general interests of the older lodges, it should and it must as well provide suitable laws by which all are to be governed if their permanency would be assured.

The large and increasing rate of sickness and death in older lodges warns every thinking member that the amount of benefits of all kinds has too long been made more largely out of a generous sympathy than from the fact of the ability of the lodge to meet and continue to meet these growing demands. While the object in joining our order may not and should not be for what benefits one may get from it, at the same time the benefits to be derived from membership in the order form a very important factor in deciding the average man to join it. Therefore, there should be no doubt as to the soundness and solvency of the beneficial system, so that confidence may be felt by every member, that as others have received their benefits, his will be forthcoming when required.

"A number of our older lodges have lately experienced the fact that they cannot continue to pay the large sum they have been paying on the death of a member, and have every assurance that their funds will hold out till the last obligation is met—and there is no doubt but to a greater extent than is generally known, this doubtless is the cause of many of the suspensions for non-payment of dues.

"The payment, on the decease of a brother, of any sum, unless the lodge collects, the proper cost for such insurance should, and really must, be discontinued, if disaster is to be averted.

A CHANGE DEMANDED.

"In view of all this, it appears evident that now is the time to make a change. There should be absolute uniformity as to fees and dues paid into each lodge, and in the amount of benefits to be paid by each lodge for sick or funeral benefits. All insurance at death should be left to the Relief Association, except that a central or consolidated fund controlled by the Grand Lodge should be provided. The cost of this to each member can now readily be ascertained, and from this fund all brothers who have been continually sick for more than a year should be paid, and also a sum not to exceed two hundred dollars, to be paid on the death of every member. This would put beyond peradventure, on the failure of a lodge, the possibility of a brother being deprived of his benefits at a time when he most need them, and when the individual lodge finds the payment of continuous sick benefits a heavy if not impossible burden. The many, we are taught, are stronger than the few, so, therefore, all lodges joining hands could, with positive safety, promise to pay continuous sick benefits, and not be compelled when a brother has lost his health and become a confirmed invalid to reduce his benefits to a pittance of one dollar a week. That amount is truly better than none, and more particularly when with it is carried the sympathy of his brethren, but a more substantial sum might and can as well as not be provided for. It is a question worth very careful consideration, whether or not it is now now the time to change our present system entirely, and begin paying a small amount of benefits for the earlier weeks' sickness and increasing it as the sickness continues, up to a given maximum amount.

"If, as it is said, the Sovereign Lodge laws will not permit the adoption by a provincial jurisdiction of laws to enable lodges to do as here suggested, then it is high time that that body should better consult its own and the order's interests by making legislation by which it can be done."

The Grand Treasurer's report showed the finances to be in a satisfactory condtion.

All the reports, including the auditor's, were referred to committees.

The special committees re Oddfellows' home and financial affairs, presented short reports.

Steamer City of Peterborough.

Until further notice the steamer City of Peterborough will leave the C.P.R. wharf every morning (Saturday excepted) at 8.30, calling at Peck's wharf, Ashburnham, for Jubilee Point, Gore's Landing and Harwood. Fare 40c., dinner at Jubilee, included. On Saturday, at 2 p.m., for Jubilee; fare 40c., tea included. d30tf

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect. SHOP—450 George Street.

ONE OF THE GREAT
INVENTIONS OF THE AGE.

BERNARD TRAINOR'S Monster
WOOD AND COAL FIRE KINDLER.

Guaranteed to keep a full and constant blaze over 18 inches high for ten minutes. No kindling wood required. It will kindle two fires each time, even though the wood be damp or green. Boils two quarts of water without fuel. I have flattering testimonials and carry them with me as vouchers from different residents and Business men of Almonte Pembroke, Arnprior, Ottawa, Renfrew, Smith's Falls, etc., who are using the kindler from one to three years, to certify that it is still in use and as good as ever. These men recommend them to the public. With care every kindler is everlasting. I also manufacture a larger one which throws 4 times the heat of the smaller one, and that will of itself boil all small water required, which is a great convenience in the hot summer weather, and will without fail light any coal stove from under the grate, and is a magnificent fishing torch for spearing etc. The kindler is used with a coal oil liquid and is safe in every form. One gallon of oil is sufficient to light one stove for one year. This is cheap kindling wood. Price, 50c and $1.00.

Mr. Trainor, the inventor, is at Clancy's Peterborough House, Hunter street, and will make a thorough canvass of the town.

Town and County Rights for Sale. Good Live Agents Wanted.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Steel Roof, West Block, Ottawa," will be received until Tuesday, 24th inst., for the construction of a steel roof over a portion of the West Block Departmental Building, Ottawa.

Plans and specification can be seen and form of tender and all necessary information obtained at this Department.

Persons are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an *accepted* bank cheque, made payable to the order of the Honourable the Minister of Public Works, equal to *five per cent of the amount of the tender*, which will be forfeited if the party decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
E. F. E. ROY,
Secretary.

Department of Public Works, Ottawa, Aug. 6, 1897.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

DR. FOWLER'S EXT. OF WILD STRAWBERRY

BABY WAS CURED.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of diarrhœa after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. BOTT, Harlow, Ont.

THE HEAD MASTER

GENTLEMEN,—I have found great satisfaction in the use of Dr. Fowler's Extract of Wild Strawberry, and consider it invaluable in all cases of diarrhœa and summer complaint. It is a pleasure to me to recommend it to the public.

R. B. MASTERTON, Principal,
High School, River Charlo, N.B.

TORONTO MARKETS

Flour—The demand for flour is good, but holders are very firm in their views. Straight rollers quoted at $3.65 to $3.75.

Bran—The market is unchanged at $8 west for bran and $9 for shorts. Bran is quoted here at $10.

Wheat—The demand continues good, with prices higher. Sales of new red winter were made to-day at 73c west and at 74c middle freights. New white 74c west. Old white nominal at 76c to 77c, with very limited offerings. No. 1 Manitoba hard quoted at 83c Fort William, and at 88c Goderich. No. 2 hard, 87c Goderich and Owen Sound.

Buckwheat—The demand is limited and prices nominal.

Barley—The market is quiet, with no business reported.

Oats—The market is quiet, with demand restricted. White quoted at 22½c to 23c west and mixed at 22c.

Peas—The market is quiet and prices rule firm. Quotations 43c to 44c west.

Oatmeal—The market is quiet and prices steady at $3.10 to $3.20 for cars on track.

Corn—The demand is fair and prices steady, there being sales outside at 27c west and 28c. A car of mixed sold at 33½c on track.

Rye—The market is quiet. New sold at 35c west and at 36c east.

TORONTO LIVE STOCK MARKET.

Sixty-four carloads of live stock arrived on the market yesterday, composed of 975 cattle, 615 sheep and lambs, 80 calves and 1400 hogs. There was no great change in prices from Friday's quotations, and trade was if anything inclined to be quiet.

Export cattle sold from $4 to $4.50 per cwt., and we saw one carload of extra choice heavy steers sold for $4.60, but the great bulk of the export cattle went for less than $4.50 per cwt., and the probability is that they will be cheaper. Many of the dealers complain of losing heavily, and if it were not for the fact that many of them have space to fill on the boats we doubt very much if prices would be as high as they are to-day.

D. O'Leary sold 16 steers and heifers, weighing 1228 lbs. each, at $4.35 per cwt.; also 19 heavy steers, weighing 1433 lbs. each, at $4.30 per cwt., and they were a choice lot.

Mr. Czerynski sold to A. Ironside 14 cattle, weighing 1220 lbs. each, at $4.35 per cwt.

Mr. McLean sold to J. Snell 20 cattle, weighing 1245 lbs. each, at $4.40 per cwt.

Butchers' cattle were inclined to be easy, and prices ranged from $2.50 to $3.75 per cwt., but there were few that reached the latter price, and they had to be extra choice. One load of butchers', weighing a trifle over 1000 lbs. each, brought $3.30; another mixed load of 25 cattle, weighing 970 lbs. each, brought $3.70.

There were few bulls on the market, and they are worth from $3.25 to $3.75, and for extra choice heavy ones $4 per cwt. would be paid.

W. Thrower sold to T. Connors a bull weighing 1390 lbs. at $3.30 per cwt.

Light feeders, weighing over 900 lbs., brought as high as $3.50 per cwt.

C. Zeagman bought 15 steers at that weight and price for shipment to Western Ontario.

Stockers sold from $2.75 to $3.25 per cwt. G. C. Beale sold 8, weighing 775 lbs. each, at the latter price.

There were about 15 milk cows on the market, but the most of them were a poor, scraggy lot; good ones are wanted at good prices.

Calves sold from $3 to $6, and the supply was ample.

Sheep sold from $3 to $3.25 per cwt. for export ewes, and $2.25 to $2.50 per cwt. for bucks.

Lambs brought from $2.75 to $3.25 each, and a few of extra weight and quality brought $3.50. Good sheep are wanted at these quotations and all were sold; but some of the lambs were left over.

The hog market is inclined to be easy, but the best still brought $6 per cwt.

The shipments per C.P.R. were: A. McIntosh 4 cars, A. Ironsides 4 cars, W. Levack 2 cars, all for export; C. Quintal 2 cars and T. Halligan 1 car. Per G.T.R.: A. McIntosh 4 cars, James Zakin 3 cars, T. Crawford & Co. 2 cars, Brown & Snell 1 car, all for export; J. Daily 1 car to Nanaimo, James Peterson 1 to Breslau, A. Buchanan to Denton.

BRITISH MARKETS.

Liverpool, Aug. 10.—No. 1 Northern wheat 7s 0d to 7s 1d; No. 1 Cal., 7s 2d to 7s 3d; red wheat, 6s 10½d to 6s 11d; peas, 4s 6d; corn, 2s 10¾d; pork, 46s 3d for fine western; lard, 22s 6d; bacon, heavy, l.c., 28s 0d; do., light, 27s 0d; do., short cut, 27s 0d; tallow, 18s 0d; cheese, 30s 6d.

London—Wheat on passage rather firmer. English country markets quiet. Maize on passage quiet and steady.

Liverpool—Spot wheat firm; futures steady at 6s 6¾d for Sept. and 6s 4¾d for Oct. and Dec. Maize quiet at 2s 1¾d for Sept. and 2s 1¼d for Oct. Flour 22s 3d.

Paris—Wheat 25f 60c for Sept.; flour 55f 90c for Sept.

London—Close—Wheat on passage more inquiry. Maize on passage quiet and steady.

Paris—Close—Wheat firm at 25f 90c for Sept.; flour 56f 50c for Sept. Weather in France fine.

Liverpool—Close—Wheat futures firm at 6s 7¾d for Sept. and 6s 5¾d for Oct. and Dec. Maize steady at 2s 1½d for Sept., 2s for Oct. and 3s 1¾d for Dec. Flour 22s 9d.

Cancer can be Cured.

For six years I suffered from cancer, and got no relief until I used Burdock Blood Bitters. I used seven bottles faithfully, when the cancer gradually dried up and finally disappeared. I am now entirely well and rejoice that by using B. B. B. I have escaped death either from the surgeon's knife or from the cancer itself.

JAPAN WILL PAY IN GOLD.

Osaka Mint Very Busy Making Gold Coins—Export Duty to Be Abolished—The Annexation of Hawaii.

San Francisco, Cal., Aug. 10.—The steamer Peru arrived today from Yokohama, via Hong Kong with Japanese advices.

A circular issued by the Specie Bank announces that from Oct. 1 it will pay gold for Bank of Japan notes. The Osaka mint is very busy, at present making new gold coins.

The Japanese Government has decided to abolish totally the export duty from April 1 next.

The Japanese papers are unanimous in approving the principle of a submission of the Hawaiian difficulty to arbitration.

The Mainichi, commenting upon the annexation question, says: "The reason why Japan made a protest, as soon as the signing of the annexation treaty became known, is that she has done it simply out of friendship, so as to make known her views in the matter before diplomatic negotiations are opened. From the reply of the United States Secretary of State to Japan's first protest it appears that the determination of America on the subject is very firm. The Japanese Government, however, has not relied on the attitude of other countries from the outset, and this policy will be adhered to to the last."

Wilkes-Barre	24	60	.286

CHAMPS BUNCHED HITS.

Wilkes-Barre, Aug. 10. Providence won from Wilkes Barre today by bunching their hits in the first innings. The contest was without any special feature. Score:

	R.	H.	E.
Wilkes-Barre ..0 0 0 0 0 2 0 0 0—2	6	1	
Providence ....4 1 0 0 0 1 0 0 *—6	8	1	

Batteries—Odwell and Diggins; Hodson and Coogan.

NATIONAL LEAGUE.

At Cincinnati—The Browns knocked Dawson off the slab in the fifth, scoring five runs. When the Reds went to bat in their half of the fifth innings the score stood 6 to 3. A base on balls, an error, two singles, a double and a triple brought in five runs for the Reds and won the game, as neither side scored after the fifth. Grady retired in the third innings, having been hit with a batted ball. Douglass went to first and Murphy behind the bat. Score:

	R.	H.	E.
Cincinnati .....1 0 2 0 5 0 0 0 *—8	8	0	
St. Louis.....0 1 0 0 5 0 0 0 0—6	15	3	

Batteries—Daman, Ehret and Schriver; Lucid and Murphy.

At Cleveland—The game was a batting contest, but the Clevelands had the better of it. This, combined with the loose fielding of the Pirates, gave the home team the victory. Score:

	R.	H.	E.
Cleveland .....1 2 0 0 2 0 0 4 *—9	18	1	
Pittsburg .....0 0 0 2 1 1 0 0 1—5	14	3	

Batteries—Young and Zimmer; Killen and Sugden.

At Washington—The Senators tied the score in the eighth, when five hits were made off Fifield, and Tucker's home run in the tenth won the day. Score:

	R.	H.	E.
Washington ....0 0 1 1 0 0 0 4 0 1—7	9	2	
Philadelphia ....0 2 0 0 1 0 0 3 0 0—6	11	2	

Batteries—King and Farrell; Fifield and McFarland.

At Brooklyn—The Baltimores and Brooklyns played two games this afternoon. One resulted in an easy victory for the champions, while the other ended in a tie after eight exciting innings, when darkness prevented further play. Both teams will play another double header to-morrow. Score:

First game—

	R.	H.	E.
Brooklyn .....0 1 0 1 0 0 0 1 0—3	8	5	
Baltimore .....0 1 0 0 1 0 2 2 3—9	14	4	

Batteries—Fisher and Grim; Pond and Clarke.

Second game—

	R.	H.	E.
Brooklyn .....0 0 3 0 0 0 0 0 0—3	6	4	
Baltimore .....1 0 0 0 1 0 1 0 0—3	8	3	

Batteries—Payne and Smith; Corbett and Clarke.

At Louisville—The Colonels had their regular off day, and the Colts won as they pleased. Hill was substituted for Evans after Anson's team had scored three runs in the fifth innings. Score:

	R.	H.	E.
Chicago .....2 0 3 0 5 1 4 1 0—16	14	3	
Louisville .....1 1 0 0 1 0 2 1 0—6	13	4	

Batteries—Thornton and Donohue; Evans, Hill and Wilson.

At Boston—The work of Klobedanz on the slab was easily the finest done by any Boston pitcher this season, and the New Yorkers were defeated by the smallest possible score. Only two men hit him safely, he gave but one base on balls, and received perfect support. Only one New Yorker got as far as second base. The only run scored was made by Bergen in the fifth. Seymour's Boston debut was a flattering one, and he held the Bostons down to one run and six hits. Both sides fielded brilliantly. Score:

	R.	H.	E.
Boston .....0 0 0 0 1 0 0 0 *—1	6	0	
New York.....0 0 0 0 0 0 0 0 0—0	2	1	

Batteries—Klobedanz and Bergen; Seymour and Wilson.

HARD LUCK, LONDON LOST.

London, Aug. 10.—The Londons' ill-luck seems to have begun again. In to-day's game with Guelph Keenan was too ill to play, Cockman taking his place. In the second innings Sippi became ill and had to retire in favor of Strowger, Pitcher Johnson, who was on the bench, going to right. The home team put up a ragged fielding game at times, and gave Crowe poor support, although the latter proved no puzzle to his former league mates. Doty, for Guelph, was effective at critical periods, but did not receive the best of support, Boyle at short, and Moore, catcher, contributing materially to the Leafs' error column. In the eleventh innings, with two men out, the bases were filled, and a hit would tie the score, but Sechrist struck out, and the game was over. Phelps' umpiring was at times very yellow, the visitors getting the worst of it. Score:

	R.	H.	E.
Guelph .....0 0 2 5 0 0 0 0 0 1 2—8	13	5	
London .....1 1 2 0 0 0 1 0 0 1—6	9	7	

Batteries—Doty and Moore; Crowe and Reid. Umpire—Phelps.

KICKING AT SCRANTON.

Scranton, Aug. 10.—John L. Sullivan umpired the Scranton-Springfield game here to-day before 2500 spectators. It was fortunate that he decided balls and strikes only and that Keefe steered the other part of the game, for it was a scrap from start to finish. John L. umpired with a very husky voice and kept within an imaginary 10-foot circle back of the pitchers' box. Following Barry's error in the eighth inning, and with the bases full, Rogers worked a gold brick game on Gillon—asked Gillon to toss him the ball for examination, and then let it go by. The trick raised a grand kick, but the run was allowed. Eagan's triple with three on bases and Griffin's single won for Scranton in the eighth. Score:

	R.	H.	E.
Springfield .....0 0 0 0 0 1 0 3 1—5	10	3	
Scranton .....2 0 0 0 0 0 0 0 *—6	9	5	

Batteries—Gillon and Gunson; Maine and Duncan.

Boils, pimples, and eruptions, scrofula, salt rheum and all other manifestations of impure blood, are cured by Hood's Sarsaparilla.

A Summer Specific.

Dr. Fowler's Extract of Wild Strawberry cures cholera, cholera morbus, diarrhœa, dysentery, cramps, colic, summer complaint, canker of the mouth and all bowel complaints of children or adults. It is a soothing, effectual and never failing medicine, which gives immediate relief and speedily effects a cure.

BURNED THEM WITH TORCHES.

Fearful Cruelty Resorted to by Robbers on a Couple of Brothers Who Had Money.

Johnstown, Pa., Aug. 10.—Four masked robbers entered the house of Philip and John Dever, aged and wealthy bachelor brothers, living in Munster Township, Cambria County, and demanded their money. The two brothers and a nephew aged 30 years were bound and gagged and the house ransacked. Failing to find any money, the robbers took lighted sticks and burned the feet of the three men to compel them to tell where the money was secreted. While the burning sticks were being applied to the feet of Philip the nephew, who had managed to slip the blindfold from his eyes, turned to see what was going on. One of the robbers saw the move and ran to him, striking him a terrible blow on the mouth with his revolver, knocking out his teeth, shattering the lower jaw bone and splitting the upper lip. All their efforts failed to obtain the information as to where they could find money, and the four men finally departed, leaving their victims tied. They are terribly injured and Philip, who is 78 years of age, may not recover. There is no clue to the robbers.

NOW IT IS PEARLS.

Excitement at Bald Knob, Arkansas, Over a New Source of Wealth.

Little Rock, Ark., Aug. 10.—For a month or more the people living near Bald Knob, Ark., have been finding valuable pearls in a lake near that place. Hundreds of people have been opening mussel shells in search of the pearls, and some rare gems have been found, some being sold for as much as $300. A syndicate of Memphis parties have leased the lake for a term of five years. They will begin work with a steam dredger.

*** 1871 ***

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

*** 1897 ***

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

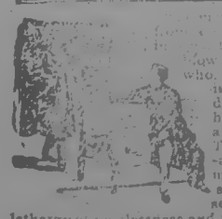
A. STEVENSON, Secretary.



[illegible] who [illegible] is preparing to drive it into his heart, has had a narrow escape. There are thousands of grateful men who have aroused themselves from the lethargy of [illegible] carelessness and neglect, just in time to [illegible] the deadly assault of that dread [illegible] of mankind consumption.

The [illegible] which these men have successfully combated this grim destroyer has been Dr. Pierce's Golden Medical Discovery. It is the only known medicine that will prevent and cure consumption. Taken in time it will always ward off this deadly disease, and even after the devastating germs have attacked the lungs, it will cure 98 per cent. of all cases. It acts directly on the lungs, building up new, healthy tissues and driving out all disease-germs. It corrects all stomach and digestive troubles, invigorates the liver and makes the appetite keen and hearty. It is the great blood maker, flesh-builder and nerve tonic. There is nothing else "just as good" and the druggist who says so is untrustworthy.

"I was a sufferer for five or six years from indigestion, sore stomach, and constant headaches," writes B. E. Holmes, of Gaffney, Spartanburg Co., S. C. "I tried several of our best physicians and found no permanent relief. By the persuasion of Mr. J. R. Tolleson, a friend of mine, I commenced on the 28th September, 1895, to use Dr. Pierce's Golden Medical Discovery and 'Pellets'—which gave me relief in a few days. Since then I have used five bottles of 'Golden Medical Discovery' and five vials of Pellets.' When I commenced using the medicines I could not sleep, had a restless uneasy feeling all the time, and my skin was yellow and dry. I weighed only 148 pounds. I now weigh 170 pounds, have a good color, and rest well at night. I have a good appetite, can eat anything I wish. For two years, while under treatment by a physician, I ate nothing but Graham bread."

In reference to the above letter, J. R. Tolleson, P. O. Box 173, Gaffney, Spartanburg Co., S. C., writes: "The above Mr. B. E. Holmes, is a good christian gentleman, and one whose word will go a long way with those who know him. I use and sell Dr. Pierce's medicines, and I recommended them to Mr. Holmes."

Dr. Pierce's Pleasant Pellets cure that disease-producing disorder, constipation. They never fail. They never gripe. Druggists sell them.

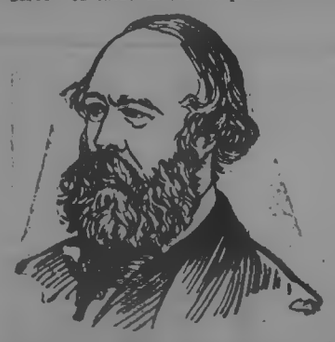
PREMIER OF THE UNITED KINGDOM.

THE MOST NOBLE THE MARQUESS OF SALISBURY, K.G.

Sketch of the Life of the Present Imperial Secretary of State For Foreign Affairs—His Guiding Hand in Matters Appertaining to Greater Britain.

The personality of the Most Noble the Marquis of Salisbury, K.G., P.C., D.C.L., LL.D., Premier of the United Kingdom, Chancellor of the University of Oxford, is at the present time of much interest to all dwellers in "The Colony of Nations," as somebody has styled Imperial Britain. Although in matters concerning the destiny of the Empire in its colonial relations may bring Mr. Joseph Chamberlain, the Colonial Secretary, more prominently to the public eye, the guiding hand of the Prime Minister will be felt and acknowledged in every phase of the multiplex question. His descent, as well as his career, is interesting. Ten generations ago the ancestors of the present British Prime Minister were serving their country as statesmen, and it was at Hatfield, then a royal palace, that Sir William Cecil took the oath to Queen Elizabeth: "I give you this charge that you shall be of my Privy Council, and content yourself to take pains for me and my realm." No family did more to lay the foundations of the Empire than Lord Burleigh and his second son, the Earl of Salisbury.

The Premier has also some of the blood of those merchant princes who



THE MOST NOBLE THE MARQUESS OF SALISBURY, K.G.

have done so much for the State; he claims descent from three aldermen, one of whom, Sir Crisp Gascoyne, was the first Lord Mayor who, in 1752, occupied the present Mansion House. The title of Marquess was conferred upon James Cecil, the seventh Earl, in 1789.

Robert Gascoyne Cecil, the present Premier, was born on 3rd February, 1830, with but little apparent prospect of becoming the Marquess. He distinguished himself at Oxford, and after taking his degree he spent a year or two in seeing the world, traveling as far as Australia. He did not travel like the typical lordling with a suite of attendants; indeed, a recent writer tells the story that "at Chicago he lived in a hut, went in for gold-digging, and did his own washing and darning."

On his return to England he was appointed a Fellow of All Souls, but had to resign that source of income when, at the age of twenty-seven, he married a daughter of the talented Judge, Baron Alderson. At this period Lord Robert Cecil had an intimate connection with more than one leading journal, and the Saturday and Quarterly Reviews, and his articles were able, pungent and cynical.

As a member of Parliament, he rapidly acquired distinction, and by 1853 had made his mark. In 1865 the death of his elder brother made him heir to the Marquisate, and changed his courtesy title of that of Viscount Cranborne now held by his eldest son, who is M.P. for Rochester.

In 1866 Viscount Cranborne took office for the first time in the Cabinet of the Earl of Derby, but resigned the following year owing to his disapproval of Mr. Disraeli's Reform Bill.

In 1868 his father died and he was compelled to leave the scene of his oratorical triumphs for the gilded chamber of the Peers.

When Mr. Disraeli first became Prime Minister, in 1874, the Marquess of Salisbury joined his Cabinet as Secretary for India, and gained distinction by his measures to fight the great Indian famine. He went as special Ambassador to Constantinople at the time of the Russo-Turkish trouble, and in 1877 succeeded the Earl of Derby (who had married his father's widow) as Foreign Secretary. In that position he has won fame as a despatch writer, his communication to Russia denouncing the treaty of San Stefano being still quoted as a masterpiece.

It is known that Lord Beaconsfield nominated him for the leadership of the party to which he was formally appointed after the death of that great leader, April 19, 1881.

He has been Prime Minister and Foreign Secretary from 24th June, 1885, to February 6, 1886; from 3rd August, 1886, to August 18, 1892, excepting a short period when Lord Iddesleigh held the seals as Foreign Minister and the Premier those of First Lord of the Treasury, during that period.

The Marquess of Salisbury became Premier for the third time on July 2, 1895.

It is well known that in 1886 he offered to accept office under the then Marquess of Hartington, rather than prevent the conclusion of the Unionist alliance.

The Premier has a happy faculty of selecting able colleagues and putting the round pegs in the round holes.

His offer of the Colonial Secretaryship to his former Radical opponent, Mr. Joseph Chamberlain, was much commented upon at the time, but has verified his judgment in a remarkable manner.

LAXA-LIVER PILLS

CURE

BILIOUSNESS
CONSTIPATION
SICK HEADACHE
AND ALL LIVER TROUBLES

As a laxative, one pill acts perfectly, and if a stronger action is desired a cathartic effect is produced by two pills. In obstinate cases, where a purgative is necessary, three pills will be found sufficient. These pills leave no unpleasant after effect.

One pill taken each night during thirty days will cure constipation.

PRICE 25C. OR 5 FOR $1.00

THE COLONIES OF BRITAIN.

Sketch of Their History, Area, Chief Products and Capitals.

Just now the interest has become intense concerning our "sister" colonies, which comprise a part of the Empire on which the sun never sets, and, barring Canada, which we all know all about, a sketch of the leading characteristics of Britain's dependencies is in order.

Cape Colony.

Cape Colony obtained responsible Government in March, 1853. Its constitution now consists of a Legislative Council of 23 members elected for seven years, and a House of Assembly of 79 members elected for five years.

The Governor is appointed by the Queen, and is paid £5000 by the Cape Colony, and £2000 per annum by the Imperial Government as Her Majesty's "High Commissioner for South Africa."

The total area is 221,311 square miles; European population, 376,987; native and colored, 1,150,237; total, 1,527,224.

Principal exports: raw gold, in transit from Transvaal, diamonds, wool, ostrich feathers, hides and angora hair.

Principle imports are textile fabrics, pally iron and steel, cottons, hardware and cutlery, paper, beer and ale.

New Zealand.

New Zealand is made up of two principal islands known as the North and Middle islands, besides the South or Stewart's Island, and small outlying islands. The group is nearly 1000 miles long and 200 miles across at its broadest part.

The total area is estimated at 104,471 square miles. The total population in 1896 was 743,165, including about 50,000 Maoris and 3711 Chinese. There are four towns with over 40,000 inhabitants, viz., Auckland, 57,616; Wellington, the seat of Government, 47,441; Christchurch, 51,330, and Dunedin, 47,280.

The principal exports are wool, gold, frozen meat, hides and skins, butter and cheese, gum, tallow. Of imports clothing and materials for clothing form the principal item, then iron and steel goods, paper and books, sugar, spirits, beer and tobacco.

Newfoundland.

The island is 317 miles long, and 316 miles in the extreme width, area about 42,200 square miles. Population in 1891, including Labrador, 202,040.

St. John's, the capital, has a population of 29,000; Harbor Grace, 6566; Carbonear, 4127; Twillingate, 3585, and Bonavista, 3551. Of the total population 54,755 were returned at the last census as engaged in the fisheries, whose products form the staple export, $732,396 of copper and ore were exported in 1895 and the rapid extension of the railway system is expected to develop the mineral resources of the colony extensively. The principal imports are flour, articles of apparel and textiles, hardware, tea, butter and leather and leather goods.

A CONSTABLE TALKS.

Like Ordinary Mortals Subject to Kidney Disease but Easily Cured by Dodd's Kidney Pills.

STAYNER, (Special), Aug. 2.—Mr. James K. Nesbitt, a county constable of this place, having suffered for a long time with kidney disease, he became aware that the doctors called it diabetes and incurable. As he had the good fortune to know that many cases of this disease had been cured by Dodd's Kidney Pills this news did not startle him. He says he went straight to Sander's drug store, and commenced to get well on the first box purchased. Now he is going the usual rounds praising Dodd's Kidney Pills to every one who asks the particulars of his recovery.

Captain Sweeney, U. S. A., San Diego Cal, says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 389 George Street.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

LOCKJAW SET IN.

And Mr William Balfour Died from Stepping on a Nail.

[illegible], Aug. 11.—Mr. William Balfour, a farmer of Lecaton, three miles south of Omemee, stepped on a nail three weeks ago. The wound was trifling and healed over in a short time. Last Tuesday he was attacked with lockjaw, and in spite of medical attention grew rapidly worse. He suffered great agony and succumbed to the disease last night at 12 o'clock. Deceased was 38 years of age and unmarried. He leaves two brothers, one of whom is Rev. David Balfour of Thomasburg, four sisters and an aged mother to mourn his untimely death.

NEWFOUNDLAND COAL.

Will Be Tested by the Warship Buzzard, and the Result Will Be Important.

St. John's, Nfld., Aug. 10.—The British Admiralty has ordered sixty tons of coal from the newly-discovered veins on the west coast to be tried by the warship Buzzard as a test. If the quality of the coal is satisfactory St. John's will be created a dock yard and naval station.

REV. MR. GRANT'S BODY FOUND.

A Diver Brought It to the Surface Yesterday Afternoon.

Winnipeg, Aug. 10.—(Special.)—The body of Rev. Alexander Grant, drowned in Nepigon River a week ago, was found this afternoon by a diver. It will be brought to Winnipeg at once.

Tired, Nervous, Sleepless

Men and women—how gratefully they write about Hood's Sarsaparilla. Once helpless and discouraged, having lost all faith in medicines, now in good health and "able to do my own work," because Hood's Sarsaparilla has power to enrich and purify the blood and make the weak strong—this is experience of a host of people.

HOOD'S PILLS are the best family cathartic and liver medicine. Gentle, reliable, sure.

Pleasant, Sure and Quick.

GENTLEMEN,—I am pleased to recommend your Laxa Liver Pills for constipation, dyspepsia and sick headache. I have used them for those troubles, and find them a pleasant, sure and quick cure, free from the annoying griping of other pills I have hereto fore used.

Signed, H. JAMES,

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognised this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

KEENE.

(From Our Own Correspondent.)

At a recent meeting of the Keene correspondents it was unanimously carried that we each week pen items to our respective newspapers. So EXAMINER readers can rest assured that all items of interest will be inverted for their pleasure and curiosity.

Mr. C. Edwards was made happy last week. They are two baby girls.

Tramps have been a nuisance here the past month, but they are advised to fight shy of Keene in the future. Every resident is the owner of a dog, and one individual owns no less than seventeen. A poor lookout for tramps around his premises.

Mr. E. B. Harrison, of Ridgetown, father of Dr. Harrison, is at present a guest at the doctors.

Messrs. William and Percy Campbell, of Peterborough, are in the village visiting old acquaintances.

Several young gentlemen (at least they suppose that is their proper title) have of late made themselves disagreeable to the respectable residents of this village by hooting and yelling and making rowdies of themselves. We would advise these wayward youths to take a hint in time and cease their depredations.

PROMOTION EXAMINATIONS.

"How to Cure all Skin Diseases."

Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman Sons & Co., Montreal wholesale agents.

Mrs. T S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitalizer 'Saved my Life. I consider it the best remedy for a debilitated system I ever used." For dyspepsia, liver or kidney trouble it excels Price 75c. Sold by John Nugent 389 George Street.

THE U. S. TARIFF ON LUMBER.

A Peterborough gentleman, whose previous correspondence to the Montreal Star on a similar subject, has attracted considerable favourable comment, has sent also the following interesting letter to the same paper on the subject mentioned:

To the Editor of the Star:

SIR,—Upon this subject you were so good as to to publish my letter of June 14th last in your issue of June 16th. The remarks which I then put forth were based upon the assumption that the United States duty of $2 per thousand feet had become a fact, but it happened that immediately afterwards the joint committee of both houses of Congress agreed upon a duty of $1 per thousand which had the effect of making my argument less pertinent. Now, however, the $2 duty is fixed, and not only so, but there is to be an addition to the extent of any export duty we may place upon sawlogs, and worse still, lumber manufactured in Canada by "American" labour is to be admitted free. Could any tariff be more hostile? This last provision absolutely necessitates, not an export duty on lumber generally, but discrimination against the United States. The only way in which we can retain and increase our export market is by altogether preventing our sawlogs and lumber being shipped to the United States, and if we have no legislation now which enables the Government to accomplish this, it is scarcely too much to say, that the subject is of sufficient importance to justify a special session of Parliament, for the purpose of granting the necessary powers. The Toronto correspondent of the New York Post, in a recent letter which was reproduced in the Toronto newspapers called attention to the fact that out of the eleven million dollars' worth of lumber shipped to the United States annually, probably not more than $8,000,000 worth was consumed in that country, the remainder being forwarded to other countries. I referred to this in my former letter, placing the proportion more like half and half, and I then urged the desirability of a strong company being formed in Montreal to handle the whole export lumber trade of the country.

It is by such a company that most of this trade is handled on the other side, and there are obvious reasons why it should be so. The chief of these is a financial one. It takes about two years to get returns from South America, and the banks naturally object to waiting so long for repayment of their advances to the lumberman: but if there were such an export lumber company as I am advocating, then the lumberman would dispose of his lumber to it, so that the lumberman would carry the load for the one year and the export company for the other. It requires a rich corporation to enter upon this enterprise; nothing but a heavy expenditure at the outset will suffice to establish a connection with foreign countries, but when the connection is established there will be compensating profits; at least that is the experience of the Export Lumber Company of New York and there is no reason why it should not be that of "The Export Lumber Company of Montreal." The opening of the Ottawa and Parry Sound Railway has made the whole Georgian Bay country tributary to your city, which is consequently in a position now to command this whole trade. The wealth of Canada's metropolis could not be devoted to a more laudable object than the development of this scheme, and I have no doubt the men will not be found wanting to take it up.

Your obedient servant,
CANADA FIRST.

Peterborough, August 3rd, 1897.

Dr. Chase Cures Backache.

Kidney trouble generally begins with a single pain in the back, and in time develops into Bright's Disease. People troubled with stricture, impediments, stoppage of water, or a frequent desire to urinate at night, will find Dr. Chase's Kidney-Liver Pills a blessing. Read the wonderful cures in another column. One pill is a dose, and if taken every other night will positively cure kidney trouble.

Undoubtedly the Best.

GENTLEMEN,—I wish to say that Dr. Fowlers Extract of Wild Strawberry has proved a wonderful remedy in my family. We would not be without it for twice its price. I say it is the best (not merely one of the best—but the best) medicine ever brought before the public for summer complaint or diarrhœa, either in children or adults.

JOHN UNDERHILL,
License Commissioner, Stratholair, Man.

BENSFORT.

(From Our Own Correspondent.)

Lieut. Garnet Bell, 57th Batt., Peterborough, spent Sunday with Sergt.-Major Thos. Nimmo, 46th Batt.

Misses Florence and Roxie Nimmo, of Peterborough, spent last week with friends in Monaghan.

Miss Christie is visiting at Mr. Jas. Perrins.

Mr. Eakins and family, of Toronto, are staying at Mr. Jas. Wedlock's.

Mr. Wedlock's is far-famed as a pleasant summer resort, and he has with him now gentlemen from Illinois, New York, and several other prominent American as well as Canadian centres, who speak well of Mr. and Mrs. Wedlock as hosts, being very obliging in every way.

Mr. John Pue intends spending a few weeks with his son Robert, of Deloraine, Manitoba.

Mr. Stanley Robinson also intends going to the Northwest for harvest.

Mr. Isaac Kerr visited Peterborough last Monday.

A party representing nearly all the trades and professions in Millbrook visited Bensfort last Sunday upon business known only to themselves. All went well until they started for home, when one of their buggy wheels refused to go any further. After using all the coaxing, persuading and forcing powers at their command so no effect, they all decided to return to Millbrook in one rig as happy and snug as a bug in a rug. May they soon visit Bensfort again.

Could not the citizens of Bensfort prevail upon the good nature of the Peterborough Electric Street Railway Company to extend their line to Bensfort, as it would be very convenient for their employees, especially motormen, who occasionally visit Bensfort, coming on foot, which must be very fatiguing, especially in the hot weather.

Pleasant drives in the cool of the evening seem to have suddenly sprung into favour with the middle-aged bachelors of this little town. Around the block is about the regular distance travelled.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

A Sad Accident.

While making some tea the other day in a fancy China teapot, the handle came off and spilled the contents. "I would not care so much for the teapot," she said, "but I haven't any more of Elliott's famous tea in the house. Be sure I send to Peterborough to-morrow for some. It's the best I can get for 25c. You should try it."

Novelties in Chairs.

Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round Every new thing quick as it appears. d

Sample Nuggets.

The Klondyke gold hunters have exhibited sample nuggets from the inexhaustible gold fields up in that polar country. H. LeBrun & Co. are exhibiting some rare nuggets in bargains during their August sale, of which the following are bonafide samples: Genuine Tweed suits, made to order, for $12, easy worth $15. Genuine Worsted suits, made up to your measure, for $16, easy worth $19. Good business trousers, skillfully cut and fitted to your order, for $2.75, $3.25, $3.75. All our stock of tweeds, worsteds and other first-class cloths reduced to clearing sale prices. Just received a lot of new and well made boys and young men's suits, bought at 40 per cent. reduction, and will be sold equally below their value. H. LEBRUN & Co.

The Wabash Railway Trains

running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service; they are complete and solid vestibuled rom end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to car builder's art. They include free reclining, palace, sleeping, and dining cars of the latest and best paterne. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

FIENDISH ROBBERS,

They Killed a Man, His Wife and Son. Burned the Barn and Prepared to Burn the House.

Watertown, N.Y., Aug. 11.—A special to The Standard from Rodman, a country village seven miles from this city, says: One of the most fiendish plots ever conceived and started on its execution occurred at Tremain's Corners, a hamlet a few miles from here, at an early hour this morning. In this place resides the family of George Pilsbury, a farmer. The family consists of himself, wife and two little children, a boy and a girl. About 2 o'clock this morning Mrs. Pilsbury was aroused from her bed by noises in the house. She got up to investigate, and had proceeded but a few steps when she was dealt a terrific blow on the head by a heavy club in the hands of some unknown person. Mr. Pilsbury then got up, and he was similarly dealt with. The young boy appeared on the scene and was laid insensible. The little girl got out of the house and notified neighbors. The assailants had previously set fire to the barn, and that was destroyed. The floor of the house was saturated with kerosene, and matches were strewn everywhere. The motive of the assault was robbery, for the maranders secured a tin box containing a sum of money, which was on a shelf. The assailants made their escape before the neighbors arrived. Sheriff Kellogg of Watertown is on the scene, and a posse will be organized and the country scoured in an endeavor to capture the assailant or assailants, whose identity is as yet unknown.

THE "EXAMINER" AT SUMMER RESORTS.

The DAILY EXAMINER is sent to summer resorts addressed to individuals at thirty-five cents per month. Persons leaving town for their holidays can have the EXAMINER addressed to them for as short a period as one week by applying at the office, 419 George street.

Opposite the Opera House, George, Street.

A GREAT BIG BROAD-GUAGE BUILDING SALE

Serious Disturbance to Business.

On next Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

THIS MONTH we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—**BECAUSE WE HAVE TO.**

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

In the general overhauling, there will be brought to light, accumulations of Odd Suits, Odd Lengths, small quantities and Remnants, throughout the various departments which will be let go at prices to dispose of quickly.

Come and hear the Prices Snap and don't forget that we stand ready to return your money without question if you are dissatisfied with your Bargains.

GOUGH BROS.

THE WONDERFUL CHEAP MEN,
375 and 379 George Street.

The Daily Examiner.

VOL. XXIV, NO. 37. PETERBOROUGH, FRIDAY, AUGUST 13, 1897. PRICE TWO CENTS.

CLEARING SALE

—OF—

LADIES' WHITE WEAR

—AT—

ROBERT FAIR'S.

Just now active preparations are under way to make room for New Fall Goods that are coming from every source. Our tables of popular priced Summer Dress Goods, &c., have proven a great attraction, and we now add to the already attractive array of Summer Bargains our whole stock of Ladies' Whitewear. It was only last January that we opened this important department to the Golden Lion, so that the stock is all as good as new.

The Ladies have found out with good reason that we have saved them money in White Wear of every sort, and one of the hardest things for them to understand is how such prices are possible. There's the cost of material and the cost of making, and here's the thing for less than the two foot up:—

NIGHT GOWNS—

Commencing at 50c.

90c Drawers for	.70
$1.00 Drawers for	.75
$1.25 Drawers for	$1.00
$1.50 Drawers for	$1.15
$2.00 Drawers for	$1.50

SALE COMMENCES SATURDAY, AUG. 7th.

We would urge the ladies to attend this rare White Wear Sale, as the goods are new and cannot be excelled for style and material.

Robert Fair, Direct Importer, Sign of the Golden Lion, 383 George St., Peterborough,

SOME OF THE BIGGEST CHANCES OF THE YEAR.

The month of August brings with it some of the biggest chances of the year. The approach of the fall season beginning in September has to be provided for considerably in advance. Making room is a perplexing problem, and many extraordinary sacrifices of really good lines have to be made. Be wise in time. These are—

REMNANT DAYS....

Every Remnant in stock, placed on tables and an entire clearance must be made. STONY LAKE COTTAGE

TO RENT OR FOR SALE.

STORY AND A HALF, 13 x 16, WITH 3 rooms attached; well sheltered; good boat landing; situated directly opposite the store and west of Mr. Hull's cottage; nicely shaded with trees. Particulars on application to F. J. MOORE, Lakefield, or at the EXAMINER OFFICE. dtf

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c. Remember the address—

JAMES SUTHERLAND,
323 George Street.

LOOKS LIKE TROUBLE

Coal Miners' Strike Assuming a Serious Phase.

INJUNCTION AGAINST MARCHING.

But the Men Propose to Test the Law and Will Not Obey It—Sheriff and Deputies on the Way to the Mines—Buffalo Getting Short of Coal.

Pittsburg, Aug. 12.—The much-talked of bill for an injunction against the United Mine Workers, that was to have been filed in the United States Courts, was filed in the county courts about noon by counsel for the New York and Cleveland Gas Company. The defendants named are the United Mine Workers of America, Patrick Dolan, President; Edward McKay, Vice-President; William Warner, Secretary and Treasurer, and others.

The bill recites the conditions prevailing at the mines since the strike began, and alleges that the strikers have paid no attention to the sheriff's proclamation, and that the lives of miners and the property of the company are in danger.

Judge Collier granted a preliminary injunction and restraining order enjoining the defendants from assembling, marching or encamping in proximity to the mines and houses of the miners for the purpose by intimidation, menaces, threats and opprobrious words or preventing the miners of the plaintiff from working. It further restrains the defendants from inducing or compelling any employe or miner to quit work.

A hearing was fixed for Aug. 16. The injunction is regarded as the most sweeping yet issued.

President Dolan expressed surprise when informed that it had been granted, and added:

"It will make no difference to us. We will not break camp, and will go right along as usual until the matter is tested in the courts. We will stay there regardless of every judge in Allegheny County, and if they try to enforce the injunction they will have to build more jails to accommodate the men." When the news of the injunction granted by the county courts, practically breaking up the camp, reached Turtle Creek, the wildest excitement ensued. The strikers were emphatic in their protests against the action.

A conference of the camp leaders was at once called for and plans were discussed for some means of holding the ground gained against the New York and Cleveland Gas Coal Company's men."

Ex-State President George Harris of the Old Miners' Union was in conference here to-day with the miners' officials relative to the extension of the strike into the central coal fields of Pennsylvania. He stated that the miners are dissatisfied, and he believes can be induced to quit work, which would aid materially in bringing success to the movement. The Jefferson-Clearfield Coal and Iron Company employs about 10,000 men, he says, and they are turning out daily from 30,000 to 35,000 tons of coal, most of which is being shipped to the Pittsburg market.

The Reynoldsville miners, numbering 1000, have already quit work, and are now considering the advisability of making a raid on the other mines of the company located in Jefferson County, and inducing them to quit work. It was decided to start the movement at once.

APPROACHING A CRISIS.

Officials Propose to Try to Stop the March of the Men This Morning.

Pittsburg, Aug. 12.—The court officials intend to try to forestall the customary march in the morning by going to the camps to-night and reading the injunction to the campers. If this is done, the crisis will be certainly reached at about 4 o'clock in the morning, as the strikers appear determined to test their right to carry out their usual program. It is said that when the deputation do start to enforce the injunction they will be compelled to arrest every man for contempt and that as fast as the men are placed in jail others will be brought into camp to take their places, and thus the deputies will be kept busy making arrests until the jails are overcrowded.

The strikers aver that this movement of the company is only another plan for getting the militia on the ground. When they find the miners will not obey the injunction, and the jails become crowded, it is expected that the sheriff will adjudge that his deputies are not sufficient to cope with the situation, and he will be constrained to call out the militia. This is the view of the situation taken by the leaders of the strikers now in the camp.

The strikers at Plum Creek held a meeting to-night and voted unanimously to hold the fort, but not to resist arrest. The resolutions provide that if one man is arrested the deputies shall arrest all.

Enlarging the Scope.

Washington, Pa., Aug. 12.—J. H. V. Cook, coal operator of the McGovern, came into court this afternoon and complained that the strikers were again trespassing on his property; that Andrew Savage, a leader, already enjoined, was there, and he thought they had instructions to go when and where they pleased in disregard to the injunction. At his request the court made an order including the United Mine Workers of America, President Ratchford and Secretary Pierce and the Pittsburg district mine workers, President Dolan and Secretary Warner in the injunction.

SEIZE ALL COAL IN SIGHT

In the Advice of Buffalo's City Attorney to the Fire Department

Buffalo, Aug. 12.—Buffalo is now feeling the bituminous coal strike for the first and the scarcity of that product in this city has about assumed the size of a famine. The market here had been well supplied throughout the trouble until the mines of the Reynoldsville district and those of the New York and Cleveland Gas Coal Company became affected. The roads over which the supply came had their own mines and no danger of confiscation existed. At present one ton of bituminous does not come to Buffalo a day. The only mines which are working that have been tributary to the Buffalo market are those in Mercer County and the Allegheny Valley. When labor and capital are at peace in the mining regions the overplus of these districts comes here, but prices are so high at the mines that the coal is purchased for home consumption before it reaches the tipples. Although no coal is practically to be had, the prices in the Buffalo market have stiffened until they are absolutely prohibitive. It has advanced along the line to 50 cents on a ton. Jobbers here look forward to it getting to $4 and higher, as it did in 1894. The secession of the miners in the Reynoldsville and De. Arnit's districts is a great disappointment to the trade here, as they looked forward to these mines working steadily. If they had the local market would have all the bituminous it needed.

Alarmed by the shortage in the coal reserve of the fire department, consequent to the miners' strike and the inability of the city to replenish by purchase, Senior Fire Commissioner Davis called upon the Law Department to-day for advice as to his rights to confiscate coal in the event of a fire.

"You cannot stand by and see the city burn if there is any coal in sight," said City Attorney Quakenbush. "I advise you to seize all the coal that can be secured and never mind the consequences. Those can be dealt with afterwards. If you find it necessary to seize coal under such circumstances, do not hesitate, the city will back you up."

LOOKS LIKE TROUBLE

The Sheriff and His Deputies Have Started to Intercept the March.

Pittsburg, Pa., Aug. 12.—At 11.15 p.m. Sheriff Lowry and his deputies, numbering 100, left Turtle Creek for Plum Creek. The distance is about 12 miles, and they expect to be on hand before the strikers march on Plum Creek. The sheriff is determined to carry out the order of the court, and says he will surely arrest the leaders as soon as the march begins. If new leaders are substituted they also will be gathered in. While the majority of the strikers are willing to go to jail unresistingly, there are a few of the hot heads who have announced that they will not be taken alive.

Springfield Men on the March.

Springfield, Ill., Aug. 12.—One hundred Springfield miners started to-day on their march to Decatur, Ill. Vice-President Archie Teal of Dawson is leader. En route they will pick up 150 miners at Lincoln, 50 at Dawson and 50 at Riverton.

At Niantic to-night they will hold a general conference preparatory to entering Decatur to-morrow. The marching miners are observing the strictest discipline and are orderly. They have a large commissary and say they will have no trouble getting the men out at Decatur. Col. B. B. Ray, Governor Tanner's special commissioner, left here for Niantic to-day. There he talked with miners, operators and authorities, and then proceeded to Decatur.

Hamilton Will be Hit Hard.

Hamilton, Aug. 12.—(Special.)—Hamilton coal dealers say that they will be badly pinched if the strike of the Reynoldsville coal miners lasts a month. Nearly all the soft coal in the city comes from that district and its shortage will bring the prices up to those of war times. The smelting works have only enough coke to keep the furnaces going a week and will then close down if none of the Pennsylvania fuel is forthcoming.

Smashed a Record.

The Canadian Pacific steamship Empress of Japan has made another record. She made the trip from Vancouver to Yokohama 4270 miles, in 10 days, 3 hours and 30 minutes. She smashed all previous records by nearly 8 hours.

Became Blind and Shot Himself.

Oswego, N.Y., Aug. 12.—James Ferguson, 50 years old, blew out his brains this evening. Six years ago he became totally blind and was obliged to retire from the grocery business in which he had prospered. He left a note deploring his condition.

Bridge Across Lake Champlain.

Washington, D. C., Aug. 10.—The chief of engineers has recommended the approval by the War Department of applications for permission to erect a bridge across Lake Champlain by the Vermont Central Railroad Company and across the St. Lawrence River between Cornwall and Hogansport, N. Y.

Murderer Wood Gets a Respite.

Nelson, B. C., Aug. 10.—James Wood, the murderer, has been granted two weeks' respite, to permit application for a new trial.

SIR WILFRID IN ROME

A Cordial Interview Lasting for an Hour.

LADY LAURIER WAS ALSO PRESENT

His Holiness Requested Detailed Information on the School Question Afghans Have Been Hostile to Britain Turkey Has Internal Troubles on Hand Cable News.

Rome, Aug. 12. The Pope to-day received the Canadian Premier, Sir Wilfrid Laurier, and Lady Laurier. The audience, which began at noon, lasted an hour, and was of a very cordial nature. His Holiness asked for detailed information regarding the situation of affairs in Canada, and especially questioned the Canadian statesman on the subject of the Manitoba schools.

A DEFENDER OF SHERMAN.

Westminster Gazette Thinks He May Make Ohio Hot for Hanna.

London, Aug. 12. The Westminster Gazette this afternoon publishes a long leading article, during the course of which the opinion is expressed that if Secretary Sherman is forced to retire from Ohio he will "Make Ohio too hot for Senator Hanna," adding: "Some innocents may object that if Sherman is too senile to hold office he must be too senile for the Senate. But, as a matter of fact, no one has yet estimated how incompetent a man must be before the Senate is closed to him. In this he shares the advantage of the House of Lords.

"We are rather sorry if Secretary Sherman is to be superseded, as, in his own rough way, he expresses a phase of American feeling which it is important for us to know."

CYCLE MANUFACTURERS COMBINE.

Alarmed at the Demand of Workmen for Forty-Eight Hours a Week.

London, Aug. 12.—At a meeting of the Cycle Manufacturers' Protective Association in Coventry to-day, a resolution was adopted expressing alarm at the engineers, a large number of whom are either on strike or locked out, demanding that 48 hours should constitute a week's work, while the men employed in the same branches in the United States worked 60 hours and those on the continent nearly 70 hours per week.

The resolution also expressed sympathy with the federation of engineering and shipbuilding employers in its resistance to the demands of the Amalgamated Engineers.

This action is regarded as foreshadowing a large accession of cycle firms to the Employers' Federation.

The twenty-one cycle firms who joined the Federation on July 27 were all in the Nottingham district.

LOOKS LIKE A STRIKE.

English Postal Telegraph Clerks Decline the P. M. General's Decision.

London, Aug. 12.—The committee of the Postal Telegraph Clerks' Association has issued a rejoinder to the Duke of Norfolk, the Postmaster-General, who on Monday issued his reply to the petition of the clerks praying for the redress of their grievances.

The committee declares that it cannot recommend the members of the association to accept the decision of the Postmaster-General as final. It adds that it is unable to longer consider the possibility of a compromise and must carry out whatever policy a majority of the members regard as necessary to enforce a settlement.

AUSTRIA IS HUFFED.

Her Representative Has Left Bulgaria's Capital Because of an Affront.

Sofia, Bulgaria, Aug. 12.—The Austrian Charge d'Affaires, Baron Call Von Kulmbach-Rosenburg, has left Bulgaria on an indefinite leave of absence, owing to the refusal of the Bulgarian Premier, M. Stoiloff, to comply with the demand of the Austrian Government formally to disavow an interview with the Premier, published in The *Lokal Anseiger of Berlin last month*, in which, referring to the insistence of Austria upon the punishment of Capt. Boitcheff, the former aide de camp of Prince Ferdinand of Bulgaria, recently convicted of the murder of his paramour, Anna Szimon, an Austrian subject, he drew an insulting parallel between the venality in official circles in Austria and Bulgaria.

SULTAN APPEALING TO INDIA.

An Envoy From Turkey Inviting the Faithful to Render Help.

London, Aug. 12.—A despatch to The Daily Mail from Calcutta says one of the native newspapers announces that the Sultan of Turkey is sending a special envoy with a firman, inviting the faithful in India to render financial and physical assistance and co-operation for the glory of the prophet.

The Calcutta Englishman interprets this as a mission to stir up disaffection and suggests that the Indian Government should ship the envoy back to Turkey.

THEY SAID GOOD-BYE.

German Emperor and Empress Given a Good Send-Off at Cronstadt.

St. Petersburg, Aug. 12.—At 11 o'clock Wednesday morning Their Imperial Majesties of Russia and Germany started on board the Russian Imperial yacht Alexandria for Cronstadt Roads, where Emperor William and Empress Augusta Victoria were to reembark upon the German Imperial yacht Hohenzollern.

The weather was magnificent and as the Alexandria left the landing stage salutes were fired, the troops saluted, the bands played the German National Anthem and the vast crowds lining the

FRIDAY, AUGUST 13, 1897.

MUNICIPAL FIRE INSURANCE.

Toronto Bulletin.

What now about Toronto's magnificent municipal fire insurance scheme? Is it in process of being hatched, or have the recent somewhat extensive fires in the city put a damper on, or entirely quenched the ardor of its promoter and friends? It is pertinent to ask—Is it dying or is it dead?—dead before it had given any signs of real active life? At any rate there are no perceptible signs of life in the thing at present, and little or anything is heard of it whether dead or alive. However this may be, or from whatever cause it come, the fake is taking a rest, and is therefore giving the citizens a needed rest and relief from the heated discussions and feverish excitements that accompany such questions. For the relief all should be thankful. The true state of the case seems to be this: Alderman Lamb's pet fad has died a natural death and gone to an early grave, which was the proper thing for it to do. The Post Magazine has this to say of Toronto's own municipal fire insurance scheme:

"'Lamb's complaint' is the name which Canadians give to sporadic outbursts in favour of municipal fire insurance. The Insurance Times diagnoses the fell disease as 'apparently only attacking minds whose powers of reasoning have been practically reduced to nil, and the germ of which was first found in the over-taxed brain of one, Alderman Lamb, of Toronto.' The only known remedy for the complaint up to the present is "blistering' and 'bleeding' by means of increased fire insurance rates, but this is considered by some as rather drastic. Great hopes are placed upon the probable discovery and extermination of the microbe (Comma Bacillus de lunatico Arithmetico) which is suspected of being at the bottom of all this mental disturbance."

Of course we do not endorse all the uncomplimentary things said of Alderman Lamb and his fad, neither do we commend his precious hobby. As a citizen we respect the worthy alderman, but advocating sound insurance and condemning insurance fads, as we do, we could not endorse or speak approvingly of Mr. Lamb's municipal fire insurance scheme. It is a delusion.

Several cities and towns in Great Britain have been discussing the subject with a view to becoming their own insurers, but so far as here known they have not committed themselves to it. A workable scheme has not been discovered. The London city council have talked it over, so also have the Bradford and the Rochdale town councils. The city council of Glasgow thought they had struck the true plan, but so far as heard of the plan has not yet gone into effect or taken practical form; so it is in the air, hung up, as it were.

That municipal fire insurance can be effected, under proper conditions, we do not deny. Of the conditions are a suitable scheme and competent management, both of which are absolutely indispensible to the successful working of the complicated business, which fire insurance is. But the scheme has not yet been devised and the management has to be discovered. Fire insurance needs special adaptability aided by other indispensible qualifications in the management, qualifications which only extensive, actual, personal experience can give. Where, then, as regards these necessary conditions, are municipal councils and municipal councillors? Simply here. They are not "in it"! Nor are they likely to be this side of the millenium.

WOOD'S PHOSPHODINE.
The Great English Remedy.

Before and After.

Six Packages Guaranteed to promptly, and permanently cure all forms of Nervous Weakness, Emissions, Spermatorrhœa, Impotency and all effects of Abuse or Excesses, Mental Worry, excessive use of Tobacco, Opium or Stimulants, which soon lead to Infirmity, Insanity, Consumption and an early grave. Has been prescribed over 35 years in thousands of cases; is the *only Reliable and Honest Medicine* known. Ask druggist for Wood's Phosphodine; if he offers some worthless medicine in place of this, inclose price in letter, and we will send by return mail. Price, one package, $1; six, $5. *One will cure, six will cure.* Pamphlets free to any address.

W E Roxburgh, P G	O G

Mr. W. A. F. Campbell represents Norwood Lodge at the I.O.O.F. Grand Lodge in Belleville this week.

This week Mrs. J. Davidson received a telegram from Battleford, N.W.T., announcing the illness of her sister, Mrs. McNeilly, and her two children with typhoid fever. Only last week Mr. McNall died of this dread disease. Miss Cook, sister of Mrs. Davidson, left for Battleford on Monday.

Mosquitos have returned with larger bills than ever.

Tucker Bros. have taken over their bakery from Patterson Bros.

Mr. Hugh Robb is erecting a new house north of C.P.R. station.

Rev. and Mrs. John Gibson are at the lakes this week.

Miss Clark, of Peterborough, is visiting at Dr. Clark's.

Percy Might, of last year's Model, was here this week.

Miss F. Williams, of Chatham, Lulu Calder and Mrs. J. B. Calder, of Toronto, are visiting here.

Miss Watson, of Orillia, is visiting Miss O. L. Stephenson.

Miss Sarah Paget, of Toronto, attended the Carnation Paget wedding this week.

Mrs. T. B. Carlaw, of Warkworth, formerly of Norwood, was here renewing aquaintances this week.

Miss Hall is spending a few weeks visit friends at Windsor Beach, New York State.

Rev. F. D. Roxburgh preached two eloquent sermons Sunday, and will conduct the services next Sunday.

Mr. Bewel, Lindsay, an old Norwood, High School teacher, visited here Sunday.

Miss Raddan is in Toronto spending a few weeks visiting friends.

Mrs. Carmichael was in town on Monday.

Mr. Wm. Cameron has severed his connection with the "Arcade" mercantile house and is in Dr. Moffat's drug store brushing up for the fall term at the Toronto School of Pharmacy.

We note by last week's Register that H. E. Ford, B.A., has accepted the position of teacher of English and Moderns in high school for ensuing term. We are pleased to have Harry remaining in Norwood.

Mr. Norman Pickard, of Newcastle, has been engaged as clerk in the firm of R. W. Waters & Son.

Mr. A. Dundas, of West Toronto, retiring teacher of our high school, was in town on Tuesday.

Miss Brault, of Peterborough, is in town the guest of her brother, Mr. Archie Freeman Brault, Spring street.

Dr. Jory, of Prince Edward Co., was in town on Tuesday.

The Board of Education met on July 30th at 7.30 p.m., to select a teacher to fill the vacancy on the high school staff, and also to supply a substitute for Mr. Perney, principal of the public school, during model term; also to pass the estimates for the current year.

A number of the Board were present and transacted the following business:

Moved by Thos. Fraser and Thos. Rork that John R. English be engaged for the model school term at $130 for the term.—Carried.

Dr. Ford presented a request from Miss Lewis, of the public school staff, that she be allowed leave of absence and offering as a substitute Miss Kate Lewis.

Moved by A. R. Anderson and Thos. Fraser that Miss Lewis' request be granted and Miss Kate Lewis be engaged for balance of year at same salary.—Carried.

Moved by Dr. Ford and Wm. Webster that the order given by Mr. Brown to Mr. Chandler be received and referred to the Executive Committee and that they ascertain the board's liability in the matter.

The following accounts were presented, and on motion, if found correct by the Finance Committee, were ordered to be paid:

D O Fraser, supplies for high school	$ 4 75
" " public school	3 46
J J Keefer, printing	3 15
	$11 36

Moved by Dr. Ford and J. McNaughton that the reduction in teachers' salaries begin 1st Sept.—Carried.

The estimates were submitted as follows:

HIGH SCHOOL ESTIMATES.

Receipts.

Government grant	$ 637 82
County equivalent	637 82
Fees pupils	600 00
Fees departmental exam	121 00

County grant, Model	150 00
Levy on Asphodel, 28 per cent. of $1,787 50	500 00
Levy on Norwood, 72 per cent. of $1,787.50	1,287 00
	$2,405 50

Expenditures.

Principal's salary	$ 675 00
Four assistants at $290	1,160 00
One assistant Model term	130 00
John Chandler	102 00
Wood	75 00
Interest	75 00
Incidentals	50 00
Supplies	25 00
Repairs	50 00
	$2,405 50

Moved by Dr. Ford and A. R. Anderson, that the estimates, as submitted, be adopted.

Moved by Thos. Rork and Dr. Ford, that in case of Mr. English having accepted another appointment that Mr. Arthur Lang be next in order and Mr. McKinnon third.—Carried.

Dr. Ford asked leave to retire before considering applications, as his son was amongst the applicants for teacher on High School staff.

Moved by Wm. Webster and J. McNaughton, that Mr. McMillan's application be accepted.

Moved in amendment by A. R. Anderson and Thos. Rork, that the position of teacher of Modern Languages be offered to H. E. Ford, B.A., at a salary of $500, and if he does not accept that Mr. McMillan's application be accepted.

The amendment was carried.

Moved by Thomas Fraser and W. H. Stephenson, that this board adjourn until Tuesday evening, and in the meantime that the secretary write Mr. Ford and if he does not accept that Mr. McMillan be wired on Tuesday morning.—Carried.

P.S.—There was no meeting of the board on Tuesday, all matters being settled satisfactorily.

WHAT A LOT OF THEM!

Montreal Produces Its Share.

What a Wonderful lot of People there are who Suffer from Backache.

From the Millionaire Sitting in His Office Clipping Coupons Down to the Humble Citizen who Swings a Pick for a Dollar a Day, Nobody is Free from it, and it all Comes From the Same Cause—The Kidneys are to Blame.

Backache is really nothing but kidney ache.

You can be perfectly sure that it means a disordered condition of the kidneys.

Here is some Montreal proof worth reading:—

Mrs. Laby, says: "My uncle, Mr. John Hughes, has been a very great sufferer from kidney disease, pain across the back, frightful headaches and dizziness, as well as severe urinary difficulties.

He was in a fearful state, could not rest, and often had to walk the floor half the night so great were the pains. We gave him a great many kinds of medicine, but they did him no good. He then went to the hospital, but the doctors there said that he had a complication of diseases, and only afforded him temporary relief. On coming back home he was soon as bad as ever.

Well, we saw Doan's Kidney Pills advertised, and thought he might as well try them, as they could do him no harm, so he started to use them and got better in a very short time. In fact, he only used them for six weeks.

He is all right now, the pains have disappeared entirely, he eats well, sleeps well and works right along every day. We can recommend Doan's Kidney Pills very highly. 126

Karl's Clover Root.

The great Blood purifier, gives freshness and clearness to the Complexion and cures constipation, 25 cts., 50 cts., $1.00. Sold by Jno. Nugent, 389 George street.

Leading Tobacconists of Peterborough, Sign of the Indian Queen, Peterborough

THE WORKINGMAN...

Made this country. True, the ground was here when he came, but he's made it what it is. From the time that Queen Isabella hocked her jewels in order to "raise the wind," so that Chris. could have a "special sale" across the water in search of Peterborough and the surrounding country, until the present day—not a step has been taken forward—not an improvement has been made in this country—without the aid of the working man. Who is the greatest electrician in the world? Thomas Edison. Who makes the best sewing machines—the best locomotives—the best passengers cars? Who builds the biggest and best buildings, digs the deepest ditches and lays the longest railroads? The workingman. The Peterborough workingman is up to snuff. It did'nt take him long to find out that he could do more days' work in a dollars worth of working man's clothes that he bought here than he'd ever be able to do in any dollar's worth he'd bought before. Where one working man struggled in and bought a pair of Overalls or a pair of Blue Jeans, or a jumper of us in former years, a hundred patronize our workingmen's department to-day. We're proud of it. Are you a working man? Want to buy clothes to wear while you work that will wear while you work? Try us.

We are showing the nicest Novelties for "little men"—the finest ever brought to Peterborough. We also sell knee pants, 3 piece Suits, from $2.75 up. Long Pant Suits, from $3.00 to $5.00 up. Single Knee Pants 25c, 35c, 50c, 60c and 75c. Save money by dealing with us.

MUNYON'S COUGH CURE

MUNYON'S COUGH CURE stops a cough, allays irritation and congestion of the chest and acts marvelously as a soothing and healing balm for diseased lungs. It positively cures bronchial cough, with rattling in the windpipe and tightness across the chest, rattling cough with secretions of mucus, hoarseness, loss of voice, soreness of the chest, difficulty in breathing, coughs from nasal catarrh, hacking cough of old people, short, dry with quick breathing, languor, debility and night sweats, in fact, every form of cough and all pulmonary diseases, where the lungs are not too far consumed by the disease or covered by tubercles. Price 25c.

A separate cure for each disease. At all druggists, mostly 25c a vial.

Personal letters to Prof. Munyon, 11 and 13 Albert street, Toronto, answered, with free medical advice for any disease.

SIR WILFRID IN ROME.

(Continued From First Page.)

shores cheered continuously. The German Emperor and Empress bowed repeatedly in acknowledgment of the salutes.

Prince Hohenlohe was not with them, as he had arranged to start by rail from Berlin at noon.

The Alexandria reached Cronstadt at 1 o'clock. The quays were densely crowded. Their German and Russian Majesties immediately went on board the German ironclad Koenig Wilhelm, where they lunched with Prince Henry of Prussia.

The German squadron remained in the Roads until after 4 o'clock, when the signal was given to get under way. The German gunners thundered a salute, to which the Cronstadt fort replied. As the squadron slowly steamed out the crews manned ships and cheered thrice as they passed the Koenig Wilhelm, while the Russian anthem was played.

When all had stopped, the Hohenzollern came up, and then Their Russian and German Majesties bade farewell to Prince Henry and went on board the German Imperial yacht. Another 10 minutes elapsed, after which Their Russian Majesties bade their guests a most cordial farewell and returned to the Alexandria, Their German Majesties accompanying them to the bottom of the ladder. The Koenig Wilhelm, hitherto silent, now fired a farewell salute.

For some time Their German Majesties stood on the deck of the Hohenzollern and Their Russian Majesties on the deck of the Alexandria, saluting one another and waving hands to one another. It was nearly 6 o'clock when the Alexandria steamed in the direction of the new Peterhof Palace and the Hohenzollern departed with her escort.

Sultan Banquets Ferdinand.

Constantinople, Aug. 12.—The Sultan gave a state banquet last evening at the Yildiz Kiosk in honor of Prince Ferdinand of Bulgaria. It was preceded and followed by long conferences between the Sultan and Prince Ferdinand, at which M. Stoiloff, the Bulgarian Premier, was present.

His Majesty presented Prince Ferdinand with a splendid bejewelled watch and ring, while Turkish and Bulgarian decorations were distributed broadcast. Prince Ferdinand expresses himself as highly pleased with the cordiality of the reception. Late last evening he started for Varna.

German Friends Did It.

London, Aug. 12.—According to a despatch from Constantinople, the meeting between the Sultan and Prince Ferdinand of Bulgaria was brought about by mutual German friends, owing to the Sultan's uneasiness over Prince Ferdinand's recent movements and attitude. This may reasonably mean an agreement between Emperor Nicholas and Emperor William to prevent a further re-opening of the eastern question.

AFGHANS WERE IN IT.

Acts of Hostility Committed Against Britain by the Ameer's Subjects.

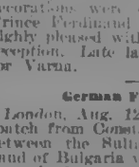
London, Aug. 12. — According to a despatch to The Times from Simla, the force which attacked Fort Shabkadr, near Peshawur, last Saturday, was made up principally of Afghans from the Jellalabad district, together with a contingent of the Mohmandi of Lalpura, all owing allegiance to the Ameer of Afghanistan. The gatherings occurred on Afghan territory, proving that the tribal subjects of the Ameer themselves committed acts of hostility. The Afghan officials do nothing to restrain them. On the contrary, the Afghan General, Ghulam Haidar, commanding at Asmar, was in constant communication with the Mullah, who led the attack. As a result of this intelligence, more troops are being sent to Peshawur.

GLASGOW DISAPPOINTED

Because the Prince of Wales Did Not Go to Open the Great Cessnock Dock.

London, Aug. 12.—There is great disappointment in Glasgow over the fact that the Prince of Wales, who had consented to visit that city early in September, to formally open the Cessnock Dock, has rescinded his acceptance and delegated the duty to the Duke and Duchess of York. It had been intended that the Princess of Wales should have accompanied the Prince and arrangements for an elaborate welcome to Their Royalties had been made. These will now be materially moderated. The dock is the largest in Scotland, and has taken twelve years to construct.

Is Your Heart Strong?



Or have you palpitation, throbbing or irregular beating, dizziness, short breath, smothering or choking sensation, pain in the breast or heart. If so, your heart is affected and will in turn affect your nerves, causing nervousness, sleeplessness, morbid anxious feeling, debility.

Milburn's Heart and Nerve Pills

Cure all these complaints by regulating the heart's action and building up the nervous and muscular system to perfect health and strength. Price 60c. per box or 6 boxes for $2.50. At all druggists.

BLOOD WILL FLOW.

A Change of Government Demanded by an Unknown Faction in Turkey.

Constantinople, Aug. 12.—Placards have been found posted upon the walls of the Ministries, demanding a change in the system of government in the Turkish Empire and threatening violence unless this is effected. The placards declare that otherwise blood will flow as during the Armenian massacres.

The Minister of War, Zipa Pasha, has sent a circular to all the Turkish commanders, directing them to watch their officers in the strictest manner. This step is attributed to the increasing discontent visible in Turkey against the present Government.

The meeting between the ambassadors of the powers and Tewfik Pasha, for further consideration of the Greece-Turk peace treaty, has been postponed until Saturday next, this being the feast of the Birth of the Prophet.

SENOR CANOVAS' WIDOW

Objects to the Body of Her Husband Lying in State—Will be Pensioned.

Madrid, Aug. 12.—Senora Canovas del Castillo, widow of the assassinated Premier, has objected to his remains lying in state, and the admission of the public to the mortuary chamber at the family residence has been stopped.

It is the intention of the Government to confer upon the widow the title of Duchess, with the dignity of a grandee of the first class, and a pension of 30,000 pesetas.

The Pope Disappointed.

Rome, Aug. 12.—The Vatican is disappointed that the encyclical of the pan-Anglican, or Lambeth conference, does not favor a rapprochement between the English and Roman churches. It is said that he Pope is astonished to find that the encyclical advocates "resistance to the usurpation of the Holy See."

Bank of England Statement.

London, Aug. 12.—The weekly statement of the Bank of England shows the following changes as compared with the previous account: Total reserve, increased £120,000; circulation, decreased £487,000; bullion, decreased £366,778; other securities, decreased £1,144,000; other deposits, decreased £731,000; public deposits, decreased £284,000; notes, reserve, increased £18,000; Government securities, unchanged. The proportion of the Bank of England reserve to liability, which last week was 44.90 per cent., is now 51.22 per cent.; discount unchanged at 2 per cent.

Canovas' Valuable Library.

Madrid, Aug. 12.—The late Premier, by the terms of his will, bequeaths to the National Library 30,000 volumes, many of which are very rare.

Faure's Turn Next.

Paris, Aug. 12. — A despatch to The Figaro from San Sebastian says that "Golli," in the course of a police examination to-day, declared that it would be President Faure's turn next.

DEATH OF DANIEL SPRY.

The Postoffice Inspector at London Passed Away This Morning From Bright's Disease.

London, Ont., Aug. 13.—Mr. Daniel Spry, Postoffice Inspector, of this city, passed away at an early hour this morning, after an illness of a week or 10 days. Mr. Spry was Past Grand Master of the Masonic Order, and had occupied every office under that body. Mr Spry suffered from Bright's disease, coupled with an affliction of the heart, and his life had been despaired of for the past two days.

Piles Cured by Dr. Chase.

I.M. Iral, 186 Drolet Street, Montreal. 15 years suffered. Cured of Blind Itching Piles.

William Butler. Possawan, Ont. Suffered many months. Cured of Protruding Piles by one box.

Pabano Bastard, Gower Point, Ont. Suffered for 30 years. Cured of Itching Piles by three boxes.

Nelson Simmons, Myersburg, Ont., cured of Itching Piles

Dr. Chase's Ointment will positively cure all forms of Piles. Write any of the above if in doubt.

TORONTO MARKETS

Flour—The demand continues good, and holders are very firm in their views. Straight rollers quoted at $3.70 to $3.80.

DR ELLIOTT OF GALT

Found in an Almost Dying Condition in Detroit It is Thought He Tried to Suicide.

Detroit, Aug. 12.—Dr. Elliott of Galt, Ont., was found on Woodward avenue last night by Patrolman Dennis. He was in a semi-conscious condition when taken to the Woodbridge street station, and as a quantity of morphine, cocaine and chloral was found in his possession it was thought that he had attempted suicide. A call was sent for Boyd's ambulance and the physician was taken to St. Mary's Hospital. About three months ago Dr. Elliott [illegible] the Northville gold cure. Yesterday it was decided to send him back to Canada, as it was thought that he had sufficiently recovered. Special Officer Perrin, however, was given the job of caring for him. All went well until this city was reached. Perrin then went out to check the baggage and while thus engaged he was given the slip by the physician. Perrin spent the night looking for his charge, but could get no trace of him. This morning, however, he went to St. Mary's Hospital and there found his charge. The physician had partially recovered from the effects of the drug he had taken and will be sent on his way.

LINSEED AND TURPENTINE

Linseed and Turpentine is not only a popular remedy, but the best known to medical science for the treatment of nervous membranes of respiratory organs.

DR. CHASE compounded this valuable syrup so as to take away the unpleasant taste of the turpentine and linseed. It was the Doctor's last and greatest remedy, and more of it is sold in Canada than all other cough medicines combined.

A Banker's Experience

HEREAFTER HE INTENDS TO .... BE HIS OWN FAMILY DOCTOR

"I tried a bottle of *Dr. Chase's Syrup of Linseed and Turpentine* for a troublesome affection of the throat," writes Manager Thomas Dawson, of the Standard Bank, now of 14 Melbourne avenue, Toronto. "It proved effective. I regard the remedy as simple, cheap and exceedingly good. It has hitherto been my habit to consult a physician in troubles of this nature. Hereafter, however, I intend to be my own family doctor."

HOUSES FOR SALE.

We offer to-day a Frame House, 5 rooms, with large lot, fruit, &c., for $550.00—on terms of small cash payment, and then $5 00 per month. Working men paying rent should see this at once.

Sloan's Indian Tonic

THADE MARK.

Gives the aged energy. Cures Dyspepsia, Indigestion, Nausea, Faintness, Loss of Appetite, Flatulence, Costiveness and all other Stomach and Bowel disorders.

A WELL-KNOWN WOODSTOCK MAN CURED.

Woodstock, Ont., May 2nd, 1896

This is to certify that I, James Ross, toll-gate-keeper, of the Town of Woodstock, Ont., have been a suffer from Indigestion and a very weak stomach for a number of years, and have tried a great many medicines of different kinds, but could only obtain temporary relief for a short time, but after using one bottle of SLOAN'S INDIAN TONIC I could perceive a great difference. My Indigestion was better and my stomach was much stronger than before, and I found I had gained several pounds in flesh, where I was very weak and thin in flesh before. I think I used nine or ten bottles in all, and I am now a healthy man, but still I do not want to be without the medicine in the house, and I procure one or two bottles every year, and I can truthfully recommend SLOAN'S INDIAN TONIC to others suffering from the same complaints.

JAMES ROSS, toll-gate-keeper.

Price $1,6 for $5. All Druggists or from Laboratory.

Send for Printed proof of Cures; Free by Mail.

Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make your blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

Hood's Sarsaparilla

Is the best, in fact—the One True Blood Purifier. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills Do not purge, pain or gripe. All druggists. 25c.

Dr. Chas. Neill
DENTIST

LOCAL NEWS.

Tobacco

Still selling cheap. See Wallier & Co's price list in another column.

We are showing a fine line of violins, guitars and at autoharps at very close prices. PETERBOROUGH MUSIC CO.

Probabilities

Light to moderate winds, fine, with a little higher temperature to-day; fine and considerably warmer, with southeasterly and southwesterly winds to-morrow.

Ask Your Grocer

For Mikado flour. The best in the market for sweet health-giving bread. W. H. MELDRUM, storehouse corner Simcoe and Bethune street. Telephone 113.

Aylmer Street Blockaded.

Traffic has now been stopped on Aylmer street owing to the sewer operations making it dangerous for horses. The street is blockaded at both ends of the portion where the excavations are going on.

A Guarantee

The large B stamp on every loaf of Bate's bread is a guarantee of its superiority in flavour of any other, made by our own process of yeast, which is strictly healthful. WALTER BATES, Prop.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 23 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Flower Thieves.

Residents in the west end complain of the theft of flowers, and a case was this morning brought to the attention of the police, in which a whole garden had been stripped of its bloom in the absence of its owner from town.

The Matthews Co's Excursion.

The employees of the Geo. Matthews Co. had their annual picnic to Jubilee Point yesterday, going down on the City of Peterborough. About 200 were on board, and a most pleasant day was spent down the river. Instead of the usual programme of sports a football and a baseball match were arranged amongst the men.

Private Sale of Household Furniture.

All the household effects at 265 Stewart street will be sold by private sale. Everything is in good condition and must be sold this week as the parties are leaving town. Those wishing to call and inspect the furniture may do so at any time during the week. 5d33

Band in the Park.

The band will play the following programme in the Park to-night:

March, "The Honeymoon" ..... *G Wigand*
Quadrille, "Pandora" ..... *Rosad*
Waltz, "Vaterland" ..... *Keller*
Fantasia, "Evening Revels" ..... *Richards*
March, "Arganda h" ..... *Thompson*
Dance Ethiopia, "Jolly Jaspers" ..... *Holmes*
Spanish Troop, "Toledo" ..... *Hume*
Two step, "Egyptia" ..... *Billings*
God Save the Queen.

Dogs Poisoned.

Two valuable thoroughbred fox terriers, belonging respectively to Mr. Alex. Elliott and Mr. Geo. Gobell, were poisoned last night by some scoundrel. Neither animal was at all cross, and a reason for their poisoning is hard to assign. So much was thought of the dogs that it would have been almost impossible to have purchased either one of them. Those having valuable dogs should keep an eye on them for the next few weeks.

SPECIAL FOR THE LADIES.

On Saturday Morning, we will offer another special job lot of Perrin Feres Sample Kid Gloves, at the very low price of 55c, worth $1.00 and $1.25. The line includes black and coloured, laced and buttoned. Come early. R. FAIR, Sign of the Golden Lion.

Big Bill-boards.

Gough Bros. have just had a large number of mammoth bill boards planted all over the country. Some of them are as large as 12x24 feet, and 7,500 feet of lumber had to be utilized in their construction. The work on the boards was done by Joe Price, the Toronto billboard man, and Walter Stocker, of town, erected them. Mr. Price says Gough's order is the largest that he has secured in ten years. Joe knows a thing or two about advertising, and while he talks up his bill boards, admits that the newspaper is the best medium.

HORSE THIEVES ABROAD.

Millbrook Citizens Visited by These Gentlemen on Thursday.

Millbrook, Aug. 12th, 1897.—When Rev. Mr. Byam, of this place went to his stables on Thursday morning he was rather surprised to see the doors wide open and on going inside was astonished to find that his horse was missing. He at first thought that some mischievous person had let the animal out, but when his neighbour, Mr. T. S. Collins, found that his new buggy disappeared during the night, it became evident that horse thieves had visited the premise.

Mr. Collins' barn, like that of Mr. Byam, faces on a back street some distance from the house, so that the thieves had little difficulty in accomplishing their act.

The animal is a fox coloured mare, four years old, with stripe on face, and is a beautiful animal.

The buggy is a new end-spring buggy with red coloured gearing and black box and top. The harness also belongs to Mr. Collins and is a new set.

It is quite evident that the thieves were well posted, as they appeared to think that Mr. Byam's buggy was not good enough and preferred Mr. Collins' elegant new one.

Several suspicious looking characters were seen lurking around in the vicinity of the stables a few days previous, but as yet there is no clue to the whereabouts of the outfit.

The authorities of the surrounding towns have been notified.

AGAINST THE CURRENT.

The Steam Launch Victoria Runs up Above Hunter Street Bridge.

On Wednesday evening the steam launch Victoria, owned by Mr. R. M. Roy, performed a feat which no launch has hitherto succeeded in achieving.

With Mr. Roy and his son Freddie on board the little yacht steamed up the Otonabee against the swift current to a point fully half way between the Hunter street bridge and the Dickson dam. As the progress was necessarily very slow against such a current, a big crowd had time to gather on the bridge and watch the yacht. Last year an endeavour was made to take the Rob Roy up the river, but owing to the shallowness of the water the attempt was abandoned. The little Victoria, however, does not draw much water, and as she steadily worked her way up past the bridge, she was greeted with cheers by the assembled crowd.

Mr. Roy thinks that he could have taken the launch right up to the dam if it had not been for the rocks in the channel. He did not attempt to turn around when returning, but simply slowed up the engines and drifted back to the lake again.

PERSONAL.

Miss Mabel Bradburn is at Stony Lake for the summer season.

Mr. Court King left this morning to spend a few days at Stony Lake.

Mr. D. O'Connell was down from the lakes to day. He returns to morrow.

Mr. Dave Roblin, representing Mr. H. Corby, of Belleville, is in town to-day.

Master Oscar S. Matchett of town went to Fraserville for his holidays yesterday.

Mr. Thos. Cauley of Oswego, N. Y., is in town visiting his cousin, Mr. Pete Simons.

Mrs. (Dr.) Kempt and the Misses Kempt are in Lindsay, as the guests of Mrs. Keenan.

Miss Best and Miss Macdonald spent their holidays at Compbelltown and Idyl Wild.

Mr. F. D. Kerr has returned from spending his holidays at his former home in Cobourg.

Mr. E. B. Edwards left this morning for the American Canoe Association Camp at Gananoque.

Miss Irene Brignall of Belleville is visiting at the summer residence of Mr. Thos. Bradburn, Stony lake.

Mr. John Lang, M. P., of Otonabee, and Mr. Wm. Hastle of Allandale, sail on the 21st for the Old Country.

The Lindsay Post says: Mr. H. P. Lindsay, insurance agent, Peterborough, was here on business this morning.

Miss Griffith and Miss Belle Griffith left last evening to spend a couple of weeks holidaying at Norwood.

Mr. R. Tivey returned home this morning from Waubaushene, where he has been culling lumber for the C. P. R.

Miss Stratton left this morning for Stony Lake, where she will be a guest at the summer cottage of Mr. J. R. Stratton.

Rev. B. C. H. and Mrs. Andrews of Toronto, are spending a few weeks in town as the guests of the latter's father, Mr. Rackham.

Mr. W. H. Miller of Detroit, left for the Klondyke via C. P. R. to Victoria, yesterday. Mr. J. B. McWilliams accompanied him as far as Toronto.

Messrs. James and Milt Hamilton and Will Hall who have been holidaying in the Huntsville region and paddled around to Stony Lake, arrive home this evening.

Mrs. Davidson and her granddaughter, Miss Gibson, the latter of whom is the daughter of the member for Lincoln, are visiting at the residence of Mr. Alex. Gibson.

Mrs. J. H. Primeau and daughter Gertrude returned home last evening from their trip to Philadelphia, Pa., where they have been visiting friends for the past seven weeks.

Mr. James D. Graham, M. A., supervising principal of the public schools in Pasadena, California, after an absence of nine years, arrived home on Thursday, for a three weeks visit to his father, Mr. R. Graham, Lakefield.

Mr. Frank Dobbin, says the Lindsay Post, arrived in town this morning and called on a number of his old friends. In the afternoon he joined a party of bicyclists and wheeled out to Oakwood, returning via Little Britain.

THE "EXAMINER" AT SUMMER RESORTS.

The DAILY EXAMINER is sent to summer resorts addressed to individuals at thirty-five cents per month. Persons leaving town for their holidays can have the EXAMINER addressed to them for as short a period as one week by applying at the office, 419 George street.

Robertson's Mixed Floor and House Paints still lead all other makes in giving perfect satisfaction. They are never sticky, nor do they peel off, but dry hard, bright and glossy. If they require thinning use only the oil sold by the agents. Poor oil, as well as poor paints, never dry satisfactorily and will not wear. Robertson's Paints that were used two years ago, look better to-day than other paints used this year. 2aw-w

Fruit Arrivals.

Peaches in baskets, pears for pickling, black currants in basket or by the quart. A few raspberries still coming in. E. F. MASON & Co.

RELIEF OF DERRY.

The Lakefield Demonstration Yesterday Was a big Success.

Lakefield, Aug. 13.—There was a splendid turn out at the True Blues' celebration of the Relief of Derry, which was held in Lakefield yesterday.

Shortly after eight o'clock the True Blue and Orange Lodges met at their hall and headed by the North Smith brass band marched down to the station to welcome the visiting brethren coming in on the train.

The regular train arriving sharp on time (an unusual thing on a day of this kind) they were at the station before the train arrived. However, they found a number of Col. Sanderson's Lodge, of Peterborough, and the Peterborough True Blues had arrived. They then marched down to the bridge and received the Warsaw Lodge of True Blues, who had driven in in carriages, after which they went up to the wharf to await the arrival of the steamer Sunbeam, which was carrying a large contingent of True Blues from Buckhorn, Apsley and Young's Point, also the Lady True Blues from Young's Point and Orangemen from Apsley, together with a great many visitors to see the celebration.

The march was then formed up as follows, and was headed by County Orange Master F. J. Moore and A. Higgins, Master of the True Blues, both being mounted:

North Smith Brass Band.
Col Sanderson L O L, No 381.
Beresford L O L, No 423.
Apsley L O L, No 1,072.
Fife and Drum Band.
Young Canadian L O L, No 1,395.
Lady True Blues, of Young's Point, in carriages.
Buckhorn True Blues.
Warsaw True Blues.
Fife and Drum Band.
Apsley True Blues.
Young's Point True Blues.
Stanley Lodge, No 49, Lakefield True Blues.

The line of march was from the wharf down Queen, across the bridge to Mr. J. Moore's corner, back along Bridge to Albert, Albert to Regent, Regent to Queen, up Queen to Mr. R. C. Strickland's residence, back down to the market square where they disbanded for dinner.

The streets along the line of march were nicely decorated with flags and bunting, artistically arranged by Mr. Alf. Kingscote, of Peterborough. Also the fronts of the hotels, the town hall, and a large number of the business places were handsomely decorated for the occasion.

Messrs. Taylor McBrien and Jas. Mahood were marshalls for the day.

At two o'clock the procession reformed and marched to the Agricultural grounds, where a good programme of sports was run off under the management of Messrs. J. E. Kelly and Wellington McDonald. The following are the events with the prize winners.

100 yard race—T. F. Lane.
One mile novice bicycle race—C. Bickell.
Boys 100 yard race—Eddie Kembell.
Bicycle race, boys 16 and under—Gilbert Gordon.
Three-legged-race — Stephenson and Sherry.
Mile bicycle race—W. Wilson.
Standing high jump—W. McIlmoyl.
Smoking race—Jas. Duffy.
Running long jump— — Godfrey.
Novelty bicycle race—W. Wilson.
Thread-the-needle-race—Wm. Kidd.
Tug-of-war, between the Orangemen and True Blues—Won by the Orangemen.

After supper the visiting brethren were escorted to the train and boat, headed by the North Smith band, and the Lakefield band bringing up the rear, after which both bands escorted the local lodges to their respective lodge rooms, where they played the National Anthem, bringing to a close a very successful day. The committee in charge are to be congratulated on the success of the day's pleasure.

NOTES.

The hotels, ice cream and lemonade stands did a rushing business during the day.

The crowd was a very quiet and orderly one.

A great many people came down the lakes for the day to see the celebration.

A LOST BICYCLE.

Brown, the Oarsman, Arrested in Connection With its Disappearance.

On Saturday, July 24th, Brown, the oarsman, hired a bicycle from Frank McPherson, arranging to return it on the following Tuesday. When the wheel was not brought back the case was placed in the hands of the police. The man was arrested yesterday in Lindsay and brought to Peterborough for trial. At a preliminary hearing in the Police Court this morning he was remanded until Tuesday.

The Lindsay Post says:—Chief Bell this morning arrested Robt. Brown, the Toronto sculler (who has been practicing here for about ten days in anticipation of a race at Crowley's Island), on a charge of having stolen a bicycle from a Peterborough man. Brown, it is said, rode the machine to Toronto, where he sold or gave it away. An officer will arrive from Peterborough on the six o'clock train to escort the accused to Peterborough to stand his trial.

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2.75, and at the latter city the great summer sports are in full swing.

Men's White and Fancy Duck Vests, single breasted, double cotton back pearl button, regular price $1.00 to $1.50. Grafton & Co's Summer Clearing Sale Price 50c. See them.

Fresh Fruit Arriving Daily.

Plentiful supply of peaches, pears, tomatoes, Lawton berries, bananas, lemons, and all seasonable fruit in prime condition arriving daily at J. B. OKE's, Wholesale and Retail Fruit and Commission Merchants. George street.

"How to Cure all Skin Diseases."

Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman Sons & Co., Montreal wholesale agents.

STONY LAKE CONCERT.

The Programme was one of Marked Excellence and the Attendance was Very Large.

The concert which was given in the Stony Lake pavilion last evening on Juniper Island was a pronounced success from every standpoint. The attendance was far larger than was expected, the big pavilion being unable to seat the scores of cottagers who paddled over to the island during the evening.

The programme was exceptionally pleasing, the talent all being of a nature to command the closest attention from the first number until the last.

The programme was opened by Mrs. W. A. Sanderson, of Peterborough, who gave a particularly pleasing rendering of "Old Kentucky." Mr. W. Richardson's fine voice was then heard to advantage in a selection, after which Mr. and Mrs. Scrimger-Massey, of Toronto, whose voices blend most admirably, sang "The Fishers" in a very finished manner. Miss Lillian Burns, of Toronto, followed in a monologue, which was given in a manner to call for a most insistent encore, to which Miss Burns kindly responded. Miss Burns has spent several years studying elocution in New York, and the audience was completely carried away by the talent shown in the numbers given. During the evening Miss Hendren's rich contralto notes were heard with good effect in "Ben Bolt." Miss Fairbairn's violin solo was greatly appreciated, being given with noticeable execution and taste. Miss Fargay's vocal solo "My Onliest Own" was also a most pleasing number. Mr. R. A. Shaw, of New York, whose grand voice had been heard before by the majority of those present, was well received when he gave "Whisper and I Shall Hear." As an encore number he sang "You." His voice since his removal from Peterborough has greatly improved in its strength.

Mr. Hazelwood's imitations of E. S. Willard and Mr. Sol Smith Russel were something entirely new, and called for a great deal of applause. Miss Vair's rendition of "The Swallow" was given in the usual finished manner which has made her singing so popular in Peterborough. The duet "Army and Navy" by Messrs. A. L. Davis and R. A. Shaw was given with the same harmony as the selections in which they were formerly heard during Mr. Shaw's residence in Peterborough.

The programme was closed by the singing of "O Promise Me" by Mrs. W. A. Sanderson, Miss Fairbairn, of Bowmanville, playing the violin obligato. The number was one of the most pleasing on the programme—Mrs. Sanderson seeming to excel herself in the clearness of her notes and in the expression.

The benches were then quickly cleared away and an impromptu hop was held, concluding the evening most pleasantly.

If arrangements could be made to run an excursion up from town to the next of the series of concerts which it is proposed to hold, it would be liberally patronized.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

	Highest.	Lowest.
To-day—1 p. m.	71° above zero	
Yesterday	71°	55°

Last night was the coldest during the past ten weeks.

A Sad Accident.

While making some tea the other day in a fancy China teapot, the handle came off and spilled the contents. "I would not care so much for the teapot," she said, "but I haven't any more of Elliott's famous tea in the house. Be sure I send to Peterborough to-morrow for some. It's the best I can get for 25c. You should try it."

AUCTION SALE OF CONFECTIONERY BUSINESS.

Don't forget the Auction Sale of A. P. Melrose's Confectionery, Baking and Dining Room business, to-morrow afternoon at 2.30, p m. Fresh stock. Chas. Stapleton, Auctioneer. Terms Cash.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—A large crowd took in the regular trip to Hastings on the City of Peterborough this morning.

—A "drunk and disorderly" was fined $2 and $3.25 costs this morning in the Police Court.

—Oshawa is talking of making the water front near the town into a summer resort. The Guide thinks Port Hope should do the same.

—Mr. Calcutt's little white pony died on Wednesday at Jubilee Point. It was formerly a trick horse in a circus and was forty years old.

—It is highly satisfactory to learn that Canada has this year obtained two million dollars more for her cheese output than came to her dairymen last year. This is a record breaker.

—Everywhere in Canada one hears the same good news regarding the plentiful crops. Liberal Government will be the making of Canada yet if it's given a chance at a few more harvests!

—Don't fail to burn all the old leaves that are dropped from the plants; besides their unsightly appearance when allowed to collect in and about the posts, they will harbour insects that will probably injure the plants.

—This is the fourth year that the Governor-General's medal for entrance pupils under 13 has been awarded to a boy. What's the matter with the girls? Perhaps they are satisfied with being good and beautiful and are leaving intellect to the horrid boys?

—One of these days we shall have organizations of agriculturists and horticulturists to encourage the breeding of our native Canadian birds. The wild bird is the fruit and grain-growers' best friend, and they should not begrudge him the little grain that he occasionally takes. As an ally against insect pests he is better and costs less than spraying apparatus and chemicals. Give the birds a welcome and protect their nests.

—A Lindsay lady went into a certain store in that town the other day and made a purchase. When the parcel was tied up the salesman forgot to cut the string, and the parcel was put into a basket and was carried away. On getting about fifty yards from the store, the customer felt something tugging at her basket, and on looking around she was surprised to see that the clerk who had waited on her was standing in the doorway and "had her on a string."

Steamer City of Peterborough.

Until further notice the steamer City of Peterborough will leave the C.P.R. wharf every morning (Saturday excepted) at 8.30, calling at Peck's wharf, Ashburnham, for Jubilee Point, Gore's Landing and Harwood. Fare 40c., dinner at Jubilee, included. On Saturday, at 2 p.m., for Jubilee; fare 40c., tea included. d30tf

IN CASES OF DROWNING.

The Treatment to be Used for Resuscitation in Such an Event.

This is the season of the year when many venturing into deep water or being suddenly seized with cramps or from some mishap or other are drowned. If the proper course of restoration be applied many may be saved. Work deliberately and patiently with a drowned person, animation has been produced after hours' of effort. As soon as the body is recovered from the water remove the froth and mucus from the mouth, loosen all parts of the clothes that are tight to the body, hold the body so as to allow the water to run out of the lungs and windpipe. If the ground is sloping turn the patient face down, head down hill, step astride the hip facing the head, lock your fingers underneath the belly, lift the body as high as you can without lifting the forehead off the ground, give the body a quick jerk to remove the accumulating mucus from the throat and water from the windpipe.

Hold the body suspended about five seconds before letting it down, then repeat the jerk two or three times. Without changing the position of the body, or that of yourself grasp the points of the shoulders by the clothing, or if naked thrust your fingers into the armpits, clasping your thumbs over the points of the shoulders and raise the chest as high as you can without lifting the head off the ground and hold it long enough to count three. Allow the body to again rest upon the ground with the forehead upon the bent arm, the neck straightened out, the mouth and nose free, place your elbows against your knees and your hands upon the sides of the patient's chest over the lower ribs and press downward and inward with increasing force long enough to slowly count three, then suddenly let go and grasp the shoulders as before. Repeat these two alternate movements ten or fifteen times a minute for an hour at least, unless breathing is restored sooner. Use regularity in these movements.

When animation has been restored, remove the patient where warm covering may be procured; to restore the animal heat, wrap in warm blankets, apply bottles of hot water, etc., warm the head nearly as fast as the body, unless convulsions come on. Assist to restore warmth by rubbing or slapping the fleshy parts gently; when the patient can swallow, give hot tea, coffee or milk, or a little hot sling; give sparingly of spirits, for they are apt to produce depression. Place the patient in a warm bed, give him plenty of air and keep him quiet, and he will soon be restored to his former health.

A FIREMAN'S INVENTION.

Hose Nozzle Operating on Swivel Joint Devised by Captain Free.

Captain Michael T. Free, of hose company No. 5 of the Rochester fire department, and son-in-law of Mr. Wm. Johnson, Weller street, Peterborough, has invented a form of hose nozzle which has received the favourable notice of the members of the Executive Board.

Many appliances have been devised for aiding firemen in the management of a hose on a ladder during a fire. The men at the working end of a big hose, when the water is under full pressure, and when they are handicapped by the difficulty of retaining their position on a ladder at a window from which smoke and flame are issuing in great quantities, have long desired some apparatus for aiding them in directing the heavy stream of water more easily to a certain point.

Captain Free's invention consists of a nozzle attached to the hose by a swivel joint which enables the fireman to turn the nozzle in any direction without moving the hose. This has proved in practice to be a great advantage. The new nozzle was tested yesterday in Rochester in the presence of Chief Malcom, the members of the Executive Board, John A. Davis, Jas. S. Graham, John Kane and others, all of whom expressed the opinion that the nozzle would prove a valuable addition to modern fire apparatus.

The inventor has applied for a patent. The new nozzle will probably be used by the Rochester fire department. Captain Free will soon put it upon the market. He has been working on the appliance since 1892.

Dr. Chase Cures Backache.

Kidney trouble generally begins with a single pain in the back, and in time developes into Bright's Disease. People troubled with stricture, impediments, stoppage of water, or a frequent desire to urinate at night, will find Dr. Chase's Kidney-Liver Pills a blessing. Read the wonderful cures in another column. One pill is a dose, and if taken every other night will positively cure kidney trouble.

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

They're The Proper Caper==

—Are our Coloured Shirts. They're sometimes called Summer Shirts, but that's a misnomer, for they're worn all the year round. They're laundried, just like white shirts, but they are far more stylish looking and don't soil half as easy.

• •

Some are Checks, some Stripes, some Polka Dots, some Fancy Patterns. Some have Detachable Cuffs, some have not. Some are made of Madras, some of Percales, some of French Cambric. Some have Open Fronts, some have not—but they're all the latest styles. A full assortment at a fair price.

HIGH CLASS CASH TAILORS, 394 GEORGE STREET.

THE GRAND LODGE OF ODDFELLOWS.

MR J. A. YOUNG, OF THAMESFORD ELECTED GRAND MASTER.

Greetings From the Grand Lodge of Manitoba—Report of the Committee on Oddfellows' Home.

Belleville, Aug. 12th.—(Special.)—The Grand Lodge, I.O.O.F., got fairly down to business this morning, with Grand Master White presiding.

P.G.M. Ormiston, of Gananoque, sent a telegram to the Grand Lodge announcing the death of his wife.

Mr. R. H. Shanks, Grand Secretary of Manitoba, sent a telegram extending greetings to the Grand Lodge of Ontario.

The election of officers was proceeded with. The Committee on Election Returns reported the results of the election by the Past Grands in their lodges, as follows:—

Grand Master—J. A. Young, Thamesford.
D.G.M.—J. E. Farewell, Q.C., Whitby.
Grand Warden—No choice.
Grand Representative—No choice.
Grand Secretary—J. B. King, Toronto.

Twenty-six lodges made no returns and several others were defective. The report was received and adopted.

The G. M. then declared Bros. Young and Farewell duly elected to their respective offices, which announcement was received with cheers.

Grand Lodge then proceeded to the election of Grand Warden, for which office Representatives A. W. Cameron, Carleton Lodge, Ottawa; William Warnock, Aylmer; James McLurg, Woodstock; J. W. Grote, Empire, St. Catharines; R. K. Cowan, Dominion, London; W. S. Given, Millbrook; O. I. Lewis, Chatham; James Hewer, Progress, Guelph; Rev. W. J. Saunders, Beaverton, Belleville; J. A. Morton, Mairland, Wingham, and Alex. McFarlane, Tecumseh, Otterville, were nominated. Representave McFarlane announced his resignation. On the ballot being taken there was no election. All withdrew excepting Representatives Cameron, Morton, Warnock, McLurg and Grote. Dr. McLurg was elected on the third ballot.

At the afternoon session the election of Grand Treasurer took place. W. J. McCormack and J. Welsh, P.G.M., were nominated, and Mr. McCormack was elected. The election for Grand Representative resulted in the return of P. M. Woodyatt. The others nominated were Past Masters Robertson, Bell and McIntyre. Mr. Chas. Pockert was elected Grand Auditor.

The report of special committee on home for aged Oddfellows and widows and orphans was adopted, with the amendment that contributions be from the Grand Lodge fund annually.

The special committee's report on transfer of membership was adopted, subject to the Judiciary Committee as to validity.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

A return match was played between the Victorias and the Junior Granites, the latter winning by two goals to nil. Dr. McGrath kindly filled the place of referee. For the Victorias, Hayes, Armour, Brown and Cameron did the playing. For the Junior Granites, Whitecroft, Thompson, Pollard, McFadden and Smith did the work. The Granites speak highly of their "corker" goal minder, Miller.

Markham and Stouffville are playing on the island oval at Toronto to-day. Markham won from Stouffville at home by 7 goals to 1, but lost in Stouffville by 2 to 4 goals. If arrangements can possibly be made, the winner of to-day's match will be brought to Peterborough for a game on the Civic Holiday.

At the meeting of the C. L. A. Judicary in the Rossin House, Toronto, last night, these officers were present; President J. J. Craig, Secretory Jas. Vance, Jas. D. Bailey of Toronto; T. R. Glanville of Mount Forest; W. J. Stark of Stouffville; D. J. Slater of Arthur; and W. H. Hall of Markham. The protest of Georgetown against Orangeville was thrown out. The former club protested against the ruling of Referee Craig in giving the game to Orangeville after they had left the field when the score was a tie at the expiration of full time. Orangeville are now the champions of the central district.

Brampton and Georgetown were suspended for defaulting.

A full turn out of lacrosse players is requested for this evening. The first series of matches end to-day. The semi-finals are to take place immediately after, and word is expected arranging for home and home matches any day with Madoc. The players will do well to keep in condition.

THE TURF.

The Canadian Sportsman in commenting on G. A. Booth, of Trenton, says:—"According to all accounts he has made a clean sweep of everything, the only articles he didn't take were the track and the grand stand." The Sportsman is desirous of obtaining a picture of the "little chap." It was noticeable that Mr. Booth had all the printing for the races done out of Trenton, even the score cards were printed in Belleville. It has since come out that the reason for this was that the printing bill for a race meet conducted by Booth has not yet been settled for with the Trenton offices. Where a man goes outside of his own town for his printing, there is a screw loose somewhere.

CURLIANIA.

The rink of the Port Hope curlers has been torn down and the club is offering $200 a season to anyone who will provide three rinks of ice for the season. The idea is to have a rink erected with the curling portion surrounded by the skating ice, being in all about 128 feet wide. The cost of erecting such a building is estimated at between two and three thousand dollars.

Is Your Pump in Working Order?

When a pump does not work steadily, smoothly, and without undue effort on the part of the operator. It is either poorly constructed or in urgent need of repair. We make a specialty of repairing and can usually tell you what the cost will be before the job is started, so you can decide whether it is more profitable to get the work done or invest in a new one. A unique feature of the kind we build is that the stroke can be adjusted so as to make the labour commensurate with the strength of the person using it. Pumps however, are not the only things we make; for instance, another of our lines is washing machines. Our latest, the "Challenge," is by all odds, the best on the market. They are cheap, too. A post card will bring you full particulars. — G. WALTER GREEN, P. O. box 361; Telephone, 92.

ONTARIO FOR CANADIANS.

THE ONTARIO GOVERNMENT DOES A LITTLE RETAILING.

Only Residents of Canada May Work in Lumber Woods—An Important Change in the Timber Limit Regulations.

The Ontario Government held a Cabinet meeting on Wednesday afternoon and discussed a most important matter.

The Globe prints the following inspired article:

There is reason to believe that the Government had under consideration a very important movement in the interests of labour, and that new timber regulations were considered, which provide that timber license holders shall not in future employ in or about cutting pine timber on the lands of the Crown non-resident labour, or, in other words, that labourers whose homes are outside of Canada shall not be employed by American or Canadian lumber men to work in the lumber camps or in and about the cutting, hauling or handling of timber on the lands of the Crown.

As many American and some Canadian lumbermen have heretofore employed large numbers of men from the other side, this new regulation, if brought into force, will affect a considerable change from past conditions.

Nothing Hunts Out Corns

Like tight boots. A sure, certain and painless remedy is found in Putnam's Corn Extractor, which removes the worst corns in twenty-four hours.

Novelties in Chairs.

Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round. Every new thing quick as it appears. d

Men's Tweed and Worsted Pants, in all wool, good top and hip pocket, regular price $2.00 to $3.00, Grafton & Co's Summer Clearing Sale Price $1.50.

Wrong Heart Action.

Wrong action of the heart causes nervousness, nervous dyspepsia, shortness of breath and other distressing symptoms. Mr. Samuel Yelland, of London, Ont., was cured of these troubles by taking Milburn's Heart and Nerve Pills. Mr. Yelland says: "They are a remarkable medicine, and I have not been troubled in the least since taking them."

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and colds.

PROBABILITIES—Fresh, northwesterly winds; fair and cool.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Steel Roof, West Block, Ottawa," will be received until Tuesday, 24th inst., for the construction of a steel roof over a portion of the West Block Departmental Building, Ottawa.

Plans and specification can be seen and form of tender and all necessary information obtained at this Department.

Persons are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an *accepted* bank cheque, made payable to the order of the Honourable the Minister of Public Works, equal to *five per cent of the amount of the tender*, which will be forfeited if the party decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
E. F. E. ROY,
Secretary.

IS SHERMAN TO RETIRE?

Despatches Indicate That the Secretary of State is in a Seriously Sad Condition of Health.

New York, Aug. 11.—A Washington special to The Times says: An effort is in progress by influential friends of Secretary Sherman to induce him to leave Washington and go to some quiet retreat where he can rest until fall, and it is the belief in administration circles that he will go out of the Cabinet soon after the November elections. The Secretary's sad condition of health and mind is no longer concealed, even by his friends. It was the hope, in fact the understanding, when he went to Long Island that he would remain there until the President returned to Washington. His sudden return to Washington was wholly unexpected, and the result to the diplomatic relations of the United States has been embarrassing.

This morning Secretary Sherman made an absolute denial of all the interviews concerning the Canovas assassination that appeared in the newspapers Monday morning and startled the diplomatic world. He seems to remember none of the occurrences of Sunday night, when he brought his chair out on the front stoop and the newspaper men gathered around him and he gave out a variety of interviews.

The Secretary's condition is painful to his friends. A physical collapse may at any time occur, and would create no surprise.

HIS MIND A BLANK.

London Daily News Thinks That is the Most Charitable View.

London, Aug. 11.—Some of the papers here give prominence to the position taken by Secretary of State Sherman, and print long specials, quoting American comments on the statements made by him in the interview on the death of Senor Canovas, concurrently alluding to his recent anti-British outbursts. The Daily News in an editorial says:

"Current events show that we did not miscalculate in leaving the Secretary to the justice of his own countrymen. The symptoms in his case certainly tend to support a belief in his senility.

"This view is the most charitable under the circumstances. His despatch on the Behring Sea matter, when the question was in course of peaceful settlement, can only be explained on the theory that his mind is a blank on the whole subject."

KILLED BY A TROLLEY.

The Shocking Fate Which Overtook a Wagon Maker Named Johnson at Niagara Falls.

Niagara Falls, Ont., Aug. 11.—(Special.)—A frightful accident whereby a well-known man of Niagara Falls, N.Y., lost his life, occurred this afternoon. The man's name was Johnson, a wagonmaker, and he was run down by a trolley car. He was wheeling along the devil strip on Erie-avenue, and a Buffalo car running at a high rate of speed was following. Johnson turned into the track just as the car was about to pass him, and he was thrown beneath the wheels. The car dragged the unfortunate man 150 feet and when he was taken out, half an hour afterwards, life was extinct. There was a boisterous feeling against the motorman made by Johnson's friends, who said he did not sound his alarm. The body is in charge of the coroner.

There is still no clue to the whereabouts of Fred Slater, the young man who disappeared while on a trip to Cleveland about two weeks ago. His father says a diligent search is still being made by detectives and the police of Buffalo and Cleveland, but nothing has been discovered that is of the slightest value. Slater's friends, who were confident that he would turn up in a few days, have now lost hope, and the suspicion of foul play or accident is growing. The money Slater had with him does not signify such a lengthy absence.

A Grand Trunk engine ran off the track on a spur across Bridge-street late last night. It caused some excitement and a lot of delay.

Thomas L. Cranston of the G.T.R. freight office, has been moved to the position of chief clerk at London.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula or consumption. "That," he will tell you, "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c. 50c. and $1.00.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

BASEBALL RECORD.

Toronto, Aug. 12.

It was a pitchers' battle yesterday afternoon at the Island, and both twirlers were well backed up by the fielders behind them. Only seven hits were made off Dineen, three being of the scratch order, one a clean single, besides Jud Smith's double against the blackboard, and Earl's home run.

The Torontos cracked out one or more in each innings, all of the sizzling order, but could not bunch more than two. Taylor's work at second was particularly brilliant. Freeman drove in two runs, McGann one and White one. The Stars played like a losing team from the start.

Toronto	1 0 0 0 0 2 0 0 1—4
Syracuse	0 0 1 0 0 1 0 0 1—3

THE OTHER GAMES.

At Buffalo—The Bisons captured both games from Montreal, the second one in a walk. The locals had on their batting clothes, and the rooters saw plenty of slugging. Clymer and Urquhart made home runs, and the others in the two games helped themselves to many two and three-baggers and long singles. Montreal put up a good game at the start, but fell down badly in the second one. Souders' pitching in the first game was quite a feature. He struck out eight men. Score:

First game—

	R.	H.	E.
Buffalo	1 3 1 0 2 2 0 0 *—9	10	3
Montreal	0 1 1 0 0 2 1 3 0—8	15	2

Batteries—Souders and Urquhart; Gannon and McNamara.

Second game—

	R.	H.	E.
Buffalo	2 0 6 4 0 0 2 0 *—14	17	1
Montreal	0 1 0 0 0 0 0 0 4—5	12	1

Batteries—McFarlin and Urquhart; Becker and McNamara.

At Scranton—The Miners won because they outplayed the Poules in all departments of a game that was featureless excepting a brilliant catch by Griffin with two out and a runner on second in the eighth. Score:

	R.	H.	E.
Scranton	2 0 2 0 0 0 0 0 *—4	7	1
Springfield	0 0 0 0 1 0 0 1 0—2	7	3

Batteries—Harper and Boyd; Korwin and Duncan.

At Wilkes-Barre—Providence played a great up-hill game, and won out in the ninth on a base on balls and three singles. Score:

	R.	H.	E.
Wilkes-Barre	4 3 2 0 0 0 0 0 0—9	13	6
Providence	2 0 1 4 0 1 0 0 2—10	14	0

Batteries—Wellner and Gondling; Braun and Coogan.

HOT IN THE NATIONAL.

At Washington—The Phillies played a listless game in the field and were unable to hit Mercer, while the Senators' connections with the ball were more frequent and to the purpose. Cooley played one inning and was then replaced by Orth. After the game Lajoie became involved in a quarrel with a bystander, and, descending from the bus, struck him on the head. The players were taken to the police station, where Lajoie left $15 collateral for his appearance in court to answer to a charge of assault. Score:

	R.	H.	E.
Washington	1 2 0 1 0 0 1 1 x—6	10	1
Philadelphia	0 0 0 0 0 0 0 0 0—0	5	2

Batteries—Mercer and McGuire; Wheeler and McFarland.

At Brooklyn—Baltimore won two more games from the Brooklyns. In the first Dunn's curves were knocked all over the lot. Brown, a youngster from Trenton, N. J., was given a trial in the second game. He did fairly well, notwithstanding the fact that he sent four men to bases on balls and hit three others during the sixth innings, he was in the box. He was very poorly supported. Score:

First game:

	R.	H.	E.
Brooklyn	1 0 1 0 0 0 1 0 0—3	10	3
Baltimore	1 2 2 2 0 1 1 0 1—10	15	3

Batteries—Dunn and Grim; Hoffer and Clarke.

Second game:

	R.	H.	E.
Brooklyn	0 0 0 0 0 0 0 0 3—3	10	4
Baltimore	4 0 0 3 1 1 0 0 4—13	14	0

Batteries—Fisher and A. Smith; Pond and Clarke.

At Boston—New York batted Lewis freely for three innings, scoring four runs in that time. Then Lewis steadied down and did fine execution. In the last half of the eighth lucky hits by Bergen and Hamilton, aided by errors by Clarke and bases on balls, netted five runs, and Boston won out. Score:

	R.	H.	E.
Boston	1 0 0 0 0 1 0 5 x—7	7	2
New York	0 1 3 0 0 0 1 0 0—5	9	4

Batteries—Lewis and Bergen; Rusie and Wilson.

At Louisville—Dad Clark pitched his first game for the Colonels, and, with the exception of the second and third innings, the Colts could not bunch their hits. The fielding of Wagner and Clingman was a feature. Score:

	R.	H.	E.
Louisville	0 0 0 2 0 2 0 1 x—5	10	1
Chicago	0 2 2 0 0 0 0 0 0—4	15	1

Batteries—W. H. Clark and Wilson; Briggs and Kittridge.

At Cincinnati—The Reds won the last game of the present series. Although Breitenstein was hit freely, he managed to keep them well scattered. Tim Hurst, who was fined $100 and costs for assault and battery this morning in the Police Court, officiated as umpire and everything went off nicely. Score:

	R.	H.	E.
Cincinnati	0 2 2 0 2 0 0 0 x—6	13	2
St. Louis	0 2 0 0 0 2 1 0 0—5	13	2

Batteries—Breitenstein and Peltz; Donohue and Murphy.

At Cleveland—The wildness of Hastings and timely hitting by the Indians gave the home team the victory. The Pirates rallied in the ninth, but the game was lost. Score:

	R.	H.	E.
Cleveland	0 3 1 4 3 1 0 0 x—12	14	1
Pittsburg	0 0 0 3 0 0 0 0 3—6	10	1

Batteries—Brown and Zimmer; Criger, Hastings and Merritt.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

A Summer Specific.

Dr. Fowler's Extract of Wild Strawberry cures cholera, cholera morbus, diarrhœa, dysentery, cramps, colic, summer complaint, canker of the mouth and all bowel complaints of children or adults. It is a soothing, effectual and never failing medicine, which gives immediate relief and speedily effects a cure.

Piles! Piles! Itching Piles.

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumour. All druggists or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia Lyman Sons & Co Montreal wholesale agents

MAJOR WALSH ACCEPTS.

He Will Go to the Yukon Country as Administrator General News From Ottawa.

Ottawa, Aug. 11.—Major Walsh has accepted the position of Administrator of Affairs in the Yukon district. The Minister of the Interior has been spending a few days as the guest of the Major at Brockville, and it is understood the matter of regulations for the government of that portion of Canada was discussed by the two gentlemen.

Since the new regulations respecting the royalty were promulgated there has been a continuous protest against them from the West, and possibly some changes may be decided upon.

Hon. Messrs. Tarte, Fisher and Geoffrion, as well as Sir Richard Cartwright and Hon. Mr. Sifton, returned to the city last evening, to be present at today's Cabinet meeting.

Mr. Powell, M. P., accompanied by Mr. S. D. Scott, editor of The St. John Sun, arrived here last evening, on their way home from a tour in British Columbia.

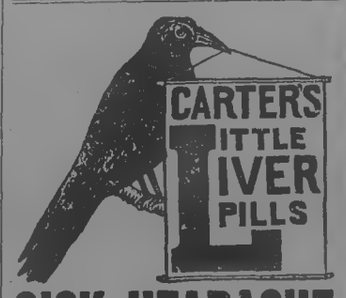
Hon. Charles Fitzpatrick, Q.C., Solicitor-General, has returned to the city.

The Department of Public Works has invited tenders for the erection of a steel roof for the West Block. Tenders must be accompanied by a marked cheque for 5 per cent. of the amount of the tender, and will be received up to the 24th inst.

Mr. E. E. Sheppard of Toronto, Canada's trade commissioner to the Central American republics, arrived this morning, and presented his report to Sir Richard Cartwright.

On Saturday Rev. Dr. Saunders of Otttawa, President of the Montreal Conference, who is now summering at Union Park, received from the Queen, through the Governor-General's secretary, the thanks of Her Majesty for the loyal address passed at the conference meeting in June.

An Order-in-Council has been passed, making regulation governing the shipment of ship-stores for use on board ships. In the case of spirits, tobacco and cigars they may be ex-warehoused free of excise duty on all regular lines of ocean steamers or vessels sailing to Europe, West Indies, South America or any inland port on the Pacific Ocean or to the seal fisheries.



SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

Substitution

the fraud of the day.

QUICKCURE

Now if I only had a little pot of Quickcure in my tool-bag.

The Bicyclists' Lament.

He's a wise wheelman whose tool bag contains something besides medicine for a damaged machine. He is just as liable to puncture his own skin as to puncture his tire—more liable to bruise himself, than to break his wheel.

"Quickcure"

is the emergency cure for unexpected injuries. Lint for applying comes with every pot of Quickcure. Make your own plaster—lay it on the wound, Quickcure will do the rest—quickly, surely, painlessly. At all druggists 25c., 50c. and $1.00.

THE QUICKCURE COMPANY, LTD. QUEBEC, CAN.

QUICKCURE

* 1871 *

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

* 1897 *

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

A. STEVENSON, Secretary.

Woman may crown herself with *good* health if she will. By so doing she will insure her own attractiveness, make her husband and her home happy, and protect the health of her babies. Health is the *most glorious* crown that a woman may wear. To wear it she must take proper care of herself, and see to it that the delicate organs that are distinctly feminine are always healthy and strong. Thousands of women fall short of good health in this one respect, and as a result soon become but wrecks of their former selves. A woman cannot long retain her general health who is suffering from weakness and disease of the organs that make wifehood and motherhood possible.

Dr. Pierce's Favorite Prescription acts directly on these organs. It makes them well and strong. It prepares a woman to be a wife and mother. It does away with the discomforts of the expectant period and makes baby's advent easy and almost painless. All good druggists sell it.

"I am glad," writes Mrs. Louisa Arthurs, of Ostwalt, Iredell Co., N. C., "to express my gratitude to you for the benefits I have received from your medicines. After the birth of my second child I was stricken with derangement of the stomach and liver and a full line of female weaknesses. For seven years I suffered untold misery. Then my husband, J. S. Arthurs, sent for a copy of your 'Common Sense Medical Adviser.' The book described my sufferings so plainly that I purchased bottles of your 'Favorite Prescription' and 'Golden Medical Discovery' and a vial of 'Pleasant Pellets.' Our doctor pronounced my case hopeless, and laid aside your medicines, calling them nostrums, and for six months I lay under his disgusting treatment. At the end of this time I commenced taking your medicine and improved very fast. I was soon able to do my housework. My baby thrived fast, and is to-day the healthiest child I have. Your medicine saved my life. My recovery was astonishing. I recommend your medicines constantly."

Dr. Pierce's Pellets cure Constipation.

SPEED OF A BICYCLE.

A COMPARISON WITH OTHER MEANS OF LOCOMOTION.

What the Wheel Has Done for Man in the Matter of Speed—The Record Distances of Its Competitors in Rapid Traveling

In the matter of speed the bicycle has done much for the human race. This fact is particularly noticeable when one studies racing records, and it is duly impressed when it is stated that the all-pervading wheel has enabled man to pass the trotting horse and will doubtless soon put the human competitor in front of the blooded running equine.

From time immemorial man has indulged in contests of speed. The ability of one man to run faster than his fellows has been considered a mark of distinction, the same as the ability to swim faster, to leap further or to perform any other feat with more ability, strength or skill. The general use of the bicycle has developed a form of sport hitherto unknown, and now bicycle races form a part of nearly all contests of athletes. During the past few years the sport has been developed in an amazing manner and records have been made and smashed with such rapidity as to stagger the statistician. Figures are constantly being lowered, and at present there seems to be no limit to the speed at which a man will be able to propel himself over a smooth course when mounted on a bicycle.

A man on smooth ice and using skates, could, if he were an expert, cover about 1926 yards in three minutes. This record has been beaten, but it was by a skater who had the advantage of going with a strong wind. Skates enable a man to go much faster than he can run, but they seem insignificant when compared with the bicycle records of the past year.

Could there be a great handicap race in which contestants along various lines were engaged the importance of the bicycle would be apparent. By its use man become speedier than the horse for short distances, while for long distances over fair roads the horse would not even be mentioned as having 'also ran.' Supposing such a race were arranged and contestants were secured who stand at the top of their especial lines of endeavor. With large tracks surrounding smaller ones a field could be laid out so that faster methods of travel would be properly handicapped.

The swimmer would travel over the shortest course. If the track were so designed as to give him a three-minute task his distance would be two hundred and fifty-one yards. This is estimated from the record of J. Nuttal, the English swimmer, who covered two hundred and fifty yards in 2.57 3-5 in England some years ago. Few swimmers can do as well.

Having a three-minute course for the

COMPARATIVE SPEED OF A BICYCLE.

swimmer, all the other tracks should be designed to occupy the time of the contestants for the same length of time. A man rowing would come next to the swimmer, and he should have a distance of about eight hundred and thirty-four yards to cover. These figures are based on the fastest time for such a distance ever made by an oarsman. A man running would come next, and he should be given a distance of twelve hundred and seventy yards to cover. There are several professional runners who can negotiate about that distance in three minutes.

Trotting horses are able to go about twice as fast as a man can run. The few leaders, whose time is close to two minutes for a mile, could perhaps go two thousand five hundred and twenty yards in three minutes, but this distance would be too great for any high steppers except those with a record of 2.08 or better. A man on a bicycle can travel faster than any horse can trot. James Michael has done about two thousand eight hundred and forty yards in three minutes, and Bald, the Butlers, Johnson, Sanger and a dozen others could do about as well.

While the bicyclist could easily defeat a trotting horse the running horse would have to be handicapped, as turf records show that a running horse has covered a mile and three-quarters in a fraction of a second more than three minutes. Therefore the running horse should be given a distance of three thousand and eighty yards to cover in three minutes.

The express train offers the fastest method of traveling at present. If the fastest time ever made by a railway train is to be considered, the locomotive will have a track five miles long, as the New York Central boasts of a train that covered five miles, the distance between Looneyville and Grimesville, in exactly three minutes. This was done on a straight track. On a circular track such a speed could not be maintained, and so the locomotive would not be a favorite.

So it will be observed that in the matter of getting over the ground the bicycle has done much for man. It has enabled him to travel faster than he ever traveled before through his own efforts. By its use a man can go faster than the fleetest trotter, and when three men are mounted on a triplet or four sturdy racers on a quadruplet, they can set a pace that would be too fast for all but a very few members of the equine aristocracy.

Very Discreet.

In the Brazilian hotels men are employed to do the chamber work, and they are prone to rush into the bedroom of the guests when occasion requires without knocking. A prim little Yankee "schoolmarm" visiting Rio de Janeiro was much annoyed at this custom, and after mildly protesting several times without effect, she said severely to the boy who did the work in her room:

"Juan, be good enough to understand that I will not allow you to open the door of my room without knocking. If you do it again I shall certainly report you at the office. Why, I might be dressing!"

"No danger of that, senora," responded Juan, in his best English; "before I come in I always look me through the keynote.—San Francisco Aargonaut.

Eyes of Criminals.

One of the most curious results of the investigations made by doctors in the Russian jails is the statement that each group of criminals has its own peculiar color of the eye. A local journal at Odessa states that it has been found that thieves and murderers usually possess chestnut-brown eyes. Robbers—that is to say, thieves in a large and violent line of business—have slate-colored eyes, and the same is stated of criminals convicted of swindling. The vagabond classes have eyes of azure blue tint. The color must be observed among minor criminals and those convicted of slight offenses is chestnut-brown green.

A CONSTABLE TALKS.

Like Ordinary Mortals Subject to Kidney Disease but Easily Cured by Dodd's Kidney Pills.

STAYNER, (Special), Aug. 2.—Mr. James K. Nesbitt, a county constable of this place, having suffered for a long time with kidney disease, he became aware that the doctors called it diabetes and incurable. As he had the good fortune to know that many cases of this disease had been cured by Dodd's Kidney Pills this news did not startle him. He says he went straight to Sander's drug store, and commenced to get well on the first box purchased. Now he is going the usual rounds praising Dodd's Kidney Pills to every one who asks the particulars of his recovery.

How to Examine a Watch.

To one who has never studied the mechanism of a watch, its mainspring or the balance wheel is a mere piece of metal. He may have looked at the face of the watch, and while he admires the motions of its hands and the time it keeps, he may have wondered in idle amusement as to the character of the machinery which is concealed within. Take it to pieces and show him each part separately—he will recognize neither design nor adaptation nor relation between them; but put them together, set them to work; point out the offices of each spring, wheel and cog, explain their movements, and then show him the result. Now he perceives that it is all one design—that, notwithstanding the number of parts, their diverse forms and various offices, and the agents concerned, the whole piece is of one thought, the expression of one idea. He now rightly concludes that when the mainspring was fashioned and tempered its relation to all the other parts must have been considered; that the cogs on this wheel are cut and regulated—adapted—to the ratchets on that, etc., and his final conclusion will be that such a piece of mechanism could not have been produced by chance; for the adaptation of the parts is such as to show it to be according to design, and obedient to the will of one intelligence.—Harper's Round Table.

What Hood's Sarsaparilla has done for others it will also do for you. Hood's Sarsaparilla cures all blood diseases.

Pleasant, Sure and Quick.

GENTLEMEN,—I am pleased to recommend your Laxa Liver Pills for constipation, dyspepsia and sick headache. I have used them for those troubles, and find them a pleasant, sure and quick cure, free from the annoying griping of other pills I have heretofore used.

Signed, H. JAMES,
St. Nicholas Hotel, Hamilton, Ont.

Mrs. T. S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitalizer 'Saved my Life. I consider it the best remedy for a debilitated system I ever used." For dyspepsia, liver or kidney trouble it excels Price 75c. Sold by John Nugent 399 George Street.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Morals for Wheelmen.

Let your light so shine that the "fly cop" may see it by night.

The memories of a tourist are like a silken skein—only they seldom break when being unwound.

Experience in cycling may come high, but it pays in the end.

In choosing a wheel or tire, remember that a mistake avoided is better than one corrected.

Every rider, whether his sphere is narrow or wide, exerts an influence on wheeling.

If you wish to know the true value of your neighbor's wheel, go and try to borrow it.

The successful racing man is the one who knows when it is time to quit the field.

Perhaps the reason a man's head becomes inflated is because the wheel inside is pneumatic-tired.

Toe clips make riding over rough streets and crossings safer and easier.

Let some one else find out your good qualities; you keep an eye on the bad.

The man with a good deal of "push" gets along well on a bicycle—or anywhere else.

No cyclist should object to going on a club run because he can't head the procession.

His Daughter's Mania.

"As you say my daughter is willing to marry you, I must tell you a secret. There is madness in our family."

"Indeed! Your alarm me! What is your daughter's mania?"

"Her mania, sir, consists in her willingness to marry you!"—Tit-Bits.

The Best Advertisements.

Many thousands of unsolicited letters have reached the manufacturers of Scott's Emulsion from those cured through its use of Consumption and Scrofulous diseases none can speak so confidently of its merits as those who have tested it.

Cancer can be Cured.

For six years I suffered from cancer, and got no relief until I used Burdock Blood Bitters. I used seven bottles faithfully, when the cancer gradually dried up and finally disappeared. I am now entirely well and rejoice that by using B. B. B. I have escaped death either from the surgeon's knife or from the cancer itself.

THE BUREAU OF FORESTRY.

No more useful and instructive public documents have been issued by the Ontario Government than the annual reports of the Bureau of Forestry, which have done excellent service in creating a strong public opinion in favour of woodland preservation and tree-planting. The report of the Clerk of Forestry just received, is not quite so lengthy as some of its predecessors, owing to the fact that its author is engaged on the work of the Forestry Commission appointed to consider the question of replanting the waste lands, that being the most important phase of the problem, nevertheless it is full of interest and comprises an up-to-date view of the present situation, embodying the latest scientific conclusions and much practical information for farmers and others interested in tree-culture.

The report emphasizes the fact now thoroughly established by observation and experience, that when pine forests have been cleaned a second growth of pine will spring up, provided the land is not subjected to the ravages of fire. The reason why the contrary view has been so widely held that it has been almost accepted as an axiom, is that in nearly all cases fire has followed the axe, destroying the seeds and seedlings. The solution of the forestry problem lies in the prevention of the devastating forest fires which have proved so destructive in the past, and in permitting the land not adapted for settlement to become reforested. If this were done and greater judgment shown by lumbermen in cutting only well-matured trees, lumbering would become a permanent and settled industry and the timber supply for the future would be assured.

Investigations undertaken by the Bureau during the past year with the object of ascertaining the total amount out of the Province have brought out some facts not generally known as to the extent of the supply of timber obtained from land occupied by farmers. So far as statistics could be obtained from 1,508 lumber mills it appeared that the aggregate cut of pine on lands owned by farmers amounted to 265,000,000 feet, board measure. This is in addition to wood sold for other purposes. The report points out the increasing value of wood of many kinds, owing to its growing scarcity and urges upon farmers the need of maintaining their wood-lots and the desirability of planting waste lands with good timber trees as a future source of profit. Valuable articles by Mr. Alex. Kirkwood on the manufacture of charcoal, and by Dr. Brodie, the noted entomologist, on insects injurious to trees are included in the volume, which also contains an appendix showing the proportion of forest to cleared land in the townships of the settled portion of Ontario. Any person desirous of obtaining a copy of the report can do so by sending his name and address to Mr. Thos. Southworth, Bureau of Forestry, Parliament Buildings, Toronto.

Speaks from Experience

Mr. J. W. Tomlinson, Amherstburg, Ont. speaks from experience when he says:—"I am well satisfied with Doan's Kidney Pills hey are undoubtedly the best medicine on the market for any one afflicted with urinary or kidney troubles, such as pain in the back, tired feeling, cramps, numbness, etc. They cured me and removed all my pains and aches."

BASEBALL RECORD.

Toronto, Aug. 13.

It would be an ungrateful fan indeed who could roast the Torontos for losing a game, after winning 15 off the reel. With the four errors cut out, the Stars would have won anyway. Willis pitched his best game of the year, and performed a feat that no pitcher has done for many a day—held the Torontos down to 6 hits.

Toronto	1 0 0 0 0 0 0 0 0—1
Syracuse	0 0 0 2 0 0 3 0 x—5

THE OTHER GAMES.

At Wilkes-Barre in the game between Wilkes-Barre and Providence, the third inning was disastrous for the home team, Keenan being pounded all over the field, the visitors scoring six runs. In the eighth base hits by Weigand and Lyons and errors by Shannon and Gondling gave Providence two more runs. Score:

	R.	H.	E.
Wilkes-Barre ...0 2 0 0 0 2 0 0 0—4	10	2	
Providence .....0 0 6 0 0 0 0 0 2 *	8	10	1

Batteries—Keenan and Gondling; Hagan and Coogan.

At Buffalo—Buffalo-Montreal game postponed; rain.

At Scranton—The Miners made but two clean hits out of a total of five off Dolan to-day, and would have been shut out but for errors by Rogers and others. Errors gave the Ponies four of their five runs. Ole Smith, centre field of the Springfield team was released to-day. Score:

	R.	H.	E.
Springfield .....1 0 0 0 1 0 0 3 0—5	9	3	
Scranton .....0 0 0 0 1 0 0 0 0—1	5	4	

Batteries—Morse and Boyd; Dolan and Duncan.

NATIONAL LEAGUE.

At Washington—The game resulted in another shut-out for the visitors. The Senators were lucky in hitting at opportune intervals, and the fielding was better than that of the Brooklyns. The visitors could not bunch their hits. Score:

	R.	H.	E.
Washington .....1 0 1 0 0 0 0 0 1 *—3	10	1	
Brooklyn .....0 0 0 0 0 0 0 0 0—0	3	1	

Batteries—McJames and Farrell; Kennedy and Smith.

At New York—The leaders from Boston won two games from the Giants. The first was characterized by good playing, and was in doubt until the last New Yorker had gone to the bat in the 12th.

First game—	R.	H.	E.
New York ....0 0 0 0 0 0 0 1 0 3 0 0—4	9	4	
Boston .....0 0 0 0 1 0 0 0 3 0 1—5	14	1	

Batteries—Meekin and Wilson; Warner, Sullivan and Lake.

Second game—	R.	H.	E.
New York .....0 0 0 2 3 0 2 0 —7	9	1	
Boston 0 0 0 0 0 0 0 1 10	0	3	

Batteries—Seymour, Sullivan and Warner; Stivetts and Bergen.

At Philadelphia—Baltimore defeated Philadelphia in a game which was long drawn out on account of the wrangling of the visiting players, three of whom were sent to the bench. Both teams played poorly in the field, but the errors of the locals were the more damaging in their results. McGraw wrenched his ankle sliding into third in the first inning and had to retire. Score:

	R.	H.	E.
Philadelphia ...1 0 0 0 2 0 4 0 0—7	15	6	
Baltimore .....3 0 0 0 0 0 1 5 2—11	16	5	

Batteries—Orth and Boyle; Corbett, Clarke and Bowerman.

At Louisville—The colts looked like winners until the ninth, when three hits, a sacrifice and two errors gave the Colonels three runs and the game. Decker and Lange made sensational catches of long hits. Score:

	R.	H.	E.
Louisville .....1 1 0 0 0 0 1 0 3—6	10	3	
Chicago .....1 0 0 1 0 0 0 0 0—5	14	1	

Batteries—Frazer and Wilson, Friend and Donahue.

At Cleveland—The Indians bunched their hits in the third and seventh innings, while Powell kept the visitors' hits scattered. Sockalexis was on the coaching line in uniform and will soon be back in the game. Score:

	R.	H.	E.
Cleveland .....0 0 5 0 0 0 0 3 1 *—9	12	0	
Pittsburg .....0 1 0 0 0 0 1 0 0—2	10	0	

Batteries—Powell and Zimmer; Hawley and Merritt.

ARTHUR BEAT THE LORNES.

Arthur, Aug. 12.—In the championship lacrosse match here to-day in the north western district between the Lornes of Mount Forest and Arthurs of Arthur to decide the championship the latter team won by 4 to 1, making five straight victories for the home team. Mr. Richardson, Fergus, acted satisfactorily as referee.

Always Felt Tired.

"I suffered with severe headache and loss of appetite and I always felt tired. I concluded to try Hood's Sarsaparilla and after taking one bottle my headache disappeared. I continued taking it until now I am never troubled with headache and my appetite is good." LAURA GARBAND, 247 Claremont St., Toronto, Ont.

Hood's Pills act easily and promptly on the liver and bowels. Cure sick headache.

MR. JUSTICE HOLMES.

Life of the New Chief Irish Appellate Judge.

Mr. Justice Holmes, who has just been appointed Lord Justice of Appeal in Ireland, succeeds the late Lord Justice Barry. He is said to be one of the ablest judges on the bench of Great Britain. The new Irish judge of appeal is 57 years old. He is a native Irishman, who was educated in the dingy old halls of Dublin University, and took the law course in a class of several young men who have since become famous as barristers and sharp witted lawyers in Dublin and elsewhere. He was called to the bar at the King's Inn in 1865, and became a bencher in 1879. It was not until 1885 that he became a Queen's counsel. His talents rapidly brought him to the surface of the legal swim in his native city. From 1877 to 1880 he filled the post of Solicitor-General for Ireland. From June, 1885, to January, 1886, he was Attorney-General for Ireland. Then Mr. Holmes stood for Parliament as the representative of Dublin University, and was elected. He sat for that interest from 1885 to 1888. In the latter year he was made a justice of the Queen's bench for Ireland. Among other offices he has filled is that of Privy Councillor, to which he was appointed in 1885. Justice Holmes is not a severe judge, and can unbend to enjoy a joke on counsel, or even on the court, when the opportunity presents itself.

MR. JUSTICE HOLMES.

CANCER CAN BE CURED.

Operations No Longer Necessary—The Disease Conquered.

The greatest discovery ever made is that given to the world by the Abbott Myron Mason Medical Company, of New York. Cancer can be cured without knife, plaster or pain. Many homes made happy. For centuries this disease has been considered incurable. The Vitalia Remedies not only cure but eradicate the disease by destroying its germs in the blood. It is a vegetable compound, and is easily taken.

The company has opened a branch office in Canada. They will mail free to anyone interested a 100-page book containing valuable information about the workings of this wonderful remedy. Canadian office, The Abbot Myron Mason Medical Co., 238 Yonge street, Toronto. In writing please mention Department C.P.

The Wabash Railway Trains

IN THE BIKE CIRCUIT.

Angus McLeod Beat McCarthy and Greatrix at Picton Gilhooly Won the Novice Race.

Smith's Falls, Aug. 12.—The first meeting of the Eastern Ontario Bicycle Circuit was held at Smith's Falls to-day. The results:

Novice race—Gilhooly, Smith's Falls, 1; White, Prescott, 2; Eaton, Newboro, 3. Time 2.37.

Half mile, open—Washburn, Smith's Falls, 1; Taylor, Perth, 2. Time 1.07. Davidson, Axton and Carman also started.

Half mile, professional—McLeod 1, McCarthy 2, Davidson 3. Time 1.03.

One mile open, amateur—Davidson, Brantford, 1; Constrait, Montreal, 2; Wilson, Toronto, 3. Time 2.15.

Two mile handicap—Esmonde, Ottawa, 1; Haight, Smith's Falls, 2; Green, Smith's Falls, 3. Time 4.47.

One mile, professional—McLeod 1, McCarthy 2, Greatrix 3. Time 2.25.

Harley Davidson rode an exhibition 5 miles in 11.29.

The Ottawa A.A.C. quad rode an exhibition half mile in 1.06 flat.

Three mile lap race—R. E. Axton, Brantford, 11 point, 1; Constrait, Montreal, 10 points, 2; Davidson, Brantford, 9 points, 3.

The heavy wind prevented fast time being made. In the matter of attendance, general interest and exciting finishes, the meeting was a huge success. The cracks all left to-night for Perth, where the circuit is continued to-morrow.

Undoubtedly the Best.

GENTLEMEN,—I wish to say that Dr. Fowlers Extract of Wild Strawberry has proved a wonderful remedy in my family. We would not be without it for twice its price. I say it is the best (not merely one of the best—but the best) medicine ever brought before the public for summer complaint or diarrhœa, either in children or adults.

JOHN UNDERHILL,
License Commissioner, Strathclair, Man.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 389 George Street

Opposite the Opera House, George, Street.

A GREAT BIG BROAD-GUAGE BUILDING SALE

Serious Disturbance to Business.

On next Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

THIS MONTH we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—BECAUSE WE HAVE TO.

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

In the general overhauling, there will be brought to light, accumulations of Odd Suits, Odd Lengths, small quantities and Remnants, throughout the various departments which will be let go at prices to dispose of quickly.

Come and hear the Prices Snap and don't forget that we stand ready to return your money without question if you are dissatisfied with your Bargains.

GOUGH BROS.

THE WONDERFUL CHEAP MEN,
375 and 379 George Street.

The Daily Examiner.

VOL. XXIV, NO. 38. PETERBOROUGH, SATURDAY, AUGUST 14, 1897. PRICE TWO CENTS.

CLEARING SALE

—OF—

LADIES' WHITE WEAR

—AT—

ROBERT FAIR'S.

Just now active preparations are under way to make room for New Fall Goods that are coming from every source. Our tables of popular priced Summer Dress Goods, &c., have proven a great attraction, and we now add to the already attractive array of Summer Bar gains our whole stock of Ladies' Whitewear. It was only last January that we opened this important department to the Golden Lion, so that the stock is all as good as new.

The Ladies have found out with good reason that we have saved them money in White Wear of every sort, and one of the hardest things for them to understand is how such prices are possible. There's the cost of material and the cost of making, and here's the thing for less than the two foot up:—

NIGHT GOWNS—

Commencing at 50c.

85c Nightgowns for	.60
$1.00 Nightgowns for	.70
$1.25 Nightgowns for	.85
$1.50 Nightgowns for	$1.00
$1.65 Nightgowns for	$1.25
$1.75 Nightgowns for	$1.50
$2.00 Nightgowns for	$1.65
$2.25 Nightgowns for	$1.85
$2.75 Nightgowns for	$2.25
$3.00 Nightgowns for	$2.50

CHEMISES—

60c Chemise for	.50
85c Chemise for	.65
$1.35 Chemise for	$1.15
$1.50 Chemise for	$1.25

SKIRTS—

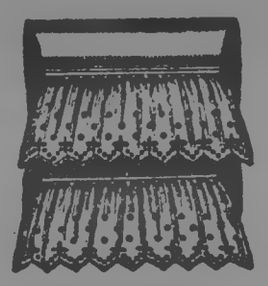
Commencing at 50c, 75c.

$1.10 Skirts for	.85
$1.25 Skirts for	.90
$1.35 Skirts for	$1.00
$2.25 Skirts for	$1.75
$2.50 Skirts for	$2.00

CORSET COVERS—

Commencing at 20c, 25c, 30c, 35c, 40c.

55c Corset Covers for	.40
65c Corset Covers for	.50
75c Corset Covers for	.55
95c Corset Covers for	.75
$1.00 Corset Covers for	.80
$1.50 Corset Covers for	$1.10



DRAWERS—

Commencing at 20c, 25c, 35, 45, 50c.

85c Drawers for	.65
90c Drawers for	.70
$1.00 Drawers for	.75
$1.25 Drawers for	$1.00
$1.50 Drawers for	$1.15
$2.00 Drawers for	$1.50

SALE COMMENCES SATURDAY, AUG. 7th.

We would urge the ladies to attend this rare White Wear Sale, as the goods are new and cannot be excelled for style and material.

Robert Fair, Direct Importer, Sign of the Golden Lion, 383 George St., Peterborough,

SOME OF THE BIGGEST CHANCES OF THE YEAR.

The month of August brings with it some of the biggest chances of the year. The approach of the fall season beginning in September has to be provided for considerably in advance. Making room is a perplexing problem, and many extraordinary sacrifices of really good lines have to be made. Be wise in time. These are—

REMNANT DAYS....

Every Remnant in stock, placed on tables and an entire clearance must be made. Lengths from 1½ to 10 yards, in Silk, Black and Coloured Dress Goods, Linens, Cottons, Prints, Flannels, Cretonnes, Linings, Straw Hats, Ribbons, Laces, Embroideries, etc., all reduced, equal to ONE HALF THEIR FORMER PRICES. Don't miss this this snap

—AT—

MISS RUDKINS'

CRYSTAL BLOCK—NEXT LOWE'S STORE.

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 333 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c. Remember the address—

JAMES SUTHERLAND,
333 George Street.

AMEER AND MULLAH

Have Been Fellow-Plotters Against Great Britain.

ENGLAND KEPT HIM ON THE THRONE

And Yet the Ruler of Afghanistan is Said to Have Been Assisting in the Attacks on the British—Paris Police Alarmed at Anarchist Threats—Cable News.

Bombay, Aug 13.—The impression is growing that Abdurrahman Khan, the Ameer of Afghanistan, is conniving with, if not actually assisting, the tribal risings. It is reported that he has recalled the Afghan agents at Simla, Calcutta, Karachi and Bombay, summoning them to Cabul, his capital.

From enquiries it is ascertained that Nur Mahomed Khan, the Bombay agent, left for Cabul a few days ago in response to a message from the Ameer. Before he left he disposed of all his moveable property.

Col. Sufi Gohan Russool, the Afghan agent at Calcutta, left that city nearly three weeks ago in the company of Chief Kumar, who was permitted to return to Cabul.

It is believed that some sections of the Afredis are in revolt. The Hindoos at Peshawur are in fear of being robbed and looted by the Mahomedans. A company of Bombay sappers will leave Kirkee for Rawal Pindi to-morrow, and orders have been given to the Dorsetshire Regiment and a company of Madras Sappers to leave Bangalore for Rawal Pindi immediately.

Agents Have Returned.

London, Aug. 14.—A despatch to The Daily Mail from Bombay asserts that all the Indian agents of the Ameer of Afghanistan have returned to Cabul.

PARIS POLICE ALARMED.

They Have Apparently Discovered That Faure is in Danger.

Paris, Aug. 13.—The Paris police are beginning to think there is really some ground for the belief that the life of President Faure is in danger. Figaro's correspondent at San Sebastian says: "Angiolillo, whom the examining magistrate in his questioning treated as a common murderer, guilty of a crime prompted by personal malice, again protested that he wished to avenge the persecuted Anarchists.

"On the magistrate remarking that in killing Senor Canovas he had removed only the man, and not the institution, Angiolillo retorted: 'Ah, you think so; but this is only an isolated execution, and you will see many others. We will compel you to ask for mercy. It's not over yet. It will soon be Felix Faure's turn. That brute will go through it like Carnot.'

To the magistrate's observation that he, the murderer, was only playing his part in denying he had accomplices, Angiolillo merely replied: 'I had no accomplices at all.'

"The magistrate is convinced," the correspondent adds, "that the nation has to deal with a formidable organization, having ramifications in every country.

"I think no doubt can be felt on this score, and information received by the examining magistrate during the last few days has put the authorities on the right track."

Meantime Faure is guarded with the utmost care. The force of detectives, both in and outside the Elysee, has been strengthened, while in the future he will, on every public appearance he may make, be ranged in by the troops.

Yesterday when he returned from the south, cuirassiers, with loaded revolvers, rode alongside his carriage. The fact is, the Anarchists look upon Faure as an embodiment of the bourgeoisie, which they hate more than the aristocracy.

During the Moscow journey extraordinary precautions will be observed. The anxiety of the police is positively alarming, but they are working in the dark, since no real clue exists to the Anarchist plots which, vague, mysterious threats are foreshadowing.

ACTIVITY OF THE CARLISTS.

The Fall of Canovas del Castillo Looked Upon as Their Opportunity

London, Aug. 13.—The Pall Mall Gazette this afternoon, during the course of a long article upon the increasing activity of the Carlists, says it is not generally known that London is one of the strongholds of the Carlists, thousands of active followers of the claimant of the Spanish throne being located in this city. The Pall Mall Gazette adds: "Their leader seems to think that the fall of Canovas brings their opportunity nearer. During the past week there have been many meetings to discuss the best means of assisting their colleagues in Spain in the event of a rising occurring."

The Chevalier Lumbre, head of the Carlist Club, during an interview, is quoted as saying: "The Carlists are highly organized throughout Spain. When Don Carlos next lands nothing but foreign interference will prevent him from reaching the throne. There are ten thousand volunteers in England ready to fight for him."

HERE'S A NEW CLAIMANT.

Prince Victor Emmanuel of Italy Wants the First Crack at Prince Henry.

Paris, Aug. 13.—The seconds of Prince Henry of Orleans and General Mercier had a brief interview to-day, but they postponed the discussion of the proposed duel between the General and the Prince, in consequence of the intervention of Prince Victor Emmanuel, Count of Turin, the second nephew of the King of Italy, who claims precedence over all others in the matter. The Count is a major of cavalry in the Italian service.

Later in the day the seconds of the Count of Turin and of Prince Henry of Orleans had a two hours' conference. It is expected that a decision will be arrived at this evening. If a duel is arranged it is understood that the encounter will take place abroad. The Count of Turin arrived in this city during the evening.

Will Fight With Swords.

Rome, Aug. 13.—A local newspaper says that the Count of Turin left Italy secretly, his departure being unknown even to the commissioner of police. It is added that the Count was accompanied by the Marquis Di Ginori and an aide de camp. Swords are reported to have been selected as the weapons to be used in the encounter.

Funeral of Canovas.

Madrid, Aug. 13.—The funeral of Senor Canovas del Castillo to-day was a most touching and solemn ceremony. All the troops of the garrison lined the route along which the cortege moved; flags were lowered and the public buildings, embassies, consulates and clubs were heavily draped with crape. More than a thousand wreaths were deposited in the death chamber.

LANGTRY MOVES NOW.

He is Determined on an Absolute Divorce From the Famous Jersey Lily.

London, Aug. 13.—Edward Langtry, husband of the notorious "Jersey Lily," stated to-day that he had come to London to bring suit for absolute divorce from his wife, and that papers in the action would be served on her by his direction this week.

Mr. Langtry said that he absolutely ignored the California divorce secured by his wife last spring, and that he had instructed his solicitor to bring suit without regard to the action in the American courts. He said that he would name as co-respondents several distinguished personages, a distinguished sporting baronet, an officer of the Guards, and an extravagant patron of the turf who died in America two or three years ago. Mr. Langtry said that he was convinced he had kept silent too long, and that he was now determined to "put his foot down." He said that he absolutely denied the paternity of the 14-year-old child, Jenne Langtry.

Anarchist or Crank, Which?

Paris, Aug. 13.—An Italian named Gallini was arrested to-day at the Gare de Lyon here for violently threatening France, and declaring he intended to imitate Cesario Santos, the assassin of President Carnot. The police have not yet decided whether the prisoner is an Anarchist or merely a crank.

Bismarck Bows to Canovas.

Madrid, Aug. 13.—Prince Bismarck in his telegram of condolence to Senora Canovas says: "I have never bowed my head before anyone, but I bow it every time I hear the name of Canovas."

What is Germany's Motive?

Berlin, Aug. 13.—The Post, Tageblatt and National Zeitung to-day simultaneously resuscitate the question of Great Britain's suzerainty over the Transvaal. They print virtually identical articles, concluding with the categorical statement that the Transvaal does not recognize Great Britain's claims of suzerainty. The arguments which lead to this conclusion are not new, but virtually there is some reason which is not apparent on the surface for again raising the point.

More Gunboats for Behring Sea.

London, Aug. 13.—Vice-Admiral Sir Alexander Butler, commanding the China squadron, has notified the Admiralty Office that he is despatching the cruiser Rainbow and the gunboat Linnet to the Behring Sea.

THE LOCK REPAIRED.

The Blockade of Vessels at Port Dalhousie Will be Relieved To-Day.

Port Dalhousie, Ont., Aug. 13, 6 p.m.—There are now two gates shipped in their proper places at lock 6, and the other two on the way there. Locking will be resumed some time to-morrow, or not later than Sunday morning. It just depends now how they happen to fit in their position. The following boats are waiting to lock up: Steamer Omaha, steamer Frost, steamer Niagara, steamer Colonial, steamer Bannockburn, schooner Minnedosa, steamer Antelope, steamer J. C. Ford and barges; steamer Street and barges; steamer Governor Smith, schooner D. W. Rush and barges, steamer S. J. Murphy, steamer D. C. Whitney and barges, steamer Topeka, schooner Vienna.

THE MINERS' TROUBLE

First Blood-Letting in Connection With the Strike.

THE MEN WERE ON THE MARCH

And the Sheriff and His Deputies Interfered With Them. A Pretty Hungarian Girl Took a Prominent Part in the Agitation Strike Apparently Extending.

Pittsburg, Aug. 13.—The striking miners started to march to the Plum Creek mines of the New York and Cleveland Gas Coal Company about 5 o'clock this morning. They were met on the road by Sheriff Lowry and his deputies, who ordered them to go no further. Crab Bellingham, the leader of the marchers, tried to push his way past the deputies. A scuffle ensued in which Jacob Mott, a member of the band, was cut seriously over the eye by one of the deputies, causing the first bloodshed of the strike.

About 2 o'clock this morning some of the deputies doing duty at the Plum Creek mines were called from Centre School to disperse a crowd of Hungarians. Mary Hunz went to the camp and aroused 75 of the Hungarians to the point of accompanying her to the company houses to do missionary work.

The motley crowd got a good start before news of the movement was conveyed to the De Armitt stables, whence the warning was sent to the deputies. After much chasing the deputies managed to catch up with the crowd and dispersed them.

During the morning about 40 women appeared on the road leading to Plum Creek. The party was headed by the strike "queen, Emma Hunz, wearing a wreath of daisies and carrying a flag. A number of banners were displayed bearing striking inscriptions, among which were: "We are out for women's rights. Sixty-nine cents or bust." "United we stand, divided we fall. It's bread and butter we want."

The deputies received many taunts and jeers, but the marching women were finally persuaded to return to their homes without any serious trouble occurring.

As soon as the report of the trouble at Plum Creek reached the miners' headquarters this morning, President Dolan left for Plum Creek to investigate the cause. He will bring Mott to this city and have an information for assault made against Stewart, the deputy who it is alleged struck Mott with the horn. Dolan said he was still determined in his decision to maintain the camps, but will counsel the men to keep the peace.

Superintendent De Armitt of the Oak Hill mine No. 4 will make another determined effort to operate his mine with a largely increased number of diggers. Instead of importing men the miners are idle through sympathy with the strike are to be rounded up with a view of getting them to work. Deputies will be placed on guard at the homes of the miners willing to work, but unwilling to run the gauntlet of the strikers.

Benjamin Tarr, the master mechanic at the mines, said to-day that most of the miners were afraid to go to work. "They are actually afraid to go to the pit or else they would be there now," said he. "Yesterday we found a whitecap notice tacked on the door of one of the miner's houses warning him of the consequences if he dared to go to work before the strike is ended. I turned the warning over to Supt. De Armitt."

Only this morning several miners were stopped and threatened at Newton and told what was going to happen in case they went into the mine. The strikers deny that any whitecap notice had been posted or that the men had been threatened.

Nineteen Italian miners, residing near the bridge at Newton, went to work at Oak Hill this morning. They promised to work every day if given protection. Orders were issued to the Deputy Sheriffs to keep a posse constantly guarding the houses night and day. The posse will go on during this evening. Other miners' houses will be guarded in the same way.

Laughlin Men on the March.

Wheeling, W. Va., Aug. 13.—The offer of the miners at the Laughlin Iron and Steel Company's mine to give 10 per cent. of their earnings to the strike fund and the proposition of the company to duplicate any sum the miners might give was not satisfactory to the Eastern Ohio strikers, and this morning the marching column from Cleveland, Lorraine and Wheeling Railroad mines marched with flags and a band to the Laughlin mines.

The men at work refused to come out till the national officers had passed upon their proposition. Except the Laughlin and Aetna Standard mines, everything in this vicinity is closed down.

Mowequa Invaded by Miners.

Mowequa, Ill., Aug. 13.—This city was invaded last night by a large body of miners from Pana, Assumption and Nokomis, en route to Decatur. They were reinforced here by a number of miners and left for the north about midnight.

Met by the Sheriff.

Decatur, Ill., Aug. 13.—About a hundred men, the advance guard of the body of marching miners from the west, were met this afternoon by Sheriff Nicholson and Marshal Mason three miles west of the city and ordered not to come farther. They went into camp. Two hundred men from Pana and places to the south are encamped two miles southwest. All are orderly and quiet. The miners here are still working.

Frank Campbell Had to Flee.

Coffeen, Ill., Aug. 13.—Frank Campbell, until recently the trusted lieutenant of "General" Bradley, was forced to flee for his life from the strikers' camp west of town last evening. He was pushed by an angry mob of Slavs, who charged him with having sold Bradley and his men out to the Coffeen Coal and Copper Company. Campbell denies the charge. Sheriff Randle has posted a proclamation ordering the strikers to disperse from the camp and leave the county.

Daily Examiner.

SATURDAY, AUGUST 14, 1897.

GEOLOGICAL VIEW OF THE KLONDYKE MINES.

Little is known about the geology of the Yukon River, where the Klondyke mines have been found. Being placer mines, the gold may have been transported many miles. The means of transportation are both glaciers and rivers. The Klondyke region is on the north side of the St. Elias Alps. Alaska was never completely covered with glacial ice. The glaciers flowed both north and south from these summits. Dawson and Prof. Russell both report well-defined terminal moraines across the upper Yukon valley. The source of the Klondyke gold, therefore, is from the south.

Placer mines originate in the disintegration of gold-bearing quartz veins, and mass like that at Juneau. Under subaerial agencies these become dissolved. Then glaciers transport the material as far as they go, when the floods of water carry it on still further. Gold, being heavier than the other materials associated with it, lodges in the crevasses or in the rough places at the bottom of the streams. So to speak, nature has stamped and "panned" the gravel first and prepared the way for man to finish the work. The amount of gold found in the placer mines is evidence not so much, perhaps, of a very rich vein as of the disintegration of a very large vein.

The "mother lode" has been looked for in vain in California, and perhaps will be so in Alaska. But it exists somewhere up the streams on which the placer mines are found. The discovery of gold in glacial deposits far away from its native place is familiar to American geologists.

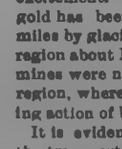
'I have encountered placer mines in glacial deposits near Aurora in southeastern Indiana; in Adams county in southern Ohio, and near Titusville, in western Pennsylvania, where, I see there is a new excitement. But in all these cases the gold has been brought several hundred miles by glacial ice from Canada or the region about Lake Superior. These gold mines were near the edge of the glacial region, where there had been much assorting action of both ice and water.

It is evident, however, that in Alaska the transportation of the gold has not gone so far. The difficulties of the transportation into the Klondyke region and the shortness of the season will continue to be great drawbacks to working of the mines. The pass north of Chilcoot is seven thousand feet above the sea level and but a few miles back from the ocean. There is no possibility of a road over it. But from Saku Inlet, near Juneau, readier access can be had. This route was followed by Schwatka and Mr. Hayes, of the United States Geographical survey, a few years ago, and has been partially surveyed with reference to a railway line, and reported to be available. The only other way is by the river which is open to navigation only a short time each year and lies a great way round.—Prof. G. F. Wright, of Oberlin College, in 'The Journal,' New York.

EDITORIAL NOTES.

THE Newfoundlanders may pray that the coal discovered there may meet the requirements of the Royal Navy, which is now giving it a trial. Success means a dock yard and naval station at St. John's. "Our oldest colony" may suddenly find its black diamonds better than gold.

Cook's Cotton Root Compound



Is the only safe, reliable monthly medicine on which ladies can depend in the *hour and time of need.*

Is prepared in two degrees of strength.

No. 1 for ordinary cases is by far the best dollar medicine known—sold by druggists, one Dollar per box.

No. 2 for special cases—10 degrees stronger—sold by druggists. One box, Three Dollars; two boxes, Five Dollars.

No. 1, or No. 2, mailed on receipt of price and two 3-cent stamps.

The Cook Company,
Windsor, Ontario.

Sold in Peterborough and everywhere in Canada by all responsible druggists

THE vice-president of the Canadian Pacific Railway, himself a naturalised British subject, denies that there are aliens being employed on the Crow's Nest Pass railway. This must be very annoying to the Tory papers. The statement takes from them one of their favourite daily stories.

BRITISH opinion regarding the colonies, says J. M. Gibson, who is in harness again, has changed largely in the past year or so. Formerly Australia and South Africa were on everybody's tongue in the Motherland, but now it is Canada and the Canadians all the way. The indifference to this country has given away to the reverse feeling—a keen appreciation and interest.

IT has sometimes been said of Sir Wilfrid Laurier, that he is a pleasant, but insincere phrasemaker, saying just the happy things that suit the moment. Those who have been possessed of that idea will be undeceived on reading Sir Wilfrid's addresses before the French people. In them will be found an exhibition of courage and a devotion to British institutions that are most admirable.

THE "bonding privilege" is being discussed once more in the States. It is very contemptible and unworthy a great nation. But the United States evidently has not yet fully learnt the lesson that Canada is neither to be bullied nor frightened. If the bonding privilege is interfered with we must do without it, that's all. But as it would be most disastrous to American interests to interfere with it will probably be found convenient to deal with it as before.

A COMPARISON OF AGRICULTURE

The returns published by the United States Department of Agriculture at Washington, and the Ontario Bureau of Industries at Toronto, with the production therein shown of wheat, barley, oats, corn, rye, buckwheat, potatoes and hay, in the States of New York, Ohio, Michigan, Illinois, Indiana, Wisconsin, Kansas, Missouri and Iowa, and in the Province of Ontario, show that:—

The comparison is decidedly in favour of the Ontario farmer. Ten acres in each of the above eight crops yielded in six years to the farmer, clear of expenses:

In Ontario	$8,640
" New York	7,474
" Ohio	6,456
" Michigan	5,440
" Illinois	5,342
" Indiana	5,779
" Wisconsin	5,678
" Kansas	5,425
" Missouri	5 909
" Iowa	4,968

Putting it in a different way, the Ontario farmer, with eighty acres in the above crops at the end of six years would have received more than the farmer in New York cultivating the same area and the same crops, by $2,165; more than the farmer in Ohio by $1,183; in Michigan by $2,200; in Illinois by $2,798; in Indiana by $2,861; in Kansas by $3,515; in Missouri by $3,341; in Iowa by $3,862.

Ontario's average for the six years was better than the average of these nine States during the same term by 45 per cent.

These figures are based on the most reliable government statistics available. They go to show that Ontario, from the natural advantage of its soil and climate is the most productive general farming district in America.

Had it been possible to make a like examination into the stock and dairying departments, the showing in favour of Ontario would have been still better.

Death Cutting Down the Babies

Lactated Food A Life-giver and Builder.

This is the season of the year when death is busy in the ranks of the babies and young children. This is the time when mothers are called upon to exercise the greatest care with babies' food. Proper and healthful food in the very hot weather will carry the babies safely through all the troubles of summer.

Wise and happy mothers are making use of Lactated food for their little ones. This scientific food contains all the important elements of healthy mothers' milk; it is a perfect nutrient; the best known flesh builder, and a saver of life.

Mothers all over Canada are loud in their praises of Lactated Food, and will use no other make. It is the only prepared food that has met with medical indorsation. Lactated Food saves babies' lives.

The Wabash Railway Trains

running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service; they are complete and solid vestibuled from end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to car builder's art. They include free reclining, palace, sleeping, and dining cars of the latest and best patterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

CASTORIA

Wrong Heart Action.

Wrong action of the heart causes nervousness, nervous dyspepsia, shortness of breath and other distressing symptoms. Mr. Samuel Yelland, of London, Ont., was cured of these troubles by taking Milburn's Heart and Nerve Pills. Mr. Yelland says: "They are a remarkable medicine, and I have not been troubled in the least since taking them."

"How to Cure all Skin Diseases."

Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman Sons & Co., Montreal wholesale agents.

(ASSESSMENT SYSTEM).

A MAN

earning $500.00 a year is equal in earning power to a building producing $500.00 a year rent. Such a building should be worth $10,000. Here, then, are two properties worth $10,000 each. If the building is

BURNT UP

it is a total loss. Not always, you say, because such buildings are well insured, where the owner is not a fool. But, suppose the man dies, is not the loss just as great? Yet lots of $10,000 men carry $1000 insurance only; plenty more carry none at all—seem to be sensible enough people, too. But are they not taking a big risk of becoming a

Total Loss?

The Canadian Order of Foresters will, for from 2 to 5 cents a day provide $1000 to $2000 first-class solid insurance. Those who have it are pleased. Ask them. You can attend to this important business right here in this place. To-day is a good time. The Canadian Order of Foresters is sound, safe and successful. Don't delay to think about it. 70 people die every minute. WHEN IS YOUR TURN COMING? C.O.F. Pamphlet or paper on application to

SUPT. OF ORGANIZATION,
BRANTFORD, ONT.

CANADIAN STONE GOES FREE.

But No Thanks to the U. S. Government, as They Would Have Had to Pay the Duty Themselves.

Washington, Aug. 13.—Secretary Gage to-day instructed the Collector of Customs at Buffalo, N. Y., to admit to entry the Canadian stone needed for the work on the Buffalo breakwater, pending a final settlement as to the rate of duty and by whom to be paid. Under this arrangement the work on the improvement will not be delayed. It is said at the Treasury that the usual provision in tariff acts admitting free of duty articles of any character intended for Government use was stricken out, so that the duty on this stone will have to be paid by the War Department from its present appropriation, or Congress may be asked at its next session to remit the duty. Abuse by contractors of the privilege of entering goods free for Government use, it is said, was the cause of the provision being stricken out of the present act.

WONDERFUL.

Piles Cured in 3 to 6 Nights—Itching, Burning Skin Diseases Relieved in One Day.

Dr. Agnew's Ointment will cure all cases of itching piles in from three to six nights. One application brings comfort. For blind and bleeding piles it is peerless. Also cures tetter, salt rheum, eczema, barber's itch and all eruptions of the skin. Relieves in a day. 35 cents. Sold by H. S. Mcdonald.

Undoubtedly the Best.

GENTLEMEN,—I wish to say that Dr. Fowlers Extract of Wild Strawberry has proved a wonderful remedy in my family. We would not be without it for twice its price. I say it is the best (not merely one of the best—but the best) medicine ever brought before the public for summer complaint or diarrhœa, either in children or adults.

SCOTT & BOWNE, Belleville, Ont.

HIGH ROAD OF PROSPERITY.

Sir William Van Horne Thinks Canada is Having a Boom That Will Last for Several Years.

Montreal Aug. 13.—(Special.)—"I think Canada is on the high road of prosperity," was the reply of Sir William Van Horne to-day to a question put to the President of the Canadian Pacific Railway by your correspondent. "Canada," he continued, "is having a boom and I think this boom will last for a number of years to come. We have had several years of depression, but the Dominion has been growing all the same. Of course, a good crop will still further help Canada. The miners will help us, and, in fact, everything of this nature will lend a helping hand. Foreign capital will come in as fast as good investments offer. Capital, however, is constantly coming in, and it is increased every time a Canadian bond or security is sold. I have every confidence in the immediate future of Canada," was Sir William's closing remark.

A CONSTABLE TALKS.

Like Ordinary Mortals Subject to Kidney Disease but Easily Cured by Dodd's Kidney Pills.

STAYNER, (Special), Aug. 2.—Mr. James K. Nesbitt, a county constable of this place, having suffered for a long time with kidney disease, he became aware that the doctors called it diabetes and incurable. As he had the good fortune to know that many cases of this disease had been cured by Dodd's Kidney Pills this news did not startle him. He says he went straight to Sander's drug store, and commenced to get well on the first box purchased. Now he is going the usual rounds praising Dodd's Kidney Pills to every one who asks the particulars of his recovery.

THERE'S SOMETHING IN THIS.

Mrs. Nack and Thorn Were Afraid That Guldensuppe Would Tell What He Knew and Fix Them.

New York, Aug. 13.—The World this morning claims that the authorities are working on an entirely new theory in the Guldensuppe murder case. It is that fear, not jealousy, caused the murder of the bath rubber; that Augusta Nack and Martin Thorn were afraid he would betray them to the officers of the law and cause them to be sent to prison for long terms. Assistant District Attorney Mitchell of this county said a few days ago that detectives investigating Mrs. Nack's history have found that the woman was utterly devoid of human sensibility; that she committed many illegal acts under cover of her status as a midwife, and that she is responsible for the deaths of many innocent children. Guldensuppe knew of her misdeeds and he was eager for revenge upon her and upon his supplanter.

ONE HONEST MAN.

DEAR EDITOR,—Please inform your readers that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest home cure, by which was permanently restored to health and manly vigour, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy.

Address with stamp:
WM. T. MULFORD, Agents' Supplies,
P. O. Box 59, ST. HENRI, QUE.

Speaks from Experience

Mr. J. W. Tomlinson, Amherstburg, Ont. speaks from experience when he says:—"I am well satisfied with Doan's Kidney Pills hey are undoubtedly the best medicine on the market for any one afflicted with urinary or kidney troubles, such as pain in the back, tired feeling, cramps, numbness, etc. They cured me and removed all my pains and aches."

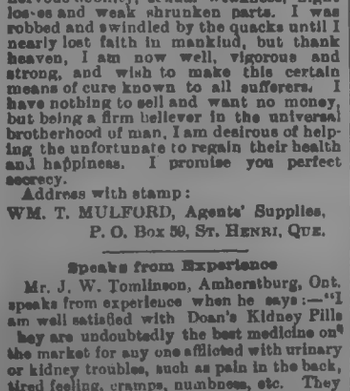
Norway Pine Syrup cures coughs, colds, and all throat and lung troubles. Price 25 and 50c.



WHEAT IS CLIMBING

A Dollar Per Bushel is Likely to be Realized.

AND THE PRICE MAY GO HIGHER YET

Farmers, Merchants and Everybody Else May Rejoice at the Prospect of Better Times The Product of the Soil is Being Rushed to the Market Rapidly.

New York, Aug. 13.—Wheat still climbs upward, bringing untold happiness to the farmer, the retail and wholesale merchants and the speculators as well. The entire country finds in this high price for wheat the cornerstone upon which the expected prosperity is to stand.

The best expert crop statisticians figure out a total wheat crop of about 500,000,000 bushels. At the present prices for cash wheat prevailing in Minneapolis, St. Louis and this city the farmers are receiving about 90 cents a bushel for their product. The wheat already sold of the present crop is about 72,000,000 bushels, which brought $57,600,000, at the average rate of 80 cents per bushel. The balance of the crop, even should cash wheat not go higher, will bring $415,200,000, an increase over last year of $128,400,000.

Of the crop of 1896 there remained unsold on Jan. 1 of the present year about 190,000,000 bushels. This was sold for an average price of 70 cents, an increase of 12 cents over last year. The total received for these sales was $133,000,000, an increase of $22,800,000 over last year.

A peculiar feature of the present crop movement is that while the new crop is being rushed to market at a rapid rate there seems to be no increase in the stocks held at prominent points. As fast as the grain reaches the seaboard it is loaded into vessels and vanishes. The Granger roads—Burlington, St. Paul, Rock Island, Northwestern and Omaha—are so glutted with business as to find it difficult to find cars in which to move the grain offered for transportation. All of the trunk lines and the roads running to Gulf ports are jammed with business.

According to advices from portions of Europe, where the wheat crop has been either a partial or entire failure, the demand to be made upon this country to supply the deficiency will exceed 200,000,000 bushels. The heavy buying by foreigners has been the mainspring in the upward movement. Should such an enormous amount go abroad the supply for consumption here will be curtailed.

It is a dream of the farmer and the trader that wheat at a dollar a bushel shall be realized again. Experts in the grain trade predict that before the winter is half over the price will exceed that. A continuance of the present heavy export demand, it is believed, will make that hope a reality.

The market yesterday reflected all these conditions. Favorable advices from home and abroad sent the brokers early to the Produce Exchange, where an exciting opening was looked for. It was not disappointing. At the sound of the gong for the beginning of business the wheat pit was in an uproar. Both the September and December options made new high records. September opened 1-4c higher, at 88 3-4c, and in the first half hour advanced 1c per bushel, at 89 3-4c, closing at 89 5-8c.

December opened with simultaneous quotations ranging from 87 1-4c to 87 1-2c, the extreme price being an advance of 3-8c from last night's closing. It then sold up to 89 3-4c, and closed at 88 5-8c, a net gain of 1 1-2c per bushel.

A PREACHER'S STORY.

Like Other Mortals He Fell a Victim to Disease—Dr. Agnew's Catarrhal Powder was the Agent Which Restored Him to Health and He Gladly Allows His Name to be Used in Telling it That Others May be Benefitted Too.

Rev. Chas. E. Whitcombe, rector of St. Matthew's Episcopal church and principal of St. Matthew's church school, Hamilton, was a great sufferer. Dr. Agnew's Catarrhal Powder cured him and he now proclaims to the world that as a safe, simple and certain cure it has no equal. It never fails to relieve catarrh in ten minutes, and cures permanently. Sold by H. S. Macdonald.

Where London Goes on Holidays.

Here is a table of figures which shows at a glance where some of London, at all events, went yesterday. It is mainly compiled from official returns:

Hampstead heath	100,000
Greenwich park	80,000
River trips	60,000
Hurst park races	40,000
Cricket at Lord's	25,000
Cricket at Leyton	10,000
Seaside, etc. (southeastern)	72,624
Southend-on-Sea, etc. (L. T. and S.)	23,700
Volunteers leaving town	5,000
South Kensington museum	8,324
Hampton court	7,000
Kew gardens	7,000
Richmond	7,000
Windsor, etc. (Great Western)	7,250
Earl's Court exhibition	80,000
Highgate woods	30,000
The Tower	19,050
Bank Holiday at Wood-green	11,000
Catford sports	4,000
Romford athletic meeting	3,000
Stamford hill athletic meeting	6,000

Wise Men Know

It is folly to build upon a poor foundation, either in architecture or in health. A foundation of sand is insecure, and to deaden symptoms by narcotics or nerve compounds is equally dangerous and deceptive. The true way to build up health is to make your blood pure, rich and nourishing by taking Hood's Sarsaparilla.

Hood's Pills act easily and promptly on the liver and bowels. Cure sick headache.

Baby was Cured.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of diarrhœa after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. HOTT,
Barlow, Ont.

Get your books bound at the EXAMINER Office.

CASTORIA.

For Infants and Children.

Bears the Fac-simile Signature of Chas. H. Fletcher. In Use Over Thirty Years.

Let Your Charity be Bright and Attractive.

The inmates of charitable institutions and our deserving town and city poor are with us at all times.

Many of us yearly send the poor our cast off and half-worn garments, such as dresses, jackets, capes, skirts, coats, vests, and pants. By this work hundreds of half-clad people are made warm and comfortable, and are enabled to appear on the streets.

In this work of charity, many donors are making their gifts bright and attractive by the use of Diamond Dyes. The old garments are dyed some suitable colour and look quite as well as new ones.

New and fresh colours add to the joys and pleasures of the poor, and the garments do not have the appearance of cold charity.

This work of brightening up old and faded clothes is done at a trifling cost with the Diamond Dyes. Think of this special work, dear ladies, when your bundle of clothing is being prepared for the poor. One packet of Diamond Dyes, costing ten cents, will add wonderfully to the value of your donation.

AN OLD MURDERER HANGED.

He Was a Drunkard and a Vagabond But Did Not Die Young.

Baltimore, Md., Aug. 13.—Peter Monahan, 74 years old, was hanged here at 9.56 o'clock this morning for the murder of his wife. The crime was committed on May 25, 1897. Monahan, who was 74 years old, was a confirmed drunkard and vagabond, who lived on the proceeds of his wife's labor and spent most of his time in jail serving short-time sentences for petty offences. The couple had several grown children, but none of them lived at home, and Mrs. Monahan eeked a living for both at the washtub. Quarrels between them were frequent and on the day of the murder Monahan appeared after two days' absence from home and demanded money. The demand was refused, whereupon he went outside to the woodyard, procured an ax, and, returning, attacked his aged wife. The first blow is thought to have knocked her senseless. A young woman who lived with the Monahans came into the room just as this happened and found Monahan raining blows with the weapon upon the head of his wife. Monahan fled, but was captured a few hours later.

AT STITTSVILLE!

The Town's Leading Merchant Laid Up.

Rheumatism in various forms is one of the most common diseases there is. It arises generally from impure blood and a broken down system. In the limbs it is painful; in most of the internal organs dangerous, and in the heart usually fatal.

The experience of Mr. S. Mann, the well known general merchant of Stittsville, is interesting:

"Last winter I was badly afflicted with rheumatism. I decided to try Dr. Chase's Pills. To my surprise, I got immediate relief, and before I had used one box my affliction was gone.

"I was also troubled with biliousness for years, and at intervals of three or four weeks would be laid up with a severe headache and sick stomach. Since using Chase's Pills I have not had an attack of either.

"I may add that Dr. Chase's Ointment for piles and skin diseases is just as effective as Dr. Chase's Pills for blood troubles. I have a clerk who suffered terribly from bleeding piles. He tried Chase's Ointment and in a few days was completely cured."

All dealers and Edmanson, Bates & Co., manufacturers, Toronto. 25c.

Chase's Linseed and Turpentine for colds, *bronchitis* and *consumption*. Sure cure, 25 cents.

Cancer can be Cured.

For six years I suffered from cancer, and got no relief until I used Burdock Blood Bitters. I used seven bottles faithfully, when the cancer gradually dried up and finally disappeared. I am now entirely well and rejoice that by using B. B. B. I have escaped death either from the surgeon's knife or from the cancer itself.

In St. Andrew's To-morrow.

The Rev. J. J. Brown, of Ossington, Ave, Toronto, will preach in St. Andrew's both morning and evening. The Rev. Mr. Potter, who is spending his holidays among his former congregation in Toronto, will return next week.

A.O.F. Attend Service.

The Ancient Order of Foresters will celebrate their anniversary and have their annual church parade to-morrow evening (Sunday, Aug. 15th,) by marching to the Mark street Methodist church, at 7 o'clock. The Rev. James E. Moore, the newly installed minister, will preach the sermon and conduct the service. The centre of the church has been reserved for the Foresters. Excellent music, floral decorations, etc. Come early and get a seat.

St. Luke's Church, Ashburnham.

The work of painting the nave of St. Luke's church has been completed by Mr. Cocks, and it now presents a very bright and effective appearance. Services will be held in the church to-morrow, when Rev. B. C. H. Andrews, of Holy Trinity Church, Toronto, will preach in the morning. In the evening Rev. H. Symonds will continue his course of sermons on the book of Ecclesiastes, and the choir will render special music appropriate to the occasion.

The Last August Excursion.

Those who have stayed at home and let others of the family enjoy an occasional outing can now make up for it by arranging to go the trip to Stony Lake on Thursday, Sept. 23th, by G.T.R and steamer Sunbeam. The route will include a tour of the lakes, stopping at all interesting places. Train and boat will leave on regular time. Arrangements have been made for an excellent dinner at Morgan's Hotel, McCracken's Landing, for 25c per dinner. Round trip tickets, Peterborough and return, 75 cents. The excursion is under the auspices of George street Sunday school, and it is hoped the friends will turn out and patronize the event. Bring baskets as usual if you prefer. Keep the date in mind. 1d

"WHEN THIEVES FALL OUT."

The Hoboes Have a fight Amongst Themselves Over Near the Canal.

A bloody affray took place amongst the colony of tramps on Burnham's Point Thursday evening, as the result of which one of the party was thrown into the canal after being brutally beaten and robbed of fourteen dollars.

Yesterday the man called, at Mr. Goodenough's on James street and asked to be given some linen with which to bandage his bruises. His face was a sight to behold, having been kicked and tramped upon until every inch of it was in a raw and pulpy state. One ear had been nearly chewed off and his nose resembled a piece of gum stuck on the wall. Two of his fingers were broken and he complained greatly of internal pains.

His story was that he was on the tramp in search of work, of course, and fell in with three others of a like ilk at the Point. They all chipped in and purchased a keg of lager in the afternoon and drank it down near the mouth of the canal. In the evening a bottle of whiskey was purchased and also disposed of.

When contributing towards the purchase of these refreshments he made too careless a display of money, as shortly afterwards he was set upon by the other three and brutally beaten as well as robbed. There is little doubt but that the man was thrown into the canal to hide the crime, if possible, but the cold water revived him. Mrs. Goodenough states that his appearance was such as to create an impression which she will not soon forget.

NORTH END STATION.

An Arrangement Should be Made to Accommodate the Fourth Warders.

As the summer traffic on the Lakefield branch of the G. T. R. increases, the need becomes more apparent every day of an uptown station in the vicinity of Smith street, for the accommodation of the residents in the northern part of the town.

A large number of the cottagers at Stony Lake, as well as those who patronize the "round trip excursion" live in the fourth ward, and in consequence are put to considerable trouble in having to go down town to take the train, and on their way home are, in many cases, taken directly past their own doors, to be landed at the station, a mile away.

The expense of erecting a small platform would be small, and as the train moves very slowly in passing through the town, the loss of time by stoppage would be slight.

A PECULIAR CASE.

The Police Magistrate Hears Some Funny Evidence This Morning.

A peculiar case was up in the police court this morning when the housekeeper of a well known citizen charged him with assaulting her.

Mr. E. B. Stone appeared for the defense adducing evidence which showed that the housekeeper had hidden the key on the old gentleman and had also kept the potato pounder in her hand and had threatened to knock his brains out. When discharged she refused to leave the house unless she was given fifty dollars more than was due to her. The affair was so mixed up that the case was dismissed.

THANKS FROM AFRICA.

Brothers of the Late George Crowe Express Their Appreciation of the Kindness Shown Him.

The Lady Superintendent of the Nicholls Hospital has just received the subjoined letter from the brothers of the late George Crowe, thanking her and the staff for the kindness shown the deceased :

JOHANNESBURG, July 12th, 1897.

To the Lady Superintendent of the Nicholls Hospital :

DEAR MADAM,—News having reached us today of the death of our brother, George Crowe, we wish to thank you and your staff for the attention shown him and for the patience and kindness with which he was treated while an inmate of the above institution. Trusting that you will thank the members of your staff for us, we are, dear madam,

Yours truly,
C. J. and W. H. CROWE.

Robertson's Mixed Floor and House Paints still lead all other makes in giving perfect satisfaction. They are never sticky, nor do they peel off, but dry hard, bright and glossy. If they require thinning use only the oil sold by the agents. Poor oil, as well as poor paints, never dry satisfactorily and will not wear. Robertson's Paints that were used two years ago, look better to-day than other paints used this year. 2aw-w

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2 75, and at the latter city the great summer sports are in full swing.

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fane makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

EXAMINATION RESULTS.

The Names of the Successful Second Form Candidates.

The second form examinations in the Peterborough Collegiate Institute resulted as upended as published in to-day's Globe :

Form II—F L Beer, J L Bolin, W T Brooks, H G Burnham, J M Cameron, W D Campbell, H Creba, A Doris, (honours) B Fitzgerald, (honours) A L Fitzgerald, C A Hall, J W Kelly, (honours), M Kennedy, S McDonald, V G McFadden, C E Sisson (honours), F C S Turner (honours), M E Twomey, A S VanEvery (honours), R McBurney. Part I—Form II—A Dinsdale, A Fisher, T J Soucie. Part I., without physics—E Apelbee, A Beatty, M Edgar M A English, H V Finnie, A H Frowde, S A Kelly, M Kennedy, M J McDonnell, H C Milburn, K Moloney, Janet Weir. Physics only—J H Beer, A H Bennett, P H Clark, H Huffman, L A Potvin.

MANAGERIAL CHANGES.

Mr. R. E. Wood Receives an Important Appointment.

At the last meeting of the Board of Directors of the Central Canada Loan & Savings Company Mr. F. G. Cox was appointed Second Vice-President, after having resigned the position of Manager of the company, to which Mr. R. E. Wood was then appointed. Mr. Cox is thus freeing himself from his more active connection with the Central Canada in order to be able to devote his undivided energies to the development of the Imperial Life Assurance Company, of which he is Managing Director, and which recently made so striking an entry into the insurance world. Mr. Wood has been Secretary of the Central Canad for severs' years, and is one of the best loan company officers in the province.—Toronto Globe.

YESTERDAY'S BALL GAME.

The Never-sweats Run up Against the Oriental Hotel Team.

(BY A NEVERSWEAT).

The game played yesterday on the P. A. A. A. grounds between the Orientals and the so-called Neversweats, simply beggars description. It was replete with errors, hard hitting and eccentric base running. In the earlier part of the game it looked all the Orientals way, but by hard work, coupled with a case of rattles on the hotel team's part, the Neversweats pulled up even in the 7th innings. In the 8th the Orientals had a lead again, when a row occurred, and the Neversweats refused to play, so they did not have their half of the innings.

So many remarkable plays were made it is only possible to mention a few of the most prominent: Scuddy Phelan's hit in the 5th innings was a corker, and when he reached second and overran the base so justly earned, and turned to walk back with his manly chest filled with satisfaction, and was touched and declared out, the look of pleasure faded into one of complete discomfiture as he ambled off the field a sadder and also a wiser man. Rickey at third put up really a great game, fielding, hitting and running. Dave Elliott at 1st also covered his bag with credit to himself, while Bennett (who by the way is a fine cricketer) stopped everything that came his way, but got tangled up in throwing to the bases, generally trying to place the ball in the water bucket, which was constantly on the move and in running bases was the star of the outfit. Felcher's attempt at a fly in the 8th was a magnificent effort, though the ball narrowly missed hitting the top of his head. The rest of both aggregations did the best they could. The teams lined up as follows :

Orientals.		*Neversweats.*
R Thorne	pitcher	Doc Pitcher
C G. Sham	catcher	Ed Cassidy
R Hay	1st b	Martin Connors
W Goulding	2nd b	Dave Elliott
T McDonough	3rd b	Bruce Rickey
A Henry	l f	Walter Phelan
Joe Barry	c f	Lem Felcher
A Graham	s s	W Bennett
W Scott	r f	Herb Snowden

Of Mr. Smith, the umpire, it must be said, though he, like all others in similar positions, made mistakes, he gave no decision unless he honestly thought it right, and did not in any sense deserve the abuse he received. The game was for fun only and should have been devoid of all unseemly conduct.

ANOTHER ACCOUNT OF THE GAME.

Thorne's pitching was one of the features of the game. He struck out about fifteen men of the Never Sweats. The The Oriental tried to spring a surprise by putting the chef of the hotel in the box when they had a good lead, but their opponents got on to his curves and pounded him in good style. Dr. Pitcher's arm began to tire out and the Never Sweats left the field in the middle of the eighth innings on a close decision of the umpire. The coaching of Tom McDonough was much admired. The kicking of both teams helped to make fun for the crowd. A return match will be played on Tuesday.

SIR LOUIS DAVIES' TESTIMONY.

Wm. McCabe, Esq., Managing Director North American Life Assurance Company, Toronto :

DEAR SIR,—In acknowledging receipt of your favour of the 21st inst., enclosing cheque for $1,921 42, representing the profits on my $5,000 twenty-year endowment Policy up to the 5th inst., permit me to express my satisfaction at what is a very excellent result. Having had the risk on my life carried during the fifteen years the Policy has been in force, my present receipt of about fifty-three per cent. of my money, as a dividend, with the policy still continued, or my having the option, as you tell me I have, of taking in cash $5,136.92, while my Policy yet lacks five years of reaching its maturity, demonstrates a capacity for good management on the part of your Company with which I think your Policy-holders should be well pleased

When I became connected with the North American fifteen years ago, I did so mainly on account of my old and true friend, Hon. Alexander Mackenzie, being president, for I knew that in any institution with which he would thus actively associate himself, there must be both a firm foundation and co-workers whose principles and skill would give safe and efficient management. It affords me pleasure to say that the settlement you are now making with me justifies that estimate and expectation.

Having taken only my surplus, I will continue my policy till its maturity.

Faithfully yours,
L. H. DAVIES.

Office of Minister of Marine and Fisheries.
Ottawa, Ont., Nov. 23, 1896.
J. W. Garvin, District Manager.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—A "d. and d." was fined $2 this morning in the police court.

—A special meeting of the council is called for Monday night.

—White frost was noticed on low-lying ground by early risers yesterday morning.

—Mr. Michael Costello appeared upon H. Calcutt's delivery wagon this morning with a happy smile on his face. It is a boy.

—Two dollars and $3.40 costs is what it cost the young man who raised a disturbance in the City Hotel last Saturday evening.

—Sherbourne street Methodist church, Toronto, again heads the list of missionary givings for Canada, with the contribution of $4,066.

—During the storm on Tuesday Mr. John C. Wildman's barn in Asphodel was struck by lightning, but the building was not damaged to any extent.

—The peach crop in the Niagara district is said to be an immense one this year. Lower prices will accordingly rule for this fruit than usual.

—The Grand Trunk have again introduced the pay car system of paying their employees. The cheque system, after a fair trial, has been discarded.

—The Young People's Society of the Park street church will hold a lawn social on the grounds of Mr. T. G. Gillespie, Lock street, Monday evening, Aug 16th.

—The case in which a well known young man of the town is charged with the theft of a sum of money from D. Doig has been enlarged in the police court until Wednesday.

—Col. Paterson, of Stouffville, found a plain gold ring bearing a Masonic emblem on the occasion of the recent excursion from that place to Bobcaygeon, and is seeking an owner.

—If there is no ordinance which permits the arrest of the bicycler who tries the dangerous trick of being towed beside a carriage or street car, it is an omission that should be attended to.

—The discriminating Governor of the Choctaw Indians has reprieved a condemned murderer in order to let him play one last game of baseball for the honour of his tribe. After this who shall disputs the qualifications of the Indians for American citizenship?

—If advertising does not pay why is it that the Youth's Companion gets over $900 a year for one-inch space each issue? How is it that the Ladies' Home Journal $4,000 for a page ad? Why do four advertisers pay $6,000 each for a quarter page ad. on the back cover in Munsey's Magazine? Are advertisers throwing money away like this, or does it really pay them?

—The threshing season is now about on, and owners of steam threshers should see that their smoke stack is properly protected by screens, as called for by law. Any thresher who neglects this precaution is liable to a heavy fine and imprisonment. Farmers are also warned not to allow a traction engine to be hitched on to a cleaner in their barn, as this is a violation of the conditions laid down in all insurance policies.

—We have taken upon ourselves this week, without legal authority, to abolish the use of the apostrophe as far as possible for one week's effort. This step has been taken after consulting many educationalists, who agree with us that the apostrophe serves no real purpose, and is considerable trouble to put up in type so often. We are free to admit, however, that our effort to abolish the apostrophe is purely an experiment. A little experience will settle the matter one way or the other. —Whitby Chronicle.

PERSONAL.

Mrs. T. H. Best left for Trenton at noon to-day.

Dr. Harrison was up from Keene this morning.

Mr. Dickson Hall came down from the Lakes last night.

Mr. Richard Hall went back to his Stony Lake cottage to-day.

The Misses M. and A. McCabe are visiting friends in Lindsay.

Miss Bessie Connal came in from Beachink last evening.

Mr. Percy Might is visiting at Mrs. Jas. McLachlan's, Norwood.

Miss Hazel Armstrong is in Lindsay visiting her uncle, Mr. Robt. Hunter.

Mr. J. R Stratton, M.P.P., is spending a few days at his Stony Lake cottage.

Mrs. (Dr.) Moher is home again after spending a pleasant week at Stony Lake.

Mr. J. D. Craig and family, and Mr. Geo. Bennett, went back to Stony Lake to-day to the latter's cottage.

Mrs. Edmison, of Omaha, Nebraska, is in town on a visit to her neice, Mrs. David Allison, Water street.

Miss Davidson and Miss Florence Davidson have returned home after a pleasant visit to Stony Lake.

Mr. and Mrs. Robert J. Fife are back in town again after spending a couple of weeks at McCracken's.

Mr. Pendry of Millbrook was in town this morning, and went down the river during the afternoon.

Mr. Harry Hunter, of Millbrook, passed through last night on his way home after spending a few weeks at the Lakes.

Mr. Charles H. Clark, of the Clark Novelty Co., Rochester, went back to Mr. Breeze's cottage at the lakes, to day.

Rev. W. L. Armitage, of St. John's church, has returned after spending his holidays in London and Kincardine.

Mrs. Donald Gunn and Miss Barrett of Belleville, who have been visiting friends in town, returned home this morning.

Mr. Wm. Hayden of Waubaushene, formerly G. T. R. agent here, was in town yesterday renewing old acquaintances.

Miss Ada Melville, daughter of Mr. A. H. Melville, town, who has been visiting friends in Lindsay, has returned home.

Mr. Walter Cluxton, of Montreal, was in town to-day. He has been spending his holidays at Fairy Lake Villa, Stony Lake.

Miss Annie Fitzpatrick, of West Ops, has returned home after a pleasant visit with Mrs. A. J. Gough, Homewood avenue.

Mr. and Mrs. R. E. Ward of Toronto, passed through last evening on their way to visit Mr. Dawson Kennedy, the latter's father, in Otonabee.

Mrs. D. W. Dumble and her daughter, Mrs. Johnson, are in for a day or two from "Ballyraggit," their Stony Lake residence.

Judge Macdougall, of Toronto, who is stopping at Fairy Lake Villa, caught 18 bass yesterday in about 2 hours. One measured over 16 inches long.

Miss Maggie Horner, of Rat Portage, accompanied by Miss Balsdon, arrived this morning per C.P.R., and are the guests of Mr. Thos. H. Horner, London street.

Miss Dora McCarrahan, Toronto, who has been visiting at Mrs. Dr. Laing's, Gilmour street, and Mrs. C. Londericks, Brock street, returned to the city this morning.

Rev. Mr. McMillan, of Lindsay will occupy the pulpit of St. Paul's church tomorrow, both morning and evening, and will also teach the Bible class in the afternoon.

Rev. Dr. Torrance, of St. Paul's church, returned last evening after a month's holiday, spent with old Montreal friends at Cacouna and Metis, on the lower St. Lawrence.

Mr. J. W. Fry, says the Norwood Register, who has been working for the Peterborough Music Company, is rusticating for a few days. He reports sales of pianos, organs and sewing machines lively.

Miss May Winter, daughter of Rev. D. Winter, of the Western Methodist church, Ottawa, passed through this morning on her way home, after spending a few weeks with friends in Millbrook.

Mr. Roy Zimmerman left yesterday to visit friends in Cobourg, but met them coming to Peterborough, and returned with them.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

The earnings of the G.T.R. for the week ending August 7th are $447,287, as against $434,353 for 1896, showing an increase of $12,934.

The management of the Grand Trunk Railways have made arrangements with Messrs. Robert Redford & Co., agents of the Thomson Steamship Line to increase their service between Portland Me., and London, Eng., from a fortnightly to a weekly service during what is known as the Portland season of navigation. Last winter the Grand Trunk was greatly hampered by lack of space for the freight which went to Portland by their line for shipment abroad. It is to prevent a recurrence of that trouble that the abovementioned arrangement has been made. With the improvement in trade and the anticipated good crops, the management look forward to a big winter's business by the Portland route. Their elevator has been built with that in view, and their wharfage and terminal facilities have been extended. The six steamers of the Thomas Line will have the privilege of calling at Newcastle and Leith.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

Word was received to-day from Secretary Vance of the C.L.A., that Peterborough is ordered to play off in the semi-finals against Stouffville, the first game to be played in Peterborough on Friday next, and the return match in Stouffville on the following Friday. Arrangements will try and be made whereby the Peterborough match can be played on Thursday next (Civic Holiday) instead of on Friday. It will be a great game. Stouffville won from Markham yesterday in Toronto by 3 goals to 2, and tied the Tecumsehs earlier in the season. With a game like this in view no one should leave town on the Civic Holiday.

THE WHEEL.

Toronto Saturday Night in a recent issue contained the following, which will be interesting to local wheelmen:

The road race at Kingston on the forenoon of civic holiday, when contrasted with the track races of the afternoon, once again demonstrated the fact that the only really interesting bicycle race is the one that occurs right on the turnpike. The track events were managed just as well as usual: the track itself proved to be better than strangers had been led to expect, yet in point of interest the dozen events of the afternoon did not at all compare with the one big event in the morning. The reason is plain. In a road race, especially a handicap, with prizes for position and also for time, the riders are induced to try their best right from start to finish. Sometimes men merely enter to be of assistance to others at points along the road, yet this does not quite constitute an evil. On the track however there are all kinds of tricks. In a five mile event the race does not begin until the last lap is reached, and so it, the three mile, two mile, and one mile events might just as well be single lap races with flying starts. Practically they are nothing else, unless in cases where novices are concerned. The novice races at Kingston where the only ones worth seeing, with now and then a rather smart finish by the professionals and the senior amateurs.

The professionals at Kingston were Cecil Elliott, T. B. McCarthy, Angus McLeod, Chris. Greatrix, Harley Davidson and Roy Miller. Nothing more absurd than the exhibition they put up can well be imagined. There was not the faintest gleam of sport in their performances from beginning to end. Possibly the rule requiring the half mile to be done in 1.12 was a little strict, in view of the fact that the half mile was the first race of the day on a track that looked less secure than it proved to be, yet what are we to think of professionals who do the half mile in 1.14 and again in 1.15? These riders are not sportsmen at all, but the "hired men" of bicycle factories, and the consequence which they attach to themselves is quite absurd. Three of the six are in the employ of one bicycle firm, and the other three are scattered. It is claimed that three Gendron riders work together, Greatrix and Elliott helping McCarthy to win. It is further claimed that Harley Davidson always "hogs" it and will never, under any circumstances, set the pace, but hangs close behind the others to make a spurt at the finish. It is known that Angus McLeod, when under the impression that he has been unfairly treated, will assault the offender in the dressing room. At Kingston, Elliott seemed to jockey McLeod and allowed McCarthy to win; then McLeod assaulted Elliott. Davidson persistently refused to set the pace and always held himself ready to shoot in at the finish. The whole outfit of professional riders made a holy show of themselves, and it was the widespread opinion among those present that the meet would have been cleaner and more satisfactory if these gentry had been excluded. The never-ending disagreement between Harley Davidson and T. B. McCarthy is spoiling the whole 'graft' of professionalism and the sooner there is a rule adopted prohibiting the holding of meets at which there are both amateur and professional events the better.

When every professional rider plays the game with the utmost fairness a bicycle race is tame enough, but when the riders have swelled heads and refuse to ride for this reason, the thing becomes exasperating. The Kingston people should have hissed the professionals off the track on Monday. Track officials had to humour the men as though they were spoiled babies, and put up with all kinds of abuse. Whenever professionals are appearing at a meet an Association officer should be sent to the track to referee the professional events, and he should have full power to arbitrarily settle all points of dispute that may arise, and to order a man off the track, or to even suspend him for a month for a fake riding and insubordination. When three thousand people pay admission to see races those races should take place, and there should be an official on hand to discipline refractory professionals who, otherwise, may go all over a circuit, bluffing and quarrelling and doing every conceivable thing but racing.

These six men should not deceive themselves. If they kick around a little they will find that the beach is fairly lined with pebbles. Bicycling is comparatively a new thing, but I have seen at least two crops of riders just as "great" as they are, bud, ripen and wither away. In two years more these six riders will probably be back numbers, and some of the novices of to-day will be smashing records and making triumphal tours from town to town, basking to the full of their transient fame. Professional riders, therefore, who think that the earth will always sag over to one side when they go near the edge, are bound to find out their mistake, and the realization of it is very cruel. The cheers are for the winner, whoever he is. I have the best interests of bicycling in view, and I warn the handful of professionals that they are spoiling the whole game. Moreover, men who intend to do something else when they are no longer able to make a good living by racing, should enquire: Where are the racers who were detested by all the others five years ago? Where are the square fellows who were liked even by those they outrode? The square fellows are doing well—their popularity is still of value to them—they occupy good situations.

CRICKET.

The Lindsay Post says: It will interest our readers to know that the Lindsay cricketers are making a determined effort to induce the Chicago Wanderers' cricket team to visit Lindsay during their approaching tour of Canada. They have made a date with the Parkdale, Toronto, club, and it is considered likely that they will consent to come. If so, our citizens will have an opportunity of witnessing a grand game of cricket.

Now what is the matter with the local club trying to arrange to have the Chicago club come to Peterborough as well.

Dr. Chase Cures Backache.

Kidney trouble generally begins with a single pain in the back, and in time developes into Bright's Disease. People troubled with stricture, impediments, stoppage of water, or a frequent desire to urinate at night, will find Dr. Chase's Kidney-Liver Pills a blessing. Read the wonderful cures in another column. One pill is a dose, and if taken every other night will positively cure kidney trouble.

CHURCH CHIMES.

ST. PETER'S CATHEDRAL—At St. Peter's Cathedral, Roman Catholic, there will be three masses celebrated—at 8 a.m.; children's mass 9.15, low mass 10.30. Vespers at 7 p. m.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—450 George Street.

Dr. FOWLER'S EXT. OF WILD STRAWBERRY

BABY WAS CURED.

DEAR SIRS,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of diarrhœa after all other means failed, so I give it great praise. It is excellent for all bowel complaints.

MRS. CHAS. BOTT, Harlow, Ont.

THE HEAD MASTER

GENTLEMEN,—I have found great satisfaction in the use of Dr. Fowler's Extract of Wild Strawberry, and consider it invaluable in all cases of diarrhœa and summer complaint. It is a pleasure to me to recommend it to the public.

R. B. MASTERTON, Principal,
High School, River Charlo, N.B.

ALL IN A TANGLE.

The Dingley Tariff Has Caused Officials of the United States Customs a Heap of Trouble.

Washington, D. C., Aug. 12.—The point has been raised that all cargoes brought to this country in English bottoms, except such as come from the British possessions in Europe, are subject to the discriminating duty of 10 per cent. By far the greater part of the imports of this country come in English ships, and of this part all except such as come from Great Britain and Ireland, Gibraltar, Malta and Cyprus would be subject to this duty.

On enquiry at the Treasury Department, it was explained that the discriminating duty could not be levied on goods imported directly into the United States in British vessels from countries not British. A special exemption is made in the tariff law concerning such cases. A treaty with Great Britain gives British vessels the right to bring goods from non-British countries to this country, but goods brought in vessels of countries not having such treaty privileges from other foreign ports are apparently prohibited, under penalty of forfeiture, except in certain cases, from landing dutiable articles in America.

Unless the Treasury Department can be brought to modify its construction of the tariff law in respect to the duty on stone imported for Government use, one of the largest engineering works now in progress in this country, the construction of the Buffalo breakwater, will be brought to an absolute standstill. The War Department made a contract with Hughes Bros. & Bangs for the construction of this work, and under the contract the Government was to take the stone from the Canadian quarries across the lake and lay it down at the breakwater. The Treasury Department had been first consulted and held that this could be done without incurring any duty. Now, however, just as the work is starting, the collector at Buffalo has notified the War Department of this, that he must assess duty on the stone and refuse to admit it until the duty is paid. The difficulty is that the engineers have no money to pay this duty, and so the work must stop, unless the Treasury officials relent. The stoppage would involve serious loss to the Government, for the contractors, who have their laborers and plant on the ground, ready to carry out their contract, might secure heavy damages for demurrage.

Gen. Wilson, Chief of Engineers, has referred the subject again to the Treasury, with several propositions to meet the case. It is estimated that the duties that the Government must pay itself on the stone would amount to between a quarter and a half million of dollars, according to the construction given to the Tariff Act by the Treasury Department.

As to Retaliation.

Montreal, Aug. 12. — Mr. G. M. Bosworth, freight traffic manager of the Canadian Pacific Railway, said to-day that the Canadian Pacific would be quite satisfied to confine its operations to its strictly Canadian business, provided the Dominion took retaliatory measures in kind with the United States, and reserved the Canadian business exclusively for the Canadian roads.

Mr. George B. Reeve, general traffic manager of the Grand Trunk Railway system, thought that retaliatory legislation on the part of Canada would scarcely help the matter. The Grand Trunk would get its share of what benefits might accrue from the restriction of the carrying trade on Canadian soil to Canadian roads. Considerable quantities of goods for Ontario points are received at the ports of Boston and New York, and now enter Canada in United States cars.

Ministers are Watching.

Ottawa, Aug. 12.—The Ministers in town are watching with great interest the proposal by the United States to place a 10 per cent. duty on goods passing through another country in bond. The prevailing impression is that the person who will suffer most will be the American middleman. It would be a heavy blow at the tea trade from Japan.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula or consumption. "That," he will tell you, "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a ball. 25c, 50c. and $1.00.

NEWS FROM OTTAWA

How France Stands Under the Reciprocal Clauses.

INSTRUCTIONS TO COLLECTORS.

Refunds Will be Allowed by the Government on Certain Conditions, Where Charges Have Been Excessive—A Mining and Smelting Syndicate Personal and General.

Ottawa, Aug. 12.—The following is the text of the circular being issued to the collectors of customs respecting France and the preferential tariff:

"You are hereby instructed that the benefits of the reciprocal tariff of Canada under 'the Customs Tariff, 1897,' extends to the following countries until the first day of August, 1898, viz.: To France, Algeria and the French colonies. Until the first day of August, 1898, articles which are the growth of any of the said countries, when imported direct therefrom, may be entered for duty or taken out of warehouse for consumption in Canada at the reduced rates of duty provided in the reciprocal tariff set forth in schedule D of the customs tariff, 1897, subject to the limitations therein contained, and to the regulations made with regard thereto.

"The excess of duty paid since the 22nd day of April, 1897, on articles imported as aforesaid from the countries hereinbefore mentioned will be refunded, if the claim therefor with satisfactory proof of the origin and value of such articles, and of their direct importation, is made in the usual form through the collector of customs at the port where such duty was paid.

"Nothing in the foregoing instructions shall be held as affecting the right to enter articles under the French Treaty Act of 1894. But any article entered at a reduced rate under the said Treaty Act shall not be entitled to a further reduction of duty under the provisions of the reciprocal tariff."

It is understood that the circular is sent out in response to the expressed wish of collectors at some of the ports.

Messrs. Isdro Uhagon, engineer of the largest smelter in Madrid, the house of Tigaro Lustra, of Madrid; Leopold Meyer, engineer, of Brussels, Belgium, and Charles L. Meyer of New York, were introduced to Hon. Clifford Sifton this morning by Major James Sutherland, M. P., and Mr. Pousette, M. P. These gentlemen have formed a company and have been prospecting in Canada. They are about to close a bargain for some mines on Calumet Island, in the County of Pontiac, and will erect smelters and manufacture near the mines.

Rev. Mr. Cote of Rockland, who was educated for the priesthood, left the church, and is now conducting services in the Baptist Church of that village. The way in which he has been attacking the Catholics has created an agitation, and serious trouble is apprehended. The Baptist Chapel is mightly surrounded by several hundred French-Canadians. Mr. W. C. Edwards, M. P., called a meeting of the citizens at the Town Hall last evening, and addressed them at length in conciliatory terms, showing that while offence had been given by the preacher, he was protected by British law in free speech, and he hoped the people would maintain their good name as peaceable citizens, and pay no attention to the meetings. Mr. Edwards' address was in English and French, and it is considered very timely, as the agitation was increasing every hour, and there was sure to be a serious outbreak last night, but fortunately this was averted, as the people dispersed quietly and went to their homes. Mr. Edwards' prompt and thoughtful action is very much appreciated and favorably commented upon by the people in general.

It is stated that a number of properties on Besserer-street in the rear of the present Canada Atlantic Railway station, have changed hands or will do so in a few days. In this connection, it is rumored that the C. P. R. Company are at the bottom of the purchase, and are determined to gain an entrance to the centre of the city. The coming of Mr Spencer to the city and the establishment of the head office of the Eastern Division here adds strength to the rumor.

A man's coat and vest were found floating in the aqueduct near the pump house here to-day, and it is feared that some one has committed suicide.

Hon. J. I. Tarte left last evening for Montreal, whence he will go to Kingston and Goderich.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

HIS NAME IN THE DICTIONARY.

Captain Boycott Became Famous Through a Labor War.

Captain Boycott, who died the other day at his residence at Flixton, near Bungay, Suffolk, was the agent for Hugh Adair and other Irish landlords who became famous during the land war of the early eighties. It was

CAPTAIN BOYCOTT.

during his residence at Lough Mask, County Mayo, that the term "boycotting" originated, when, in the course of his duties, he had to serve notices on some of the tenantry. Laborers refused to work for him, traders would not supply his wants, and everything, apart from actual violence, was done by the natives to drive him out of the country. Himself a landlord, he was driven to great straits, and his wife and he had to do their farming themselves. Then, however, the Ulster men came to the rescue and did the whole of the work for them. Captain Boycott outlived the prejudice against him, and became popular even with his former enemies. A few years ago he removed to Suffolk. He leaves a widow, but no children.

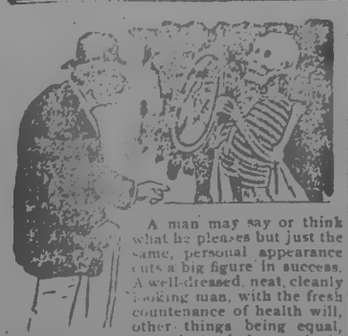
A. STEVENSON, Secretary.



A man may say or think what he pleases but just the same, personal appearance cuts a big figure in success. A well-dressed, neat, cleanly looking man, with the fresh countenance of health will, other things being equal, outstrip the man who isn't wholesome-looking. Many men imagine that hard work—"hustling" they call it—counts for everything. In the long run the easy-going man who takes time to think of his health and his personal appearance outstrips the reckless, neglectful "hustler." Many men are held back in the struggle of life by their personal appearance. Through neglect of the digestion their blood gets full of impurities and humors which show themselves on the face and body in the shape of skin affections, blotches, eruptions, eczema and scrofula.

Dr. Pierce's Golden Medical Discovery drives all impurities from the blood and cures all forms of skin affections. It is the great blood purifier, liver invigorator and flesh builder. It corrects all disorders of the digestion. Thousands have testified to its merits. Druggists sell it.

Wm. Smothers, Esq., of Millston, Jackson, Co., Wis., writes: "I wish to say that Dr. Pierce's Golden Medical Discovery is the best medicine for the grip that I have ever tried."

"Health is the best endowment" and a health-preserver the best investment. Dr. Pierce's Common Sense Medical Adviser teaches women how to take care of the health of every member of the family. It saves doctor's bills. It contains 1008 pages, over 300 illustrations. Several chapters are devoted to the reproductive physiology of women and diseases that unfit young women for wifehood and young wives for motherhood. For paper-covered copy, send 21 one-cent stamps, to cover the cost of mailing and customs *only*, to the World's Dispensary Medical Association, Buffalo, N. Y. For fine cloth binding, send 50 stamps.

TORONTO MARKETS

Flour—The tone of the market is firmer, with demand good. Sales of straight rollers at $3.75 to $3.80.

Bran—The market is dull at $8 west for bran and $9 for shorts. Bran is quoted here at $10.

Wheat—The market is fairly active and higher. Sales of new red winter were made to-day at 75c to 76c west and of new white at 77c west. Old white will bring 80c west. No. 1 Manitoba hard is quoted at 88c afloat Fort William. This means 91c to 92c Goderich and Owen Sound. No. 2 hard 86c to 90c Goderich or Owen Sound.

Buckwheat—The demand is limited and prices nominal.

Barley—The market is quiet, with no business reported.

Oats—The market is quiet, with demand fair. White quoted at 22c to 23c west and mixed at 21½c to 22c.

Peas—The market is quiet and prices rule firm. Quotations 44c to 45c west.

Oatmeal—The market is quiet and prices steady at $3.10 to $3.20 for cars on track.

Corn—The demand is fair and prices steady, there being sales outside at 27c to 27½c.

Rye—The market is firmer, with sales outside at 38c west for new.

TORONTO LIVE STOCK MARKET.

Twenty-two carloads of live stock arrived on the market yesterday, composed of 362 cattle, 535 sheep and lambs, 25 calves and 400 hogs.

Prices remained about the same as on Tuesday last for all kinds of stock. Export cattle sold from $4 to $4.50.

J. Dunn bought 21 cattle from J. Hamilton, weighing 1325 lbs. each, at $58 per head.

William Johnson sold to J. Dunn 6 export steers, averaging 1145 lbs. each, at $4.40 per cwt. J. Dunn also bought 10 head of choice export cattle, weighing 1238 lbs. each, at $4.37½ per cwt., and 6 steers, weighing 1093 lbs. each, at $4.30 per cwt.

Butchers' cattle, choice, were worth from $3.25 to $3.75 per cwt., the latter price being for picked lots.

Mr. Zeagman sold 1 carload of butchers', averaging 1000 lbs. each, at $3.25 per cwt.

S. Halligan bought 1 carload of butchers', cows and heifers, weighing 1100 each, at $3.12½ per cwt. Another mixed load sold for $3.30 per cwt.

Some of the milk cows that were on the market on Tuesday were left over, and they with 6 others were again offered, and prices were all the way from $15 to $30. Choice milkers would bring $35 each, and are wanted at that money.

Stockers, weighing from 550 to 600 lbs., are worth $2.85 to $3 per cwt.

H. Maybee bought 10 light feeders, weighing 900 lbs. each, at $3.25 per cwt.; also 36 stockers, averaging 575 lbs. each, at $2.90 per cwt. J. Steel bought 34 stockers, weighing 725 lbs. each, at $2.90 per cwt. for the Buffalo market.

T. Crawford, M.L.A., was also purchasing stockers or light feeders, paying all the way from $3 to $3.40 per cwt.

The prices for sheep are unchanged.

C. Zeagman sold 1 single deck of sheep at $3.50 per cwt. off cars, and 1 single deck of hogs at $6 per cwt.

BRITISH MARKETS.

Liverpool, Aug. 12.—No. 1 Northern wheat, 7s 2d to 7s 3d; No. 1 Cal., 7s 3d to 7s 3½d; red wheat, 7s 1d to 7s 2d; peas, 4s 6d; corn, 2s 11¾d; pork, 46s 3d for fine western; lard, 22s 6d; bacon, heavy, l.c., 28s 0d; do., light, 27s 6d; do., short cut, 27s 0d; tallow, 18s 0d; cheese 41s.

London—Wheat off coast rather firmer, on passage sellers an advance of 1s. English country markets firm. Maize on passage rather firmer.

Paris—Wheat 27f 70c for Sept.; flour 57f 80c for Sept. French country markets generally dearer.

Liverpool—Spot wheat firm; futures firm at 7s 1d for Aug.; 6s 10d for Sept. and 6s 8¾d for Oct. and Dec. Maize quiet at 3s for Sept., 3s 0¾d for Oct. and 3s 2¼d for Dec. Flour 22s 0d.

London Close—Wheat off coast rather firmer. Maize on passage quiet and steady.

Paris Close—Wheat firm at 27f 80c for Sept.; flour strong at 50f 25c for Sept.

Liverpool—Close: Wheat futures higher at 6s 10⅝d for Sept. and 6s 8¾d for Oct. and Dec.

LAXA-LIVER PILLS

CURE

BILIOUSNESS
CONSTIPATION
SICK HEADACHE
AND ALL LIVER TROUBLES

As a laxative, one pill acts perfectly, and if a stronger action is desired a cathartic effect is produced by two pills. In obstinate cases, where a purgative is necessary, three pills will be found sufficient. These pills leave no unpleasant after effect.

One pill taken each night during thirty days will cure constipation.

PRICE 25C. OR 5 FOR $1.00

CHILDREN AND SOCIAL DISTINCTIONS

Their Difficulties Among the Conventions of Life.

Children are susceptible to many pains which we escape as our knowledge increases. To them the fact that the friend who sat all winter at an adjoining desk without suggesting great differences in condition is, on a first appearance before an admiring public, able to suddenly outshine them in splendor, arouses a pain all the more bitter because in its origin it is misunderstood. The laws of cause and effect—so much study and so much gain, so much application and so many good marks—have been those by which they have been guided in the schoolroom, by which they have been taught to measure their everyday progress. But here on a platform, where the fruits of all their labors are supposed to be displayed, where for the first time the world is admitted in judgment—here for the first time certain superiorities which, so far as these children can see, bear no relation whatever either to individual excellence or endeavor, and which, though arbitrary and seemingly artificial, are as subtle and powerful in their influence as those which owe their origin to virtue.

It takes us who are older a long time to get our bearings among the signals of social discrepancies. What wonder then that a child should sometimes flounder in the effort? The boy understands the pain of the effort as well as the girl, though he will not often confess it until he has a boy of his own to guard. Then, and then only, he confesses what were some of these agonies of his youth.

One cannot but applaud the wisdom and tact of these public school teachers. The problem they are trying to solve is a difficult one, and cannot be easily settled. For the rules they make for commencement day, judicious as they are, are not the rules which the scholar can profitably carry into the rest of life, unless there goes with them an understanding of principles involved—the principles of taste, for instance, of general fitness, which is but another word for the same thing, and of modesty and kindly consideration.

For the requirements of life vary with varying conditions, and one is as stupid not to obey them as one in vain in obtruding individual advantages. Not to dress properly for a great function is as vulgar as to overdress for a small one. And defiance of convention and taste is often but another form of expression chosen by a spirit that is vain. For the vanity of opinion is as subtle in its sugestions for display as the vanity of person.

It is a difficult task to make the young understand fine distinctions. To teach them well-established ways of doing things—of eating, walking, moving, for instance—when their own ways, or those of an injudicious acquaintance are preferred; to so train them in the uses of fine appointments that they are at home amon gthem, and so cease to be self-conscious or awkward in their presence; to instill into them a sense of proprieties without which they are in danger of being vulgar—to do these things, and while doing them to help cultivate in the mind of the child a consideration having a touch of condescension in it for those who have not had the same advantages—to do all this requires an ability, a delicacy and refinement, to which we all owe all honor.

For children at times are terrible snobs—worse than grown-up people. A little girl in a carriage on her way to dancing school last winter saw a friend, also going to dancing school, get into a stage. "I don't think I ought to dance with her any more," said the child in the carriage to her mother. "She goes to dances in omnibuses." "You will go that way yourself for the rest of the winter," the very wise mother remarked. And at great inconvenience to herself she made the child go in stages for the rest of the year.—Harper's Bazar.

GOOD WOMAN—BAD HEART.

When could the Life of a Loved one be more Uncertain than when Attacked by Heart Disease?—If you have a hint of it have Dr. Agnew's Cure for the Heart Always at hand - It is the Only Remedy which can Relieve you in 30 minures and cure you Permanently.

"This is to certify that my wife has been a sufferer from heart disease for over twenty years. After having tried doctors and remedies innumerable without benefit I procured two bottles of Dr. Agnew's Cure for the Heart, and she has received more benefit from it than from all the doctors and all the cures used heretofore. I am pleased to certify to the excellence of this wonderful remedy.

"AARON NICHOLS,
Peterborough, Smith Tp,"

Effective Flounces.

Skirts flounced from the hem to the waist with ruffles shaped so that they require no gathers and edged with narrow cream lace are decidedly the latest fancy, and are especially effective in glace silk.

How They Took It.

The Thespian swelled his chest out with an air of importance.

"Did you notice how the audience took my performance last night?" he asked.

"Yes," was the prompt reply of the brother actor, "like a pill."—Chicago Post.

A Vacuum.

Jimfitz not being present, one remarked. "It is a hard thing to say of a man, but I don't think Jimfitz has any great mental capacity.

"The capacity is there right enough," said the other, "but there is nothing to fill it."—Indianapolis Journal.

The confidence of the people in Hood's Sarsaparilla is due to its unequalled record of wonderful cures.

Pleasant, Sure and Quick.

GENTLEMEN,—I am pleased to recommend your Laxa Liver Pills for constipation, dyspepsia and sick headache. I have used them for those troubles, and find them a pleasant, sure and quick cure, free from the annoying griping of other pills I have heretofore used.

Signed, H. JAMES,
St. Nicholas Hotel, Hamilton, Ont.

Captain Sweeney, U. S. A., San Diego Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 359 George Street.

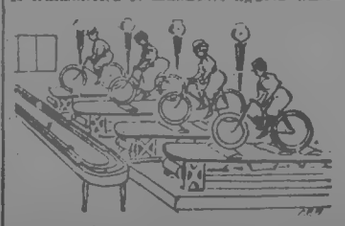
Sick headache and constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

CASTORIA.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

A Novel Bicycle Race.

The genius of the French people has done away with the necessity of an actual track—man's size—for bicycle racing. Several women bicyclists can discover which of their number is the fastest by an ingenious mechanism on the wheel. The speed of their wheels is transmitted to miniature figures which



FRENCH WOMEN RACING ON WHEELS

run around a track. Thus the women can race and yet watch themselves race at the same time. If they ease up, then the figures do likewise. This form of amusement bids fair to become very popular. There will yet be bicycle racing parties in one's own house.

A WELL-KNOWN WOODSTOCK MAN CURED.

Woodstock, Ont., May 2nd, 1896

This is to certify that I, James Ross, toll-gate-keeper, of the Town of Woodstock, Ont., have been a suffer from Indigestion and a very weak stomach for a number of years, and have tried a great many medicines of different kinds, but could only obtain temporary relief for a short time, but after using one bottle of SLOAN'S INDIAN TONIC I could perceive a great difference. My Indigestion was better and my stomach was much stronger than before, and I found I had gained several pounds in flesh, where I was very weak and thin in flesh before. I think I used nine or ten bottles in all, and I am now a healthy man, but still I do not want to be without the medicine in the house, and I procure one or two bottles every year, and I can truthfully recommend SLOAN'S INDIAN TONIC to others suffering from the same complaints.

JAMES ROSS, toll-gate-keeper.

Price $1,6 for $5. All Druggists or from Laboratory.

Send for Printed proof of Cures; Free by Mail.

IT PAYS TO ADVERTISE IN THE EXAMINER

THE STEAMER

"North Star"

—:o:—

DAILY TRIPS TO IDYL WYLD.

The "North Star" makes daily trips to Idyl Wyld and return, leaving C.P.R. Wharf at 9 a.m., calling at Gore's Landing and Harwood, arriving at Idyl Wyld at 12.30. Return fare, including dinner at Idyl Wyld, only 50 cents.

On Saturday the steamer leaves Peterborough at 2 p.m., and on arrival at Idyl Wyld supper is included. Returning the steamer will leave at 4.30, arriving at Peterborough at 7.30.

On WEDNESDAYS and FRIDAYS the steamer will take the excursionists to witness the SERPENTINE MOUNDS on Rouche's Point, Rice Lake, free of charge. These remarkable evidences of the pre-historic occupation of the country by a people far ante-dating the Indian, will form one of the most interesting attractions of the "North Star" Idyl Wyld trips.

B. M. EDEN, Master.

W. BUNTON, G.T.R. Ticket Agent, Peterborough. Telephone 2.8.

THE NEW

STEAMER SUNBEAM

Will run until further notice from Lakefield to Stony Lake every Monday, Thursday and Saturday, on the arrival of the 7. p.m. train from Peterborough.

On Wednesdays the Sunbeam will run a trip from Lakefield to Chemong, leaving Lakefield on the arrival of the 9 a.m. train. Returning will leave Chemong at 8.30 on Thursday morning, arriving in Lakefield to connect with the 4.14 p.m. train.

In connection with these round trips, Busses will leave Chemong on arrival of boat, on Wednesday evening; and on Thursday morning will leave Post Office corner, Peterborough, at 7.30 for Chemong, connecting with boat for Lakefield. For particulars, apply at R. H. Leary's Livery Office, 385 Water Street.

On all other days the Sunbeam will be open for charter for excursions, &c., at reasonable rates.

This fast, new steamer has been specially built to accommodate tourists and excursionists on the beautiful chain of waters of Chemong, Buckhorn, Lovesick, Stony, Clear and Katchewanooka Lakes, and will be found to combine in the highest degree safety, comfort and speed.

Tickets can be procured from W. BUNTON, City Agent, G. T. R.

For further particulars apply to

WHITE & GRYLLS,
Lakefield, Ont.
Or WARREN TRICKEY, Agent Peterborough

THE NEW STEAMER

MAJESTIC

Will meet the G. T. R afternoon train at Lakefield from Monday, Aug. 2nd to Saturday, 7th, and each alternate week during the season. Other weeks will connect with the morning train.

Special Saturday night trips.

Special rates for families and for season.

Rooms may be secured in advance by letter or telegram. Address Idyl Wyld, Harwood, P. O.

TERRIBLE HUMOR

A Little Boy's Sufferings. Covered with Sores and Raw from Scratching. Cured by Cuticura.

About eighteen months ago my baby boy (now three years old) broke out with horrible sores all over his body, which tortured him night and day. He would scratch to such an extent, that his face and such parts of his body that he could reach with his hands were almost raw from scratching. After being under treatment by doctors for three months the child got worse, and there seemed nothing that would relieve him.

He had wasted away to a mere skeleton, from want of sleep. A Mr. J. G. Ahern, of the Gate City Loan Co., who happened to call at our residence, was attracted by the fearful screams of the child, and asked if he might see him. He was brought in, and upon seeing him, Mr. Ahern said, that "while it was the worst case he had ever seen, he felt satisfied that it could be speedily cured by the use of the CUTICURA REMEDIES." I finally consented to try them, purchasing the CUTICURA SOAP, CUTICURA ointment, and CUTICURA RESOLVENT, and used them according to directions. Before we had been using them three weeks, we noticed a decided change for the better, the itching began to subside and a healing process had set in. *In seven weeks from the time we began with* CUTICURA REMEDIES, *my little one was completely cured*, and without a sign of the trouble left. It is over a year since he has been cured; there has been no return of the trouble, and the little man is now fat and hearty, with a beautiful, clear skin.

MRS. L. M. RENFRE, 158 Mills St., Atlanta, Ga.

Sworn to before Jos. F. Anthony, N. P., Atlanta, Ga., Aug. 25, 1896.

MOVEMENTS OF VICE-ROYALTY.

Their Excellencies Will be in Toronto on the 18th General News Notes From the Capital.

Ottawa, Aug. 13. - His Excellency Lord Aberdeen will, according to a private message received here, leave Stanley House, New Richmond, for Ottawa on Saturday. On his way to the capital he will meet the Countess of Aberdeen, who, with their children, is due to arrive at New York from England on Saturday. Her Excellency had wished to return to Canada by one of the Canadian steamship lines, but, owing to the large demand for accommodation in connection with the meeting of the British Association, every place in the Parisian, which arrived this week, had been taken at an unusually early date.

Their Excellencies go to Toronto for the meeting of the British Association on the 18th, arriving there on or about that date.

Sir Malcolm Fraser, Agent-General in London for Western Australia, is in the city. Sir Malcolm is a grandson of Capt. Fraser, who fought with Wolfe at the siege of Quebec. While visiting the Lachine Rapids on his way from Montreal Sir Malcolm met another Fraser, also a descendant of the Captain. This Fraser at Lachine is living on the land originally granted to the Fraser family after the close of the war. Sir Malcolm Fraser was once Deputy Governor of Western Australia.

A report comes from Montreal that the evidence against Warden Ouimet of the St. Vincent de Paul Penitentiary in connection with the purchase of supplies for that institution is of such a character as to necessitate his dismissal.

It is not likely that Premier Hardy's scheme of shutting out American shantymen from working in Canadian lumber camps will affect this district. From what can be learned from the Chaudiere lumbermen, their employes are solely Canadian. It is in the Georgian Bay district principally that Americans are employed, and in consequence this is where the new regulations will be felt. A few of the Chaudiere lumbermen, however, express themselves in favor of Premier Hardy's proposal.

Quebec, Que., Aug. 13.—The steamer Parisian arrived here this evening, having on board a large number of the delegates to the British Scientific Convention to be held in Toronto. Among them are Lord Lister and Sir William Turner, both of whom will spend to-morrow in Quebec as guests of Sir James Lemoine, at his country seat, Spencer Grange. The bulk of the members will proceed to Montreal on board of the steamer, which proceeds early in the morning. Amongst others who arrived by the Parisian are the Lord Bishop of Quebec and Mrs. Dunn, the Bishop of Algoma and the Bishop of Qu'Appelle and Mrs. Grisdale and daughters.

A new circular letter re "Direct importation of goods" under section 17 of the customs tariff, 1897, and section 98 of Customs Act, has been issued. It reads: "Immediate transportation" papers are required to be furnished to collectors in presenting entries of goods which are claimed to have passed through another country "in transitu." For instance, goods landed in New York or Boston for Ottawa should be furnished with such a document, "Immediate transportation certificate," signed by the collector of customs at New York or Boston. The above certificate will be proof that the goods sent through the United States were not entered "for warehouse" or to remain in any country intermediate for any purpose. Otherwise the goods shall not be treated as goods imported "in transitu" through such intermediate country, but shall be treated as goods imported from such intermediate country, and be valued and rated for duty accordingly.

The Stickeen River is in Canadian territory, with the exception of a few miles at the mouth, which is in Alaska, according to the boundary claimed by the United States, but which has not yet been finally settled.

"I have just been reading the new American tariff," said a high authority on custom matters this morning, "and I find it fearfully and wonderfully made, evidently especially intended to damage us. Well, it will only be as effective as the denunciation of the Reciprocity Treaty some twenty odd years ago, that was going to smash Canadian trade utterly, but it did not. The trade was bothered for a little, and then found new channels, so it will be now."

Hon. R. W. Scott to-day received from Washington an excellent official map of Alaska, showing the Yukon district. The map prepared by the United States authorities places the whole gold field well within Canadian territory.

The Great Bernhardt

Stands at the Head of Her Profession.

She Speaks About Paine's Celery Compound.

The immortal "Sarah" provokes enthusiasm, admiration and curiosity wherever she appears before the public, and has never had an equal in the history of the stage.

Sarah Bernhardt fully appreciates the immense advantages of health and strength for one in her profession, and no one knows better than she how essential to artistic success is a vigorous nervous system.

Hard and conscientious work in all matters pertaining to her profession has at various times left her weak and nervous; but when friends prevailed upon her to use Paine's Celery Compound, she realized that she had found a blessing—a strengthener and invigorator that she cannot praise too highly. She writes as follows:

"I beg leave to state that, according to your instructions, I have used Paine's Celery Compound and I am convinced that it is the most powerful nerve strengthener that can be found. It is with the greatest pleasure that I send you my sincere testimonial."

To remove worms of all kinds from children or adults, Dr. Low's Worm Syrup is a safe and sure remedy.

BASEBALL RECORD.

Only one game was played in the Eastern League yesterday, Buffalo beating Montreal by the smallest possible margin.

BUFFALO BY ONE RUN.

At Buffalo-Montreal lost the last of the series by a close score. The locals in the first and third innings made enough runs to almost decide the game. After that time McFarland held them down in good shape. Brown also pitched a good game. Joyner's home run was a feature. Score:

	R.	H.	E.
Buffalo	2	6	3
Montreal	1	6	3

NATIONAL LEAGUE.

At Washington—The Senators won in spite of glaring errors, because the visitors could not hit Swain, while Payne was steady. Attendance 1000. Score:

	R.	H.	E.
Washington	7	12	5
Brooklyn	4	13	3

Batteries—Swain and McGuire; Payne and A. Smith.

At New York—The Giants won the game from start to finish by heavy batting, fast fielding and good base running. Meekin was in fine form, and was never in danger. Klobedanz was easy, and two-base hits by the Giants were numerous. Long, at short, was way off in his play, four errors being charged to him. McCarthy, the ex-Louisville pitcher, played in right field, and, in his splendid game, won the hearts of the spectators. Cook also played a fine game, his running catch of Tenney's hot liner and the stopping of Hamilton's swift grass cutter being the features. Score:

	R.	H.	E.
New York	11	15	1
Boston	6	12	5

Batteries—Sullivan and Warner; Klobedanz and Bergen.

At Philadelphia—Nops pitched strictly gilt-edged ball, and the champions accorded him faultless support. In the face of this combination, the Phillies were never in the hunt. They managed to avert a shut-out in the last innings by a scratch double to right by Slagart and a solid two-bagger by Nash. Score:

	R.	H.	E.
Philadelphia	1	6	3
Baltimore	8	17	0

Batteries—Field and McFarland; Nops and Clarke.

At Cincinnati—The game between the Reds and the Colts was one of the best played this season. Griffith, the Colts' crack pitcher, kept the Reds' hits well scattered, and succeeded in shutting them out. Score:

	R.	H.	E.
Cincinnati	6	6	2
Chicago	2	9	2

Batteries—Rhines and Peltz; Griffith and Kittridge.

At Cleveland—The Clevelands won a very closely and evenly contested game, chiefly through bunching of hits. Pickering's batting and Cross' all-round work were the features. Turner was hit a terrific blow squarely in the back of the head with a swift-pitched ball in the third inning and had to be carried away. It was a very painful injury, and may result seriously, though he is up and about this evening. Score:

	R.	H.	E.
Cleveland	6	13	1
St. Louis	5	12	0

Batteries—Wilson and Zimmer; Hart and Murphy.

LEAFS BEAT LONDON.

Guelph, Aug. 13. Guelph downed the London team here this afternoon. The Leafs tried another new pitcher—Kid Jordan, an ex-National Leaguer. He showed up well and held the leaders down to five hits. Both teams put up fine fielding games, Cockman made a home run in the ninth. Score:

	R.	H.	E.
London	3	7	3
Guelph	4	6	2

Batteries—Kershaw and Reid; Jordan and Moore. Umpire—Frank Snyder.

What Tommy Said

Uncle John—Well, what do you mean to be when you get to be a man?

Little Tommy (promptly)—A doctor, like pa.

Uncle John (quizzically)—Indeed; and which do you intend to be, an allopath or homeopath?

Little Tommy—I don't know what them awful big words mean, Uncle John; but that don't make no difference, 'cause I ain't goin' to be either of 'em. I'm just goin' to be a family doctor an' give all my patients Hood's Sarsaparilla, 'cause my pa says that if he is a doctor, he's 'bliged to own up that Hood's Sasaparilla is the best family medicine he ever saw in his life.

Shiloh's Cure

Men's White and Fancy Duck Vests, single breasted, double cotton back pearl button, regular price $1 00 to $1 50, Gratton & Co's Summer Clearing Sale Price 50c. See them.

ANDREE AND HIS BALLOON.

He May Not be Heard From for a Year, So His Relatives Say.

Chicago, Aug. 13.—Capt. John Windrow of San Francisco does not believe the story that Prof. Andree's balloon was seen floating in the ocean by a ship's captain. The Captain has just returned from Sweden, where he visited his relatives among whom is the family of Prof. Andree's brother. The Captain said: "I was in Stockholm when the news arrived that Andree had left Spitzbergen in his balloon. His people, that is his brother as Andree is not married, fully believe that he will be heard from. Andree himself told them that if no news were received from him in two months, probably nothing would be heard of him for a year, as he would have then landed in such localities that it would take months for him and his party to reach a point where they could communicate with the outside world.

"My own belief is that Andree has struck a southwest wind, as those are the winds that almost nearly prevail at that time of year in the northern latitudes and that he has been carried into Siberia, and it may be months before he will be heard from."

MAUD KILLED JENNIE

And Then in Her Mad Excitement Went and Shot Herself Dead.

Montpelier, O., Aug. 13. Maud Young, aged 16, and Jennie Meyers, aged 18, were visiting with Mrs. Jane Lock. They were in a side room talking and laughing when a report of a shot was heard. Mrs. Lock, Maud ran out and excitedly exclaimed "I have killed Jennie." Jennie had been shot in the head and is not expected to live. Maud rushed back into the room and shot herself, and died in an hour. They were close friends and expected to attend a party together this evening.

Powderly Watching for the Reds.

New York, Aug. 12.—United States Commissioner-General of Immigration Powderly has cabled to United States Consuls in Europe, especially those in Spain, France, Italy and Germany, requesting them to keep a sharp lookout for Anarchists and grants to America and to notify him by cablegram when any of them embark for the United States. They will be deported as fast as they arrive.

The Best Advertisements.

Many thousands of unsolicited letters have reached the manufacturers of Scott's Emulsion from those cured through its use of Consumption and Scrofulous diseases none can speak so confidently of its merits as those who have tested it.

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and colds.

Klondike! Klondike!

DOUBTLESS you have heard of the great wealth of the Klondike region—alluring to so many, accessible to so few. What the people want are Cut Rates, Quick and Easy Transit. We are arranging a

Hatters' Klondike Excursion

You-Kon start at once and stake your claim—the choice lots will go quick. Rare Nuggets on every hand. No salted mines here. You can strike pay gravel "in a minnit." Everything pans out just as represented. Big hunks of Pure Gold that will be the talk of the town. Everybody will want to share your find. Don't fail to come—there's lots of room and a hearty welcome for all. Let us quote you rates for a complete head outfit:—

$1.25 buys a Fur Felt Picked Fedora.

$1.25 buys the latest style, Nutria & Brown, Fur Fedora

$2.25 buys the New Fall Stiff Hat—just introduced in New York 1st August—choice of lot.

25c buys a Fine Dressy Straw Hat, sold for 75c and $1

And all Summer Goods to be sold at just ½ price. Now is the time to make a strike. Yours for wealth,

FAIRWEATHER & Co

HATTERS AND FURRIERS.

Camps, Pic-nics, Summer Cottages,

Supplied with every necessary. Goods carefully packed and shipped with care to any part of the country.

Groceries, Provisions, Canned Goods, Wines, Ales, Liquors and Cigars.

FARMERS, COUNTRY STORES and HOTELS, buying large supplies, liberally dealt with.

Cash paid for Fresh Butter, Eggs and other Farm Produce.

M. L. HENRY & CO.

Opposite the Opera House, George Street.

A GREAT BIG BROAD-GUAGE BUILDING SALE

Serious Disturbance to Business.

On next Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

THIS MONTH we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—BECAUSE WE HAVE TO.

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

In the general overhauling, there will be brought to light, accumulations of Odd Suits, Odd Lengths, small quantities and Remnants, throughout the various departments which will be let go at prices to dispose of quickly.

Come and hear the Prices Snap and don't forget that we stand ready to return your money without question if you are dissatisfied with your Bargains.

GOUGH BROS. THE WONDERFUL CHEAP MEN, 375 and 379 George Street.

SOME OF THE BIGGEST CHANCES OF THE YEAR.

The month of August brings with it some of the biggest chances of the year. The approach of the fall season beginning in September has to be provided for considerably in advance. Making room is a perplexing problem, and many extraordinary sacrifices of really good lines have to be made. Be wise in time. These are—

REMNANT DAYS....

Every Remnant in stock, placed on tables and an entire clearance must be made. Lengths from 1½ to 10 yards, in Silk, Black and Coloured Dress Goods, Linens, Cottons, Prints, Flannels, Cretonnes, Linings, Straw Hats, Ribbons, Laces, Embroideries, etc., all reduced, equal to ONE HALF THEIR FORMER PRICES. Don't miss this this snap

—AT—

MISS RUDKINS'

CRYSTAL BLOCK—NEXT LONG'S STORE.

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c. Remember the address—

MRS. ORR WAS KILLED

A Dark Tragedy Brought to Light Near Galt.

WAS EVIDENTLY BEATEN TO DEATH.

Her Body Was Hurriedly Buried in a Corn Field, Where it Was Found by Searchers Yesterday Morning—No Doubt It Was a Foul Murder Two Arrests.

Galt, Ont., Aug. 15.—The mystery of the disappearance of Mrs. Anthony Orr of North Dumfries, about three miles from Galt, was cleared up about 11 o'clock this morning by the finding of her body, badly decomposed, in a shallow grave in a corn patch, within 25 yards of the house.

The deceased woman mysteriously disappeared on Monday morning last, and at the same time a shot gun was missing which she was supposed to have taken with her, with the evident intention of committing suicide, but why she should do so was not known, as her domestic relations were of the best.

Although diligent search was made for the missing woman, no trace of her was found until this morning, when a search party was formed with the intention of making a thorough search. The party were not long out when one of the number, while walking between two rows of corn, in the rear of the house, noticed a slight excavation in the ground. On closer investigation it was seen that the soil had been recently disturbed, and the discoverer drew the attention of others of the party to the fact. Removing some of the soil with a stick they came on the body of the unfortunate woman. The grave was not two feet deep and looked as if it had been hastily made, and the body even more hastily buried, being only covered with a few inches of earth.

The body presented a fearful sight. The head and shoulders were badly battered, as if done with some blunt instrument.

It is evident that the crime is one of premeditated murder, as everything points that way. The intention of the murderers must have been to bury the body of their victim in the freshly-made grave found dug in the swamp about 300 yards from the house. But a probable disturbance in their work caused a change in their plans.

The body was removed to a shed, where a jury empanelled by Coroner Radford, viewed it and adjourned until Wednesday at 1 o'clock in the council chambers at Galt, when the result of the post-mortem will be given.

What the motive for the murder could have been is a mystery. Two arrests have already been made, a young man named Allison, who was employed on the farm, and a medical student named Trehearon, who resides in Galt. The former has been interviewed several times and it was evident that he knew more than he cared to tell.

The gun was found hidden in the barn, but it had not been used and was evidently taken with the object of throwing suspicion from the guilty parties.

Mr. Orr, who, during the past week has been in terrible suspense, was somewhat relieved when the true state of affairs was made known and many kind friends and neighbors are with him to comfort him in every way possible.

Besides the husband there are a daughter and son left.

The scene of the tragedy was visited by hundreds from Galt and the surrounding country. This afternoon there was a continual stream of curious people heading in that direction from the time the finding of the body was known until evening.

BIG BLAZE AT BURK'S FALLS.

Harvie's Lumber and Lath Mill Goes Up in Smoke—Loss $10 000.

Burk's Falls, Aug. 15.—About 3 o'clock this morning there was discovered by Charles Train from the window of the electric light power house a small blaze across the stream, at the juncture of the slush chain with J. T. Harvie's lumber and lath mill, situated on the south bank of the river, immediately below the falls. The fire was evidently ignited from a spark from the burner, from which the wind was blowing directly towards the mill. At the time of its discovery by Train a pail of water would have been sufficient to quench the flames, but although only seventy-five or a hundred feet distant he was unable to reach the spot short of half a mile tramp across by the road bridge, which afforded him the only means of approach. He promptly alarmed Charles Israel, within a stone's throw of the spot. In the meantime the flames had leaped from pillar to post, until their dazzling glare alarmed the tannery engineer on duty, who promptly blew the tannery whistle, followed in close succession by that of Knight Bros.' factory, but before any help arrived all hopes of saving the mill were abandoned. In the meantime the tannery men, with all on that side of the river, devoted their energies to the protection of the electric light power house, John Bell's sash and door factory and W. H. Train's private residence, all three of which are on the opposite bank of the stream, in close proximity to the burning structure. The heat was so intense as to melt the glass in the window of the power house across the stream, and but for the persistent efforts of the tannery men and others the building and electric light plant would have been ruined. Before many minutes had passed the roof of the mill fell in with a crash. Loss $10,000; partly insured.

ROBBED HIS FRIEND.

Herbert Cutting Took D. McClure's Money, but Was Arrested and Gave Up.

Weston, Aug. 15.—Herbert Cutting, formerly of Guelph, whose parents live in Eramosa Township, was arrested here today on a charge of stealing $15 from D. McClure, night operator of the G.T.R. at Weston. Cutting came to Town a few days ago, and obtained work at the Moffit Stove Works. Being an old acquaintance of McClure's, as a kindness he took him to his boarding house Saturday night. They went to church together in the morning, and on returning the operator retired to rest, while his friend, on finding him asleep, entered the room, searched his pockets and took the liberty of dipping up. Cutting at first denied the charge, but shortly afterwards gave up the money, which he had hidden in his bed.

HUNDREDS LEAVE VICTORIA B.C.

The C.P.R. Steamer Islander and the Big Collier Bristol Carry Their Loads to the North.

Victoria, B. C., Aug. 15.—There were in Victoria this morning close upon 1000 men of every class and from every part of the world who were wildly anxious to get started on the long trip to the new eldorado. These men had tickets, which carry them to Skagway Bay on the big collier Bristol, or on the steamer Islander, both of which sa d to-day. The Bristol has been tied with bunks and stalls for horses, from the bottom of her hold to the top of her cabin deck, and every bunk and stall is occupied, close upon 500 men going on the Bristol, and just as many horses and mules. Even the big collier is filled up, the feed for these animals and the outfits for the men taking up an immense amount of space.

The Islander has just as big a crowd, but much of the space on her is taken up by a contingent of Mounted Police, their horses, dogs and outfits. They realize that they have a winter's trip before them before they reach Dawson City and are taking dogs and sleighs.

Horses will be taken as far as possible and when they are of no more use will be killed and used as food for the dogs. A few of the men are going up with the idea of buying cheap outfits from men who became discouraged and are turning back, but most of them are well provided and all are taking pack animals, they having in this respect taken the advice of men who went before and have written of the difficulty of securing animals or Indians to pack goods across the Pass.

W. W. E. Canovan of Ottawa, who was a member of the Canadian Boundary Survey, in which capacity he learned much about Alaska, left on the Islander. Mr. Canovan is going to look over the ground for the Klondike Placer Mining and Prospecting Company of Brantford, and Paris, Ont. This company proposes to send a large party in the spring to prospect and work claims in the Canadian Yukon.

Hamilton Men Gone.

Hamilton, Aug. 14.—(Special.)—The C. P. R. station was crowded at 11.40 on Saturday morning with the friends of E. Harris, A. W. Complin, J. E. Devine, W. Richmond and W. K. Patterson, the five Hamiltonians who have made up their minds to get a share of the Klondike gold. A good deal of baggage went aboard and a lot of bacon, flour, etc., will be added at Edmonton. The adventurers were in the best of spirits, but a number of their lady friends took the trip more seriously and used their handkerchiefs freely.

NEW USE FOR X RAYS.

Contraband Rolled Up in Clothing Are Very Readily Detected.

London, Aug. 15.—The X rays inspection is now in full working order in France. Formerly only about a third of the trunks and parcels were examined. Now all are shadowed on the screen at the railroad stations, and the examination is far more rapid than by the old method. Cigars, cigarets and other contraband rolled up in clothing are readily discovered.

Elevator Sickness.

Physicians have discovered a new and distinctly modern ailment which they call elevator sickness. It is asserted by reputable medical men that the large increase in the number of brain fever and nervous disorders is due in no insignificant degree to the extension of the elevator system. Most people feel a sensation as if they were falling when going down in a rapidly moving "lift," and the constant repetition of this seemingly slight dizziness induces chronic headache or other nerve disorder and even leads to brain fever in some instances. Those who habitually ride up and down six or eight stories two or three times a day almost inevitably become a prey to some kind of nervous trouble.

THAT DUEL IS OVER.

And Prince Henri of Orleans Was Vanquished

BADLY WOUNDED IN THE ABDOMEN.

The Count of Turin Was His Antagonist and the Fight Took Place Yesterday Morning Swords Were Used and the Battle Was Full of Ferocity.

Paris, Aug. 15.—The Count of Turin and Prince Henri of Orleans fought a duel with swords at 5 o'clock this morning in the Bois de Marechaux Vaucresson. M. Leontieff acted as umpire. The fighting was most determined, and lasted 26 minutes. There were five engagements, of which two were at close quarters. Prince Henri received two serious wounds in the right shoulder and the right side of the abdomen. The Count of Turin was wounded in the right hand. Prince Henri was taken to the residence of the Duc de Chartres and received medical attendance.

The condition of Prince Henri of Orleans is as satisfactory this evening as could be expected. The doctors, after consultation, have expressed the opinion that no important organ was touched, but absolute rest is necessary for recovery.

Owing to rumors at Naples and elsewhere the public had not expected the duel to come off. It was, therefore, quite private.

The official account, furnished by the seconds, recites fully the circumstances leading up to the encounter:

The Count of Turin, considering the letters of Prince Henri of Orleans to The Figaro, offensive to the Italian army, wrote him on July 6 demanding a retraction. This letter could not be answered until Aug. 11, the day of the arrival of Prince Henri in France. The Prince replied to the Count's demand by telegram, maintaining the right of a traveler to record his experience.

The official account then describes the arrangements for the duel, gives the names of the respective seconds, and says that the encounter was inevitable.

By common accord, the conditions were settled as follows.

The weapon to be the dueling sword; each combatant to use that of his own country, but the blades to be of equal length; either combatant to be at liberty to maintain the ground he gains, and each to be allowed the space of 15 metres within which to advance or retire; each assault to continue four minutes; the combat to be resumed in the positions occupied, and only to terminate on the decision of the four seconds or the advice of the doctor when one of the adversaries is manifestly in a state of inferiority; the conduct of the meeting to be entrusted alternately to the two parties, lots being drawn at commencement.

This latter feature of the arrangement was due to the formal objection of the seconds of Prince Henri of Orleans to the direction of the encounter by a fifth party. At a later meeting yesterday the seconds decided upon the rendezvous.

The process-verbal then proceeds to describe the encounter. It says that in the first assault Prince Henri was touched in the right breast, though the weapon did not penetrate beyond the subcutaneous cellular tissue. On the strength of the report of the doctors the seconds decided that the combat must go on.

The second assault was stopped because the combatants came into close quarters.

In the third assault the Count of Turin was hit in the back of the right hand, but the weapon did not penetrate beyond the subcutaneous cellular tissue.

In the fourth assault the umpire, Major Leontieff, declared that the sword of Prince Henri was bent, and stopped the engagement long enough to furnish His Royal Highness with a new weapon.

In the fifth assault the combatants again got into close quarters, and were immediately stopped. Prince Henri, in a counter blow being hit in the right lower region of the abdomen. The doctors on both sides examined the wound and declared that Prince Henri was rendered by it clearly inferior to his antagonist.

Major Leontieff and M. Mourichon proposed that the combat be stopped and this was done by common accord.

While his wound was being dressed, Prince Henri, raising himself upon the ground, extended his hand to the Count of Turin, saying:

"Allow me, Monseigneur, to shake hands with you."

The Count extended his hand.

The physicians present were Dr. Toupet and Dr. Hartman on behalf of Prince Henri and Dr. Carle on behalf of the Count of Turin. This account of the fighting was signed by the seconds.

The details of the duel show that the encounter was very sharp and determined. Immediately on the crossing of swords, Prince Henri vigorously pressed his adversary. The Count of Turin retreated to the limit of the ground, and then resuming the offensive, touched his opponent. The third and fourth assaults ended in long engagements within guard.

The *Temps* says that the wound in the abdomen of Prince Henri is serious but not alarming. Had the Count of Turin's steel gone half a centimetre deeper the intestines would have been perforated.

After his wound had received a preliminary dressing Prince Henri walked to his carriage unaided. The Count of Turin, accompanied by his seconds, left Paris for Italy this afternoon. He was not experiencing any special distress from his wound.

The seconds of Prince Henri of Orleans were M. De Leontieff, Governor-General of the Equatorial Provinces of Abyssinia, and M. Raoul Mourichon. The Count of Turin's were Gen. Count Aragnaro Di Quinto and the Marquis Carlo Di Gihori.

THE BUREAU OF FORESTRY.

Although there has been greater attention paid to the all important subject of Forestry, and the preservation of our timber, during the last few years than ever before, still the matter is only in its infancy and the work is all before us. It is gratifying to note that so far as the Province of Ontario is concerned the work is being actively, earnestly and energetically carried out. The excellent summary, given in our Friday night's issue, of the report of the Ontario Bureau of Forestry as presented by the clerk of Forestry, Mr. Thomas Southworth, places the subject very clearly before the public. It may be said, without fear of contradiction, that it is little short of marvellous that we have any timber left at all.

From the first coming of the colonists to America, says the Ottawa Free Press, the work of destruction has been ruthlessly carried on. The use of the tree in the economy of nature seems never to have been fully appreciated by the settlers to the great detriment of their farming operations. The evidence taken before the Ontario Agricultural Commission disclosed the fact that that, at the end of the nineteenth century, apparently intelligent farmers seemed ignorant of what arboriculture meant in its relations to them, or as the report said, "in a condition of profound lethargy or innocent unconsciousness of the danger they invite or the losses they incur" through its neglect. One farmer said he looked on a tree on his place as "a weed!" Another thought there was wood enough and that the subject was not immediate, though in the same breath he had to confess that his fall wheat had been saved by the accidental protection afforded it "by his neighbour's bush." Then the lumbermen! But is useless to consider them in scheme of forest preservation. To them the tree is a source of profit and nothing more. The idea, simple though it be, that trees must be cultivated the same as any annual crop, seems to be generally difficult of comprehension here, although there are schools in Britain, Switzerland, Germany and India, where the courses in forestry are as elaborate and difficult as those in engineering. It is highly satisfactory to note the progress that is being made in this respect in this country, especially in Ontario, though, unfortunately, a great deal remains to be done before our farmers learn the proper management of their timber, and the great lumbering and pulp-making corporations are convinced that their own interests demand more careful cutting of the trees with a view to preserving the supplies of coming generations. So far as the work in the United States is concerned the matter is well dealt with in the current Atlantic Monthly. There, as in Canada, the science of Forestry is only in an elementry stage, though, as with us, efforts are being made to advance it.

The report is one which should be generally studied by our farmers. Any person desirous of obtaining a copy can do so by sending his name and address to Mr. Thos. Southworth, Bureau of Forestry, Parliament Buildings, Toronto. The province is deeply indebted to the Government for its efforts in connection with forest preservation, and the dissemination of instruction among the agricultural population concerning arboriculture, as it affects their crops and soil. This work is one of the many admirable points in connection with the administration of our provincial affairs by the Government of Sir Oliver Mowat, a work which will be carried on by his successor with equal zeal. And it must be confessed none too soon. The neglect of its study in the past is bringing evil in its train. Our rivers and streams on the lakes and St. Lawrence are lessening in volume, the fish are becoming scarcer, the lake salmon, once so plentiful, virtually disappearing, and the soil must be more or less affected. It is a matter for general thankfulness that the Provincial Government is placing before the public "an up-to-date view of the present situation, embodying the latest scientific conclusions and much practical information for farmers and others interested in tree-culture."

WOOD'S PHOSPHODINE.
The Great English Remedy.

Before and After.

Six Packages Guaranteed to promptly, and permanently cure all forms of *Nervous Weakness, Emissions, Spermatorrhœa, Impotency and all effects of Abuse or Excesses, Mental Worry,* excesses use of Tobacco, Opium or Stimulants, which soon lead to *Insanity, Consumption* and an early grave. Has been prescribed over 35 years in thousands of cases; is the *only Reliable and Honest Medicine known.* Ask druggist for Wood's Phosphodine; if he offers some worthless medicine in place of this, inclose price in letter, and we will send by return mail. Price, one package, $1; six, $5. *One will please, six will cure.* Pamphlet free to any address.

PROF. ROBERTSON ABROAD.

A Report of His Lecture at Manchester —The Development of the Canadian Dairy Trade.

The Manchester Courier of July 30 contains the following report of a lecture given in that city by Professor Robertson:

Last evening at the Mosley Hotel in this city an address was given before a meeting of the Manchester, Safford and District Grocers' Association, by Professor Robertson, the official Commissioner of Agriculture and dairying for the Canadian Government. Professor Robertson is on a visit to this country for the purpose of diffusing information as to the work the Canadian Government is doing in order to produce the best possible articles of consumption. Mr. John Williams, the President of the association, occupied the chair.

Professor Robertson said he was glad of having an opportunity to meet the importing and distributing provision merchants and grocers of Manchester, as, owing to its large population, geographical position and railway connections, Manchester had the prospect of becoming a still greater centre for the distribution of Canadian food products. The exchange of foods, clothing and the material for shelter formed the basis of profitable commerce, and Canada had no superior among all the countries where people followed farming for a living, in ability to produce foods of the finest quality. The desire of the people was to exchange the national products of their country for the manufactured articles for which British manufacturers and merchants were seeking good buyers. Speaking of Canadian food products, Professor Robertson said the Canadian climate and soil gave the people a good chance to make the products of the very finest quality. Canadian cheese had established for itself a first-class place among all the cheese imported into Great Britain, and the conditions of the country were quite as well adapted for the production of superior qualities of butter, meats, eggs, poultry and fruits. But the more perishable food products in the past had been somewhat spoiled in transit, but to help the Canadian farmer the Canadian Minister of Agriculture had arranged to provide what was practically a chain of cold storage service from the producer to the ports of Great Britain. The Government subsidized steamships to the extent of paying one half of the initial cost of providing the best of modern refrigerating machines and insulated compartments. Cold storage warehouses had also been subsidized at ports; and another part of this policy of the Government was the agreeing to pay a bonus of $20 to the owner of every creamery who provided a suitable cold storage room at his creamery. Arrangements had further been made with the railway companies to give a regular weekly refrigerator car service on seventeen routes of railway running into Montreal, and also on the railways running into the ports of Halifax, St. John and Charlottetown. The first shipment of dressed meats from a Canadian port in proper refrigerator chambers arrived in Liverpool about a fortnight ago. It came in excellent condition and promised to be the beginning of a large trade. The Government had arranged to make special trial shipment of grapes, pears, peaches and tomatoes, and, in conclusion, Professor Robertson said that if the British consumers looked to their own interest only, they would give a decided preference to Canadian products, and thus increase the purchasing power of Canadians from for the manufactured articles from English, Irish and Scottish cities.

In the discussion which followed Councillor J. Hampson said that if Professor Robertson could induce the Canadian Government to take off the tariff imposed on the manufactured goods from Manchester, our calicos, yarns and machinery, he was sure everyone in Lancashire and Yorkshire would agree that Canada should have the preference she asked for.

At the close a vote of thanks was passed to the lecturer.

"Only nervous" is a sure indication that the blood is not pure. Hood's Sarsaparilla purifies the blood and cures nervousness.

BULLIVANT HAS GOT IT.

Whitney's Fellow-Traveler from Glasgow Developed Smallpox Yesterday at the Isolation Hospital.

Toronto, Aug. 16.

Young Bullivant is down with the smallpox, but Dr. Sheard says his case is a very mild type, though pronounced. Dr. Sheard and his assistants did a good stroke of business two weeks ago when they placed young Bullivant, the chum of Whitney, the smallpox patient, in quarantine at the Isolation Hospital. Bullivant, it will be remembered, came over from Glasgow with Whitney, and the two separated at Belleville, Whitney boarding the Passport and Bullivant coming through by train. Bullivant was found at the house of friends in Toronto, and immediately quarantined, after which he was vaccinated. On Saturday he was feverish, and yesterday the disease was plain. Whitney is getting along nicely.

Puny and Fretful Baby.

This is now quite unnecessary! Like others, you may have your baby fat, laughing and happy, if you give it Scott's Emulsion Babies take it like cream.

Others Fail—It Cures!

DEAR SIRS,—From my own experience I can confidently say that Dr. Fowler's Extract of Wild Strawberry possesses true merit. It was the means of saving my little girl's life last summer. She was teething and took violent diarrhœa. Dr. Fowler's Extract of Wild Strawberry cured her, and I feel that I cannot say enough in its favor.

COOKED ALIVE.

A Switchman Fell Into a Mass of Red-Hot Slag in Buffalo and His Flesh Fell Off in Chunks.

Buffalo, Aug. 15.—B. F. Fowler, a switchman on the Western New York & Pennsylvania Railroad, was horribly burned about 1 o'clock this morning, by plunging into a bath of red hot slag that had been taken from the blast furnace at the foot of Hamburg-street.

His body was so terribly burned that the flesh fell off in masses. The unfortunate man was taken to the Fitch Hospital. His face, arms and legs were burned to a crisp.

When first carried into the hospital Fowler was conscious, and his cries and agonizing appeals for help were fearful to hear. His face was the picture of awful agony, and almost caused the doctors to shrink from their duty.

Fowler was switching cars near the foot of Hamburg-street this morning. His duties were finished at 1 o'clock and he started for home. A freight train came along, and Fowler ran for the caboose, it being his intention to catch on and ride part way home. He had caught the step and was just about to throw himself on to the platform, when he lost his hold, and just as the train reached the foot of the street, he fell and plunged head foremost through the crust of the slag. Below the crust the fiery mass was still seething.

Another switchman, who happened to be passing by, heard the scream of the hapless man, and ran to his assistance. A fast call was sent to the Fitch Hospital, and the ambulance was soon at the scene.

Fowler is 23 years old, and his home is on Rex-street at Hornellsville. He came to this city about three weeks ago and obtained employment on the railroad. He cannot live. At any moment death may end his torment.

OF INTEREST TO WOMEN.

A Lady Cured After Seventeen Years' Affliction with Disorders Peculiar to Her Sex by Dodd's Kidney Pills—Other Unfortunates Can be Cured as Well as She.

Toronto, Aug. 16—The publication of the letter of Mrs. Reany, of Ashland, Wis., concerning her cure by Dodd's Kidney Pills after 16 years of sickness, has awakened wide-spread interest amongst the women of Canada. It is truly marvellous that a woman afflicted as long as she was, who had tried all the remedies within her reach and all the doctors could do for her, should be cured by so simple and easily accessible a remedy as these pills. What they did for her they will do for other women suffering from diseases peculiar to their sex.

Dizziness and Weak Eyesight—How to Cure Them.

Mrs. J. Dell, Chatham, Ont., says: "For two years I could not go to sleep before two or three o'clock in the morning. I suffered much from vertigo and dim eyesight. Milburn's Heart and Nerve Pills have removed the dizziness, restored my heart to healthy action, strengthened my eyesight, and I can truly say they are a blessing to any one suffering as I did.

High-Grade Cemetery Work

AT A MODERATE PRICE.

The element of permanence which attaches to the erection of any memorial to the dead renders it highly desirable that no mistake be made in the selection either of design or of materials.

A mistake is a serious matter. Let us help you to make a right decision. Our specialty is the erection of monuments which are unique without being grotesque, and artistic without being over-decorated.

We manufacture from all first-quality granites, and as WE SELL DIRECT TO CUSTOMERS, we save the latter all agents' profits. Then, too, there is a decided advantage for the buyer in dealing with one responsible firm for both the manufacture and the setting of a monument.

All our work is guaranteed, NO CHARGE being made if not strictly according to contract. Write us for designs and estimates.

Moore's Monumental Works

MUNYON!

What He Has Done For Well-Known Canadian People.

READ WHAT THEY SAY

Rheumatism, Catarrh, Dyspepsia and Other Ailments Cured by the Use of His Wonderful Little Pellets.

Mr. N. J. Minor, bicycle maker, with E. C. Stearns & Co., bicycle works, and residing at 166 Borden street, Toronto, Ontario, Canada, says: "I suffered intense pain for nearly three years from dyspepsia and constipation, accompanied by a long train of distressing symptoms. I had no appetite, a sour stomach, was melancholy and nervous. I could not sleep and there was also considerable emaciation. One month ago I decided to try Munyon's Remedies and after using two bottles of the dyspepsia cure I was completly cured and am to-day in the enjoyment of excellent health and spirits. I am able to eat anything. I consider my cure most wonderful and cannot endorse Munyon too highly."

Munyon's Rheumatism Cure never fails to relieve in 1 to 3 hours, and cures in a few days. Price 25c.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach troubles. Price 25c.

Munyon's Cold Cure prevents pneumonia and breaks up a cold in a few hours. Price 25c.

Munyon's Cough Cure stops coughs, night sweats, allays soreness and speedily heals the lungs. Price 25c.

Munyon's Kidney Cure speedily cures pains in the back, loins or groins and all forms of kidney disease. Price 25c.

Munyon's Nerve Cure stops nervousness and builds up the system. Price 25c.

Munyon's Catarrh Remedies never fail. The Catarrh Cure—price 25c—eradicates the disease from the system, and the Catarrh Tablets—price 25c—cleanse and heal the parts.

Munyon's Asthma Cure and Herbs relieve asthma in three minutes and cure in five days. Price 50c each.

Munyon's Headache Cure stops headache in three minutes. Price 25c.

Munyon's Pile Ointment positively cures all forms of piles. Price 25c.

Munyon's Blood Cure eradicates all impurities of the blood. Price 25c.

Munyon's Vitalizer restores lost powers to weak men. Price $1.

A separate cure for each disease. At all druggists, 25c a bottle.

Personal letters to Professor Munyon, 11 and 13 Albert street, Toronto, answered with free medical advice for any disease.

MILITARY ACTIVITY.

Reserves Being Concentrated on Indian Frontier.

OFFICERS ORDERED TO BE READY

To Take Active Duty and Many of Those on Leave in England Recalled—Mad Mullah Had Afghan Troops Under His Command at Peshawur —Cable News.

Bombay, Aug. 14.—There is general military activity in India, in view of the concentration of strong reserves of troops on the Northwestern frontier. Detachments of troops from distant cantonments are moving northwestward and the railroads are kept busy transporting soldiers towards the scene of the threatened troubles. Many officers have been ordered to hold themselves in readiness to return to their regiments, all leaves of absence in the case of members of the medical staff have been stopped and 21 surgeons have been recalled from leave in England.

It is generally recognized that the so-called Mad Mullah is responsible for the raid near Peshawur, and he undoubtedly planned the recent Swat rising. The Mullah lives in the Mohmaned country inside the Afghan border. While the attack on Malakand was proceeding, he collected and sent tribesmen to help the Swatis.

His raid on Shabakdar was intended as a diversion in favor of the Swatis, who were smarting over their failure to capture Malakand and Chakdura. The Mad Mullah's proclamations, summoning the tribes to a Jehad, or Holy war, were scattered broadcast throughout the Bajour, Swat, Black Mountain, Indus, Kohistan and Khyber districts, and among the Afridis and Orakzarus. Local Afghan officials aided in their circulation. There is no doubt that the Mullah in his Shabakdar raid had under his command numbers of Afghan troops and it is even rumored that they were the Ameer's sepoys.

The Ameer, it is expected, will disclaim all responsibility for the actions of his tribesmen, but it is not likely that the Government will be satisfied by his disavowal in view of the attitude recently assumed by him.

His missions to Constantinople, his reception of the Turkish envoy, the constant reminders to the people to prepare for a holy war, the distribution of fanatical pamphlets, and especially his gifts of arms and ammunition to the frontier tribes, have brought the Ameer into dangerous waters, and the impression here is that the Indian Government in massing troops upon the frontier is preparing for the necessity of administering to him severe correction.

SHARP FIRING HEARD.

Great Excitement at Peshawur Women and Children Fleeing to the Hills.

Bombay, Aug. 15.—A telegram from Cherat says that sharp firing was heard last evening in the direction of Fort Shabakdar. There is great excitement at Peshawur. The women and children who have been in the cantonments at Cherat have gone into the Murree Hills, northeast of Rawal Pindi.

SPECIAL CABLE LETTER.

New Experiments in Telegraphy—Some Plain Talk to Americans by The London Spectator.

London, Aug. 14.—The Postoffice officials here are deeply interested in the experiments in telegraphy, made by Prof. Crehere of Dartmouth College and Lieut. Squire of the Military school at Fortress Monroe, who claim that their device enables messages to be transmitted with extraordinary rapidity. The inventors said to a representative of the Associated Press:

"The experiments over short circuits in the United States have been entirely satisfactory, but we were unable to secure facilities for long-distance operations, and so we came to England and asked the help of the Government. We explained our scheme to Superintendent Preece of the Telegraph Lines Department, and his interest was immediately aroused. He promptly placed the Government plant at our disposal, and directed his subordinates to give us every possible aid in the trials over the London and Birmingham line."

It is understood that they have been entirely satisfactory. The inventors, however, are very reticent. They desire to avoid publicity until the practicability of their scheme has been fully demonstrated. They seem to fear possible rivalry. It is claimed that their device will transmit enough matter in an hour over a single wire to fill a page of a newspaper.

Messrs. Crehere and Squire may go to France and Germany to show their invention to the telegraph officials of the Governments of those countries.

Consul-General Osborne says that the invoices of exports filed in his office since the new United States tariff became law have decreased fifty per cent. Only in the case of diamonds and other jewels has there been an increase. A large business has developed in jewelry which heretofore has mostly been smuggled into the United States via Canada, an consignment having been recorded for a long time. Mr. Osborne thinks the dealers concluded that it is more profitable to pay the Dingley rates than to incur the costs and risks of smuggling.

The Consul-General hears that a leading tin plate manufacturer is going to transfer his business to the United States, on account of the tariff, and that some wooden manufacturers are going to do the same and for the same cause.

The Spectator, during the course of a long and temperate article in regard to the "provocative and unfriendly tone of American politicians of both parties towards England," says:

"We are obliged to write as we never dreamed of being forced to write about a country only less dear to us than our own. But we should fail in our public duty if we did not point out in the strongest manner the grave risks which are likely to ensue from this attitude. Unless the United States assumes a very different tone, the gravest crisis is certain to ensue. Public opinion in England has greatly changed during the last few months, and even if Lord Salisbury is anxious to ignore politely such indiscretions as Secretary Sherman's, the people would not permit it, and hereafter, American demands, if urged in unfriendly language, will be resisted unanimously by the nation, no matter what the risks may be. If America does not keep a better watch over her politicians, they will hurry her into a conflict with this country whereof no one is able to see the end."

Abu Hamed, the post of the Nile just captured by the Anglo-Egyptian forces, is a most important strategic point, giving Sir Herbert Kitchener, the British commander, command of both ends of the railway, which, started from Wady Halfa, below the first cataract, is being pushed rapidly to its terminus at Abu Hamed, above the difficult fourth cataract, and which will soon be completed. Gunboats are now building in England for transportation in sections to Abu Hamed, whence there is open water to Khartoum. These gunboats draw only two feet of water, steam 14 knots an hour, and are armed with 15-pounders and Maxim guns. It is announced that the whole flotilla will be ready to move south at Abu Hamed early in 1898. It is possible, however, that Berber, the next important point on the Nile, may be seized before long, without waiting for the naval reinforcements. After the Anglo-Egyptian forces are gathered at Abu Hamed, Berber, Suakim and probably Kassala, the final advance on Khartoum will occur. Serious fighting is expected before the Mahdists are routed, hence the necessity for British troops to supplement the Egyptians. It is reported that the Khalifa has 250,000 soldiers under his command. But, in all probability, this is an exaggerated report. The Turkish newspapers, evidently inspired from the palace, are printing lurid pictures of the disaffection in India, said to be caused by British outrages, and in short, there is a regular propaganda upon the part of Turkey to create troubles for Great Britain in Mohammedan circles, as an offset to London's abetting the Armenian agitation.

The dispute in the engineering trades is extending in area and a week hence, 70,000 men will be involved. The Sheffield employers have joined issue with the Employers' Association and the contest has become one of endurance. Each side is trying to starve out the other.

Wine experts say that the vintage of 1897 will not rank high. The best reports have been received from Mayence, where it is stated that a heavy crop is assured. In the important wine districts of Germany a high quality of grape is expected.

The French vintage is much smaller than that of 1896, though it is of fair quality. The port wine and sherry districts are lacking in both quantity and quality.

Italian Minister of Justice Dead.

Rome, Aug. 15.—Senator G. Costa, Minister of Justice, is dead. Shortly before he expired he sent a touching deathbed telegram of farewell to King Humbert. Marquis Di Rudini, the Premier, will temporarily assume the portfolio.

DOAN'S KIDNEY PILLS

Price 50 cents per Box, or 6 for $2.50. At Druggists, or Mailed on Receipt of Price by T. MILBURN & CO., Toronto.

Hallucinations!

Heart and Nerve Troubles Cause Morbid Fancies, Sleeplessness, Disturbing Dreams, Restlessness, Excitability and other distressing symptoms.

A TORONTO LADY TELLS ABOUT THE PROPER TREATMENT.

Mrs. Jas. Astleford, 228 Robert Street, Toronto, says:—"When I began taking Milburn's Heart and Nerve Pills a short time ago I was so excessively nervous that I was almost afraid of my shadow. Such things as the closing of a door or unexpectedly meeting any person would make me jump and completly upset me.

"I felt fatigued and worn out nearly all the time. My heart would palpitate violently, and my physical strength was at a low ebb. These pills have strengthened my nerves, restored healthy action of the heart and removed all the troubles from which I suffered so severly.

"I have been invigorated and built up in a remarkable manner by their use. You have no idea what a comfort it is to have regular healthy action of the heart when one has experienced the torture of heart trouble.

"I can only say that Milburn's Heart and Nerve Pills are a magnificent medicine, for they proved so in my case."

Laxa Liver Pills cure constipation and sick headache. 25 cents. All drug stores. 134

CASTORIA

SLOAN'S INDIAN TONIC

COMBINES THE BEST POINTS OF ALL OTHER MEDICINES.

TRADE MARK.

Cures Erysipelas, Scrofula, Salt Rheum, Eczema and all other Eruptive Skin Diseases.

A MARVELOUS CURE FOR ERYSIPELAS, BY SLOAN'S INDIAN TONIC, IN LAMBTON COUNTY.

CORUNNA, JULY 4th.

Dear Sirs,

I received the medicine all right, and am much obliged for it. I had Erysipelas every summer for five years, sometimes so bad my face, arms and body would swell to an enormous size and my eyes would be shut for days at a time. I tried two doctors but they did me no good, and I even went for change of climate, but all to no avail, until I got your TONIC. After taking one bottle the swelling ceased, and I improved everyday and am now entirely cured.

Yours very truly,
MRS. J. J. PORTER.

PRICE $1 a bottle, 6 for $5. All druggists or by express. Send for our new book of wonderful cures. Free by mail.

Sales Talk

With Hood's Sarsaparilla, "Sales Talk," and show that this medicine has enjoyed public confidence and patronage to a greater extent than accorded any other proprietary medicine. This is simply because it possesses greater merit and produces greater cures than any other. It is not what we say, but what Hood's Sarsaparilla does, that tells the story. All advertisements of Hood's Sarsaparilla, like Hood's Sarsaparilla itself, are honest. We have never deceived the public, and this with its superlative medicinal merit, is why the people have abiding confidence in it, and buy

Hood's Sarsaparilla

Almost to the exclusion of all others. Try it. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round Every new thing quick as it appears. d

For Stealing Lumber.

Frank Lefevre was committed for trial this morning in the police court on a charge of stealing lumber from a house belonging to Mr. Thos. Bradburn, which is being repaired, on Brock street. Mr. G. W. Hatton appeared for the prosecution, and Mr. W. A. Stratton for the defence.

The Route Mapped Out.

The folders giving particulars of the annual excursion of the Foresters to Toronto, Niagara Falls and Buffalo, are out. Full particulars are given of train and boat departures and arrivals at each point on the trip, starting as far east as Norwood, and finishing at Buffalo. It is as well to bear in mind that the rates for return tickets are to Toronto, $1.75; Niagara Falls $2.25; to Buffalo $2.75, and at the latter city the great summer sports are in full swing.

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

The Last August Excursion.

Those who have stayed at home and let others of the family enjoy an occasional outing, can now make up for it by arranging to go on the trip to Stony Lake on Thursday, Aug. 26th, by G.T.R. and steamer Sunbeam. The route will include a tour of the lakes, stopping at all interesting places. Train and boat will leave on regular time. Arrangements have been made for an excellent dinner at Morgan's Hotel, McCracken's Landing, for 25c per dinner. Round trip tickets, Peterborough and return, 75 cents. The excursion is under the auspices of George street Sunday school, and it is hoped the friends will turn out and patronize the event. Bring baskets as usual if you prefer. Keep the date in mind. 1d

INADEQUATE INLETS.

They are Not Large Enough to Admit the Water From the Streets Into the Sewer.

The town council will require to act promptly in regard to enlarging the culverts or inlets to the sewer on George street before the town is called upon to defend actions for damages caused by the overflowing water from the streets. Even the showers of to-day, which could not be called heavy, compelled the tenants in the corner shops to give their attention to keeping the grate cleared, and the streets on the corner of George and Hunter were being covered with water. Should a heavy rain occur during the night, the cellars of some of our merchants will be more or less damaged, and should any goods stored away be damaged, the town will be asked to foot the bill. There is hardly any excuse to be offered for this condition of affairs to exist longer than it will take time to remedy the defect. This work was only completed last season, yet the culverts must be enlarged at once to convey the water from the streets. Some one is to blame for this fault. The town cannot be expected to keep men on each opening during every storm that may be a little heavier than ordinary. Mr. Mayor and Street Inspector, give these culverts your attention.

STOLE SOME OATS.

A Bicyclist Catches a Man in the Act of Helping Himself.

A local bicyclist whilst riding into town on Friday evening with a young lady was startled by seeing a horse and democrat being driven rapidly away from the side of the road just in front of him.

As the lash was used unsparingly on the horse the wheelman concluded that everywas not all right and scorched away after the democrat. The horse was kept on the gallop but the wheel proved the faster, and on pulling up alongside the bicyclist was astonished to see a well known citizen sitting in the democrat and driving the horse for all there was in it. He was surrounded by sheaves of oats which he had presumably been stealing out of the field. There may be more heard of the case yet.

BREAKING UP CAMP.

Two Parties Come Up from Down the Otonabee.

Two camping parties down the river broke up to-day, after an enjoyable two weeks on the banks of the Otonabee.

The Idlers' Camp was located at Highland Park and was composed of Mrs. Andrew Macfarlance, Mrs. D. Cameron, Miss May Macfarlane, Miss Jennie Crossley, Mr. W. Wilgar, and Messrs. Post, Bird, Madden, Wilson and others of town, and the Misses Carveth and Mr. Pendrie of Millbrook.

The camp had a great many visitors during the two weeks, on Sunday there being over thirty all told to provide for.

On Saturday evening one of the guests attempted to play a trick by wrapping himself in a sheet and suddenly appearing out of the woods, but he had neglected to be introduced to the big mastiff earlier in the day, and the joke nearly ended in a tragedy before he could be rescued.

The other camp which was farther down was christened "Hogan's Alley" and was comprised of Messrs Lionel King, Roly Denne, Bob Conroy, Bert Dolan, Herb Stenson and Roger Davidson. The boys, of course, had a jolly time.

FULLER'S CORN SALVE.

A Stony Lake Touch.

This wonderful healing remedy was first discovered in the year 1601 by an Indian named Tobico, whose canoe was capsized while fishing off the shores of Sol's Island, at present the best known fishing grounds in Canada.

Tobico was on this island for nearly three years, existing merely on berries and cheese, a feat which has ever since puzzled the minds of the most brilliant shoemakers, medical professors and book agents. One day the Indian was taken down with bad breath and corns, a complication rare; after mixing a few articles together and applying to his corn, he took a nap. When he awoke he was startled by the discovery.

In the place where once an ugly corn protruded was now a beautiful bunion. His breath left him—thus the discovery.

Sir C. T. Fuller, a young, handsome and gallant Englishman, who was directed up the lakes by the English government to make a survey to discover frog ponds, saw Tobico and his companion Cassidy. The latter was in the act of applying the salve on a huge bunion. Sir Fuller being a bright and enterprising young man, saw at once his fortune. He endeavoured to solve the secret by asking Cassidy a few questions, but the cunning bear hunter would not answer.

Next day Sir Fuller in company with Robert J. Fife, a world renowned salve compounder, started for the island to purchase some of the salve, but the fishermen could not see inducements enough to sell their find.

They were finally induced to sell by the appearance of W. R. Lech who had been paddling around the lakes all night, having lost his way to the boathouse.

It is said that Cassidy was more dead than alive by the terrible experience of Lech and he sold all the salve he had.

Directions for using Fuller's Salve:—Soak your head and feet in a small basin of water just before retiring, hold the corn in one hand and an axe in the other; apply the axe gently upon the corn until it becomes ruby-coloured, then retire at once.

Sir C. T Fuller:

I have had corns and used three boxes of your salve and now I have bunions. Enclosed please find money for five more boxes.

Yours, etc.,
F. FLATFOOT.
Corning, N. Y.

Sir Fuller:

I had a pair of new shoes and on account of my corns they hurt my feet. I used your wonderful salve and now I don't wear shoes at all.

N. SHORFUL,
Looneyville, N. Y.

C. Fuller:

DEAR SIR—I am troubled with corns so badly that I have lost my appetite and could not walk. I wore a number eleven shoe and after using your salve I had to wear overshoes.

MAMIE FEWCLOTHES,
Stockingville, Long Island, N. Y.

Dear Charles:

Your corn salve is a wonder. I have had a corn for ten years—after one application of your salve a corn has become an oak.

WHERE AM I AT, J.?

Sir Charles:

One application of your wonderful salve on my brother's corns was all he needed. He now uses a garden hoe every morning.

RUSTY GARDENER,
Farmerville, Q. X.

A. C. McCALLUM BACK FROM THE FAR WEST.

HIS IMPRESSIONS OF THE DIFFERENT CAMPS HE VISITED.

Prospects Very Bright for Free Milling Ores in British Columbia—Many Miners Depart for the Klondike—Boundary Falls and Golden Cache Mines Praised.

Mr. A. C. McCallum has just returned from a trip to the mining regions of British Columbia in the interests of the Wm. Hamilton M'f'g Co., of town, and the impression he received of the western country is most favourable. Whilst in British Columbia he met a large number of old Peterborough boys, who all seemed to be doing well and advancing with the country.

He first visited the Silver King mine at Nelson and was greatly impressed with the richness and quantity of the ore which he saw there. The mine is 6,700 feet above the sea level and access is only gained to it by ascending on horse back. Mr. McCallum's description of his feelings as an inexperienced rider in ascending the mountain is very vivid. Nelson appeared to him to be the most progressive town of the Kootenay district. It is beautifully situated on the river from which the country takes its name and has systems of waterworks, sewerage and electric light all under construction.

THE BIG SMELTER

has a capacity for 200 tons of ore a day and the men have night and day shifts, keeping the big furnace in full blast continuously. The mine is four miles from the smelter and the ore is transferred in buckets by an aerial tramway. The men are boarded at the mines and no complaint can be made of the bill of fare. Mr. McCallum took a meal with them and states that it was a far better one than is provided for the men in our own lumber shanties.

Kosio was the next place of importance visited. It is a thriving town also on the Kootenay, the citizens being very progressive. Many old Peterborough people are here. The mayor in fact is an old Peterborough boy, being related to Mr. Edward Green, of town. He owns the largest general store in the place, and Mr. Rob Stenson, well remembered here, is his head clerk. Bob seems to think that the west is the country to live in. Harry Stenson has just moved to the town, coming up from California to start a jewelry store. He was formerly with Mr. W. A. Sanderson, of town. Kosio is just a few miles from Ainsworth camp, where the prospects are exceptionally good. Pilot Bay, where a smelter has just been erected, is also only a short distance away.

In sailing

DOWN THE KOOTENAY

river the prospectors can been seen at work all over, and the propositions (the western name for mines) in silver and lead ores seem to be all doing well.

A narrow guage road carried the traveller to Sandon, which Mr. McCallum thought was probably the busiest mining camp in the district. There are five working mines here, viz, Slocan Star, Reco, Noble Five, Payne and Ruth. The first carload of ore from the Reco Mine realized $4,492, and it is calculated that the carloads will hereafter clear about $6,000 each. The Payne mine is said to be even richer. The propositions are situated about six or eight thousand feet above the town, and the ore is brought down on framways. Mr. McCallum succeeded in getting the contract for the Wm. Hamilton Company for the building of one of the tramways for the Payne mine down a very steep grade. It will be what is known as a three rail surface tram, and will be built on the side of the mountain for a distance of 1 1-4 miles. The grade is as steep as sixty degrees in some places, or in terms which will be more readily understood, there is a rise of about 175 feet in 100.

ORDERS WERE ALSO RECEIVED

from the Slocan Star for a large quantity of mining machinery.

The hotel accommodation at Sandon is A.1., the rooms being luxuriantly furnished, and the menu beyond criticism. Mr. A. M. Harris owns nearly the whole town and seemed to Mr. McCallum to be a most energetic fellow.

While in Sandon Mr. McCallum met with an experience whichh he will not forget as long as he lives. On certain days the mule trains of dynamite for the mines are allowed to pass through the town, and on one of these days he was on the main street. The train was composed of sixteen mules with heavy packs of dynamite on their backs. The fifth mule from the front suddenly stepped aside from the train and bit a saddle horse which was tied at the side of the street, on the flanks. The hoarse reared and kicked but by a miracle did not hit the pack with its heels. If it had struck the dynamite every pack would doubtless have exploded and the prosperous little town would have been wiped from the face of the earth. The horse was quickly led away before it could again make an effort to reach the mule.

ANOTHER EXPERIENCE

which he had in the same town exemplified the way in which the law is enforced in the rough mining camps. A Montana miner had struck the town and proceeded to paint the town red and out things loose in general. When Mr. McCallum saw him he was waving a pair of revolvers over his head and firing up in the air. One of the provincial police stepped quietly up to him and said: "Say Johnny, don't you think you had better give me those playthings? You might hurt yourself." The Yank saw in a moment that he had only been making a fool of himself and handed the pistole over. After removing the cartridge holders the imperturbible officer handed the harmless barrels back to the Montana man with permission to go on and have as much fun as he liked, but the Yankee had been effectually tamed. The way in which respect to the British law is enforced seems to fairly paralyze the Americans.

Evidences were also apparent of a great deal of work being done at New Denver on Slocum Lake. This was also the case at Silverton. Near there is the Galena farm, one of the biggest propositions in the Slocum District. The ore is very rich and operations will soon begin on

A TREMENDOUS SCALE.

There is also slapping good ore at the Wakefield mine, also in the vicinity.

Nakusp, which was next visited by Mr. McCallum, is one of the C. P. R. distributing points, both the trains and the steamers stopping there. It was here that the traveller met Mr. George Kincaid, of town. He is in good health and is doing fine out west. Mr. Arthur Tebb was also seen just as he was setting out on a prospecting tour with his kit slung on his back and a Winchester rifle over his shoulder. He is looking splendidly.

Prof. Carlisle, the mineralogist, in talking with Mr. McCallum at this point, spoke most enthusiastically of the prospects of the province. The Lardeau country was mentioned as being likely to show up especially well in free milling gold propositions. The fine samples of ore which Mr. McCallum saw seemed to bear out what Prof. Carlisle had told him. A stamp mill is to be erected there at once.

At Arrowhead Mr. Bob Hamilton, formerly of town, was met. He is now the freight agent at this point for the C.P.R.

MR. DAVID FITZGERALD,

son of Mr. J. W. Fitzgerald, of town, was met at Trail. He is the commercial manager for F. A. Heinze, the great western railroad and mining king, and is credited with receiving a salary of $10,000 a year. He is at present in full charge of the Trail smelter, the biggest ore mill in Canada, and by the frequency of his consultations with Heinze he is evidently that gentleman's right hand bower. Peterborough may well be proud of the progress which this son of her's has made. He is not yet in his prime and yet few names are better known on the Pacific slope.

From this point you head into Rossland, but Mr. McCallum did not go into that country, as at present it is reported to be rather quiet. The Boundary Falls and Golden Cache properties are favourably looked upon out west, being considered paying investments by the best men. A mill and tramway are almost completed at the latter and there are about 2,000 tons of ore ready for the mill. The gold now visible on the face of the vein is richer than that at first revealed.

In Vancouver Mr. McCallum ran across Messrs. Robt. Hall and F. G. Faulkner, formerly of town. Both are in splendid health.

The Klondike craze, it is thought, will almost depopulate British Columbia in the spring. Men threw up good positions and mortgaged their property to take passage on the first steamer which went north after the news was received. It was the last boat of the year which could get passengers in before the winter, and was crowded to such an extent that Mr. McCallum thought it would be almost impossible to stand a match upright on the deck.

Those who have been in the region of the Peace and Mackenzie rivers state, however, that the gold is just as plentiful there, and the climate much milder. A young government surveyor panned at one of the tributary creeks to the Mackenzie and in three pannings got $30, $50 and $90. He could not stop there but had to go on with his journey as he had not enough provisions to carry him through to the Coast. The Indians are very peaceful, and are willing to trade off their gold trinkets for coloured shirts in preference to anything else.

LAST MONTH OF SUMMER.

Have you had a finger in our pie? There were many plums in our Summer Clearing Sale when we started it a few weeks ago, and there are still good pickings left. Now during the last month of summer, wise shoppers wont need to be reminded of the old proverb about the Early Worm. Fearless Price-Cutting has attracted buyers eager to share in the Bargains.

All our big or our little lots must move out, because FALL GOODS will soon be rushing in. After seven months of busy trade in a large store like this, large quantities of Broken Stock are left, which must be disposed of, no matter what the Sacrifice:—

Fancy Souveniers With Views of Peterborough:--

—Jewel Cases with views of Peterborough.
—Pin Trays with views of Peterborough.
—Puff Boxes with views of Peterborough.

STONY LAKE ITEMS.

A Big Bonfire at Mr. J. J. McBain's on Friday Evening Last.

Yesterday was a quiet day at the Lakes. A high wind and threatening rain kept the cottagers more or less confined to their islands, in consequence the Sunday services were not as well attended as usual.

Messrs. R. S. Davidson, W. D. Parker, Manager of the Ontario Bank, and Harry Allen spent Sunday at the Lakes as guests of Mr. J. R. Stratton.

The Mayor and Mrs. Yelland returned from the Lakes this morning.

Kenmore Camp, which has contained a jolly party of fourteen young fellows for the last three weeks, broke up this morning and the boys passed through to-day on their way to their respective homes in Whitby, Toronto, Montreal and Chicago.

There was a big bonfire on Mr. J. J. McBain's island on Friday evening, when about one hundred and fifty of the cottagers were present and afterwards participated in an informal hop. The evening passed off very pleasantly indeed.

Arrangements have been completed for the annual regatta at the Lake. The date is definitely fixed for the 19th and 20th. There are already over forty entries and therefore it is thought that the regatta will be the most successful ever held on Stony Lake.

Men's Tweed and Serge Pants, in several different patterns and colours regular price $1.00 to $1.50, Grafton & Co's Summer Clearing Sale Price 68c

GOOD FOR THE TRUE BLUES.

To the Editor of the Examiner:

SIR—Permit me to correct an error which occured in your report of the sports which took place at Lakefield in connection with the Relief of Derry celebration held there on the 12 inst. The tug of war contest was not won by the Orangemen, as reported by you, but by the True Blues, who had the best of it all through the contest.

Very truly yours,
W. H. G. ARMSTRONG,
W.M. Queen's Own Lodge No. 49, L.T.B.A.
Peterborough, Aug. 16th, 1897.

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

To-day—1 p. m. ..... 69° above zero

	Highest.	*Lowest.*
Yesterday	75°	56°

Rain up to 1 p. m., .19 of an inch.

Mrs. S. James, Seaforth, suffered for years with what is called old people's rash. She was treated by many physicians without any result. Mr. Fear, the local druggist recommended Dr. Chase's Ointment, which relieved the irritation at once and speedily effected a permanent cure of the skin eruption. Mrs. James also says Dr. Chase's Ointment cured her of Itching Piles which she had been troubled with for years.

PERSONAL.

Mr. Will Lech is in from Burleigh for the day.

Miss Addie Lee is holidaying at Sturgeon Point.

Mr. Harry Beall went back to the lakes this morning.

Mr. Ernie Wasson has returned after spending Sunday at Stony Lake.

Mr. J. H. Ames left to-day on a fishing tour of a couple of weeks' duration.

Mr. Ryerson Ritchie, of Cleveland, Ohio, spent Sunday in town with his parents.

Mr. and Mrs. John Jayes and family leave in the morning for Niagara Falls and Buffalo.

Miss Hamilton, of Shelburne, is visiting at the residence of her brother, Mr. T. H. Hamilton, Homewood Avenue.

Mrs. Harry Phelan and Master Nagle have just returned home after spending a couple of weeks in Ottawa with Mrs. H. J. Friel.

Messrs. John McKelvey and Wm. Davenport, of Rochester, passed through to-day on their way to Breeze's cottage, at Stony Lake.

Messrs. O. O'Boyle, L. Primeau and L. Doherty wheeled into town this morning from Lindsay. They are on their way to Campbellford.

Miss A. M. Stewart, of town, arrived home after a short visit at her parents, Mr. and Mrs. J. Stewart, of "Sunny Brae," South Monaghan, to-day.

Messrs. F. E. Mutton, J. P. Shaw and W. E. Wright passed through this morning from Toronto on their way to Dulce Domum cottage, Stony Lake.

Mr. Fred Dixon leaves in the morning to participate in the annual trip of the Sun Life Insurance Company to Gananoque and the Thousand Islands.

Messrs. A. McNee, W. J. Montgomery and W. L. Allen returned this morning from the A.C.A. camp, where they report having enjoyed a splendid outing.

Miss L. Barnett, of Renfrew, who is visiting her sister Mrs. C. B. McAllister, Charlotte street, spent Sunday at Stony Lake as the guest of Mrs. W. A. Sanderson.

Mr. H. E. Walton, of New York, traveller for H. Hermann & Co., of that city and London, England, is in town for a few days, the guest of his father, Mr. Robert Walton.

Mr. John P. Dickson, of Minden, who has been holidaying in Peterborough, the Echo says, returned home Saturday last, looking as if he had thoroughly enjoyed his outing.

Mr. and Mrs. K. G. Lech and family went back to Stony Lake to-day to close their cottage for the season. During the last two weeks it has been occupied by a party of old Upper Canada College boys.

Mr. Geo. Adams, the popular brakesman on the Lakefield local, accompanied by his wife, leave on a holiday trip to Minnesota on Wednesday. George will be missed by the regular passengers, as he is always most obliging.

The Minden Echo says: Rev. Orr Bannet, of Hawksbury, formerly Presbyterian missionary here, made a flying visit to his friends here on Tuesday last. Mr. Bennett is at present spending his summer vacation with his father at Peterborough, and took the opportunity of visiting his former mission, where he had many warm friends who were all delighted to see him in such excellent health.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The council meets this evening to consider the estimates.

—The roads no sooner get dried up for wheeling than another shower comes along and spoils it all.

THE "EXAMINER" AT SUMMER RESORTS.

The DAILY EXAMINER is sent to summer resorts addressed to individuals at thirty-five cents per month. Persons leaving town for their holidays can have the EXAMINER addressed to them for as short a period as one week by applying at the office, 419 George street.

Is Your Pump in Working Order?

When a pump does not work steadily, smoothly, and without undue effort on the part of the operator. It is either poorly constructed or in urgent need of repair. We make a specialty of repairing and can usually tell you what the cost will be before the job is started, so you can decide whether it is more profitable to get the work done or invest in a new one. A unique feature of the kind we build is that the stroke can be adjusted so as to make the labour commensurate with the strength of the person using it. Pumps however, are not the only things we make; for instance, another of our lines is washing machines. Our latest, the "Challenge," is by all odds, the best on the market. They are cheap, too. A post card will bring you full particulars. —G. WALTER GREEN, P. O. box 361; Telephone, 92.

Burdock Blood Bitters.

Burdock Blood Bitters regulates the stomach, Liver, Bowels and Blood; curing dyspepsia, biliousness, sick headache, rheumatism, scrofula, and removing all impurities of the blood, from a common pimple to the worst scrofulas sore. As an invigorator and tonic, B.B.B. is an unequalled medicine.

LOCAL COURTS A. O. F. ATTEND DIVINE SERVICE.

AT THE MARK STREET METHODIST CHURCH.

Rev. J. E. Moore, the Pastor, Preached a Most Appropriate and Timely Sermon, Which Commanded Closest Attention.

The Mark street Methodist church was crowded last evening, it being the annual church parade of Courts Stanley and Marmion of the Ancient Order of Foresters.

The pastor, Rev. J. E. Moore, selected for his text I Peter ii, 17: "Honour all men, love the brotherhood, fear God, honour the King." In speaking he said: There are three things which every man should do—1. Seek a personal interest in God's grace. 2. Get your life insured. 3. Make your own will. You won't die any sooner by arranging your family affairs. The A.O.F. claims to be the largest fraternal society in the world. It was instituted prior to 1790, and has a membership of 889,304, with cash assets of $28,000,000; total assets, $70,000,000, and insures for $250 or up to $2,000 at a very low cost; also the order protects its members with sick and funeral benefits—$100 is paid in case of the death of a member and $30 in case of the death of a member's wife or widow. By reference to the year book or sixty-third issue of the Foresters' Directory, I find there are flourishing courts in almost all parts of the habitable globe. The speaker proceeded to expound his text, of which the following is a brief synopsis: The climax of God's creative power was reached when He made man and breathed into his nostrils the breath of life, and man became a living soul. He is the most important being in the universe, allied, as he is, to two worlds, the present and the future, and possesses amazing capabilities, unparalelled influences and responsibilities. Men know thyself. Pope once said: "The proper study of mankind is man." The apostle concludes an admirable discourse with four precepts. Let us take them up seriatim.

I.—HONOUR ALL MEN.

God requires that due respect be given to all men, for of one blood God made all the nations of the earth. The poor are not to be despised. Prov. xvii, 5—"Whoso mocketh the poor reproacheth his Maker, and he that is glad at his calamities shall not be unpunished." God created MAN—not two or more races—in His own moral image, and endowed him with an intellect and the sympathies of humanity fully ripened.

Psychology and anthropology teach that civilization was the primitive condition of man. Originally there was but one language and one family. Gen. xi, 1—"And the whole earth was of one language and one speech." The physical differences of the human race are due to external causes, such as food, climate, the mode of living. While one in origin there were five varieties—the Caucasian, Mongolian, Ethopian, Malayan and American, of which the latter is our proud distinction.

Wicked men are sometimes honoured for their estimable qualities or traits of character, such as courage, eminency, employment, the hoary head, etc. Abraham, Jacob, Samuel, the prophets and the apostle scrupled not at giving honour to even bad men for their work and worth's sake.

II—LOVE THE BROTHERHOOD.

Webster says: Fraternity is the state or quality of being fraternal or brotherly. A brotherhood is a body of men associated together with common interests; it may be in business or pleasure. Society is a grand brotherhood, which is the precious remains of a paradise lost. Fraternal societies have become so numerous, beneficial and influential that my duty just now is no task.

Prof. Drummond says, love is the greatest thing in the world—greater than faith or eloquence. The spectrum of love has nine ingredients as follows: 1, Patience, love suffereth long; 2, kindness, and is kind; 3, generosity, love envieth not; 4, humility, love vaunteth not itself—is not puffed up; 5, courtesy, doth not behave itself unseemly; 6, usefulness, seeketh not her own; 7, good temper, is not easily provoked; 8, guilelessness thinketh no evil; 9, sincerity, rejoiceth not in iniquity but rejoiceth in the truth. Love will climb any mountain, make any sacrifice, brave any danger, endure any hardships, fight any foe. In this brotherhood are men alike disposed—nearly related to each other—have the same object in view. When our Saviour walked and talked with men He said, "A new commandment I give unto you that ye love one another." No unkind words or uncharitable remarks will find a place in your society. An illustration was here given of a woman of the Roman Catholic faith going to the confessional, and to her religious superior she confessed that she was the author of the trouble in the neighbourhood. The priest ordered her to go and bring him a ripe thistle blow. She did so. He took it in his thumb and flinger and blew it to the four winds of heaven. Now for penance go and gather that up again. She exclaimed:—"Holy Father, you have imposed an impossibility upon me. Like spilt milk, it cannot be gathered up again." If you know anything that will make your brothers heart glad run quickly and tell it; but if it is something to cause him to sigh and weep, bottle it up and keep it. Remember time flies, flowers fade, beauty dies, but character is immortal.

III.—FEAR GOD.

True religion lies at the root and is the foundation of every virtue. Not a slavish fear, but a filial fear. God has the first claim on man's affections. When we remember that from His bounteous hands flow all the blessings of this life, we should render Him the homage of sincere hearts. The fear of God signifies the highest reverence. All nature proclaims the goodness of God.

The stars that shine above me,
The flowers that deck the sod,
They all proclaim aloud
The glory of my God.
And shall the voice of nature
Thus glorify its King,
And man, His noblest creature,
No grateful tribute bring?

Shall mercy strew his pathway
And all his senses please
And man withhold the sacrifice of praise.

IV.—HONOUR THE KING.

Men who are true Foresters will be obedient subjects—peace-loving and law-abiding citizens, and whether the occupant of the throne be king or queen, you will respect the laws of the Empire. This is enforced by reason and revelation. Render therefore unto Cæsar the things that are Cæsar's, but unto God the things that are God's.

On behalf of the brothers Mr. Moore thanked the ladies whose gentle hands had brought floral decorations, thus making the service beautiful and attractive. The music was appropriate and well rendered.

The services all day were of an exceedingly interesting character. New life is being infused into everybody through the instrumentality of the new pastor. In the morning two classes met, a young peoples class led by the pastor, which has been just newly organized, and the old people's class, which is general, is led every Sunday morning by Mr. Chas. Noyes and is well attended. Rev. Mr. Moore preached in the morning to a large congregation, his subject being "Christ's Kingdom," his text being taken from Luke 13, 18—19. The choir rendered good music, a part of their service being a trio by male voices, given in good style and very appropriate.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

The game with Stouffville on Thursday has unfortunately had to be postponed, as Markham has entered a protest against the result of the Stouffville—Markham match on Friday last, played at Toronto Island. The Peterboroughs went to a good deal of expense in advertising this game, and trust that their patrons will not be too much disappointed in not being able to witness a match on Thursday.

There will be lacrosse practice to-night. Every player is expected to turn out regularly in future as the semi-finals may be played any day.

THE WHEEL.

An Englishman has invented a pneumatic hub for bicycles. The device is intended to supplant pneumatic tires. Rims are formed around the flanges of the inner hubs to receive annular pneumatic tubes. The outer hub is formed with similar rims concaved inwardly. A pneumatic tube is placed between the pair of rims on each side of the hub, and in order to prevent a sudden side twist from displacing the wheel from the hub, the rims are connected together by means of joints formed of four links of equal length. These joints allow free action in the plane of the wheel, but resist lateral motion. The joints fill the distance between the pneumatic tubes on either side of the hub, the links being journaled in the inner and outer rims and hinged together at the intermediate ends where the links are connected. Several variations in the manner of attaching these toggle joints are indicated in the patent. It has been found that the joints do not interfere with the free cushioning action of the pneumatic tubes but that they afford perfect lateral rigidity.

An Australian, a native of Guigong, New South Wales, has also patented an invention designed to serve the same end, namely, to render pneumatic tires on bicycles superfluous. This invention is a spring hub. The hub, through which the wheel axle passes, has around it near its centre a fixed flange and an adjustable flange plate, or both flanges may be fixed. The flanges are essentially triangular in form and are perforated near the angles to receive bolts by which the inner ends of three spring-pins are attached, extending radially outward. The body of each spring-pin is enclosed in a casing which has at the inner end two transversely extending trunnions which at their outer joints are journaled in metal rings that form the outer hub. These rings are permanently fastened at a fixed distance apart by bolts. The spokes are attached to these rings. Around the spring-pins and within the casings are coiled springs bearing against washers made of rigid material at both ends of the casing. The outer end of the casing is closed by means of a cap with a central perforation in which a nut upon the outer end of the pin may slide snugly while abutting against the outer washer. At the inner end of the casting the pin fits snugly in the perforation of the trunnion so as to be passed freely in or out through the same. Each of the spring-pins is by this arrangement free to slide inwardly against the resistance of the coiled spring, and when one of the spring-pins slides outwardly the other two slide in the opposite direction or vice versa. Yielding cover plates connect the inner and outer hubs on either side of the wheel.

Worth Ten Dollars a Bottle.

Any person who has used Nerviline, the great pain cure, would not be without it if it cost ten dollars a bottle. A good thing is worth its weight in gold, and Nerviline is the best remedy for all kinds of pains. It cures neuralgia in five minutes; toothache in one minute; lame back at one application; headache in a few minutes; and all pains just as rapidly.

A Summer Specific.

Dr. Fowler's Extract of Wild Strawberry cures cholera, cholera morbus, diarrhœa, dysentery, cramps, colic, summer complaint, canker of the mouth and all bowel complaints of children or adults. It is a soothing, effectual and never failing medicine, which gives immediate relief and speedily effects a cure.

PROBABILITIES—Fresh, northwesterly winds; fair and cool.

BOVRIL, LIMITED
27 St. Peter St., MONTREAL.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—450 George Street.

CURES

COLIC, CHOLERA, CHOLERA-MORBUS, DIARRHOEA, DYSENTERY,

And all SUMMER COMPLAINTS of Children or Adults.

PRICE, 35c. Beware of Imitations.

TORONTO MARKETS

Flour—The flour market rules firm, with demand good. Straight rollers are quoted at $3.75 to $3.80.

Bran—The market is dull at $8 west for bran and $9 for shorts. Bran is quoted here at $10.

Wheat—The demand for new wheat for export was good, with sales to-day of 20 cars of red winter at 76c to 77c west. White is quoted at 78c, and old white at 80c west. No. 1 Manitoba hard is quoted at 88c afloat Fort William. This means 91c to 92c Goderich and Owen Sound. No. 2 hard 89c to 90c Goderich or Owen Sound.

Buckwheat—The demand is limited and prices nominal.

Barley—The market is quiet, with no business reported.

Oats—The market is quiet, with demand fair. White sold at 22c to 22½c west and mixed at 21½c.

Peas—The market is quiet and prices are easy at 57c out 47c west.

Oatmeal—The market is quiet and prices steady at $3.10 to $3.20 for cars on track.

Corn—The demand is fair and prices steady, there being sales outside at 27c to 27½c.

Rye—The market is firm with sales outside at 38c west for new.

TORONTO LIVE STOCK MARKET.

Seventy was the number of car loads of live stock received on the market yesterday. There were 1523 cattle, 810 sheep and lambs, 75 calves and 1700 hogs.

The supply of export cattle was good and prices seemed to be maintained; that is, the prices paid on Tuesday and Thursday. We think the average, however, would be somewhat lower, and there was not the activity displayed on Tuesday's market. Exporters sold from $4 to $4.50 per cwt., and in one or two instances a trifle more, but they were for extra heavy picked lots.

J. Dunn bought one load of export cattle, weighing 1273 lbs. each, at $4.35 per cwt., and another load, averaging 1300 lbs., at $4.40 per cwt.

John O'Keefe sold one load of 17 heifers and 6 steers, weighing 1150 lbs. each, at $4.40 per cwt., to Brown & Snell.

Williams & Hall bought 21 exporters from Mr. Murby, averaging 1200 lbs. each, at $4.20 per cwt.

J. & J. Elkins bought from D. O'Leary two loads of good export steers, weighing 1375 lbs. each, at $4.50 per cwt.

R. Pugsley sold one load, weighing a little over 1200 lbs. each, at $4.30 per cwt.

R. Frizzell, Owen Sound, sold one load, weighing 1200 lbs. each, at $4.25 per cwt. to J. Lunness.

J. Lunness bought from Mr. McNicholl two loads of heavy cattle, weighing 1400 lbs. each, for which he paid a trifle over $4.50 per cwt.; but they were an extra fine lot.

There was a fair run of butchers' cattle, which sold all the way from $2.50 per cwt. for inferior, to $3.85 for picked lots.

W. Levack purchased 150 cattle (mixed exporters and butchers') from $2.75 to $4.30 per cwt.

R. McLaughlin sold 25 half butchers' and half exporters at $4 per cwt.

W. J. Barnes of Forest sold 22 butchers' cattle, heifers, steers and cows, weighing 1130 lbs. each, at $3.40 per cwt.

R. Cook sold one load of butchers' at $3 to $3.25 per cwt.

Export bulls sold at $3.50 to $4 per cwt. Mr. C. Zeagman bought seven bulls that averaged him the butter price, and says that he will pay that price for good export bulls.

Prices for stockers remain about the same. H. Mayhew bought 28, weighing 700 lbs. each, at $3.25 per cwt., and $5 buck; also 34, weighing 620 lbs. each, at $3.12½ per cwt.

Milk cows sold from $20 to $38, and there were about 10 on the market. A few good ones are wanted.

Calves brought from $3 to $6 each.

Sheep were in good demand and sold at $3 to $3.37½ per cwt. for good export ewes, and $3.50 off the cars.

Lambs were plentiful and cheaper, selling at $2.50 to $3.25 each.

Bucks $2.50 per cwt.

Mr. Convey sold 230 lambs at $2.75 to $3 each.

BRITISH MARKETS.

Liverpool, Aug. 13.—No. 1 Northern wheat, 7s 3d to 7s 4d; No. 1 Cal., 7s 4d to 7s 5d; red wheat, 7s 2d to 7s 3d; peas, 4s 6d; corn, 3s 0½d; pork, 46s 3d for fine western; lard, 22s 6d; bacon, heavy, 1c. 28s 0d; do., light, 27s 0d; do., short cut, 27s 0d; tallow, 19s 0d; cheese 41s.

London—Wheat off passage, sellers asking 6d advance. English country markets, 6d firmer. Maize on passage dull for American and firm for Danubian, and 3d higher.

Liverpool—Spot wheat firm; futures steady at 6s 11½d for Sept., 6s 9½d for Oct. and Nov. and 6s 9¾d for Dec. Maize steady at 2s 11½d for Aug., 3s for Sept. and 3s 1½d for Oct. Flour 22s 9d.

London—Close—Wheat on passage buyers and sellers apart. Maize on passage dull.

Liverpool—Close—Wheat firm at 6s 11½d for Sept., 6s 10d for Oct. and Nov. and 6s 9¾d for Dec. Maize firm at 2s 11¾d for Aug., 3s 0¾d for Sept. and 3s 1½d for Oct. and Nov. Flour 22s 9d.

Paradoxical.

Grimsonbeak—There's one thing that's pretty hard to understand.

Yoast—And what's that?

"How a man blind drunk can see double."—Yonkers Statesman.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula or consumption. "That," he will tell you, "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c. 50c. and $1.00.

TORONTO GIRL'S SUICIDE.

Edna Mitchell, a Nurse in a Cincinnati Hospital, Took a Number of Morphia Tablets and Died.

Cincinnati, Ohio, Aug. 13.—Miss Edna Mitchell, a pretty nurse at the Jewish Hospital, ended her existence early this morning by taking a number of morphia tablets. It was about 3 o'clock when Miss Lottie McLean, another nurse, found Miss Mitchell lying on a couch in one of the wards in an unconscious condition. She at once sounded the alarm and Drs. Krouse and Zerner responded in a hurry. A hasty examination revealed the fact that Miss Mitchell was suffering from morphia poisoning. All was done to save the life of the unfortunate girl but without avail, the patient expiring a half hour later.

Miss Mitchell was 20 years old and her home was at No. 23 St. Vincent-street, Toronto, Canada. She came to this city a year and four months ago and secured employment at once in the drug department at the Jewish Hospital.

About three months ago Miss Mitchell was given leave of absence to visit her aunt, Mrs. Innes, in Toronto.

While at Niagara Falls she made the acquaintance of a lawyer named Slater, with whom she eloped, and who deserted her in a railway station a few days later. She then returned to this city.

A search of the bed was made after life had been pronounced extinct and a large number of morphia tablets were found under her pillow.

The coroner was notified and will hold an inquest.

Despondency over the affair with Slater is supposed to have prompted the deed.

THE SUN'S HEAT.

Explanation of the Process Constantly Going On.

Astronomers are now pretty generally convinced that the surface matter of the sun is largely carbon in a solid state, rendered incandescent by intense heat, and that, therefore, the sun's light is essentially the same as that of a candle, a wood fire or an electric light. This theory of the solar light radiation is very succinctly presented in the last number of Popular Astronomy by Professor Corrigan, as follows:

That one of the principal elements of the sun's surface matter, or photosphere, is carbon in a state of fine division, and similar to lampblack, is made apparent by a consideration of the following facts. The spectroscope has clearly indicated that the matter of the solar photosphere, whence the sun's light emanates, is incandescent and solid, and, while the internal temperature of the sun is, according to the most trustworthy determinations, nearly 17,000 degrees Fahrenheit, the surface temperature, or that of the photosphere, is 6800 degrees Fahrenheit, and the only known element which can exist in the solid state, even at this lower temperature, is carbon. According to this hypothesis, all the internal matter of the sun, being at a temperature of 17,000 degrees Fahrenheit, is gaseous—although highly compressed—and, being so, is comparatively dark. But this matter, rising in convection currents to the surface, is cooled to the surface temperature, and the particles of carbon then becoming solid and highly incandescent, constitute the photosphere, or luminous shell, which surrounds the more highly heated, but darker internal matter of the sun. The solid, incandescent particles of carbon, descending in streams toward the highly-heated interior of the sun, are there again vaporized by the internal heat and again rise to the surface of the solar globe. In this process of circulation the streams of descending luminous carbon dust constitute, according to this hypothesis, the long, bright filaments which are the distinctive features of the penumbra of a sun-spot, the umbra, or black portion of the spot, being due to the darker, though more highly-heated, internal matter, or nucleus of the sun.

The Heart's Daily Work.

The human heart is practically a force pump about six inches in length and four inches in diameter. It beats 70 times per minute, 4200 times per hour, 100,800 times per day and 36,792,000 times per year, and 2,575,440,000—say two thousand five hundred and seventy-five millions four hundred and forty thousand—times to 70 years, which is "man's" appointed three score years and ten." At each of these beats it forces 2 1-2 ounces of blood through the system, 175 ounces per minute, 656 1-2 pounds per hour, or 7.03 tons per day. All the blood in the body, which is about 30 pounds, passes through the heart every three minutes. This little organ pumps every day what is equal to lifting 122 tons one foot high or one ton 122 feet high—that is, one ton to the top of a 40-yard mill chimney, or sixteen persons seven score each to the same height. During the seventy years of a man's life this marvelous little pump without a single moment's rest night or day, discharges the enormous quantity of 178,850 tons of human blood.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and colds.

CASTORIA

Piles! Piles! Itching Piles.

Symptoms—Moisture intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumour. All druggists or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia. Lyman Sons & Co. Montreal wholesale agents.

FIVE THOUSAND MEN WANTED.

Harvest Hands are in Demand in Manitoba—Greenway May Bring on a General Election—Cyclone at Brandon.

Winnipeg, Aug. 13.—(Special.)—At least 5000 men are wanted for Manitoba harvest fields. Farmers are awaiting with much anxiety the arrival of harvest excursions from Toronto and Montreal.

Winnipeg Catholics expect that Mgr. del Val's report on the school question will be given to the public within three weeks.

The body of Laura Turner, a well-known young Winnipeg girl, drowned in Red River last week, was found this morning, a mile from the scene of the drowning.

Crop reports continue to be of a favorable nature. The harvest is now ready and the only delay is caused by lack of harvest hands.

Ebenezer McCall, Indian agent, while visiting Selkirk, was seized with a paralytic stroke. His right side is completely paralyzed and he is in a critical condition.

A cyclone passed over Brandon to-day about 4.30 o'clock. The sun became darkened and the dust blinding. It lasted from 15 to 20 minutes, and blew down all the wires on Tenth-street, twisted all the electrical wires and broke many windows. It moved a massive brick building occupied by the Sun Printing Company about three inches. Several buildings were unroofed. The City Hall and other buildings are badly damaged, as was the worst storm in the history of the town.

Edward James Clark, late of Ottawa, died in New Zealand in April last leaving £450 in the bank. He died without a will.

MacDougall, who was with Pastor Grant when the latter was drowned in the Nepigon, thinks that deceased was suffering from sunstroke. They were in calm water when the accident occurred and Mr. Grant seemed to fall over in the canoe.

Tons of Garnets Ground Up.

About 3000 tons of garnets are used every year in the United States for making sandpaper. A very small proportion of the garnets have any value to the lapidary, and the best are only semi-precious stones. The costliest come from the Adirondack regions and from Delaware County, Pa. Up in Alaska, near the town of Wrangel, is a veritable garnet mountain, and a corporation has recently been organized to develop it. The Alaska garnets are said to be unusually fine.—Philadelphia Press.

* 1871 *

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

* 1897 *

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

A. STEVENSON, Secretary.

-A sickly, fretful baby is a distressful burden to both of the parents. After passing worried and sleepless nights the father is unfitted for business and the mother for her household duties. If a woman will take proper care of herself during the period preceding motherhood, and see to it that the organs that bear the burdens of maternity are kept strong and healthy, her children will be robust and good-natured. The best medicine for keeping these delicate and important organs in a healthy condition is Dr. Pierce's Favorite Prescription.

Thousands of women have testified to the marvelous action of this remedy. More of it is sold than of all other medicines for the same purpose combined. It acts directly upon the organs involved. It restores their health and vigor. It prepares a woman for the duties of motherhood. It insures the health of baby. It makes its advent easy and almost free from pain. Women who use it do not experience the usual discomforts of the period of gestation. It is the most marvelous medicine ever known for wives and mothers. It is the preparation of an eminent and skillful specialist, Dr. R. V. Pierce, who has been for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Women who wish to know more about it should write him.

"About six years ago my wife became afflicted with female weakness," writes the Rev. I. J. Coppedge, of Elmo, Kaufman County, Texas "She could not stand on her feet of get in any position in which she did not suffer great pain. She was naturally a strong woman I had several physicians to treat her without any permanent relief She despaired of ever again being well She saw an advertisement of your 'Favorite Prescription' and spoke to me about it. I got her a bottle of the medicine which she soon found was helping her. She kept on until she had taken six bottles Since taking the last she has not suffered a moment with the old trouble. She has been well nearly twelve months. The 'Favorite Prescription' was all the medicine she took. She is in good health and we are happy."

STORY OF THE FROG.

THE CROAKER CONSIDERED FROM MANY POINTS OF VIEW.

How to Answer the Question, "What Is a Frog?" How the Eggs Are Laid and the Young Hatched—The Frog as a Bill of Fare Delicacy.

The Famous Tongue.

HE croaker is with us in full force this season. Considered entirely from the epicurean point of view, he is a most ornamental personage, he is a favorite and much more generally called for in the cafe than is usually supposed.

On every bill of fare, that is at all complete, one reads of frogs' legs. They are cooked in any one of a dozen different ways, and our gourmet devours a dozen at his luncheon, but for all that if you ask him what he is eating he is caught, for a thousand chances to one, he cannot say exactly, nor does the scientist himself give a satisfactory answer to the question. So far the best and most exact answer to the question: "What is a frog?" is simply to reply innocently: "A frog."

In the frog family there are a dozen different ways of hatching the eggs, the most curious of which is in the case of one specie where the male winds the long chain of eggs laid by his mate round his body and hides away in a hole until they are ready to hatch. Then he takes a dive into the bog, which is his home, and the little tadpoles breaking from the eggs swim off glad to escape their hungry papa, who would, for his part, gressily eat them all upon the instant, for the frog is a cannibal and does not recognize any duty, even to his young, farther than that of launching them into existence.

Another odd method is that in some species the mother frog makes (or nature makes for her) a nest of her own back. The skin becomes soft, thick and spongy, and the male plants the eggs as they are laid deep in this bed, where they lie in safety until the hatching hour arrives. Still another frog has an external egg pouch, a la kangaroo, in which she carries her eggs, and a fourth by lying upon them causes them to adhere to her thick, soft skin and thus hatches them. The ways of incubation are as numerous as the different species, and often seem almost distinctive, but the breeds seem to flourish.

The tree frog gives an odd example of trust in nature. The old frog lays her egg in the crotch of a tree or the small bowl at the base of the leaf, where it reunites with the stem, and then trusts to nature to keep the soft, bladder-like bag moist enough to hatch. Neither the egg nor the young frog can live without water, but they must get it for themselves. The tree-frog climbs, as does a fly, by means of flattened ends of his fingers and toes, with which he is able by pressure to create sufficient suction to support his weight.

One odd variety of tree frog is found in Borneo, in the Malay Islands. He is a lazy fellow, with very long toes and fingers, and possesses a strong, webbed

THE ONE THAT MAKES THE NOISE.

membrane between them on all four extremities. His flying consists, strictly speaking, in his ability to take an extremely slanting leap from a tree to the ground. His webbed feet, when expanded, represent more surface than his whole body. They cover a space of no less than twelve square inches. This flying tree frog is a dandy, as well, his body being bright green and his feet black and yellow.

We have several varieties of frogs in this latitude. The yellow throat is one that is hard to catch, for he never leaves the ditch where, in the cool slime, he finds his dinner of flies and water spiders always ready. These frogs are caught by means of a rake with a net attached to it, or an iron hoop also netted and attached to a handle. The skilful hunter spies his game and steathily creeps up within throwing distance and the frog is bagged.

It is in hunting the obtuse-nose bull-frog, he of the big, bright eyes, the longest limbs and mammoth size, that the real sport lies. The bull-frog is caught by using a reflector lantern in the bow of a boat. The light seems to fill the frog with the greatest curiosity. He and his brothers come croaking out from their hiding places and lie half floating on the water, their great eyes on the light.

"And we just pick them out of the water same as you would anything else," a frog-catcher of thirty years' experience told me.

The full components for this frog hunt is a boat—any old thing that will keep afloat, with one man to row and another to "pick them out." You must be quiet and expert, but with a little practice the bags will fill up rapidly. Live game is by far the best, as it can be shipped for great distances and sells at the best market prices; for instance, the New York market is almost entirely supplied with frogs from Canada.

From the same old hunter of whom I have already spoken I have the assurance that they catch big frogs by putting hooks under them as they sit on the bank of a ditch sunning themselves and then "perking" it into them by means of a short line attached to the hook. Just how my friends managed to persuade the frogs to sit still upon the hook he could not or would not explain; however, I gathered that the hook and line did very good service in the frog-hunt as many a boy who, with his red flannel bait and painted hook, has bagged his game to his lasting pride and joy can testify.

As the weather grows cold the frogs are more and more scarce, but the demand is there, and they are still relentlessly hunted and killed. They leave their holes in search of water, their staff of life, and it is around a spring or a mud-hole purposely made that the crafty sport awaits his prey. So numb are the poor hoppers that a man has only to pick them up as they feebly jump for impossible escape.

Frog catching has had a revival this year. The bicyclist has found it an added sport to go wheeling out of town with an air-gun or some such instrument and bag a few of the songsters of the night, lod to their lair by their own unwary call. There is and always must be a great dash of excitement in any hunt, and the bull-frog seems to be common property.

CANCER CAN BE CURED.

Operations No Longer Necessary—The Disease Conquered.

The greatest discovery ever made is that given to the world by the Abbott Myron Mason Medical Company, of New York. Cancer can be cured without knife, plaster or pain. Many homes made happy. For centuries this disease has been considered incurable. The Vitalia Remedies not only cure but eradicate the disease by destroying its germs in the blood. It is a vegetable compound, and is easily taken.

The company has opened a branch office in Canada. They will mail free to anyone interested a 100-page book containing valuable information about the workings of this wonderful remedy. Canadian office, The Abbot Myron Mason Medical Co., 238 Yonge street, Toronto. In writing please mention Department C.P.

The Effect of Food.

Habitually eating soft foods, even soft bread, to the exclusion of everything that is hard or crusty, is not only weakening to the digestive organs, but it leads to rapid decay of the teeth. When these are not used in the mastication of harder foods the teeth become covered with tartar and sometimes loosen in their sockets, or the gums will bleed. The use of hard bread and other substances requiring mastication will do more to preserve the teeth than all other things put together. It will also tend to keep them clean, and by insuring good digestion it will help to make the breath fresh and pure. Those who suffer from indigestion instinctively reject the softer, sloppy foods, as they are apt to make disturbance almost as soon as swallowed. They instinctively give preference to the harder or more solid foods—those that require thorough mastication and insalivation.—Boston Budget.

Popular Hotel Man.

"I was troubled with pimples on my face and head which caused me much annoyance. After trying many remedies without benefit I was advised to take Hood's Sarsaparilla. The first bottle helped me and I took four bottles. I am now completly cured." JAMES REILLEY, Proprietor Chapman House, Sarnia, Ont.

Hood's Pills act easily and promptly on the liver and bowels. Cure sick headache.

EVENING AND MORNING.

The day is done,
The night has come,
The sunbeams through the leaves are streaming,
No song of bird
In tree is heard
The soothing night-wind comes with hailing.

My work is done,
Sweet rest has come,
At home, where loved ones are abiding:
For rest is sweet
To those who meet
At evening with hearts confiding.

The night has fled,
The sun has sped
With flashing steps comes o'er the hills;
The earth awakes,
And music breaks
From joyous birds and laughing rills.

To work again,
Mid sun or rain
With joyful heart I haste me forth;
For work well done
Brings surer peace than wealth or birth,
At setting sun.

WILLIAM SPANTON.

HAVE YOU CATARRH?

But One Sure Remedy—Obtain It for 25 Cents, Blower Included, and be Cured.

Catarrh is a disagreeable and offensive disease. It usually results from a cold and often ends in consumption and death. The one effective remedy so far discovered for it is Dr. Chase's Catarrh Cure.

Physicians failed to cure Geo. Belfrey, toll-gate keeper, Holland Landing road. Chase's Catarrh Cure did it.

One box cured William Kneeshaw and two boxes James T. Stoddard, both of West Gwillimbury.

Division Court Clerk Joel Rogers, Robert J. Hoover and Geo. Taylor, all of Beeton, voluntarily certify to the efficacy of Chase's Catarrh Cure.

J. W. Jennison, of Gilford, spent nearly $300 on doctors, but found no permanent relief until he tried a 25-cent box of Chase's.

Miss Dwyer, of Alliston, got rid of a cold in the head in 12 hours.

Henry R. Nicholls, 176 Rectory street, London, tried a box with excellent effect.

Dr. Chase's Catarrh Cure is for sale by any dealer, or by Edmanson, Bates & Co., Toronto. Price 25 cents including blower.

Coughs, colds and bronchial troubles readily cured by the latest discovery, Chase's Linseed and Turpentine. Pleasant and easy to take. 25 cents.

THE STEAMER

"North Star"

—:o:—

DAILY TRIPS TO IDYL WYLD.

The "North Star" makes daily trips to Idyl Wyld and return, leaving C.P.R. Wharf at 9 a.m., calling at Gore's Landing 11.30, Harwood 12, arriving at Idyl Wyld at 12.30. Return fare, including dinner at Idyl Wyld, only 50 cents.

On Saturday the steamer leaves Peterborough at 2 p.m., and on arrival at Idyl Wyld supper is included. Returning the steamer will leave at 4.30, arriving at Peterborough at 7.30.

On WEDNESDAYS and FRIDAYS the steamer will take the excursionists to witness the SERPENTINE MOUNDS on Roache's Point, Rice Lake, free of charge. These remarkable evidences of the pre-historic occupation of the country by a people far ante-dating the Indian, will form one of the most interesting attractions of the "North Star" Idyl Wyld trips.

B. M. EDEN, Master.

W. BUNTON, G.T.R. Ticket Agent, Peterborough. Telephone 238.

THE NEW

STEAMER SUNBEAM

Will run until further notice from Lakefield to Stony Lake every Monday, Thursday and Saturday, on the arrival of the 7. p.m. train from Peterborough.

On Wednesdays the Sunbeam will run a trip from Lakefield to Chemong, leaving Lakefield on the arrival of the 9 a.m train. Returning will leave Chemong at 8.30 on Thursday morning, arriving in Lakefield to connect with the 4.15 p.m train.

In connection with these round trips, Bunsen will leave Chemong on arrival of boat, on Wednesday evening; and on Thursday morning will leave Post Office corner, Peterborough, at 7.30 for Chemong, connecting with boat for Lakefield. For particulars, apply at R. H. Leary's Livery Office, 385 Water Street.

On all other days the Sunbeam will be open for charter for excursions, &c., at reasonable rates.

This fast, new steamer has been specially built to accommodate tourists and excursionists on the beautiful chain of waters of Chemong, Buckhorn, Lovesick, Stony, Clear and Katchewancoka Lakes, and will be found to combine in the highest degree safety, comfort and speed.

Tickets can be procured from W. BUNTON, City Agent, G. T. R.

For further particulars apply to

WHITE & GRYLLS, Lakefield, Ont.

Or WARREN TRICKEY, Agent Peterborough

THE NEW STEAMER

MAJESTIC

THE GRAND LODGE OF ODDFELLOWS.

THE CONCLUDING SESSION HELD IN BELLEVILLE ON FRIDAY.

Business for the Year is Over and the Delegates Return to Their Homes—Some Important Amendments to the Constitution Discussed.

Belleville, Thursday, Aug. 12.

AFTERNOON SESSION.

Grand Lodge resumed according to adjournment.

A number of questions handed to the Grand Master were by him referred to the Judging Committee.

Grand Treasurer McCormack, who was appointed by the Grand Master on the death of Grand Treasurer Badenach, and P. G. M. John Welch, of Stratford, were nominated for that position. Rep. McCormack was elected.

The nominations for Grand Representative—for which only P. G. Ms. are eligible—were: Henry Robertson, Collingwood; R. W. Bell, Peterborough; J. B. McIntyre, St. Catharines; Thomas Woodyatt, Brantford. There was no choice on the first ballot, and on the second ballot only Bros. Woodyatt and McIntyre remained. The ballot was in favour of Woodyatt.

Rep. Chas. Packert, of Stratford, Grand Auditor, was re-elected by acclamation.

P. G. M. Hornibrook submitted a reply to the greeting of the Grand Lodge of Manitoba, wishing prosperity to her younger sister.

The report of the Committee on Home for Aged Oddfellows and Orphans was presented by P.G.R. Campbell and Rep. Cameron seconded its adoption. The report recommends the establishment of a Home, the funds to be provided from funds and property of lodges defunct more than five years, and ten cents per capita payable by each subordinate lodge every year for six months for five years, the first payment to be made with the semi-annual returns for 1897, together with all donations for the same. The work not to be proceeded with until the sum of $10,000 has been raised.

In an able argument, P. G. S. Campbell urged that the effect of the establishment of Homes in other jurisdictions had been to add greatly to the success of the Order. He had visited many of those homes and had found them of the greatest benefit to those who ought to be the wards of the Order and doing a God-like work.

The subject was discussed by several representatives, pro and con, many expressing opposition to the proposed addition to the per capita tax.

Grand Representative Hoyle moved, seconded by P. G. M. Hornibrook, for the reference back of the report for the elimination from the report of increase in the capitation tax and annual appropriations from the Grand Lodge substituted.

The amendment was carried and the remaining clauses were adopted with a verbal amendment.

The report on transfer of membership was moved for adoption by Rep. Sheppard, seconded by Rep. Armor. It recommends that members joining by card be admitted on payment of one-half the initiation fee, less $2. The report was adopted subject to reference to the Judiciary Committee, as to its validity.

Grand Lodge adjourned until 7.30 this evening.

EVENING SESSION.

Grand Lodge opened at 7.35 o'clock.

The report of the Committee on Dues and Benefits was introduced by Rep. Meek and seconded by Rep. Smoke. The report recommends graduated assessments and graduated dues, according to age at the time of joining with graduated benefits, to be uniform in all lodges. Recommendations to take effect after January 1st, 1898, members joining previously not to be effected.

A long and animated discussion took place on the report, which it was finally decided should be printed in its present form, and sent to the lodges for consideration next year, and that there be submitted with it an actuarial estimate of the amount of benefits that can be paid on an annual contribution of $6.

A supplementary report of the Home Committee was submitted by P. G. Sire Campbell. It provides a contribution of $1000 for this year.—Adopted.

Past Grand Sire Campbell was elected Director for three years; Grand Representative Hoyle for one year, and Grand Master White for one year.

Rep. Bushell submitted the report of the Committee on Credentials, which was adopted.

P. G. M. Hoyle moved for consideration of the report of the Committee on the "Dominion Oddfellow" from last year.

The matter was discussed.

The report proposed to furnish the Dominion Oddfellow, to be published semi-monthly, to each member in the Jurisdiction, Grand Lodge to pay 15c. per year for each copy, and members to pay 10c per year each for the same. The report was indefinitely postponed.

Special Committee No. 1 on Grand Master's report recommended the appointment of a Grand Lodge Solicitor, the retainer to be a fee of $50, was presented by Rep. Meek, and adopted.

P. G. R. Oliver presented the report of the Committee on the State of the Order on the clauses of the Grand Master's report on the state of the order, favourably considering the same. Adopted.

Also, further reports on paragraphs in the reports of the Grand Master and Grand Secretary, which were adopted.

Grand Lodge adjourned at 10.30.

THIRD DAY.

Grand Lodge opened promptly at nine o'clock.

Rep. Blackeby presented the report of the Finance Committee, recommending the payment of one-half of the costs incurred by lodges which became involved in litigation, namely, $550, which was adopted.

Rep. Rawlins presented a voluminous report from the committee on the Laws of Subordinates, which was adopted.

The report of the committee on the State of the Order, presented by Rep. Thompson, speaks approvingly of the Grand Master's action in matters referred to them, and of the manner in which the Grand Master had filled his position, was adopted.

By the report of the Committee presented by P.G.M. Hornibrook decision No. 7 of the G.M., that a member may change his occupation to that of a bar-tender, there being a decision of the Grand Sire, confirmed by the Sovereign, to a contrary effect.

Decision No. 7, that a lodge by-law is improper which provides that a lodge has power to "withold or refuse payment to a widow who has been living apart from her husband under circumstonces which, in the opinion of the lodge, disentitle her to widows' benefits," was also disapproved. The report was not, however, in line with the decision of the Grand Master, as the question as to immoral conduct on the part of the widow, which was involved in the finding of the Committee, was not submitted to him.

Rep. Welsh, presented report of the Committee on Judiciary affirming the legality of yesterday's legislation as to transfer of membership.

Rep. Dark presented report of Special Committee No. 2, recommending the appointmen of a paid officer to visit the lodges, which may not be in good working order, was rejected, so far as that recommendation was concerned.

The case of Delta Lodge, which had, without authorization, issued a circular to the order, asking lodges for contributions towards the erection of their hall, which had been destroyed by fire; which had been directed by the Grand Master to return the money received, and had not done so, was brought up on report of a Special Committee. After explanation by the representatives of the lodge, the report was refered back to the committee with instructions to insert a clause accepting the explanation, and allowing the retention of the money, but that this case must not be taken as a precedent.

Invitations for the holding of the next annual meeting were received from Galt and Port Arthur, and that from Galt was accepted.

Rep. Lewis presented the report of Committee on Legislation in favour of non-beneficial membership under certain restrictions, dues to be not less than $1 per annum.—Adopted.

Grand Lodge rose at 12.15.

AFTERNOON SESSION.

At the afternoon's session it was resolved on report of a committee, to divide district No. 26 into two, and the Grand Lodge was recommended to re-arrange the districts during recess.

P. G. M. Hoyle and Grand Secretary King exemplified the secret work of the Order.

Legislation was recommended empowering lodges to employ physicians and to pay them.

The following nominations for Grand Officers for 1898 were made:—Grand Master, J. E. Farewell; Deputy Grand Master, J. H. McLurg; Grand Warden, Joseph Powell, J. W. Grote, W. Bissett, W. S. Given, C. C. Lyman, W. Warnerek, O. L. Lewis, A. W. Cameron, A. M. Candlish, J. Hewer, A. McFarlane, R. K. Cowan, G. Geddes, H. Wilson, J. E. Ryan, J. Unsworth, Rev. W. J. Saunders, H. Rowland, W. S. Johnston, A. Coyle; Grand Secretary, J. B. King; Grand Treasurer, W. J. McCormack; Grand Representative, H. White, W. H. Hoyle, J. B. McIntyre.

The Grand Officers are stationed as follows: Grand Master, J. A. Young, Thamesford; Deputy G. M., S E Farewell, Whitby; Grand Warden, J. H. McLurg, Woodstock; Grand Secretary, J. B. King, Toronto; Grand Treasurer, J. M. Livemark, Toronto; Grand Marshal, Geo. Geddes, Tilsonburg; Grand Conductor, K. H. Perry, Bergen; Grand Guardian, J. W. Simpson, Parkhill; Grand Herald, R. H. Rome, Pembroke; Grand Chaplain, the Rev. A. L. Geen, Belleville; Junior Past Grand Master, Henry White, Port Hope.

The Grand Lodge was then closed.

The Life of Dr. Chase.

As a compiler of Chase's Recipe Book, his name is familiar in every household in the land, while as a physician his works on simple formulas left an imprint of his name that will be handed down from generation to generation. His last great medicine, in the form of Syrup of Linseed and Turpentine, is is having the large public patronage that his Ointment, Pills and Catarrh Cure are having. Dr. Chase's Syruy of Linseed and Turpentine is especially adapted for all Bronchial and Asthmatic troubles.

The Wabash Railway Trains

A Double Cure.

Mrs. Jas. E. Elwood, St. Thomas, Ont., says:—"My husband and myself have taken Doan's Kidney Pills. We used them for kidney and back trouble for which we had spent a great deal of money without getting relief. Doan's Pills cured us both in a remarkably short time. I believe they will cure even after all other medicines fail."

ONE OF THE GREAT
INVENTIONS OF THE AGE.

BERNARD TRAINOR'S Monster
WOOD AND COAL FIRE KINDLER.

Guaranteed to keep a full and constant blaze over 18 inches high for ten minutes. No kindling wood required. It will kindle two fires each time, even though the wood be damp or green. Boils two quarts of water without fuel. I have flattering testimonials and carry them with me as vouchers from different residents and Business men of Almonte Pembroke, Arnprior, Ottawa, Renfrew, Smith's Falls, etc., who are using the kindler from one to three years, to certify that it is still in use and as good as ever. These men recommend them to the public. With care every kindler is everlasting. I also manufacture a larger one which throws 4 times the heat of the smaller one, and that will of itself boil all small water required, which is a great convenience in the hot summer weather, and will without fail light any coal stove from under the grate, and is a magnificent fishing torch for spearing, etc. The kindler is used with a coal oil liquid and is safe in every form. One gallon of oil is sufficient to light one stove for one year. This is cheap kindling wood. Price, 50c and $1.00.

Mr. Trainor, the inventor, is at Clancy's Peterborough House, Hunter street, and will make a thorough canvass of the town.

A GREAT BIG BROAD-GUAGE BUILDING SALE

Serious Disturbance to Business.

On next Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

THIS MONTH we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—**BECAUSE WE HAVE TO.**

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

In the general overhauling, there will be brought to light, accumulations of Odd Suits, Odd Lengths, small quantities and Remnants, throughout the various departments which will be let go at prices to dispose of quickly.

Come and hear the Prices Snap and don't forget that we stand ready to return your money without question if you are dissatisfied with your Bargains.

SOME OF THE BIGGEST CHANCES OF THE YEAR.

The month of August brings with it some of the biggest chances of the year. The approach of the fall season beginning in September has to be provided for considerably in advance. Making room is a perplexing problem, and many extraordinary sacrifices of really good lines have to be made. Be wise in time. These are—

REMNANT DAYS....

Every Remnant in stock, placed on tables and an entire clearance must be made. Lengths from 1½ to 10 yards, in Silk, Black and Coloured Dress Goods, Linens, Cottons, Prints, Flannels, Cretonnes, Linings, Straw Hats, Ribbons, Laces, Embroideries, etc., all reduced, equal to ONE HALF THEIR FORMER PRICES. Don't miss this this snap

MISS RUDKINS'

CRYSTAL BLOCK—NEXT LONG'S STORE.

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c Remember the address—

MURRAY IS AT WORK

On the Mysterious Case of Mrs. Orr's Death.

NEW DEVELOPMENTS COMING OUT.

The Arrests Already Made Amount to Nothing - A Galt Man Brought Into the Affair Rather Prominently—The Old Musket in the Case Had Been Fired.

Galt, Aug. 16.—The arrival of Inspector Murray and a swarm of reporters has served to further intensify the excitement of the townspeople and farmers hereabouts over the mysterious murder of Mrs. Anthony Orr. There are about as many theories as there are people in this town. The tragedy is as perplexing a mystery as Sherlock Holmes was ever called upon to unravel.

Now, as to the names of those whom suspicions have connected with the tragedy.

Harry Blair is an implement agent and resides in this town. He is about 50 years of age. He is a married man and well known throughout the whole neighborhood.

James Allison, whose father is the town scavenger, has been working on the Orr farm since March last. He is 16 years of age. He was the first to notify Anthony Orr of his wife's disappearance.

Waldron Sidney Trevelyan is a third year medical student at McGill College, Montreal, whose connection with the family dates back several years. He is 27 years of age and of prepossessing appearance, intelligent and pleasant in his manner.

Anthony Orr, husband of the dead woman, is 49 years of age and rather eccentric in his habits. He appears to have had a sincere affection for his wife, whose elopement four years ago he pardoned, although his own relatives would not allow the body of the dead woman to be interred in the family plot, Anthony, or Tony, as he is familiarly called, said: "She was a sweet woman and I will give her a decent burial."

Now, as to the facts in reference to each of the suspected persons and their doings and movements before and after the tragedy. The circumstances are as follows.

Harry Blair's connection with the woman dates back two or three years. Some time in 1896 he was ousted in Mrs. Orr's affections by a hired man named Fred Sprung. Her amour with Sprung caused Blair to write a sharp letter, dated June 6, 1896, in which he said: "You and the Dutchman can't work me for a cent." This letter is now in possession of the authorities. After this Blair called no more at the Orr farm until Saturday, Aug. 7, two days before the tragedy. According to the story of Maggie, the 10-year-old daughter of deceased, Blair presented each of the children with a quarter and offered Mrs. Orr a dollar, which she refused. The children do not appear to be aware of the conversation that took place after this episode. With reference to this visit Orr himself says that Mrs. Orr said to him:

"Who do you think was here to-day?"

"I don't know," replied Orr.

"Why, that Blair. I saw him coming and locked the front door and ran around to lock the back door, but he got in."

Whether by appointment or not Blair visited the Orr farm on Monday morning, the day of the tragedy. The time of his arrival is in dispute. This much, however, is known: at 8.30 he purchased a roast of beef at William Grill's butcher shop on West Main-street. John Roddy, a milkman, who lives at Roseville Station, says positively that sometime between 8.30 and 9 o'clock on Monday morning last, the day of the tragedy, when he was driving the milk wagon to the factory, he met Harry Blair going west on the Roseville road and near Orr's gate. Roddy is very positive about meeting him, and says he knows him very well by sight, but that he cannot fix the time any closer. At any rate Blair was not at the Orr farm when Anthony Orr returned at 10 o'clock, wherever he may have been during the interval. When Orr got back Allison met him at the gate and told him of his wife's disappearance. Fifteen minutes after Orr returned Blair came to the house, bringing with him a roast of beef, which he took into the cellar and proceeded to salt it, in company with Maggie, the 10-year-old daughter. Orr told him of his wife's disappearance, and Blair remained all day, assisting in the search.

In the afternoon Blair, according to the statement of John Orr, a brother of Anthony's, repeatedly put the searching party on a wrong scent by sending them in a direction both opposite to the grave in the swamp and the grave in the corn patch. John Orr says he noticed that Blair frequently deserted the party and returned to the house. At last he became suspicious, and put a watch on him. Bailey Cowan, who reported to him that Blair had been in the cellar rummaging around. About 6 o'clock in the evening the search party went to John Orr's for supper. Looking back as he crossed the field Orr saw Blair looking out of the back door toward the garden and corn patch. When Blair saw that he was observed he withdrew his head and disappeared into the house. When John Orr and the search party returned Maggie, the little daughter, told him that Blair had her mother's watch, which, by the way, was a present he had given to her. John Orr says that he asked Blair to return the watch, but Blair refused to give it to anyone but Tony Orr. When Tony asked for it Blair, who was in his shirt sleeves, went out into the back kitchen and took the watch from his inside breast pocket. The little girl, Maggie, also said that while they were away at supper she had gone upstairs with Blair, who had asked her where her mother kept her keys. The keys were not found, and after the watch incident Blair left.

Blair's own story is that he went to the railway station on Monday morning *to see the excursion trains go out.* There were two excursions that morning, as it was Galt's Civic Holiday—one at 7.30 and another at 7.40. This story is substantiated to a considerable degree by an employe of Blair's, who says he saw him at the station that morning, and that he went away immediately afterwards. Next morning he remembered wondering where Blair had gone after leaving the station. With reference to Sprung it is reported that Blair advised Tony Orr to get rid of him, and it is even said that he got the money for Orr to pay Sprung his back wages. Blair may be the victim of an extraordinary chain of circumstances, but at present, although he is not yet under arrest, suspicion points to him unpleasantly. He is married, with several children, and is known as a shrewd business man.

James Allison, who is under arrest, is a lad of 16 years, of slight build, and not particularly intelligent. He has been *working for the Orrs since March* last. On the morning of the tragedy he left the farm at 7.30, with two cows for the Barrie farm, a mile and a half east. He arrived there at 8 o'clock and left about 8.30, arriving home about 9 o'clock. When Orr returned, about 10 o'clock, Allison met him at the gate and told him that Mrs. Orr was missing and could not be found. Allison was laughing and seemed to regard the matter as a joke. He assisted in the search, however, and, in company with Norman, the young son, was the first to discover the unused grave in the swamp last Wednesday afternoon.

Anthony Orr left the farm at 7 o'clock *on the morning of the tragedy* with a cow for a neighbor. He returned about 10 o'clock. This is Orr's story and is borne out by the boy. When informed of his wife's disappearance, he became almost frantic and at once instituted a vigorous search. He went to town to inform the authorities, and all the rest of the week he was most urgent to discover the whereabouts of his missing wife. This afternoon a pair of blood-stained trousers, belonging to Orr, were discovered in the house, but these are explained as having been used to wrap around the body when it was discovered. As yet very little suspicion attaches to the husband.

Waldron Sidney Trevelyan, who is also in custody, has known the Orrs for many years, having worked as a farm laborer for them some ten years ago. He says he is a third year medical student at McGill Medical College, but refuses to tell under what name he is registered at that institution. He is a clever and ambitious young fellow, not too proud to take any job, however humble, that will procure him funds for his college education. He was last at the Orr farm on Friday, when Orr ordered him off, saying that the neighbors were talking. On the following Monday, the day of the tragedy, Detective Murray says that Trevelyan can prove an alibi by at least a dozen witnesses.

The veteran detective is much nettled at the manner in which the case has been handled. He considers the arrests a mistake, especially as it renders Allison unavailable as a witness. With this in view, it is not likely there will be any more arrests until after the inquest, and perhaps until after the preliminary investigation.

Coming to the gunshot and Allison's gun, which figures prominently in the case, John Orr says that he heard a *shot somewhere* between 8 and 9 o'clock and that his wife went out on the verandah, which is about 500 yards distant, and, looking towards the lane whence the sound came, could see nothing. The little girl Maggie, who was asleep upstairs, was wakened by a noise, as though someone was breaking wood, but she heard no wood thrown on the woodpile. Allison's gun was discovered on Sunday afternoon in the masonry of the barn, with a discharged shell in it. A portion of the lower rail of the snake fence which runs along the lane where Orr last saw his wife milking the cows was chopped off by Chief Ahern this morning, and taken to Galt as an exhibit. It contained three or four shots. The shot was fired from the gun found at the barn and is of peculiar make. It is what is known as a breech-loading Zulu musket.

The latest theory is that whoever fired at the woman chased her through the garden to the lane and shot at her as she was trying to get through the fence, but, not hitting her, used the butt end of the gun with which to fell her, and from there dragged the body the few yards to where it was found buried in the corn patch. Whether the woman fired at an assailant and missed or whether the assailant fired at the woman is still a matter of mystery. It is more probable, however, that the gun was in the hands of the woman, because a man, being more dexterous in the use of such arms, would not likely miss his mark, and some shots would be found in the woman's legs, which is about the elevation of the bullets in the fence. This to a certain extent bears out young Allison's story that Mrs. Orr inquired of him on the morning of the tragedy how to use the gun. Then the woman, having missed, she ran for the fence leading to the corn patch, and as she was stooping under the bars was hit on the top of the head, as the post-mortem shows, by some blunt instrument, probably a billet of wood or perhaps the gun used as a club.

At any rate no stains were found on the gun, and this afternoon a piece of wood which might have inflicted such a wound was picked up on the corner of the fence near the corn patch. It was a stout cudgel of red oak, about four feet long, the end cut and slightly jagged. On it were red stains, deeply engrained. This strengthens another of Allison's stories that when he came back from Barrie he went to work raking up a pile of chips which Mrs. Orr had told him he was to do as soon as he came back. In this pile he says he discovered several clots of blood and a stick stained with blood, which he threw away in a corner. Allison also says that he saw a man approaching the house as he was leaving that morning. Allison has retained John R. Blake to defend him, while Trevelyan has employed Lawyer W. D. Card.

An immense crowd attended the funeral today at Mountview Cemetery. The cortege arrived at the grave at 3.15, Rev. Marcus Cott of Detroit officiating. The husband of the murdered woman stood beside the grave in an apparently dazed condition, showing very little emotion, meeting the gaze of the large crowd surrounding the mourners with an almost unchanged face.

WHAT BONANZA MACKAY SAYS

About the Rush to the Klondike Gold District Go If You Have Money and No Wife.

Mr. J. W. Mackay, the millionaire whose enormous fortune was started by a gold boom of other days, has been applied to for his opinion on the Klondike gold fields and their chances. Here is what he says, given in characteristic millionaire fashion: "Many will fail, and all will suffer privations, which they little expect. The conditions in Yukon region are, of course, very different from those in California or Nevada, or any other American mining region. Primitive mining is always difficult, but in California we had a good climate, and I do not recall many instances where men suffered for lack of food. But the young fortune-hunter who went to California from the East, if he exhausted his resources and struck nothing, could at least write back to his folks for money to take him home. In Alaska it is different. For nine months of the year the rivers and lakes are almost impassable. The climate is damp, foggy and miserable. The nearest telegraph and even the nearest postoffice is 1500 or 1600 miles away from the gold fields.

"I am sure that the Klondike gold fields are enormously rich. All parts of the country will be opened. Capital will fly there; for men will brave everything for money."

"What advice would you give to those who are going to the Yukon districts?"

"To prepare for great privations and perhaps utter disappointment. The climate is intensely hot for a few weeks, and dreadfully cold for many months. There is certain to be a scanty supply of food next winter. No one should go who is not provided against Arctic weather and against starvation, nor without ready cash. The well and strong will naturally fare better than the weak. A dozen young men have asked me already about going there. I told them that if a man had a thousand dollars, a good constitution, and no wife and children he could go there or anywhere."

THROWING AWAY THEIR PACKS.

In the Mad Rush for the Klondike Men Are Sacrificing the Present for the Uncertain Future.

Washington, Aug. 16.—William J. Jones, U.S. Commissioner to Alaska, assigned to St. Michael's, has sent to the Interior Department the following report on the gold rush, in a letter dated at Dyea, Alaska, Aug. 4:

"There are nearly 1800 people in Dyea and Skaguay routes and both trails are blocked. People are throwing away their packs and provisions and rushing headlong to the mines. Great distress, hardship and suffering, and possibly death from hunger and exposure, is sure to follow next winter, an opinion that is entertained by all old Alaska miners who know the situation."

Second Assistant Postmaster General Shallenberger has been notified by telegraph that arrangements were made to-day for forwarding mails for the Alaskan gold fields by steamer Humboldt, which sails this evening from Seattle. The Humboldt goes direct to St. Michael's and the mails will be forwarded immediately to Circle City and the Klondike field.

About 300 pounds of mail matter is thus being shipped, together with numerous money remittances.

COMMUNICATION WITH KLONDIKE.

Canadian Government Proposes a Telegraph Line to Operate During the Winter.

Washington, Aug. 16.—The Canadian Government has submitted a formal proposal to the United States Government to establish communication with the Klondike region in Alaska by the construction of a telegraph line from the head of winter navigation on the Lynn Canal into the centre of the Klondike region. The proposals have been taken under advisement.

They have been approved by the British Principal Secretary of State for Foreign Affairs, and were forwarded by the Governor-General of Canada, through the British Embassy, to the State Department and referred to the Interior Department. There the papers are locked up pending consideration.

The Canadian Government seems so readiness to undertake to open communication by constructing a telegraph line from the head of winter navigation on the Lynn Canal, traversing a distance of 80 miles across the summit of the mountain range, from which a trail can be followed to Fort Selkirk and to Klondike. The Government also signifies its intention, in case the propositions are adopted, to establish suitable places for shelter at intervals of from 40 to 50 miles along the line, and to keep up dog trains during the winter months for the conveyance of the mails to and from the interior.

TUESDAY, AUGUST 17, 1897.

"FRIENDS" NOT WANTED.

The Simcoe Reformer is not particularly pleased to see the extremely friendly attitude Conservatiue papers have taken towards it since its recent criticisms of the Government at Ottawa, and reminds them that "independence is not tolerated in the Tory ranks and that the dirtiest doses of corruption had to be swallowed by both press and members until there was an upheaval by a section of their own sufficient to destroy their Ottawa administration." But that is a mild preliminary canter. Later on in the article of the Simcoe paper we find this :

"The Reformer wants not, nor does it need any approval from that No Popery rag, the Hamilton Spectator, and least of all is it desirous of being associated with the Mail and Empire, a newspaper that has played for many years the role of journalistic assassin and turned around like a weathercock to earn a mean dollar or accomplish some mean end. Let decent Tory newspapers speak by all means and approve or disapprove of what we say, but let that old bedraggled journalistic slut, the Mail, purge itself of the old bribery plot that was hatched under its roof and cleanse itself along with the Hamilton Spec. of the P.P.A. slime that they laved in before presuming to lecture the Liberal party or any of its members. The Liberal party will take care of itself and shield its banner from defilement without aid from Tory journals or Tories under any guise."

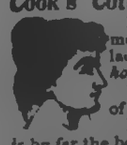
We wonder will the Mail and the Spec. crow over this editorial utterance as they have over some others from the same pen. We doubt it. Nor do we expect to see them quote the following paragraph from the same paper :

"The Province of Ontario demands a clean Government above all things, and when she has her affairs in safe hands and her common weal guarded by such men as compose the Hardy Government, it would be an act of supreme folly to change them. Now, good readers, ask yourselves if there is any comparison between Messrs. Hardy, Ross, Gibson, Dryden, Harcourt, Davis and Harty and the men who form the rump of the Provincial Tories. Of the Premier himself, it can be said that this Province has given few men indeed more capable and none more distinguished for vigilant watching over his departments and absolute freedom from any act of partiality where such was at the expense of the public weal.

THE Winnipeg Tribune says :—"Although a Premier of but one year, Mr. Laurier has accomplished as much as many an able Premier would in a decade or two. He has settled the school question and restored comparative harmony between the races, he has revised the tariff, if not to the satisfaction of all the Provinces, at at least to the apparent satisfaction of all the business people of Canada and the bulk of the population, and now, as a crowning triumph, he has induced the British Government to set Canada commercially free and leave her to work out untrammelled her own fiscal destiny."

THE London (Eng.) St. James Gazette in a recent editorial said :—"It appears that in Canada—where the filled cheese comes from—it is the practice of unscrupulous dealers to use metallic lead to enable a round of cheese to preserve for a long period a fresh and youthful complexion."

Cook's Cotton Root Compound



Is the only safe, reliable monthly medicine on which ladies can depend in the *hour and time of need.*

Is prepared in two degrees of strength.

No. 1 for ordinary cases is by far the best dollar medicine known—sold by druggists, one Dollar per box.

No. 2 for special cases—10 degrees stronger—sold by druggists. One box, Three Dollars; two boxes, Five Dollars.

No. 1, or No. 2, mailed on receipt of price and two 3-cent stamps.

The Cook Company, Windsor, Ontario.

Sold in Peterborough and everywhere in Canada by all responsible druggists

It is to be hoped the Dominion Government will investigate this gross libel on Canadian cheese, correct the knowledge of the Gazette's editorial writers and endeavour to get at the source of their erroneous information. There is a law in the Dominion prohibiting the manufacture, importation, and export of filled cheese. There is a law preventing the adulteration of cheese. And so great confidence have Canadians in the quality of their dairy products, that at last session of parliament a law was passed making it compulsory that every cheese exported from Canada should be branded "Canadian."

CIRCUS men are hard to fight against. In a recent row in a circus tent at Quebec a large elephant was set loose, a panic followed, and the crowd scampered in quick order.—Parkhill Gazette-Review.

They are a hard crowd to fight, even without their elephants. They have a rallying cry, at the sound of which every man drops whatever he is doing, grabs the first weapon handy, whether it be a stake, sledge, piece of iron, or revolver, and hastens to the spot from which the cry proceeds. Equestrians run their horses at the crowd, acrobats jump on people's heads, the "razor-backs" wield clubs, and sensible people steer clear of the lot as fast as they know how. There was such a fight in Toronto some years ago, which will never be forgotten by those who witnessed it. If you ever hear a person shout "Hey, Rube!" on a circus lot, don't stop to ask questions, but go home by the nearest route. You can read all about it in the papers afterwards.

VANCOUVER B.C. SPECIAL LETTER.

The Coquitlan Started for the Klondike With Several Vancouverites Who Will Do Trading.

Vancouver, B.C., Aug. 10.—(Special Correspondence.)—The steamer Coquitlan started for Klondike this week from Vancouver, loaded down with men and freight. Several prominent Vancouver men past vigorous youth were passengers. They took a large supply of provisions, which they will exchange for gold dust. The Coquitlan was the first steamer to return from the diggings. Her captain reported that Dyea was crowded with miners bound for Klondike, that there seemed to be an abundance of provisions and a large number of pack horses, and he thought everybody already there would get through before winter. On returning six steamers bound for Dyea were spoken.

Harrison Lake Camp, New Westminster district, close to the city of that name, is becoming a very popular camp. Numerous very rich leads have been located around the famous Fire Mountain property, and in Fire Lake, below this property, rich galena has been found in place. The property in the camp all assays very high.

There is no fresh news of Lillooet. The Golden Cache mill is still under process of establishment, and is being pushed to completion as rapidly as possible. Mr. Robert Hamilton, representing the Hamilton Manufacturing Co., contractors for the mill, states that it will be running by Sept. 15.

Five hundred tons of rich copper, silver and gold ore from the Blue Bells mine, Philip's Arm district, a short distance north from Vancouver, are on exhibition in the company's window. The company have refused all cash offers for the claims. They are going to develop the property. It is a smelting proposition, the vein at the surface being 90 feet wide, and from several assays running from $50 to $70 per ton in all values.

To Relieve the Blockade.

Victoria, B.C., Aug. 16.—Efforts are now being made to relieve the blockade at Dyea and provide for the men and animals that will have to winter there. All feed along the trail has been used up, according to the latest reports, and unless something is done many of the pack animals will starve before the winter is over. A company intends running a pack train between Skagaway and Ta Toosch Lake. They are sending up 54 animals on the steamer Bristol, and will operate just as long as practicable. This company has secured a contract for transporting 150,000 pounds of freight from Skagaway to Ta Toosch Lake at 20 cents a pound.

OF INTEREST TO WOMEN.

A Lady Cured After Seventeen Years' Affliction with Disorders Peculiar to Her Sex by Dodd's Kidney Pills—Other Unfortunates Can be Cured as Well as She.

Toronto, Aug. 16—The publication of the letter of Mrs. Reany, of Ashland, Wis., concerning her cure by Dodd's Kidney Pills after 16 years of sickness, has awakened wide-spread interest amongst the women of Canada. It is truly marvellous that a woman afflicted as long as she was, who had tried all the remedies within her reach and all the doctors could do for her should be cured by so simple and easily accessible a remedy as these pills. What they did for her they will do for other women suffering from diseases peculiar to their sex.

CASTORIA

For Infants and Children.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Others Fail—It Cures!

DEAR SIRS,—From my own experience I can confidently say that Dr. Fowler's Extract of Wild Strawberry possesses true merit. It was the means of saving my little girl's life last summer. She was teething and took violent diarrhœa. Dr. Fowler's Extract of Wild Strawberry cured her, and I feel that I cannot say enough in its favor.

MRS. WILLIAM ARTHUR, Testerville, Ont.

"How to Cure all Skin Diseases."

Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman Sons & Co., Montreal wholesale agents.

To remove worms of all kinds from children or adults, Dr. Low's Worm Syrup is a safe and sure remedy.

TORONTO MARKETS

Flour—The flour market is higher. Sales of straight rollers are reported to-day at $4 to $4.15, Toronto freight.

Bran—The market is quiet at $8 to $8.50 west for bran and $9 for shorts. Bran is quoted here at $10 to $11.

Wheat—The demand for new wheat is fairly active and prices firm. Twenty cars of new red winter sold outside to-day at 73c, and white will bring 75c to 79c. Old white is quoted at 81c. No. 1 Manitoba hard sold at 90c, Fort William, and is quoted at 94c Goderich. No. 2 hard 91c to 92c Goderich or Owen Sound.

Buckwheat—The demand is limited and prices nominal.

Barley—The market is quiet. There was a sale to-day of two cars of feed barley at 25c outside.

Oats—The market is quiet, with demand fair. White sold at 22c to 22½c west, and mixed at 21½c.

Peas—The market is quiet, with sales outside at 44c north and west.

Oatmeal—The market is quiet and prices steady at $3.10 to $3.20 for cars on track.

Corn—The demand is fair and prices steady, there being sales outside at 27c to 28c.

Rye—The market is firm with sales outside at 39c to 41c, the latter east.

BRITISH MARKETS.

ONE HONEST MAN.

DEAR EDITOR,—Please inform your readers that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest home cure, by which was permanently restored to health and manly vigour, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy.

SLOAN'S INDIAN TONIC

COMBINES THE BEST POINTS OF ALL OTHER MEDICINES.

TRADE MARK.

Cures Erysipelas, Scrofula, Salt Rheum, Eczema and all other Eruptive Skin Diseases.

A MARVELOUS CURE FOR ERYSIPELAS, BY SLOAN'S INDIAN TONIC, IN LAMBTON COUNTY.

CORUNNA, JULY 4th.

Dear Sirs,

I received the medicine all right, and am much obliged for it. I had Erysipelas every summer for five years, sometimes so bad my face, arms and body would swell to an enormous size and my eyes would be shut for days at a time. I tried two doctors but they did me no good, and I even went for change of climate, but all to no avail, until I got your TONIC. After taking one bottle the swelling ceased, and I improved everyday and am now entirely cured.

Yours very truly,
MRS. J. J. PORTER.

PRICE $1 a bottle, 6 for $5. All druggists or by express.

SPECIAL GOLD MEDAL

Presented by the Cobdenites to Sir Wilfrid Laurier.

PREMIER'S OPINION OF THE POPE.

Physically Feeble but Marvelous in His Mental Strength Sir Louis Davies at London Chamber of Commerce—Golli, the Assassin Sentenced to Death Cable News.

London, Aug. 16.—A delegation of members of the Cobden Club, headed by Lord Farrer, called this afternoon at the Hotel Cecil and presented to the Canadian Premier, Sir Wilfrid Laurier, the special gold medal of the club struck for presentation to the Canadian statesman, in formal recognition of his attachment to free trade. The Premier, thanking the delegation, said the commercial supremacy of Great Britain was assured until the United States adopted free trade.

Sir Wilfrid said, later he would sail for Canada by the steamer Labrador on Wednesday, and added: "I am glad to emphasize how I have been received everywhere in the most cordial manner, particularly by the Pope, who filled me with wonderment as to how so much vigorous and keen intellect could be housed in such an emaciated body. The Pope is bent double and appears to be in the frailest health, though he is not troubled with any bodily ailments, and his whole mental machinery is marvelous. I was amazed at the profundity of his knowledge of Canadian affairs, was charmed with his exquisite gentleness and sympathy, and I was moved deeply at the supreme elevation of his Christian aims."

GOLLI MUST DIE.

The Anarchist Will Be Garroted Within the Prison at Vergara.

Madrid, Aug. 16.- Michael Angiolillo, the assassin of Premier Canovas del Castillo, was tried by court-martial today at Vergara, was found guilty and was sentenced to death.

Upon hearing the sentence Angiolillo turned deathly pale and had to be assisted from the court room.

Angiolillo will be garroted within the prison.

WHAT SIR LOUIS DAVIES SAID.

Every Vestige of Union With the United States Has Long Ago Disappeared.

London, Aug. 16.—Sir Louis H. Davies, Canadian Minister of Marine and Fisheries, addressing the London Chamber of Commerce to-day, said every vestige of feeling in favor of union with the United States had long disappeared. Canada, he added, had nothing to gain thereby.

Sir Louis warned intending immigrants against the tremendous difficulties of the Klondike, saying that they would go there at their own risk, and that the Canadian Government had not advised it. Hundreds and thousands, he insisted, were going there ill-provided with money or supplies, and they would die in the passes before reaching Klondike.

Sir Louis Davies said that a reaction was certain to follow, and that Canada would be blamed for it.

Referring to the new United States tariff, Sir Louis Davies said the Dingley bill had built up a prohibitive wall against Canadian trade, which the Government of the Dominion, therefore, had resolved to transfer greatly to Great Britain.

THE WHEAT CROPS.

France Has a Surplus, Germany a Deficit and Russia is Behind.

London, Aug. 16.—The Mark Lane Express, in its weekly review of the grain situation, says: "The French wheat harvest overyield is estimated at 35,000,000 quarters, though excellent judges say it is not so much.

"The German yield is expected to be 1,000,000 quarters below that of 1893.

"Austria-Hungary will be almost self-supporting, with nothing to spare for export.

"Russia reports that her wheat is somewhat below the average, though not seriously so."

In conclusion, The Mark Lane Express notes the curious fact that England last week exported wheat to France.

Hunting for the South Pole.

Antwerp, Aug. 16.—The steamer Belgic, with the Gerlache Antarctic expedition on board, sailed at 10 o'clock this morning. It is expected that the expedition will arrive at Graham's Land early in December. The crew of the Belgic numbers twenty-one men. She has on board provisions for two years.

A BUTTON SAVED TURIN.

Prince Henri's Sword Would Have Punctured the Italian Only for That Button.

Paris, Aug. 16.—At the interview between the seconds of Prince Henry and the Count of Turin on Saturday one of them became very much excited and said it was now a quarrel between the two countries, adding: "We wish the whole Italian army could assist at this duel."

When weapons were being discussed the Italians stood out for the sabre and were with the greatest difficulty convinced that the French dueling code did not admit of the sabre except in the case of cavalry officers.

All started with the utmost secrecy at 3 o'clock in the morning. The parties arrived at the place agreed upon almost simultaneously about 4 o'clock. Little time was wasted in the preparations. They faced each other exactly at 5 o'clock. They fought in their shirt sleeves, Prince Henry with bare hands and the Count with gloves.

At the word, "Allez, Messieurs!" both started vigorously, so vigorously as to astonish and disturb the seconds. It was a thrilling exhibition of swordsplay, and Major Leontieff, describing it with extraordinary vivacity, says it was terrible.

It appears that Prince Henry's sword was bent by a button of the Count's trousers. But for this chance it seems there is little doubt that the Count would have been run through, or at least dangerously wounded. In fact the doctors and seconds thought this had happened. When Prince Henry received the wound in his abdomen he clapped his hands to the spot and sank back to his seat, supported by Leontieff. He then rolled upon the ground, exclaiming that he could do no more. The doctors fear that the wound may be complicated by peritonitis, and there is need of extreme care for a few days.

The news was not generally known through Paris till about 10 o'clock, when there was a rush of visitors to the residence of the Duc de Chartres, but only Major Leontieff was allowed access to the room of the Prince, excepting, of course, his father, mother and brother. M. Faure sent a special messenger to make enquiries as to his condition.

The duel grew out of certain criticisms made by Prince Henry of Orleans upon the conduct of Italian officers and soldiers while prisoners of Emperor Menelik in Aryssinia. These criticisms were published early in July last in The New York Herald and The Paris Figaro, newspapers for which Prince Henry had been writing of his travels in Abyssinia, which began last February.

The particular statements to which the Italian press and public, as well as the Italian officers, took exception, were published on July 4 last. The words of the Prince were as follows:

"Naturally the subject which was most often discussed was that of the war (between the Italians and the Negus), and the captivity of the Italians. I am bound to say that I am no longer indignant but simply disgusted at what I hear each day about them. Out of respect for a nation with whom we were friendly I should have been silent if the Italian should not have shown, in regard to ourselves, the most reprehensible conduct. Have they not confessed that had they entered Addis Ababa victoriously they would have given no quarter to *any Frenchman*, not even the small tradesmen? They added, however with an ironical air, that they would not have inflicted the death penalty on the Frenchwomen.

"Even this did not permit them to accomplish their wishes. Although they came to the capital as prisoners they do not seem to realize it. Some of their officers were not ashamed to take part in the celebration of the anniversary of the battle of Adowa; others wore as cuff buttons coins with the image of Menelik. It was Albertone himself who, drinking a toast to the health of the great Emperor, turned towards one of our fellow-countrymen and said: 'Are we not courteous?' to which the Frenchman replied: 'Mon Dieu, sir, I never saw a Frenchman drinking to the health of the Emperor William.'"

The Count of Turin is a Prince of the Italian blood royal, and therefore of Prince Henry's rank. He is a member of the house of Savoy-Aosta, and was born at Turin in 1870. He is the son of the late Duke of Aosta, a nephew of King Humbert, and holds the rank of major in the Italian cavalry. His challenge created a rather anomalous situation; for the Count, being the brother of the present Duke of Aosta, is the brother-in-law of Prince Henry's cousin, Princess Helene, whom the Duke of Aosta married in 1895.

Prince Henry of Orleans was born Oct. 16, 1867, and is the eldest son of Prince Robert Philippe d'Orleans, Duc de Chartres.

Prince Henry of Orleans, who was wounded in the lower part of the right side of the abdomen yesterday morning in a duel fought with the Count of Turin, nephew of the King of Italy, passed a quiet night. His condition is now considered by his physicians as satisfactory. General Albertone, the Italian officer, has withdrawn his challenge.

Will Excommunicate Them Both.

London, Aug. 16.—A despatch from Rome to-day says it is reported that the Pope will excommunicate Prince Henry of Orleans and the Count of Turin, as dueling is forbidden by the Roman Catholic Church.

Great Jubilation in Rome.

Rome, Aug. 16.—The population of Rome, which followed the various phases of the great duel with much interest, has welcomed the result with great enthusiasm. Many leading houses have displayed flags, while the papers have flooded the streets with special editions, which were eagerly bought up.

Last night military bands in the public squares played the royal march, amid frantic applause from the spectators.

The police authorities, in order to avoid any demonstrations against the French, have told off a large body of armed men to guard the French Embassy, while many French firms and establishments are also carefully protected. Similar demonstrations of enthusiasm have taken place in almost all the chief Italian towns, principally Naples, Milan, Florence and Palermo.

There is much fear that these manifestations will throw a chilliness on the Franco-Italian relations, which have become more cordial since the fall of Crispi's Cabinet.

The Minister of Justice, Signor Costa, died last night, but the one all-entrancing event is now the famous duel. Such extraordinary jubilation has been unknown here for many years.

Over a Year.

"I have been troubled with sick headache for over a year. Lately I have used Laxa Liver Pills, and find that they help me more that any other medicine I have ever taken. They are an excellent pill, causing no pain or griping, and leaving no after ill effects."

EDNA MITCHELL'S DEATH.

The Cause of Her Suicide Remains a Mystery still.

Cincinnati, Ohio, Aug. 15.—(Special.)—At 2 o'clock this afternoon the body of Miss Edna Mitchell, the young nurse from Toronto, whose suicide was one of the saddest and most mysterious of the year, was buried at beautiful Spring Grove Cemetery. A brother of the dead girl was present from Allandale, Canada. Several nurses from the Jewish Hospital, where Miss Mitchell had been employed, were present, and but few others. There was a simple funeral service at the grave. Nothing has developed since the inquest and autopsy, which showed death to be from morphine poisoning, to penetrate the full mystery of the case. It seems reasonably certain that grief and despair which followed the reading of a letter received from Mrs. Slater of Niagara Falls prompted to the deed. This letter she at once destroyed, without its contents being divulged. Miss Mitchell was an old friend of the Slater family, and had frequently visited them.

Miss McLean, one of the nurses, said today: "She said that letter was a most cruel one, the more cruel because unexpected. I do not know whether there was any love between Miss Mitchell and Mr. Fred Slater, the young man whose mysterious disappearance caused her such deep trouble. He did not elope with her, he simply accompanied her part of the way here from Canada once. I wish to correct another impression. The doctor who conducted the examination after her death stated that she had been a pure girl."

Practise Economy

In buying medicine as in other matters. It is economy to get Hood's Sarsaparilla because there is more medicinal value in Hood's Sarsaparilla than in any other. Every bottle of Hood's Sarsaparilla contains 100 doses and will average, taken according to directions, to last a month, while others last but a fortnight.

Hood's Pills are the only pills to take with Hood's Sarsaparilla. Easy and yet efficient.

Dizziness and Weak Eyesight—How to Cure Them.

Mrs. J. Dell, Chatham, Ont., says: "For two years I could not go to sleep before two or three o'clock in the morning. I suffered much from vertigo and dim eyesight. Milburn's Heart and Nerve Pills have removed the dizziness, restored my heart to healthy action, strengthened my eyesight, and I can truly say they are a blessing to any one suffering as I did.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c Children love it. Sold by John Nugent, 389 George Street.

* 1871 *

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

* 1897 *

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

Can't Eat

This is the complaint of thousands at this season. They have no appetite; food does not relish. They need the toning up of the stomach and digestive organs, which a course of Hood's Sarsaparilla will give them. It also purifies and enriches the blood, cures that distress after eating and internal misery only a dyspeptic can know, creates an appetite, overcomes that tired feeling and builds up and sustains the whole physical system. It so promptly and efficiently relieves dyspeptic symptoms and cures nervous headaches, that it seems to have almost "a magic touch."

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

Hood's Pills are the best after-dinner pills, aid digestion. 25c.

Still selling cheap. See Wallier & Co's price list in another column.

We are showing a fine line of violins, guitars and at autoharps at very close prices. PETERBOROUGH MUSIC CO.

Ask Your Grocer

For Mikado flour. The best in the market for sweet health-giving bread. W. H. MALDRUM, storehouse corner Simcoe and Bethune street. Telephone 113.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Wide Awake.

People are always on the alert for something good and cheap. You can always see a lot of wide awake people wending their away towards Alex Elliott's to purchase some of his choice groceries. You can't beat him for quality and price. 353 George street, Peterborough.

Fight in the Village.

There was a free fight in Ashburnham last night between some of the villagers and a crowd of Trent Valley Canal labourers. It was pay day on the canal, and the men were not working during the day on account of the rain, and as they got deep into their cups became quarrelsome.

Runaway Accident.

This afternoon a horse became frightened at a street car while crossing George street at the corner of Simcoe. It started to back up and overturned the buggy, damaging it to some extent. Before the animal could get away, however, Mr. Bob Dolan had it firmly by the head. The inmates of the rig were assisted by the Misses Ryan.

Ran Over a Bicyclist

A young man driving a buggy with gearing of natural coloured wood, whilst proceeding over the Hunter street bridge was so engrossed in reading a newspaper this morning that he ran down Mr. Wm. Hinchcliffe on his bicycle, and besides throwing him off also damaged the wheel considerably.

Reduced Rate to Jubilee.

The members of Court St. Peter, Catholic Order of Foresters, have reduced the price of the tickets for their excursion on Civic Holiday to Jubilee from 50 cents and 25 cents to 35 cents for adults and 15 cents for children. This will be the popular excursion of the day, and as the tickets are limited, those wishing to take advantage of the cheap fare should buy their tickets at once. Tickets for sale at Lynch's drug store or from members of the committee. 2d

Ho! for Niagara Falls.

The Foresters' Excursion to Niagara Falls on Civic Holiday promises to be the leading out-of-town attraction on that day. The Falls never grow old or lose their beauty, and therefore it is confidently expected that many of those who accompanied the Foresters last year will be with them again this season, accompanied by numbers of their friends, who are going along to participate in the same pleasant experiences which are recorded of last year's trip. 2d

Thanksgiving Festival.

The annual harvest thanksgiving festival of the Salvation Army is to be celebrated on Saturday, Sunday, Monday and Tuesday, August 28th, 29th, 30th and 31st. Capt. Parker, the energetic officer in charge, and the Salvationists of the local corps, are evidently bent upon and seem sanguine of making this the most successful of all past efforts of the kind and are arranging a programme of special meetings suitable to the occasion. Any cause that will moralize, reform and make temperate dissolute men and women should claim the sympathetic effort of all.

The Rochester Excursion.

Messrs. Edgecumbe and McGill representing the Excursion Committee of Otonabee Lodge, No. 13, Oddfellows, have returned from Rochester, where they were arranging for the comfort and accommodation of those attending the Oddfellows' excursion on Civic Holiday. The captain of the steamer promises to have every arrangement made for the pleasure of the excursionists, while the crew will be found most courteous and accommodating. This excursion will most probably be the only one this season to Rochester. As there are to be no races this year at the Rochester driving park, the usual excursion to this event will not take place. 2d

GLENCAIRN II. WINS.

The Canadian Yacht Wins the International Race To-day.

The Canadian yacht Glencairn II. again won from the American Momo at Montreal to day, thus being victorious in two out of three races, and winning the international championship.

E. L. OF C. E.

The Mark Street Branch Holds an Open Meeting.

The Mark street E. L. of C. E. held its meeting last night under the auspices of the Temperance Committee. Miss Throop, the president, occupied the chair. Lively hymns were sung in connection with the opening service, and then followed a most interesting programme: Miss Armstrong sang a solo, Mr. H. S. Armstrong and Miss Smith a duet, Miss Minnie Hamilton gave a recitation, Miss Hooper a solo, and Rev. Mr. Moore a short humorous address. Miss McKenney and Miss Hooper both assisted at the organ. A very pleasant evening was spent. The League has undertaken to assist the official board re the minister's salary. Other Leagues—Go and do likewise.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—City Lodge I. O. G. T. will meet on Wednesday instead of Thursday evening this week.

—All the official members of the Mark street church are called for this evening at 8 o'clock to consider all matters concerning the progress of church work.

—The "Westminster" and "Canada Presbyterian" have been amalgamated and will be issued in weekly numbers under the name of "Westminster."

—And now it is reported that a vein of excellent coal has been located in the vicinity of Coldwater, and that indications of the same vein have been observed at Orillia and Midland.

—John D. Rockefeller, the Standard Oil Co. capitalist, is becoming largely interested in Lake of the Woods mines. He deposited a cheque of $84,000 in a Rat Portage bank a few days ago through his agent in payment for recently purchased property not far from Rat Portage.

There is a quality of lightning this year that makes it dangerous to stand in draughty places during a storm. More deaths from lightning, and more destruction of buildings from the same cause have been reported during three months this summer than for the four preceeding years combined.

—New York District State Attorney Close states that he has discovered a vast conspiracy to allow Chinamen to enter the United States along the St. Lawrence border. He says that since January fully 100 Chinamen have entered the States at Malone by representing they were born in California, and bringing witnesses from New York to swear to them as natives.

—We know boys in this town who were straight as ramrods a year ago, and are humped, bowed, shoulders drooped, slouched in gait, and their faces on a perpetual, hideous grin, whereas they had handsome faces before they rode scorching wheels. Oh, yes, the wheel is, doubtless, doing much good, and it is doing fearful harm in deforming and killing hundreds of boys.—Chatanooga Times.

—After the Grand Lodge degree had been exemplified at the opening of the Grand Lodge in Belleville, Grand Master White was astonished to see a boy sitting wide-eyed and open-mouthed in the gallery. He had apparently entered while the open meeting was in progress and had succeeded in remaining until the secret work was taken up. The boy's name has not been ascertained, but a committee was at once formed to enquire into the circumstances.

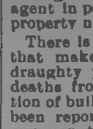
Fruit Very Cheap.

The large quantities of peaches and Lawton or thimbleberries received by the agents of the Niagara Fruit Company at Peterborough this year, indicates a plentiful crop, and as a result peaches are cheap.

Fresh Fruit Arriving Daily.

Plentiful supply of peaches, pears, tomatoes, Lawton berries, bananas, lemons, and all seasonable fruit in prime condition arriving daily at J. B. OKE'S, Wholesale and Retail Fruit and Commission Merchants. George street.

Novelties in Chairs.



Admirers of handsomely designed chairs should visit Clegg's furniture warerooms, Nos. 425 and 427 George street. Nearly every popular selling chair is represented. Complete line of unique designs in chairs on exhibition all the year round Every new thing quick as it appears. d

Regatta Prizes.

During the last day or so Messrs. Benj. Shortly and Harry LeBrun have been canvassing amongst the local Stony Lake cottage owners and their friends for prizes for the regatta on Thursday and Friday next. The two gentlemen have been very successful, it is understood, and a large number of good prizes have been donated.

VISIT STONY LAKE NEXT WEEK

On the George Street Sunday School Excursion, per G. T. R. and Str. Sunbeam. A day around the Lakes. Thursday, August, 26th. Regular Train and Boat. Fare only 75c for round trip. Childred half price. 1d

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut price in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

The Word "Limited."

At a meeting of the Ontario Cabinet it was decided to remit by Order-in-Council all penalties incurred up to date by a number of incorporated companies by reason of their failure to comply with the provisions of the statute requiring the word "limited," unabbreviated, to be painted or otherwise affixed to their names as the last word of the sign under which they do business. The penalty is to be remitted owing to the fact that such companies have been put to considerable expense and have not knowingly or wilfully violated the law. A number of writs have been issued against companies in this respect who had used the word in the old form, "Ltd.," and were therefore liable to a heavy fine for each day during which they had used the expression.

AN OARSMAN ON TRIAL.

He is Accused of Theft of a Bicycle but is Discharged on Payment of Costs.

Brown, the Toronto oarsman, who was matched to row Carruthers, of Bobcaygeon, at Pigeon Lake and who was arrested for the theft of a bicycle from Frank Macpherson, is again at liberty and in a position to go on with the negotiations for the race which had to be indefinitely postponed until the result of trial was made known.

In the police court this morning Macpherson stated that he had hired the bicycle to Brown on July 24th on the understanding that it was to be returned the following Tuesday. As the wheel was not brought back and no word was received from Brown at Lindsay, although he had been communicated with, the matter was placed in the hands of the police and Brown was arrested in Lindsay and brought to Peterborough last week.

Mr. R. M. Dennistoun, who appeared for the prisoner, made a statement regarding the whereabouts of the wheel in order to avoid the expense of bringing witnesses from Toronto. Brown, he stated, on hiring the wheel rode to Toronto on it but owing to continued rains could not ride back to Peterborough again. He pawned the wheel and realized $5.50, but it had since been redeemed and was now in town ready for delivery to its owner. His client was willing to pay for the rental of the wheel at current rates and he thought this should satisfy all parties. He held that there could have been no intent to steal the bicycle, as in that event his client would have endeavoured to raise more money on the wheel, which was said by its owner to be worth forty-five or fifty dollars. Nothing could be brought up against the prisoner's previous good character.

Magistrate Dumble pointed out that if the prisoner had previously been convicted of theft there would not have been any hesitation in pronouncing him guilty on this occasion and he saw no reason why he should be thought innocent, as he had proceeded with the whole transaction in exactly the same manner as a sneak thief.

The prisoner then made a statement saying that he had hired the wheel to ride to Toronto, and fully intended to redeem it. He had gone up to the city to get two boats, and as it was too wet to ride to Lindsay, where he was taking them, he had gone there by train. Being short of money, he had raised what he required by pawning the wheel, knowing that he would be able to redeem it the next day. He had made no effort to evade arrest, but had gone to Lindsay, where McPherson knew he was living for the time being. He also stated that he had asked Mr. Galvin to see McPherson and tell him the wheel was all right.

In view of these mitigating circumstances the Magistrate took the most lenient view of the case possible, and exercising the discretion with which he is invested in his office, he discharged the prisoner on the payment of $20, being the amount of costs incurred and the charge for the rental of the bicycle.

Mr. G. W. Hatton appeared for the Crown.

SPORTING PASTIMES.

Wheeling and Other Items of Local and General Interest.

LACROSSE.

Peterborough will have to play off in the semi-finals next week, and in the meantime the members of the team should turn out every night for practice, as at present they are not in the best possible shape.

The Berlin-Waterloo team has won its district from Seaforth.

Orillia has won its semi-final matches. The team defeated Uxbridge by 10 straights in Orillia, and was only defeated by 4 goals to 3 in Uxbridge.

BASEBALL.

The Neversweats have strengthened their infield considerably, and will again play the Oriental club on the ball grounds to-morrow afternoon at 2.30.

THE WHEEL.

From the Kingston News we learn that P. J. Wilson, the District representative, is the man who succeeded in taking trip of the Canadian Road Club to Kingston, when the Executive favoured Peterborough. This fact is somewhat difficult of comprehension as Peterborough worked hard for Wilson and Kingston did just the opposite.

We have it on the authority of Charles P. Sisley, one of the leading writers on English cycling topics, that bicycle races have ceased to be a drawing card in the Old Country. Is it any wonder? People can't be expected to go time after time to the race track to see a lot of jaded professionals ride around the circle, hippodrome fashion, the result of the "race" having been arranged beforehand. When professionalism gets the upper hand in any sport the interest in that sport is bound sooner or later to be killed.

Those persons who purchased new bicycles at the beginning of this season and regretted their action when they read the reports that chainless wheels would be sold next year, should cheer up. From what can be learned in trade circles, the chainless wheel, despite all statements to the contrary, has not yet been brought to that state of perfection where it will supplant the chain-driven bicycle. Some experts declare the chainless wheel never will succeed the wheels with chains. In this connection the report of a series of investigations, conducted at Cornell University, to ascertain the efficiency of the chain in comparison with other forms of power transmission for bicycles, is interesting. R. C. Carpenter, professor of experimental engineering at the University, writing to "Cycle Life," states: "It seems safe to announce that all the tests indicate that no form of gearing can possibly equal the best chain for efficiency and durability. It may be briefly stated that the friction with the best chain varied from one-half to three-quarters of one per cent., and this result was not only obtained with a new chain, but was also obtained with a chain which had been in use on a wheel that had been ridden for more than 2,000 miles by a rider weighing nearly 200 pounds. This would serve to show that high grade chains can be and are made which do not change their forms by wear an amount sufficient to affect the friction. This particular chain is made with knife edge bearings with hardened steel links and is not affected by dust to any great extent. Tests were made on a large number of other chains and the friction was found to vary from two to five per cent., depending upon the condition of the chain, its method of construction and details of design. The highest friction we have found, even in the case of an old chain which did not fit the sprocket properly, did not exceed ten per cent., although I am willing to concede that a considerable higher friction might in some instances be found."

Boys' extra heavy Wide Ribbed Black Hose, double knee, heel and toe, fast black. Grafton's special price for this week 15c.

PERSONAL.

Mrs. W. Peters is visiting with friends in Campbellford.

Mr. J. C. Turnbull has returned from his Manitoba trip.

Miss Potts, of Haliburton, arrived in town yesterday on a visit.

Miss M. Argue, Janetville, is visiting Mrs. Sheridan, Ashburnham.

Miss M. Edgar left on Saturday for Wilberforce, where she has been engaged as teacher.

Miss Howden is spending a few days at Sturgeon Point as the guest of Miss E. Wood.

Rev. J. G. Potter preached to his former congregation in South Side Presbyterian church, Toronto, last Sabbath.

Mr. D. A. Shaw, artist, is staying at Catamaran, Stony Lake, for a few days, with the J. D. Collins party.

Mr. Charlie Allison, of Chicago, formerly of the EXAMINER reportorial staff, is in town renewing old acquaintances.

Mr. and Mrs. Wm. Borland, Weller street, are spending a week or two with their daughter, Mrs. Felix Brownscombe, at Stony Lake.

The Rev. Mr. and Mc Williams, formerly of St. Andrew's church, are spending their holidays in Toronto, and are the guests of Rev. Mr. White, Crawford street.

Miss Kathleen Hickey, of Chicago, who has been visiting relatives in Emily township, went north this afternoon to spend a week with friends in Galway township.

Rev. Carl Smith, pastor of the English church at Berlin, Ont., formerly of Peterborough, is visiting old friends at Lindsay and Sturgeon Point, where he took charge of the services on Sunday.

Mr. George Lewis, of Fort Erie, formerly of the Canadian General Electric Co., is the guest of Mr. Will Buchanan for a few days. He is on his way to Montreal where he is taking a position with the Street Railway Company.

The Kingston News says: Mr. F. H. Pope, of the Ontario bank, Peterborough, spent yesterday in Kingston. He proceeded down the St. Lawrence river, where he will camp with a party of young men from Brantford and Kingston.

Mr. Wm. Miller, says the Lindsay Post, who is now enjoying his holidays, left this morning on a wheeling tour, and will visit friends in Peterborough, Port Hope and the lake towns, including Toronto. He will be absent a couple of weeks.

Mr. James D. Denny, a graduate from the local Collegiate Institute, who also taught for a session at the South Central School, has accepted the principalship of one of the schools in Smith's Falls and left with his family for that town to-day.

The Lindsay Post says: Rev. Dr. Torrance, of Peterborough, preached at the Presbyterian church yesterday. In the evening he took the death of Moses as his topic, and in the course of his address explained that God will chastise all sin whether in his professed servants or other. There is, however, this difference—that while the wicked may flourish like a green bay tree on earth and receive punishment in the hereafter, the servant of God is chastised in this world and can look forward to an unalloyed eternity of blessedness.

Worth Ten Dollars a Bottle.

Any person who has used Nerviline, the great pain cure, would not be without it if it cost ten dollars a bottle. A good thing is worth its weight in gold, and Nerviline is the best remedy for all kinds of pains. It cures neuralgia in five minutes; toothache in one minute; lame back at one application; headache in a few minutes; and all pains just as rapidly.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

The death of Charles Allen, G.T.R. baggagemaster at Belleville for 20 years, is announced as having taken place on Monday evening.

Although the distance between Peterborough and Lakefield has been materially shortened by the new bridge at Auburn, yet the fare has not decreased as yet.

The C.P.R. have sold between January 1 and July 1, 88,969 acres of their Northwest lands, as against 42,176 for the same period of 1896.

The earnings of the C.P.R. for the week ending August 7, are 487,000, as against $423,006 for the same week last year. Increase $44 000.

The Guelph Advocate relates the following in connection with the death of Thos. Cottrell, a Canadian Pacific engineer living at the junction, who was drowned in Hamilton a week ago Sunday: A mysterious touch from the Great Beyond was given to Mr. J. Cottrell last Sunday afternoon. At 4 o'clock he laid down and had a nap. He dreamt, and in his dream could see a figure lying covered with a sheet. Going up he was horrified to find his son *dead, died from drowning.* Mr. *Cottrell* awoke with a start to find it was only a dream after all. But the memory lingered with him. Shortly afterward a friend happened in, and noticing Mr. Cottrell's troubled face asked him what the matter was. In reply he related the dream. That night he was awakened by some one at the door. It was a messenger boy with a telegram, telling the father that his son had been drowned at Hamilton that afternoon. The dream and the drowning occurred at the same time.

The Life of Dr. Chase.

As a compiler of Chase's Recipe Book, his name is familiar in every household in the land, while as a physician his works on simple formulas left an imprint of his name that will be handed down from generation to generation. His last great medicine, in the form of Syrup of Linseed and Turpentine, is having the large public patronage that his Ointment, Pills and Catarrh Cure are having. Dr. Chase's Syruy of Linseed and Turpentine is especially adapted for all Bronchial and Asthmatic troubles.

Is Your Pump in Working Order?

When a pump does not work steadily, smoothly, and without undue effort on the part of the operator. It is either poorly constructed or in urgent need of repair. We make a specialty of repairing and can usually tell you what the cost will be before the job is started, so you can decide whether it is more profitable to get the work done or invest in a new one. A unique feature of the kind we build is that the stroke can be adjusted so as to make the labour commensurate with the strength of the person using it. Pumps however, are not the only things we make; for instance, another of our lines is washing machines. Our latest, the "Challenge," is by all odds, the best on the market. They are cheap too. A post card will bring you full particulars. — G. WALTER GREEN, P. O. box 361; Telephone, 92.

17 MILLS THE RATE FOR CURRENT YEAR.

The Town Council Passed the Estimates Last Night.

THE GRAND TRUNK WILL BUILD A FOOTBRIDGE AT AUBURN.

Chairman Denne Says That the Rate Would Have Been Down to Sixteen Mills if the Board of Education had not Made a Big Demand and the Assessment Returns Lowered by Reason of the Many Fires During the Past Year.

At a meeting of the town council Monday evening action was at last taken on the estimates, which at the several meetings of the Finance Committee have been pruned down sufficiently to make the rate 17 mills for this year.

The members present were Mayor Yelland, and Councillors Best, Robertson, *Denne, Neill,* Dawson, Cobb, Meldrum and White.

In presenting the estimates, Chairman Denne, of the Finance Committee, stated that had it not been for the increased expenditure on public schools of 2-10 mills, and 1 10 mills on the Collegiate Institute, and loss of revenue by reduction in licences as well as the lower assessment caused by fires, the council this year would have been able to strike a rate of 16 mills, notwithstanding the increase in the interest account, and the extra expenditures in the way of Jubilee grants, etc.

Estimates of the Receipts and Expenditure of the Town of Peterborough for the year 1897:

EXPENDITURE.

ADMINISTRATION OF JUSTICE:		
Payable to county under award		$ 2,053 00

The bylaw fixing the rate was then passed, special stress being laid on the fact that the treasurer will be required to return the roll on Dec. 14th, instead of at a later date.

THE AUBURN BRIDGE.

Councillor Meldrum stated that the Council had been asked to meet Supt. Tiffin of the Grand Trunk at the Auburn bridge a few days ago, but that he was the only one who was present to meet that gentleman. He pointed out to him the urgent need of erecting a footbridge in connection with the new railway bridge at that point, and Mr. Tiffin had subsequently forwarded the appended communication to the local station agent:

Mr. Sandy, Peterborough,

DEAR SIR,—Mr. Meldrum, whom I met on Friday, requested me to have a plan of the proposed footbridge alongside the Auburn bridge submitted for the council meeting on Monday, but the time is too short to allow this. I think however, that I can make the proposal clear.

The first plan suggested is to run the footbridge alongside, and outside, the top of the stone pier, suspended from the iron work, and secured to the iron work of the bridge by iron rods. The walk will be four feet wide, with hand rail on both sides, three and a half feet high, with intermediate rails between the hand rails and the floor; walk planked with two inch planking.

If this structure is carried on top of the stone pier there will be head room of six feet eight inches; if carried outside the head room will be clear.

The alternative plan would be to extend the present floor beams and run the walk on a level with the track. So placed would be rather high to enable passengers reaching the proposed sidewalk, and would probably be the means of causing more or less walking along the track, which is prohibited.

If the council will pay $150 towards the cost of the structure and provide sidewalks from the end of the bridge along the lines I pointed out, I will submit both plans and recommend carrying out the scheme.

It is understood that the town assumes all responsibility in connection with the proposed structure as a public throughfare, the Grand Trunk Company being responsible only for the proper maintenance of the footbridge.

It is understood that this company will build a short sidewalk from the east end of the bridge leading to Mr. Kendry's property, but this sidewalk and the one the town will require to build, is to be maintained in proper condition by the corporation of Peterborough.

Will you please read this letter to Mr. Meldrum?

Yours truly,
W. R. TIFFIN,
Supt.

Councillor Meldrum then presented his report on the matter as appended:

To the Mayor and Council of the Town of Peterborough:

GENTLEMEN,—The Grand Trunk Railway, through Mr. Tiffin, in reference to the bridge at Auburn, have made the following proposition in connection with certain concessions, which have been made by the Auburn Woollen Mills Co, to the Grand Trunk Railway, relating to the right of way, etc., for the new railway line. On condition of the town of Peterborough making a grant of $150.00 towards the erection of this bridge, Mr. Tiffin will recommend the acceptance and carrying out of the work according to the specifications, which they will submit to the council, of building and keeping the bridge in repair. The council agreeing to build a sidewalk from the west end of the bridge to Water street, along the side of the railway track. The railway Company to build a sidewalk connecting the bridge at the east end end with the old sidewalk now there. The town assumes all responsibilities as a public thoroughfare, the G.T.R. being responsible for maintenance. I hope that the council in their wisdom will grant this small expenditure to enable the ratepayers on the Auburn side of the river a safe means of access to the town.

Respectfully yours,
W. H. MELDRUM.

The report was adopted, and Councillors Meldrum and White moved as follows:

That a grant of $150 be made to the Grand Trunk Railway towards the construction of a footbridge at Auburn. That a sidewalk be built from the bridge to Water street under the terms of the proposition from the G.T.R., provided that the plans and specifications for the bridge are submitted to and approved of by the council—Carried.

OTHER BUSINESS.

Councillors Cobb and Dawson moved, that the tax collector be instructed to return the roll on September 1st—Carried.

It was moved by Councillors Best and White, that the tax collector be instructed to give special notice to the property owners liable to pay frontage tax for construction of sewer sections 3 and 4, and that the amount be placed on a special roll for collection—Carried.

Moved by Councillors Denne and Meldrum, that the treasurer be authorized to settle with the Standard Life Assurance Company, for their taxes now in arrears on the basis of their income as stated in their correspondence. Also that the collector be authorized to settle with the same company for their taxes for the year 1896 on the same basis as the treasurer—Carried.

On motion of Councillors Dawson and Meldrum, a sidewalk will be erected on Murray street from Aylmer to Bethune.

An account of R. A. Hay of $13.75 for typewriting, was ordered to be paid.

The council then adjourned.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—450 George Street.

McLeod and McCarthy 1 and 2 at Ottawa in the Professional—Some Good Racing.

Toronto, Aug. 16.

It was only a small crowd that witnessed the bicycle races at the Island Saturday night, and the accidents to Falconer and Patterson cast a damper on the evening's entertainment. In the final of the novice there was a bad spill, and both these riders had their collar-bones broken.

Summaries:

Mile novice, amateur—First heat—Payne, T.A.C., 1; L. Phillips, W.A.B.C., 2; D. Colville, R.B.C., 3. Time 2.18 3-5.

Second heat—R. Falconer, Q.C.B.C., 1; S. Gascoyne, T.C.C., 2; A. Murray, Hamilton, third. Time not taken.

Third heat—Palmer, unattached, 1; Patterson, Q.C.B.C., 2; Herrington, T.C.C., 3. Time 2.21 1-5.

Final—S. Gascoyne, T.C.C., 1; F. Phillips, second, 2; D. Colville, R.B.C., 3. Time 2.26 4-5.

Half mile open, amateur—First heat—Hancock, Q.C.B.C., 1; Barrett, T.C.C., 2; Barnes, Hamilton, 3. Time 1.07 2-5.

Second heat—H. McGee, T.A.C., 1; Smith, Q.C.B.C., 2; Sherritt, Brantford, 3. Time 1.04 3-5.

Final—Sherritt, Brantford, 1; Thompson, T.C.C., 2; Barnes, Hamilton, 3. Time 1.04 2-5.

Mile matched race—Anderson, R.C.B.C., 1; Oak, R.C.B.C., 2. Time 2.13 1-5.

Mile handicap, amateur—First heat—J. Smith, Q.C.B.C., 1; J. Hutchins, W.B.C., 2; Middleton, Q.C.B.C., 3. Time 2.15.

Second heat—Sherritt, Brantford, 1; Hancock, Q.C.B.C., 2; Barnes, Hamilton, 3. Time 2.10 4-5.

Final—Sherritt, Brantford (50 yds), 1; Thompson, T.C.C. (scratch), 2; Barnes, Hamilton (20 yds), 3. Time 2.19.

Two mile professional handicap—F. Westbrook, Brantford (scratch), 1; R. Miller, Hamilton (75 yds), 2; A. Young, Toronto (100 yards), 3. Time 5.03 4-5.

McLEOD BEAT McCARTHY.

Ottawa, Aug. 15. A thousand people saw some excellent racing last night by electric light on the O. A. A. C. track. The track was fast, but a breeze on the back stretch and a cool night prevented record-breaking time. McLeod attempted to ride a mile in two minutes, paced by Greatrix, Carman, Davidson and Bourke, but the pacers were slow on the first half and McLeod only made the distance in 2.05. Carman, the fast Morrisburg man, after winning the amateur quarter, announced that he would ride professional hereafter and entered in the mile. He gave McLeod and McCarthy a very close finish and defeated Harley Davidson. The results were:

Quarter mile H. E. Carman, Morrisburg, 1; James Drury, Montreal, 2. Time 30 1-5.

Mile open—R. E. Axton, Toronto, 1; D. Wilson, Toronto, 2. Time 2.15.

Half-mile professional—First heat—Harley Davidson 1, T. B. McCarthy 2, McLeod 3.

Second heat—McLeod 1, Davidson 2. Davidson won on points, McLeod second.

One mile tandem—Courcelette and Tuff, Montreal, 1; Wilson and Parr, Ottawa, 2.

Half-mile open—D. Wilson, Toronto, 1; R. E. Axton 2. Time 1.08 2-5.

Mile professional—Angus McLeod 1, T. B. McCarthy 2. Time 2.19 2-5.

Mile handicap—F. Wilson, Ottawa, (25 yards), 1; C. Blackburn, Perth (90 yards), 2. Time 2.13 3-5.

NATIONAL CIRCUIT MEET.

New York, Aug. 15.—Six thousand people attended the National Circuit bike meet under the management of the Atalanta Wheelmen at the Waverley Park track, Waverley, N. J., yesterday afternoon. The following are the summaries of the principal events:

Half-mile handicap, professional—C. S. Wells, San Francisco (50 yards), 1; C. R. Newton, Stafford Springs, Conn. (20 yards), 2; W. Coleman, Cambridgeport, Mass. (20 yards), 3; E. C. Bald, Buffalo (scratch), 4. Time 58 4-5 seconds.

One mile professional—E. C. Bald, Buffalo, 1; A. C. Mertens, Minneapolis, Minn., 2; Arthur Gardiner, Chicago, 3; Tom Cooper, Detroit, 4. Time 2.08 4-5.

Five mile handicap, professional—Nat Butler, Cambridgeport, Mass. (scratch), 1; W. E. Becker, Minneapolis (100 yards), 2; Arthur Gardiner, Chicago (scratch), 3; R. Oldfield, Toledo (150 yards), 4. Time 11 minutes 33 1-5 seconds.

M'DUFFEE MAKES A NEW MARK.

Boston, Aug. 14.—At the Charles River Park this afternoon Eddie McDuffee established a new world's record for a paced mile, flying start, at 1 minute 39 1-5 secs., lowering the existing record, held by W. W. Hamilton, by 1 second.

Lucerne Lesnt broke a bunch of records containing all American marks from 11 to 30 miles, and also the American hour record, held by Jimmy Michael.

Golli Tried by Court Martial.

Vergara, Spain, Aug. 13.—Michel Angiolillo, alias Golli, was tried here this morning by court martial for the murder of Senor Canovas del Castillo at the baths of Santa Agueda on Aug. 8.

The court consisted of a lieutenant-colonel and six captains of artillery. All the statements of Golli were submitted in writing. The sentence of the court will not be divulged until it has been confirmed by the Supreme Court of War.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula or consumption. "That," he will tell you, "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

TORONTO LOST TO BUFFALO.

A Good Game Was Put Up Between the Two Leading Teams.

Buffalo, Aug. 14. The home team defeated the Torontos here to-day in a good game:

At Buffalo— R.H.E.
Buffalo .....0 2 1 0 1 0 0 1 0—5 9 2
Toronto .....1 0 1 0 0 0 1 0 0—3 3 3
Batteries—Gray and Urquhart, Norton and Cross. Umpire Pop Smith.

TORONTO WON ON SUNDAY.

Buffalo, N. Y., Aug. 15.—Toronto again leads the Eastern League, although during the early part of to-day's game it looked as if the Bisons were about to take another fall out of the Canadians. There were about 5000 people present at the game and when the locals started in to bat Stuley all over the field there was much joy in the rooters' camp. Gaston was substituted by Manager Irwin in the fourth and the Buffalo batters could do nothing with him. The Canadians fell on McFarlin in the eighth, and, assisted by some costly errors, won the game right there. Score:

Buffalo .....0 4 2 0 0 0 0 2 0—8
Toronto.. ....1 0 3 0 0 0 0 6 0—10

MONTREAL DOWNED THE STARS.

Syracuse, Aug. 14.—The Stars could not find Yerrick at any stage of to-day's game, while Lampe was hit hard. He was replaced by Mallarky in the fifth, after which Montreal made not a hit. Score:

R.H.E.
Syracuse .....0 0 1 0 0 0 0 1 0—2 9 3
Montreal .....0 1 0 2 3 0 0 0 0—6 9 1
Batteries—Lampe, Mallarky and Ryan; Yerrick and McNamara.

MONTREAL SHUT OUT.

Syracuse, Aug. 15.—Willis and Becker fought out a pitchers' battle here to-day, keeping the few hits well scattered. Willis won his own game by a corking two-bagger, bringing in Ryan after two were out in the second. Three successive singles and an error in the fifth netted two more runs. Bannon and Dooley were the only visitors to reach second. Score:

R. H. E.
Syracuse ..... 0 1 0 0 2 0 0 0 x—3 4 0
Montreal.. .... 0 0 0 0 0 0 0 0 0—0 6 2
Batteries—Willis and Ryan; Becker and McNamara.

At Wilkes-Barre—The game was interesting enough up to the eighth innings, when the visitors went to pieces. Five errors and Atherton's timely two-bagger netted the home team seven runs. The Miners could not overcome this. John L. Sullivan umpired, and gave satisfaction. Score:

R.H.E.
Wilkes-Barre ....1 0 0 1 0 1 0 7 0—10 9 4
Scranton .....0 2 1 0 0 1 0 0 1—5 11 9
Batteries—Widner and Diggins; Gilson and Boyd.

At Providence, Maine was a puzzle to Providence batsmen and held them down to four hits and no runs to-day. Hodson pitched great ball for Providence. The Pools were fast on the bases, and they made the most of what little hitting they did. It was a sharp fielding game on both sides.

R.H.E.
Providence .....0 0 0 0 0 0 0 0 0—0 4 2
Springfield .....0 1 0 0 2 0 0 0 0—3 6 1
Batteries—Hodson and Coogan; Mains and Nichols.

NATIONAL LEAGUE.

At Philadelphia—Baltimore made it three straight to-day, but only after one of the most exciting contests seen on the local grounds this season. In the first five innings the Phillies made but two hits off Hoffer, but in the sixth they jumped upon him for five, including two doubles and a triple. This combination yielded six runs and tied the score. Baltimore took the lead on the seventh, only to be passed in the first half of the ninth, when the locals developed another batting streak and knocked four runs. The champions again evened up things in the second half of the ninth, scoring two runs, both earned. They won out in the tenth on two singles and a sacrifice hit. Score: R.H.E.
Philadelphia ...0 0 0 0 0 0 0 0 4 0—10 14 3
Baltimore .....3 2 0 1 0 0 2 0 2 1—11 20 4
Batteries—Orth and McFarland; Hoffer and Clark.

At Washington—Brooklyn could not hit Mercer, while Dunn was an easy proposition for the Senators, who won out in the fifth by a batting rally, when they made four runs, four hits for eight bases. The game was well played and interesting. Attendance 900. Score: R.H.E.
Washington .....1 0 2 0 4 0 0 0 0—7 12 2
Brooklyn .....1 0 0 2 0 0 0 1 0—4 11 4
Batteries—Mercer and Farrell; Dunn and A. Smith.

At New York—Rusie held the leaders down to one hit up to the eighth innings to-day, when four hits, assisted by errors, gave them two runs. The Giants managed to connect with the ball when hits meant runs, although errors helped them out somewhat in their run getting. Davis playing at short and Van Haltren's throw from centre to the plate to catch Lewis, were the features. Score: R.H.E.
New York.....0 1 0 0 2 0 1 2 0—6 10 4
Boston .....0 0 0 0 0 0 0 1 2 1—4 7 3
Batteries—Rusie and Warner; Lewis and Bergen.

At Cincinnati—It took ten innings to decide the game between the Reds and Colts to-day. The visitors tied the score in the ninth, and won out in the tenth. This was McPhee day at the League Park. It was the occasion of presenting to the great second baseman the testimonial to which the citizens of Cincinnati generally contributed. The cheque amounted to $1780.50. Score:

R.H.E.
Cincinnati .....3 3 0 0 2 1 0 0 0 0—9 12 4
Chicago .....2 0 0 4 0 0 0 2 0 1 1—10 14 4
Batteries—Ehret, Daman and Peitz; Thornton and Donahue.

At Cleveland—Brown was very wild and was replaced by Young in the third to save the game, but without avail. The Browns batted Young for five earned runs in the fourth. Score: R.H.E.
Cleveland .....0 0 1 1 1 0 2 0 0—5 8 0 1
St. Louis.....0 4 0 5 0 0 0 1 0—10 14 1
Batteries—Brown, Young and Zimmer; Coleman, Donohue and Douglass.

At Pittsburg—The game was won in the eighth innings by the good batting of the home team. The feature was Donovan's fielding. Score:

Pittsburg .....1 0 0 2 0 0 0 3 0—6 13 3
Louisville .....2 0 0 0 1 0 0 0 0—3 9 3
Batteries—Killen and Sugden; Hill and Wilson.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

A Double Cure.

Mrs. Jas. E Elwood, St. Thomas, Ont., says:—"My husband and myself have taken Doan's Kidney Pills. We used them for kidney and back trouble for which we had spent a great deal of money without getting relief. Doan's Pills cured us both in a remarkably short time. I believe they will cure even after all other medicines fail."

TORONTO MARKETS

Flour—The flour market continues strong, with demand good. Straight rollers are quoted at $3.75 to $3.85 west.

Bran—The market is dull at $8 west for bran and $9 for shorts. Bran is quoted here at $10.

Wheat—The demand for new wheat is fairly active and prices firm. Red winter brings 77c for new. White is quoted at 78c, and old white at 80c west. No. 1 Manitoba hard is quoted at 88c to 89c afloat Fort William. This means 92c Goderich and Owen Sound. No. 2 hard 90c Goderich or Owen Sound.

Buckwheat—The demand is limited and prices nominal.

Barley—The market is quiet, with no business reported.

Oats—The market is quiet, with demand fair. White sold at 22c to 23c west and mixed at 21½c to 22c.

Peas—The market is dull and prices are quoted at 43c to 44c west.

Oatmeal—The market is quiet and prices steady at $3.10 to $3.20 for cars on track.

Corn—The demand is fair and prices steady, there being sales outside at 27½c to 28c.

Rye—The market is firm with sales outside at 38c to 40c.

BRITISH MARKETS.

Liverpool, Aug. 14.—No. 1 Northern wheat 7s 3d to 7s 4d; No. 1 Cal., 7s 5d to 7s 6d; red wheat, 7s 3d to 7s 3½d; peas, 4s 6d; corn, 2s 11¾d; pork 46s 3d for fine western; lard, 25s 6d. Bacon, heavy, l.c., 28s 0d; do., light, 27s 0d; do., short cut, 27s 0d; tallow, 18s 6d; cheese, 41s.

London—Close—Wheat off coast firm and less active. Maize on passage quiet and 6d lower.

Liverpool—Close—Wheat futures steady at 6s 10⅝d for Sept. and 6s 8⅝d for Dec. Maize, 2s 11¾d for Aug., 3s 0⅝d for Sept. and 3s 1⅝d for Oct. Flour, 22s 9d.

Paris—Close—Wheat dull at 27f 40c for Sept. Flour steady at 58f 60c for Sept.

CHEESE MARKETS.

Ogdensburg, N. Y., Aug. 14.—Twenty-five lots, 2935 boxes, offered. Six hundred and fifty-four sold 8¼c. Possibly all will sell on street at same price.

Cowansville, Que., Aug. 14.—The district of Bedford dairymen met to-day and offered 1469 boxes cheese from 25 factories. Sales were: 214 boxes at 8⅞c, 545 boxes at 8⅝c, 207 boxes at 8⅜c. Total sold 966. Meeting adjourned until Aug. 21 at 1 p.m.

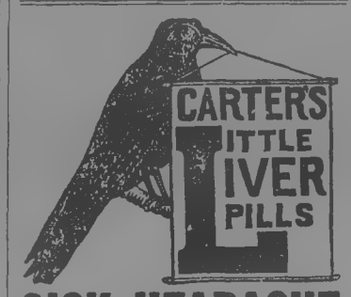
Watertown, N. Y., Aug. 14.—Sales of cheese on the Board of Trade to-day: 7000 boxes at 8c to 8¼c, 4000 for Montreal and 3000 for direct export via New York.

London, Ont., Aug. 14. Eight factories offered 749 boxes colored last half July cheese and 850 boxes first ten days August. Sales: 80 boxes at 8 7-16c and 823 boxes at 8⅝c.

Canton, N. Y., Aug. 14.—Twenty-two hundred large cheese sold at 8¾c. One thousand small 8¾c. Six hundred tubs butter sold at 16c to 16½c. Latter ruling.

Weyler Has Not Resigned.

Havana, Aug. 14.—Rumors which have recently been put in circulation to the effect that Captain-General Weyler had forwarded his resignation to Madrid are denied officially at the Palace.



SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognised this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why, should anyone suffer distress and sickness while this remedy is practically at their hands?

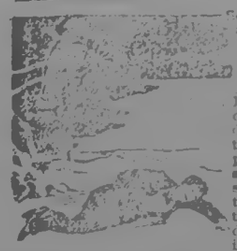
HOURS—11.30 to 4



Some doctors are like owls. They look wise and talk wise but they don't think. In diagnosing disease they don't go back to the starting point. When a man gets sick, nine times out of ten his evident sickness is only a symptom of some hidden and long-neglected disorder. Most frequently the original and exciting trouble is a disordered digestion. If that is corrected nature will in the majority of cases do the rest. It is easy for a man to avoid sickness if he will keep a watchful eye on his digestion and resort to the right remedy the moment he feels himself out of sorts.

All disorders of the digestion are corrected by Dr. Pierce's Golden Medical Discovery. It restores lost appetite, invigorates the liver, and fills the blood with the life-giving elements that build healthy flesh and firm muscles. It is the great blood-maker, flesh builder, and nerve tonic. It cures 98 per cent. of all cases of consumption. It cures wasting diseases and nervous troubles. It wards off disease of every description. Buy "Golden Medical Discovery" of reliable dealers; with tricky ones, something else that pays them better will probably be offered as "just as good." Perhaps it is for them; but it can't be for *you*.

"My wife has found great help from Doctor Pierce's Golden Medical Discovery, as, when she takes cold from any cause it generally settles on her lungs," writes R. James, of Box 281, Brooklyn Cuyahoga Co., Ohio. "The 'Favorite Prescription' we keep on hand all the time. It is a wonderful medicine. My wife has great faith in it. By being careful in the way we live and by using Dr. Pierce's medicines when we don't feel just righ., we have had to call in a doctor but once *in fifteen years*."

A man can't either make money or enjoy life who suffers from headaches, and sleeplessness, and heart burn. These troubles are caused by constipation. Dr. Pierce's Pleasant Pellets are a sure, safe, speedy and permanent cure for constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. Dishonest druggists sometimes try to substitute inferior articles for the sake of profit

THREE WISHES.

It was years ago, when I was a child,
A fairy came to me;
"Now, look in your heart and wish," she smiled;
"You shall have wishes three,
Look deep in your heart and wish," she said,
"For what you wish shall be."

I looked in my heart—I was but a child—
And I wished for a red, red rose,
The sweetest, the largest, the readest flower,
That in my garden grows.
It came and withered within an hour;
Flowers fade, as everyone knows.

I looked in my heart—I was but a child—
And wished for a milk white dove,
It came and surely never before
Had any bird such love.
One day it unfolded its wings and flew
Far into the heaven above.

I looked in my heart—I was but a child—
Yet a child can be so wise;
"Give me what's sweeter than any sweet rose,
More fair than the dove that flies.
A lover, *affectionate, good* and true!"
'Twas then I looked into your eyes.

JENKINS' SCHOOLING.

"Wimmin is queer critters," said Hank, reflectively, tilting back his chair and biting off a large section of "twist."

"An' th' fellar what sez he understands 'em is one o' two things. He's a liar—er a fool. Ginerally he's both.

"Now ther' was Sam Bunker's wife. When he knocked her down an' kicked her all 'round th' floor, an' the boys wuz a-foin' t' string him up fer it, didn't she git out 'er bed an' almost crawl ter where th' boys wuz, an' git down on her knees, a-beggin' 'em not to hurt Sam? They do the beatinest things!"

"They do say, Hank, that it was account o' one o' them 'queer critters' that you left the 'fete east; tho' what use any woman could hev fer you I can't see."

Hank scowled at the speaker, Jim Jenkins, and made no reply to the insinuation.

"Speakin' o' wimmin," said "Gineral" Grant, "I heard es how we're t' hev a schoolteacher down byar from Denver. Th' parson wus a-goin' ter start a school in th' gospel shop, an' git us boys t' chip in fer th' nes'sary expenses."

"Wal, *I'm* ready to chip in, and go ter school, too, ef she's purty," said Hank, who was the homliest man in camp, with his nearest competitor for that questionable distinction an Apollo in comparison.

"I don't know as it would hurt any of us t' take a hand in th' education game. I hain't noticed any o' the eastern colleges a-comin' t' Agua Buena fer their perfessors."

A laugh greeted this sally of Jenkins' as the crowd broke up for the night and sought its individual resting places, leaving the bartender to clean up.

Grant, nicknamed "Gineral," had spoken truly—not an invariable habit of his. One morning, about two weeks after his announcement, the stage stopped at Agua Buena, and the "parson" handed down a little woman in a neat, quiet dress, with a heavy brown veil covering her face.

The expectant crowd was disappointed at this, as they considered it unwarranted and provoking concealment.

"'Tain't right," said Grant; "hyar we all turn out ter see what she looks like, an' she keeps a reg'lar m'skito net over her face. 'Tain't right, nohow!"

The next morning, Sunday, Rev. Mr. Hempstead had a larger congregation, especially as regards the masculine contingent, than he had ever addressed in Agua Buena, it having become known that the new school teacher, in addition to her pedagogic duties, had consented to add to the church services with her voice.

Her neatly-gowned, booted and bonneted figure looked out of place amid the rough surroundings when she rose to her feet, and, standing near the minister, in the rude church, faced her audience of rough men and scarcely-less hardened women.

Then, without the aid of any instrument, for Agua Buena boasted neither organ nor piano, she sang—sang until her hearers were carried back to their childhood, back to the time when they thought th world good, knowing nothing of its evil. "Made yer think o' yer dead mother!" as Hank expressed it.

The hymn ended, the singer sat down amid a silence which was the highest compliment from such hearers, attesting an attention which, it is to be feared, Mr. Hempstead's efforts did not receive. The congregation was too busy watching the new importation, and voting in favor of free trade in such commodities, to hear much of the sermon.

It is wonderful what an influence a good woman has upon men.

Agua Buena used some of its "Good Water" the next morning; the women on the faces of the children and the men on their own countenances. In a good many cases it was merely a removal of an outer layer of soil, but anyway, it was a move in the right direction.

The youngest of Miss Carson's pupils was barely four years old; the eldest, on the wrong side of 50, being none other than Hank himself. He was not *alone*. Jenkins *and a dozen others* who had no feminine, restraining home influence, accompanied him and were seated on the planks that served as benches when the teacher arrived.

When she saw this unexpected addition to her class she hesitated, blushed, and then, assuming an air as if having rough gold diggers old enough to be her father for scholars was an everyday occurrence, she walked to the desk that had been built for her, divested herself of her hat and gloves (the men eyed those gloves wonderingly), seated herself and rapped for order.

The older section of her class displayed amazing ignorance and unblushingly allowed six-year-olds to pass them, that they might receive additional attention and instruction from their fair preceptor. If she thought their lack of even the rudiments of the "three r's" suspicious she did not show it, but went about her duties in a businesslike manner, apparently seeing nothing below the surface.

Jenkins developed a case of such rapid decadence of intellect that before school had "held" an hour he was lisping. The spectacle of this handsome giant in red shirt, corduroy trousers and cowhide boots standing in an attitude of exaggerated bashfulness and stumbling out:

"Teether! Pleath tell me what thith meanth?" and, pointing to the word "whisky," scrawled in awkward letters on a sheet of paper, was too much for both his companions and the "teether."

The first threatened the roof with their uproarious peals of laughter, while the second buried her face in a book; that is, all but a delicate ear, that showed a deep shade of pink.

After the first day, however, Miss Carson was relieved of her overgrown charges, with the exception of Hank, who insisted: "I want t' be learnt. I'm goin' t' be learnt an' I'll b'jeed'ef I ain't learnt! I've had my 'sperience o' wimmin, an' don't want no more, even ef they air as purty as a picter. An' I don't think ther's much danger o' her fallin' in love with me." In which last the boys agreed fully with him.

Jenkins developed a habit of "happening" around the school about closing time to the serious neglect of his claim. Likewise he always "happened" to be going in the direction of the "parsons'" house, where Miss Carson boarded, Miss Hempstead being the only woman in town who was in her walk in life.

"Jenkins seems t' think he's struck a payin' streak," said Grant, nodding in the direction of the couple, who had become a familiar sight on the one street of Agua Buena.

The slouch hat was in its owner's hand and the large blond head was bent down near the wavy black hair, tucked so neatly under the little bonnet. They were on their way to church, for Jenkins had become a regular listener to Rev. Mr. Hempstead. He heard little of the sermons, though. His attention was too much absorbed by the girl alongside him on the pine plank.

The sun shone clear and bright upon the houses, shanties, tents and dugouts of the little mining town. It glinted across the roof of the churchly schoolhouse and sent a ray through the half-open door of the cabin that Jenkins claimed as his.

Little groups of men, three and four together, were standing in the street, discussing the latest sensation.

Two strangers had arrived in town the night before, and this morning the schoolmistress was missing. The two strangers had also disappeared without anyone learning their identity. Speculation was rife as to whether they had anything to do with Miss Carson's unexplained departure.

Talk of making up a searching party was going the rounds. A man would detach himself from one group and join another, when the gossip would be gone all over again.

Then came a piece of fresh news to add to the complication and mystery. Jenkins' cabin was empty, and its owner nowhere to be found.

"Loped! I'll bet a hun'red dollars agin' a cross-eyed yaller dog!" ejaculated one of the listeners to the excited bearer of this last piece of intelligence.

This came to be the general belief, and the town soon settled down to its old "drink, sleep, eat and drink again" regime that it had known before the advent of so disturbing a member of the community as a pretty school teacher.

Hank seemed to feel it more than anyone else.

"Jest when I was a-beginnin' t' be learnt, she has t' go an' run away with this yere Jenkins. I allus sed they do th' beatinest things! I don't see what they had t' run away fer anyway."

Neither did anyone else unless it was for the sake of romance. That is, not until one of Agua Buena's citizens had occasion to go to Denver. When he returned the town heard the particulars of the "elopement."

He told of how hearing of the case, he had drifted into the United States district court. They were trying a man who had single-handed held up stage after stage, until the trail got too hot and he had suddenly disappeared.

"An' when th' pris'ner stepped inter what they call 'th' pen,' who in all creation d' yo suppose it was?"

The names of several well-known road agents were mentioned but each was answered by a shake of the head.

"Why, someone suggested, "Dan Manders?"

"K'rect! Otherwise known as 'Han'some Dan,' otherwise known as 'Keno Jack,' otherwise known as James Jenkins!"

"What!"

"Exactly! An' who d'ye spose was th' principal witness agin' him, an' th' one that did th' most work at th' catchin'?"

"The gal?" asked Hank.

"Right you air! 'Twas jest thet pooty innocent as does it and no one else."

"What did I tell you?" said Hank. "I allus say is 'Wimmin is queer critters!' An' ther be!"—Leslie's Monthly.

Shelling Peas.

The chef of a New York hotel has found a new way of shelling peas. He uses an ordinary clothes-wringer. The pods, as they go between the rollers, burst open, leaving the peas behind. The first impression is that the peas would be broken or bruised, but it is said this is not the case. The pods stain the rollers, therefore an old wringer should be used.

THE TRAIL OF DEATH

It begins at the Throat and ends at the Grave How many a human life is unnecessarily sacrificed.

There are many remedies on the market for the cure of consumption, but consumption, once it reaches a certain stage, cannot be cured. In professing, therefore, to do what is impossible, these remedies prove themselves to be simply humbugs.

Consumption is a disease which destroys the tissue of the lungs. Once gone, no medicine can replace that tissue. Good medicine may arrest the disease even after one lung is wholly gone, as long as the other remains sound. Once both are attacked, however, the victim is doomed.

Just why people should risk their lives to this dread disease and go to great expense afterwards to check it, it is hard to conceive. It is much easier prevented than cured. Throat troubles and severe colds are its usual forerunners. A 25-cent bottle of **Dr. Chase's Syrup of Linseed and Turpentine** will drive these away. It is, without doubt, the best medicine for the purpose to be had anywhere.

An agreeable Laxative and Nerve Tonic. Sold by Druggists or sent by mail. 25c., 50c. and $1.00 per package. *Samples free.*

KO HO The Favorite TOOTH POWDER for the Teeth and Breath, 25c.

EXPERIMENTS WITH WHEAT.

The Results at the Ontario Agricultural College, 1897.

One hundred and eighty nine plots have been devoted to winter wheat experiments this season at the Ontario Agricultural College. Owing to the late harvest and the exceedingly wet season, no winter wheat bulletin can be issued this year in time to be of much practical service before the period of winter wheat seeding is reached.

In an experiment with ninety-one varieties of winter wheat grown under similar conditions in 1897, it is found that the seven varieties which stand highest in yield of grain per acre are the same seven varieties which have given the largest yield of grain per acre among eighty-six varieties grown on the experimental plots for four years in succession. The following list gives the names of these seven varieties with the average yield per acre for four years, and also with the average yield per acre for this season.

Varieties.	*Average yield 4 years.*	*Yield 1897.*
Dawson's Golden Chaff	53.4 bus.	53.5 bus.
Early Red Clawson	50.6 "	53.4 "
Egyptian	50.3 "	52.2 "
Early Genesee Giant	50.1 "	57.0 "
Reliable	49.2 "	50.1 "
Golden Drop	49.0 "	57.6 "
Imperial Amber	48.8 "	55.2 "

Although the comparative order of the yields of these seven varieties are not the same in 1897 as in the average of four years, still the fact that they gave the largest yields in both cases among all the varieties tested is a very important feature in the experiment.

Land upon which peas were used as green manure in 1896 produced a considerably larger yield of winter wheat per acre than similar land upon which rape or buckwheat had been used as green manure, or which had been worked as a bare summer fallow. This experiment was conducted in duplicate, but for only one year. It being repeated this season in a similar way.

Large plump seed sown in the autumn of 1895 produced 3¼ bushels per acre more than the small plump seed; 6 4-5 bushels per acre more than shrunken seed; and 42¼ bushels per acre more than the seed which had been broken with the machine in threshing. The same number of winter wheat grains were used in the different selections and the experiment was conducted in duplicate.

In the average of four years' experiments in cutting two varieties of grain at five different stages of ripening, the results show that the grain cut before maturity does not give as large a yield as that which was allowed to become fully ripened. The details of this experiment can be more fully studied when they are printed in the annual report of the College for 1897.

The average results of an experiment conducted for five years in succession, in sowing winter wheat at different dates in the autumn, show that the seedings of September 2nd and 3rd gave 3-4 of a bushel more per acre more than the seedings of September 7th and 9th, and 7½ bushels per acre more than the seedings of September 17th and 20th. It is found that it is not usually advisable to sow winter wheat in the vicinity of Guelph later than September 9th.

PREVENTION OF SMUT IN WHEAT.

An experiment in treating seed wheat for the prevention of smut has been conducted for two years with quite satisfactory results. Infested seed wheat not treated for smut produced a crop containing an average of 2,146 smut balls per bushel of grain; while that treated with potassium sulphide produced an average of 109 balls of smut; and that treated with copper sulphate, 12 balls of smut; and that treated with hot water 9 balls of smut per bushel of grain. The hot water treatment which is one of the cheapest and most effectual remedies, consists in immersing seed wheat for fifteen minutes in hot water at a temperature of 132 degrees F. The water should not go below 130 and not above 135 degrees. Not only is the hot water treatment very effectual in killing smut spores, but it frequently improves the productive power of the seed, as shown by the increased yield of grain per acre. Every farmer in smut infected districts should treat sufficient seed to insure the harvesting of clean grain for seed next year.

DISTRIBUTION OF SEED FOR TESTING PURPOSES.

The following three sets of winter wheat varieties will be sent free, by mail, in one-half pound lots of each variety, to farmers applying for them, who will carefully test the three kinds in the set in which they choose, and will report the results after harvest next year. The seed will be sent out in the order in which the applications are received as long as the supply lasts:—

Set No. 1.—Dawson's Golden Chaff, Early Genesee Giant, Early Red Clawson.

Set No. 2.—Dawson's Golden Chaff, Pride of Genesee, Poole.

Set No. 3.—Dawson's Golden Chaff, New Columbia, Imperial Amber.

Each person wishing one of these sets should write to the Experimentalist, Agricultural College, Guelph, mentioning which set he desires; and the grain, with instructions for testing, and the blank form on which to report, will be furnished free of cost to his address, until the supply of grain for distributing becomes exhausted.

C. A. ZAVITZ,
Experimentalist.

Agricultural College, Guelph, Aug. 14th, 1897.

Mrs. S. James, Seaforth, suffered for years with what is called old people's rash. She was treated by many physicians without any result. Mr. Fear, the local druggist recommended Dr. Chase's Ointment, which relieved the irritation at once and speedily effected a permanent cure of the skin eruption. Mrs. James also says Dr. Chase's Ointment cured her of Itching Piles which she had been troubled with for years.

A Summer Specific.

Dr. Fowler's Extract of Wild Strawberry cures cholera, cholera morbus, diarrhœa, dysentery, cramps, colic, summer complaint, canker of the mouth and all bowel complaints of children or adults. It is a soothing, effectual and never failing medicine, which gives immediate relief and speedily effects a cure.

TALK OF EVICTIONS.

Striking Coal Miners Enter Suits for Wages.

TROUBLE SEEMS TO BE EXTENDING

Twenty-five Hundred Men Leave the high and Wilkes Barre Collieries—Police With Winchesters on Guard—Great Excitement in the Locality—Open Rebellion at Sandy Creek.

Pittsburg, Pa., Aug. 16.—There were no evictions up to noon, but it was reported that a number will be made before the close of the day. The threatened suits against the New York & Cleveland Company for restoring the wages of their striking miners have been commenced. It is anticipated that about 150 suits will result. Each will be for salaries ranging from $15 to $20, which represents two weeks' pay.

Mass meetings were held today at Harmony, on the southwest branch of the Pennsylvania Railroad, and the 15 men at work were induced to come out. The march on the Westmoreland, Jefferson and Clearfield districts will be made this week. The first meeting will be held at Irwin to-morrow.

The Strike Extending.

Matewan, W. Va., Aug. 16.—Eight hundred miners at Simmons' Creek and Logan joined the strikers this forenoon. Fifteen hundred men are now out in the Norfolk and Western district.

Matters Growing Serious.

Hazelton, Pa., Aug. 16.—Matters at the Lehigh and Wilkes-Barre collieries, in the Honeybrook district, are growing serious. The five drivers went out on Saturday for an increase in wages. This morning 2500 miners joined them, and the usually quiet southside towns are in a state of subdued excitement. The men had no organization, but a branch of the United Mine Workers' Association was started this morning, and six hundred men at once signified their willingness to join. The men held a mass meeting last night and decided to make the strike general this morning. The entire force of coal and iron police, carrying Winchester rifles, were on hand to guard the collieries. The strikers assembled on the hill above the works at Audenried, and a crowd of 300 men marched past the deputies to the breaker. At a given signal the men at work left their places. The deputies did not attempt to molest the men. Interference by the deputies would, it is believed, have precipitated a riot, as the men were determined and armed. The feeling is now so bitter against Superintendent Jones that he fears bodily harm, and moves about with an armed escort. His house is guarded day and night. Superintendent Jones this morning offered to meet the demands of the drivers, but the men are now determined to have all their grievances heard, and will appeal to the Lehigh and Wilkes-Barre officers in New York.

Jackson's Orders Issued.

Charleston, W. Va., Aug. 16.—Judge Jackson's injunction orders were issued here this morning, and Deputy United States Marshal Priddie has gone to the New River coal fields to serve papers on Dilcher and his associates.

Open Rebellion.

Pittsburg, Pa., Aug. 16.—There was open rebellion at the Sandy Creek strikers' camp this morning. Some 15 or 20 foreigners, who were dissatisfied with the commissary, complained to Captain May and demanded better food. He told them they were being well treated. The foreigners then threatened to march, and Captain May ordered the deputies to arrest them if they did not keep quiet. This had the desired effect, and the foreigners returned to their quarters. There was no trouble at the other camps.

Get your Books bound at the EXAMINER Office.

BASEBALL RECORD.

London, Ont., Aug. 16.—London and Guelph played morning and afternoon games here to-day. In the first game for London Johnston struck out seven men. Although Doty only struck out four men, only one hit was made off his delivery.

Doty and Johnston, who were in the points in the morning game, again officiated in the afternoon game. Doty for Guelph was invincible, but one hit being made off his delivery, a three-bagger by Keenan in the seventh, the latter scoring on a sacrifice by Sechrist. Johnston for London was touched up quite freely, but did not receive the support accorded the Guelph man, the Leafs playing a fast game from start to finish, while London fielded loosely. Umpire Phelps was hit by a batted ball early in the game and retired in favor of Webber. The loss of to-day's two games gives Hamilton a firm grip on first place, while Guelph may yet be considered to be in the race. Score:

	R.	H.	E.
London	0 0 0 0 0 0 0—0	1	0
Guelph	0 0 0 0 1 0 0—1	7	1

	R.	H.	E.
Guelph	7	11	1
London	1	1	9

Batteries—Doty and Moore; Johnston and Reid. Umpire—Webber.

CHAMPS SWATTED DOLAN.

Providence, Aug. 16.—The Providence players were unkind to their old comrade, Pitcher Dolan to-day. They swatted him hard and often, and were pretty severe on him in the fourth innings, when they plugged the ball out for a double and five singles right in a row, and earned four runs. Springfield bunched four hits, and, with a couple of battery errors, scored three in the sixth. They threatened mischief when they started with a streak of hitting in the ninth, but the Greys kept them down to a single run in that inning. Egan pitched in fine form. Score:

	R.	H.	E.
Providence	1 1 0 4 0 0 0 0 1—7	11	1
Springfield	0 0 0 0 0 3 0 0 1—4	11	2

Batteries—Egan and Dixon; Dolan and Duncan.

THE NATIONAL LEAGUE.

At Pittsburg—Pittsburg and Louisville made a grand struggle for seventh place with all the odds in favor of the visitors, until the eighth inning, when with two men out, the home team made four hits netting seven bases and three runs. Score:

	R.	H.	E.
Pittsburg	0 0 0 0 0 0 0 3 *—3	9	1
Louisville	2 0 0 0 0 0 0 0 0—2	12	1

Batteries—Gardner and Sugden, Cunningham and Wilson.

At New York—The New Yorks and Philadelphias played an uninteresting game. Taylor was wild, but those of the Giants who had on their batting clothes, managed to hit his delivery whenever they wished. The errors on both sides were very costly. McCreery's double play to Warner was the feature. Score:

	R.	H.	E.
New York	0 3 1 1 0 0 2 0 *—7	11	4
Philadelphia	1 0 0 0 1 0 0 0 0—2	9	2

Batteries—Mackin and Warner; Taylor and McFarland.

At Baltimore—The Orioles defeated the Brooklyns in a one-sided game. Kennedy held the champions down to two hits during the first four innings. In the fifth, a succession of well placed hits netted the home team five runs. In the next inning the visitors became demoralized and for the remainder of the game there was no contest. Score.

	R.	H.	E.
Baltimore	1 0 1 0 5 0 1 0 *—14	13	2
Brooklyn	2 0 0 0 0 3 0 0 0—5	10	9

Batteries—Pond and Clarke; Kennedy and Burrill.

At Boston—The Bostons won the first game of the series with Washington in wet and threatening weather. It was a pitcher's battle throughout, and both had excellent support. Nichols' speed was terrific and he struck out eight men. Tommy Tucker, for the first time since 1889, appeared in a uniform, not that of the Bostons and played first base for the visitors in his usual style. Score:

	R.	H.	E.
Boston	1 0 1 0 0 3 0 0 *—5	9	0
Washington	0 0 0 0 0 0 0 0 2—2	6	1

Batteries—Nichols and Bergen; McJames and McGuire.

After serious illness Hood's Sarsaparilla has a wonderful building up power. It purifies the blood and restores perfect health.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c. 50c. and $1.00.

An August Argument...

Dull times in a store are expensive. We long ago determined to skip that sort of expense. Wants there always are—Their stocks need adjusting—May be we lose money but, taking September losses in August is as broad as it is long to us—and to you it is infinitely better, because we hand you the goods while you have ample using time ahead.

To-Day

And for the days coming we offer Headwear at prices that are as unusual as frost in August:—

Choice of Fine Dress Straw Hats—the identical styles that started this season, at 75c and $1.00, now 25c.

Outing Caps 5c to 25c, worth double.

10 styles in lightweight Fedoras and Soft Hats (Fur)—made to be sold for $2.00 and $2.50, now $1.25.

A large lot of Summer Stiff Hats are marked for a good bye, at $1.50 cash, worth from $2.00 to $2.50.

Fresh and foremost we offer the New Fall Stiff Hat, in Black and Brown—block issued on Aug. 1st. Get one—$2.25.

IT PAYS TO ADVERTISE IN THE EXAMINER

A GREAT BIG BROAD-GUAGE BUILDING SALE

Serious Disturbance to Business.

On next Monday we start upon the work of further Remodelling, Rebuilding and Extension of our present premises, made imperative by the continued growth of our business. In view of the many improvements to be effected, we are forced to make room for the army of Carpenters, Bricklayers and Labourers who will "storm the walls," involving a serious disturbance of stocks. Every department will get a shaking up. The ground-floor space must be cleared, necessitating the removing of goods and the sweep of

A GENERAL HOUSE-CLEANING SEASON.

We have to submit to the inevitable, and resign ourselves to the LOSS OF HUNDREDS OF DOLLARS in order to get the goods out of the way. In order to lighten the labour,

We Let Down the Price Bars.

THIS MONTH we not only smash the Prices on Clothing but on every blessed thing in our two stores.

From now on our efforts will be concentrated upon the swift turning into cash of our matchless stock. To create an enormous demand, we are making prices so tempting that people will buy to satisfy future as well as present wants. Bargains on Monday and every day—hundreds more than we can talk about—the commencement of a great sale that will make past efforts seem puny—BECAUSE WE HAVE TO.

Business has been good beyond comparison. This season has been a perfect triumph. Some idea of the growth our trade may be gathered from the fact that our July sales jumped ahead $1700, and the Boot and Shoe department has gone on steadily increasing at the rate of 20 per cent. since the 1st of January. But we never reach that point when we feel that our reputation is made. WE CONTINUALLY KEEP PUSHING. It is not enough that we were successful last year and year before—progress must mark our present work. The business situation to-day calls for enlarged facilities, and improvements are being made accordingly.

In Times of Heat Prepare for Cold.

In the general overhauling, there will be brought to light, accumulations of Odd Suits, Odd Lengths, small quantities and Remnants, throughout the various departments which will be let go at prices to dispose of quickly.

Come and hear the Prices Snap and don't forget that we stand ready to return your money without question if you are dissatisfied with your Bargains.

GOUGH BROS. THE WONDERFUL CHEAP MEN, 375 and 379 George Street.

Direct Importer of Carpets and Dry Goods, Sign of the Golden Lion, 383 George Street, Peterborough.

SOME OF THE BIGGEST CHANCES OF THE YEAR.

The month of August brings with it some of the biggest chances of the year. The approach of the fall season beginning in September has to be provided for considerably in advance. Making room is a perplexing problem, and many extraordinary sacrifices of really good lines have to be made. Be wise in time. These are—

REMNANT DAYS....

Every Remnant in stock, placed on tables and an entire clearance must be made. Lengths from 1½ to 10 yards, in Silk, Black and Coloured Dress Goods, Linens, Cottons, Prints, Flannels, Cretonnes, Linings, Straw Hats, Ribbons, Laces, Embroideries, etc., all reduced, equal to ONE HALF THEIR FORMER PRICES. Don't miss this this snap

—AT—

MISS RUDKINS'

CRYSTAL BLOCK—NEXT LOWE'S STORE.

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c. Remember the address—

JAMES SUTHERLAND,

A Cool Request From American Silverites.

STAP ENGLAND WITH ONE HAND

And Hold Out the Other for Favors—Special Article in The London Times on the Silver Question There is No Chance of the Indian Mints Being Reopened.

London, Aug. 17.—The Times publishes a two-column special article today, reviewing the effects of closing the Indian mints, in connection with the visit of the American bi-metallic commission.

The article comments on the "characteristic crudeness and boldness of American diplomacy in sending a bi-metallic commission to ask for the re-opening of the Indian mints, while at the same time dealing the worst possible blow at British commerce by passing the Dingley tariff.

"The closing saved the Indian Government from the losses incident to a heavy fall in exchange, and consequently from a disastrous increase in the burden of its gold obligations. It is undoubtedly true that it also helped to keep down the gold value of silver bullion, but may not the question be raised whether the low price of silver is necessarily disastrous to that India which purchases it so largely? Since 1883 India has been the only real wholesale customer for silver. Other customers are of the retail order.

"The delicate adjustment of the relative prices of the rupee and silver, formerly existing, has been rudely shattered by recent events. Since 1885 the rupee has risen and silver has fallen. The fact is, the forces now acting upon the price of silver have become too tremendous to be dominated by such delicate influences as preceded the defeat of Bryan's silver party and Japan's adoption of the gold standard. The events have proved causes too potent to be withstood.

"It is clearly impossible," says the writer, "to treat seriously a commission which argues that unless we do something for silver the next election in the United States will return Mr. Bryan to the White House, to the lasting injury of British interests. It is not certain that Mr. Bryan will be elected. It is not even certain that if he were elected we would suffer more than we should from a new McKinley with another McKinley Act. Moreover, British investors in American securities have time before the next Presidential election and before the crash to get rid of them.

"One thing is certain, we should be very foolish to do anything for silver. Even should the Unit d States and France agree to adopt bi-metallism and England to re-open the Indian mints, it would only bolster up silver for a brief space, to fall again to its proper market price, so that Indian finances would be in a position as bad as before, if not worse than before."

The article, in concluding, says: "The closing of the mints was justified, and all that is now needed to bring a great experiment to a successful ending is a little courage and patience, as well as resource, on the part of the financiers of the Indian Empire. At the same time plain and straightforward language is advisable upon one point: The Indian statesmen tampered too long with bi-metallism. This flirtation, which seems so innocent and innocuous, has already cost them dear. But for that the Government would have assented to the closing of the mints long before 1893."

The Westminster Gazette this afternoon echoes the editorial of The London Times this morning on bi-metallism cabled to the Associated Press, and says it sees no chance of the Indian mints being re-opened to the coinage of silver, adding: "To fool any longer with President McKinley's commission is surely unnecessary. In declining to abide by the market value of silver as the standard of currency value, India has taken a step towards demonetising silver; Japan and Russia have adopted the gold standard, and no one means to go back on it. Then why not say so, and not be deterred by the threats of a possible Bryanite victory, and dismiss the question finally?"

WORD FROM ANDREE.

A Carrier Pigeon Which Was Shot Brought Very Favorable News.

Christiania, Aug. 17.—Information received here confirms the story, published in a despatch from Hammerfest, Norway, saying that one of the searchers for Herr Andree met the sealing vessel Alken about July 22, and was informed by her captain that one of the crew had shot a carrier pigeon between North Cape and Seven Islands, on the north coast of Lapland, bearing a message from the explorer, addressed to The Aftonbladt of Stockholm, as follows: "Eighty-two degrees passed. Good journey northward. Andree."

The date of the message was illegible.

The pigeon also carried a letter addressed to The Aftonbladt, but the captain declined to surrender either the despatch or the pigeon, and continued his voyage northward. The captain is familiar with Andree's plans and is greatly interested in them. The news arrived here very indirectly. The captain of the Alken communicated the information referred to to the commander of the ship Ingeborg of Tromsoe. The latter transmitted the message to the commander of the steamer Express, upon which the Lerner Polar expedition was coming home, and the Express finally passed the news along to the steamer Lofoen, which brought it here.

ROYALTY'S VISIT TO IRELAND.

Duke and Duchess of York Will Have a Warm Reception.

Dublin, Aug. 17.—The Duke and Duchess of York will arrive here to-morrow to pay their long-expected visit to Ireland. They will be the guests of Earl Cadogan, Lord Lieutenant of Ireland, and Countess Cadogan, and will be entertained at the Vice-Regal lodge. The whole city is in a state of feverish expectancy, although the officials of the municipality are inclined to hold aloof.

The royal pair will leave Holyhead early to-morrow morning on the royal yacht Victoria and Albert, escorted by two warships, and will arrive off Kingstown about 11 o'clock. The yacht will be boarded by Baron Ardilaun, Vice-Lieutenant of Dublin County, and by the High Sheriff of Dublin, with the Kingstown commissioners. The latter will present a dutiful address to the Duke and Duchess.

Promptly at noon the Duke and Duchess of York will disembark, while a royal salute is being fired and the royal anthem played. The guard of honor at the landing stage and to the railway station will be the West Kent Regiment.

The railway station will be elaborately decorated with flowers and a special train will bring the Duke and Duchess to this city, where they will be received on arrival by Lord Frederick Roberts of Kandahar and Waterford, commander of the forces in Ireland, and his staff; the Yorkshire Light Infantry furnishing the guard of honor. All the troops in Dublin will line the route of the procession from the railway station to Dublin Castle, where the guard of honor will be the Connaught Rangers.

The Chinese £16,000,000 Loan.

London, Aug. 17.—The Shanghai correspondent of The Times says: "I hear on good authority that Sheng Taren has received the approval of the T'sung Li Yamen to the preliminary contract for the indemnity loan of £16,000,000, which the Hooley syndicate will undertake. Mr. Morgan, for an American syndicate, is offering to advance the funds on the security of the Likin in the Kiang provinces and certain railway receipts."

Ferdinand Appeals to Turkey.

Vienna, Aug. 17.—A Hungarian newspaper publishes an interview with M. Stoiloff, the Bulgarian Premier, which represents him as saying: "Bulgaria first set her hopes in Russia, and then in Austria; but she soon found it useless to expect help from Europe. Prince Ferdinand, therefore, turned to Turkey, who, in the event of war, will support Bulgaria with 100,000 soldiers. Prince Ferdinand would rather kiss the hand of the Sultan than abase himself before Europe."

Blood Defeated the Tribesmen.

Simla, Aug. 17.—A reconnaissance in the Swat Valley has discovered the enemy to be entrenched in the hills between Jalala and Landaki, confirming the reports of the gathering in force of the Upper Swatis, Bonerwals and Handustani fanatics. General Blood brought his field guns into action against the stone entrenchments of the enemy, demolishing these works, whereupon the insurgent tribesmen fled.

Strikers Have Made Gains.

Wheeling, W.Va., Aug. 17.—The strikers show material gains in all sections of West Virginia to-day. In the Wheeling district there is not a miner working, while on the Ohio side of the river the last man except those who are to furnish coal for water and electric light plants will be out to-night. In the Fairmount district the strike leaders did not succeed in closing the Montana mine entirely, but they made decided gains. The camp will be maintained there till the last man leaves his work, when these recruits will be taken with the main body to the other Watson Company's mines to help close them. In the Kanawha Valley about 300 men have gone to work since yesterday morning, but more than that number have left their work. In the Norfolk and Western region the organizers have gone to work again with a will and in sufficient numbers to prove effective.

The leaders are getting to understand the United States court injunctions, and find after careful reading that they prohibit nothing but trespass, and do not apply to speech-making or assemblage on public ground. They are no longer a cause for alarm to the organizers.

Landing at the Wrong Place.

Washington, Aug. 17.—Word has reached the Government authorities that British steamers are landing freight and passengers at Skagaway, Alaska, instead of at Dyea, in direct violation of the law. Dyea is the sub-port of entry on the Lynn Canal and Skagaway is six miles off. The matter will be investigated by this Government.

We are showing a fine line of violins, guitars and at autoharps at very close prices. PETERBOROUGH MUSIC CO.

MURDER OF MRS. ORR

Trevelyan, the Medical Student, Discharged From Custody.

YOUNG ALLISON IN THE SWEAT BOX

Another Name Comes Prominently Into the Case Queer Letter Written by Blair to the Murdered Woman—Inspector Murray Questions the Boy Allison for Hours.

Galt, Ont., Aug. 17. (Special.)—The work of unravelling the mystery that surrounds the murder of Mrs. Anthony Orr is proceeding slowly but surely, and there is every prospect that the murderer will have to face a jury. Detective Murray put in a hard day's work. At 9 o'clock he went to the Town Hall, and it was not until 3 o'clock that he came away. All this time was consumed in questioning Trevelyan and Allison, the only persons yet arrested in connection with the murder. Trevelyan was discharged from custody before he went into the sweat box, as Detective Murray quickly concluded that his arrest was a mistake. Allison is still in custody. When the trio emerged from the sweat box your representative interviewed Trevelyan, but apart from the information that many important facts had been brought out by the detective's questioning he would say nothing about what transpired. He had been told not to say anything, and he positively refused to give any further information.

In the afternoon Detective Murray visited the scene of the tragedy, inspected the graves and the premises generally, and had a talk with Anthony Orr and little Maggie Orr. He was shown the red oak club referred to in the expert yesterday, and is satisfied that it is the instrument that killed Mrs. Orr. A close examination of this stick reveals several blood stains, and it is of such shape and weight as to convince the authorities that they have now the instrument of death in their possession.

Theories innumerable fill the air, and a new one is born every minute, but the actual happenings to-day are these:

The arrival of High Constable Klippert from Berlin, who will assist Detective Murray in this case.

The discharge of Trevelyan from custody.

Trevelyan and Allison questioned for five hours by Detective Murray.

Visit of Detective Murray to the Orr farm, and the interview with Anthony Orr and the little girl.

At the close of the day's work Detective Murray appeared to be quite satisfied with the progress made, and is evidently satisfied that he is in a fair way to solve the mystery. He would say little or nothing to the reporters, but it is quite evident that he is satisfied that neither Anthony Orr nor Harry Blair had anything to do with the killing of Mrs. Orr. As for the boy Allison, the investigation has not proceeded far enough yet for him to speak with any certainty as to his guilt or innocence. Mr. Murray is sure that the grave in the swamp was dug after the murder; that is, between Monday morning and Wednesday morning. The grave in the corn patch could be made in five minutes.

Only three theories are now being seriously considered. The first one is that the boy Allison did the deed alone; the second connects Harry Blair with the murder, and the third brings in a man named Robert Stoker. It is unquestionably a fact that the authorities, from their investigation so far, lean towards the theory that Allison did the deed, although this is in direct opposition to the views of nearly everyone in the neighborhood. Detective Murray, as stated above, spent five hours cross-questioning Allison to-day, and it is not likely that the interview was entirely fruitless. Barrister Blake, who is defending Allison, demanded admittance to the sweat box, but was refused. He claims that this proceeding was outrageously unjust, and Barrister Card, who is acting for Trevelyan, made the same objection on behalf of his client. They had to remain out in the hall, however, with the press representatives.

Suspicion has never been entirely lifted from Allison, and now that it is known that the result of the investigation points to him as the guilty one his movements and statements have again been carefully enquired into, and a few new points, more or less important, have been brought to light. Anthony Orr says that when he returned to the farm Allison met him. Orr evidently surmised from the expression in the boy's face that something was wrong.

"What's up?" asked Orr.

"Oh, nothing!" replied Allison with a smile.

Orr asked him the same question again and got the same reply. Finally Allison said: "Your wife has gone." The news threw Orr into a great state of excitement, but he instituted a search at once and was unremitting in his efforts to locate her. Very few persons can be found who had any conversation with Allison since the tragedy, and it is impossible to tell whether he has stuck to the same story throughout. As far as can be learned he has not altered the story he told on the day of the tragedy, unless Detective Murray succeeded in shaking him in the sweat box to-day.

Whether Allison actually committed the deed himself or not, the general impression is that he knows a good deal more about it than he has told. The finding of his gun hidden in the barn, his thorough acquaintance with every spot on the farm and his manner of informing Orr that his wife "had gone," are referred to as suspicious facts. It was rumored that both he and Trevelyan were to be released, but Trevelyan's discharge and Allison's detention show that the authorities look upon the boy as an important factor in the solution of this mystery. He is only 17 years of age, but is strong and well built. He had raked up the chips around the kitchen door, and when asked why he did so he replied that Mrs. Orr had ordered him to do it.

Detective Murray says that an attempt had been made to raise the cry

WEDNESDAY, AUGUST 18, 1897.

CANADIAN CHEESE ABROAD.

We referred a few days ago, says the Ottawa Free Press, to the mischievous statements made in the London Lancet that Mr. Allen, the public analyst at Sheffield, and Mr. Stoddard, another public analyst, had discovered in some Canadian cheese poisonous substances which had been used by the manufacturers to prevent the heaving and cracking of the cheese, and we expressed the opinion that in all probability some unscrupulous shippers from the other side of the line—people of the class who have in other matters endeavoured to sell inferior goods in Britain under the name of Canadian—were at the bottom of the affair. The matter is one of the utmost urgency, and no trouble and no expense will be too great to be brought into play in order to counteract the extremely dishonourable tactics to which our commercial rivals are having recourse in order to greatly injure the reputation of one of the most important articles of Canadian export. We expressed the hope that the Government would take immediate and decisive action in connection with the subject, and the following letter from the Minister of Agriculture to Sir Mackenzie Bowell indicates that Mr. Fisher is fully alive to the urgency of the subject matter. The ex-Premier wrote to that gentleman, and seems to have expressed a similar opinion that advanced in these columns that the so-called "Canadian" cheese spoken of in the Lancet was not manufactured in Canada, where such practices as it referred to, have never been known to be resorted to. The reply of the Minister is as follows:

Ottawa, August 7th, 1897.

Dear Sir Mackenzie,—In reply to yours of the 4th, I looked up the item in the Lancet to which you refer. Some time ago, perhaps seven or eight months ago, a somewhat similar article appeared in one of the English papers, and Prof. Robertson made an investigation and replied to it. It was then absolutely shown that no such discovery had been made in Canadian cheese, and I thought the thing had been disposed of. I will, however, immediately on his return—I expect him in a week or two from England—ask him to send a reply to this reference based on the former investigation. I am pretty sure that these representations are a mere resuscitation of the idea expressed in the other. I quite agree with you that it is very important that no such attack should be made on our Canadian products without being refuted, especially when appearing in such a reputable journal as the Lancet. I thank you very sincerely for drawing my attention to it.

Yours very truly,
SYDNEY FISHER.

The Honorable Sir Mackenzie Bowell, Belleville, Ont.

There can be no question as to the importance and urgency of the issue. It demands very prompt and radical treatment. The fact that it has already been "shown" in Great Britain that such a state of things does not exist does not seem to be sufficient and it will have to be shown and shown again until the British analysts and papers learn that things are not always what they seem to be and that they may, quite unconsciously perhaps, do an injustice.

EDITORIAL NOTES.

COXEY, of tramp army fame, has been nominated as the candidate for governor by the populists of Ohio. Coxeyism and McKinleyism seem to be near neighbours.

HAMILTON Times:—It is said that if Whitney, the smallpox patient at Toronto, ever gets out again he will be badly pitted. The political plague-stricken Whitney is likely to be badly pitted next year—put in the cold storage pit, so to speak.

THE Scientific American makes an announcement of interest to Peterborough and the other gold districts of the country. It states that John D. McDonald, of Sudbury, Ont., has patented a smelting furnace. It is designed to facilitate the smelting of pyrites, blend, sulphurets or sulphides, etc., without the continued use of coal, the apparatus providing a steady feed of the ore, the feed being controlled by lateral vibration, and the temperature at which the ore is delivered into the crucible, in treating fusible ores, being governed by the feeding devices. A feeding carriage has its frame formed with hollow base and upright side sections forming water jackets, and a deflector prevents the ore from clogging in the mouth of the crucible and prevents the fine particle of ore from being subjected to the direct action of the blast upward from the crucible.

THE Globe intimates that the Ontario Government has adopted new timber regulations, which provide that timber license-holders shall not in future employ in or about cutting pine timber on the lands of the crown non-resident labour, or, in other words, that labourers whose homes are outside of Canada shall not be employed by American or Canadian lumbermen to work in the lumber camps or in and about the cutting, hauling or handling of timber on the lands of the Crown. Many American and some Canadian lumbermen have heretofore employed large numbers of men brought from the other side, and this it is sought to stop. The familiar song, "I Won't Play in Your Yard," is no longer being given as an international solo, by an American President, but is now rendered as a duett. It is not a pleasant state of affairs, but the boorishness of Uncle Sam seems to make it unavoidable.

TORONTO MARKETS

Flour—The flour market is quiet and firm. Straight rollers are quoted at $4.10 to $4.15, Toronto freights.

Bran—The market is quiet at $8 to $8.50 west for bran and $9 for shorts. Bran is quoted here at $10 to $11.

Wheat—The demand for wheat is fairly active and prices firm. New red winter sold outside to-day at 78c, and white will bring 78c to 80c. Old white is quoted at 85c. No. 1 Manitoba hard sold at 90c to 91c, Fort William, and 85¼c Goderich. No. 2 hard 82c to 83c Goderich.

Buckwheat—The demand is limited and prices nominal.

Barley—The market is quiet, with prices nominal.

Oats—The market is quiet, with demand fair. White sold at 22c to 22½c west, and mixed at 21¾c.

Peas—The market is quiet, with sales outside at 44c north and west.

Oatmeal—The market is quiet and prices steady at $3.10 to $3.20 for cars on track.

Corn—The demand is fair and prices steady, there being sales outside at 27c to 28c.

Rye—The market is firm with sales outside at 40c to 42c, the latter east.

TORONTO LIVE STOCK MARKET.

There were 55 carloads of live stock delivered on the market yesterday. There were 955 cattle, 300 sheep, 400 lambs, 50 calves and 1000 hogs.

The market for export and butchers' cattle was dull, and prices were, if anything, a shade lower, especially for shipping cattle. Export cattle sold at $4 to $4.50 per cwt., and the latter price was only paid for some few extra choice lots.

J. Dunn bought one load weighing 1296 lbs. each at $4.50 per cwt., also one load weighing 1221 lbs. each at $4.35 per cwt.

S. Halligan bought three loads of cattle, one carload for export weighing 1360 each at $4.35 per cwt., and one load butchers', composed of 21 cows, averaging 1240 lbs., at $40 each, less $10 on the lot; also 17 head mixed, weighing 1100 lbs. each, at $3.80 per cwt.

R. Russell sold 14 export cattle, weighing 1220 lbs. each, at $4.35 per cwt.

C. Schiegal sold nine exporters, averaging 1200 lbs., at $4.25 per cwt.

A. Levack bought six choice butchers', averaging 940 lbs., at $3.75 per cwt.

There were few bulls offered. C. Zeagman bought one weighing 1540 lbs. at $3.80 per cwt., and another that weighed 1300 lbs. for $43.

A. M. Buck bought one bull weighing 1080 lbs. at $3.25 per cwt.

A large number of light feeders and stockers were on the market, and W. Crealock bought 10 light feeders, which cost him $3.50 per cwt.

John Cooney sold one load of 26 stockers, weighing 800 lbs. each, at $3.15 per cwt., to Mr. Steel, for Buffalo market.

A. M. Buck bought 30 stockers and light feeders, weighing 750 to 1000 lbs. each, at $3 to $3.50 per cwt.

H. Maybee bought 73 stockers and feeders, weighing all the way from 825 to 1000 lbs., at $3 to $3.40 per cwt.

Not many milk cows offered. There were only 10 on the market, which sold from $25 to $40 each.

Calves were worth from $3 to $6 each, according to quality.

There was a fair demand for export sheep, of which 300 offered, and sold at $3 to $3.37½ per cwt.

Bucks were worth $2.50 per cwt.

Lambs were plentiful, selling at $2.75 to $3.25 each, and a few of extra weight and quality brought $3.50 each. Both sheep and lambs find a ready sale.

The hog market was a little slower than usual, but prices were still maintained, and $5 per cwt. was paid for the best.

BRITISH MARKETS.

Liverpool, Aug. 17.—No. 1 Northern wheat 7s 4½d to 7s 5d; No. 1 Cal., 7s 7½d to 7s 8d; red wheat, 7s 4d to 7s 5d; peas, 4s 8d; corn, 3s 0¼d; pork, 47s 6d for fine western; lard, 23s 0d; bacon, heavy, l.c., 28s 0d; do., light, 27s 0d; do., short cut, 27s 0d; tallow, 18s 9d; cheese, 41s 0d.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c. 50c. and $1.00.

Prince Henri's Wound.

Paris, Aug. 17.—Prince Henry of Orleans, who was wounded on Sunday morning in a duel fought with the Count of Turin, has passed an excellent night, and all danger of a serious outcome from his wound appears to be over.

A sensational rumor, which is not yet confirmed, was in circulation last night that the wound of Prince Henry of Orleans is not healing satisfactorily and that the patient is suffering from high fever. The physicians, it is said, declined to give any definite information as to his condition.

An English Bull

John Bull occasionally perpetrates a bull that is quite as "bully" as an Irish bull. According to Law Notes of England, an English judge, in sentencing a prisoner recently, said: "Are you aware that for these repeated breaches of the law it is in my power to sentence you for a term of penal servitude far exceeding your natural life? And, what is more, I feel very much inclined to do it."

DROPPED DEAD!

Suddenly Stricken Down by Heart Disease.

"A sad and sudden death occurred to a well-known citizen on one of the leading streets this morning."

Nearly every large city paper contains daily some such heading. The number of deaths from heart failure is very large, but it is only when they occur in some public and sensational manner that general attention is drawn to them.

Palpitation and fluttering of the heart are common complaints. With the heart itself there is nothing radically wrong. But the system is disorganised, the kidneys and liver are out of order, and the stomach is not in condition to do its work porperly. Between them all, they throw too much responsibility on the heart, and the latter is unable to stand the strain.

A box of Dr. Chase's Kidney-Liver Pills at a cost of 25 cents will regulate the system, purify the blood and make a new person of every sickly man, woman or child.

Dr. Chase's Liver-Kidney Pills may be had from any dealer or from the manufacturers, Edmanson, Bates & Co., Toronto. One pill a dose, one cent a dose.

Dr. Chase's Linseed and Turpentine is and colds. Largest bottle on the market; only 25 cents.

Others Fail—It Cures!

DEAR SIRS,—From my own experience I can confidently say that Dr. Fowler's Extract of Wild Strawberry possesses true merit. It was the means of saving my little girl's life last summer. She was teething and took violent diarrhœa. Dr. Fowler's Extract of Wild Strawberry cured her, and I feel that I cannot say enough in its favor.

A MARVELOUS CURE FOR ERYSIPELAS, BY SLOAN'S INDIAN TONIC, IN LAMBTON COUNTY.

CORUNNA, JULY 4th.

Dear Sirs,

I received the medicine all right, and am much obliged for it. I had Erysipelas every summer for five years, sometimes so bad my face, arms and body would swell to an enormous size and my eyes would be shut for days at a time. I tried two doctors but they did me no good, and I even went for change of climate, but all to no avail, until I got your TONIC. After taking one bottle the swelling ceased, and I improved everyday and am now entirely cured.

Yours very truly,
MRS. J. J. PORTER.

A separate cure for each disease. At all druggists, mostly 25c a vial.

Personal letters to Prof. Munyon, 11 and 13 Albert street, Toronto, answered, with free medical advice for any disease.

MURDER OF MRS. ORR.

(Continued From First Page.)

off the red oak stick. He thinks the stick was washed in the trough near the house and it was not burned because the murderer had not time enough to chop it up and put it in the fire. To-night the theory that Allison did the deed is gaining ground.

The second theory connects Harry Blair with the tragedy. Your reporter had a talk with Blair in his shop this morning, and, after some persuasion, succeeded in getting him to give an account of his movements on the morning of the tragedy. Blair says that he was at the railway station at 7 o'clock that morning, and that after leaving the station he did some work around his house, and at 8 o'clock was at his son's tea store. Between 8 and 10 o'clock he states that he delivered some tea for his son, but refused to say to whom he had delivered it. He also claims that he went out for a drive with his son and grandchild during this time and that he did not start for the Orr farm until about 10.40, arriving there about 11 o'clock, with the roast of beef, which he had purchased at Grill's butcher shop at 8.15.

It will be remembered that Milkman Roddy stated that he saw Blair driving towards the Orr farm at 8.30 that morning. The importance of Blair's statement of his movements is therefore obvious. At the time Roddy claims to have seen him driving towards the Orr farm Blair says he was in Galt delivering tea for his son. Blair's statement, that he left for Orr's about 10.40 is corroborated by John Gerryan, an employe of Blair's, who says he met him opposite Dr. McKendrick's residence about 10.40. The press representative investigated these statements very carefully and was convinced that they were true. If Blair did not reach the Orr farm until 11 o'clock he had nothing to do with the tragedy, and the only way that his name can now be connected with it is to surmise that he was at the farm at 8.30, drove back to Galt after the tragedy and returned to the farm at 11 o'clock.

When giving a statement of his movements Blair did not relate events in the same sequence when asked to repeat his story, but he is so terribly worried over the unwelcome prominence that has been thrust upon him in connection with this tragedy that he might easily make a slight error in relating his doings and movements that morning.

A feature in the case that is interesting and that may mean a great deal is that on Monday morning Mrs. Orr told her husband that he had better not go away that morning, to stay at home and cut the oats. He replied that there was a heavy dew on them and he thought he could get back in a few hours and cut them then. Mr. Orr believes that she did not wish to be left alone and that she had a premonition of danger. She had been very badly frightened a few nights before by some man who had jumped out of the willows while she was driving in the lane at a point where the supposed grave was discovered. Who was the man who jumped out and frightened her? Was it Robert Stoker, whose name is connected with the third theory? Allison's father says that his son identified Stoker as the man whom he met in the lane on the morning of the tragedy. Stoker is a carpenter by trade, but is frequently employed in different parts of the neighborhood as a farm laborer. He had at one time been employed by the Wallaces, who live near the Orr farm, and it is said that he had visited the Orr farm on several occasions. Stoker's home is in Kirkwall, about 10 miles from here, and William R. Bond, a resident of Galt, says he met Stoker on the day of the tragedy walking along the road, but whether it was near the Orr farm or not that he met him he cannot say, as he had driven both east and west of Galt. Stoker is now working for a farmer near the town. It was he who went to the Orr farm after Mrs. Orr disappeared and offered his services as a detective. It is said that he remarked that he could find her in three days. Stoker represented himself as a detective from Buffalo. It is impossible to get near Allison and hear what he has to say about seeing Stoker or a man who looked like Stoker in the lane that morning. Trevelyan went through the streets this afternoon a free man, but will be a witness at the trial. The case is a most interesting and perplexing one, but it seems impossible that a solution will not be found. The inquest will be resumed to-morrow at 11 o'clock.

The letter from Harry Blair to Mrs. Orr, dated June 6, 1896, is in possession of the authorities, and reads as follows:

I now drop you a few lines to let you know that I have not been asleep the last time while I have been out at your house. Now, yesterday, when you sent me into the little cabby, I caught a word or two, and when I looked back at you your face was ready to burst with redness, and I told you of it in the house, and you tried to put it off by saying you had just washed your face. What a bluff! Now, you say that Fred is smart. Now, he and you both gives yourselves dead away. The idea of hanging a round till twenty five minutes to three o'clock. Now any other place I am out in the country for dinner the hired men; just as soon as dinner is over, they go direct out to the barn and find something to do till half past one, and then they get the horse out for work. I saw you was onto it yesterday. Now you take and tell me the horses have to feed and must have rest. Now as you cannot give me any such gags as that, for it wont work worth a cent with me. After I came home from St. Catharines the bluff you and Fred tried to work on me dont catch me for a cent. In the first place I have thought the matter over and over again, and we did not say or do anything that was wrong, and that you and Fred cannot work any such games on me, not for a cent. Of course I am onto it. What that is done for you know very well. I went there several times. I saw how things were, and you tried to make a fuss and fix things up, and that only made things worse.

Now last Saturday night when you got the money from me you flew back in the store and when you thought I was gone you turned back and met Fred with a lovely smile. Now you thought I did not see what was going on, and you tried to give me the bluff that Fred was coming was the reason why you got away so quick and then tried to make me believe as you said it to Fred, you did not speak to Mr. Blair. Oh, what a bluff! It dont catch me for a cent and please dont you think for a moment that you gave me away on the granny business as I knew how that was before I came away from you. Neither does that bluff catch me for a cent. I guess you know the reason that you did not want to have anything to do with me yesterday. You cannot help but know that I know how all was that day. I knew what made you so sore and could have told you if I had a mind to do so. I did not think that you were very smart on that either. Now, Mrs. Orr, you know very well that I have been telling you for some time past that when I got you pretty well dressed and fixed up otherwise you would give me the cold shoulder. You must understand that I again tell you that I have told you how things would be so you did not beat me with me a telling you of it. That is one satisfaction that I have and you know that is true for I could see how things were a-working, but, Mrs. Orr, I am perfectly satisfied for I have thought it over and over again and I again say I am perfectly satisfied.

P.S. Now I told you as long as all was right I would never bother you or Mr. Orr about your account, but this makes a great change with us. Instead of us being one we will soon be three forever. I am a good fellow when you did what was right with me but when you tell me to go home before Fred comes in it dont suit me. The idea of you and Fred a-trying to make arrangements for him acoming in three quarters of an hour. You spoke a little too loud or did you and Fred try to give me a gag to get me away so it would be better for yourselves. I have my own mind on that. Now when Mr. Orr would be a-going out to work he would always say, "Now Mr. Blair make yourself at home and I must go out to work." Do you see what a difference there is in it now? He always asked me back very mannerly, but its all over well as I am perfectly satisfied and you and Fred did not work the "plain" repair on me for a cent. You tried to make me believe it was Harry. Now what did that boy know about it? Nothing at all. You did not catch me on that either for a cent. I dont want that row on any shape or form as things are not as "they used to be." I have it charged to Mr. Orr. You spoke about it would be better for me to go away for a little while as people was a-talking about me. Now I told you yesterday that there was no one a-talking about me but yourself and I can easily understand all about the reason you talk to me in that way as well as you know yourself so you dont work that bluff on me either worth a cent. I had two or three fusses with Mr. Orr truly. He gave me quite a lot of news and could give you a lot of it but I know enough to keep it. I intended to tell you all about it but things have changed so I will not tell you any of it. I am very glad I did not destroy that book. You gave yourself away on that. You was too anxious for the Book to be done away with I knew too much for that for all you put me down Dummy. I will give you a little idea how things has been working. Last month not including the watch money and other things, $30.15; and that is not all the next week money on goods $5.75; next week $5 in money, goods $2.50; next week, goods $2.50, money $5; again $2.00 this week, $5.00, oatmeal 25c, pail $1.00, pants $3.75; Friday $8.50, $3.75. Count that up and you will see for yourself, and that is not all. Last Saturday night $2.00 and the way you tried to fool me on the watch did not go down either, to play things out to suit Fred to fool me by saying you would not let Fred see you with it on and you would not ask him anything in regard to winding it up. Now what you think for a moment I took it in as I knew at the time how you and Fred was only crying but you could not fool me a little bit. Your gag did not work worth a cent as I saw all the time how things were a-going on but sometimes it takes a little while to ferret it out. You said a short time ago you did not have anything for my horse to do and I told you I did not want it to be in any way. Please tell Mr. Orr to bring in my horse and meat and pigs and harness. Keep the one I gave you as things are not with me as you promised them to be and you are not doing right with me the way you promised to. We must settle up but if you do as you promised to I would not ask, but when you tell me to go house so as to get Fred in the house I will never give you that chance again to order me out. Now tell Mr. Orr to make out what I owe him and bring it in and I have pigs and his accounts all made out. Tell him to come at once, please. Now Mrs. Orr please read this over carefully and you will say at once that I am wright. I saw Bob Orr and I will go with you and face him and Skelly any time you have a mind to do so and that is the honest way to do. I think I know why Skelly was around the shop but I did not like to tell you as you know yourself Skelly never liked me after me a-taking the pump piece to another shop for you. But what do I care for Bob Orr Skelly or anybody else? Mrs. Orr I am jolly good fellow but you and the Dutchman cant beat me for a cent. You have lost a good friend but I am perfectly satisfied. Good by and God bless you Mrs. Orr. (Signed) Harry Blair.

MILBURN'S HEART AND NERVE PILLS
FOR WEAK PEOPLE.

OF INTEREST TO WOMEN.

A Lady Cured After Seventeen Years' Affliction with Disorders Peculiar to Her Sex by Dodd's Kidney Pills—Other Unfortunates Can be Cured as Well as She.

Toronto, Aug. 16—The publication of the letter of Mrs. Reany, of Ashland, Wis., concerning her cure by Dodd's Kidney Pills after 16 years of sickness, has awakened wide-spread interest amongst the women of Canada. It is truly marvellous that a woman afflicted as long as she was, who had tried all the remedies within her reach and all the doctors could do for her should be cured by so simple and easily accessible a remedy as these pills. What they did for her they will do for other women suffering from diseases peculiar to their sex.

Sick headache and constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

PORT HOPE PEOPLE!
They Testify in a Good Cause!
REMARKABLE CASE WHICH HAS LATELY COME TO LIGHT.

Our reporter visited Mr. Alfred Crowhurst, and from him received the following statement. Said Mr. Crowhurst, "I have suffered greatly for sometime with pains across my body and in my side. The pain was often so great that I could not sleep. I took many kinds of medicine but they did me no good.

Finally I commenced using Doan's Kidney Pills, which I got at T. Geo. Watson's Drug Store, and have now used two boxes with the result that I am perfectly cured. My wife has also taken them with beneficial results, and as a kidney medicine I heartily recommend them, for I know of no other remedy which could exercise so benefical an influence in so short a time.

I esteem these pills a blessing to humanity, and trust that all who suffer as I did will give them a faithful trial."

The specific and direct action of Doan's Kidney Pills on the kidneys always restores them to healthy natural action, thus curing all diseases arising from disorder of the kidneys, bladder or urinary organs.

Backache, weak back, diabetes, Bright's disease, gravel, etc., all yield readily to Doan's Pills. Full directions with each box. Price 50c per box or six boxes for $2.50. 64

Rheumatism & Dyspepsia Cured

571 ST. PATRICK STREET,
OTTAWA, July 31st, 1896.

To the Phrenoline Medicine Company, Ltd., Ottawa, Ont.

GENTLEMEN,—On the advice of a friend I tried one bottle of your famous rheumatic remedy, Phrenoline, and to my surprise it cured me of rheumatism, from which I have suffered for many years.

It also cured me of dyspepsia, from which I was suffering at the time, so that I feel now like a new man.

I have tried several remedies for rheumatism, some of which did me a certain amount of good, but nothing that I have taken has done so much for me as your Phrenoline, and I have much pleasure in recommending it to other sufferers.

Yours very truly,

Peterborough Corset Factory, 208 and 210 Charlotte Street.

* 1871 *

In this year Messrs. Mason & Risch started in business with small capital and no reputation, but with a determination to sell pianos of such unquestioned merit that each customer would be an aggressive advertiser for them.

* 1897 *

The enviable position that this firm occupies to-day is the best proof that their policy when they started was a wise one. They have sold over 6000 Mason & Risch Pianos in addition to many thousands of pianos and organs of other makers, establishing for themselves a reputation for piano building such as no other Canadian maker has achieved, also the recognition of prominent musicians in the United States and Europe. There is no experiment in getting a Mason & Risch.

Good Blood

Is essential to Health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

Hood's Sarsaparilla

Is the best — in fact the One True Blood Purifier.

Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Dog Days.

Two valuable dogs have been lost within the last week. Mr. Sidney Strike, G.T.R. baggagemaster, had his pet pug hit by a passing freight, and Mr. John Dixon's St. Charles spaniel died from natural causes.

Gough Bros. Boot and Shoe Department removed to Robert Hall's old stand during alterations at their present Shop.

Cheap Fruit.

Peaches (Alexander) 40 to 50c par basket; Peaches (Sweetwater) 60c per basket; Plums (Lombards) 60c per basket; Berries (Lawton's), choice, 16 boxes for $1; Pears, (Bartlett) 70c per basket; fruit wholesale and retail. C. F. MASON & Co., agents for the Niagara Fruit Growers Stock Co'y.

Cheap Excursions

Everywhere is all the talk just now, and the people are taking advantage of enjoying themselves. If you are going away, don't forget to call at Alex. Elliott's for your supply of groceries, wines and liquors. He will give you better value than any other house in town—353 George street, Peterborough.

His Opinion of Officer Stewart.

In the police court to-day a citizen was fined $10 for remarking in Police Constable Stewart's hearing that he was the meanest, lowest, most contemptible —— —— —— that God ever allowed to live and that he could lick him. The defendant pleaded in extenuation that the Chief of Police had told him that Officer Stewart claimed that he could lick him, the defendant.

Reduced Rate to Jubilee.

The members of Court St. Peter, Catholic Order of Foresters, have reduced the price of the tickets for their excursion on Civic Holiday to Jubilee from 50 cents and 25 cents to 35 cents for adults and 15 cents for children. This will be the popular excursion of the day, and as the tickets are limited, those wishing to take advantage of the cheap fare should buy their tickets at once. Tickets for sale at Lynch's drug store or from members of the committee. 2d

Ho! for Niagara Falls.

The Foresters' Excursion to Niagara Falls on Civic Holiday promises to be the leading out-of-town attraction on that day. The Falls never grow old or lose their beauty, and therefore it is confidently expected that many of those who accompanied the Foresters last year will be with them again this season, accompanied by numbers of their friends, who are going along to participate in the same pleasant experiences which are recorded of last year's trip. 2d

Peterborough Canoe Co. Kept Busy.

The Peterborough Canoe Company received a telegram from British Columbia, and shipped three canoes to-day to Golden, B.C. Last week they received a telegram from Edmonton, and shipped 6 canoes the same day, and a few days before they received a telegram from Bay City, Michigan, and that day shipped 3 canoes by express to Seattle, Washington Territory, and prepaid the express, which cost over one hundred dollars. They have canoes on all routes to the gold mines, and are kept busy answering telegrams and letters in regard to them.

The Rochester Excursion.

Messrs. Ridgecumbe and McGill representing the Excursion Committee of Otonabee Lodge, No. 13, Oddfellows, have returned from Rochester, where they were arranging for the comfort and accommodation of those attending the Oddfellows' excursion on Civic Holiday. The captain of the steamer promises to have every arrangement made for the pleasure of the excursionists, while the crew will be found most courteous and accommodating. This excursion will most probably be the only one this season to Rochester. As there are to be no races this year at the Rochester driving park, the usual excursion to this event will not take place. 2d

A SERIOUS CHARGE.

A Young Man Committed for Trial. Charged with Attempting to Steal Money.

A well-known young man about town was this morning committed for trial by Magistrate Dumble, at the next assizes on a charge of attempting to steal money from the person of David Doig.

David Doig testified that on or about August 5th he was in the Palace Restaurant with the prisoner, and bought him a drink. He afterwards went out and laid down in one of the stalls and slept. He was awakened by the noice of a scuffle, and was told by Carese LeBrun to feel in his pockets and see if he had lost any money. He had a good deal with him at the time but did not miss any. Mr. LeBrun had told him that he had seen the prisoner's hand in his (Doig's) pocket.

Mr. LeBrun swore that after Doig had laid down and went to sleep he saw the prisoner enter the stall, partially close the door, and unbutton the sleeping man's vest. He then saw him put his hand in Doig's trouser's pockets. He shouted immediately "Hold on there ——!" when the prisoner droped back in a chair and feigned sleep when he went to him. He told him to get out of the place, telling him what he had seen him do. The prisoner refused to go out and in order to scare him he had pretended to telephone for the police. Prisoner then left the premises. A good deal of talk had been created by the affair and he had warned the prisoner to keep quiet or the Chief of Police would get wind of the matter and make a case out of it. He had not sworn out the information nor had he anything further to do with the affair.

Mr. R. R. Hall, counsel for the prisoner, argued that no case had been made out, as no sane man would have attempted to rob another in full view of a third party. The magistrate, however, held that there was sufficient evidence for commital and fixed the bail at $200.

Mr. G. W. Hatton appeared for the Crown.

A COUPLE OF RUNAWAYS.

A Scorcher on a Bicycle Catches One of Them in Ashburnham.

At noon to-day as George Elmison was driving Denoon's butcher cart along Dublin street, the horse suddenly shied at a street car passing up George street, throwing the driver out in front of the old Menzies property, the wheel narrowly missing his head. After circling around and down through Union street to Dublin again, it ran across Mr. S. G. Hetherington's lawn, spoiling the lawn and breaking down a fine young shade tree. The cart was left here and the animal was finally caught in front of Nathaniel Lush's residence on Aylmer street.

Mr. Wm. Leahy, of Otonabee, left his horse standing in front of Clancy's blacksmith shop last night, and the mare suddenly started off at a breakneck clip up Elizabeth street.

One of the lacrosse boys was just coming from the P.A.A.A. grounds on his wheel at the time and started off after the runaway, chasing it up Stewart street past St. Luke's church and catching up to it just after it turned down Sophia street towards the canal. The rig upset at the corner and as the wheelman passed the horse it shied into the ditch, when he quickly dismounted and caught it, having the animal unharnessed and freed from the rig by the time the crowd came up. The buggy, which had just been done over, was badly wrecked.

PERSONAL.

Mr. Benj. Shortly went up to the lakes at noon.

Miss Letitia Quirk is sojourning at Jubilee Point.

Mr. and Mrs. H. P. Kenedy are home from the Lakes.

Mr. J. J. McBain returned to his Stony lake cottage to-day.

Mr. F. Irwin, of Toronto, is in town the guest of Mr. F. M. Clancy.

Mr. R. H. D. Hall went back to his summer residence at the lakes to-day.

Mrs. A. Marchand of Hastings, is visiting her sister, Mrs. T. Goyett, Bethune street.

Miss Aggie Hall has returned from the Lakes after a very pleasant visit with Miss Ada McBain.

Miss A. M. Stewart is ill to-day. It is hoped that she will be around again in a few days.

Miss Mina Argue, Millbrook, is in town the guest of Mrs. C. D. Macfarlane, Gilmour street.

Mrs. Aspenleiter of Preston is visiting her daughter, Mrs. David Hummell, in Ashburnham.

Mrs. Geo. W. Hunter, of Rochester, is visiting her sister, Mrs. Geo. W. Hall, Simcoe street.

Mr. and Mrs. Jarvis and daughter of Montreal, are visiting relatives and friends on Louis street.

Miss Lyle McMillan, Toronto, is visiting her sister, Mrs. J. Stanger, George street, for a few days.

Mr. Wallace, of the G.T.R. office staff, Montreal, is in town for a few days renewing old acquaintances.

Mr. George Morrow came in from McCracken's this morning, but returned again this afternoon.

Mr. and Mrs. D. W. Dumble returned to Ballyragit, Stony lake, to-day, after spending a few days in town.

Mr. Dickson Hall, of the firm of Richard Hall & Son, leaves in the morning for New York to buy American novelties.

Miss Eugenie Brault will leave this evening on an extended visit to friends and relatives in Toronto and Buffalo.

Mrs. John Allin, of Bowmanville, accompanied by her daughter, Miss Maggie, are visiting Peterborough friends.

Sister St. Thomas, of the staff of the convent of the congregation Notre Dame, has been transferred to the convent of that order at Kingston.

A duett was sung Sunday evening in the Charlotte street Methodist church by Miss Florence Hall and Mr. Walter Squires. Miss Hall also sung a solo entitled "Oh, Where is Heaven?" during the offertory, with fine effect.

Mr. W. E. Bowins, of Woodville, has been appointed inspector for Central Ontario for the North American Life Assurance Co., under the management of Mr. J. W. Garvin. Peterborough will be his headquarters.

Messrs. T. P. Coffee, Manager of the Trusts and Guarantee Co., Toronto; Claude McDonald, President of the Osgoode Legal and Literary Society, Toronto, and Mr. W. A. Stratton, of town, accompanied Mr. J. R. Stratton to his Stony lake cottage to-day.

Mrs. James Hamilton, of Toronto, arrived in town last evening to visit her parents, Mr. and Mrs. Geo. Gobell, of the Grand Central Hotel. It is pleasing to note that Mrs. Hamilton has almost recovered from her recent very severe illness. She was accompanied from Toronto by her mother, who has been there nursing her for the last several months.

MANGLED TO DEATH IN A THRESHING MACHINE.

Horrible Death of Albert Roe Near Millbrook.

HIS HEAD, NECK AND UPPER PART OF THE BODY A JELLY.

He Was Feeding the Thresher and in Some Manner is Thought to Have Slipped and Been Drawn Into the Machine — A Fearful Sight for the Spectators.

MILLBROOK, Aug. 17.—One of the most shocking fatalities that ever occurred in this vicinity took place this afternoon, a short distance south of this place, when Albert Roe, a young man of about 27 years of age, was mangled to death by being caught in the cylinder of a threshing machine while in motion.

The scene of the horrible affair was on a fifty-acre farm not more than half a mile south of here, owned and worked by Mr. Robert Shaw, of Cavan.

Mr. John McManus, a local thresher, had been engaged to thresh some fall wheat and had started work about noon to day. Roe, the unfortunate victim, was feeding the mill. All went well until half three o'clock, when Thomas McMahon, who had charge of the engine and who was standing with his hand almost on the throttle, noticed the engine give a sort of jerk as if doing heavy work, and on looking up was horrified to see his fellow-workman being hauled headfirst into the mill. In an instant the steam was shut off and as the rest of the threshers looked up to see what was the matter, Roe's feet sticking up in the air soon told the tale.

After some trouble he was extricated and it was seen that one arm, the head, neck and upper part of the body had been mangled to a pulpy jelly.

A brother of Roe's, who was present at the time, went almost frantic as he saw the headless body of his brother taken from the machine, and mounted a horse that was close by and came to town for a doctor.

In a short time the road leading to the scene of the accident was alive with people.

On arriving at the place a horrible sight was to be seen. A hand lay on top of the machine, as did also the scalp. The entrails were carried along the carriers to the stack, while on the ground lay the lifeless trunk of the unfortunate man.

It is admitted by all that Roe was the the worse of liquor when the accident occurred. He had been down to Millbrook in the morning and had been drinking then, and why he was allowed to feed the mill when in such a condition is a question that remains to be answered.

Coroner McKee, of Bailliieboro, was notified, but considered an inquest unnecessary.

Roe was a farm labourer and was unmarried.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Court Forest Queen's regular meeting called for to-night is postponed till next week.

—Ashburnham is becoming the scene of nightly frays. Last evening there was another big scrap in progress for a couple of hours. Where are the police?

DAILY TEMPERATURE RECORD.

The following are readings of the official thermometers for this afternoon, as well as the highest and lowest yesterday—shade temperature:—

A. H. PECK,
Treasurer.

The Life of Dr. Chase.

As a compiler of Chase's Recipe Book, his name is familiar in every household in the land, while as a physician his works on simple formulas left an imprint of his name that will be handed down from generation to generation. His last great medicine, in the form of Syrup of Linseed and Turpentine, is having the large public patronage that his Ointment, Pills and Catarrh Cure are having. Dr. Chase's Syrup of Linseed and Turpentine is especially adapted for all Bronchial and Asthmatic troubles.

Gough Bros. Boot and Shoe Department removed to Robert Hall's old stand during alterations at their present shop.

LAST MONTH OF SUMMER.

Have you had a finger in our pie? There were many plums in our Summer Clearing Sale when we started it a few weeks ago, and there are still good pickings left. Now during the last month of summer, wise shoppers wont need to be reminded of the old proverb about the Early Worm. Fearless Price-Cutting has attracted buyers eager to share in the Bargains.

All our big or our little lots must move out, because FALL GOODS will soon be rushing in. After seven months of busy trade in a large store like this, large quantities of Broken Stock are left, which must be disposed of, no matter what the Sacrifice:—

Fancy Souveniers With Views of Peterborough:--

—Jewel Cases with views of Peterborough.

Wheeling and Other Items of Local and General Interest.

THE WHEEL.

Mr. E. B. Turner in the British Medical Journal, answers many questions which are constantly been asked as to the limits imposed on cycling by age. In regard to the age at which cycling may properly be learned it may safely be said that no child under seven years old should be permitted to ride under any circumstance; and that when children begin to ride great care should be taken to ensure a proper size of saddle, handles and length of crank, and to prevent all hill-climbing and excessive speed. The greatest test after a ride is the condition of the child the next day. As to mothers riding, there seems no objection to it whatever if they are free from organic local disease. When a person has been accustomed to cycling and has regularly kept up his condition by practice there is no reason why advancing years should make him give it up. A habitual rider may be allowed to use his wheel as long as nature will allow him, especially if he uses it regularly. Whether a man over sixty-five or seventy may learn to ride is another question. Bones are more brittle and muscles less elastic, although cases are related in which quite old men have taken to the cycle with advantage, but each such case must be judged on its merits.

ANGLING.

The Madoc Review says:—"Fishing at Moira Lake has been unusually good for the past week, large catches of fine bass, pickerel, etc., being made. In addition, the following catches of maskinonge have rewarded hours of patient "trolling." Lester Morrice led off with a 22½ pounder on Thursday last. W. H. O'Flynn lost one, as well as his hooks, but next evening caught a fine large one weighing nearly twenty pounds. Mrs. B. O'Hara was lucky enough to hook a nice twelve pounder, and the same evening, while Mr. O'Hara was crowing over the other campers, they ran across that old fishing veteran, M. Maybee, with two of about the same size in his canoe. Mr. Maybee, with two of about the same size in his canoe. Mr. Maybee caught another still larger one. Monday evening J. C. Dale successfully landed his first 'lunge, a fine one weighing over 20 pounds. The same evening A. H. Watson "played" a large fish for ten or fifteen minutes, but finally lost it. On Tuesday Mr. Crawford, visiting at Mr. Dale's cottage, caught a twelve pounder, and Master Roy Dale the same evening caught a large one, but it got away before he could land it in his boat. Wednesday morning Master John Dale took an early spin and in less than ten minutes had captured a beauty weighing about seventeen pounds. He got it in his boat but it flopped out, and after a few minutes tugging he landed it in the boat again and sat on it until assistance reached him. Other fishermen have hooked their fish all right, but owing to breaking lines have lost fish, bait, hooks and all. The interest in the sport is increasing every day, and even the lady campers are not exempt from the excitement."

A Guarantee

The large B stamp on every loaf of Bate's bread is a guarantee of its superiority in flavour of any other, made by our own process of yeast, which is strictly healthful. WALTER BATES, Prop.

WHERE TO GO TO-MORROW.

Stony Lake regatta.
Oddfellow's excursion to Rochester.
Canadian Foresters' excursion to Niagara Falls and Buffalo.
Salvation Army trip to Sturgeon Point.
Ancient Foresters' excursion to Burleigh Falls.
Court St. Peter's, Catholic Foresters, picnic at Jubilee Point.
Court Langton's excursion to Gore's Landing.

NORWOOD.

(From Our Own Correspondent.

Postponed union S. S. picnic will be held Tuesday 24th.

Rural school teachers who have been spending vacation in town have returned to their schools.

The woollen mill hands are having two weeks holidays.

Mr. and Mrs. Jas. Cumming and family are at the lake.

R. W. Waters & Son, merchants, expect to be located in their new quarters, corner of Roxburgh block, by the last of next week.

While crossing Colborne street crossing last Wednesday evening, the young son of F. Wilkins was attacked by a dog which was running the street, but owing to the timely interference of Mrs. Wilkins, who was accompanying him, no serious results ensued.

We regret to chronicle this week the serious illness of our esteemed townsman, Mr. John Harper, Sr.

Mr. M. Callander, of the wheel and hub factory, received a severe flesh wound on the second finger of his right hand while unloading goods on Tuesday morning.

Miss Maggie Nicol having completed her holidays at her home here, returned to her school at Regina last Friday.

Miss Harper has resigned her position as teacher in second form of the public school and will take a trip to Burlington Beach in the near future.

Quite a number of our local Foresters will take in the excursion to Niagara Falls this week.

Mr. C. Craig, of Peterborough, one of last year's model students, biked to town last week.

Archie McBride, of Cleveland, is home on a two week's vacation.

James Cameron, of the Peter Hamilton Agricultural Works, Peterborough, is home on a month's leave of absence.

P. W. Reynolds, J. N. Ackerman and W. E. Roxburg, drove in from the lake last Friday on business.

A. A. Cope has given up his position at Cawansville, and has returned to Norwood.

Mr. Fred Rutherford, student at Knox College, Toronto, spent Sunday in town, and is now at the lake.

Mr. and Mrs. A. J. Finlay were at the lake this week.

Rev. J. F. Somerville will conduct the services at the Presbyterian church next Sunday as usual.

Dr. Stephenson, of Vanderbilt College, Nashville, Tenn., preached an eloquent sermon in the Methodist church on Sunday evening. Rev. Mr. Beck, student at Albert College, Belleville, occupied the pulpit in the morning.

Jas. White returned from the lakes on Monday.

John H. Douglas of Warkworth was in town on business last Tuesday.

W. A. Eaton and Thos. Wigmore spent a few days of this week at the lake.

Mr. Donald Cameron a much respected and influential farmer of Dummer, died on Saturday, Aug. 14th, after a lingering illness and was buried on Monday.

Miss Hammond of Orillia is visiting Miss Fry's, Belmont street.

J. Forbes Stillman of Cambellford was in town on Sunday.

Miss Beatrice Tucker is visiting at Stockdale.

Mrs. Herbert Roberts and two children of Sharbot lake are guests of Mr. and Mrs. Geo. Patterson.

Miss Deacon of Marmora is visiting at Mr. and Mrs. John Patterson's.

Walter Bailey has treated his residence to a new coat of paint.

We are pleased to see Mr. J. J. Squire recovered from his accident sufficiently to be about town again.

Mrs. James Raddan took a run up to Toronto this week on business.

Miss Eston of Kirkpatrick & Buck's millinery establishment, left on Tuesday for Myrtle and Whitby.

Rev. F. E. Roxburgh, M. A., conducted the services in the Presbyterian church last Sunday morning and evening to large and highly appreciative audiences.

Mr. F. H. Stenton of Peterborough, is relieving Mr. Mackie at the station this week.

Gough Bros. Boot and Shoe Department removed to Robert Hall's old stand, during alterations at their present shop.

Just Another Week.

The warm weather special sale continues all this week at the Peterborough Bookstore. Our specials in writing paper please everybody wanting note paper. Our special cut prices in fans makes quick sales. Our special cut in light literature for the camp, the hammock and the shade is appreciated by the reading public. Our special cuts in hammocks to clear have just about cleared them all out. All this week we will give you the same inducements to purchase, and want one and all to come and see that we are selling cheaper than ever. A. H. STRATTON & Co., 417 George street.

They're The Proper Caper==

—Are our Coloured Shirts. They're sometimes called Summer Shirts, but that's a misnomer, for they're worn all the year round. They're laundried, just like white shirts, but they are far more stylish looking and don't soil half as easy.

• •

Some are Checks, some Stripes, some Polka Dots, some Fancy Patterns. Some have Detachable Cuffs, some have not. Some are made of Madras, some of Percales, some of French Cambric. Some have Open Fronts, some have not—but they're all the latest styles. A full assortment at a fair price.

IDYL WYLD AIR FOR THAT TIRED FEELING.

AN IDEAL RESORT FOR THE SUMMER TOURISTS.

An Increased Number of Visitors at This Charming Spot Every Week—Excursions and Picnic Parties Galore—Every Convenience to be had at the Hotel.

IDYL WYLD, August 17.—Increased attention has been given by pleasure seekers this season to this picturesque and nerve-tuning summer resort. Several physicians who have been here this season, accompanied by their wives and families, have left a free prescription behind them, recommending tired and run-down, overworked men and women to indulge ad libitum in Idyl Wyldic air. Certain it is that Idyl Wyld has always a breezy and a cool, bracing atmosphere, while it contains most of the comforts of home life, an abundance of restful nooks, grassy swards, wooded groves, terraced lawns, lovely lookout points, ample boating and fishing facilities, dancing pavilion, and most everything the pleasure and health-seeker can desire.

Rice Lake, on which this high and airy resort lies, is girdled on every side with picturesque scenery—verdant hill slopes and interesting villages in the near distance. The locality is salubrious, high, dry and healthy, calculated for the enjoyment of the most delightful recreation that the holiday tourist could wish to indulge in. Visitors from the Midland district who have confessed to have spent their hundreds of dollars and travelled hundreds of miles for a change of air, have fairly admitted that they have experienced as much benefit at Idyl Wyld as elsewhere.

THAT'S A DEAD SURE THING.

When you git that tired feelin', an' your brain is out of whack,
An' a soft o' rheumatism seems to monkey with your back,
When your eyes are dull an' droopin' and your appetite has struck,
An' you haven't got a cussed bit o' energy or pluck,
'Taint a bit o' use to juggle with the powders an' the pills,
You must make a sneak and scamper from the business pace that kills—
Board the "Star" and seek the Island, where good health is on the wing,
An' your cheeks will soon be rosy, that's a dead sure thing.

There is health an' inspiration in the Island's atmosphere,
There is care-dispellin' music in the Rice Lake breeze so clear,
There's forgitfulness o' trouble an' an antidote fur care
In the whispers and the murmers of the Idyl-Wilde air;
Make a sneak out o' the office, turn your back upon the store,
An' start the fun a-rollin' as it never rolled before,
An' get out where the trees are wavin' an' the birds their carols sing,
An' you soon will laugh at trouble, that a dead ure thing.

There has been a large number of visitors from Peterborough this season. No doubt the popularity of the North Star's daily cheap trips to Idyl Wyld have had much to do with this; and the combination rates for steamer and meals so satisfactorily arranged by Mr. Spellman, the manager of the hotel, and Captain Martin, of the Star, has given the island quite a big boom. The hotel has been constantly full of weekly guests, and the daily trips on the Star are well patronized every day.

Idyl Wyld has also been patronized by a large number of picnics and excursions this season from different points contiguous to Rice Lake, which helps to make the island's attractions all the more lively. The staff at the hotel has therefore, been kept constantly busy, and Mr. Spellman reports that business never was so good. The management looks well after their guests, provide good meals, and the rates are very reasonable.

S. O. E. EXCURSION FROM BELLEVILLE.

On Monday the City of Peterborough brought up a large excursion party from Hastings, where they had arrived by G.T.R. from Belleville, Madoc, Campbellford and other points along the line. The excursion was under the auspices of Lydford Lodge, S.O.E. No. 184, and was accompanied by a number of prominent citizens from the City of the Bay as well as from Campbellford and other stations. The party numbered over 300, most of whom took dinner and supper at the hotel. After dinner the dancing pavilion was the scene of a merry throng who tipped the light fantastic toe to the excellent music of Professor Riggs orchestra. The afternoon was agreeably spent, notwithstanding a heavy rainstorm which broke over the lake during the afternoon. The accommodation for shelter in wet weather prevented any disagreeable results to all who were content to be sheltered. At 6 o'clock the excursionists returned to their homes, delighted with their day's outing. The following gentlemen made up a very able and obliging committee of management: Chas. Green, chairman, W. Rodman, secretary, J. Harker, A. N. Ketcheson, J. Bell, Harry Davis, John Newton, Belleville's Chief of Police, and H. F. Ketcheson, late mail clerk on G.T.R. between Peterborough and Belleville, now engaged in a similar capacity at Sault Ste Marie.

FISHING AND OTHER MATTERS.

Boating is, of course, a great attraction here. Row boats, sail boats, canoes and the island's steam yacht "Outlet Queen," are at the disposal of guests of the house. The handy man-of-all-work and veteran guide, "Bob" Londerville, is ever ready with his experience and knowledge of the fishing beds. Nothing is too much trouble for this experienced son of Rice Lake's native sporting grounds, and his services will be appreciated by all who put themselves under his care.

The "Outlet Queen" has been under charter since Saturday by a party of genial gentlemen of leisure who take an annual outing here every summer. The party is composed of Messrs. Chas. Fulton, Campbellford; G. A. White, Trenton; W. H. Matthews, Trenton; W. H. Johnston, Hastings; Capt. Shea, Campbellford, and James McNulty, Norwood. Gold hunting forms part of their programme, but they appear quite content to let the Klondyke craze have its full swing, while they pick up the gold dust that comes into their pans right on their own native claims.

Negotiations are in progress for the purchase of Idyl Wyld by a syndicate of Canadian gentlemen interested in the improvement of the island as a favourite summer resort. It is expected that a new hotel and other important changes will be effected in time for next season's business.

Fresh Fruit Arriving Daily.

Plentiful supply of peaches, pears, tomatoes, Lawton berries, bananas, lemons, and all seasonable fruit in prime condition arriving daily at J. B. OKE'S, Wholesale and Retail Fruit and Commission Merchants, George street.

NEWS FROM THE NORTH.

Reported by Our Esteemed Contemporary, the Klondyke Klarion.

Mr. Bill Muggins, that Prince of good fellows, residing on Yaller avenue, is putting a handsome 18k. gold leaf roof on his new barn.

We are pleased to announce that the First Presbyterian will give a boiled dog supper at its parlours Thursday evening at 7 o'clock. Admission $4. Children half fare.

Col. Frankfort, of the Bang Up Restaurant, meals served at all hours, has the editor's thanks for a juicy joint of roast mule, as fine as he ever stuck a tooth into. Come again, Colonel.

Now is the time to subscribe to the Klarion—$4 per annum, invariably in advance. Good, clean nuggets taken on subscription.

Our leading dentist, Dr. Jim Moffitt, believes in fostering home industries. He uses only Klondyke gold in plugging teeth. Dr. Jim is a jolly jerker. Call on him when in town.

Reward—Ninety-nine dollars reward will be paid for information leading to the arrest and conviction of the low-flung scoundrel who stole our office cat on Tuesday last. That cat cost us money, and he was getting fat enough to make us look forward to Thanksgiving dinner with more than ordinary feelings of gustatory delight.

Don't throw away the boots you have been working in all summer. We can assure newcomers to our vicinity that while turkey is a good thing for a Christmas dinner, a pair of well boiled and seasoned boots, heavy leather preferred, are a great deal better than no dinner. We have been here before.

Little Johnnie, the bright and intelligent three-year-old son of our esteemed fellow-townsman, C. H. Jinkins, who was so seriously choked on a nugget of gold the hired girl carelessly left lying on the kitchen floor, where the child was playing, is, we are glad to say, improving.

Mr. K. J. Herman's spirited team of reindeers ran away yesterday afternoon on Yukon avenue, extended, while bringing a load of gold dust to town, and scattered the yellow sediment around the landscape to such an extent that several residents from the States living out that way grew quite homesick, it was so remindful to them of the goldenrod, which is their national flower.

At a recent reception in this city of our "elitest" set, the lion of the evening was Mr. G. Washington Wellington, of the United States, and he was thus lionized and honoured because he was the only man present who was not a millionaire. Society always delights in novelties.

At the bridal breakfast, after the Bing-Bang wedding on Collar Boulevard yesterday, a full report of which was a Klarion exclusive, the piece de resistance was a fillet of bay horse served on plates of solid gold half an inch thick. A washtubful of gold dust was showered on the happy pair as they walked down the front step of the bride's home to their reindeer sledge.

We have the nugget some bad boy threw through our window last night, breaking a piece of glass, and we shall be glad to give it to him for a new pane. The nugget weighs four ounces, and the size of the pane was 8x10. Any person wishing to exchange a pane of glass that size for the nugget will please call at this office before the arrival of the cold wave. W. J. L.

Worth Ten Dollars a Bottle.

Any person who has used Nerviline, the great pain cure, would not be without it if it cost ten dollars a bottle. A good thing is worth its weight in gold, and Nerviline is the best remedy for all kinds of pain. It cures neuralgia in five minutes; toothache in one minute; lame back at one application; headache in a few minutes; and all pains just as rapidly.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—430 George Street.

McGILL UNIVERSITY, Montreal

ONE OF THE GREAT

INVENTIONS OF THE AGE.

BERNARD TRAINOR'S Monster

WOOD AND COAL FIRE KINDLER.

Guaranteed to keep a full and constant blaze over 18 inches high for ten minutes. No kindling wood required. It will kindle two fires each time, even though the wood be damp or green. Boils two quarts of water without fuel. I have flattering testimonials and carry them with me as vouchers from different residents and Business men of Almonte Pembroke, Arnprior, Ottawa, Renfrew, Smith's Falls, etc., who are using the kindler from one to three years, to certify that it is still in use and as good as ever. These men recommend them to the public. With care every kindler is everlasting. I also manufacture a larger one which throws 4 times the heat of the smaller one, and that will of itself boil all small water required, which is a great convenience in the hot summer weather, and will without fail light any coal stove from under the grate, and is a magnificent fishing torch for spearing etc. The kindler is used with a coal oil liquid and is safe in every form. One gallon of oil is sufficient to light one stove for one year. This is cheap kindling wood. Price, 50c and $1.00.

Mr. Trainor, the inventor, is at Clancy's Peterborough House, Hunter street, and will make a thorough canvass of the town.

Town and County Rights for Sale. Good Live Agents Wanted.

T. FITZGERALD'S

WOOD AND COAL YARD.

As my supply of Coal for coming season will be along about 1st of August, all my customers will kindly book orders and have it delivered from cars.

Am Handling only Lehigh Coal THIS SEASON

Is Your Heart Strong?

Or have you palpitation, throbbing or irregular beating, dizziness, short breath, smothering or choking sensation, pain in the breast or heart. If so, your heart is affected and will in turn affect your nerves, causing nervousness, sleeplessness, morbid anxious feeling, debility.

Milburn's Heart and Nerve Pills

Cure all these complaints by regulating the heart's action and building up the nervous and muscular system to perfect health and strength. Price 60c. per box or 6 boxes for $2.50. At all druggists.

SIXTH SENSE FOR ALL.

Assurance That Anybody Can Do the Occult Who Pleases.

William T. Stead, author journalist, theosophist and general student of all that is odd, now announces that he has received by the means of automatic writing, from a very well known spirit, the information that every living person has what is called the sixth sense. In other words, we are all mediums, contrary to the general supposition, even among the advanced disciples of spiritualism.

The message of communication is given to the world through Editor Stead, who, for the time being, is under the guidance or influence control, the real author of the statements being known as "Julia." Her messages have been coming at intervals for five years, and among the students of the occult are regarded as absolutely true. That is why Mr. Stead lays so much importance upon them. It is for this reason he holds that the communication between the inhabitants of the world and those who have passed away can be much more free if only people will have it that way. In the message Julia says:

"What I have to tell you is that all those who really wish to have the sixth sense, or whatever you may choose to term it, so developed that they can at will become sensibly or to their senses cognizant of the reality of the existence of the beings who encompass them about, can acquire the gift or faculty if they will but adapt themselves to the laws of the region into which they wish to penetrate. It is a potentiality of the universal human race. Nor is it only human. Many animals have the open eye. They see when their owners are blind. But you can see if you choose. It rests with yourselves.

"There is no short cut to the sixth sense. There may be *something* like it in mesmerism and hypnotism, but that is not at all what I mean. What is possible is for every child of man to become what you call normally clairvoyant—that is, for anyone to possess himself of the power of seeing and hearing, as plainly as he sees and hears material things the invisible forms and voices that surround him.

"The power is one that ought to be under control. There will be only harm done if you do not shut at will the clairvoyant eye. Imagine the mischief that would happen if when life and death hung on the absolute concentration of all faculties on the subject immediately before you, if at the supreme moment you were to see the whole phantasmagoria of borderland pass between you and the point of exclusive interest. If you cannot control your sixth sense you had better not acquire it. It is much better to do without it than to be controlled by it.

"You should have the sense at command when you need it, as you have your microscope or your telescope. But, better have neither if you are to be compulsorily doomed at other will than yours to interrupt the work of life by a spectacle of the infinitely little or the infinitely remote. Man should always be master of his senses, especially of the sixth sense, as it is called."

In her further statements to Mr. Stead "Julia" goes on to say that the investigator must always be simple and not be constantly thinking of himself. In other words, self-consciousness must be avoided, or it will play havoc with the chances of success. All one's mental faculties are needed. Everything must be examined and tested without prejudice and without partiality. Nothing can be achieved without time and patience.

The first thing to be done to see the invisible ones, "Julia" says, is to be very still and to wait. When quite still and passive, close your eyes and think of the one whom you wish to see. If it is a friend still alive in the body it will help you if at the same time, although that is not essential, he or she be also passive and alone. When you have two spirits in accord, both seeking the same thing, the difficulties are less. But you must be agreed in heart and soul. If you could keep the concentrated quiet attention for a longer period than five minutes without becoming tired, then you had better do so. At no time, however, force yourself, for a strain means failure.

If in this way, "Julia" declares, one succeeds in acquiring success, it is acquired forever. There will be no more parting between the one who has gained his object and the spirit world. The greatest danger is that the sixth sense may control the individual instead of being in itself controlled.—New York Herald.

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula or consumption. "That," he will tell you, "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfort. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

Karl's Clover Root.

The great Blood purifier, gives freshness and clearness to the Complexion and cures constipation, 25 cts., 50 cts., $1.00. Sold by Jno. Nugent, 339 George street.

THE CHIN AS AN INDEX

Can You Tell a Person's Character by the Shape of His Lower Jaw?

I have just read Dr. Leuf's letter on "Physiognomy" in the Medical Council, and am prompted to say in reply to his request for contributions on the "chin;

Protruding chins characterize men and women of the go-there type. Successful people usually carry their chins thrust forward, with compressed lips. This chin, if heavy, with broad ramii and swelling masseters, indicates fighting blood.

A retreating chin shows lack of force, mentally, morally, and physically; usually of the yielding sort; soon discouraged; desires protection; small executive force. The development of other faculties often makes up for this defect.

A small, well-rounded chin, with mobile and red cushion of flesh upon it, indicates a pleasure-loving owner. If dimpled, all the more so, for dimpled chins belong to coquettes. People with dimples love to be petted and loved; like admiration and praise. Generally fickle. Usually this chin is healthy, recuperative and long-lived.

Broad chins signify nobleness and large dignity, unless vertically thin, when, if with it there be thin lips of bloodless kind, you find cruelty.

Square chins with little flesh denote firmness and executive ability. These make good haters.

Drunkards usually have a crease line about their chins.

Slovens have wrinkles about their chins.

Long, thin chins are poetical, unstable and delicate in constitution. Such people are subject to bowel derangements. If thin through the angles of the mouth, too, they are prone to tuberculosis. Generally short-lived.

Medium chins with a suggestive bifurcation in the centre, with small mounds of flesh on either side, characterize generosity, impulsiveness, cheery natures. (The same-sized chins, with a dab of flesh just under the centre of the lower lip, indicate meanness, selfishness, brutality.)

N. B.—*No* one feature can be taken in judging character. Often development of other faculties of mind or feature entirely governs. In each case take the "totality of indications" before judging.—St Louis Clinique.

Measuring the Earth.

The longest distance ever encompassed by the human vision, so far as the records go, is 183 miles, between the Uncompahgre Peak, in Colorado, and Mount Ellen, in Utah. This feat was accomplished by the surveyors of the United States Coast and Geodetic Survey, who are now engaged, in conjunction with representatives of other nations in making a new measurement of the earth. The observers on the Pacific Coast have been able to signal from Mount Shasta to Mount Helena, a distance of 190 miles, but have never been able to get a response. Between the two other peaks communication has been continuous for an hour or more on several occasions. The Uncompahgre is 14,300 feet in height, while Mount Ellen is 13,400 feet. The longest distance that the human eye ever reached until this record was made was between Algiers and Spain, 168 miles. The measuring of the earth, which is now going on, is no simple task. The width of the ocean can only be ascertained by astronomical observations. The observers at Greenwich and at Washington note each night the exact moment of the rising of certain stars, and then, by mathematical calculations, turn the difference in time into distance. This is corrected and corroborated by other observations upon other stars, and by a series of experiments, which furnish an average that is approximately accurate. The difference is seldom more than a small fraction of a second and is attributed to atmospheric phenomena. The Pacific Ocean is measured in a similar manner by joint observations with the Lick telescope in California and that of the Imperial University of Japan at Tokio.—Philadelphia Press.

The Food That Man Needs.

"As in the daily wear and tear of life a great deal of the substance of a man's body is used up it is absolutely necessary that the repair to the body be carefully and systematically looked after," writes Mrs. S. T. Rorer in The Ladies' Home Journal. "Then, too, man must create heat and force, according to the climate in which he lives and the occupation he follows. A wise combination of food is, therefore, necessary to keep the body in working order. In cold weather we need a larger amount of carbonaceous foods—fats, sugars and starches—than we do in summer. In the hot climates and during the hot months fruit and green vegetables containing the salts necessary to keep the blood in good condition should be used freely. According to our method of living in this country we should take about two parts of repair food, such as meat, eggs, milk, cheese, or, in the vegetable kingdom, the old peas, beans and lentils, to three parts of carbonaceous food, such as white bread, potatoes, rice butter, cream and fats of all kinds. Then we must have a certain amount of bulky or watery vegetables, such as lettuce, spinach, cabbage, onions and also the fruits. In making out a daily ration we should have at the beginning of the meal some light dish that may be taken slowly to prepare the stomach for the food that is to follow, then a meat or its equivalent. With beef we should serve potatoes; with mutton, rice. With chickens, either rice or potatoes."

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

CAMPBELLFORD (Special) Aug. 9—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life for months had been despaired of. From the accumulated water peculiar to this disease, she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

Over a Year.

"I have been troubled with sick headache for over a year. Lately I have used LAXA Liver Pills, and find that they help me more that any other medicine I have ever taken. They are an excellent pill, causing no pain or griping, and leaving no after ill effects."

LIGHTNING AT MARKHAM.

It Played Around Mr. Joseph Wales' House and Left a Sulphurious Smell.

Markham, Aug. 16.—Yesterday Joseph Wales' house was struck by lightning. Striking a pipe, the lightning went down, coming out at the other end, then going into the woodshed, tore the side off a box, split the handle of a large pair of shears, tore the handle off a large cross-cut saw, dashed into a paper ten caddy and came out at the bottom, and tore a piece out of a sewing machine. Mr. and Mrs. Wales were in the room at the time. Mrs. Wales felt the shock and almost fainted. The room was filled with a smell of sulphur.

SEEKS HIS BLUNDER NOW.

The Ameer is Taking Action After Much Harm Has Been Done.

Simla, Aug. 16.—The Ameer of Afghanistan has issued a firman, forbidding his subjects to join the rebels who are now in arms against the Indian Government, and the Afghan Governor of Khost has been ordered to punish the Afghans who have been raiding camels belonging to the Tochi punitive expedition.

European and native reinforcements have been ordered to Kohatim in order to overawe the Afridis.

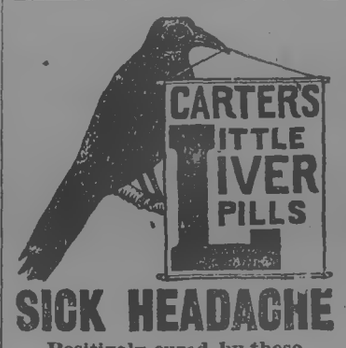
It is rumored that the Orakzais have risen in arms.

The Lady Wimett Libeled.

Buffalo, N.Y., Aug. 16.—The steam canal boat Lady Wimett was libeled by the Canadian authorities to-day at Bridgeburg, Ont., opposite Buffalo, on the Niagara River. This is the boat that tried to evade a libel of $4000 by going into Canadian waters. The libel was the result of an accident to the canal boat Niobe, in which, it is said, the Lady Wimett was at fault.

Pin History.

As a requisite of the toilet, etc., pins were first used in Britain in the latter part of the fifteenth century. They were first made of iron wire, but in 1540 brass ones were imported from France by Catherine Howard, Queen of Henry VIII. The prehistoric pin, however, was a thorn or fishbone. The natural thorn is still in use in some of the upper Egypt districts, where the Birmingham or the Connecticut article is a prime curiosity and an unpopular innovation. In the ruins of Pompeii Roman pins of bronze and hairpins of bone or ivory have been disinterred, while ancient Egypt has disclosed the indispensable article having heads of gold.



SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Quickcure

Is the quickest remedy ever known to cure Burns, Bruises, Scalds, Cuts, Sores, Boils, Sprains, Strains, etc.

The many well known people, of high standing in the community, who have spoken and written of the merits of Quickcure, show that it is an honest remedy of great efficacy.

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed the ordinary layman recognised this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

HOURS—11.30 to 4.

Death grimly bars the passage-way through the door of happiness for thousands upon thousands of wistful women. The woman whose nerves are racked by pain, and whose strength is sapped by debilitating drains, due to weakness and disease of the organs peculiar to women, cannot be happy. She is not only shut out from happiness, but death daily confronts her. Maternity, to a woman thus afflicted, is fraught with great danger. Even if she escapes with her life, it is only to live a martyr to untold agony. This is needless. Thousands of women have found a sure, and certain remedy and have spoken in no uncertain words of its almost miraculous action.

This remedy is Dr. Pierce's Favorite Prescription. It acts directly upon the organs that make wife-hood and motherhood possible. It gives them health and vigor. It stops weakening drains, allays inflammation and soothes pain. The nerves, no longer tortured, resume their natural function of directing the healthy action of all the organs of the body. Under its benign influence the weak, sickly, nervous, fretful invalid, becomes a robust, capable, helpful, amiable wife, fitted for the duties of motherhood. All good druggists sell it.

"Three years ago," writes Mrs. J. N Messler, of 1794 Vanderbilt Avenue, New York, N. Y., "I was given up by some of the best physicians in this city. They said there was no cure for me—unless I would go to a hospital and have an operation performed. I could not walk across the room for the pain in my side. I thought I would die. I took Dr. Pierce's Favorite Prescription and after I had taken three bottles I could work, walk, and ride. I could write a year and not praise your medicine enough."

Dr. Pierce's book, "The Common Sense Medical Adviser" is a treasure in any family. It contains 1008 pages and 300 illustrations. A copy FREE to every person who will send to the World's Dispensary Medical Association, Buffalo, N. Y., 21 one-cent stamps, to pay the cost of customs and mailing only. For cloth binding, 50 stamps.

THE LATEST VEHICLE

DOWNFALL OF THE HORSE—AUTOMOBILES TO THE FRONT.

Rapidly Replacing All Other Vehicles in the Streets of Paris Speed, Comfort and Safety Assured by the New Carriage's Adoption.

A Paris correspondent of The New York Herald gives the following explicit information about the strides made in the new automobile in the gay French capital:

"It will not be long before we will see almost as many automobiles rolling

through the streets of Paris as there are to-day ordinary cabs. The Automobile Company has been adding to its stock and taking advantage of the many patents now on the market, and we are pleased to be able to present to our readers a perfected account of some of the interesting trials which have been made.

"The first two pictures which we here present are well known to the Parisians. They are of the ordinary type which roll so noiselessly along the boulevards, and are adapted to a petroleum motor, the invention of M. Pretot. The coachman becomes a motorman, and there you are. It must not be understood that the plan is a definite one. The Automobile Company is giving the new patent a trial, only binds itself to a practical test on its own material, and the inventor promises in return to give entire satisfaction.

"At the same time that these trials are being made M. Bixio is making a

study of the styles of carriages built especially for automobile traction and the best method of utilizing the material on hand. The director of the company seems disposed to adopt only a new model run by electricity. Motors run by petroleum, notwithstanding all the ingenuity of the system invented by M. Pretot, have one very serious objection, which has so far been insurmountable, and that is the very disagreeable odor. If a thousand or so of these vehicles are put in circulation in Paris the streets and boulevards of the city will be infected. The shopkeepers in the immediate neighborhood of the different stations will be obliged to go out of business altogether.

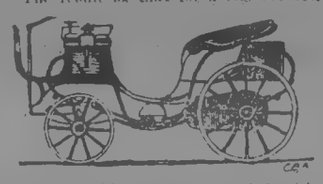
"But the present outlook seems to assure us that we need have no fear of

any such catastrophe. The number of petroleum motors put in service will be very few, and as the electric motors will be so much more preferable the petroleum ones will be done away with as soon as possible and replaced by the more desirable model.

"The Automobile Company has decided to build its new carriages on a model presented by M. Darracq, who is the director 'Les Cycles Gladiator.' The coupe designed by M. Darracq is built on the principles in use for ordinary light saving vehicles, which considerably lessens the jar. The motorman is placed behind in such a manner as to leave a clear view in front to the passengers inside.

"The body of the carriage is hung on an exceptionally rigid frame, built entirely of steel tubes. The wheels have rubber tires. It is furnished with electric lights. The accumulators are placed both in the back and front of the carriage; they are separated into a certain number of boxes, in order to facilitate their maintenance. Their total weight is about 400 kilogrammes. Their storage capacity is sufficient to run seventy-five kilometres on an even road.

"The result is, that for a city service,



where the average distance traveled without change of horses never surpasses forty-five kilometres, the weight of the accumulators can be reduced in the same proportion, that is to say, to permit of a run of twenty-five knots. A speed of fifteen kilometres an hour can be easily obtained, and, as this speed should never be surpassed in cities, it can easily be accelerated to twenty kilometres on country roads.

"Such is the new electric carriage at the present moment, and it is for us to realize all that we can possibly expect from automobile locomotion. The chariot is so built that the body is absolutely independent and can be placed at will upon a coupe or a victoria, upon the same wheels and run by the same mechanism.

"M. Boucher, Minister of Commerce, lately said, after an inspection of this carriage: 'We shall soon see our stables changed into power houses, and accumulators will replace the bags of oats. The time is near, as the writing on the wall says, when horses, as objects of luxury or necessity, will be gazed at on their way through our streets with as much surprise as we now experience when we come suddenly upon a well built automobile.'"

Her Frankness.

Miss Upta Daight—I'd like to see a man kiss me!

Wyle Doates—No doubt; but I'm surprised to hear you admit it.

CANCER CAN BE CURED.

Operations No Longer Necessary—The Disease Conquered.

The greatest discovery ever made is that given to the world by the Abbott Myron Mason Medical Company, of New York. Cancer can be cured without knife, plaster or pain. Many homes made happy. For centuries this disease has been considered incurable. The Vitalia Remedies not only cure but eradicate the disease by destroying its germs in the blood. It is a vegetable compound, and is easily taken.

The company has opened a branch office in Canada. They will mail free to anyone interested a 100-page book containing valuable information about the workings of this wonderful remedy. Canadian office, The Abbot Myron Mason Medical Co., 238 Yonge street, Toronto. In writing please mention Department C.P.

Slot Machines for Bicycles.

The coin-in-the-slot machine has now been applied to the bicycle, a public stand in Glasgow having machines so fixed that the person who hires them can only ride them so far without feeding them the required coin. A penny is good for five miles, and if a wheelman neglects to drop in his penny at the end of that distance the wheels refuse to turn.

A Movable Crematory.

A new garbage crematory is placed on wheels to be drawn around the streets and burn the refuse as it is gathered, the crematory being fitted with a drying chamber and a combustion chamber, into which acids and liquid fuel are forced to destroy the animal portion of the refuse and reduce the mass to ashes, which can be dumped on the street.

Can Work all the Time.

"My daughter was suffering with catarrh of the stomach, and tried many different prescriptions without benefit. Finally she began taking Hood's Sarsaparilla and it helped her at once. She has taken fifteen bottles and is now able to work all the time. We prize Hood's Sarsaparilla very highly." ANNA MERRILL, Eaton, Que.

Hood's Pills act harmoniously with Hood's Sarsaparilla. Cure all liver ills. 25 cents.

A Double Cure.

Mrs. Jas. E. Elwood, St. Thomas, Ont., says:—"My husband and myself have taken Doan's Kidney Pills. We used them for kidney and back trouble for which we had spent a great deal of money without getting relief. Doan's Pills cured us both in a remarkably short time. I believe they will cure even after all other medicines fail."

CASTORIA.

The Absolute signature of Chas. H. Fletcher is on every wrapper.

And all SUMMER COMPLAINTS of Children or Adults.

PRICE, 35c. Beware of Imitations

Two Emotional American Women.

If the men who become the objects of hero-worship could see the evidence of the feeling they inspire they would possibly be even more reconciled to leaving this sphere for any other, better or worse. Sometimes they do know; and then they need to exercise abundant charity.

A gentleman who has lived much abroad says that he was present on the occasion when an American woman met a famous poet. She saw the object of her idolatry. She rushed forward and struck an attitude.

"And is it possible," she cried dramatically, "that I look upon Browning?"

One feels that Dr. Johnson, in the same circumstances, would have remarked gruffly, "Don't be a fool, madam!"

Again, there are times when pathos is showered only upon the dead. T. P. Silleck says that on one of his holiday excursions he visited Mount Vernon, and there in the grounds he came upon a middle-aged lady kneeling before a building at some distance from the monument. She was bathed in tears. Mr. Silleck walked up to her and asked her if she was in trouble.

"No, sir," she said, "thank you very much. I am not in trouble, but my patriotic feelings overcome me when I gaze upon the tomb of the Father of his Country."

"I quite understand," said Mr. Silleck, gently, "but, my dear madam, you have made a mistake. This is not the tomb of Washington. It is over yonder. This is the ice-house."

And drying her tears the lady moved away.

Puny and Fretful Baby.

This is now quite unnecessary! Like others, you may have your baby fat, laughing and happy, if you give it Scott's Emulsion Babies take it like cream.

Burdock Blood Bitters.

Burdock Blood Bitters regulates the stomach, Liver, Bowels and Blood; curing dyspepsia, biliousness, sick headache, rheumatism, scrofula, and removing all impurities of the blood, from a common pimple to the worst scrofulas sore. As an invigorator and tonic, B.B.B. is an unequalled medicine

SCALY SKIN HUMOR

Body, Head, and Arms Covered With Spots Like Drops Of Mortar.

Skin Came Off in Layers. Doctors Useless. Suffered for a Year Without Relief.

Almost Given Up Hope. Cured in 8 Weeks by CUTICURA. Skin Nice and Clear as a Baby's.

I was afflicted with an obstinate skin disease, called by some doctors Eczema and others Psoriasis. My body, head, and arms were covered with spots like drops of mortar, and which came off in layers of dry scales. I suffered for over a year without relief, and consulted several doctors but without aid, and I had almost given up hope, as my case was a bad one. I happened to see an advertisement about CUTICURA REMEDIES and got them, took them according to directions, and in *eight weeks* I was as well as ever. I consider myself cured, for my skin is as nice and clear as a baby's. I cannot express in words the thanks to you for what the CUTICURA REMEDIES have done for me.

GEO. REABURN, Hanover, Ontario, Can.

CUTICURA REMEDIES are beyond all doubt the greatest skin cures, blood purifiers, and humor remedies of modern times. They are no long-drawn-out expensive experiment. A warm bath with CUTICURA SOAP, a single application of CUTICURA (ointment), the great skin cure, and a full dose of CUTICURA RESOLVENT, greatest of blood purifiers and humor cures, will afford instant relief, permit rest and sleep, and point to a speedy, permanent, and economical cure of the most torturing, disfiguring, and humiliating of itching, burning, bleeding, scaly, pimply, and crusted skin and scalp humors with loss of hair, when all else fails.

Sold throughout the world. POTTER DRUG AND CHEM. CORP., Sole Props., Boston.

"How to Cure Every Skin and Blood Humor," free.

PIMPLY FACES Purified and Beautified by CUTICURA SOAP.

LORD'S DAY CONFERENCE.

Provincial Convention on the Observance of the Lord's Day, in September Next.

The President of the Ontario Lord's Day Alliance has issued the following announcement regarding the present position of the work, and the calling of a Provincial Convention:

The Executive Committee of the Ontario Lord's Day Alliance has called a Provincial Conference on the Observance of the Lord's Day, to be held in Association Hall, corner Yonge and McGill streets, Toronto, on Friday, 10th September next, at ten o'clock a.m. This being during the Industrial Exhibition cheap fares can be obtained on all railways and steamboats.

Papers will be read and addresses given on some of the most important branches of the subject by gentlemen specially qualified to deal with them, and these will be followed by a general discussion. As it is important that the entire Christian public should be made aware of the wide extent of the evil to be combatted, and the truly Provincial character of the contest, a prominent feature will be the receiving of reports relating to Sunday traffic and labour in various parts of the province, and the consideration of the practical problem arising out of such reports. The conference will also be asked to consider plans for more fully informing the public mind upon the subject, and securing such thorough organization throughout the Province, and such vigorous and united effort on the part of the people of the Province, as shall effectively protect the Lord's Day against the attacks made upon it. In the evening there will be a public meeting to be addressed by prominent and representative speakers.

A cordial and earnest invitation to attend this Conference is extended to all persons interested in upholding the Lord's Day in our Province, whether already associated with the Lord's Day Alliance or not. Churches and other organized bodies in sympathy with the object are invited to send delegates.

Much good work has already been accomplished by the Lord's Day Alliance, but much work yet remains to be done. One most important result of its work is that at last session of the Legislature there was passed legislation prohibiting all street railways and local railway companies from running cars on the Lord's Day, with, however, two exceptions, viz., that the legislation does not apply to companies which had before 1st April last regularly run cars on Sunday, and that it does not affect the right (if any) to operate a Sunday service possessed by the Toronto Railway Company under existing legislation. Reserving in the meantime these vested cases, in which some vested interest might be thought possibly to exist, the general law of the Province is declared to be that there shall be no local Sunday traffic. Through this legislation the people of the Province have expressed their will with no uncertain sound. The practical work which the Alliance has immediately in view is to secure that the benefits of this enactment shall be extended to all parts of the Province without distinction.

However, the work for the accomplishment of which the Alliance exists is much wider, and will not have been completed until every form of unnecessary Sunday business shall have been effectual prohibited, and every class of the community under the protection of the laws of Ontario enjoy the liberty of rest and worship on the Lord's Day.

A very real and hard-fought battle is in progress between railway corporations and others, who, whether from motives of pleasure, are desirous of breaking down the Lord's Day, and those who are banded together for the purpose of preserving this God-given institution which is so essential to Christianity, to civil and religious liberty, to National strength and prosperity. In the issue of this struggle, every city, town and village in the province is interested, and every part of the province can do something towards securing that the issue shall be victory for Ontario's Day of Rest.

The committee most earnestly appeal to all friends of this great cause throughout the Province to do all in their power, by themselves attending and taking part and by securing the attendance of others, to insure the success of the Conference. Special attention is drawn to the fact that a large proportion of the time will be devoted to open and practical discussion.

The committee would also remind those interested in this work that its successful prosecution requires the expenditure of a considerable amount of money. Additional funds are urgently needed in order that the work may be extended and carried on with greatly increased vigor. Subscriptions may be sent to the treasurer of any branch of the Alliance, or to Mr. J. C. Copp, Provincial Treasurer, 21 Leader Lane, Toronto.

Mrs. S. James, Seaforth, suffered for years with what is called old people's rash. She was treated by many physicians without any result. Mr. Fear, the local druggist recommended Dr. Chase's Ointmend, which relieved the irritation at once and speedily effected a permanent cure of the skin eruption. Mrs. James also says Dr. Chase's Ointment cured her of Itching Piles which she had been troubled with for years.

TEMPORARY CHANGES

In Our Stock Arrangements.

OUR RE-BUILDING WORK NOW IN FULL BLAST!

While the bricklayers are tearing down the walls dividing the two stores we have been compelled to move part of our Clothing Stock upstairs and the Furnishing Goods and Hats and Men's Clothing to rear of the store.

BOOT AND SHOE STOCK REMOVED.

Our large Boot and Shoe Department, being too big and important to hide away about the premises, has been temporarily removed to

ROBT. HALL'S OLD STAND

385 GEORGE STREET

During the month of alteration. All will be new, bright, convenient and comfortable again for our customers in a short time.

GOUGH BROS.

THE WONDERFUL CHEAP MEN.

WE KNOW A THING OR TWO ABOUT STRICTLY....

HIGH-GRADE

BICYCLES.

If you had all the wealth of the Klondike you could not buy them in thousands at as low a price as the low grades. But you can now get them at a closer price than formerly—to clear.

Candidly, though, there are very few makes that come within the catigory "High Grade"—The "Gendron" and "Reliance" sets the pace for them all, for the realm of their birth is the best factory in Canada, and also one of the best in the United States. Devoted to the exclusive making of wheels—every part and piece that goes into construction is made specially for them and is the best that money can buy or skill design. If "Gendrons" drop in price other makes must follow, for no wheel can sell alongside it at a higher price—except to "cranks" and idiots.

We are offering these wheels at cost now together with the "Columbus" make.

Call and see our Cost Price—it is bonafide—but not for publication

FAIRWEATHER & CO

Bicycle Dealers,

TORONTO - - - PETERBOROUGH

LAKEFIELD.

From Our Own Correspondent.

Miss Wade, of Peterborough, is visiting friends here.

Miss Mena McIlmoyle, of Ottawa, is home visiting her mother.

Mr. Bruce Saulter, of Toronto, passed through here on Monday for a holiday at Stony Lake.

Mr. J. C. Forgie, Miss Forgie, Miss Reesick, Mr. H. Minaker and Rev. John Orr, of Pittsburg, who have been spending two weeks at Viamede Park, returned home on Tuesday.

Mr. Jas. D. Graham, M.A., of Pasadena, California, is home on a visit to his father, Mr. R. Graham.

Mr. Roland Strickland, Jr., is home on a visit to his father, Mr. R. C. Strickland.

Miss Minnie Caddigan, of Peterborough, is visiting Mrs. H. A. Mulhern.

Mrs. Geo. A. Baptie, who has been visiting friends in Belleville, returned home on Monday.

Mr. G. A. Strickland returned on Tuesday evening from his trip to England.

The "One o'clock rest" camp came down from the lakes on Monday after a two weeks' stay at Jubilee Point.

The guests of Viamede chartered the steamer Sunbeam last Friday and made the trip to Chemong, where they had dinner, returning in the evening after a pleasant sail through the lakes.

The new arrivals at Viamede Cottage, Mount Julian, Stony Lake, this week are: Rev. J. B. Carruthers, Mrs. Carruthers, Paul Carruthers, Miss Mary Carruthers, Rev. John S. Helm, Pittsburg, Pa.; R. B. Rice, Mrs. Rice and Wilfred Rice, Toronto; Miss Helen J. S. Craick, Port Hope; Mrs. McGill, Washington, D. C.

Fishing at Viamede has been good this season both for bass and maskinonge.

Mrs. Reynolds, who has been visiting friends in Toronto; returned home last week.

Inspector Strickland, of the Northwest Mounted Police, left this week again to take a contingent of Mounted Police to the Yukon District. His brother, Roland Strickland, jr., will leave next week to accompany him.

Mr. Harry Frise, of Brighton, passed through here on Tuesday on his way home from Stony Lake.

Mr. R. Graham and family, with Mr. Sas. Graham and family, are occupying Grassy Island Lodge.

Mr. T. C. Ridpath has returned from the J. J. Mitchell Cutting School, New York, where he had been taking lessons in cutting and passed a very successful examination.

R. Graham & Son are making clearing prices on the balance of their summer stock. They are now showing a fine lot of Baking Powder prizes.

The taxes are being paid to the collector lively just now, as after the 17th five per cent will be added.

Bicycles are running on the sidewalks again. Have the council repealed the by-law? If not, why not enforce it?

The Golden City, which meets the morning train this week, is still carrying crowds of people up the back lakes. There should be a large influx of visitors on Thursday and Friday to witness the regatta at Stony Lake.

Where will you find a pleasanter excursion than a round trip on the steamer through our chain of lakes.

Court Lakefield No. 43, C.O.F. meets on Thursday evening of this week at 8 o'clock.

The steamer Crandella, of Lindsay, brought an excursion here Tuesday evening of Port Hope people, who went down on the evening train.

ONE HONEST MAN.

DEAR EDITOR,—Please inform your readers that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest home cure, by which was permanently restored to health and manly vigour, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy.

Address with stamp:
WM. T. MULFORD, Agents' Supplies,

The great Sail, Tent, Awning and Flag Manufacturer, George Street, Peterborough.

Telephone 180 or 215. Day or night.

WHERE THE SHOE PINCHES.

Wearing Shoes does not afford much pleasure to people who buy the factory made kind. How can it be otherwise? All feet are not alike, any more than all faces. Unless made to your measure, they pinch your toes, press your favourite corn, squeeze the ingrowing toe nail, inflame the heels, and make your feet sweat, swell and ache.

CAREY'S SHOES don't do that—they fit your feet, give you everlasting comfort, make walking easy and cost less. They are not stamped on the soles, but stamps don't improve the fit or wear.

CAREY, The Shoe Architect, SHOP—450 George Street.

Now we Have Set the Hammer Swinging

Big prices and fat monopolies must go. The People's Grocery Store is doing the business. The public know when they are well served and come in crowds to the store, 323 George street, where they get the good things to eat; nice people to wait upon them. You may smile when you see the piles of Boxes, Barrels, and packages of goods. Our lessor called this week to see us and was surprised to see the store packed with goods, and has intimated to us that he will extend our facilities for doing business. As a result the plumbers, painters and paperhangers are at work. A line of new shelving must go up as we have no place to display goods. All we want is a visit from the people. All are invited—rich and poor come and buy. Quoting prices is a mockery. We will give you the best and cheapest lines of Groceries, Teas, Sugars, Coffees, Spices, Hams, Bacon, Butter, Eggs, Lard, Poultry, Oranges, Lemons, Bananas and all kinds of provisions, &c Remember the address—

MURDER OF MRS. ORR

The Spade Used to Dig the Grave Discovered.

HAIR AND BLOOD FOUND UPON IT

Young Allison Has Been Formally Charged With the Crime Strong Circumstantial Evidence Produced at the Inquest—Trevelyan Told a Straight Story.

Galt, Aug. 19.

—Day by day the mystery of the Emma Orr murder is apparently being cleared up. Day by day the chain of circumstantial evidence connecting James Allison, the hired boy, with the murder grows stronger. Although the evidence at the adjourned inquest to-day was not as startling as was generally expected it would be, it certainly strengthened the case against the boy, and there is but little doubt that when the inquest is concluded to-day he will be committed for trial.

The excitement over the case was heightened by a rumor set afloat during the afternoon that Alexander Allison, the father of the prisoner, had attempted to commit suicide by taking strychnine, as he manifested symptoms of acute poisoning. The doctor who was called, after administering morphine, concluded that no poison had been taken, but that the man had only taken a violent fit, brought on, no doubt, by worry over the awful position his son has been placed in.

The bulk of the evidence has been taken, and it is generally admitted that it is sufficient to warrant the jury in committing the boy for trial. The sensation of the day was the finding of the spade with which the grave in the corn patch was dug. It was found this morning by an old man named Anthony Marshall secreted under a feed box in the passage way between the horse stable and the cow stable. On close examination a number of hairs were found on it, and these were found to be identical with the woman's hair. Dark, reddish spots were also discovered on the spade, and the soil that clung to it was of the same sandy nature as the soil in the corn patch.

The prisoner was brought before Magistrate Turnbull this morning and remanded until Monday at 11 a.m. The charge against him is preferred by Chief Ahearn, and states "That he hath just cause to suspect and believe, and doth suspect and believe, that James A. Allison of the Township of North Dumfries, in the County of Waterloo, farm servant, within the space of one month last past, to wit, on the 9th day of August, 1897, at the Township of North Dumfries, in the County of Waterloo aforesaid, did feloniously, wilfully and of his malice aforethought, kill and murder one Emma Orr."

John R. Blake, counsel for the prisoner, asked permission to have the boy's hair cut and to provide him with better clothes, as the newspapers were commenting upon his personal appearance. He also made complaint of the cells in which Allison is detained and Magistrate Turnbull agreed with him that they were unfit to keep any white man in. It was decided to take him to Berlin, and he was accordingly taken there by High Constable Klippert after the inquest to-day. He will be brought back to Galt to-morrow to be present at the inquest.

The inquest was resumed at 1 o'clock to-day. The council chamber was again crowded with townspeople and farmers, showing that interest in the mystery is still at fever heat.

Harry Blair was recalled and again questioned as to the time he visited the Orrs on Saturday. He swore that he arrived there about 9 o'clock. He drove in a covered carriage. On Monday he arrived at the Orrs at 11 o'clock or a very few minutes after. He used the same carriage on this occasion and could not recollect meeting John Roddy, the milkman. He could produce witnesses to prove that he was not at the Orr farm between 8 and 9 o'clock that morning.

"Well, I think it is in the public interests that you should produce those witnesses," said the Crown Attorney.

Lawyer Card, for Mr. Blair, said he would have these witnesses on hand to-morrow. He could have had them present had he known they would be required.

John Roddy, the milkman, a typical-looking rustic, swore that he always delivered milk to the factory at 9 o'clock and never later than 9.30. He knew Harry Blair and saw him in Orr's the last Monday.

"Are you sure it was last Monday?" asked the Crown Attorney.

"Yes, it was last Monday."

This information created a laugh in the room, as this would make it a week after the tragedy that witness saw Blair. On further questioning, Roddy maintained that it was on the morning of the tragedy that he saw Blair, but he could not tell how many days ago that was. His evidence was so confused and unsatisfactory that the Crown Attorney ordered him to step aside.

Mrs. John Barrie, who lives next to Anthony Orr, testified that she saw Mrs. Orr on the Sunday before the tragedy. She was present when the body was taken out of the ground. She helped to take the clothes off and wash the body. James Allison came after her the day Mrs. Orr disappeared and told her of the disappearance. She went over to help in the search and take care of the house. She knew nothing that would help clear up the mystery.

Great expectations were built up on Robert Stalker's evidence, but they failed to materialize. He swore that he had recently been working for Peter Pentland, and was working at Pentland's building, a driving shed, on the morning of the tragedy. He drove to Pentland's from Beverley, arriving in time to get his breakfast and go to work at 4 o'clock. He worked there all forenoon with Peter Pentland in full view of the house. The buggy was in the yard and the horse in the stable. He got dinner at Pentland's and worked there all the afternoon. He went to Orr's for the first time on Friday. He denied most positively that he was at the Orr farm on the morning of the tragedy, and produced a list of names of people who could swear that he was at Pentland's all that morning. Stalker then gave a statement of what occurred after he arrived at the Orr's at 4 o'clock on Friday. His evidence simply proved to be a statement of his suspicions about the boy. Allison's father had told witness that if the boy took after his dad he would know enough to keep his mouth shut. Witness had a long talk with the boy, but could not get much out of him. He thought him a very curious boy. Stalker positively denied that he had been in the lane at Orr's on Monday morning, as stated by young Allison, and as for the identification in the cells, he could prove that he had not had on the clothes he wore that evening until the previous Wednesday, whereas Allison said that the clothes were the same as on the Monday morning. Witness also positively denied that he had ever threatened Allison, that he would ever "lick the devil out of him" if he told what he knew. The rest of Stalker's evidence was a mass of uninteresting details.

Langdon Wilks told of how nervous Allison was when he was brought to look at the grave in the corn patch.

Robert Dryden testified to having met Allison about half way between Orr's and Barrie's with the cows at about 8.45 on Monday morning. He was going towards Barrie's.

Robert Barrie asked Allison where Mrs. Orr had gone, and he had replied that he did not know, but that the gun had gone and one cartridge, and that perhaps she had given it to some one to shoot her with.

Waldron Sidney Trevelyan, who was released from custody on Tuesday, gave a straightforward account of his previous life at Galt and of his movements and whereabouts on the morning of the tragedy. He admitted visiting the Orrs two or three times a week since he last came to Galt. He was last there on the Friday before the tragedy, and that was the last time he saw Mrs. Orr alive. He never gave her any drug or used any instruments on her. Witness related the conversation in the cells when Allison claimed to identify Stalker as the man whom he had seen in Orr's lane on the morning of the tragedy. Witness was also present when Allison made a voluntary statement to Detective Murray and Chief Ahearn after being warned. The statement was put in writing and Allison signed it. In the statement Allison denied all knowledge of seeing the gun after the tragedy. Trevelyan refused to tell the coroner under what name he was registered at McGill College, but said his proper name was Alfred Albert Andrews.

"You have given your evidence in a very creditable manner," was the Crown Attorney's parting compliment to Mr. Trevelyan.

Mrs. Robert Dryden corroborated her husband's testimony.

Mrs. John Orr swore that she had heard a gun shot about 8 o'clock on the morning of the tragedy. She knew it was about 8 o'clock because it was just after the train from Berlin had whistled.

Despatcher Frank B. Stewart was called, and showed by his books that the train had left that morning at 7.55 as usual.

Constable Adam Kay, who had charge of the prisoners in the cells, told of the conversation there. He had asked Allison why he had told a certain party that a man had threatened him. Allison at first denied that he had made this statement, but afterwards admitted it. Prisoner could not tell Trevelyan what kind of clothes the man who threatened him wore, but said he had on a felt hat. Prisoner had told witness that he saw no blood stains on the chips in the yard, but there were some dark spots on them. Prisoner also said he had noticed a club up against the fence. The club, he said, was wet at the big end. As for the gun, prisoner had told witness that he had found it standing against the wood pile when he returned from Barrie's with the cows, and that he had taken it down to the stable.

James Curliss testified how Allison had told him two different stories about the gun.

George Barrie swore that Allison had arrived at his place with the cows at about 8 o'clock. He had not looked at the clock, but Allison arrived just as Milkman Roddy was leaving, and Roddy was always there about 8 o'clock. To the best of his judgment Allison left at about 8.30.

LUMBER INTERESTS

Considered at an Important Meeting in Toronto.

ONTARIO GOVERNMENT PRAISED

For Stipulating That the Timber on Limits Lately Sold Should be Manufactured in Canada—The Lumbermen Want Exportation of Logs to be Restricted.

Toronto, Aug. 20.

The present condition of the lumber trade is a source of much speculation to those engaged in the business, and, in order to find out where they are at, a very large gathering of lumbermen took place in the Board of Trade building yesterday, in response to a circular sent out a few days ago by the secretary of the Board. Both the Ottawa Valley and the Georgian Bay districts were well represented.

Among those present were: C E C Newton, C W Newton, Frank Weston, Midland; G W Ranney, William Irwin, Peterboro; P. McShirry, Stayner; William Milne, Trout Creek; C G Anderson, Woodstock; John P Newman, Robt. Watt, Wiarton; J E Murphy, Hepworth; Robert J Clarkson, W R Beatty, M L A, Parry Sound; Charles D Warren, Toronto; Robert Jackson, Orillia; F R Wallace, Victoria Harbor; J J McNeil, Gravenhurst; John J Hall, George A Anderson, J G Cane, H N Price, Toronto; W E Begwood, Wanmapitae; W C Mahaffy, A McLeod, F R Potter, Bracebridge; C A McCool, Geneva Lake; J C Wells, Toronto; N Dyment, Barrie; A E Dyment, Thessalon; Robert Laidlaw, Robert Booth, John Waldie, Toronto; Thomas Hale, Pembroke; A L N Weller, Ontario Lumber Company; George Gall, Toronto; R T Steele, Hamilton; W J Ard, R Cook, South River; James L Burton, Barrie; H McDonald, Thessalon; W C Hughson, A H Campbell, jr, Toronto; W A Charlton, Lyndoch; W H Pratt, Parry Sound; E J Harrison, Owen Sound; Capt Morden, Oakville; W Stoddart, Owen Sound; A McCall, Simcoe; Robert Connelly, Eau Claire; R Bunyan, North Bay; B Ryan, Toronto.

Col. John I. Davidson was unanimously voted to the chair.

In his opening remarks, the chairman said he could not understand why he had been asked to take the chair, unless it was because he had paid for some experience in the lumber business. He explained that the meeting had been called for the purpose of seeing what steps should be taken by the Government in respect to the export duty on logs and an import duty on lumber.

In order to obtain the views of those present, Ald. John Scott moved and Mr. John Bertram seconded the following resolution:

"That, whereas the Government of the United States has imposed an import duty of $2 per thousand feet on sawn lumber, has made special provision in the tariff that a still higher import duty may in a certain event be imposed on sawn lumber, that Government has not imposed an import duty on sawlogs; and, whereas by the present Canadian tariff sawn lumber is admitted into Canada free of duty, and the said Canadian tariff permits the export of sawlogs free of duty, the effect of such tariff arrangements is highly injurious to the true interests of the owners of sawmills in Canada, the Canadian workmen and Canadians generally, as tending to transfer the sawing of lumber from Canada to the United States; be it therefore

"Resolved, That in the opinion of this meeting the exportation of sawlogs should be restricted, and, with that object in view, the Government of the Province of Ontario be requested to so amend the pine timber regulations that all pine timber cut under license in the Province of Ontario shall be manufactured in Canada."

In speaking to his resolution, Ald. Scott said that he was pleased the Ontario Government had inserted a clause in the regulations governing the sale yesterday providing that the timber should be manufactured in Canada and those who purchased limits did so on this understanding. Mr. Scott went on to argue that there is not a change made in the American tariff that is not done with the view of crushing Canada, and contended that if Canadians do not assert their rights the business will gradually grow worse.

Mr. John Bertram also gave many reasons why the resolution should carry.

Then up rose the mighty forces from the Ottawa Valley, nearly all of whom are opposed to an export duty on logs. The onslaught was led by W. Q. Edwards, who claimed that the agitation for an export duty arose in Western Ontario, and he did not think it would be fair for the Government to be influenced by the action of the present meeting, as the whole province was not represented. He was strongly opposed to the resolution, as if he went to the United States and bought under certain conditions certain properties it would be a crime for the Government to make a law preventing him from taking the property out as he pleased. He hoped the day would never come when the Government would pass such a regulation as was asked for in the resolution. He considered it would strike a deadly blow to Canada.

John Charlton, M.P., also opposed the resolution, saying that its adoption would result disastrously. To prohibit the export of saw logs may have the effect of Congress taking action to prohibit the import of lumber into the United States. He contended that the question was a business one, and section 21 should be discussed, and that it should be dealt with on broad principles. He advocated the matter being left over for some time, and, in order to get the sense of the meeting on the matter, presented the following amendment, seconded by Mr. Campbell:

"That in the opinion of this meeting,

LAXA-LIVER PILLS

CURE

BILIOUSNESS
CONSTIPATION
SICK HEADACHE
AND ALL LIVER TROUBLES

AS a laxative, one pill acts perfectly, and if a stronger action is desired a cathartic effect is produced by two pills. In obstinate cases, where a purgative is necessary, three pills will be found sufficient. These pills leave no unpleasant after effect.

One pill taken each night during thirty days will cure constipation.

PRICE 25C. OR 6 FOR $1.00

STEEL WAGGON TRACKS.

The narrow tires of heavy farm and freight waggons are the ones that do the most serious damage to country roads, especially during or after heavy rains, or when the frost is coming out of the ground in the spring. A single waggon track, but slightly depressed below the general surface, forms a channel in which the water will stand on the level and down which it will run on the hills, softening or cutting out the material of the roadway, and preparing the way for the traffic to grind out a couple of deep and unsightly ruts. These results are seen at their worst in a country where the soil is alluvial or clayey, and on any road except a first-class macadam the destruction of the surface by the formation of ruts is only a question of time. The adoption of broad tires on all waggons, and care in filling the ruts, would mitigate the evil; but as things go to-day in most country districts these remedies are conspicuous by their absence.
